WRIT OF SCIRE FACIAS BY THE SUPREME COURT  
OF PENNSYLVANIA.

IN THE

SUPREME COURT OF PENNSYLVANIA.

FOR THE EASTERN DISTRICT.

Nos. 311, 312. January Term, 1930.

Beatrice Vinnacombe and Joseph Vinnacombe,

v.

The City of Philadelphia,

Defendant,

and American Stores Company, Joseph Langman and Elizabeth  
Langman,

Additional Defendants and Appellants.

Appeals From Orders of the Court of Common Pleas No. 2 of  
Philadelphia County, as of June Term, 1926, No. 1435.

## OPINION OF THE COURT.

SIMPSON, J.

Alleging that she had been injured by reason of a defect in a footway pavement in the city of Philadelphia, plaintiff and her husband sued the city to recover damages for the injury she had sustained. Claiming that the Act of April 10, 1929, P. L. 479, gave it the right to bring upon the record, as additional defendants, those who would be liable over to it if a recovery was had against it in that suit, the city filed two affidavits therein, one alleging that the owners of the property had failed to keep the pavement in repair, and hence were thus liable over; and the other alleging like facts and liability regarding the tenant in possession; and caused two writs of scire facias to be issued therein, one against each party. Each was duly served and entered an appearance. The court below refused to quash the writs of scire facias or to dismiss the proceedings as to either defendant, whereupon each prosecuted one of the present appeals.

The Act of 1929 is as follows:

"An Act to regulate procedure where a defendant desires to have joined as additional defendants persons whom he alleges are liable over to him, or jointly or severally liable with him, for the cause of action declared on.

"Section 1. Be it enacted, &c., That any defendant, named in any action, may sue out, as of course, a writ of scire facias to bring upon the record as an additional defendant any other person alleged to be liable over to him for the cause of action declared on, or jointly or severally liable therefore with him, with the same force and effect as if such other had been originally sued, and such suit shall continue, both before and

after judgment, according to equitable principles, although at common law, or under existing statutes, the plaintiff could not properly have joined all such parties as defendants."

As an owner, or tenant in possession, is primarily required to keep in repair the footway pavement in front of the property owned or occupied by him, one or the other of these appellants may be liable over to the city for any recovery which may be had against it in the present suit: *Phila. v. Reading Co.*, 295 Pa. 183; *Phila. v. Merchant & Evans Co.*, 296 Pa. 126. Hence, the question for us to decide is whether or not the statute is constitutional and applicable. In construing it, two things are plainly apparent: (1) The act is a remedial one. Its purpose is to avoid a multiplicity of suits; to compel every interested person to appear and defend the action by plaintiff; and to save the original defendant from possible harm resulting from loss of evidence, as might result if compelled to await the end of the suit before proceeding against those who were primarily liable in whole or in part. Hence the statute is to be liberally construed to advance the legislative purpose: *Fulton Farmers Association v. Bomberger*, 262 Pa. 43 47; *Duggan v. Duggan*, 291 Pa. 556. (2) Nothing in the act shows the slightest intention to affect plaintiffs in such suits. Consequently, the adding of additional defendants will give no higher right to plaintiffs than they had before. As to them the action proceeds against the original defendant only, exactly as it would have done if the additional defendants had not been named, except that the court below, in the exercise of a sound discretion, should give to the original defendant, who acts promptly, a reasonable extra time to bring the additional defendants upon the record, before being required to file an affidavit of defence or plea. It follows, that no question can arise as to an implied repeal of the statute of limitations as between the additional defendants and plaintiff.

The only other objections which require consideration, are those which allege that the statute does not apply to actions of trespass, that it is prospective only, and that it violates article III, section 3, and article III, section 7, of the State Constitution. The statute says it applies to "any action," and this of course includes actions of trespass. That it also says the "suit shall continue, both before and after judgment, according to equitable principles," is no more than to say that it is to proceed according to the long settled principles of Pennsylvania jurisprudence, (*Laussatt on "Equity in Pennsylvania,"* 1st Annual Report of Penna. Bar Association, page 221; *Lawrence Lewis, Jr.*, on "The Courts of Pennsylvania in the 17th Century," *Ibid.*, page 353; "Pennsylvania Jurisprudence" by Hon. John W. Simonton, *Ibid.*, page 3; *Wain v. Smith*, 1 *Phila.* 362, per *Hare J.*), the legislature evidently deeming it wise to so state, because plaintiff had no legal right to join "all such parties as defendants." Nor is the statute prospective only. It is procedural in its nature; hence "it is applied, as of course, to litigation existing at the time of its passage"; *Kille v. Reading Iron Works*, 134 Pa. 225, 227; *Kuca v. Lehigh Valley Coal Co.*, 268 Pa. 163, 166. Nor is anything in the alleged constitutional objections, since even a casual glance will show that the statute contains but "one subject, which [is] clearly expressed in its title," and that it is not a local or special law . . . regulating the practice . . . in any judicial proceeding," but, on the contrary, is a general one regulating every such proceeding where the liability referred to in it may appear. It might just as well be said that a procedural act is special which applies to every action of assumpsit, because it does not apply also to actions of trespass. What has been said disposes of the appeals and requires an affirmance of the

judgments; but it may not be inappropriate to outline the procedure under the statute, where, as here, no rule of court governs it.

The act does not require that the manner in which the liability over to defendant arises, shall be set forth in the preliminary proceedings, leading up to the issuance of the scire facias, any more than this is required in the institution of an ordinary suit. It simply specifies that the original defendant shall allege that the additional defendants, sought to be added, are so liable. It will be sufficient, therefore, if the original defendant files a præcipe for the writ in substantially the following form:

"(Caption of case)

To the Prothonotary of said Court,

Issue a writ of scire facias in accordance with the provisions of the Act of April 10, 1929, P. L. 479, to bring upon the record as additional defendant<sup>1</sup>..... whom defendant alleges is liable over to him [or jointly or severally liable with him, as the case may be] for the cause of action declared on in this case, to the extent of the whole [or a stated part, as the case may be] of the amount which may be recovered therein against him, for the reason that [here briefly state the reason why defendant claims that the additional defendant is thus liable<sup>2</sup>]. Returnable sec reg

.....Attorney for Defendant."

Upon this præcipe a writ may be issued in substantially the following form, this court having power, under section 3 of the Act of June 16, 1836, P. L. 784, 786, to devise and establish it:

"The Commonwealth of Pennsylvania

to the Sheriff of the County of

..... Greeting:

Whereas in a case pending in our Court of Common Pleas of said County of .....

as of ..... Term, No. ....

wherein ..... is plaintiff

and ..... is defendant, the said plaintiff has brought suit to recover a judgment against said defendant for the cause of action set forth in the statement of claim therein, as by reference to said statement, attached to the copies of this writ, will fully and at large appear. And whereas the defendant in said suit alleges that

..... is liable over to said defendant, [or is jointly or severally liable with said defendant] for the cause of action declared on in said suit, for the whole [or a stated part] of any amount which may be recovered therein against said defendant, by reason of the fact that [here briefly set forth the reason alleged, substantially as set forth in the præcipe] and hence should be brought upon the record as additional defendant as provided by our Act of April 10, 1929, P. L. 479. Now, therefore, we command you that you make known to said ..... by service upon him of a copy of this writ and said statement of claim that he is required, within fifteen days after the receipt of such copies, to enter a written appearance, in person or by counsel, in the office of the prothonotary of our said Court at

..... and is also required, within said fifteen days, to file in said office an answer, under oath,

<sup>1</sup> Throughout the præcipe and the writ of scire facias based on it, the plaintiff, defendant and additional defendant are stated as if each was but one person of the masculine gender, if there are more than one of either class all should be inserted in the appropriate place or places, and the gender should be changed and the plural form used wherever necessary.

<sup>2</sup> The following will serve as illustration of that which is required to be inserted: (1) in the instant case it might be: "said additional defendant, is owner of the property No. 5931 Market Street, in the city of Philadelphia, and hence is primarily responsible for the defect in the footway pavement in front of said premises, which plaintiff alleges caused the injury for which that suit is brought." Or (2) "the alleged improper construction, which it is charged in said suit resulted in plaintiff's loss, consisted of bad and imperfect plastering for which said additional defendant is responsible under his contract with defendant, dated January 1, 1929." Or (3) "said additional defendant is a prior endorser to defendant upon the promissory note for which said suit is brought." Or (4) "said additional defendant is jointly or severally liable with defendant on the bond for which said suit is brought." These are, of course, but illustrations, the præcipe, at this point, must set forth the actual facts upon which defendant bases his claim regarding the liability of the additional defendant or defendants to him.

admitting, or fully and specifically denying, with the reasons therefore, his liability over to said defendant [or his joint or several liability with said defendant] for the whole [or a stated part] of any recovery which may be had against said defendant in said suit. And have you then and there this writ.

Witness the Honorable .....

President Judge of our said Court, this .....

day of ..... A. D. 19.....

Prothonotary."

The issues raised by the scire facias and the proceedings following it, are between the two classes of defendants only, and are, in form and effect, in assumpsit (*Phila. v. Reading Co.*, 295 Pa. 183), whether the original proceedings are in assumpsit or trespass. Hence, if the additional defendants are served and do not appear, or don file an affidavit of defence, the original defendant may enter a judgment against them for want of an appearance or an affidavit of defence, as the case may be, after which the case will proceed to trial as between plaintiff and the original defendant. If the additional defendants appear and file an affidavit of defence, any clearly defined issues of fact which are raised thereby, or by any amendments thereof, should be tried at the same time as the issues between the original parties are tried; but if no such issues of fact are raised, judgment may be entered for want of a sufficient affidavit of defence, or, if the two classes of defendants agree on the facts, the court may enter the appropriate judgment as between them, in either event, without awaiting the result of the trial as between the original parties.

If, at the trial, the jury find a verdict in favor of the original defendant, they need go no further; but if they find in favor of plaintiff, they should also specify in their verdict (if there are issues then pending between the original and additional defendants), whether or not the latter, or any of them, are liable over to the original defendant, or jointly or severally liable with him, for the amount awarded to plaintiff, and the extent of such liability, and the cause should thereafter proceed to final judgment as in other actions; the court having the right, however, to grant a new trial to, or to enter judgment non obstante veredicto in favor of, any one of the parties, without disturbing the other verdict in the case. Whenever the final judgment is in favor of the original defendant, the judgment against the additional defendants, if one has been entered, should be stricken off on motion; but if it is adverse to both the original and the additional defendants, plaintiff, upon receiving satisfaction from the original defendant, should mark the suit to the use of the latter, and the additional defendants will be liable to and execution may issue against them at his instance, for the proportion of the recovery adjudged to be payable by them, without any further proceedings being required to establish such liability.

In the instant case, defendant did not proceed exactly in the way hereinbefore provided, but since the additional defendants were duly served with the several writs of scire facias and have appeared to the action, by leave of court the writs may be amended and the additional defendants required to file affidavits of defence thereto, after which the case will proceed exactly as it would have done had the preliminary proceedings been conducted in the manner above set forth.

The orders of the court below are affirmed.

#### REASONS FOR PARDONS GRANTED BY THE GOVERNOR FROM JANUARY 1, 1929, TO DECEMBER 31, 1930.

Commonwealth of Pennsylvania.

Governor's Office.

Harrisburg, January 6, 1931.

To the Honorable, the House of Representatives of the Commonwealth of Pennsylvania:

I have the honor to present herewith the reasons for pardons granted by me from January 1, 1929, to December 31, 1930; also the reasons for remission of a fine.

JOHN S. FISHER.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 11, 12, and 13 December Term, 1919, in the Court of Oyer and Terminer in and for the County of Northampton, Antonio Sanchez Lopez was convicted of felonious assault with intent to kill, on three different persons, and on December 11, 1919, was sentenced in the aggregate to pay a fine of \$150.00, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than fifteen years, nor more than twenty-one years.

The applicant is forty-three years of age, a native and subject of Spain, and a mechanic by trade. At the time of his arrest he was employed as a machinist and resided in Bethlehem. He is unmarried.

In January 1919, Mrs. Carrie Forker (the applicant's landlady), residing in Bethlehem, lost some jewelry. The applicant was charged with having stolen it. He was convicted of the offense, sentenced, and upon his release from the Northampton County Prison, after the expiration of his sentence, on November 29, 1919, he returned to his boarding house to claim his trunk, clothing and other belongings. The landlady refused to give him his property unless he paid her \$500.00, which she claimed was due her for the loss of her jewelry and for the rent of his room while he was in jail. The jewelry was supposed to have been returned to her by the police (who apparently confiscated it), and the charge for storing the applicant's belongings while he was in jail was clearly unjust. Mrs. Forker, for the loss of the jewelry, had brought attachment proceedings against the applicant, and obtained an attachment execution against the bank, on which the bank paid the sum of \$310.16, representing the applicant's savings, including three Liberty Bonds of \$50.00 each.

The applicant learned from the bank that all of his savings had been attached. He returned the next day to the boarding house and again claimed his belongings, but the landlady refused to surrender them. The applicant testified that he had decided to leave town to go to work in the mines and for the purpose of self-protection there he bought a gun. When the landlady refused his request for the return of his property he became enraged and lost his self-control. He grabbed a hatchet and assaulted his landlady and her mother. As he was leaving the house, his road was barred by a neighbor and the applicant fired a shot at him. None of these persons suffered any permanent injury or were in any way permanently incapacitated. Although convicted of assault with intent to kill, the applicant did not use the gun against the women, although he had it in his possession at the time.

The applicant has now served nine years and one month of his term in prison. His prior record was good, with the exception of his conviction for larceny. His prison record has been good as shown by letters on file with the Board. The applicant's parents, seventy-six and seventy-one years of age, residing in Spain, are in infirm health and anxious to have their son with them during their declining years. The Spanish Consul at Philadelphia, by letter filed, has undertaken to see that the applicant is returned to Spain on the first steamer bound for Cadex, without cost to the Commonwealth, in the event that he is pardoned.

In consideration of all the circumstances of this case; the prior good record of the applicant, with one exception; the term of imprisonment already served; because of his excellent prison record; because his aged parents in Spain require his presence in their declining years; in consideration of the further fact that the Spanish authorities have undertaken to return the applicant to Spain, if pardoned, without cost to the Commonwealth, we have concluded that he has been sufficiently punished and if now released he will prove himself a useful and law-abiding member of the community.

We, therefore, "after full hearing upon due public notice and

in open session," recommend that a pardon be now granted to the said Antonio Sanchez Lopez.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 2 and 3 March Term 1920, in the Court of Oyer and Terminer, in and for the County of Indiana, Tony Minkovitch pleaded guilty to voluntary manslaughter and on June 21, 1920, was sentenced in the aggregate to pay a fine of \$1000.00, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than ten years nor more than twelve years.

The applicant is thirty years of age, a native of Poland and owes allegiance to that country. He is a machinist by occupation and was employed as such by the Valley Mould Company of Black Lick, Indiana County, and resided at Black Lick. He is unmarried.

On February 22, 1920, the applicant worked a half day and in the evening of the same day he spent several hours in the company of two friends. About 8:00 o'clock in the evening he returned to his boarding house and found there two men, Yohem Postvoyte, alias Yost Hosti, and Paul Leiko who were very much intoxicated. Leiko offered the applicant a drink of moonshine but he refused to take it. Leiko then told the applicant that if he did not take a drink he, Leiko, would pour it on his head. The applicant laughed at Leiko, who then poured the liquor on the applicant's head. The applicant pushed him away knowing he was very much under the influence of liquor. Leiko and Postvoyte then became very loud and angry. The landlady called the applicant to another room and told him to humor the drunken men and induce them to leave her house. His efforts were unavailing, so he went out on the porch and laid on a box as if to rest. Suddenly Leiko and Postvoyte appeared. Leiko picked up a "Pop box" and tried to hit the applicant on the head but a third man appeared and prevented Leiko from doing this. Leiko, in a frenzy of rage, hit the applicant on the mouth with his fist. He was a man of great strength and weighed about two hundred pounds. The applicant then tried to calm Leiko but Postvoyte started to attack him while Leiko held the applicant. The latter was battered about the face by Postvoyte and finally broke away and began to defend himself with a penknife, with the result that both of his assailants died later from the effects of knife wounds. The applicant was only twenty years of age when this occurred.

The applicant has now served eight years and seven months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent, as shown by a letter from the Deputy Warden.

The trial Judge has gled with the Board a letter in which he states that the applicant has been punished with as much effect as if he had been required to serve the full minimum sentence. He adds that there was great provocation and passion clearly constituting voluntary manslaughter. He states that in his judgment the ends of justice would be fully met by his release, and recommends a pardon.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because of his excellent prison record; because of the recommendation of the trial Judge, we have concluded that he has been sufficiently punished and if now released he will prove himself a useful and law-abiding member of the community.

We, therefore, "after full hearing upon due public notice and

in open session," recommend that a pardon be now granted to the said Tony Minkovitch.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2, May Term, 1922, in the Court of Oyer and Terminer, in and for the County of Washington, Antonio Palmese pleaded guilty to an indictment charging him with felonious and statutory rape, and on April 3, 1922, was sentenced to pay a fine of \$1.00, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than ten years nor more than twelve years.

The applicant is thirty-one years of age, an Italian by birth, but came to the United States in 1913, took out his first citizenship papers and served with the United States Army during the World War, thereby becoming a citizen of the United States. He is unmarried. At the time of his arrest he was employed as a weighing clerk by the Coshocton Iron Works, Forward Township, Allegheny County, and was so employed since the year 1913, with the exception of the time served in the army. At the time of his arrest, he lived with his sister and her husband, James Pizzutelli, in Monongahela City, Washington County.

The applicant was charged with ravishing Frances Pizzutelli, a niece of his sister's husband, 13 years of age. He was clearly guilty of statutory rape. The offense was committed on or about May 15, 1921, at which time the applicant was 24 years of age. After the commission of this offense the applicant married, and forty-five days after his marriage he was arrested and charged with the aforesaid crime. As a result of their illegal act, the girl became pregnant and was delivered of an unborn child by means of an operation. She now resides with her parents in Monongahela City.

The applicant has now served six years and nine months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the trial Judge in which he states that the father of the girl involved informed him that he desires the applicant to be pardoned. In consideration of the fact that the applicant, if released, has promised to leave Washington County and to remain away, the trial Judge is favorable to pardon. The trial District Attorney has also filed with the Board, a letter in which he recommends pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because the father of the girl through the trial Judge asks for clemency; and in further consideration of the fact that the trial District Attorney and the trial Judge are favorable to pardon, we have concluded that he has been sufficiently punished, and if now released will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Antonio Palmese.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 46, March Sessions 1925, in the Court of Quarter Sessions of the Peace in and for the County of Lawrence, Frank Appugliese was convicted of felonious assault and battery, aggravated assault and battery, assault and battery, assault, felony, misdemeanor and wantonly and playfully pointing firearms at another, and on June 15, 1925, was sentenced to pay a fine of \$50.00, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than three years nor more than six years.

The applicant is twenty-three years of age, a native of Italy and owes allegiance to the Italian Government. His occupation is that of laborer. At the time of his arrest he was employed by the Bessemer Limestone and Cement Company in the Borough of Bessemer, Lawrence County, in which Borough he resided. He is unmarried.

The applicant was convicted of assaulting and shooting Grover Syling, a police officer, at the residence of Sam Cassalara in the City of New Castle, on the evening of December 22, 1924. The applicant had gone there with a girl to whom he had been paying attention. Relatives of the girl had called the police and had directed them to the Cassalara home. The applicant had been there but a few minutes when the shooting occurred. When the police entered the house he was standing on the first floor at the foot of the stairs in the dining room. He had an overcoat on and there was no commotion, disorder or trouble at that time. Two police officers (one of them being Syling), entered the house through the back door, without knocking. They crossed the small kitchen and caught hold of the applicant who immediately began to shoot. Three shots were fired and all three shots lodged in, or near the floor of the room. One of the shots hit officer Syling in the leg. The applicant was overpowered and taken to the lock-up and subsequently convicted and sentenced as above stated. The applicant's possession of the revolver is accounted for by the fact that within a year previously he and his brother were both attacked by an Italian and severely beaten, since which time he carried a revolver for self-protection.

He was only 19 years old when the present crime was committed.

The applicant has now served 3 years and 7 months of his term of imprisonment. He was never before charged with or convicted of crime. The minimum term of his sentence expired on June 15, 1928, at which time he was released from the prison and taken into custody by the emigration authorities at Pittsburgh and has been confined in the Allegheny County Jail since that time. The purpose of the present applicant if successful, is to restore to the applicant the rights and privileges which he had before the commission of the offense and in order that he may escape deportation. All of his near relatives now reside in this country.

The trial Judge is dead. The trial District Attorney who is now the President Judge has filed with the Board a letter in which he states that the applicant having served his minimum sentence has paid his debt to the State and deportation would impose a greater punishment than is due. He recommends favorable action by the Board.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because of the recommendation of the trial District Attorney who is now the President Judge, we have concluded that the applicant has been sufficiently punished and if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Frank Appugliese.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 28, 110 and 111, March Sessions, 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Indiana, M. A. Federinko pleaded guilty to indictments charging him with larceny and forgery, and on May 26, 1924, was sentenced in the aggregate to pay a fine of eighteen and three-quarter cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than five years nor more than ten years.

The applicant is twenty-nine years of age, of Czecho-Slovakian parentage, but owes allegiance to the United States. He is an accountant by occupation, and at the time of his arrest was employed as a clerk and interpreter in the Foreign Exchange Department of the Farmers' Bank and Trust Company of Indiana, Pennsylvania, and resided in that borough with his wife and two children.

On March 8, 1924, the Treasurer of the above stated bank, where the applicant had been employed for about four years, discovered a shortage in the transactions of the clerk in charge of the Foreign Exchange and Savings Department. The Treasurer asked the applicant to explain said transactions, and during the conversation the latter confessed to embezzling approximately \$20,000, which amount was afterwards increased to \$26,000, disclosed in a thorough check-up by the bank and surety company which bonded the applicant. The embezzlements covered a period of eighteen months, and the major portion was taken from the Savings Department and loaned to friends to help them out of business difficulties.

At the time of his arrest, the applicant was charged with larceny in the amount of \$5200.00, and when he appeared before the court for sentence an additional charge of larceny and a charge of forgery were lodged against him. The applicant's loans to friends were secured by notes which were afterwards turned over to the security company as salvage, which latter amounted to approximately one-half of the amount embezzled. When he found that this money could not be repaid by his friends, he invested approximately \$8000.00 in a real estate venture in order that the amount embezzled might be recouped and returned to the bank. The real estate company lasted but a short time and his partners fled with the cash. When arrested, the applicant concealed nothing and assisted the bank and bonding officials to straighten out his accounts. The bank eventually lost nothing.

The applicant has now served four years and eight months of his term of imprisonment. He was never before charged with or convicted of crime. He has an excellent prison record and the Deputy Warden of the Penitentiary recommends clemency.

The applicant left the public schools at the age of thirteen years and was compelled to work as a coal miner to help support a family of eight children, inasmuch as his father was in poor health. When he assumed his duties with the bank he was an ignorant coal miner of limited education who had never been out of the County, and did not know the ways of the world. His wife and two children require his support; they have been dependent on relatives for maintenance.

A number of letters were filed with the Board requesting clemency, one from Harry White, President of the Indiana County Deposit Bank. The president of the bank in which the defalcation occurred writes the Board: "As compared with the justice meted out to others for similar offenses, he probably has paid a sufficient penalty and further confinement will serve no good purpose. He is still young enough, in our opinion, to repent for his wrong and to again take his place in society and become a useful citizen. His family needs him badly for their support."

The trial Judge has filed a letter with the Board recommending clemency, because his family, now maintained by relatives, requires his support, and for the further reason that he has almost completed his minimum sentence. The trial District Attorney does not oppose the present application.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of his excellent prison record; because his wife and two children, now maintained by relatives, require

his support; because of the favorable attitude of the bank from which he embezzled funds, and because of the recommendation of the trial Judge, and others, we have concluded that he has been sufficiently punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said M. A. Federinko.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 3, April Term, 1916, in the Court of Oyer and Terminer in and for the County of Jefferson, Henry Ward Mottorn was convicted of murder in the first degree and on September 4, 1916, was sentenced by the court to be electrocuted. Subsequently, on December 10, 1917, the sentence of death was commuted to life imprisonment.

The applicant is now twenty-nine years of age and a native-born citizen of the United States. At the time of his conviction he was a student in school. He had no occupation and resided with his parents on a farm at Sprankle Mills, Jefferson County.

Ernest Haines, a boy of about his own age, to wit: 16, who resided in the same locality, was an intimate associate of the applicant. On March 21, 1916, the two boys met in a blacksmith shop in the village. Haines informed the applicant that he wanted to go West on the following Monday and did not have sufficient money for the purpose. He further stated that his father, William Haines, had money "on him" and suggested that about dark that evening the applicant should go to a certain cut along the line of the Pittsburgh and Shawmut Railroad where he, Haines, would meet him and furnish him with a shotgun and cartridges with which to shoot and kill the elder Haines on the following day. He told the applicant that his father would pass through this cut on his way to Sprankle Mills between 12:00 and 1:00 o'clock. About dark the same evening the two boys met at the appointed place. Haines brought with him a single-barrel shotgun, and having loaded it hid it near the railroad cut. He instructed the applicant to go to the cut the following day about noon and wait for his father and shoot him when he passed through and then immediately to go to Sprankle Mills where he, Haines, would meet him at a certain pumping station. Pursuant to these instructions the applicant went to the appointed place on March 22, 1916, waited for the elder Haines, and when the latter came along the railroad, shot and killed him. The younger Haines had secreted himself behind a pile of boards near the railroad cut and after the shooting went to his father's body, took about \$250.00 cash from his father's pocket and then joined the applicant at the pumping station as prearranged. The following day both boys were arrested by the State constabulary. The applicant voluntarily offered to make a confession and actually did make such confession, explaining fully all the facts and circumstances of the case. Both boys were jointly indicted but tried separately. The applicant was tried first and convicted of murder in the first degree. The trial of Haines followed. The applicant became a witness for the Commonwealth against Haines who denied his guilt. Haines was convicted of murder in the first degree and was sentenced to death. He appealed to the Supreme Court and the latter court on technicalities granted him a new trial. In August, 1917, on the second trial, he was acquitted and left the country. The applicant has now been incarcerated 12 years and 4 months. He was never before charged with nor convicted of crime. His prison record is excellent as shown by a letter

from the warden. He was only 16 years of age when this crime was committed. He regarded Ernest Haines as a hero and was completely submissive to his will. The crime was suggested and planned by Haines for gain and he also furnished the instrument with which to commit the crime.

At the trial of the applicant Doctor J. E. Murdoch, who had charge of the State Institution for Feeble Minded, located at Polk, Pennsylvania, an alienist, testified that in his examination of the applicant he found a retardation of intellect of about 2 years. When an appeal to the Board of Pardons was made for a commutation of the death penalty to life imprisonment Dr. Murdoch filed a letter in which he recommended such commutation on account of the boy's inferior mentality.

There was filed with the board a number of letters recommending clemency. Among others a letter from 10 of the jurors who convicted him. In 1924, John S. Fisher, now Governor, filed with the Board a letter urging clemency because of the youth of the applicant, the dominant influence which his accomplice exercised over him and the miscarriage of justice whereby his confederate ultimately escaped punishment. A letter was filed with the Board from the trial District Attorney in which he states that he has no objection to the granting of a pardon. John W. Reed, of Clearfield, afterward President Judge of that County, assisted the District Attorney of Jefferson County in the prosecution of the two boys. He does not recommend clemency but states that there are two reasons for commutation. First, that the applicant was under 17 years of age when the crime was committed; another that he was 2 years under the normal development of a boy his age and that by reason of these facts he may have been unduly susceptible to the influence of a stronger minded associate. The present District Attorney has filed with the board a letter in which he recommends clemency. The present Judge of Jefferson County sent a telegram to the Board in which he tersely states: "under all the facts Ward Mottorn should be pardoned."

In consideration of all the facts of this case; the period of imprisonment already served; because of his prior good record; his excellent prison record; because of the fact that he was only 16 years of age when this crime was committed; because of his inferior mentality; because he was completely dominated by his chum who planned the crime for gain, provided the instrument and ultimately escaped punishment; because of the recommendation of the jurors who convicted the applicant, and of John S. Fisher (now Governor); because of the favorable attitude of the trial District Attorney, present District Attorney and Judge Reed, who assisted in the prosecution of the case) because the applicant's parents require his support; and in further consideration of the recommendation of the present Judge of the District, we have concluded that he has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Henry Ward Mottorn.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 26, May Term 1925, in the Court of Quarter Sessions of the Peace, in and for the County of Northumberland, David Shaffer pleaded guilty to an indictment charging him with robbery and on April 13, 1925, was sentenced to pay a fine of \$500. costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor

more than ten years. Harry Mansfield, who was jointly indicted with him, entered the same plea and received the same sentence.

The applicant is now twenty-two years of age, a native-born citizen of the United States, a miner by occupation, and at the time of his arrest was employed in the Excelsior Coal Mines at Excelsior, Pennsylvania. He is unmarried and resided with his parents in Shamokin. He is the oldest of six children.

On March 14, 1925 the applicant met two boys, Harry Mansfield and Joseph Osborn, who persuaded him to accompany them. They first met in a pool room and started to walk around the town. The applicant had been walking ahead of the two boys when they called to him to stop. He waited for them and they then told him about a shoemaker living nearby. It was about 8:30 in the evening when they went together to the shop and found the shoemaker and another man there. Osborn went in ahead, the other two boys following. Osborn gave a signal by nodding his head and he and Mansfield drew revolvers and Osborn said to the two men: "Hold up your hands," which they did. Mansfield then tied up the two men and took what money was in the cash register while Osborn took the money out of the men's pockets. The applicant took no actual part in the robbery, but was present. They left the shop and went to Osborn's house where Osborn gave the applicant \$55.00. The applicant and Mansfield went to New York City. The former was subsequently arrested at Erie, Pennsylvania. The applicant was eighteen years of age when this robbery was committed.

The applicant has now served three years and nine months of his term of imprisonment. He was never before charged with or convicted with crime. His father has been unable to work for six years. The mother helps support the family by washing. A brother, about seventeen years old, is unable to earn sufficient to support the family, consisting of the parents and five children.

There were filed with the Board a number of letters recommending clemency, among others one from the person robbed. The trial Judge has filed with the Board a letter in which he states that: "the sentence imposed was too severe," and asks clemency. The trial District Attorney has also filed a letter with the Board in which he recommends a pardon. He states that the applicant was led into the crime by Mansfield and Osborn, older men with criminal records. The Chief Burgess of Shamokin, the Sheriff of the County and the Warden of the Jail also recommend clemency.

In consideration of all the circumstances of the case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because of the recommendations of the Chief Burgess of Shamokin, Sheriff of the County, the trial District Attorney, the trial Judge and others, we have concluded that he has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said David Shaffer.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 17 March Sessions 1926, in the Court of Quarter Sessions of the Peace in and for the County of Warren, Frank Parisi pleaded guilty to an indictment charging him with statutory rape and on February 22, 1926, was sentenced to pay a fine of \$600.00. costs. and to undergo imprisonment in the

Western Penitentiary for a term of not less than four years nor more than eight years.

The applicant is forty-four years of age, an Italian by birth and owes allegiance to the Kingdom of Italy. He is a laborer by occupation and at the time of his arrest was working for the Warren Light & Power Company, Warren, and resided in that borough. He is a widower.

The applicant was convicted of statutory rape committed on the person of his step-daughter. He had been married to the girl's mother. After the death of the latter, the applicant lived on and made a home for the girl in a small house in East Warren, near the manufacturing district. The girl was under sixteen years of age and she had a child by him. The mother was of loose character and during her lifetime, while her husband was at work, she would entertain other men and have improper relations with them in the presence of her children, including this girl. On account of her environment she naturally fell into evil habits. When arrested they were living together as though married and he provided for her to the best of his ability.

The applicant has now served two years and eleven months of his term of imprisonment. He was never before charged with or convicted of crime.

The trial Judge and the trial District Attorney have both filed letters with the Board in which they recommend clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served, and in further consideration of the fact that the trial District Attorney and the trial Judge both recommend clemency, we have concluded that he has been sufficiently punished, and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Frank Parisi.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 98, June Sessions, 1922, in the Court of Quarter Sessions of the Peace in and for the County of Berks, Abraham Minker was convicted of perjury and on December 4, 1927, was sentenced to pay a fine of five hundred dollars (\$500.00), costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than two or more than three years.

The applicant is thirty-one years of age. He is of Polish nationality. At the time of his arrest he was engaged in the commission business and wholesale produce business and resided in the City of Reading. He is married. He now resides in Allentown.

The applicant was arrested on the charge of perjury growing out of a previous arrest of certain persons upon information furnished by him. At the trial the applicant was not able to recognize and identify them, and his later arrest and conviction for perjury resulted from the jury finding that his statement that he did not recognize the said persons was false and constituted perjury. After his conviction and sentence he served two years, the minimum term, and was discharged previous to the expiration of the maximum term because of his good behavior.

The applicant was never before charged with or convicted of crime.

Since the applicant's discharge from prison he has gained a good reputation as attested by the many letters on file with his application. He is now engaged in the construction business as an officer of the Trio Construction Company, a

corporation of which the applicant is treasurer. This company has built two apartment houses, a large garage and three theatres in Allentown. He is also treasurer of the Samson Uniform and Clothing Company of Philadelphia, which makes uniforms for the employes of the United Gas Improvement Company and uniforms for mail carriers. The present application is made in order that he may qualify as a citizen.

A number of letters were filed with the Board recommending clemency, from Senator Norton, County Commissioner Ringler, the Cashier of the National Union Bank of Reading and others. The trial Judge has since died. The trial District Attorney has filed with the Board a letter in which he states that in his judgment the applicant's sentence was too severe. He also states that the ends of justice have been fully met; that he has investigated the applicant and finds that he is engaged in a legitimate enterprise and is meeting with success.

In consideration of all the circumstances of this case; the prior good record of the applicant; because of the fact that he has served his minimum sentence, been discharged from prison and since his release has acquired a good reputation and been successful in business; because of the recommendations of Senator Norton and others and the favorable attitude of the trial District Attorney, we have concluded that he has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Abraham Minker.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 149, September Sessions 1926, in the Courts of Quarter Sessions of the Peace in and for the County of Erie, Ray Miner pleaded guilty to an indictment charging him with larceny by servant of employe (3 counts) and on September 20, 1926 was sentenced by the Court, on the first and second counts, in the aggregate, to pay a fine of \$50, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than three years nor more than six years.

The applicant is forty-nine years of age and a native-born American citizen. He is by occupation a bookkeeper. For seventeen months prior to his arrest he was a traveling salesman for the Spartan Saw Works, Springfield, Massachusetts. He is married but not living with his wife, and has a daughter, aged eight years living with her mother.

The applicant was employed as a bookkeeper for the H. N. Thayer Co., Erie, Pennsylvania, from the year 1909 until April 1925, the time of the discovery of his shortage, a period of nearly sixteen years. In July 1913 his wife was accidentally shot in the head. It was necessary to have the best surgical skill and attendance which involved a greater expense than the applicant's salary permitted. His employers refused to advance him money. He borrowed from loan companies on his furniture and plunged deeper into debt. He began using the company's funds, from time to time, expecting that the expense would lessen and that he could replace the money. A year after the accident a second operation became necessary and in 1915 a third operation, but the wife died shortly after. The applicant never used any of the money for himself until later years. He was in constant fear of discovery and contemplated suicide. No audit of the books was made for more than twelve years and no check made of the cash. When the shortage was finally discovered, the applicant went to the President of the Company and told him about it. He never

made any effort to cover up his shortage and remained with the company six weeks assisting the auditors to straighten out the books. He was not arrested but permitted to take a position with the Spartan Saw Works, Springfield, Massachusetts, as traveling salesman. He worked with them approximately sixteen months before he was arrested. Mr. Strout, one of the owners of the company, knew all the circumstances of the case and trusted him. The worry and uncertainty caused a physical breakdown. The applicant was ill more than five months. He fell behind in his accounts, was indebted to the Spartan Saw Works and unable to catch up. When arrested he was working in Toronto, Canada. He waived all formalities and returned to this country for trial.

The applicant has now served two years and four months of his term of imprisonment. He was never before charged with or convicted of crime. He has an excellent prison record as shown by a letter from the warden. Employment has been offered him, if released, by a former employer. His aged parents are dependent for support on him and a brother.

A number of letters recommending clemency were filed with the Board. The Mayor of Erie, the Register of Wills, the Prothonotary and others recommended pardon. The trial District Attorney has filed with the Board a letter in which he recommends clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of his excellent prison record; because employment has been offered him if released; because his aged parents are largely dependent on him for support; because of the recommendation of the Mayor of Erie, the Register of Wills, the Prothonotary and others, and in consideration of the recommendation of the trial District Attorney, we have concluded that he has been sufficiently punished and if now released he will prove himself a useful and law abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Ray Miner.

ARTHUR H. JAMES.  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD.  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2 October Term 1927, in the Court of Oyer and Terminer in and for the County of Mifflin, Merle Quay was convicted of statutory rape and on November 2, 1927 was sentenced to pay a fine of \$100.00, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two and one-half nor more than five years. The Jury as part of the verdict asked the leniency of the Court.

The applicant is twenty-four years of age and a native-born citizen of the United States. He is married. He is by occupation a steel worker and also a wood worker. At the time of his arrest he lived with his wife and mother in the Borough of Lewistown and was engaged in selling electric supplies.

The applicant and a man by the name of Lee Arnold were selling and demonstrating electric supplies. In the course of their occupation Arnold met one Mildred Crimmel of Mifflin, Pa. The following day, October 1, 1927, after working part of the day, Arnold asked the applicant to drive him to Mifflin. He did so and after waiting awhile, Mildred Crimmel and Edna Shugarts, strangers to the applicant and both under 16 years of age, came to the car and got in. They said they wanted to go to Orbisonia. Accordingly they drove there. They then wanted to go to Mt. Union. When they reached Mt. Union the applicant insisted that they go home. The girls then said: "If you make us go home, we will make trouble with your wives." They then drove to Huntingdon. The ap-

plicant realized the seriousness of the situation and tried to induce the girls to go home, offering to pay their carfare, but the girls refused on the plea that their parents abused them. They then returned to Lewistown but the girls would not leave the car. From there they drove to McVeytown, then to Reedsville, and then kept on driving until they came to a hunting camp in the Seven Mountains, known as "Buck Fever Camp." The applicant was exhausted from so much driving and not knowing what else to do, stopped at the camp. They all went into the camp together and spent the night there the girls sleeping upstairs and the men sleeping downstairs. The following morning they drove to Reedsville, then to Yeagertown and other places, and returned to the camp and spent the second night there. The following morning the applicant got the girls into the car and started for home. He left them and then surrendered to the authorities of Juniata County where the charge of "Enticing a Female Child for Immoral Purposes," was lodged against both men, the girls being under the age of 16. The men were tried for this offense and acquitted by the Juniata County Court. They were then taken to Lewistown and charged with statutory rape and were tried, convicted and sentenced as above stated.

The applicant has now served 1 year and 2 months of his term of imprisonment. His former record is good with the single exception, that at the age of 15 or 16 he was sentenced to the Huntingdon Reformatory for breaking and entering.

The applicant claims that he is innocent of the crime charged against him and the jury in their verdict evidently felt that there were extenuating circumstances. The applicant's wife is an invalid and dependent on him for support. His mother, who has the use of only one hand, is partly dependent on him for support. Permanent employment has been offered him if released.

The Chief Burgess of Lewistown, the Chief of Police of that Borough, and the Prothonotary of Mifflin County, in letters filed with the Board, ask clemency. The trial Judge and the trial District Attorney also request a pardon.

In consideration of all the circumstances of the case; the prior good record of the applicant, with a single exception; the term of imprisonment already served; because his invalid wife and crippled mother are dependent on him for support; because employment has been offered him if released; and in further consideration of the fact that the trial Judge and trial District Attorney have recommended clemency, we have concluded that he has been sufficiently punished, and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Merle Quay.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 13, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 258, October Term, 1920, in the Court of Oyer and Terminer, in and for the County of Philadelphia, William Feldkeller pleaded guilty to an indictment charging him with murder, the degree of which was subsequently fixed by the Court at murder in the second degree, and on March 20, 1921, was sentenced to pay a fine of \$1.00, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years nor more than twenty years. In passing sentence the Court addressed the prisoner as follows: "After the testimony in your case and the circumstances surrounding the killing, we are well satisfied for the time being, because of her infidelity and the bereftment of your reason and therefore the deliberate intention to take life, which is one of the re-

quirements of murder in the first degree, was absent, and we, however, feel that you took her life and we therefore fix the degree of your crime as second degree murder. You are in a deplorable situation, but the law must be carried out and you must be punished for it. There is no doubt that you have already suffered a great deal, notwithstanding, that is the duty of the Court to pass sentence upon you."

The applicant is forty-four years of age and a native-born citizen of the United States. He was a clerk by occupation and employed by the Goodrich Tire Company, Philadelphia, and resided in that city with his wife and three children, aged twelve, ten and six years respectively.

The applicant killed his wife at their home on August 18, 1920. They had lived happily together with their children for a period of thirteen years. About the middle of June 1920, the wife, dissatisfied with the monotony of domestic life, secured a position in a restaurant, which caused dissension between the husband and wife. The applicant objected to this because he was in a position to support his family without the necessity of his wife going out to work, and the children needed their mother at home. The applicant and his wife planned to take the children to Atlantic City on the Sunday previous to the killing. On Saturday the applicant worked until noon and then returned to his home. He gave his wife two hundred dollars in cash and tried to induce her to relinquish her position. She refused to do so and left the house. She did not return that night. The following day the applicant learned from his wife's sister that his wife had been deceiving him and had gone out with other men while she was supposed to be working. She returned to her home on Sunday but did not say where she had been. The applicant worried over her wayward conduct, began drinking and kept on drinking Monday and Tuesday. He and his wife quarrelled and she threw a plate containing food at him, saying, "Now you want to know who Jack is. I am going to get him to beat you up and then I will go away with him where you will never see me." The applicant purchased a revolver on Tuesday afternoon. On Wednesday, becoming ill at his place of business, he returned to his home and on the way stopped and purchased more liquor. When he reached home his wife was ironing a waist and skirt. When she finished she dressed and announced that she was going out, and stated that inasmuch as he was "laying around" he could "watch the kids". He asked her to get something for the children to eat, but she refused. They continued quarrelling and finally she said: "If you say much more I will blind you", and threw a little bottle of iodine at him. He grabbed the revolver and started shooting. His wife ran out of the house and down the alley, followed closely by the applicant, firing as he ran. The woman fell with three gun-shots in the body, causing death.

The applicant has now served seven years and ten months of his term of imprisonment. He was never before charged with or convicted of crime. Employment has been offered him if released. His three children, who are under age, require his support.

A representative of the District Attorney's Office present at the oral hearing did not oppose the application for pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of his three children, who are under if released, and in further consideration of the fact that the age, require support; because employment has been offered him District Attorney's Office does not oppose the application, we have concluded that he has been sufficiently punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said William Feldkeller.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 11, 12, 13, and 14, August Sessions, 1927, in the Court of Quarter Sessions of the Peace in and for the County of Adams, J. H. Kilmore pleaded guilty to four indictments charging him with larceny and on August 27, 1927, was sentenced to pay costs and to be placed on probation for a period of eighteen months. C. E. Seibert, who was jointly indicted with him, entered the same plea and received the same sentence. During the period of probation, the applicant was permitted to return to Baltimore to continue his education and was required to report once a month to the Probation Officer at Gettysburg, through the Chief Probation Officer of the Supreme Bench of Baltimore City.

At about the same time both defendants were charged in the County of York with larceny and receiving stolen goods, which cases grew out of the same series of acts as those for which they were sentenced in Adams County. The three indictments were not prossed.

The applicant is a native-born citizen of the United States, twenty-one years of age and resided with his parents in the City of Baltimore. At the time of his arrest for the present offences he was employed in a canning factory in New Oxford, Pennsylvania, and at the present time is a student in the Army and Navy Preparatory School, Baltimore, Maryland.

The applicant first met Clarence Seibert in February, 1926, on the farm of an uncle located in Hanover, Pennsylvania. In June, 1926, both boys went to Baltimore, Maryland, the applicant becoming the collector for a bakery, while Seibert became an employe of The Pennsylvania Railroad Company. Becoming dissatisfied, they went to Hanover to secure work there. They rented a shack about five miles north of Hanover and were living at this place at the time of their arrest. Both boys obtained work in a canning factory about ten days after their arrival at Hanover. In the meantime being out of funds and hungry they stole a number of articles including food. They stole chickens and pigeons from a place near Gettysburg. They also stole canned peas from the canning factory and a bail of chicken wire from the pavement in front of the store. They also stole foodstuffs from a huckster. All of these articles, with the exception of the food which had been consumed, were recovered when the boys were arrested. When the applicant was arrested by the State Police he told the truth about all of the thefts. He was only nineteen years of age.

The applicant was never before charged with or convicted of crime. Since August, 1927, when he was placed on probation, he has directed his education along military lines, comported himself well, and is advised and believes that if a pardon is granted he has an excellent chance of securing an appointment at West Point.

There was filed with the Board a number of letters recommending clemency. The trial Judge and the trial District Attorney have both filed letters in which they state they have no objection to a pardon. The Probation Officer of Adams County and the Chief Probation Officer of the Supreme Bench of Baltimore have both filed letters with the Board in which they state that the applicant's conduct while on probation has been exemplary. Both recommend clemency. The State's Attorney of Baltimore County and the Mayor of Baltimore City, on the basis of reports received showing that the applicant has comported himself well while on probation, recommend clemency. The Head Master of the Preparatory School which the applicant has attended since September, 1927, and a Lieutenant of the Fifth Regiment, Maryland National Guard, in which the applicant is a private, speak in the highest terms of the applicant's conduct and efficiency.

In consideration of all the circumstances of this case; his prior good record; the youth of the applicant when these crimes were committed; because of his excellent conduct while on probation as evidenced by letters from the Probation Officers in Baltimore City and Adams County, from the Head Master of the Military Preparatory School which the applicant has attended and an officer of the Military Company to which he belongs, and because of the favorable attitude of the Trial Judge and Trial District Attorney, we have concluded that

he has been sufficiently punished, and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend tha tapar don be now granted to the said J. H. Kilmore.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 16, 1929.

His Excellency, John S. Fisher, Governor.

In the matter of the petition of N. R. Buller, Commissioner of Fisheries, for the remission of a certain fine imposed on and paid by E. E. Buckwald.

Sir: N. R. Buller, Commissioner of Fisheries, of the Commonwealth of Pennsylvania, filed with the Governor of said Commonwealth, a petition for the refund of a certain fine imposed on and collected from one, E. E. Buckwald, of Erie, Pennsylvania, and this petition has now been referred to the Board of Pardons, pursuant to Section 909 of The Administrative Code, approved June 7, 1923 (P. L. 498).

Commissioner Buller's petition, and the accompanying documents, disclose the following facts:

J. C. Johnson, of the City of Erie, Pennsylvania, one of the wardens of the Board of Fish Commissioners of the said Commonwealth, on the 17th day of December, 1928, arrested one, E. E. Buckwald, of the said city, for fishing in the waters of Lake Erie without a license. He was arrested in the act of fishing and did not have about his person, and was unable to exhibit to the Fish Warden, the license, nor was there a license button displayed on his outer garments, as required by the provisions of Section 226 of the Act known as The Fish Law of 1925 (P. L. 448).

On their journey to the Alderman's office, Buckwald stopped at his home and produced the license certificate and license button which had been issued to him. Nevertheless, the Fish Warden took the said Buckwald before E. F. Shugart, an Alderman of said City of Erie, who, after hearing, convicted and sentenced the said Buckwald to pay a fine of \$25.00, the penalty provided by Section 228 of the Act referred to, for fishing without a license. Subsequently, the Alderman transmitted the penalty collected to the Board of Fish Commissioners.

Upon formal complaint being made to the local members of said Board by the said Buckwald, and upon receipt of the Prosecution Report made by the Fish Warden, the said Board, after due consideration, decided that the fine of \$25.00 imposed, as aforesaid, on the said Buckwald, should be remitted, inasmuch as he possessed a license and license button, although he did not have the same on his person as provided by law. The Commissioner of Fisheries, acting on behalf of the Board, petitioned the Governor to remit the said fine which had been paid to the Alderman, and by him transmitted to the Commission.

In consideration of the above stated facts; it appearing that the fine imposed, as aforesaid, upon the said E. E. Buckwald, was imposed by Alderman Shugart, under a narrow and strict construction of the law without regard to any consideration of equity, and it further appearing that the said fine was collected by the said Alderman and by him transmitted to the Board of Fish Commissioners, and that the said Buckwald was in fact the owner of a proper license and license button, although he neglected to have them in his actual possession while fishing, we, after due consideration of the petition of the said N. R. Buller, Commissioner of Fisheries of the Commonwealth of Pennsylvania, do recommend that the said fine of \$25.00 imposed on and paid by the said E. E. Buckwald, be now remitted by the Governor of this Commonwealth, by

virtue of the authority vested in him by Article IV, Section 9, of the Constitution of Pennsylvania.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 5, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 68, 206 and 206A, September Sessions, 1922, in the Court of Quarter Sessions of the Peace in and for the County of Berks, Lewis Edwards alias James E. Sanders, pleaded guilty to indictments charging him with the larceny of a motor vehicle, operating a motor vehicle without the consent of the owner, assault and battery, aggravated assault and battery, assault and battery with intent to kill, carrying concealed, deadly weapons and breaking prison, and on September 5, 1922, was sentenced in the aggregate to pay a fine of \$600.00 costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than twelve years and four months nor more than fourteen years.

At No. 1269, March Sessions, 1924, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, the said Lewis Edwards, alias Porter, alias Arthur Stewart, alias James Edward Saunders, pleaded guilty to an indictment charging him with breaking prison and escaping, and on April 8, 1924, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than twelve years and four months, nor more than fourteen years, after expiration of the sentence imposed in Berks County.

The applicant is thirty-six years of age, a native-born citizen of the United States. By occupation he is a skilled mechanic, but at the time of his arrest in Berks County he was unemployed. He is a widower and his proper place of residence is with his mother in the City of Philadelphia.

In the month of July, 1922, the applicant was arrested in Reading for the larceny of an automobile. The automobile was removed about three blocks from the place where it was stolen and was recovered uninjured and restored to the owner. There being circumstantial evidence against him, he pleaded guilty, but has always maintained his innocence. Accompanying the application for pardon was an affidavit from the then Chief of Police of Reading in which he states, inter alia, as a result of an investigation made by him, that "there exists in my mind a serious doubt," as to the guilt of the applicant. While the applicant was awaiting trial in the Reading Prison for larceny he attempted to break jail. He obtained possession of a loaded revolver. He fired all the cartridges in his revolver at the door of his prison cell, outside of which there was a prison guard at the time, but did not shoot the guard. His purpose was to frighten him and this he accomplished. He then made a break for the outer door, at which was another prison guard. Meanwhile, the applicant had reloaded his revolver. When he approached the guard the latter fired. The applicant did not return the fire but clinched the guard and in the ensuing struggle disarmed him. The guard fought valiantly and it became impossible for the applicant to escape without shooting the guard or seriously injuring him with the butt of one of the revolvers in his possession. The applicant refused to do this, threw away the revolvers, gave up his chance of escape and submitted to arrest. Accompanying the application for pardon is an affidavit from the last-mentioned guard in which he states that he never felt that his life was in danger from the applicant, although the latter had the opportunity to take it. He further states that he will gladly do anything he can to help the applicant in his effort to obtain pardon.

On July 4, 1923, the applicant, without inflicting physical violence, escaped from the Eastern Penitentiary. He remained

at large about six months, until he was apprehended in Honolulu and returned to the Penitentiary.

The applicant has now served six years and five months of his term of imprisonment imposed by the Berks County Court, less six months, while he was at large. His former record was not good. He was sentenced to the Florida State Penitentiary in 1921 but was subsequently pardoned. In October, 1916, he was sentenced by the District of Columbia Court to serve one year and six months in the Federal Penitentiary at Atlanta, Georgia, for house-breaking, but escaped while waiting to be transferred to Atlanta. The Federal authorities have a detainer lodged against him at the Eastern Penitentiary which will necessitate his serving at Atlanta the unexpired term of said sentence.

The applicant is tubercular. Dr. Heckman, Chief Resident Physician of the Penitentiary, has filed with the Board a letter in which he states that he is suffering from pulmonary tuberculosis; that during the past year he has grown worse, and that further imprisonment may materially shorten his life. Dr. Gorman, Medical Director of the Hamburg State Sanitorium, under instructions from Dr. Appel, Secretary of Health, recently made a physical examination of the applicant. Dr. Gorman informs the Board that the applicant is tubercular; that his condition shows a slow but progressive tendency; that he requires modern treatment; and that in his present environment an arrest of the disease or cure cannot be hoped for.

The Berks County trial Judge, is physically and mentally incapacitated from communicating with the Board. President Judge Schaeffer informs the Board that he has conferred with his colleagues on the bench (one of whom was the Trial District Attorney) and that as a result thereof he alleges that he has learned facts concerning the applicant which have inevitably lead him to the conclusion that "the public welfare does not require further incarceration."

The Board of Trustees of the Penitentiary, by formal resolution, recommend pardon, and the President and the Vice President of the Board have filed individual letters recommending clemency. Allen M. Matthews, President of the Aldine Trust Company, Colonel John C. Groome, former Warden of the Penitentiary, Herbert Smith, present Warden, and Elmer Leitheiser, assistant Warden, in letters filed also recommend pardon. The present District Attorney of Berks County indicates that he is not opposed to a pardon. A representative of the District Attorney's Office in Philadelphia, present at the oral hearing of the case, declared that they were not unfavorable to clemency.

In consideration of all the circumstances of this case; the term of imprisonment already served; because of the favorable attitude of the Berks County Court; because of the recommendation of the Board of Trustees of the Eastern Penitentiary; and the recommendations of individual members of the Board; because of the recommendations of the former Warden, the present Warden and Assistant Warden of the Penitentiary, and further, because of the statements of Drs. Heckman and Gorman relative to the seriously impaired physical condition of the applicant, we have concluded that he has been sufficiently punished and should now be liberated, at least so far as the present charges are concerned.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Lewis Edwards, alias James E. Sanders.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 814 September Sessions, 1921, in the Court of Oyer and Terminer, in and for the County of Philadelphia. Annunzio Caronia was convicted of voluntary manslaughter, and

on January 12, 1922 was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than eleven years nor more than twelve years.

The applicant is thirty-one years of age, an Italian by birth and at the time of his arrest was employed as a cabinet maker by the Victor Talking Machine Company, Camden, New Jersey. He has a wife and child 8 years of age, and a widowed mother 55 years of age, who resided with him in the city of Philadelphia.

In 1920, Vincenzo Nicoletti, the stepfather of the applicant, was living with him at his home in Philadelphia, the mother at that time being in Italy. She subsequently came to this country and upon inquiry as to why she had not come to America sooner, she stated that her husband did not send her sufficient money for the purpose and that she was compelled to borrow money from friends. She also stated that she desired to remain in Italy until one of her daughters was married. Later the applicant overheard an argument between his mother and stepfather with respect to the repayment of the borrowed money. The stepfather refusing to furnish the money, the applicant sold certain real estate owned by him in Italy and out of the proceeds paid the obligation of his mother. When the stepfather learned this he became angry and he and the applicant's mother moved from the applicant's home to a home of their own. Later, while on a visit to his mother, he overheard an argument between the latter and his stepfather, the latter appearing to be very angry. The applicant questioned his mother as to why she had not come to America sooner. She told him that she remained in Italy to marry her youngest daughter so that she would feel safer in coming to this country, as she had not forgotten that her husband had ravished her oldest daughter in Italy when she was only thirteen years of age. The applicant asked his stepfather to treat his mother right and that everything would be forgiven. The stepfather called the applicant vile names, ordered him out of the house, threatening to blow out his brains and as the applicant was leaving the house, called after him, "The first time I meet you, I am going to get you and shoot you in the head." The applicant, after he returned home, worried over this threat knowing that his stepfather had killed a policeman while in Italy and had always been harsh and cruel toward the applicant's mother and children. Being alarmed concerning his safety he carried a weapon for self protection. On August 11, 1921, about 6.40 A. M., at the corner of Fourth and Locust Street, Philadelphia, as he was walking to his work, he suddenly felt a hand on his shoulder and turning around he saw his stepfather, who said, "Well, I have been looking for you for sometime and I have my chance now." The stepfather then struck him in the face with his fist and reached toward his hip pocket. The applicant recollecting what his stepfather had said about blowing his head off, pulled a revolver, which he had upon his person, and shot him in self defense.

The applicant has now served seven years and one month of his term of imprisonment. He was never before charged with or convicted of crime. The Deputy Warden of the Penitentiary certifies to his excellent prison record.

The applicant's mother and eight-year old child are in destitute circumstances and require support.

There was filed with the Board a number of letters recommending clemency. An affidavit of the wife was filed with the Board alleging that the applicant was a kind and dutiful husband and maintained his home and provided all the necessities of life and that while in prison he has at various times sent her money for the support of herself and child. The mother of the applicant also filed an affidavit in which she alleges that the contents of the application for pardon are true and correct; that her husband treated her brutally, many times striking her with his fist and on one occasion with a stick whereby she was so badly injured that it was necessary to call in a physician. She avers that he distinctly remembers that her husband said that he would some day get her son and blow his brains out; that her husband had actually outraged her thirteen year old daughter in Italy and that her son (the applicant) had sold real estate owned by him in Italy and out of the proceeds repaid the money that she had borrowed in order to come to this country. She further states that her son was dutiful, had never been in trouble and had contributed to her support and had assisted other members of the family.

A representative of the District Attorney's office, present at the oral hearing of the case, did not actively oppose the application.

In consideration of all the circumstances of this case; the term of imprisonment already served; the prior good record of the applicant; his excellent prison record; because his mother, wife and child require support; because of the recommendations of many persons who know the applicant; because of the affidavits of his wife and mother, and because the District Attorney's office did not actively oppose the application, we have concluded that the applicant has been sufficiently punished and if now released will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Annunzio Caronia.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 87 February Sessions 1927, in the Court of Oyer and Terminer, in and for the County of Luzerne, Oresto Buttafoga was convicted of manslaughter with a recommendation of the mercy of the Court, and on April 9, 1927 he was sentenced to pay a fine of \$500.00, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five and one-half years nor more than eleven years.

The applicant is forty-six years of age, a native of Italy but an American citizen by naturalization. He is a miner by occupation and at the time of his arrest was employed by the Erie Coal Company in Pittston Township, Luzerne County, in which township he resided with his wife and six children, the oldest of whom is 18 years of age.

The applicant on October 8, 1926, shot and killed Julian Melvina, under the following circumstances: Two men were neighbors and worked together in the mines. For sometime immediately before the crime, Melvina became threatening and abusive toward the applicant, whereby the latter was in fear of his life. This fear overmastered him and he gave up his position in the mine in order to be away from Melvina, and sought employment elsewhere. Rumors came to him that Melvina was going to kill him, and he remained in his home for several days preceding the shooting. On the date mentioned, the applicant was walking in front of his home when Melvina appeared, grappled with him, threw him on the ground and immediately jumped on top of him, caught him by the throat, pushing his head in the ground. While trying to choke the applicant, Melvina made a motion with his left hand to reach his hip pocket as though reaching for a revolver, mean-while saying, "I am going to kill you." The applicant, flat on his back with the throat in the grip of Melvina, in great fear and helplessness, reached for his revolver and fired. One of the bullets struck Melvina, killing him instantly. It is apparent from the jury's verdict that his story was partly believed because in their verdict they recommended him to the mercy of the court. At the trial his story was uncontradicted. Several witnesses testified as to the threats made by Melvina on the petitioner's life and the great fear under which the applicant was laboring. At the time, the verdict on its face appeared to be a compromise verdict.

The applicant has now served one year and ten months of his term of imprisonment. He was never before charged with or convicted of crime. His family, consisting of a wife and six children, are in destitute circumstances and require support. Nine members of the jury which convicted him have

led with the Board a petition in which they recommend clemency on the ground that the applicant according to their information has been a model prisoner and because his family is in need of his support.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because his family is in destitute circumstances and requires his support; and because nine of the jurors who convicted him recommend clemency, we have concluded that he has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Oresto Buttafoga.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 29,331, December Term, 1925, in the Court of Oyer and Terminer, in and for the County of Fayette, Herman Jacobs was convicted of felonious arson and firing with intent to defraud insurance (two counts), and on July 13, 1926, was sentenced in the aggregate to pay a fine of six cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than five years nor more than ten years.

The applicant is thirty-one years of age, a native of Austria but a citizen of the United States. He is a merchant by occupation and at the time of his arrest he was the owner and manager of an Army and Navy store situated on Main Street, Fayette City, Pennsylvania. He is unmarried. His proper place of residence was Aubrey Road, West Brownsville, Pennsylvania, not far distant from Fayette City.

On October 1, 1925, the applicant was conducting an Army and Navy store in Fayette City. He left the store shortly after ten o'clock in the evening. The next morning Robert Roy, a miner residing directly behind the store of the applicant, was awakened at 5:45 A. M. by his wife, who told him there was a fire which seemed to be near Mrs. Watkins, who resided in the rooms above the store in question. His son sounded the alarm and Roy went up the back way to the store where he forced open a door. Upon gaining entrance he discovered a tin bucket about five feet from the door, nearly in the center of the room, ablaze, and he and one Sam Hamer obtained an extinguisher and put out the fire.

From the testimony it appeared that the applicant was in bed at the place where he resided in West Brownsville, and at the time of the fire he was awakened by two men who came to his lodging place for him and told him that his store was on fire. He dressed and went immediately to Fayette City with them. He was subsequently arrested charged with arson.

The applicant has now served two years and seven months of his term of imprisonment. He was never before charged with or convicted of crime. The applicant was convicted mainly on the testimony of one Jesse King, a State policeman. Since the trial King has been convicted in the Federal Courts on the charge of conspiracy to violate the Federal Prohibition Act, and was sentenced to serve a year and a day in the Federal Penitentiary at Atlanta, Georgia.

The applicant since his trial has been operated on for appendicitis and requires freedom so that he may obtain the better treatment which his condition requires.

There were filed with the Board two letters: one from the trial Judge and one from the trial District Attorney, in which both recommended pardon, because of doubt as to the truth-

fulness of the testimony of the Commonwealth's main witness and because of the term of imprisonment already served by the applicant.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of grave doubt as to the reliability of the testimony of the Commonwealth's main witness; and because his impaired health requires better treatment than the prison affords; and, above all, because of the recommendations of the trial Judge and the trial District Attorneys, we have conducted that the applicant has been sufficiently punished, and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session", recommend that a pardon be now granted to the said Herman Jacobs.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1 June Term 1923, in the Court of Oyer and Terminer in and for the County of McKean, Tony Mussare was convicted of murder in the second degree and on June 9, 1923 was sentenced by the Court to pay costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than fifteen years nor more than twenty years.

The applicant is twenty-seven years of age, a native-born citizen of the Kingdom of Italy, a cheese-maker by occupation and unemployed as such at Kasson, McKean County, at the time of his arrest. He is unmarried and reside in the City of Bradford.

On November 3, 1922, Joe Murphy, alias Joe Feracci, in company with John Catoni, came to Bradford, about 11 o'clock in the morning. They met a friend, one August Asconi and shortly after Fred Mussare and his brother, the applicant. At this meeting, Murphy and the Mussare brothers shook hands and appeared friendly. The five men then went together to the business section of the town, traveling along Main Street. Subsequently Asconi left the party. The four men then proceeded westwardly to Davis Street. Immediately before the shooting, the four men were observed on the pavement about twenty feet from the corner of Davis and Main Streets. They were somewhat excited and all talking. Eight or nine revolver shots were then fired at Murphy and Catoni by the applicant. One witness testified that Fred Mussare was seen with a revolver in his hand pointing toward Murphy and Catoni. Another witness testified that he saw the said Fred Mussare leave immediately after the shooting with a revolver in his hand. The shooting occurred about 3.00 P. M. when there were many people in the business section of Bradford. The witnesses were attracted by the rapid firing of the revolver and when they observed the parties, the Mussare Brothers were on the one side and Murphy and Catoni were on the other, facing each other. The latter were holding their hands and arms before them as if to shield themselves from the shots that were being fired; at the same time the two couples were separating, each couple moving backward. After the shooting was over the Mussare Brothers fled.

The applicant was apprehended within a few minutes. Upon being accused by the police, he admitted that he had done the shooting and when asked about his gun, showed the officer where he had placed it. Fred Mussare fled across the State line where he was arrested several days later. After the shooting, Murphy and Catoni went to Main Street and into the store of Meyer Brauser. They remained there but a short time. They came out and were placed in an automobile and

taken to a hospital. Catoni recovered but Murphy died later from the effects of the wounds.

The Mussare Brothers claimed that Murphy and Catoni had demanded money from them and that on a former occasion they had held up the applicant and took \$20.00 from him. The applicant claimed that when he saw Murphy reach for his pocket, fearing that he was about to be shot, he drew his gun and shot Murphy and then shot Catoni who attempted to pull a gun from his pocket. The defense at the trial offered no testimony because at the time they were unable to discover corroborating evidence.

After the trial the depositions of seven witnesses were taken and presented to the Board. Affiants were not witnesses at the trial because the defense attorney had no knowledge of them. The substance of their testimony was that immediately after the shooting Murphy and Catoni went into Neyer Brauser's store and left their revolvers there, which were that night removed by two friends who came to the store for that purpose. Murphy's gun was given to his widow. It was also shown that Catoni asked the Mussare Brothers for money to be permitted to work in Bradford. Two witnesses deposed that they observed the Mussare Brothers and Murphy and Catoni facing one another and that Murphy placed his right hand to his waist line, whereupon Tony Mussare drew a pistol and rapidly fired seven or eight shots toward Murphy and Catoni. The chief counsel for the Mussares deposed that he never heard of this after-discovered evidence until after the trial.

Fred Mussare and the applicant were jointly indicted, tried and convicted. Fred Mussare received an indeterminate sentence of twelve to eighteen years and after serving four years and nine months of his term of imprisonment, was pardoned by the Board in March, 1928.

The applicant has now served five years and eight months of his term of imprisonment. He was never before charged with or convicted of crime.

If the after-discovered testimony is to be believed, neither Fred Mussare nor the applicant are guilty of any crime that would rise higher than voluntary manslaughter.

In consideration of all the circumstances of this case; the prior good record of the applicant; because of the grave doubt as to the applicant's guilt of the crime of which he was convicted; because of the term of imprisonment already served; and because of the fact that Fred Mussare, his brother, who was jointly convicted with the applicant, was pardoned by this Board eleven months ago, we have concluded that he has been sufficiently punished and if now released will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Tony Mussare.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 390 November Sessions 1925, in the Court of Oyer and Terminer in and for the County of Philadelphia, Fred Thorpe pleaded guilty to an indictment charging him with murder, the degree of which, after hearing, was fixed by the Court at murder in the second degree. On November 20, 1925 he was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than six years nor more than twelve years.

The present application for pardon is filed by E. M. Hackney, Chief Probation Officer of the Quarter Sessions Court of Philadelphia, by direction of the President Judge of said court,

The applicant is a colored man, thirty years of age and a native-born citizen of the United States. He is by occupation an automobile-mechanic and chauffeur. He is married and the father of four small children, the oldest being seven years of age. He resided with his wife and family in Philadelphia.

The applicant is charged with having caused the death of three persons, namely: Isadore Herman, Mary Herman and their child, Roslyn Herman, on Sunday evening, October 25, 1925, by striking them with an automobile at 54th and Oxford Streets, Philadelphia. On the morning of that day, he went to the home of Harry Haimowitz, residing on Gaynor Road, for whom he did repair work on the three cars owned by the Haimowitz family. On this occasion the applicant took away the Marmon car in order to repair the lights. He took the car to his work-shop and after completing the work, he and a friend, Justin Manning, got into the car and presumable started from the garage for the Haimowitz home. At the hill at 54th and Oxford Streets, where the accident occurred, Mr. Herman, his wife and child were crossing the street when they were struck and killed by the automobile driven by the applicant. The car continued on its way and was later found down town and identified by the owner. The applicant, in order to account for the car not being in his possession, telephoned to the owner that it had been stolen. The applicant later was arrested in his home and held for the death of the three persons.

The applicant has now served three years and two months of his term of imprisonment. His prior record was good with one exception. In June 1925, he was fined \$3.50 by a magistrate, for reckless driving.

In support of them application for pardon there was filed with the Board a letter from President Judge Finletter in which he states that his colleague, Judge Audenried had imposed the sentence on the applicant. He continues: "the facts were identical with those of the case of Commonwealth vs Brock upon whom a like sentence was imposed by the same judge. I have consulted with Judge Audenried (who has retired) and my colleague, Judge McCullen, and we know of no fact that would distinguish one case from the other.

"We, therefore, recommend that a pardon be granted to Thorpe when he has undergone imprisonment equal to that suffered by Brock."

The defendant in the Brock case referred to, Was Henry G. Brock, a wealthy broker and clubman, who was pardoned in June 1926, after having served three years for a similar offense.

In consideration of all the circumstances of this case; the prior good record of the applicant (with a minor exception) the term of imprisonment already served; because of the recommendation of the three Judges of the Court which sentenced the applicant; and because Henry G. Brock, who was sentenced for a similar offense under similar circumstances, was pardoned by this Board more than two and one-half years ago, we have concluded that the applicant has been sufficiently punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Fred Thorpe.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 20, 46, and 47 and November Session 1927, in the Court of Quarter Sessions of the Peace, in and for the

County of Crawford, Raymond Kaltenbaugh pleaded guilty to three indictments charging him with forgery, and on November 28, 1927, was sentenced in the aggregate to pay a fine of \$25.00, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two years nor more than four years.

The applicant is now twenty-nine years of age, a native-born citizen of the United States, a laborer by occupation, but was not employed at the time of his arrest. He resided near Meadville, Pa. He has a wife and three small children. His wife and one child are now in the County Home of Lawrence County and the other two children are in the Margaret Henry Home, a charitable institution, in New Castle, Pa.

During the months of June and July, 1927, the applicant forged three checks for the sum of \$14.05, \$9.25, and \$13.00, respectively, on three banks in Crawford County, and received and used the proceeds of the forged checks. Upon his arrest he immediately confessed the crimes.

The applicant claimed that during the year 1927, he was unable to obtain steady work and that in order to support his wife and three small children, he resorted to forgery. His entire family is now maintained by charity.

The applicant has now served one year and three months of his term of imprisonment. He was never before charged with nor convicted of crime. The deputy warden of the Penitentiary certifies to his good prison record. His wife and small children are objects of charity.

A number of letters were filed with the Board recommending clemency, among others, from a former employer and the Sheriff of the County.

In consideration of all the circumstances of this case; the term of imprisonment already served; his prior good record; his excellent prison record; because his wife and three small children are destitute and objects of charity; because of the recommendations of his former employer and others, we have concluded that he has been sufficiently punished, and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Raymond Kaltenbaugh.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 4, September Sessions, 1925, in the Court of Oyer and Terminer, in and for the County of Northumberland, Edward Wojciechowski pleaded guilty to voluntary manslaughter on an indictment charging him with murder, and on December 7, 1925, was sentenced by the Court to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years.

The applicant is now twenty years of age, a native of Northumberland County and of Polish parentage. He attended the public schools until he reached the fifth grade. At the time of his arrest he was employed by Sharp and Sons, Ice Cream Manufacturers, Shamokin, Pa., as a helper on their delivery trucks and resided in Shamokin.

On August 15, 1924, he was married to Ruth Bower at Hagerstown, Maryland. He was then sixteen and his wife fourteen years of age. After the marriage the applicant lived with his parents for a time while his wife lived with her mother. They later went to housekeeping in Shamokin in a small apartment. On December 28, 1924, they were burned out,

completely. The applicant then took his wife to the home of his parents in Shamokin where they lived for about five months. He then rented a dwelling house with the intention of going to housekeeping, but his wife insisted on living in an apartment in the center of the city. She then left his home and returned to her mother. Later he learned that his wife was associating with women of bad reputation. When he called at her mother's home he was informed that his wife was away. He learned that she had left her mother's home and none of her friends knew where she was. Subsequently he found that she was frequenting a bawdy house in Shamokin. On September 2, 1925, the applicant went into the neighborhood of this alleged bawdy house and upon inquiry learned that his wife was a notorious woman. When it became known that he was in the neighborhood, his wife, with another woman of bad reputation, a young man named Arthur Purcell, and one Clem Shelskies (who was pointed out to the applicant as his wife's lover), left in an automobile for a "joy ride." Later the same day, the applicant procured a car and drove on the State Highway toward Sunbury. While passing through the village of Uniontown, about one mile from Shamokin, the applicant met his wife and the persons above-mentioned, returning to Shamokin. He endeavored to stop the car when Shelskies made an insulting remark to the applicant, placing his thumb to his nose and making what was understood to be an insulting gesture. The four joy-riders were laughing at the applicant, taunting him, and Shelskies refused to stop the car but drove on toward Shamokin at a high rate of speed. The applicant having become greatly incensed turned his car and followed the car and overtook it near the outskirts of Shamokin. He called to them to stop the car, but the car continued on its way. Then the applicant fired a shot at Shelskies, the ball striking him on the face, but it proved to be only a flesh wound. The second shot fired at Shelskies struck the applicant's wife, who sat beside Shelskies in the front seat of the automobile, and proved fatal. The applicant immediately took his wife to the hospital and surrendered himself to the authorities. He was indicted, convicted and sentenced as above-stated. About June, 1926, he was transferred from the Eastern Penitentiary to the Northumberland County Jail. The applicant has now served three years and two months of his term of imprisonment. He was never before charged with or convicted of crime. He was only seventeen years of age when this crime was committed.

A number of letters were filed with the Board recommending clemency. The Warden of the jail in which he is now confined certifies that his prison record is excellent, and that if released he will doubtless become a good citizen. His former employers have filed a letter with the board in which they certify to his honesty and industry, and express their belief that if released he will prove himself a good citizen.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because of his excellent prison record; because of the statements from his former employers and the Warden we have concluded that he has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Edward Wojciechowski.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 50, May Sessions, 1927, in the Court of Quarter Sessions of the Peace in and for the County of Cumberland, Guy Bitner, was convicted of fornication and bastardy, carnally knowing and abusing a woman child under sixteen years of age, and incestuous fornication, and on May 14, 1927, he was sentenced on the charges of statutory rape and incestuous fornication to pay a fine of \$200.00, costs, and to undergo imprisonment in the County jail for a period of not less than three years nor more than seven years, and on the same day he was sentenced on the charge of bastardy to pay the sum of \$25.00 for lying-in expenses and to pay through the Probation Officer for the support of the child from the time of its birth until it reaches the age of sixteen years, the sum of \$2.50 per week.

The applicant is a native-born citizen of the United States, twenty-four years of age, and at the time of his arrest was employed by the Newville Knitting Company, Newville, Pa., as repairman and maintainer of machinery and equipment. He resided in the Borough of Newville with his wife and young son.

Mabel Ludwig, the daughter of Velma Bitner Walker (who is a sister of the applicant) gave birth to a male bastard child, on February 20, 1927, and accused her uncle (the applicant) of being the father as the result of sexual intercourse with her, on or about May 20, 1926, (she being at that time under sixteen years of age). When the child was born, and for some days after, Mabel Ludwig claimed that the father of the child was one Paul Stoner and so stated to the attending physician. On the certificate of birth the name Paul Stoner appears as the father of the child. When the officers of the law investigated the case, Mabel Ludwig told them that Paul Stoner, the father of the child, was a soldier at the Military Post at Carlisle. They went to the Post to arrest Stoner, but could not find anyone of that name. She then changed her accusation and named her uncle (the applicant) as the father of the child. This charge the applicant has always denied.

The applicant has now served one year and nine months of his term of imprisonment. He was never before charged with or convicted of crime. His wife and small child require his support.

Mabel Ludwig was the sole and only direct witness against the applicant. On August 2, 1928, she gave birth to a second male bastard child. Certified copies of the certificates of birth of both children were filed with the Board. On the first certificate, Paul Stoner is named as the father of the bastard child. The date of birth is given as February 20, 1927, and the age of the mother at her last birthday is given as sixteen years. The second birth certificate shows the birth of a male bastard child on August 2, 1928, and the age of the mother is there given as eighteen years. If the age of Mabel Ludwig as set forth in the second certificate is correct, then she was more than sixteen years of age at the time of the alleged crime and conception of the first child.

There was filed with the Board a letter from Clarence Walker, the prosecutor and stepfather of Mabel Ludwig, in which he desires a pardon to be granted. There was also filed with the Board the affidavit of the applicant in which he states that in the month of April, 1927, the said Clarence Walker, came to his home in the Borough of Newville and told him in the presence of his mother, Elizabeth Bitner, that a child had been born to Mabel Ludwig and that if the applicant would not assume the parentage of the child that he (Walker) would be sent to the Penitentiary; but that if the applicant would assume the parentage of the child, he (Walker) as prosecutor would see that the case would be settled for a nominal sum and any order of support would be met by Walker, who would furnish the money and relieve the applicant from all expense. The applicant refused and he was arrested on the same day. Elizabeth Bitner, the mother of the applicant, fully corroborates the statement of her son in an affidavit filed. There was also filed with the Board the affidavit of Mrs. Jean Wennell, in which she states that Mabel Ludwig during the summer of 1925 took her small son,

\*After the above recommendation had been fully written, the trial District Attorney sent a letter to the Board in which he referred to the applicant as follows: "In view of his deranged, excited, jealous mind at the time, coupled with his extreme youth, I feel that he has been punished sufficiently."

six years old, and acted improperly with him; that her neighbors witnessed this improper conduct and warned her against allowing Mabel Ludwig to play with her little son. She further states that Mabel Ludwig had such a bad reputation that it was not safe to let her alone with little boys. She concluded by saying that while she was present at the trial, intending to testify as to the facts set forth in the affidavit, she was prevented from so doing because she fainted. At the trial, Pearl Bitner, sister-in-law of the applicant, testified that while in attendance upon Mabel Ludwig after the birth of the first child, she told her that if she were to say that Clarence Walker was the father of the child, she would be without a home.

In consideration of all the circumstances of this case, because of the vicious character and bad reputation of Mabel Ludwig; because of the prior good record of the applicant; because of the term of imprisonment already served; because the wife and child of the applicant are in destitute circumstances and require support; because of the grave doubt as to the guilt of the applicant on the charge of statutory rape, we have concluded that he has been sufficiently punished insofar as this particular offense is concerned.

It is expressly declared and understood, however, that a pardon is not to operate as a release from the sentence imposed on the charge of bastardy.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Guy Bitner on the charge of statutory rape and incestuous fornication only—for which a fine, costs, and an intermediate term of imprisonment of from three to seven years were imposed by the Court.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 45, April Sessions, 1923, in the Court of Oyer and Terminer, in and for the County of Allegheny, William Cavell, pleaded guilty to the charge of voluntary manslaughter, and at No. 74 April Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the same county, the said William Cavell pleaded guilty to a charge of Misdemeanor (Escaping from the Western Penitentiary) and on November 2, 1923, was sentenced on the Manslaughter charge to pay a fine of six and one-fourths cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than five years nor more than ten years. On the misdemeanor charge he was sentenced to pay a fine of six and one-fourth cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than one year nor more than two years, to take effect at the expiration of the first sentence.

The applicant had been a citizen of Pittsburgh for the past thirty years and had resided with his mother in that city for many years. He was by occupation a chauffeur, and at the time of his arrest maintained his aged mother and an invalid sister.

The applicant and one Florence Lewis—also known as Florence Cavell—co-habited at No. 2461 Fifth Avenue, Pittsburgh, for a period of about two years prior to the commission of the crime for which the applicant seeks release. On the morning of February 8, 1923, police officers were called to the premises and upon arriving there found Florence Lewis on the floor of a room on the second floor—a physician being present in the room. The woman died in the hospital about noon of the same day from the effect of a gun shot wound.

The body showed a bullet wound extending from the mouth to the upper lobe of the left lung. The applicant was arrested, indicted and brought to trial for murder, and, upon his pleading guilty of voluntary manslaughter the murder charge was nolle prossed.

The applicant became a "trustee" at the Western Penitentiary and on December 18, 1924, while working on the outside, walked away from the Penitentiary. Upon being arrested a short time thereafter he pleaded guilty to the charge of misdemeanor and for the latter offense received an intermediate sentence of not less than one year nor more than two years.

The applicant has now served five years and three months of his aggregate sentences. He was never before charged with nor convicted of crime. His aged mother and invalid sister are in destitute circumstances and require his support.

The trial District Attorney has filed with the Board a letter in which it is stated on his behalf, "we have no objection to granting a pardon to the above applicant." The trial Judge in a letter filed, said, "I see no reason why I should object to it" (pardon).

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because the aged mother and invalid sister of the applicant are in destitute circumstances and require support; in further consideration of the fact that the trial District Attorney and trial Judge have no objection to a pardon in this case, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said William Cavell.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 290 and 291, February Sessions, 1927, in the Court of Quarter Sessions of the Peace in and for the County of Luzerne, Arthur Houck pleaded guilty to two indictments charging him with breaking and entering and larceny, and on March 10, 1927, was sentenced by the Court to pay a fine of Five Hundred Dollars, costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years nor more than ten years. Sentence was suspended by the Court in No. 291.

The applicant is twenty-seven years of age, a native-born citizen of the United States and an electrician by occupation. He resided in Plymouth Borough, Luzerne County. He is married and has two children, aged four and two years, respectively. The oldest child at present is in the Home for Friendless Children, Wilkes-Barre. The other child is with his mother at the home of John Wagner, father of the applicant's wife.

On January 18, 1927, the store of Dominick Barome, located in Breslau, Hanover Township, Luzerne County, was burglarized and shoes to the value of \$120.00 were carried away by the burglars. On January 9, 1927, the store of Hyman Quint, located in Plymouth Borough, was burglarized and five sheepskin-lined overcoats, valued at \$60.00, were carried away. Carl Naugle, Alfred Houck and the applicant were arrested and charged with the offenses. All pleaded guilty. Naugle and Alfred Houck were sentenced to the Huntingdon Reformatory. The applicant has made full restitution for the goods taken from Barome and Quint, the prosecutors, as shown by receipts filed with the Board.

The applicant has now served one year and eleven months of his term of imprisonment. The Deputy Warden of the Penitentiary certifies that his conduct in prison has been excellent.

A number of letters were filed with the Board recommending clemency. The trial Judge states: "I have no objection to whatever action you may take upon the application of Arthur Houck for pardon." Hyman Quint, one of the prosecutors in the case, asks clemency. Senator Sordoni asks for pardon. The trial District Attorney also recommends clemency. One of the controlling reasons is the fact that the applicant's wife and children are dependent for support on the father of the applicant's wife, who is out of work, and whose wife is an invalid, and consequently, the wife's family are not in a position to support the applicant's family.

In consideration of all the circumstances of this case; the term of imprisonment already served; the applicant's excellent prison record; because of the fact that the trial Judge is not opposed to a pardon; because of the fact that the trial District Attorney, Quint, one of the prosecutors in the case, Senator Sordoni, and others recommend clemency; because the applicant has made full restitution for the goods taken; because his wife and children are dependent on others for support; we have concluded that he has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Arthur Houck.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 56-57-58-59-60 and 61, December Term, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of Beaver, A. C. Osburn pleaded guilty to six indictments charging him with perjury, false entry (seventeen counts), and embezzlement (nineteen counts), and on December 9, 1925, was sentenced in the aggregate to pay a fine of six dollars (\$6.00), costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than fifteen nor more than thirty years.

The applicant is forty-seven years of age, a native-born citizen of the United States, and a banker by profession. At the time of his arrest he was Vice-President and Secretary of the Woodlawn Trust Company, Woodlawn, Beaver County, and resided in that borough with his wife and two daughters, aged eighteen and twelve years respectively. He was a book-keeper in the employ of the Burgettstown National Bank at Burgettstown, from 1901 to 1907, and Cashier of the First National Bank at Aliquippa from 1907 until 1910. He then took an active part in the organization of the Woodlawn Trust Company and upon its organization was made Secretary and Treasurer, and in 1927 was promoted to the position of Vice-President and Secretary, which offices he held at the time of his arrest.

The funds embezzled by him were used almost entirely in an effort to recoup losses he had incurred in unfortunate investments. During the time that he was embezzling the funds of the Trust Company and committing other criminal acts in order to cover up his shortage, he was living entirely within his income while supporting his wife and two children. When charged with the various offenses for which he was indicted and sentenced the applicant freely acknowledged his guilt, turned over to the Trust Company everything he owned, including his home, and assisted the company and the State

Banking Department in every way to protect the Trust Company from loss. Full and complete restitution has now been made and there has been no loss either to the stockholders or depositors.

The applicant has now served three years and two months of his term of imprisonment. He was never before charged with or convicted of crime. His wife and children require his support. A responsible position has been offered him, if released, by Boggs and Buhl, leading drygoods merchants of Pittsburgh, as appears by a letter filed.

The trial District Attorney, who had previously filed a letter with the Board opposing a pardon, subsequently wired the Board as follows: "Banking Department not protesting please withdraw objection to pardon of A. C. Osburn." The trial Judge has filed with the Board a letter in which he states that inasmuch as neither the State Banking Department nor the Trust Company oppose a pardon, and because the applicant's family require his support, "he has no objection to the granting of a pardon."

The President of the Woodlawn Trust Company during the time the embezzlements in question occurred has filed with the Board a letter in which he refers to the high character of the applicant and the successful manner in which he, as the active executive officer of the Trust Company, conducted its affairs, prior to his downfall. He states that the Trust Company and its stockholders have been fully reimbursed for their loss, and asks favorable consideration for the application so that the applicant may return to his family which needs him.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; in consideration of the fact that the applicant's family requires his support; because a responsible position has been offered him, if released, by well known Pittsburgh merchants; in view of the fact that no opposition has been expressed to the granting of a pardon in this case; in consideration of the fact that the trial Judge and trial District Attorney are favorable thereto, and that the president of the Trust Company which was looted desires clemency, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said A. C. Osburn.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 18A and 18B, March Sessions, 1925, in the Court of Quarter Sessions of the Peace in and for the County of Lawrence, Frank L. Clinefelter pleaded guilty to two indictments charging him with embezzlement by officer and employe of a corporation; keeping and making fraudulent accounts by officer and employe of a corporation; destroying and mutilating books of a corporation by officer and employe; embezzlement by officer and employe of Title Insurance Company; and forgery of written instrument by officer and employe of a corporation, and on February 7, 1925 was sentenced in the aggregate to pay a fine of \$100.00, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than six years nor more than twelve years.

The applicant is thirty-eight years of age and a native-born citizen of the United States. At the time of his arrest he was cashier of the People's National Bank of Farrell, Pa., and resided in Farrell with his wife and one child, aged nine years.

The applicant in February, 1925, was bank cashier as above stated. Previously, he had resided in New Castle, and was employed by the Lawrence Savings and Trust Company and had been in their employ for a number of years. He was arrested and charged with the embezzling of \$15,000.00, together with other charges under the statute, to all which charges he pleaded guilty. He and his wife made restitution in so far as they could by turning over to the Bonding Company their entire property. He was sentenced as above stated.

The applicant has now served four years of his term of imprisonment. He was never before charged with or convicted of crime. The Warden of the Western Penitentiary certifies to the Board that the applicant is, "one of the outstanding inmates of the institution."

The applicant is in bad health as shown by a letter filed with the Board by Doctor Perry, his family physician, and by the physician of the Western Penitentiary.

There were filed with the Board a number of letters recommending clemency and also a petition signed by three hundred citizens.

The trial Judge in a letter filed with the Board, recommends clemency because the sentence imposed by him was too severe and because, on account of the impaired health of the applicant, serving the maximum term of imprisonment imposed would result fatally. The trial District Attorney, who is now the President Judge, has also filed a letter recommending clemency. He states that the sentence in this case was, "more than double that of any of several others, who pleaded guilty to, or were convicted of, similar offenses about the same time, in Lawrence County. Additional Law Judge Chambers in a letter filed, states that the sentence was, "in this case very severe." He further states that other bank officers guilty of similar offenses did not receive sentences nearly as severe as the one imposed upon the applicant. There were also filed with the Board letters recommending clemency from the present District Attorney of Lawrence County; the present Mayor of the City of New Castle; Senator Weingartner; Charles H. Young, member of The Public Service Commission; O. H. J. Hartsuff, General Superintendent of Carnegie Steel Company of Braddock, Pa.; Harry B. McDowell of the McDowell National Bank, Sharon, Pa.; W. A. Eakin, Assistant Trust Officer of the Peoples Savings and Trust Company, New Castle, Pa., and others.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because he endeavored to make restitution; because his wife and child require his support; because of his impaired health; because of the undue severity of the sentence; because of the recommendations of the trial Judge, the trial District Attorney, Additional Law Judge, present District Attorney, and many other prominent citizens, we have concluded that he has been sufficiently punished and if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Frank L. Clinefelter.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 27, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 43 May Sessions, 1922, in the Court of Oyer and Terminer, in and for the County of Somerset, George

Milhouse was convicted of a felony; injury by explosive substances, and conspiracy, and on May 3, 1922, was sentenced to pay a fine of \$1.00, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two years and nine months nor more than three years, this sentence not to begin to run until the sentence at No. 111, May Sessions, 1922, has been complied with. The sentence in No. 111 has been completed.

The applicant is forty-five years of age, a native-born citizen of the United States, and a blacksmith by occupation. At the time of his arrest he had his own shop and resided in Berlin, Somerset County. He is married and has four children, one being of age.

On the night of January 21, 1922, a building, equipped as a pool room, bowling alley and barber shop, located at McDonaldton, Somerset County, was blown-up with a charge of dynamite. As a result the building was wrecked, and two men, who were inside the building at the time of the explosion (which was about 8 p. m.) were injured. The actual dynamiting of the building was done by one John Kapusta, according to his own confession, but in his testimony he implicated the applicant by stating that he had received from the latter, the dynamite used in causing the explosion. On the statement of Kapusta, the applicant was indicted, tried and convicted, not only on the charge of conspiracy, but also on the charge of assault and battery in having caused injury to the two men.

The applicant has always contended that he did not know of any plot to dynamite the building aforesaid, until after its commission and the knowledge had become general. Kapusta, in his testimony, specifically stated that the applicant did not know that he, Kapusta, intended to blow-up the pool room with the dynamite obtained from him. Kapusta was the actual perpetrator of the crime and the main witness against the applicant. The former received an indeterminate sentence of not less than two years and nine months nor more than three years, which minimum sentence has been served and he was then paroled.

It would seem that the conviction of the applicant was due in large measure because of the fact that the jurors empanelled in the case had previously heard the testimony in a former trial in which the applicant was charged with furnishing dynamite by means of which the house of one George Ragle, situated in Berlin, was dynamited and three persons injured. In the latter case the applicant was convicted largely on the testimony of John O'Brien, who said that the applicant had furnished the dynamite with which the building was blown-up. O'Brien has since declared that he committed perjury in stating that the applicant knew for what purpose the dynamite was to be used.

The applicant in the latter case received an indeterminate sentence from six years to six years and nine months.

The applicant has now served the maximum term in No. 111 and has begun to serve his sentence in No. 43. His family requires his support. He was never before charged with or convicted of crime, except that in 1903, on a trial for receiving stolen goods, he was acquitted and the prosecutor ordered to pay the costs.

A number of letters were filed with the Board recommending clemency. The trial Judge, the trial District Attorney, the present District Attorney, the County Detective, and the private counsel for the Commonwealth in the prosecution of the applicant have filed letters with the Board recommending clemency. The Warden and the Deputy Warden of the Penitentiary certify to the applicant's excellent prison record.

In consideration of all the circumstances of the case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because the actual dynamiter in the one case only served two years and nine months and the main witness in the other case admitted that the applicant did not know for what purpose the dynamite was to have been used; and in consideration of the recommendations of the trial Judge, the trial District Attorney, the present District Attorney and the Warden, we have concluded that he has been sufficiently punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice

and in open session," recommend that a pardon be now granted to the said George Milhouse.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 5, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 142, February Term, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Westmoreland, Elmer Swain, pleaded guilty to an indictment charging him with larceny, and on December 17, 1926, was sentenced by the court to pay a fine of \$1.00, costs, and to be confined in the Allegheny County Workhouse for and during the period of one to two years. This sentence was afterward modified by the Court and the period of imprisonment increased to not less than four years nor more than eight years, sentence to begin at the expiration of the sentence imposed at No. 58 August Term, 1925, and the place of confinement was also changed from the Allegheny County Workhouse to the Western Penitentiary.

The applicant is a native-born American citizen, twenty-one years old. By occupation he was a plumber's helper and was last employed by A. W. Hitchman of Mt. Pleasant, Westmoreland County, and resided with his father in the same place. On November 8, 1926, when nineteen years of age, he was married to one Margaret Levoy, aged sixteen years, who is now living with her parents. His mother is dead. His father is in the last stages of pulmonary tuberculosis.

In December, 1924, the applicant, then seventeen years of age, and another boy, took a ride for a few miles in an automobile that was parked along the street in Mt. Pleasant. When returning to the parking place to restore the car, they were arrested and held for court. They pleaded guilty to using the car and were paroled but charged with the Court costs. Being unable to pay his share, the applicant served four months in the County Jail in satisfaction of the costs.

On June 30, 1925, the applicant, almost eighteen years of age, and three other boys, entered a butcher shop in Mt. Pleasant through an open window and took the butcher's registered bill file and hid it. All were arrested but the Chief of Police promised that the prosecution would be dropped upon the recovery of the property. After the file was returned the case was sent to Court and the applicant entered a plea of guilty on assurance that the sentence would be suspended. He, however, was sentenced to serve an indeterminate term of two years to four years in the Workhouse. After serving one year, two months and three days, he was paroled.

On February 12, 1927, while confined in the Workhouse, the applicant was induced by another inmate, ten years his senior, to escape with him. Both were quickly apprehended and indicted for escaping. The applicant pleaded guilty to the charge and the Allegheny County Court imposed a sentence of six months in the Workhouse to begin at the expiration of the sentence imposed by the Judge of Westmoreland County. This sentence is filed at the Western Penitentiary as a detainer against the applicant.

On November 8, 1926, while on parole from the Allegheny County Workhouse, the applicant was married as above stated. The newly-married pair lived with his wife's parents until December 1, 1926, when they went to the home of the applicant's father. They wished to take a honeymoon trip but were unable to do so on account of the expense.

On the evening of December 4, the applicant and his wife were walking down the street in Mt. Pleasant when they came to a Chrysler coach parked along the curb. Prompted by the desire to take a trip, they took the car and drove to

a friend's house in Calridge. The following day they drove to Cleveland, Ohio, remaining there over night. The applicant then drove back to Claridge and the next morning started to return the car to the place from which he took it. In passing through Greensburg on the way back, the coach was recognized by two automobile men from Mt. Pleasant, who were looking for it. The men followed the car in their automobile, for a number of miles. They then took possession of it and delivered it to the owner. The applicant was arrested and indicted for the larceny of the coach.

The applicant pleaded guilty to the charge of larceny before Judge Whitten and was given a sentence of one to two years in the Allegheny County Workhouse. A few days later Judge Dom sentenced the applicant to be returned to the Workhouse, from which he had been paroled, to serve the remainder of the two year sentence. The applicant was recommitted to the Workhouse on December 21, 1926, and discharged on November 8, 1927. He was then committed to the Western Penitentiary to begin his present sentence and has now served one year and three months thereof.

A number of letters were filed with the Board recommending clemency. The school teachers of Mt. Pleasant Borough unite in such request for the applicant who was a former student. The Postmaster of Mt. Pleasant, the Superintendent of Schools, the Vice-President of the First National Bank, and the Mercantile Appraiser of the County in letters filed with the Board ask pardon. The owner of the car which was taken and for the larceny of which the applicant is now imprisoned also asks clemency. The trial Judge has filed with the Board a letter in which, because of the destitute condition of the applicant's family, and because of the punishment he has already received, he recommends clemency. Employment in a glass factory has been offered him if released. The father of the applicant with whom he resided at the time of his arrest, is in a precarious condition of health and requires the support of his son.

In consideration of all the circumstances of this case; the comparative youth of the applicant when the crime was committed; the term of imprisonment already served; because employment has been offered him if released; because his family is in destitute circumstances and requires his support; because of the many recommendations filed urging pardon, and largely because of the recommendation of the trial Judge, we have concluded that he has been sufficiently punished, and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that pardon be now granted to the said Elmer Swain.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 192, June Sessions, 1923, in the Court of Quarter Sessions of the Peace in and for the County of Fayette, Camel Rossi pleaded guilty to an indictment charging him with assault and battery, aggravated assault and battery, assault and battery with intent to rob, assault and battery with intent to kill and murder; and on June 6, 1923, was sentenced by the Court to pay a fine of six cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than seven years nor more than ten years.

The applicant is about thirty-one years of age, of Italian descent, and at the time of his arrest was employed in the company store of the East Bethlehem Coal Company, Cokesburg, Washington County. He is unmarried and was the

sole support of an aged father and mother and two minor brothers.

In March, 1923, one of the employees of the coal company had a feud with one Charles Panola, who lived on the Fayette side of the Monongahela River approximately ten miles from Brownsville. On or about March 15, 1923, while in Brownsville with several residents of Cokesburg, the applicant was induced to go into the neighborhood of the home of the said Charles Panola. He, with the others, accompanied the man who had the feud with Panola to the home of the latter. A general fight ensued, in which several of the participants were badly wounded. The applicant suffered two very serious and painful wounds and was rendered unconscious. While unconscious, he was placed in an automobile and taken to Wheeling, West Virginia, where he was confined in the hospital for several days. Subsequently, he was arrested and returned to the county jail at Uniontown and indicted for having shot the said Panola with a revolver with the intent to rob and murder him. When questioned by the County Detective he disclosed all the facts of the case and, when arraigned in Court, pleaded guilty. He made no effort to resist transfer from West Virginia to Pennsylvania.

The man, who induced the applicant and the others to accompany him to the Panola house, was killed by Panola and his friends and no one was injured except the leader (his name unknown) and the applicant.

The applicant has now served five years and nine months of his term of imprisonment. He was never before charged with or convicted of crime. His mother (now a widow) and two small brothers require his support.

There was filed with the Board a petition of citizens recommending clemency. The Register of Wills of Fayette County also filed with the Board a letter to the same effect. The trial District Attorney has filed a letter in which he states that the applicant, when arrested, gave full and complete information concerning the crime and assisted the Commonwealth in fastening the guilt on his companions, one of whom was killed. He concludes: "I understand his record has been very good at the prison and, if a pardon were granted, I believe Rossi (the applicant) would observe the trust placed in him."

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; the prior good record of the applicant; the term of imprisonment already served; because his widowed mother and small brothers require his support; because of his excellent prison record as shown by letters from the Penitentiary authorities; in consideration of the petition of citizens recommending clemency; the letter of the Register of Wills and the favorable recommendation of the trial District Attorney, we have concluded that he has been sufficiently punished and that, if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Camel Rossi.

ARTHUR H. JAMES,  
Lieutenant Governor,  
CHARLES JOHNSON,  
Secretary of the Commonwealth,  
CYRUS E. WOODS,  
Attorney General,  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 782, June Sessions, 1922, in the Court of Oyer and Terminer in and for the County of Philadelphia, Jacob Forbes, alias Big Yonick was convicted of murder in the second degree and on December 1, 1922, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term not less than nineteen years nor more than twenty years.

The applicant is thirty-three years of age, a native of Russia but a naturalized citizen of the United States. His occu-

pation at the time of his arrest was that of carpenter. He resided in the City of Philadelphia with his father and mother. He was unmarried.

On May 1, 1921, the applicant, after eating his supper, went out for a walk and went to the restaurant of Pinkus Feldman, situated at 722 South Fifth Street, Philadelphia. A number of persons were engaged in a gambling game with cards and were seated at a table in the rear of the pool-room, which was conducted in connection with the restaurant business. About 9:00 o'clock a man, known by the name of New York Louie, entered the restaurant and walked up to the table where the cards were being played, pulled out a revolver and ordered the players to hold up their hands. In the meantime the game broke up and a number of the people moved toward the front door and stood there. Shortly thereafter New York Louie re-entered the place and one, Udowitz, who had acted as banker for the gamblers, asked him what he meant by drawing a revolver and telling the players to hold up their hands. New York Louie replied that he was only joking. Words then ensued between them whereupon Udowitz punched New York Louie and knocked him against the wall. Then one of the gamblers, Harry Hirsch, who has been described as a prize fighter, started to beat up New York Louie and the confusion attracted the attention of the applicant who, at the time, was standing on the pavement in front of the restaurant. When the applicant came into the restaurant advancing in a threatening manner, some of the witnesses testified that he had a gun in his hand. There was a general scramble to get out of the rear of the place and Hirsch ran with the others but stumbled over a table or chair and while lying in this position was shot and killed. Several of the witnesses testified that the applicant shot Hirsch. The applicant denied that he had a gun or fired the shot and there was conflicting testimony as to whether the defendant was shot in the back or in the front. The theory of the Commonwealth was that the decedent had fallen and was lying with his face downward when he was shot, but Dr. Klopp the surgeon who attended him in the hospital testified that he was shot from the front, which would contradict the theory of the Commonwealth.

The applicant has now served approximately six years and four months of his term of imprisonment. His prior record was good, with the exception of one offense committed in Canada.

Colonel Groome, warden of the State Penitentiary, has filed with the board a letter in which he certifies to the applicant's excellent prison record, stating that he was industrious and had conducted a carpenter shop in which ship models were constructed and that employment was thus given to a number of prisoners and the morale of the institution advanced. The President of the Board of Trustees (now deceased) and individual Trustees strongly recommend pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant (with but one exception); the term of imprisonment already served, and because of the recommendations of the Warden and those of the Penitentiary Trustees, we have concluded that he has been sufficiently punished and if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Jacob Forbes, alias Gig Yonick.

ARTHUR H. JAMES,  
Lieutenant Governor,  
CHARLES JOHNSON,  
Secretary of the Commonwealth,  
CYRUS E. WOODS,  
Attorney General,  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 7 and 8, February Term, 1921, in the Court of Oyer and Terminer, in and for the County of Washington,

Art Yeater, alias Arthur Davis, pleaded guilty to two indictments charging him with felonious assault and battery with intent to commit murder, and on February 14, 1921, was sentenced by the Court in the aggregate to pay a fine of two dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than ten years nor more than thirteen years.

The applicant is forty-four years of age, a native-born citizen of the United States, married, a glass-blower by occupation, and was working at his trade and living with his wife at Wellsburg, West Virginia, at the time of his arrest.

The applicant was married in February, 1919. Frequently his wife went to Washington, Pennsylvania, to visit her mother, Mary Ward. On returning from a certain trip she told the applicant that Mary Ward was conducting a house of prostitution. The applicant told his wife that he did not want her to go to Washington but later, when she said she wanted to go, he permitted it. She left on a Friday, promising to return on Sunday, but did not come back until Tuesday. Sometime later, on December 10, 1920, she left home while the applicant was at work. When he returned to his home he found her gone. He telephoned to Washington and asked her to come back. She promised to return, but did not do so. He telephoned several times and wrote several letters, asking her to return. She told him in one conversation over the phone that she did not have the money to return and that if he would send her the money she would come. The applicant forwarded the money, but she did not return.

On New Year's day the applicant went to Washington to visit his sister. The following day he went to Mary Ward's house and asked to see his wife. He was allowed to see her, but Mary Ward did not let them see each other alone. The applicant told his wife to be ready the following evening at 6.30 as he was coming to take her back with him to Wellsburg, and then left the house. The following evening when he called for his wife, Mary Ward informed him in vile terms that neither he nor anyone else would take his wife from her house. The applicant became excited and angry and demanded that his wife leave with him immediately, but Mary Ward interfered and would not allow her to go. The applicant lost his head and fired several shots, meaning to frighten them, but he was so angry and excited that he did not know what he was doing. As a result, he wounded both Mary Ward and his wife, though neither one was seriously injured. He remained in Washington that night and on the following morning started back to Wellsburg. When he reached Wheeling he was arrested and brought back to Washington. He desired to stand trial, knowing that the real cause of his trouble would be disclosed and he felt that he would receive mercy at the hands of the Court, but the Chief of Police advised him to plead guilty, that by so doing he would save the county the expense of a trial and would receive a lighter sentence. Desiring to do what was best, he pleaded guilty and received the sentence hereinbefore set forth.

In this connection, it may be noted that Mary Ward was subsequently arrested for keeping a disorderly house and that the applicant's wife, whom he endeavored to assist after the shooting, disappeared and her present whereabouts is unknown.

The applicant has now served eight years and one month of his term of imprisonment. His prior record was good with one exception. At the age of seventeen years he was sent to the Huntingdon Reformatory for the larceny of chewing gum. The Warden of the Penitentiary certified to his excellent prison record.

There was filed with the Board a letter from Margaret Way, sister of the applicant, residing in Ohio, in which she offers her brother permanent employment and a home if he is liberated. The Chief of Police of Washington and the foreman of the Grand Jury which indicted him, recommend clemency. There is also filed with the Board, a letter from the present District Attorney, who was the first assistant of the trial District Attorney, in which he states that after a conference with the latter they believe that the applicant should receive favorable consideration from the Board. The trial Judge asks clemency, if the Board: "finds the petitioner's conduct during the years of his confinement was commendable."

In consideration of all the circumstances of this case; the prior good record of the applicant with a single exception;

the term of imprisonment already served; because of his excellent prison record; because employment and a home have been offered him if released; and in further consideration of the recommendations of the trial Judge, trial District Attorney and present District Attorney, and others, we have concluded that the applicant has been sufficiently punished and that, if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Art Yeater, alias Arthur Davis.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 3, October Term, 1927, in the Court of Oyer and Terminer, in and for the County of Mifflin, Leonard R. Arnold, pleaded guilty to an indictment charging him with statutory rape and on November 4, 1927, was sentenced to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two years nor more than four years.

The applicant is twenty-nine years of age, a native-born citizen of the United States, married, and at the time of his arrest was engaged in selling and installing electrical appliances and resided in the Borough of Lewistown.

On August 2, 1927, the applicant, accompanied by one Merle Quay, was driving from Lewistown to Port Royal on business connected with the applicant's work. The motor of the car became overheated, they stopped at the top of a hill near Mifflintown. While waiting for the motor to cool two girls, Edna Shugarts and Mildred Crimmel, aged fifteen and sixteen years, respectively, came walking down the road and asked the applicant if he would drive them to Orbesonia. The applicant informed them that he was going to Port Royal but, when they told him that Orbesonia was only a few miles beyond, he consented to take them. They arrived at Orbesonia about 5 p. m. The Shugarts girl left the car, returning in about twenty minutes with the information that the people she and the Crimmel girl came to visit were not at home. The applicant then agreed to take the girls back to Mifflintown. Upon being informed that they could avoid a muddy road by returning to Mifflintown via Mount Union, they returned by the improved highway. The two men informed the girls that they were both married and that they did not want to drive them around the country at night and offered to lend them money to return home by train. The girls refused to accept the money. They had tire trouble and did not reach Lewistown until 10 p. m. The men told the girls that they wished to return to their respective homes and asked the girls to accept money to go home on the train. The girls again refused and threatened that if they were taken home they would tell the wives of Quay and the applicant stories that would cause trouble. The girls refused to go home and, being in a quandry as to what to do, the applicant drove around Mifflin County until 3 a. m., when they stopped at a vacant hunting camp near Milroy where the remainder of the night was passed. They then drove around the country during the day, the girls refusing to go home. In the evening they returned to the hunting camp. Leaving the girls in the camp, the men went into the woods to try to devise a plan to get rid of the girls. They finally determined to return them to their homes, whether they wished to go or not. Returning to the camp to execute their plan, the applicant and Quay found that the girls had undressed and washed their clothes.

Being unable to leave because the girls had no clothes to wear, the applicant and Quay slept in the car and the girls in the hunting camp for the night.

The next morning, forcing the girls into the car, the applicant started to take them to their homes in Mifflintown, but before reaching the town they were stopped by a man in a car, whom the applicant knew, and the former informed the applicant that the police were looking for the girls. Wishing to avoid trouble, the applicant decided to take the girls to the place he first met them and when he arrived there the Sheriff drove up and arrested the two men and took the four of them to the girls' homes. The girls informed the Sheriff that they did not want to go home.

The applicant and Quay were first charged with "Enticing" the girls, but they were subsequently released on this charge, re-arrested and charged with statutory rape. The information in the latter charge was sworn to by a man who had served a sentence in the Penitentiary on a statutory charge preferred by his own daughter.

The applicant has now served one year and four months of his term of imprisonment. He was never before charged with or convicted of crime. Merle Quay, his accomplice, who received a heavier sentence, was at the January sessions pardoned by this Board. The applicant's wife requires his support.

A number of letters were filed with the Board, recommending clemency. Harry Burkett, United States Commissioner; George Rickard, Vice-President of the Mifflin County Bank; H. H. Laub, Passenger Agent, Pennsylvania Railroad Company; and others ask pardon. The trial District Attorney, in a letter filed with the Board, indicates a favorable attitude and the trial Judge recommends a pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because the applicant's wife requires his support; because his accomplice, who received a heavier sentence, was pardoned by this Board in January, 1929, after having served less time than the applicant; in consideration of the recommendations of prominent citizens of Lewistown; the favorable attitude of the trial District Attorney and the recommendation of the trial Judge, we have concluded that the applicant has been sufficiently punished and, if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Leonard R. Arnold.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 11 December Sessions, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Somerset, Samuel De Angelo waived the finding of a true bill by the Grand Jury and pleaded guilty to an indictment charging him with breaking and entering with intent to commit a felony and larceny, and on December 16, 1927, was sentenced to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than three years nor more than six years.

The applicant is twenty years of age and a native-born American citizen. His occupation at the time of his arrest was that of clerk. He resided in the City of Pittsburgh with his parents. He is unmarried.

On Sunday morning, April 3, 1927, the applicant, Harry Honadle and Richard Dick drove from Pittsburgh to Windber,

Pennsylvania, for the purpose of visiting the applicant's sister who resided there. On the evening of the same day the three boys visited a roadhouse near Windber. They arrived there about midnight and remained until about 2 A. M. of the following day. While at the roadhouse they drank and when they left they were quite intoxicated. They intended to drive to Pittsburgh that same night. The applicant was at the wheel. After going a mile one of the tires became flat and the boys, in their intoxication, drove on the flat tire to the garage of J. C. Kern in the Borough of Windber, intending when they got there to have the flat tire repaired. The garage was not open and the applicant, in his drunken condition, drove the automobile through the door, breaking it down. His companion removed the tire from the automobile. The applicant was too intoxicated to participate in the proceedings and was asleep at the wheel, during which time the other boys were in the garage, entered the accessory room, took tires, tubes and accessories and loaded them into the machine. They then resumed their drive to Pittsburgh, but on the way the machine broke down and they were towed into Homewood, Pittsburgh. During the same week the articles thus taken were given to one John Russo, who lived in Pittsburgh.

On or about November 18, 1927, the applicant was arrested. Honadle had already been arrested, but Dick has never been apprehended. At the hearing before the Justice of the Peace in Windber, both men acknowledged their guilt. Honadle, who at the time was more than twenty-one years of age, was sentenced to the Huntingdon Reformatory for a period of one year and one day and has since been discharged, while the applicant, who was actually nineteen but claimed to be twenty-three years of age, was sent to the Western Penitentiary for the indeterminate period of not less than three years nor more than six years.

The applicant has now served one year and three months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from J. C. Kern, whose garage was robbed, in which he asks clemency for the applicant because he has paid all damage and costs, is in poor health and has been sufficiently punished. The Chief of Police of Windber, the prosecutor in the case, also recommends clemency. The resident physician of the Western Penitentiary, in a letter filed, states that the applicant is in poor health. The trial Judge asks the Board for clemency because the applicant has made restitution to the owner of the goods, has served a considerable portion of his sentence, and is in ill health.

In consideration of all the circumstances of this case; the comparative youth of the applicant; his prior good record; the term of imprisonment already served; because of his impaired health; because restitution has been made to the owner of the goods taken; because his accomplice, who received a lighter sentence, has been discharged from the Huntingdon Reformatory; in consideration of the recommendations of the prosecutor in the case, the owner of the garage which was robbed, and the trial Judge, we have concluded that the applicant has been sufficiently punished and, if now released, he will prove himself a useful law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Samuel De Angelo.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 363, 363½ and 363¾, November Sessions, 1924, in the Court of Quarter Sessions of the Peace, in and for

the County of Luzerne, Elmer Houger alias Fred Lambert pleaded guilty to three indictments charging him with robbery, larceny, receiving stolen goods and the larceny of a motor vehicle, and on December 12, 1924, was sentenced to pay a fine of one hundred dollars (\$100.00), costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years.

The applicant is twenty-two years of age, a native-born citizen of the United States, a laborer by occupation, and at the time of his arrest was employed as a bell boy at the Marquette Hotel, Scranton. He is unmarried.

The applicant, at the age of eleven years, was forced to earn his own living by doing chores on farms in Minnesota. At seventeen he enlisted in the United States Army, but was discharged shortly thereafter on account of being under age. While in the Army he made the acquaintance of one Thomas Evans, alias Thomas Foley, who was indicted and sentenced on the same charge as the applicant.

While in Scranton, Pennsylvania, the applicant received a letter from his sister, giving the address of an older brother whom he had not seen for five years. He had a longing to see him and started west on foot in company with Evans, hoping to get "lifts" on passing cars. On December 6, 1924, while in Moosic, about ten miles from their starting place, Evans and the applicant stole a Ford touring car out of a garage and drove it as far as Nescopeck, Pennsylvania, where a tire blew out. They were not arrested for this offense. In Nescopeck, Evans and the applicant took a Gardner touring car, belonging to Preston Gearhart, from his private garage and, while driving it through the lane, the owner of the car appeared. They forced him to go along with them and drive the car out of town, Evans holding a car tool against Mr. Gearhart's back and ordering him to keep quiet. About two miles beyond Nescopeck, Evans and the applicant left Mr. Gearhart on the road, after taking from him his gold watch and approximately nine dollars in cash, and drove on towards Lewistown, where a State Trooper stopped them, arrested them and brought them back to Wilkes-Barre for trial. The automobile was recovered the following day and was not damaged. No bodily injuries were inflicted upon the owner of the car and his watch and money were returned to him. The applicant was only eighteen years of age when this crime was committed.

The applicant has now served four years and three months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from Preston Gearhart, the owner of the car and goods taken, in which he recommends clemency. He states: "the automobile that he (the applicant) took from my garage was recovered the next day and, since it was not damaged in any way, I think he (the applicant) has been sufficiently punished for this offense." The trial Judge also, by letter filed, recommends clemency.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because of the fact that the automobile and goods taken were restored to the owner; and because of the recommendations of the Prosecutor in the case (the man who was wronged), and the trial Judge, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Elmer Houger alias Fred Lambert.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 128, March Sessions, 1918, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Luigi Quattramano, pleaded guilty to an indictment charging him with murder, the degree of which was subsequently fixed by the Court at murder in the second degree, and on April 29, 1918, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than fifteen years nor more than twenty years.

The applicant is forty-one years of age, and owes allegiance to the Kingdom of Italy. He is unmarried. At the time of his arrest he was unemployed. He is by occupation a laborer. His father (a widower) and another brother, who is incapacitated from work on account of serious illness, reside in Italy.

The applicant was charged with having shot and killed one Palmo Gervasi early in the evening of January 28, 1918. The two men had been friends for many years. On the day of the murder, the applicant went to the home of Gervasi and cleaned the snow from the pavement as an act of friendship. A card game was suggested for the afternoon. There were five men playing. During the game wine was served in unlimited quantity. An altercation arose between the applicant and another player over some point in the game. During the altercation a blow was struck by the applicant. Gervasi took up the quarrel, cursed the applicant and threatened to kill him. There is some dispute as to what actually happened, but the applicant, seeing Gervasi arising from his chair, and believing that he was about to be attacked, fired one shot, in self-defense, he alleges, which shot resulted in the death of Gervasi.

The applicant has now served approximately ten years and eleven months of his term of imprisonment. He was never before charged with or convicted of crime. Employment has been offered him if released. The father of the applicant is in dire distress and needs the support of his son, which is shown by the affidavits of three persons who have recently returned from Italy. They represent that the father is about seventy years of age, almost blind, and that his only son, residing in Italy, is in an advanced stage of pulmonary tuberculosis and unable to assist his parent.

The District Attorney's office, at a former hearing, in June, 1928, opposed a pardon. A representative of the office present at the oral hearing of this case, while not joining in the application, indicated a favorable attitude.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the destitute condition of the applicant's father; because of the fact that employment has been offered him if released; and in consideration of the favorable attitude of the District Attorney's office, we have concluded that he has been sufficiently punished and, if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that pardon be now granted to the said Luigi Quattramano.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 3, September Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Erie, Norman

C. Schrader who was indicted for murder, was convicted of manslaughter, and on September 21, 1926, was sentenced to pay a fine of two hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than three years and nine months nor more than eight years.

The applicant is thirty-two years of age, a native-born American citizen, and is by occupation a marine and locomotive fireman. He was employed at the time of his arrest by the Great Lakes Transportation Company, of Buffalo, New York, as a fireman on the Steamship "W. W. Atterbury." He is married and has a wife and child, but their present whereabouts are unknown.

About noon on May 10, 1926, Joseph Hughes, a member of the crew of the Steamer "W. W. Atterbury," was found dead aboard ship. It was alleged that an altercation had occurred between Hughes and the applicant, during which a knife wound was inflicted on the body of Hughes, which resulted in death.

Hughes and the applicant worked together as firemen on the same watch, roomed together and were always on the most friendly terms. Throughout the night preceding the day of the tragedy they were drinking together and in the morning, at about six o'clock, an argument arose between Hughes and another member of the crew called "Dutch," which, however was quelled before any fighting was done. The applicant and Hughes then went ashore and spent the morning drinking together in different places in Erie. About noon they returned to the ship, both being in an intoxicated condition. The applicant remembers that Hughes climbed up the ship's ladder and was aboard, but he was too intoxicated to make the attempt and sat on a "niggerhead" to which the ship was tied. He remembers falling off the "niggerhead" and recalls nothing further until he was stopped by a flagman in the yards of the Nickel Plate Railroad at Dunkirk, New York. Shortly thereafter he was arrested and placed in jail. The knife which caused the injury belonged to the deceased and was in his possession. The applicant's conviction was based entirely on circumstantial evidence, largely developed on cross-examination. There were no witnesses to the crime and no motive established.

The applicant has now served two years and six months of his term of imprisonment. His prior record is good with a single exception. In 1920 he was sentenced to the Elmira, New York, Reformatory for larceny. The Penitentiary authorities certify that his prison record is excellent. The Secretary and Treasurer of the Lake Carriers' Association, a former employer, in a letter filed with the Board, offers the applicant employment if released.

There were filed with the Board the affidavit of Dr. Hickock, acting medical director of the Penitentiary at Rockview, in which he states that the applicant is suffering with tubercular laryngitis and that, in his opinion, he cannot recover without "immediate and radical change of climate."

A number of letters were filed with the Board, recommending clemency. The trial Judge and trial District Attorney, by letters, indicate a favorable attitude toward a pardon, owing to the applicant's impaired physical condition.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant, his prior good record, with a single exception; the term of imprisonment already served; because of his excellent prison record; because employment has been offered him if liberated; in consideration of the applicant's critical condition, as shown by the affidavit of Dr. Hickock; and because of the favorable attitude of the trial District Attorney and trial Judge, we have concluded that he has been sufficiently punished and that, if now released, he will prove himself a peaceful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Norman C. Schrader.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, March Session, 1915, in the Court of Oyer and Terminer, in and for the County of Lycoming, Paul Van Horn, alias Buffalo Sears, pleaded guilty to an indictment charging him with murder, the degree of which was subsequently fixed as murder in the second degree, and on June 1, 1915, he was sentenced to pay a fine of ten dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than nineteen years nor more than twenty years.

The applicant is a native-born citizen of the United States, thirty-nine years of age. He lost his father at the age of two years and his mother died when he was sixteen years of age. He was unemployed at the time of the murder, but prior thereto had been employed by the Shimer Manufacturing Company, Milton, as a nut presser.

The applicant as a young man was tubercular and unable to work steadily. While idle he became addicted to using whiskey. On two occasions he committed petty larceny in order to secure money to purchase liquor. In 1914, upon his release from jail, he married one Anna Stroup and they resided with her father, John Stroup, who was a veteran of the Civil War and addicted to the use of liquor. They resided in a house owned by a Mrs. John Fullmer, an elderly widow, who lived across the street. On the evening of January 20, 1915, the applicant returned home in an intoxicated condition. A quarrel ensued between him and his wife. About 6 o'clock he went across the street to Mrs. Fullmer's residence in order to telephone to his mother-in-law, who lived apart from her husband. After he had used the telephone, and was hanging up the receiver, Mrs. Fullmer approached him through the hallway, carrying a lighted lamp. On a sudden impulse he grabbed her around the waist and put his hand across her mouth. She fainted and he put her on the floor setting the lamp beside her. He then tied a small towel over her mouth, tied her hands with an apron and went through the house to see what he could find of value. He got about \$20.00 in money, a watch, a ring and a pin. He then returned to the Stroup home and with the money he had stolen, went with his father-in-law and got more whiskey. He bought a pint bottle in addition to what was consumed at the saloon. He then returned to his home and told his wife that he was going out of town and ordered her to go with him. They walked around Williamsport for awhile, then took a trolley to Montoursville. They then went to Shamokin, from Shamokin to Sunbury, to Harrisburg, and then started back to Shamokin but got off the train at Millersburg and returned to Harrisburg. The applicant sold the watch, ring, and pin to a pawnbroker in Harrisburg and spent the proceeds for liquor. On the Saturday following, the applicant learned for the first time from the newspaper that Mrs. Fullmer had died. He was arrested in Harrisburg, and he and his wife were charged with murder. He pleaded guilty as before stated and received his sentence. The Court in fixing the degree of the crime said, "Five physicians, all of excellent standing, were called, two upon part of the Commonwealth and three for the defendant and of this number, four of the physicians testified positively that the defendant was mentally incapable of reflecting upon and weighing the nature of his act, and that because of his mental condition, he was incapable of realizing the seriousness of the crime such as has been charged in this case."

The applicant has now served thirteen years and ten months of his term of imprisonment.

There was filed with the Board a letter from the present District Attorney which strongly recommends a pardon. The trial District Attorney has also filed with the Board a letter in which he recommends a pardon, stating that while the applicant was a bad boy before his present incarceration, he believes he has improved and that he will be a useful and law-abiding citizen if given his freedom. There was filed with the Board a letter from the trial Judge addressed to the applicant in which, among other things, he states, "I have no objection, whatever, to your being pardoned, but I cannot request such action by the Pardon Board as I think that is entirely up to said Board under the law." The applicant's grandmother, eighty-six years of age, is without a home, and with-

out means of support. She requires the assistance of the applicant who will aid her if released. At the hearing it was stated deceased was choked to death by artificial teeth.

In consideration of all the circumstances of this case; the term of imprisonment already served; because his aged grandmother requires his support; because the present District Attorney strongly recommends pardon; because the trial District Attorney also favors pardon, and the trial Judge is not opposed thereto; we have concluded that he has been sufficiently punished, and if now released will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Paul Van Horn, alias Buffalo Sears.

ARTHUR H. JAMES.  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 549, September Sessions, 1924, in the Court of Oyer and Terminer in and for the County of Philadelphia, Albert Egar pleaded guilty to an indictment charging him with assault, being armed with an offensive weapon with an attempt to rob, assault together with other persons with an attempt to rob, robbery, being armed with an offensive weapon, robbery together with other persons, robbery and at commission thereof beating, striking and ill-using, and on September 19, 1924, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than nine years nor more than twenty years.

The applicant is a native-born citizen of the United States, twenty-seven years of age. His occupation at the time of his arrest was that of janitor. He resided in the City of Philadelphia with his mother, brothers and sister. He is unmarried.

On September 14, 1924, about 4.00 A. M., William Weintraub, a taxicab driver, was instructed to go to Eighty-Second and Tinicum Avenue to pick up a party and when he arrived there found seven men who asked him to drive them to Fort Mifflin. When they reached their destination, two got out of the taxicab. The remaining five requested him to drive them about the City. When he reached Broad and Oregon Avenue, they asked him to drive them to Eleventh and Filbert Streets where all went into a restaurant. After they finished eating, the driver took them to Broad and Oregon Avenue and three men left the cab, telling the driver that the other two would pay the bill when they reached their destination, which was Port Mifflin. On the Port Mifflin Road, about three squares from the Arsenal, the two men asked the driver to stop the car for a few minutes. When the driver opened the door of the cab the applicant grabbed him by the throat and the other man, James G. Joyce, hit him on the head rendering him unconscious. The two men then took the cab and drove away leaving the driver lying on the street. Shortly thereafter a supervisor of the Yellow Cab Company noticed the Yellow Cab approaching at a rapid rate of speed, without light. He gave chase and at Twelfth and Oregon Avenue overtook the driver (the applicant) as he was leaving the cab.

When the taxi driver regained consciousness, he called the police and reported what had happened. Two officers were sent from the station house in a bandit-chasing car and they took Weintraub to the station house where the applicant was being detained. The latter was immediately identified as one of the men who had beaten him and robbed him of twenty-six dollars and his watch. The applicant confessed and implicated Joyce. Weintraub's watch was found in Joyce's room

and returned to the owner. When arrested, the applicant was intoxicated and did not appear to know where he had gotten the taxicab. He had no driver's license.

The applicant has now served four years and seven months of his term of imprisonment. He was never before charged with or convicted of crime. His mother, sixty-six years of age, is unable to support herself by reason of old age and illness and requires his assistance. His accomplice, Joyce, was pardoned by this Board December, 1928, after serving less time than the applicant.

A representative of the District Attorney's office, who was present at the oral hearing, did not actively oppose the application for pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; the fact that his accomplice has already been pardoned; because his mother, sixty-six years of age, in feeble health, requires his support; in consideration of the fact that the district attorney's office does not oppose the present application, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Albert Egar.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 3, 7, 8, 9, and 72 September Sessions, 1924, in the Court of Oyer and Terminer, in and for the County of Allegheny Harry Smith alias Harry Schmidt, alias "Huzzie" Burns, alias Anthony Schmidt, pleaded guilty to five indictments charging him with larceny and receiving stolen goods, and breaking and entering, and on September 11, 1924, was sentenced in the aggregate to pay a fine of 37½ cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than nine years nor more than eighteen years.

The applicant is a German-American, twenty-six years of age, and owes allegiance to the United States. He is by occupation a roofer's helper. At the time of his arrest he was temporarily out of employment. Prior thereto, he was employed for three years as a roofer's helper, and been employed by the United States Shipping Board as a deck hand, and also as a helper in the produce yards in Pittsburgh. He is married and has one child aged seven years who resides with his mother in Pittsburgh. His wife deserted him about six years ago. His residence was in the City of Pittsburgh with his aged parents.

The applicant, who was unemployed at the time of the commission of the crimes, met an old schoolmate named Ort who inquired if he desired to make easy money. He introduced him to one Clarence Hosek. A meeting was arranged by Hosek in his dental laboratory in Pittsburgh where the applicant was introduced to Robert Barnhart, Louis Eskra, alias "Eutch Louie," Thomas O'Brien, Jacob Finegold, alias Jack Green, and George S. Weigand. They met on several occasions planning to rob the Pittsburgh Natatorium. Nosek suggested that in order to stimulate their courage, several minor robberies should be committed. As a result, the crimes hereinafter described, were committed. At a meeting in the Hosek laboratory they had their guns given them. Of all the crimes to which the applicant pleaded guilty, the only crime netting any considerable sum of money, was the hold-up of the Pittsburgh Natatorium. About June 1, 1924, at midnight, at the point of a gun, Walter B. Alston, the night clerk in charge of the Nata-

torium, delivered to the robbers approximately \$1800.00 in cash and 31 watches. The criminals then drove to the Hosek home where they divided the loot.

Several days thereafter the applicant was approached along with the others who participated in the crime. Subsequently, most of the watches were found in the Hosek place of business and the money which was not spent, was taken from the criminals, at the time of their arrest.

The applicant has now served four years and seven months of his term of imprisonment. He was never before charged with or convicted of crime.

Clarence Hosek, who appears to have been the ringleader in the criminal enterprises, was pardoned by this Board in March, 1928. The applicant's mother is fifty-seven years of age and is in poor health. His seven-year-old son, who is now being supported by his grandparents, is a financial burden on them and requires the assistance of the father.

There was filed with the Board a letter from the present District Attorney in which he states that after consultation with the trial District Attorney, he believes that the applicant has been sufficiently punished. He recommends a pardon. The trial District Attorney has also filed with the Board a letter in which he recommends a pardon on the ground that several of the applicant's accomplices, who were equally guilty with him, have been pardoned. The trial Judge has since died.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the fact that the ringleader in the depredations has been pardoned and other accomplices, equally guilty with the applicant; because his aged parents and 7-year-old son require his support and in further consideration of the fact that the present District Attorney and the trial District Attorney both recommend pardon; we have concluded that he has been sufficiently punished and if now released will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Harry Smith, alias Harry Schmidt, alias "Huzzie" Burns, alias Anthony Schmidt.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 367, 368, 369, 370, 371, 372, and 373, January Sessions, 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Dauphin, Daniel Carmichall pleaded guilty to seven acts of forgery, and on February 25, 1924, was sentenced in the aggregate to pay a fine of \$7.00, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than six years nor more than eighteen years.

The applicant is 62 years of age, a native-born citizen of America, a widower, and a laborer by occupation. His proper place of residence is Harrisburg. He was unemployed at the time of his arrest.

The applicant in the past has been greatly addicted to the use of liquor. When intoxicated, he frequently forged checks for small amounts on various shopkeepers. He was readily apprehended and pleaded guilty to the charges made against him. The amounts involved in the seven charges, covered by the present sentence, do not aggregate \$100.00. The applicant after having served five years in prison believes that he is cured of the drink habit. During his incarceration he has learned the trade of barber and will be self-supporting. During his imprisonment he has saved money from his earnings as a barber.

The applicant has now served five years and two months of his term of imprisonment.

There was filed with the Board a letter from Jacob Carmichall, a brother of the applicant, the owner of a farm, in which he offers the applicant a home if he is liberated. There was also filed with the Board a letter from the prison physician in which he states that the applicant's heart is in bad condition and that further confinement will aggregate his condition to such an extent that it will terminate in fatty degeneration which will probably prove fatal to a man of his age.

The trial Judge verbally informed the Attorney General, a member of this Board, that he desires the applicant pardoned because he now believes that the sentence imposed was too severe. He has filed no written recommendation because it has not been the custom of the Dauphin County Court to recommend pardons to the Board. The Attorney General has caused a memorandum to be made of this conversation, and filed the same with the Board.

In consideration of all the circumstances of this case; the age of the applicant; the severe sentence imposed by the Court; the term of imprisonment already served; because of the letter of the prison physician with regard to the applicant's physical condition; because of the fact that a brother of the applicant has offered him a home, and because of the recommendation of the trial Judge, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Daniel Carmichall.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 26, December Sessions, 1928, in the Court of Oyer and Terminer in and for the County of Philadelphia, Richard McAlis pleaded guilty to an indictment charging him with assault, being armed with an offensive weapon, with an attempt to rob; robbery, being armed with an offensive weapon; robbery, and at commission thereof, beating, striking, and ill using, and on December 5, 1928 was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than one year nor more than ten years.

The applicant is nineteen years of age, a native American of Lithuanian parentage. He is a member of the Pennsylvania National Guard and was employed from June, 1928, to November, 1928, as a helper in a grocery and produce house. At the time of his arrest he had been out of employment for several weeks.

Henry Staller, residing in Philadelphia, a huckster by trade, had been selling fruits and vegetables in the neighborhood of 905 North 8th Street, Philadelphia, at which number the applicant resided in the first floor apartment, occupied by his mother and stepfather. On November 28, 1928, about 3 P. M. while the applicant was standing in the doorway of the apartment house, he beckoned Staller and requested him to bring some apples to their apartment. Staller claimed that when he reached the room the applicant closed the door, threw a towel over his head, held him up at the point of a gun and robbed him of five dollars. Subsequent investigation disclosed the fact that the applicant did not have a gun, but stuck his finger in the back of Staller to make the latter think he had one. The amount taken was \$1.09. Staller left the rooms with the applicant and when they came to the street the latter asked Staller for his address so that he could return the money the next day. The applicant then went to a cigar store at

the corner, where he was indebted to the extent of sixty cents, and paid this bill out of the money taken from Staller, so that his stepfather would not be aware of his indebtedness, and then proceeded to his home. The boy being out of work feared to incur the displeasure of his stepfather. Later in the day detectives called at the home of the applicant and made inquiries as to whether or not any other young men of his age lived there. He promptly admitted that he was the only one. The following day detectives returned with Staller and the applicant was identified and arrested.

The applicant has now served four months of his term of imprisonment. He was never before charged with or convicted of crime. He was only nineteen years old at the time of this occurrence. A former employer certifies to his prior good conduct. A number of letters were filed with the Board recommending clemency.

A representative of the District Attorney's office who was present at the oral hearing, did not actively oppose the present application.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because of the fact that the applicant was innocent of the charge of assault and robbery being armed with an offensive weapon (the offense with which he was charged); because of the letters recommending clemency filed with the Board by a number of persons who were personally acquainted with the applicant, and in further consideration of the fact that the District Attorney's office did not oppose the application, we have concluded that he has been sufficiently punished and if now liberated will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Richard McAlis.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 573 and 578, January Sessions, 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Norman Murdock pleaded guilty to two indictments charging him with larceny and receiving stolen goods, and on February 1, 1924, was sentenced in the aggregate to pay costs and to undergo imprisonment in the Eastern Penitentiary, for a period of not less than ten years nor more than twenty years.

The applicant is twenty-four years of age, and a native-born American citizen. His occupation was that of automobile mechanic. At the time of his arrest, he was employed by the American Ice Company as a truck driver. He is unmarried, and resided with his mother in the City of Philadelphia.

The applicant was convicted of stealing a Lincoln touring automobile, the property of Samuel Rudolph, and a Lincoln phaeton automobile, the property of John A. Brown. Both offenses were committed in the month of December, 1923. Prior to these thefts, the applicant was engaged in the hauling and delivering of ice and while so employed certain young men living in the neighborhood of his residence, urged him to take part with them in the stealing of automobiles, with the plea that he would not have to do as hard work as he was then doing, that he would have a larger income, would be able to wear better clothing and would have an easier time if he would do so. At first he declined to listen to their suggestions, but after the lapse of considerable time, finally yielded, with the result that he has now served more than five years' imprisonment in expiation of his offenses. He was only nineteen

years of age when these crimes were committed.

The applicant has now served five years and two months of his term of imprisonment. He was never before charged with or convicted of crime.

A number of letters were filed with the Board recommending clemency, also a petition of citizens to the same effect. Employment has been offered him, if released, by his uncle, a responsible citizen of Philadelphia. There was filed with the Board, a letter to this effect.

In consideration of all the circumstances of this case; the youth of the applicant when these crimes were committed; the prior good record of the applicant, the term of imprisonment already served; because employment has been offered him if released; and because of the recommendation of citizens contained in letters and the petition filed, we have concluded that he has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session", recommend that a pardon be now granted to the said Norman Murdock.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 3 and 5 May Sessions 1926, in the Court of Quarter Sessions of the Peace, in and for the County of Montour, Norman Starr pleaded guilty to two indictments charging him with the breaking and entering and larceny, and on March 26, 1926, was sentenced in the aggregate to pay a fine of one hundred dollars, costs and to undergo imprisonment in the Eastern Penitentiary, for a period of not less than five years nor more than ten years.

The applicant is twenty-three years of age, a native-born citizen of the United States, a laborer by occupation, unmarried, and at the time of his arrest, resided with his mother in Danville, Pa.

The applicant, together with his brother, Chester Starr and George Mason, was arrested on February 27, 1926, on an information made by Frank N. Sandels of Valley Township, Montour County for breaking and entering his store and stealing cigarettes and other articles to the value of ten dollars. All pleaded guilty to this charge and also to the charge of the larceny of seventeen chickens taken from the residence of Cora Diehl in Mahoning Township, Montour County, to the value of nineteen dollars. He was only twenty years old when these crimes were committed.

The applicant has now served three years and one month of his term of imprisonment. His prior record was good with a single exception. While a school boy, he was sent to Glen Mills Reformatory for the commission of some minor offenses. His prison record is good as shown by a letter from the warden of the Penitentiary filed with the Board. The applicant's brother, Chester Starr, an accomplice, was pardoned by this Board in October, 1928, after serving two and one-half years in the Eastern Penitentiary. An older brother, who participated in these crimes, has never been apprehended.

Fred Doane, a responsible citizen of Elmira, New York, engaged in the trucking business, has offered to employ the applicant if released.

Frank N. Sandels, the store keeper, who was robbed, has filed with the Board, a letter, in which he recommends pardon. The trial District Attorney has also filed a letter with the Board, which, while not recommending clemency, evinces a favorable attitude. The trial Judge, in a letter to the applicant now on file, states, that he has no objection to a pardon

being granted the applicant, but that he cannot request the same.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record (with a minor exception); the term of imprisonment already served; because his brother, Chester Starr, an accomplice, has already been pardoned by this Board; because of his excellent prison record; because employment has been offered him if released, by a responsible citizen of New York; because of the recommendation of Sandels, one of the prosecutors, and in consideration of the favorable attitude of the trial Judge and trial District Attorney, we have concluded that he has been sufficiently punished and if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session", recommend that a pardon be now granted to the said Norman Starr.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney-General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 596, April Sessions, 1923, in the Court of Oyer and Terminer in and for the County of Philadelphia, Salvatore Geraci pleaded guilty to an indictment charging him with murder, the degree of which was adjudged by the Court to be murder in the second degree, and on December 20, 1923 was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than ten years nor more than twelve years.

The applicant is an Italian by birth and owes allegiance to the Kingdom of Italy. He is thirty-seven years of age, has a wife and two children, is a tailor by occupation and was steadily employed at his trade until near the time of his arrest. He resided in the City of Philadelphia.

The applicant was sentenced for the killing of Vincenzo Inpronta, at the corner of 10th and Commerce Streets, Philadelphia, at the hour of noon, March 20, 1923. Inpronta was the manager of a cloak-making business located on the fourth floor of No. 27 North 10th Street, where the applicant had been an employe for some time prior to this occurrence. A few weeks before the shooting the applicant was laid off on account of the scarcity of work, and through no fault of his own. At that time there was a balance still due him for labor, and there seems to have been considerable dispute as to the amount due. He had called at the office several times to settle this claim and on the day of the tragedy he called again for that purpose. At the trial it was established that the applicant refused to accept a check for the amount finally agreed upon as due him, and the employer was unable to settle on account of not having the right amount of change in the cash drawer. An argument ensued and the testimony clearly shows that the applicant was badly beaten about the face by someone, and came out on the street with black eyes, a bloody nose, and all the appearance of a man who had received a severe drubbing. About this time there had been a number of labor disturbances in the cloak-making trade and for this reason the applicant carried a revolver, and because of having worked as a strike-breaker, although he made no attempt to use the weapon while he was being beaten. Two firemen who were in the firehouse in the neighborhood saw the applicant come out of the building wiping the blood off his face, and about ten minutes later they saw Inpronta come out with a policeman. When the latter saw the applicant Inpronta walked away after pointing him out to the officer, and the applicant, while Inpronta was in the street, shot and

killed him. The applicant admitted the shooting. A number of character witnesses testified to his excellent reputation both in Italy and in America. His army record was also produced, showing that he had served for forty-one months in active fighting during the World War and had received the Cross of Honor signed by the General of the Division in the Italian Army in which he had served.

The applicant has now served five years and four months of his term of imprisonment. He was never before charged with or convicted of crime. His wife and two children are dependent upon him for support.

A number of letters were filed with the Board recommending clemency, also a petition of citizen to the same effect.

A representative of the District Attorney's office, present at the oral hearing, stated that he was satisfied to leave the entire matter of clemency to the Board.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served, because his wife and two children are dependent upon him for support; because of the recommendations of clemency contained in letters and in the petition filed; and in consideration of the fact that the District Attorney's office is satisfied to leave the entire matter with the Board, we have concluded that he has been sufficiently punished, and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Salvatore Geraci.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 3 and 5, May Sessions, 1926, in the Court of Quarter Sessions of the Peace in and for the County of Montour, George Mason pleaded guilty to two indictments charging him with larceny, breaking and entering and larceny, and on March 26, 1926, was sentenced in the aggregate to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, twenty-nine years of age, unmarried, a laborer by occupation and was working in the Magill Coal Yards, Danville, at the time of his arrest.

The applicant, on February 27, 1926, together with Chester Starr and Norman Starr, brothers, was arrested on information of Frank N. Sandels of Valley Township, Montour County, for breaking and entering his store and for the larceny of cigarettes and other articles to the value of ten dollars. All pleaded guilty to this charge as well as to the additional charge of the larceny of seventeen chickens taken from the residence of Cora Diehl in Mahoning Township, Montour County, to the value of nineteen dollars.

The applicant has now served three years and one month of his term of imprisonment. His prison record is good as shown by a letter from the warden of the Penitentiary. Employment has been offered to him if released, by Mr. Magill, a former employer, as shown by a letter on file with the Board.

Chester Starr, an accomplice, was pardoned by this Board in October, 1928. Another Starr, an older brother of Chester and Norman Starr, who participated in these crimes has never been apprehended.

The applicant has served three years and one month of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is good.

There was filed with the Board, a letter from the trial District Attorney in which, while not recommending clemency, he evinces a favorable attitude.

Frank N. Sandels, the prosecutor in one of these cases, has filed with the Board, a letter recommending clemency. The trial Judge in a note addressed to the applicant, states that he has no objection to his being granted a pardon, but cannot request the same.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because of the fact that employment has been offered to him if released; because of the fact that Chester Starr, an accomplice, has already been pardoned by this Board, because of the favorable attitude of the trial Judge and trial District Attorney, we have concluded that he has been sufficiently punished, and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session", recommend that a pardon be now granted to the said George Mason.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 16, November Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Susquehanna, Paul Patelunis pleaded guilty to an indictment charging him with robbery, and on November 12, 1926 was sentenced to pay a fine of two hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of seven years; which sentence was subsequently modified to the indeterminate period of three years and six months to seven years.

The applicant is twenty-three years of age and a native-born citizen of the United States. At the time of his arrest he was employed as a miner in the City of Scranton.

On or about September 24, 1926, the applicant, together with his brother, John Patelunis, while driving through the town of Hallstead on their return from Binghamton, N. Y., entered a restaurant and demanded from H. C. Homan, the restaurant keeper, that he deliver to them the contents of the cash register. The two brothers covered, with their revolvers, Homan and his wife, the latter being present at the time, and Homan complied with their demand. They obtained the sum of fifty-five dollars. The brothers had been drinking and the crime was committed on the spur of the moment and under the influence and excitement caused by the liquor. They were not apprehended but a few days later, on the advice of counsel, voluntarily surrendered themselves. Restitution was made for the full amount of the money taken. The applicant was twenty-one years of age when this crime was committed.

The applicant has now served two years and five months of his term of imprisonment; he was never before charged with or convicted of crime; his prison record is excellent, as shown by a letter from the Deputy Warden of the Penitentiary; A. J. Reiley, Captain of Detectives, Scranton, testifies to the prior good record of the applicant. This is concurred in by a letter from Samuel K. Newton, Lieutenant of Police, Third Precinct, Scranton, who recommends clemency. E. J. Mirtz, Chief Deputy Sheriff, Scranton, also recommends clemency, certifying to the applicant's prior good record.

In consideration of all the circumstances of this case, the youth of the applicant when the crime was committed; his prior good record; his excellent prison record; because the applicant's family, consisting of a father, mother and three young children, require his support; because of the recommen-

dations of the Captain of Detectives and Lieutenant of Police of Scranton, and the recommendation of the Chief Deputy Sheriff of Lackawanna County, we have concluded that the applicant has been sufficiently punished and if now released will prove himself a peaceful and law-abiding citizen.

We, therefore, "after hearing upon due public notice and in open session", recommend that a pardon be now granted to the said Paul Patelunis.

ARTHUR H. JAMES,  
Lieutenant Governor.

Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

## Commonwealth of Pennsylvania.

## Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 808 and 809, February Sessions, 1919, in the Court of Oyer and Terminer in and for the County of Philadelphia, Herman Heft pleaded guilty to two indictments charging him with robbery, and on March 3, 1919, on first indictment, he was sentenced to pay costs and undergo imprisonment in the Eastern Penitentiary for a period of not less than nine years and nine months nor more than ten years, and, on the same day, on the second indictment, was sentenced to serve a term in the same institution for a period of not less than five years nor more than ten years, to begin at the expiration of the first sentence. The applicant has now served the full sentence imposed in No. 808.

The applicant is thirty-four years of age a native-born citizen of the United States, unmarried, and at the time of his arrest resided with his parents in the City of Philadelphia. He is a machinist by occupation.

About the middle of February, 1919, the applicant with one, Joseph Howard, went into a drinking saloon at 22nd and Market Streets, Philadelphia, and while they were all drinking together robbed a man by the name of McGraft, of the sum of one hundred and sixty dollars. A few days later they went into another drinking saloon, and while they were drinking together robbed one Patrick Dillon of the sum of one hundred eighty dollars. Howard, being ten years older than the applicant, planned both robberies.

The applicant does not know how much money was obtained, did not have any offensive weapon, nor was such weapon found on his person at the time of his arrest. He was not given time to send for his parents or friends. Banditry was rife in the City of Philadelphia, and because of this fact the trial Judge gave him a very severe sentence, probably as an example to others.

The applicant has now served ten years and one month of his term of imprisonment. He was never before charged with or convicted of a crime, except that on one occasion about four years prior to the commission of this crime he was charged with stealing a bicycle and given a suspended sentence.

The applicant has now served the maximum sentence in the first indictment. Had he been sentenced under the present law he would now be entitled to liberty, as he has served more than one-half of his total maximum sentence. Howard, his accomplice, has altogether escaped punishment for his share in the present offenses. During his imprisonment the applicant has learned the trade of carpenter, and employment has been offered him, if released, by one, James Gitomer of New York, whose letter is filed with the Board. His aged parents require his support; his prison record is excellent, as appears from a letter filed by the Deputy Warden of the Penitentiary.

A representative of the District Attorney's office, present at the oral hearing, did not oppose the present application.

In consideration of all the circumstances of this case; the severe sentence; the previous record of the applicant (with a minor exception); the term of imprisonment already served; because of his excellent prison record; because his accomplice has escaped punishment for the present offense; because his aged parents need his support; because employment has been offered him if released, and because the District Attorney's office has not opposed the present application, we have concluded that he has been sufficiently punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Herman Heft.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

## Commonwealth of Pennsylvania.

## Board of Pardons.

Harrisburg, Pa., April 17, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 54, September Term, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Greene, Homer Prinkey, was convicted of receiving stolen goods, with a recommendation to the mercy of the Court, and on September 8, 1929, was sentenced to pay a fine of five dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than one year nor more than two years.

The applicant is a native-born American citizen, twenty-four years of age and a coal miner by occupation. At the time of his arrest he was employed in the Mather Collieries at Mather, Greene County, and resided with his wife and five children aged ten, eight, five and three years, and six months, respectively. Another child is shortly expected.

On the night of May 17, 1928, the applicant was arrested by a Corporal of the State Police on a warrant charging him with breaking and entering, larceny and receiving stolen goods, the alleged offense having been committed in Fayette County, adjoining Greene County. The applicant was acquitted of this charge by a jury in Fayette County and three days later an information was made against him in Greene County on the charge of receiving stolen goods, under the same state of facts as shown on the former trial.

The prosecutor in the case testified that he found large quantities of merchandise, which had been stolen from certain storekeepers at Carmichaels, in the house occupied by the applicant. The latter claimed that the goods had been brought to the house while he was at work and absent from home, by one Carl Keene a boarder who was convicted of the offense of breaking and entering, larceny and receiving stolen goods in Fayette County, in June 1928. The applicant claimed that he did not know where the goods came from, denied stealing them and also denied all knowledge of their having been stolen.

In this he was corroborated not only by his wife, but also by Keene, who was brought from the Western Penitentiary in order to testify in his behalf.

The applicant has now served seven months of his term of imprisonment. His wife and five small children are in destitute circumstances and require his support. They now reside with the wife's parents who are aged, poverty-stricken and receive aid from the Poor Board of Greene County. Employment has been offered the applicant, if released, by the Superintendent of the Mather Collieries, in which he was formerly employed. The prison authorities certify to his excellent prison record.

There was filed with the Board a letter from the trial Judge in which he recommends pardon because of the destitution of the applicant's family.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; the term of imprisonment already served; his good prison record; because of the destitute condition of his wife and small children; because employment has been offered him if released, and because of the recommendation of the trial Judge, we have concluded that he has been sufficiently punished and if now released will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Homer Prinkey.

ARTHUR H. JAMES,  
Lieutenant Governor.

CHARLES JOHNSON,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 838, September Sessions, 1922, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, James Miller was convicted of larceny and receiving stolen goods and on October 13, 1922, was sentenced by the Court to pay a fine of one thousand dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than nine years nor more than ten years.

The applicant is thirty-six years of age and a native-born citizen of the United States. He had been employed both as a delivery man and as a horseshoer and at the time of his arrest was employed by one, John P. Sullivan, in Philadelphia, in which city he resided. He has two minor children aged eight and nine years respectively, who reside with their grandmother, their mother having recently died.

On September 21, 1922, about 12 o'clock, the applicant was arrested near Front and Bainbridge Streets, Philadelphia, charged with the larceny of a Studebaker automobile, the property of one, Jacob Kalman. It appears that the automobile in question was being operated northward on Second Street and came to a stop at Second and Lombard Streets, because the street was torn up for repairs. The driver of the car got out, walked to the rear of the car and then went southward on Second Street. Officer Young chased the man but lost track of him. He later arrested the applicant in an alley on Front Street near Bainbridge Street. During the trial the applicant was identified as the driver of the automobile by Officer Young, but the former denied having anything to do with the larceny of the car, and claimed that he was employed in that vicinity.

The applicant has now served six years and seven months of his term of imprisonment. His two small children require his support. Employment has been offered him if released, by two responsible parties whose letters are on file with the Board. There were also filed with the Board a number of letters recommending clemency.

In consideration of all the circumstances of this case; the term of imprisonment already served; because of the need which the applicant's children have of support; because employment has been offered him if released, and in further consideration of the recommendation of persons who are personally acquainted with him, we have concluded that he has been sufficiently punished, and that if now released will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said James Miller.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 164, September Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Luzerne, Joseph Klem was convicted of assault and battery with attempt to commit rape, and on September 14, 1928, was sentenced by the court to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than fifteen months nor more than thirty months. This sentence, twelve days later, was modified,

and the term of imprisonment was reduced to a minimum of fourteen months and a maximum of twenty-eight months.

The applicant is twenty-one years of age, a native-born citizen of the United States, a laborer by occupation, and at the time of his arrest resided with his parents in Warrior Run, Luzerne County. He is the eldest of five children and is unmarried.

About seven P. M. on May 20, 1928, the applicant in company with Frank Ptakowski was driving his own car on the highway near Kirmar in Newport Township when they met two girls, Clara Byorick and Anna Rish. The girls asked the boys to give them a ride. Before the girls entered the car, Clara Byorick, who was unacquainted with the applicant, demanded his name and was shown his driver's license. During the course of the ride, they passed through the City of Nanticoke, Warrior Run, Sugar Notch, Ashley, and thence up the Ashley Plains to a point in the vicinity of Mountain Top, where the alleged offense occurred. Twenty-two days later Clara Byorick had the applicant arrested for attempt rape. During the drive Clara Byorick and the applicant occupied the front seat of the car, and Ptakowski and Anna Rish the rear seat. The occupants of the rear seat did not leave the car and both testify that the applicant did not assault the prosecutrix in the car and in their presence, as alleged by her. The applicant left the car, alone for about five minutes, in response to a call of nature, and when he returned Clara Byorick had gone and did not return to the car.

The girl was seventeen years of age and the applicant twenty years of age when this alleged crime was committed.

The applicant has now served approximately eight months of his term of imprisonment. He was never before charged with or convicted of crime. He was found guilty on the evidence of the prosecutrix alone, which was flatly contradicted by the testimony of two persons who occupied the rear seat of the car when the alleged crime was committed.

Clara Byorick, the prosecutrix in the case, has filed a letter with the Board in which she states, that she does not object to the granting of a pardon, believing that he has been adequately punished. There was also filed with the Board letters from the Burgess of Warrior Run, President of Town Council, Chief of Police, and the President of the School Board, and others, in which they recommended clemency.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the favorable attitude of the prosecutrix, and the recommendations of the officials of the town in which the applicant resided, we have concluded that the applicant has been sufficiently punished, and if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Joseph Klem.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2, December Sessions, 1924, in the Court of Oyer and Terminer, in and for the County of Lawrence, Nick Manos was convicted of robbery, larceny from the person, and assault and battery, and on December 20, 1924, was sentenced by the Court to pay a fine of fifty dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than seven and one-half years nor more than fifteen years.

The applicant is a native of the Kingdom of Greece and is thirty-eight years of age. He came to America in 1909. He is

unmarried. The applicant worked for the American Sheet and Tin Plate Company at Shenango for a period of twelve years prior to his arrest, at which time he was boarding at New Castle.

On November 22, 1924, the applicant was sitting in a restaurant drinking coffee, when the County detective and a man by the name of Mike Solot came in and sat down. The latter pointed to the applicant and told the detective that the former was the man who had held him up. The applicant was then arrested, charged with having held up Mike Solot and Philip Salka on November 16, 1924, on a Sunday morning, about 2.15 o'clock, and robbed Solot of \$92.00. At the trial the applicant produced witnesses, among them the lady with whom he boarded. She swore on the witness stand that he was at home on the morning of November 16, as she had talked to him at 1.00 o'clock and saw him go to his room and knew that he was not out of the house until morning.

The applicant has now served four years and five months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is good as shown by a letter from the Warden of the Penitentiary.

There was filed with the Board a letter from the Manager of the American Sheet and Tin Plate Company at New Castle, a former employer, in which he expresses a willingness to employ the applicant if he is liberated. There was also filed with the Board a letter from the President Judge, who was the trial District Attorney in this case, which evidences a favorable attitude toward the applicant. He states that the latter had been working in New Castle for a number of years, and that his prior record was good. He further adds, "Viewing his crime as a first offense, I am of the opinion that his sentence was rather severe and that your Honorable Board should now extend him clemency by granting him a pardon without detriment to the public welfare." He concludes his letter by saying that the sentence imposed upon the applicant was the most severe for this particular offense that had been imposed in Lawrence County, within his recollection.

In consideration of all the circumstances of this case: the prior good record of the applicant; the term of imprisonment already served; because of his excellent prison record; because of the severity of the sentence; because employment has been offered him if released, and because of the favorable attitude of the trial District Attorney, who is now the President Judge, we have concluded that the applicant has been sufficiently punished and if now released will prove himself a peaceful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Nick Manos.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 10, March Session, 1923, in the Court of Oyer and Terminer, in and for the County of Armstrong, Martin Heath pleaded guilty to an indictment charging him with murder, the degree of which was adjudged to be murder in the second degree, and on March 24, 1923 was sentenced to pay a fine of one hundred (\$100.00) dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than nine nor more than twelve years.

The applicant is forty-four years of age and a native-born American citizen. He is a coal miner by occupation and at the time of his arrest was employed in the mines in Kiskiminetus Township, Armstrong County, and resided in Avonmore, Pa. He had a wife but no children.

On the evening of January 11, 1923 the applicant entered the house where John Nebesky was boarding. The applicant with others engaged in a poker game, Nebesky being one of the players. There had been drinking, and during the course of the game a dispute arose concerning the ownership of some money. A fight followed and the applicant shot Nebesky with fatal results. The former was found lying semi-conscious in a corner of the room where the shooting had occurred. The witnesses for the Commonwealth claimed that the applicant had been the aggressor, while the latter claimed that the deceased had been the aggressor. Notes of the testimony taken at the trial were lost and were never transcribed.

The applicant has now served five years and eleven months of his term of imprisonment. He was never before charged with or convicted of a crime.

There was filed with the Board a letter from the prosecutor in which he recommends pardon on the ground that the applicant has been sufficiently punished. The trial Judge, the trial District Attorney and the private counsel for the Commonwealth in a joint communication to the Board recommend clemency, for the same reason.

In consideration of all the circumstances of this case: the prior good record of the applicant; the term of imprisonment already served; because of the recommendations of the prosecutor in the case, the private counsel for the Commonwealth, the trial District Attorney and the trial Judge, we have concluded that the applicant has been sufficiently punished, and if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Martin Heath.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 26, 27, 28, 29 and 30, February Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Allegheny, Fred G. Wipf, alias Fred R. Wipf was convicted of unlawfully entering a building with intent to commit larceny, aggravated assault and battery, pointing a revolver, attempted extortion and carrying concealed deadly weapons, and on February 17, 1928 was sentenced in the aggregate to pay a fine of \$3.00, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than two and one-half nor more than five years.

The applicant is forty-four years of age. He is a native of Switzerland and owes allegiance to that country. He is an accountant by profession. At the time of his arrest he was out of employment and had been looking for a position for four months. He was the office manager for the Peerless Biscuit Company from 1923 to 1927, at a salary of \$89.00 per week. In 1927 he lost his position as the result of his company selling out to another company. He was subsequently offered and accepted a position at \$250.00 a month with the Alpha Sign Company, but was unable to take the position because of trouble with his eyes. The applicant is married and lived with his wife in Pittsburgh from 1923 to 1927, when she returned to Switzerland. At that time he had one son who is now six years old. During his imprisonment a second son has been born. The children are with the mother in Switzerland.

After the applicant lost his position he was worried and endeavored to secure employment. His family were dependent upon him. He became somewhat deranged. In October, and November, 1927, he saw items in the newspaper to the effect that Mrs. Mary Copley Thaw was being sued for a very large

sum of money and becoming desperate, as the time of his wife's second confinement approached, he conceived the wild scheme of obtaining \$5,000.00 from Mrs. Thaw, believing that she could part with that sum without missing it. In his deranged mind he thought that if he could frighten Mrs. Thaw she would part with the money more readily. About this time a revolver came into his hands as part payment for a piece of furniture he sold. He took this revolver and went to the home of Mrs. William Thaw, Jr., supposing that she was Mrs. Mary Copley Thaw. It was not until after his arrest that he learned he had made an error in identity. The applicant claims that the revolver was not loaded when he went to the home of Mrs. Thaw and that he carried cartridges in his hand and purposely dropped them on the floor to increase her fear and so cause the money to be paid him. He did not fire the revolver. After thoroughly frightening Mrs. Thaw and her servants, he left the house and later sent a letter to Mrs. Thaw, demanding that she answer through the newspapers under a personal ad. After consulting the police, Mrs. Thaw inserted the personal, as demanded, and applicant sent another letter describing how the money was to be paid, the route the automobile was to follow and how it was to be marked so that he could identify it. This wild scheme resulted from the deranged mind of a man who was desperately in need of money. The applicant was duly arrested by a detective stationed on the indicated route. The numerous indictments, trial and conviction duly followed.

The applicant has now served one year and three months of his term of imprisonment. He was never before charged with or convicted of crime. His wife and two small children in Switzerland require his support and it is his intention to return there if liberated.

There was filed with the Board a letter from James M. Clark, Director of Public Safety, Pittsburgh, in which he recommends clemency if the applicant is deported. The Deputy Warden of the Penitentiary certifies to the applicant's excellent prison record. Frank W. Main, a member of the firm of Main and Company, well-known Accountants of Pittsburgh, who is personally acquainted with the applicant, also recommends clemency. There was also filed with the Board a letter from the trial District Attorney in which he recommends pardon and also a letter from the trial Judge in which he recommends clemency upon condition that the applicant immediately returns to Switzerland.

There was also filed with the Board a letter from the Swiss Consul at Philadelphia, in which he certifies that the applicant's record in Switzerland was good and that his family and immediate relatives there are held in the highest esteem. The Consul offers to assist in arranging for the applicant's return to Switzerland.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because his wife and two small sons residing in Switzerland are dependent upon him for support; because of the recommendation of the Director of Public Safety, Pittsburgh, and the recommendations of the trial District Attorney and trial Judge, and in further consideration of the fact that the Swiss Consulate in Philadelphia will assist in deporting the applicant if released, we have concluded that an appeal for clemency shall be granted on the express condition that he be immediately deported to Switzerland under the direction of the Swiss Consulate at Philadelphia.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Fred G. Wipf, alias Fred H. Wipf.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 69, 70, 71 and 72, December Sessions, 1921, in the Court of Quarter Sessions of the Peace, in and for the County of Armstrong, William J. Kelley pleaded guilty to indictments charging him with feloniously breaking and entering, conspiracy, larceny and receiving stolen goods, and, on December 31, 1921, was sentenced in the aggregate to pay a fine of \$400.00, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than ten years nor more than twelve years.

The applicant is thirty-one years of age, a native-born citizen of the United States. He is by occupation a stationary engineer and, prior to his arrest, was employed by the Kittanning Coal and Fire Brick Company at Kittanning, Pennsylvania. He resided at Dayton, Armstrong County, and he has two children who reside with his divorced wife.

The applicant, together with James Kelley, was charged with the larceny of a Ford touring car, a blanket, and a pair of chairs from A. M. Ash. He was also charged, together with said James Kelley and others, with having broken and entered the storeroom of the Johnston-Beyer Hardware Company and taking therefrom certain merchandise belonging to said company. He was also charged, together with said James Kelley and R. S. Kelley, with having taken a certain Hudson automobile, the property of J. J. Hout, knowing the same to have been stolen. He was also charged, together with James Kelley, with breaking and entering the store building of J. C. Ellenberger and carrying away certain merchandise, the property of said Ellenberger. These offenses were committed during the month of October, 1921.

The applicant admits that, at the request of James Kelley, he changed the serial numbers on a Hudson car belonging to Hout, but was no party to the theft and did not know that the car had been stolen. He admits guilt in burglarizing the Johnston-Beyer Hardware Store. He admits having unwittingly driven the man who robbed the Ellenberger Store, but was not a party to the crime. He admits taking the Ford car belonging to A. M. Ash (his own car being out of service) and that he used the Ash car to take him to Butler, Pennsylvania, where he abandoned it.

The applicant has now served approximately seven years and five months of his term of imprisonment. His prior record is good, with the single exception that at the age of sixteen he was sent to the Huntingdon Reformatory on a charge of felonious assault and battery. One of his accomplices, R. S. Kelley (his father) was acquitted on all the charges, and his cousin, James Kelley, another accomplice, has never been apprehended.

The prosecutors in three of the four cases recommend clemency in communications filed with the Board. The trial District Attorney and trial Judge have both filed letters with the Board in which they recommend clemency. The deputy Sheriff of Armstrong County, also recommends pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant (with a single exception) the term of imprisonment already served; because one of his accomplices was acquitted on all charges and the other accomplice has never been apprehended, whereby the applicant alone was forced to suffer punishment for these offenses; in consideration of the fact that the trial Judge and trial District Attorney both recommend clemency and that the prosecutors in three of the four cases ask pardon, we have concluded that he has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said William J. Kelley.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 31, Jun. Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Warren, L. P. Foster was convicted of passing a forged instrument and obtaining money under false pretenses, and on June 11, 1928, was sentenced by the Court to pay a fine of four hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than two and one-half years nor more than five years.

The applicant is thirty-one years of age, a native-born citizen of the United States, and is by occupation a steam-shovel operator and boiler fireman. At the time of his arrest he was employed at Torrence, California, in the capacity of drag line operator. His legal residence was at Salamanca, New York, where he resided with his parents. He was married but his wife deserted him. He has one child eight years of age who is residing with his parents. When he was arrested in California, in February, 1928, the applicant waived extradition.

It was shown during the trial that on January 24, 1928, some person had cashed a check of the General Concrete Products Corporation at the clothing store of George O'Dell in Warren, Pennsylvania. Said check was dated January 24, 1928, and was made payable to the order of J. T. Brown for the sum of sixty-two dollars and fifty-four cents. It purported to have been signed by F. J. Haggerty and F. W. Chaffee, president and treasurer of said corporation, respectively. The applicant, a former employe of the company, was convicted of passing said check and with obtaining money by false pretenses on account of the forged check, but was acquitted on the first count charging forgery.

The applicant has now served eleven months of his term of imprisonment. He does not appear to have had a criminal record, and his prison record has been good.

There was filed with the Board letters from the trial District Attorney and trial Judge which evince a favorable attitude toward the present applicant. Both refer to the fact that his identification as the person who passed the forged check was "weak." There were also filed with the Board a number of letters from prominent citizens of Salamanca, the former home of the applicant, in which they refer to the excellent record of the applicant in that community. Among them are letters from the present Mayor of Salamanca, a former Mayor, Postmaster, City Controller, Chief of Police, Secretary of the Chamber of Commerce and from the District Attorney of Cattaraugus County, New York.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; the term of imprisonment already served; the former good record of the applicant; because of the favorable attitude of the trial Judge and trial District Attorney; and because of the favorable statements from prominent citizens of Salamanca, New York, the former home of the applicant, we have concluded that he has been sufficiently punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said L. P. Foster.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 8 December Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Cambria, Murray

Rodkey was convicted of robbery and receiving stolen goods, and on February 21, 1927, was sentenced to pay costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than three years nor more than six years.

The applicant is twenty-eight years of age, a native-born citizen of the United States, married, is a laborer and truck driver by occupation, and at the time of his arrest resided with his mother at Bolivar, Pennsylvania.

In July, 1925, the applicant and his wife and two small children moved to a house in the country about one mile from Boniface, Pennsylvania, and about three miles from Hastings, Pennsylvania. Mrs. Oliver, the applicant's wife's mother and Charles Layman, the applicant's sister's husband, lived under the same roof. Layman was the lawful husband of the applicant's sister and the father of her five small children, yet he lived with Mrs. Oliver and she bore children to him. This condition of affairs irritated the applicant as he knew his sister and her family were in need. The applicant's wages were insufficient to meet the store bills. Layman worked occasionally. The applicant tried to induce his wife to leave her mother's home but she refused to do so. He then left his wife and went to Bolivar to stay with his mother. Shortly thereafter he returned and again in June, 1926, left his wife—she refusing to leave her mother. On September 21, 1926, the applicant was arrested at Bolivar, charged with having assaulted and robbed Mrs. Anna O'Rourke of Hastings, on March 19, 1926, at which time the applicant was at Bolivar, sixty miles distant. The amount taken from Mrs. O'Rourke was \$12.25. She could not identify the applicant as the robber, but he was convicted on the testimony of Mrs. Oliver and Layman, although they were not present at the alleged robbery.

The applicant has now served two years and three months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is good.

A number of letters were filed with the Board recommending clemency. There was also filed with the Board a communication from the trial judge in which he states that, "if after considering the facts in this case the Pardon Board has any doubts as to the guilt of Murray Rodkey, I would recommend a pardon."

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his former good record; the term of imprisonment already served; his good prison record; because of letter filed with the Board recommending clemency, and in further consideration of the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Murray Rodkey.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 132, February Sessions, 1925, in the Court of Oyer and Terminer, in and for the County of Erie, Robert G. Coates pleaded guilty to an indictment charging him with robbery, and on April 8, 1925, was sentenced to pay a fine of \$300.00, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than six years, nor more than twelve years.

The applicant is thirty-four years of age, a native-born American citizen, a railroader by occupation, but was out of employment at the time of his arrest. He resided in the

city of Erie with his mother. He had previously been married but was divorced. His only child lives with its grandmother.

On March 25, 1925, the applicant, a man named Pie, and Churcher, the prosecutor in the case, were carousing about the city of Erie, going from one "speakeasy" to another, in Churcher's automobile, and finally set out for a roadhouse on the outskirts of Erie and there continued their drinking, apparently on friendly terms. They left the road house together, got into the automobile operated as a taxicab by Churcher and proceeded westwardly. A few miles from the city the automobile was ditched. The applicant returned to the city of Erie and on the next day was arrested for being drunk and disorderly. Churcher did not make immediate information but within a short time thereafter complained that Pie and the applicant, robbed him, stole his automobile and ditched it. The applicant was arrested and claimed that he was drunk and asleep until the car was ditched and knew nothing of what happened after leaving the roadhouse. Acting on the advice of his brother, he pleaded guilty to the indictment. This same brother urged the imposition of a short sentence as a lesson, although he did not expect so severe a sentence for a first offense.

The applicant has now served four years and one month of his term of imprisonment. He was never before charged with or convicted of crime.

A number of letters were filed with the Board recommending clemency, and also several petitions to the same effect. The Mayor of the city, the Prothonotary, Senator Kitts, Representative Schilling, the Managing Editor of the Erie Daily Times and others recommend clemency. The present District Attorney and the trial District Attorney in letters filed with the Board, also recommend clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the doubt as to the guilt of the applicant; because of the severity of the sentence; because of the recommendations of the present District Attorney, trial District Attorney, Mayor of the city and others, we have concluded that the applicant has been sufficiently punished and if now released will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Robert G. Coates.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth,

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 13, March Term, 1926, in the Court of Oyer and Terminer, in and for the County of Cambria, James Donnelly was convicted of robbery and receiving stolen goods and recommended to the mercy of the Court, and on March 29, 1926, was sentenced to pay costs and to undergo imprisonment in the Western Penitentiary for a term of not less than three years nor more than six years; sentence to begin at the expiration of sentences imposed at Nos. 167 and 183, December Term, 1925.

The applicant is now twenty-four years of age, a native-born citizen of the United States, and at the time of his arrest was employed as an electrician by the Bethlehem Steel Company at Johnstown, Pennsylvania. He is unmarried, and at the time of his arrest resided with his parents in Johnstown.

While working as bartender in the clubhouse of Gordon Hoffman at Geistown, Pennsylvania, the place was raided by State troopers and the applicant arrested. Released on bail, the applicant was employed by the Bethlehem Steel Company. The trial on the charge of the illegal sale of liquor was set for

December 16, 1925. The night before the trial the applicant, Paul Henger and George Gigliotti went on a spree. While drinking in a saloon the three men met one Thomas Rhoads, who joined them in their celebration. Rhoads was a co-worker of Henger and known to all concerned. After having taken numerous drinks they decided to go to a restaurant. During the meal a drunken argument started among the four men and was continued on the street. After Rhoads went home the applicant, Henger and Gigliotti went again to a saloon and after the place closed the brawl of this drunken trio on the street attracted the attention of the police and they were arrested for disorderly conduct and locked up. In the meantime, Rhoads reported the loss of his watch and money (\$18.00 in cash). When brought face to face with the three men already named in order to identify them as the guilty ones, Rhoads for a considerable time was unable to declare that they were the robbers. The applicant claimed, and still claims, that he knows nothing about the robbery, nor anything as to the whereabouts of the stolen goods.

The applicant had pleaded guilty to an indictment charging him with selling and possessing liquor for beverage purposes, and on March 9, 1926, at No. 183, December Sessions, 1925, in the Quarter Sessions Court of Cambria County, was sentenced to pay a fine of \$300.00, costs, and undergo an imprisonment in the county jail for a period of three months. At No. 167, December Sessions, 1925, in the same court, he was convicted of keeping a disorderly house and sentenced to pay a fine of six and one-quarter cents, costs, and undergo imprisonment in the county jail for a period of six months—the latter sentence to begin at the expiration of the sentences entered at No. 183.

The applicant has served in the County Jail the two sentences aggregating nine months, for violating the liquor laws and keeping a disorderly house, and has also served two years and five months of three minimum sentence of three years imposed for robbery and receiving stolen goods. Prior to his conviction for violating the liquor laws he had no criminal record. His accomplices, Henger and Gigliotti, have served their minimum sentence of three years each in the Western Penitentiary and have been discharged.

The trial District Attorney has filed with the Board a letter in which he reviews the criminal record of the applicant, and in it he states that the applicant's accomplices have served their minimum sentences and are discharged from imprisonment and that the applicant "was equally guilty with them." The trial Judge in a letter to the applicant, which was filed with the Board, states that he has no objections to a pardon and that if the applicant's prison record is good he should receive favorable consideration from the Board.

In consideration of all the circumstances of this case; the prior good record of the applicant, with the exception of nine months in the county jail; the term of imprisonment already served because of the fact that his accomplices have been released from the Penitentiary, and in further consideration of the favorable attitude of the trial Judge and trial District Attorney, we have concluded that he has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said James Donnelly.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 34, April Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Allegheny, and at

No. 278, April Sessions, 1926, in the Court of Quarter Sessions of the Peace in and for the same County, Fred Rodgers pleaded guilty to two indictments charging him with robbery and receiving stolen goods, and on January 12, 1927, was sentenced in No. 34 to pay a fine of six and one-quarter cents, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than four, nor more than eight years. In No. 278, sentence was suspended by the Court.

The applicant is twenty-five years of age, a native-born citizen of the United States. Prior to the commission of the crime charged against him he was employed by the Package Delivery Company of the City of McKeesport and resided in said city with his mother and grandmother, whose sole support he was. After the commission of the crime, the applicant went to Detroit, Michigan, where he was employed by the Ladd Boiler and Construction Company for a period of six months, and was subsequently transferred to New York City where he had been employed about six weeks prior to his arrest.

At or about midnight, February 17, 1926, the applicant, in company with one, Fred Satis, held up and robbed Thomas J. Judge on Grandview Avenue in the City of McKeesport. There was taken from Judge \$95.00 in cash and a watch and chain. The applicant at the time was under the influence of liquor and claims that by reason of his condition he cannot recall the circumstances surrounding the robbery. The applicant is informed and believes that on the afternoon of the following day, about 3:00 o'clock, while in an intoxicated condition, he was taken by his brother, David Rodgers, to the latter's home on a farm in Somerset County. The following day he was informed that the police were looking for him and, fearing arrest, he fled to Detroit. He was not addicted to the use of strong drink, but at the time of the commission of the crime and for one day thereafter he was in an intoxicated condition.

The applicant has now served two years and four months of his term of imprisonment. He was previously charged with the crime of entering a building in company with a number of others and stealing knives and other implements from a store in the City of McKeesport, and on said charge was paroled for a period of one year, which parole was not violated.

The applicant is the sole support of his mother and grandmother, with whom he resided before his imprisonment. This home has since been broken up, and the mother and grandmother separated.

There was filed with the Board a number of letters from persons personally acquainted with the applicant recommending clemency.

In consideration of all the circumstances of this case; his prior good record, with a single exception; the term of imprisonment already served; because of the fact that the applicant is the sole support of his mother and grandmother; in consideration of the letters filed with the Board recommending clemency, we have concluded the applicant has been sufficiently punished and if now released will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Fred Rodgers.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General,

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 38, March Session, 1924, in the Court of Oyer and Terminer, in and for the County of Warren, Clyde

Rand pleaded guilty to an indictment charging him with forgery, passing a forged instrument and false pretense and on March 6, 1924, was sentenced by the Court to pay a fine of \$200.00, costs, and to undergo imprisonment in the Western Penitentiary, for a period of not less than two years nor more than four years.

The applicant is a native-born citizen of the United States and is by occupation a pharmacist. At the time of his arrest he was traveling in various cities, engaged in the selling of used automobiles. He has a wife and one son, aged five years.

During the winter of 1923-1924, the applicant had been traveling to various cities promoting used car sales for automobile dealers. He went to Warren, Pennsylvania, for this purpose, in February, 1924. For several days prior to his arrest the applicant had been drinking and while in this condition attempted to purchase an automobile from a dealer, giving a worthless check therefor on a Warren bank. For this offense he was arrested, tried and convicted. The applicant claims that he has no recollection of the transaction. On March 7, 1926, upon the completion of his minimum sentence, he was released from the penitentiary on parole. After his release he went to Altoona, Pennsylvania, where he secured two positions.

During the applicant's period of parole a former inmate of Rockview Penitentiary made several calls upon him, levying blackmail for small sums, as the price of his keeping quiet about the applicant's prison record. Finally the applicant refused to contribute further blackmail. The blackmailer informed a deputy Constable named Kearns, who called upon the applicant at his place of employment and demanded that he be allowed to use an automobile for a few days to attend to some business, and when the applicant refused his request Kearns said: "All right Mr. Convict, I will get you for this: who do you think you are, you jailbird?" About two months later this deputy Constable stopped the applicant while he was driving a car on one of the city streets of Altoona and placed him under arrest on the charge of driving a car while intoxicated, and he was taken to the office of a physician who without making any physical examination pronounced him intoxicated. The applicant protested but was not allowed to have any other physician for an examination, and was taken to the Alton Police Station. While awaiting a hearing Deputy Constable Kearns came to the cell and said to the applicant: "Well Mr. Convict, you will be smart with me, will you? If you have got one hundred dollars I will drop the charges against you when you are arraigned for hearing before the alderman, if not, back to the Pen for you."

At the next term of court the applicant pleaded guilty to the charge upon the advice of an attorney who said: "If the doctor pronounced you intoxicated, you won't have a chance in the world." The applicant was sentenced to six months in the Blair County Jail, which term he served. While in jail the applicant filled out and sent his parole papers each month to the parole clerk at the Western Penitentiary, but did not inform the parole clerk that he was in the County Jail. March 8, 1928, on the expiration of the applicant's parole, he received his final discharge from the Parole Clerk. On July 18, 1928, the applicant was taken into custody by the Parole Field Officer and returned to the Western Penitentiary as a parole violator.

The applicant served six months in the Blair County Jail for driving a car while intoxicated, two years, his minimum term, for forging, and is now by reason of his being returned as a parole violator compelled to serve his maximum sentence of four years for forgery. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the trial District Attorney in which he asks clemency. The trial Judge in a letter to the applicant states that he will not oppose a pardon and that he knows of no reason why the Board should not grant clemency upon his statement of the facts in the case.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because the applicant's wife and small son require his support; in further consideration of the recommendation of the trial District Attorney and the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished and if now released will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice

and in open session," recommend that a pardon be now granted to the said Clyde Rand.

ARTHUR H. JAMES,

Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 15, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 430, February Term, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Westmoreland, William F. Hevner pleaded guilty to an indictment charging him with robbery, and on January 28, 1927, was sentenced to pay a fine of six and one-quarter cents, costs and to undergo imprisonment in the Western Penitentiary for a period of not less than five years nor more than ten years.

The applicant is twenty-four years of age, a native-born citizen of the United States, and is by occupation an automobile mechanic. At the time of his arrest he was so employed by A. J. List of Tyrone. He lived in Tyrone with his wife.

On January 12, 1927, the applicant boarded the Keystone Express, having previously purchased a ticket for Pittsburgh. The train stopped at Johnstown and a man boarded it who claimed he was from the Soldiers' and Sailors' Home. He occupied the same seat with the applicant. The applicant had been drinking during the day and had liquor with him. The ex-soldier or sailor also had liquor in his possession and the two men consumed a considerable quantity of liquor together while on the train. When the train was west of Irwin, Westmoreland County, the applicant, for reasons unknown to himself or to anyone else, suddenly stood up with a revolver in his hand and held up a few of the passengers. He was overpowered by the train crew and taken to Pittsburgh. Later he was confined in the Westmoreland County Jail. At the time of the sentence the applicant did not say anything, and the Court was unaware that friends and relatives to the number of twenty were in court to testify to the good reputation of the applicant. These witnesses were sent to the office of the applicant's attorney but for some reason they did not reach there until after the applicant had been sentenced.

The applicant has now served two years and four months of his term of imprisonment. He was never before charged with or convicted of crime.

A number of letters were filed with the Board recommending clemency and also petitions signed by persons who knew him. The trial Judge filed a letter with the Board in which he states that he has never before written to the Board, and adds, "Had all of the facts of this case been presented to the Court, at the time of the sentence, we would not have passed the sentence we did, but would have sent the defendant to the Pennsylvania Industrial Training School, Huntingdon. We believe now, as we did at the time the petition for re-sentence was presented that the young man is not a criminal and that he got into this trouble because he was crazed with drinking bad liquor. Our personal investigation has convinced us that up to the time of this trouble, the defendant had been sober and industrious, and a very likeable person. The period he served in jail for more than a year is all the punishment he deserved."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the recommendations contained in letters and petitions filed with the Board; and particularly in consideration of the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said William F. Hevner.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 67 and 94, September Term, 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Erie, Carl Mueller alias Carl Miller, pleaded guilty to two indictments charging him with rape and enticing a female child under the age of sixteen years for the purpose of prostitution, and on September 2, 1924, was sentenced in the aggregate to pay a fine of \$600.00, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than fifteen years, nor more than thirty years.

Applicant is forty-three years of age and a native-born citizen of the United States. He is by profession a bandmaster and was last employed by the Colonial Theatre of Erie as a member of its orchestra. He resided in that city. He is unmarried at the present time, but had a wife who divorced him twelve years ago.

In the early part of 1924, two young girls of foreign parentage, Louise Groschulka and Helen Nejman, whose ages were said to be thirteen years and fifteen years, respectively, walked the streets of Erie soliciting money from various men and offering the use of their bodies as recompense. Their immoral traffic was finally brought to the attention of the District Attorney of the County who after investigation and from information obtained from the girls had nine men, including the applicant, arrested on statutory charges. The applicant was one of the last of the men to be arrested. Without sufficient funds to employ an attorney and anxious to avoid publicity as much as possible, he decided to plead guilty to the charges. After the plea was entered, a hearing was held in the Judges' chambers at which the girls admitted that the applicant was not the first person to violate them; that he did not entice them to his rooms or elsewhere, but that they had gone voluntarily to his establishment to ply their trade. Upon the conclusion of the hearing, the applicant was sentenced. All of the other defendants involved in these cases were financially able to hire counsel. Some of the defendants escaped penalties altogether and the others were indicted and got off with much lighter sentences than the applicant. One of the defendants after having his case postponed from term to term, for a year and a half, on account of ill health, succeeded in having the charges against him quashed.

The testimony at the trials, established the bad character and reputation of the two girls and showed that they practiced prostitution regularly for money, visiting men's places to ply their trade. Although alleged to be under sixteen years of age, they were fully matured and apparently above that age. All of the men sentenced in these cases, with the exception of the applicant, have been released for several years.

The applicant has now served four years and nine months of his term of imprisonment. The prior record of the applicant is good with one exception. He pleaded guilty to the charge of robbery and served fourteen months in the Huntingdon Reformatory.

There was filed with the Board a letter from the present District Attorney, in which he strongly recommends a pardon. He states that he is familiar with the details of the cases and that the other defendants in the cases involving the same girls, received small penalties for the reason that at the trial

the evidence disclosed the bad character and reputation of the girls. The Chief of Police of Erie has filed with the Board a letter in which he strongly recommends a pardon because of the bad character of the girls and because of the fact that the applicant has already been sufficiently punished. The trial Judge has also filed with the Board a letter which evinces a neutral attitude. J. Reed Craig, prominent member of the Erie Bar, has also filed with the Board a letter in which he strongly recommends clemency. He states that while the two girls were of tender age, they were common prostitutes.

In consideration of all the circumstances of this case; the prior good record of the applicant, with a single exception; the term of imprisonment already served; because of the bad character and reputation of the two girls; because eight other men involved in similar offenses with the same girls are at liberty; because of the strong recommendations of the present District Attorney and the Chief of Police of Erie, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Carl Mueller alias Carl Miller.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 20, December Sessions, 1927, in the Court of Oyer and Terminer, in and for the County of Beaver Oscar Reed pleaded nolo contendere to an indictment charging him with breaking and entering, and on January 2, 1928, was sentenced to pay a fine of \$100.00, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than two years nor more than four years.

The applicant is a native-born American citizen, twenty-three years of age, and his occupation is that of painter, decorator, and paper hanger. At the time of his arrest, he resided with his wife and one child in the Borough of New Brighton, Beaver County.

The applicant came from work on the evening of October 25, 1927, and after eating his evening meal, went to a party at a friend's home. Leaving there about eleven P. M., under the influence of liquor, he stopped for a drink of water at a pump located in the rear of the building of the Order of Moose, at the corner of Fifth Street and Third Avenue, New Brighton. According to information received from the police officers who arrested him, the applicant was later found by the night watchman in a semi-unconscious condition in the hallway leading to the Moose home. The door to the Moose Club was broken and the applicant's head was bruised and injured. Nothing was disturbed or taken from the building or from the Moose Home. No property of any kind belonging to anyone in the building was found in the possession of the applicant. The latter has no recollection of breaking into the building or of attempting to commit any crime.

The applicant has now served one year of his term of imprisonment. He was never before charged with or convicted of crime. His wife is a cripple and has no earning power. In addition to his wife, he now has two small children dependent upon him.

The applicant is in a critical condition. He has been confined in the hospital at the Penitentiary since the middle of December, 1928, suffering from heart trouble, lung infection, high blood pressure, and his weight has been reduced from 169 pounds to 124 pounds. His general physical condition is bad which further confinement will augment. These facts appear from a letter or report from Doctor Newcomb, Resident Physician of the Penitentiary.

There were filed with the Board letters from the trial District Attorney, and from certain other county officials, recommending clemency. Favorable letters of recommendation from a number of prominent citizens were also filed, and a large petition to the same effect.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the seriously impaired physical condition of the applicant; because of the fact that his crippled wife and two small children require his support; because of the recommendation of the District Attorney, other county officials, and the petition and letters of prominent citizens, we have concluded that he has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Oscar Reed.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1516, 1517, and 1518, September Sessions, 1924, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, Walter Geib pleaded guilty to three indictments charging him with entering buildings and dwellings with intent to steal and on October 6, 1924, was sentenced in the aggregate to imprisonment in the Eastern Penitentiary for a period of not less than ten years nor more than twenty-five years.

The applicant is thirty-four years of age, a native-born citizen of the United States, and a resident of the City of Philadelphia. He is a painter and inside decorator by occupation. At the time of his arrest he was employed as a night watchman. He is unmarried.

The applicant was indicted and sentenced for entering three different buildings with intent to steal. In the first indictment he is charged with having taken one suitcase, ladies' silk coat, and ladies' undergarments, valued at \$270.00. In the second indictment, he was charged with having taken one electric sewing machine to the value of \$105.00; in the third indictment, he was charged with having taken one ladies' wrist watch and a ladies' gold watch to the value of \$85.00. The value of all of the articles as fixed by the indictments, totaled \$460.00, for which full restitution has been made.

The applicant married a woman who sought amusement and craved luxuries. He loved his wife and during the two years that they resided together, was led into habits of drink and modes of life beyond his means, and in trying to gratify his wife's extravagance, resorted to theft. He entered the buildings in the day-time and did not arm himself in preparation for these crimes. His father has pledged himself to take the applicant into his own home and to provide him with employment, if released.

The applicant has now served four years and eight months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent as shown by a letter from the Master Mechanic of the Eastern Penitentiary.

A representative of the District Attorney's office present at the oral hearing of the application for pardon did not strongly oppose clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because a home and employment have been offered him, if released; and because of the fact that the District Attorney's office is not unfavorable to the pardon, we have concluded that the applicant

has been sufficiently punished and if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Walter Geib.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 50, May Term, 1916, in the Court of Oyer and Terminer in and for the County of Clearfield, W. M. Dennery, alias Mike Dennery, was convicted of murder in the first degree and on May 11, 1917, was sentenced to be electrocuted. Subsequently, on February 20, 1918, the death sentence was commuted to life imprisonment.

The applicant is forty years of age, and a native-born citizen of the United States. He is unmarried and a marine fireman by occupation. At the time of his arrest he was working on lake boats and his place of residence was at Lost Creek, Pennsylvania.

The applicant had come to Cleveland, Ohio, from a lake boat on August 19, 1916, and remained at a hotel over the week-end. On Monday morning he was arrested on the street and told that he was wanted for a murder that he had no knowledge of. He was taken from Cleveland to Clearfield County and lodged in the county jail to await trial. He was charged with having killed one, John Rowles, on January 31, 1916. On the day of the alleged shooting of Rowles at about 9:00 A. M., the applicant had been drinking with Thomas Shade, Patrick Kelley and the said Rowles at a small club house. The applicant left the club house about 10:00 A. M., at which time he met James Wilson and James Allen and they had drinks together. He left them and in the evening had drinks with other men. He had not seen Rowles since morning. He was subsequently informed that the latter was shot about 6:45 P. M., of the same day, under the following circumstances: Shade, Patrick Kelley, John Rowles and Mike Brawley were drinking in Shade's shanty, consisting of two rooms. Kelley and Brawley left the one room to go to the kitchen to tap beer, leaving Rowles and Shade behind. As Kelley and Brawley reached the beer keg, masked men appeared at the kitchen door and held them up. They were compelled to face the wall while their pockets were rifled by the intruders who were armed. About the same time a scuffle was in progress in the front room where a masked man also appeared. Rowles was shot with a revolver and killed. The robbers disappeared.

The applicant went to work on the lake boats as was his custom, not attempting to hide from anyone. He did not know that the murder had been committed, until after his arrest eight months later. Wilson and Allen were also arrested. Both were convicted of second degree murder, and in June, 1928, both completed their sentences and were discharged from prison. The applicant was tried after them and they were witnesses against him and threw the blame of the murder on him. Wilson and Allen were both former convicts with long prison records and their testimony was largely responsible for the verdict of the jury.

The applicant has now been in prison since August, 1916, a period of 12 years and 10 months. He was never before charged with or convicted of crime. His prison record is excellent as shown by letters on file from the Prison authorities, including the Warden and deputy Warden.

There were filed with the Board several letters from the trial District Attorney in which he strongly recommends clemency. In one of his letters he states: "Have been convinced that Dennery was an unfortunate sailor who fell into the hands of two professional yeggs and through them and under the influence of alcohol, was prevailed upon to join in the robbery

resulting in the killing of Rowles. I am also now convinced that he was not in the building at the time the killing took place and I am of the firm conviction that Dennery is sufficiently punished and that his petition is worthy of due consideration," etc.

He adds: "I might further add, that of the twenty-three homicide cases in which I engaged, this is only the second that I have felt justified in recommending a pardon." In another letter to the Board he states, "The other two men in this murder case, James Wilson and James Allen, I am convinced were the men who conceived the crime and carried it out, have served their sentences and were released about a year ago. Assuming that Dennery was guilty and being convinced now that his connection with the crime was at the worst more passive than active and taking into consideration the contrast in the former records of the men, I believe that he should not be required to suffer more than the others." The trial Judge has also filed with the Board a letter in which he recommends clemency. John F. Short, editor of the Clearfield Republican, has filed with the Board a letter in which he strongly recommends clemency. He states, inter alia, that he was present in Court during the trial and heard the evidence submitted by the Commonwealth, not only in the applicant's case, but in the cases tried previously in which Wilson and Allen, his accomplices, were convicted of second degree murder and given indeterminate sentences of from ten to twenty years. He states that both men are now free, and that in his opinion the real murderers were Wilson and Allen, both criminals with records.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment served; because of grave doubt as to the guilt of the applicant; because of the fact that his two accomplices, men with criminal records who engineered the crime and were convicted and sentenced for murder in the second degree, are now at liberty; because of the recommendations of the trial Judge and particularly the recommendations of the trial District Attorney and Editor Short, we have concluded that the applicant has been sufficiently punished and if now released will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said W. M. Dennery, alias Mike Dennery.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 493, November Sessions, 1922, in the Court of Oyer and Terminer in and for the County of Luzerne, Chester Dodd pleaded guilty, without an indictment being found, to the charge of robbery, and on January 22, 1923, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than nine and one-half years nor more than ten years.

The applicant is twenty-six years of age and a native-born citizen of the United States. At the time of his arrest he was employed as a laborer by the Kingston Coal Company, Edwardsville, Pennsylvania, and at that time resided in Laketown, Luzerne County. He is unmarried.

On the fourth of January, 1923, about four P. M., the applicant in company with Theodore Durland, Hugh Lynch and Theodore Reilswick, riding in a Jordan car which had been previously stolen by them, went to the store of John Cragle at Hemlock's Creek, Luzerne County, where Durland and the applicant entered the store. When Cragle came into the store, he was commanded to hold up his hands and to deliver what money he had. The command was accompanied by the drawing of a revolver by the applicant. Cragle resisted, whereupon

the applicant fired one shot to the floor. Cragle kicked the gun from the hand of the applicant and the men becoming alarmed ran away. The applicant was twenty years of age when this crime was committed. Lynch, having been sentenced to the County Jail for a period of three years for his part in the affair, was paroled after serving nine months. Durland was sentenced to the Penitentiary for a period of not less than five years and not more than ten years. Reisswick, later, stood trial, and, in the absence of the other three, was acquitted by the jury.

The applicant has now served six years and five months of his term of imprisonment. His prior record is good with the exception that at one time he was confined in the Luzerne County jail for the theft of a tire.

There was filed with the Board a letter from the trial Judge which is noncommittal. Dr. Linn Bowman, Moral Instructor in the Eastern Penitentiary, in a letter addressed to J. Justin Lewitt, of Pittston, and filed with the Board, states that the applicant's record in the Penitentiary has been exceptionally good; that he is a master mechanic in the tin shop; that he is an industrious man and gives promise of good citizenship if released. There were also filed with the Board a number of letters recommending clemency. Among them was one from the Chief Burgess of Pringle, the Tax Collector, and others, and also a petition of neighbors who are personally acquainted with the applicant.

In consideration of all the circumstances of this case; the comparative youth of the applicant when the crime was committed; his prior good record, with a single exception; the term of imprisonment already served; his excellent prison record; because one of his accomplices is out on parole and another one was acquitted by the jury; because of the strong letter from Dr. Bowman, Moral Instructor of the Penitentiary, and numerous letters recommending clemency by the Chief Burgess of Pringle and others; and the petition of neighbors to the same effect, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Chester Dodd.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1148 and 1149, February Sessions, 1929, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, Thomas Smith was convicted of robbery, assault and battery with intent to ravish and rape, and on March 1, 1929, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than seven and one-half years nor more than fifteen years.

The applicant is a native-born citizen of the United States, thirty years of age, a textile worker by occupation, but for six months prior to his arrest, had been unlawfully selling liquor at No. 26 Collom Street, Philadelphia, the address at which the alleged rape and robbery occurred. The applicant is a married man, separated from his wife. He resides in that city.

On February 20, 1929, Lucy De Petro, aged eighteen years, a married woman, complained to the police authorities that she had been robbed and raped. She accompanied the police officials to No. 26 Collom Street and there identified the applicant and one Frank Watson as the two men who on the previous day had committed these crimes. She stated that while walking past the said number at about 3:00 P. M., on her way to do shopping, the applicant and the said Watson seized her, the applicant taking her by the head and placing his hand over her mouth and Watson seizing her by the feet; that they then

carried her into 13, 26 Collom Street, into the front room, where they robbed her of twenty-five dollars which she had in her possession; that the applicant then ravished her and Watson attempted to ravish her but didn't succeed; that she then escaped and informed her husband and the next day they reported the matter to the police authorities with the resulting arrest.

The applicant has now served three months of his term of imprisonment. He was never before charged with or convicted of crime except that he was indicted at No. 990, January Sessions, 1929, Quarter Sessions of Philadelphia County, on the charge of possessing intoxicating liquor.

The applicant contends that Mrs. De Petro's story is improbable. She testified that in broad day-light, the middle of the afternoon, in a busy street, within one-half square of Germantown Avenue, she was seized on the streets, immediately opposite the very busy offices of the Keystone Telephone Company, was carried into the front room of the house and there robbed and raped. He points to the fact that the prosecutrix was a sturdily built, good-sized girl, whereas both defendants are cripples and weak physically. No one heard any outcry. The applicant produced disinterested witnesses to prove that he was in the center of the city at or about the time of the alleged crimes. Subsequent investigation made by the County Detectives attached to the District Attorney's office showed that the prosecutrix in her testimony had perjured herself in some respects, and that her story was highly improbable.

The representative of the District Attorney's office present at the oral hearing of the application made no active opposition to pardon. A number of letters from men and women recommending clemency were filed with the Board.

In consideration of all the circumstances of this case; the numerous letters filed with the Board recommending clemency; the grave doubt as to the guilt of the applicant; his prior good record, with one exception; the term of imprisonment already served; because of the fact that the District Attorney's office at the oral hearing, did not actively oppose the application for pardon, we have concluded that the applicant has been sufficiently punished, and if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Thomas Smith.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 13, January Term, 1922, in the Court of Oyer and Terminer, in and for the County of Lackawanna, Alexander Micks pleaded guilty to an indictment charging him with murder, the degree of which was subsequently adjudged by the Court to be murder in the second degree, and on February 6, 1922 was sentenced to pay costs, to undergo imprisonment in the Eastern Penitentiary for a period of not less than twelve years nor more than twenty years.

The applicant is thirty-four years of age and owes allegiance to the Republic of Poland. He is a miner by occupation and was so employed at the time of his arrest. He resided in the city of Scranton with his wife and two children.

It appears from the Statement of Facts agreed to by the trial District Attorney and the attorney for the defendant, which was filed with the Board, that Louis Rauff and the applicant were friends and had been friends for some time prior to November 16, 1921. That on the afternoon of that day, Rauff went to the house of the applicant. They had a gallon of "hooch" and Rauff sent one of the Micks children to a corner drug store to buy some Hoffman Drops to put

into the "hooch." They then continued their drinking and during the afternoon an argument arose between them. They then went outside and when there, the applicant grabbed a mine drill about three feet long and hit Rauff over the head with it, fracturing his skull and causing his death.

The applicant has now served seven years and four months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the trial District Attorney in which he states, inter alia: "The sentence of 12 to 20 years seemed like a severe one in view of the subsequent change in the law which would have limited it to 10 to 20 years. In view of all the facts in the case, I have no objection to his being pardoned."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; and because of the favorable attitude of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Alexander Micks.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1148 and 1149, February Sessions, 1929, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, Frank Watson was convicted of robbery, assault and battery with intent to ravish and rape, and on March 1, 1929 was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than seven and one-half years nor more than fifteen years.

The applicant is twenty-eight years of age and a native-born citizen of the United States. He is a brick liner by occupation but for the past eight years has not been employed having been permanently injured at his trade in 1921. He is unmarried and resided with his mother, at the time of his arrest, in the city of Philadelphia.

On February 20, 1929, Lucy De Petro aged eighteen years, a married woman, complained to the police authorities that she had been robbed and raped. She accompanied the police officials to No. 26 Collom Street, Philadelphia, and there identified the applicant and one Thomas Smith as the two men who on the previous day had committed these crimes. She stated that while walking past the said number at about 3:00 P. M., on her way to do shopping, the applicant and the said Smith seized her,—the applicant seizing her by the feet and Smith taking her by the head and placing his hand over her mouth; that they then carried her into No. 26 Collom Street, into the front room, where they robbed her of twenty-five dollars which she had in her possession; that Smith then ravished her, and the applicant attempted to ravish her but didn't succeed; that she then escaped and informed her husband and the next day they reported the matter to the police authorities with the resulting arrest.

The applicant has now served three months of his term of imprisonment. He was never before charged with or convicted of crime.

The applicant contends that Mrs. De Petro's story is highly improbable. She testified that in broad daylight, in the middle of the afternoon, in a busy street, within one-half square of Germantown Avenue, she was seized on the street, immediately opposite the very busy offices of the Keystone Telephone Company; was carried into the front room of the house and there robbed and raped. He points to the fact that the prosecutrix was a sturdily built, good-sized girl, whereas both defendants are cripples and weak physically. No one heard

any outcry. The applicant produced disinterested witnesses to prove that he was in the center of the city at or about the time of the alleged crimes. Subsequent investigation made by the County Detectives attached to the District Attorney's office showed that the prosecutrix in her testimony had perjured herself in some respects, and that her story was highly improbable.

The representative of the District Attorney's office present at the oral hearing of the application made no active opposition to pardon.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the fact that the District Attorney's office at the oral hearing did not oppose the application for pardon, we have concluded that the applicant has been severely punished and if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Frank Watson.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 17, August Sessions, 1926, in the Court of Oyer and Terminer in and for the County of Philadelphia, Luther Willard alias Arthur Willard, was convicted of burglary, and on September 16, 1926 was sentenced to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years nor more than ten years.

The applicant is thirty-eight years of age, and a native-born citizen of the United States. He is a grain handler by occupation and at the time of his arrest was so employed by the Pennsylvania Railroad Company. The applicant had been married but has been divorced from his wife. He has one daughter, sixteen years of age, who is attending school in Kentucky. His residence is Philadelphia.

On the night of May 22, 1926, the applicant had been out with a party of friends and spent the evening in revelry. He started for home in his drunken condition and due to this fact his sense of direction and judgment was not good, and instead of choosing the proper street on which he lived, he chose the next one running in a parallel direction, and due to the similarity of the houses on these streets, he entered what he believed to be his own home, but which proved to be the residence of Ernest Grant. The houses in this district are all of the same construction and could easily be mistaken particularly in the condition under which the applicant was laboring. The house was not forcibly entered. The applicant opened the front door and proceeded upstairs to what he believed to be his own bedroom. As he entered the room he was hit on the head with a chair, breaking a blood vessel over one eye. A fight then ensued in which the applicant defended himself, believing he was in the right. Ernest Grant was cut several times on the arm. Both men were taken to the St. Agnes Hospital where they received treatment and remained for a number of days. Nothing was taken from the home of Grant and no damage was done to his house or its furnishings.

The applicant has now served two years and nine months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the Deputy Warden of the Penitentiary in which he certified to the applicant's excellent prison record. It is contended on behalf of the applicant that he was not a drinking man until he engaged in the work of grain handling, and then he used liquor to keep his throat from being infected by the grain dust.

A representative of the District Attorney's office, present at the oral hearing, did not actively oppose the application.

In consideration of all the circumstances of this case; the grave doubt as to the guilty of the applicant as to the crime charged in the indictment; the term of imprisonment already served; his prior good record and his excellent prison record; because of the fact that a representative of the District Attorney's office, present at the oral hearing, did not strongly oppose the application, we have concluded that the applicant has been sufficiently punished, and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Luther Willard alias Arthur Willard.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 16, December Term, 1925, in the Court of Quarter Sessions of the Peace in and for the County of Fayette, Robert Lilley was convicted of assault and battery with intent to ravish and incestuous fornication, and on January 23, 1926, was sentenced to pay a fine of six cents and costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than seven years nor more than fifteen years.

The applicant is a native-born citizen of the United States, forty-five years of age and a coal miner by occupation. At the time of his arrest, he was employed by the Rainey Company at Allison, Pa., and resided with his wife in Uniontown, Pa. The wife, shortly after his conviction, divorced him and remarried a man of Polish origin.

Applicant, as before stated, was married, and raised a family of six children. He invested his savings in a home. When the children grew older, the wife began running around and keeping company with people of whom the applicant did not approve. The applicant was employed in a colliery about 12 miles distant from his home, and during the week, he boarded with his sister-in-law at Allison and returned to his family every Saturday night and turned over his wages to his wife who gave him enough money to pay his board and transportation for the coming week. This condition lasted for several months. One week before his arrest, the applicant returned home on Saturday evening as usual, gave his wife \$38.00 with the remark that in all probabilities he would not come home the following Saturday since that day was not pay day. His wife replied that it would be better for him to show up and come home, or else he would not find her any more when he came back, and handed him \$1.00 for the expense of transportation. When he finally returned home and entered the house, his eleven-year-old daughter left the house to notify her uncle (a brother of the applicant) of his return and the brother went with the girl down town to join the applicant's wife who was in a picture show. During this time the applicant waited in his home and was surprised when an officer in company with his brother and the applicant's wife entered the room and arrested him on the serious charge above mentioned. He did not know the cause of his arrest until he was in the County Jail, where he remained three months awaiting trial. During this period, different people were sent to him by his brother (who was the prosecutor in the case) to persuade him to plead guilty. This he refused to do, because he has always maintained his innocence.

The applicant claims that his wife planned the arrest in order to have him put away and in support of this contention, points to the fact that a few weeks after his arrest, she obtained a divorce and remarried. The applicant was convicted of the crime charged, mainly on the testimony of his eleven-year-old daughter.

The applicant has now served three years and five months of his imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board, a letter from the Assistant Trial District Attorney, in which he recommends a pardon. In it he states: "I have always been of the opinion that the sentence imposed on him (the applicant) was too much as the main witness of the Commonwealth was a young girl of immature years whose testimony was not of the most convincing character."

There was also filed, a letter from the first Assistant District Attorney, now in office, in which he states: "I have made an investigation of this case and am of the opinion that the petitioner is deserving of any leniency that your Honorable Board may deem proper to extend."

The brother of the applicant who was the prosecutor of the case has written the Board, that he did not make the information on the strength of his knowledge of the case, but solely upon the information which he received from the witnesses who appeared at the trial, the principal one being the applicant's daughter, eleven years of age. He further states: "shortly after Robert Lilley was convicted and sentenced, his wife obtained a divorce and remarried. She was active at the time of the trial in obtaining evidence against him and urging everything to the front in order to obtain a conviction in the case. I am unable to say however, that what she did was from an improper motive, but it all taken together looks suspicious at this time."

The trial Judge has also filed with the Board, a letter in which he states: "I do not wish to interpose any objection whatsoever to the granting of the application." He also states that if the Board received the impression that the sentence imposed was too severe, that it will act accordingly.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; the prior good record of the applicant; the term of imprisonment already served; because of the severity of the sentence; because of the fact that the chief witness against him was his eleven-year-old daughter who appeared to be under the domination of the mother, who shortly after the applicant's sentence obtained a divorce and remarried, and because of the favorable attitude of the trial Judge and the recommendations of the Assistant Trial District Attorney, the Prosecutor and the present Assistant District Attorney, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Robert Lilley.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 54, September Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Crawford, Thomas Stanberry was convicted of assault with intent to ravish, and assault and battery, and on December 8, 1928, was sentenced to pay a fine of \$50.00, costs and to undergo imprisonment in the Western Penitentiary for a period of not less than one year nor more than two years.

The applicant is a native-born American citizen, colored, and forty-nine years of age. He is by occupation a laborer, but for the last eight years has been engaged as a preacher and exhorter of the Holiness Church, conducting services on the street corners as well as in the church. At the time of his arrest he was employed as a laborer in Meadville and resided there with his wife.

On July 6, 1928, the father of Bessie Roseberry (a colored girl, under sixteen years of age), made information against the

applicant charging him with assaulting his daughter with intent to commit rape. The alleged assault was committed about 7:30 o'clock P. M. the previous day, in the woods near the homes of both the applicant and the complainant. Upon trial, the applicant denied the commission of the crime and offered testimony to establish an alibi, which the trial Judge, in a letter filed with the Board, pronounced as complete an alibi as is usually presented in court, nevertheless the jury convicted him. The story that the girl told at the preliminary hearing before the Magistrate, differed materially from her testimony in court.

There had been had feeling between Roseberry, the prosecutor, and the applicant. Each had had the other arrested prior to the present conviction and they had trouble over a land deal.

The applicant has now served six months of his term of imprisonment. He was never before convicted of crime. Three or four years ago, Roseberry had him arrested on a charge of disorderly conduct, because he claimed that a nuisance was created by the applicant conducting religious services at his home. He testified that "they prayed and sang too long, too loud and too late at night." The applicant was discharged. He was arrested about November, 1928, upon complaint that he had aided another man in defrauding the United States Post Office Department out of one hundred dollars. The applicant identified the man at the post office in Meadville as being the man to whom a certain post office money order was payable. The applicant had met this man a number of times and had been told his name. He believed it to be his real name and did identify him as the payee of the money order. The applicant did this innocently, and without any intention to defraud the Government. He has never had a hearing upon this charge and is advised by his attorney that he is simply being held as a Government witness. He also has made restitution by paying to the postmaster at Meadville the amount that was paid upon the stolen post office money order.

There was filed with the Board a letter from the trial Judge in which he strongly urges a pardon. In his letter, *inter alia*, he states that at the recent May Sessions of the court a case involving the same girl and charging one, Elton Newbold with statutory rape, was tried. Newbold was acquitted of rape and convicted of fornication only. The letter continues: "by evidence introduced at this trial, it was clearly established that this prosecuting witness for a considerable time past, as early as the Spring of 1927 had a bad reputation for chastity." The Judge concludes by saying that the bad reputation of the girl, having been clearly established by the verdict of the latter jury, this fact in connection with other facts showing bad feeling between the Roseberrys and the applicant, leads him to believe that he committed an error in denying the applicant a new trial and in sentencing him as above stated. The trial District Attorney has also filed a letter with the Board in which he strongly recommends clemency and emphasizes particularly the bad character of this girl as disclosed by the evidence in the Newbold trial.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the grave doubt as to the guilt of the applicant; because of the bad character and reputation of the chief prosecuting witness, and because of the strong recommendations of the trial Judge and trial District Attorney, we have concluded that he has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Thomas Stanberry.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 99, February Sessions, 1922, in the Court of Oyer and Terminer in and for the County of Luzerne, Jacob Kroshina, alias Jacob Krum, pleaded guilty to an indictment charging him with murder, the degree of which was subsequently adjudged to be murder in the second degree, and on February 6, 1922, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than nineteen years nor more than twenty years.

The applicant is twenty-nine years of age and a native-born citizen of the United States. He is by occupation a laborer and at the time of his arrest was employed by the Hudson Coal Company at Parsons, Pennsylvania. He was married but his wife has since divorced him.

When the crime hereinafter described was committed, the applicant was twenty-one years of age and had been married a little more than one year. His wife at that time was twenty years old. They lived together about five months when his wife left him. Just before the shooting they planned to resume living together, and the applicant had stayed at his mother-in-law's home with his wife for four days. On Monday, November 28, 1921, the applicant went to his mother's house, only a short distance away, and had dinner. Before dinner he drank a pint of homemade moonshine whiskey. He then went back to his wife and took her downtown to buy her a pair of shoes. She refused to let him go into the store with her, and he refused to buy the shoes unless he was permitted to accompany her. They quarreled and returned to his mother-in-law's house. Standing together at the gate quarreling, she told him that she did not want anything more to do with him; she also told him never to speak to her again and never to come near her. The applicant had a revolver which he had purchased several days before and which he was carrying in a holster. He drew this and fired three shots. He claims and has always claimed that he fired his revolver in order to scare his wife and that he pointed the revolver toward the ground. His wife had an umbrella in her hand and threw out her hand and was struck by one of the bullets. His mother-in-law ran out on the porch and was struck by two of the bullets and was killed. One bullet had glanced toward her and the other was a direct hit. He was so close to his wife that he could have put the revolver against her had he intended to kill her. There was no animosity between the applicant and his mother-in-law. He testified that the revolver had been bought for use in shooting at mark. He brought it with him when he came to see his wife and showed it to her and to his mother-in-law. After the shooting the applicant hid in a nearby mine where he was apprehended the next morning by the State police and taken to the County Jail.

The applicant has now served seven years and four months of his term of imprisonment. His prior record is good with the exception that when he was sixteen years of age, he was sent to Glen Mills for the larceny of a bicycle, and served eighteen months. When he was twenty years of age, he served two months in the Luzerne County Jail for assault and battery. He was twenty-one years of age when the present crime was committed. His prison record has been good.

There was filed with the Board a letter from the trial Judge in which he strongly recommends clemency. There was also filed with the Board a letter from the superintendent of the shoe department of the Eastern Penitentiary in which he certifies to his excellent prison record. He also states that the applicant has been so efficient in his work that he is qualified to hold a similar position in the outside world at a salary of at least \$40.00 a week. Richard Powell, Chief of the County Detectives of Luzerne County, who was the prosecutor in the case, has filed a letter with the Board in which he states among other things: "I do not believe that he (the applicant) intended to kill anyone. It was the result of moonshine." He further states that he has investigated the conduct and progress of the applicant since his imprisonment and believes that if released he will become a useful citizen. He recommends clemency.

In consideration of all the circumstances of this case; the absence of any design to kill anyone; the comparative youth of the applicant when the crime was committed; his prior good record with minor exceptions; the term of imprisonment already served; his excellent prison record; because of the strong recommendations from the Chief of the County Detectives of Luzerne County, who was the prosecutor in the case; and particularly because of the strong letter of recommendation from the trial Judge, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Jacob Kroshina, alias Jacob Krum.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, April Term, 1927, in the Court of Oyer and Terminer, in and for the County of Bedford, Orville Harbaugh was convicted of rape, and on April 20, 1927 was sentenced to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than four years nor more than eight years.

The applicant is twenty-four years of age, unmarried, and a native-born citizen of the United States. His occupation is that of a farm laborer, but at the time of his arrest he was employed as a truck driver for a hotel in Pleasantville Borough, Bedford County. His residence at that time was in West St. Clair Township, Bedford County.

On the evening of March 12, 1927, at Pleasantville Borough, Agnes Bowden aged 15 years, was upon the streets of said borough in the company of five or six boys of apparently her own age. The applicant appeared upon the scene. There was disorderly conduct progressing between Agnes Bowden and the boys, such as hugging, kissing and fondling, and the former requested the applicant to take her way, which he did. The applicant and the girl separated from the boys and later entered an alley, where it is alleged by Agnes Bowden that that applicant committed forcible rape. The applicant denies the use of force, but admits the act of fornication which was voluntary on her part. After they emerged from the alley, Agnes Bowden conversed with persons on the street, but made no complaint, neither did she make any outcry, although the crime is alleged to have been committed about 9:00 o'clock near residences where lights were burning. Subsequently, the girl went to the home of her uncle, with whom she resided, and had him secure a warrant charging forcible rape against the applicant who had returned to his place of abode. He was arrested the same night.

The applicant has now served two years and two months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a petition signed by one hundred and sixty-two citizens of Pleasantville Borough, including two ministers of the gospel and the Justice of the Peace, recommending pardon. There was also filed with the Board a communication from the two Associate Judges of Bedford County joining in the recommendation for clemency, which communication was approved by the trial Judge. A letter was filed with the Board from the trial District Attorney in which he states, that the only evidence that force was employed was the testimony of the girl herself; that the occurrence took place about 9:00 o'clock in the evening and that no outcry was made by her; that since the conviction the girl ran away from her aunt's home, that she admitted to the District Attorney that her testimony at the trial with regard to the use of force was untrue. He concludes by recommending clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the grave doubt as to the applicant's guilt of the crime charged; because of the recommendation of the citizens, the recommendation of the trial Judge and two associate Judges, and the strong recommendation of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Orville Harbaugh.

ARTHUR H. JAMES,  
Lieutenant Governor

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 912 and 914, June Sessions, 1926, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, William A. Gallagher was convicted of entering to steal, and on June 28, 1926 (in No. 912) was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years. No sentence was imposed in No. 914.

The applicant is a native-born citizen of the United States, twenty-eight years of age, a chauffeur by occupation, and is unmarried. He was unemployed at the time of his arrest and resided in the City of Philadelphia.

The applicant at the age of eighteen years enlisted in the United States Army, became a private in the 4th Cavalry, and was honorably discharge in August 1921. He was a chauffeur by occupation and later re-enlisted, in June, 1922, in the United States Marine Corps, from which he was honorably discharged at Quantico, Va., three years later, and his character designated as excellent. The recommendation endorsed on his certificate stated he was to be reinstated as sergeant upon re-enlistment, his service having been honest and faithful. He was unable to get satisfactory employment, fell into bad company, and was subsequently indicted on four bills on the charge of entering to steal, and convicted on two bills.

In No. 912, the indictment on which he was sentenced, he was charged with having taken, on June 10, 1926, one wrist watch, one cigarette case, one string of beads, and two bracelets, valued at eight dollars, the property of Marjorie E. Vaughn. In No. 914, the indictment on which he was not sentenced, he was charged with having taken, on the same day, one overcoat and other clothing and articles, the property of Vincent Reckefus, valued at \$350.00. These articles were taken from adjoining apartments.

The applicant has now served approximately three years of his term of imprisonment. He was never before charged with or convicted of crime.

A representative of the District Attorney's Office present at the oral hearing of the application intimated that the sentence was severe and did not oppose the application for pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the fact that the District Attorney's Office did not oppose the application for pardon, we have concluded that the applicant has been severely punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said William A. Gallagher.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 18, March Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Beaver, Wade Hickey pleaded guilty to an indictment for breaking and entering and on May 29, 1926, was sentenced to pay a fine of \$1.00, costs and to undergo imprisonment in the Western Penitentiary for a period of not less than four years, nor more than eight years.

The applicant is a native-born American citizen; unmarried; twenty-eight years of age; a railroad worker by occupation, and at the time of his arrest was employed by the Pennsylvania Railroad Company at Conway Yards, Beaver County, and resided at Rochester, Pennsylvania.

The applicant as before stated, was a Pennsylvania Railroad Company employe and worked as a brakeman for a conductor by the name of Clayton Miller. On or about December 12, 1925, the applicant together with Clayton Miller broke into the unoccupied home of Minnie Musser in Patterson Heights Borough, Beaver County, and stole some furniture consisting of a dresser, bed and rug. In the dresser drawers, Miller discovered some credit checks or coins, entitling the bearer to secure goods on credit at Boggs and Buhl, Pittsburgh. Miller attempted to secure credit and was apprehended by the Pittsburgh police. He was arrested and later paroled by the Allegheny County Court. When arrested he informed the police that the applicant was also involved in the crime which also led to his arrest in Beaver County on the charge of breaking and entering.

The applicant has now served approximately three years and one month of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent, as shown by a letter from the deputy warden of the Penitentiary. The applicant's father, Wade Hickey, is suffering from chronic fibroid tuberculosis and his mother is in poor health, as appears from physician's certificates attached to the application. The applicant is the only child and should support his parents. There was filed with the Board a letter from the Homer Laughlin China Company, offering employment to the applicant if released.

There were filed with the Board a number of letters recommending clemency. One from Congressman Swick of the 26th District, one from the Chief of Police of East Liverpool, Ohio, and others. The trial Judge and trial District Attorney have both filed letters with the Board in which both state in the same terms that it has not been their policy to make recommendations in pardon cases but that in the present case they have "no hesitation in saying that we have no objection to the pardon being granted."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because his parents are in impaired health and require the support of the applicant who is an only child; because employment has been offered him if released; because his accomplice is at liberty; because of the recommendation of Congressman Swick and others; and because of the favorable attitude of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Wade Hickey.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2, March Term, 1923, in the Court of Oyer and Terminer, in and for the County of Cambria, Marion Hunter pleaded guilty to an indictment charging him with murder, the degree of which was subsequently adjudged to be murder in the second degree, and on March 16, 1923, was sentenced to pay costs and to undergo imprisonment in the Western Penitentiary for a term of not less than ten years nor more than twenty years.

The applicant is forty-six years of age; a native-born citizen of the United States and colored. At the time of his arrest he was employed by the Cambria Steel Company at Johnstown. He is married.

The applicant conducted a boarding house in the Borough of Franklin, Cambria County. He did not live at the boarding house himself, but lived in the next block. On December 16, 1922, about 1:30 in the morning, the applicant was aroused from his bed and was told: "Someone is fighting down at your boarding house." He got out of bed, dressed himself and went to his boarding house to find out who was causing the disturbance. When he entered his boarding house no one was there but one of his boarders who told him: "some man had been there and started a fight with them, but he did not know the man by name, but knew him by sight," and told the applicant to ask James Ross, the next door neighbor. The applicant then went over to Ross' and at that moment one, Eddie Black, a negro was walking in the door and heard the applicant ask James Ross who the man was who caused the disturbance in applicant's boarding house. Black spoke up and said, "It was me. I won't only cause trouble in your house, but will start trouble with you" etc., ending with an opprobrious epithet. Black then reached in his pocket and brought out a knife and started towards the applicant. Black was between the applicant and the doorway so that the latter jumped behind one, Eddie Peters, snatched a gun out of Peters' hand and fired one shot in the direction of Black for the purpose of scaring him, but the bullet lodged in the body of the latter and caused death. The applicant knew Black prior to this occurrence and knew him to be a dangerous man, and that on two prior occasions he had cut and seriously injured two other men.

The applicant has now served six years and three months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the trial District Attorney which neither advocates nor opposes pardon. He states that the applicant maintained that Black rushed at him with a knife in his hand and that he then grabbed a revolver from the hand of a by-stander and shot Black. There were two eye witnesses, but their testimony was rather vague as to who made the first attack. The Sheriff of Cambria County has filed with the Board a letter in which he recommends pardon. He states that he knew the applicant before the commission of the crime and knew him to be a peaceable and law-abiding citizen, and that he also knew Black who had the reputation of being a bad negro who had been implicated in several cutting affairs.

In consideration of all the circumstances of this case; the term of imprisonment already served; his prior good record; because of the letter from the trial District Attorney and the recommendation of the Sheriff of Cambria County, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Marion Hunter.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, December Sessions, 1920, in the Court of Oyer and Terminer, in and for the county of Lawrence, Roy E. Phillips pleaded guilty to an indictment charging him with murder, the degree of which was subsequently adjudged by the Court to be murder in the second degree, and on December 24, 1920 was sentenced to pay a fine of \$50.00, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than twelve years nor more than fifteen years.

The applicant is forty-two years of age and a native-born American citizen. At the time of his arrest he was employed by the Baltimore and Ohio Railroad Company at the round-house at New Castle Junction, Lawrence County, as a boiler-maker. He resided in the city of New Castle with his wife.

Sometime after dark on the evening of September 3, 1920, the automobile, of one, John C. Abraham was standing on a side road some distance east of the New Castle-Wilmington Improved Road, at a point about two miles south of the Borough of New Wilmington, Lawrence County. Some distance down the road lay the dead body of John C. Abraham. The applicant who was in a badly intoxicated condition lay near by. No weapons were found and an examination of the body of Abraham showed that no weapon had been used. The applicant very drunk, was taken into custody by the police at about 10:00 o'clock the same evening at the place where the crime was committed. About 3:00 o'clock the following morning the applicant told police officers his story of the crime. Investigation corroborated his story as to the following facts: Abraham and the applicant had been accompanied to the scene of the crime by Mrs. Hattie Olds, a sister of the applicant, and Mrs. Ada McIntyre. They left New Castle sometime before the commission of the crime, the scene of the crime being about seven miles from the latter city. Mrs. Olds was in company with Abraham and the applicant in company with Mrs. McIntyre. The automobile was owned and driven by Abraham. Both men had been drinking considerably. Phillips was decidedly intoxicated. After turning into the side road where the crime was committed, an altercation arose between Abraham and the applicant in relation to Mrs. Olds and the applicant had kicked Abraham on the head while Abraham was lying down, causing death, at the place where the body was found. From the position of the body of Abraham and the state of his clothing, it was evident that when killed he had been having carnal connection with Mrs. Olds. The two women fled and were taken to New Castle by automobile. The liquor and wine which had been consumed by Abraham and the applicant, had been provided by Abraham. Both women were held as material witnesses to testify at the trial.

The applicant claims that he was badly intoxicated when the crime was committed, such intoxication having been induced by wine and liquor furnished by the deceased and that the crime was provoked by the conduct of Abraham towards his sister and that the kicking was done on the spur of the moment without any previous malice toward Abraham, who was practically a stranger to the applicant. Their association that evening resulted casually because of his acquaintance with the applicant's sister. The applicant has now served eight years and six months, approximately, of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a number of letters recommending clemency. Among others, letters from the present and former County Detective. The trial District Attorney has also filed with the Board a letter in which he recommends clemency. The trial Judge is dead.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record as shown by a letter from the Deputy Warden of the Penitentiary; because the murder was the result of a drunken brawl without any intention to take life; and in further consideration of the recommendations of the two County Detectives and the trial District Attorney, we have concluded that the applicant has been

sufficiently punished and if now released he will prove himself, a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Roy E. Phillips.

ARTHUR H. JAMES,  
Lieutenant Governor.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 138, May Sessions, 1915, in the Court of Oyer and Terminer in and for the County of Philadelphia, Robert Lawson was convicted of murder in the second degree, and on June 30, 1916, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than nineteen years, nor more than twenty years.

The applicant is a native-born citizen of the United States; colored; forty years of age; a widower; a laborer by occupation and has resided in Philadelphia for the past twenty-one years.

On March 13, 1913, the applicant was married, and after the wedding the couple took up housekeeping in the neighborhood of 56th and Chestnut Streets, Philadelphia. Their married relations were very congenial. Eventually a child was born. Some time after the birth of the child, the wife began to neglect her home and her family and began a series of pleasure jaunts which often brought her home about two o'clock in the morning. She was remonstrated with by her husband and finally after consulting an attorney, they decided to separate and did so. During the period of separation, about seven months, the applicant continued to support his wife and baby. Finally the child died. After this he tried to effect a reconciliation with his wife, and his efforts had reached the stage where they were meeting regularly and had arranged to live together. Finally, on April 17, 1915, he went to call on his wife and saw one, Jesse Ladner walking with her down the street. The applicant remonstrated with Ladner and blows were struck. Later his wife came out of the house where she had been living and an altercation ensued. He had spent the preceding night prior to the shooting with his wife. There was no preceding quarrel. He was in love with her and the fact that his wife received attentions from other men aroused his jealousy and virtually deprived him of all reason, with the result that he shot and killed her.

The applicant has now served approximately fourteen years of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent, as shown by letters from the warden and assistant warden of the Penitentiary. These officials as well as Dr. Linn Bowman, Moral Instructor, and Courtland Butler, Parole Officer of the Penitentiary, recommend clemency. If released, Dr. Bowman will become responsible for his future good conduct, and he will be taken into the home of Dr. Bowman's daughter, at Merion, Pennsylvania, in the capacity of butler. The aged mother of the applicant requires his support.

The sentencing Judge is dead. A representative of the District Attorney's office, present at the oral hearing, did not actively oppose the application for pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because of the recommendations of the Penitentiary officials; because of the fact that Dr. Linn Bowman, Moral Instructor in the Penitentiary will become responsible for his future good conduct and will provide a home and employment for the applicant; because his aged mother requires support and in further consideration of the fact that the District Attorney's office does not actively oppose his application, we have concluded that the applicant has been sufficiently punished, and if now

released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon now be granted to the said Robert Lawson.

ARTHUR H. JAMES,  
Lieutenant Governor.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 162 and 264, March Sessions, 1923, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Thomas McCafferty, was convicted of assault, being armed with an offensive weapon and robbery, and on April 27, 1923, in No. 162, was sentenced to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than nine and one-half years nor more than ten years.

The applicant is twenty-seven years of age; a native-born citizen of the United States, unmarried, a driver by occupation, and was born and resided in the City of Philadelphia all his life.

The applicant was arrested shortly after midnight, February 25, 1923, in a raid on a restaurant at No. 1307 Columbia Avenue, Philadelphia. The applicant was sitting at the same table with one, John Cahill, who was known to the police. Both men were arrested on suspicion and subsequently two charges of robbery were brought against them. The first case involved the hold-up of an auto truck belonging to the American Transportation Company, driven by one, Wilfred Patterson, who testified that he was driving a six-ton truck containing a load of sugar consigned to a merchant in Bangor, Pennsylvania. The driver noticed that he was being followed out Broad Street by a touring car containing several men and when he stopped for gas at Broad and Huntingdon Streets, four men with revolvers walked over from the touring car and inspected the contents of the truck. After satisfying themselves that the truck did not contain liquor, the men departed. The driver was not positive that the applicant was one of the four men, and he probably would never have been convicted and sentenced on the testimony, if he had not also been charged together with Cahill, with the robbery of one, George Page, which occurred on the street during the early part of preceding month. Page was relieved of \$48.00.

The applicant has now served six years, and two months of his term of imprisonment. He was never before charged with or convicted of crime.

A number of letters were filed with the Board recommending clemency. Jack Kinkade who is engaged in the business of roofing, has offered employment to the applicant if released.

A representative of the District Attorney's office present at the oral hearing of the application for a pardon, did not actively oppose the application.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the recommendations of many men and women; because employment has been offered the applicant if released, and because of the additional fact that the District Attorney's office did not actively oppose the present application, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Thomas McCafferty.

ARTHUR H. JAMES,  
Lieutenant Governor.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 19, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 26, December Sessions, 1916, in the Court of Oyer and Terminer, in and for the County of Allegheny, Salvatore Cardomone, was convicted of murder in the first degree, and on February 27, 1918, was sentenced to be electrocuted. Subsequently, on June 28, 1918, the death sentence was commuted to life imprisonment.

The applicant is thirty-eight years of age, of Italian nationality and his occupation at the time of his conviction was that of laborer. He was employed by the Carnegie Steel Company in its mills in the City of Duquesne and resided in that city. At the time of his conviction he was married but his wife has since obtained a divorce.

The best account of the double tragedy (which occurred on Sunday evening, October 8, 1916) is contained in the letter of Peter M. Cancelliere, who was the trial Assistant District Attorney, which letter was filed with the Board. He states, inter alia, that one, Sam Perri, was unquestionably the instigator of the affair. He continues: "On this Sunday afternoon, Sam Perri, Ralph Perri, Frank Cero, Burno Cuda and Salvatore Cardomone were together walking down Patterson Avenue, Duquesne, Pennsylvania. Behind them, walking together, were John Vesh and his nephew, Frank Vesh; both groups were close together when they reached the corner of Patterson Avenue and Elm Street.

"Sam Perri singled out John Vesh and invited him to walk down to an alley to talk to him some hundred feet distant. Both disappeared into this alley, etc. \*\*\*\*\*"

"Sam Perri and John Vesh got into a quarrel, shooting followed and the remaining five from different direction, ran down to the alley to see what was going on, \*\*\*\*\* It was a general fight and shooting affair, resulting in the death of John Vesh, who was invited into the alley, and in the death of Sam Perri, who invited John Vesh into the alley."

"The Commonwealth elected to try Salvatore Cardomone first on the charge of murder for the reason that the Commonwealth's testimony was clearer as to his participation in the killing of John Vesh, than the others, excepting Sam Perri, who was killed almost instantly; and undoubtedly, because of Salvatore Cardomone chasing John Vesh through a yard of one Kohut between the alley and Patterson Avenue, and following him up onto a porch, where it was evidenced that both fought each other, bit each other and revolvers were in the hands of each, and because of the manner and circumstances of the shooting that occurred on that porch, although John Vesh had already been shot several times, anyone of which gun shot wounds would have been fatal with the exception of one received in the leg, the jury brought in a verdict of murder in the first degree, swayed undoubtedly, by the circumstances that occurred on the said porch."

"The remaining defendants, Ralph Perri and Frank Cero, pleaded guilty and, although Salvatore Cardomone's participation in what occurred that afternoon was no greater than that of Ralph Perri and Frank Cero, with the exception of the subsequent altercation on the porch with John Vesh, who already was wounded, the guilt of those two defendants was fixed at murder in the second degree.

"Bruno Cuda, of course, was found not guilty. Had Salvatore Cardomone not elected to go to trial and had he pleaded guilty to murder as Ralph Perri and Frank Cero did, it is my strong impression and conviction that his degree of guilt would have been fixed by the Court at murder of the second degree, as they were all equally guilty of what occurred that afternoon in the killing of the two men, in the same degree."

Mr. Cancelliere makes no recommendation to the Pardon Board. The present District Attorney has filed with the Board a letter in which he states that he has carefully read the letter above referred to and that he concurs in the statements made therein.

There were filed with the Board, four affidavits: One from the father of the applicant, in which he avers that his son was industrious and peaceable, had never been in trouble before, and that he believes him innocent of the crime. The second affidavit by Louis Roman is from an eye witness. He

was on the street and saw Sam Perri fall. He afterwards saw John Vesh with a large revolver in his hand, go upon the Kohut porch. The applicant was on the porch yelling at Vesh in Italian to stop. The latter did not stop and they grabbed each other. Vesh pulled his gun on the applicant and in the struggle seemed to be shooting. The applicant had a smaller revolver in his hand, and he too appeared to be shooting. The affiant was not a witness at the trial because he was afraid to testify. The remaining affidavits are by Ralph Perri and Frank Cero, and both are to the same effect: Both saw Sam Perri lying on the ground apparently dead. Both saw the applicant come on the scene and saw John Vesh begin shooting at the applicant who ran into a vacant lot followed by Vesh who was shooting at him. Both aver that the applicant fired one shot at Vesh when he was being pursued into the alley and vacant lot. Both declare that the applicant was not present when the shooting started, was not in any way responsible for it, and did not shoot except in his own defense when pursued by Vesh. Both aver that Sam Perri, and not the applicant, shot Vesh.

The applicant has been in prison since October 8, 1916, a period of twelve years and eight months. He was never before charged with or convicted of crime. Of the men involved in this double killing, Sam Perri and John Vesh are dead, Ralph Perri and Frank Cero both served their minimum sentences for second degree murder and were released on March 30, 1924. The others were acquitted. The applicant seeks pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; because of his long imprisonment; in consideration of the statements made by three eye witnesses of the shooting affray embodied in affidavits filed with the Board and particularly because of the letter of the trial Assistant District Attorney and the fact that all of the living men involved in these murders (except the applicant) are at liberty, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Salvatore Cardomone.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 13, December Sessions, 1914, in the Court of Oyer and Terminer in and for the County of Cambria, Tony Toronto pleaded guilty to an indictment charging him with murder and manslaughter, the degree of which was determined to be murder in the second degree, and on June 15, 1915, was sentenced to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than eighteen years nor more than twenty years.

The applicant is thirty-seven years of age, a native of the Kingdom of Italy and subject thereto. He is a farmer by occupation. At the time of his arrest he was employed as a laborer by the Cambria Steel Company, Johnstown, and lived in the Borough of Conemaugh, adjoining that city.

The applicant was sentenced for having killed Tony Toronto, his father-in-law, on November 4, 1914, under the following circumstances.

On October 29, 1914, the applicant was married to Mary Toronto, daughter of the deceased. Shortly thereafter he ascertained that she was not a virgin. He asked her who

was responsible for her condition and she refused to disclose his identity. The following day he told her he would allow her three days' time in which to inform him who was the guilty person, otherwise, he would leave her and absent himself for all time. Finally she told him that her father had seduced her. The applicant disbelieving his wife's statement, it was arranged that he should have the opportunity to verify her statement by witnessing the conduct of the father towards her. The applicant secreted himself in the house. The father went to the room occupied by the wife of applicant, and the latter witnessed their criminal conduct. Angry words ensued. Applicant demanded back the money he had paid in consideration of the hand of Mary Toronto, expressing his intention of leaving his wife with her parents. The deceased refused to return the money, stating that he would force the applicant to live with Mary Toronto. Angry and insulting words were exchanged and the deceased threatened the life of the applicant. At the height of the turmoil, the deceased stepped into another room and returned brandishing a revolver. A struggle for the possession of the weapon ensued, in the course of which, the applicant shot and killed Tony Toronto. The tragedy occurred six days after the marriage of Mary Toronto to the applicant. The above is the applicant's version of the tragedy.

The applicant has now served fourteen years and three months of his term of imprisonment. He was never before charged with or convicted of crime. He was twenty-two years of age at the time of the tragedy. His prison record is excellent as shown by the fact that he is at present employed as a night watchman at the dairy farm which is outside the prison enclosure.

In consideration of all the circumstances of this case; the comparative youth of the applicant when the crime was committed; his prior good record; the long term of imprisonment already served; his excellent prison record, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence heretofore imposed by the court shall be commuted to fourteen years' imprisonment, expiring on June 15, 1929.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence heretofore imposed on applicant, be commuted to fourteen years' imprisonment, expiring on June 15, 1929.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: On No. 59, October Sessions, 1927, in the Court of Quarter Sessions of the Peace in and for the County of McKean, Robert E. Cramisie was convicted of burglary and felonious entry, and on October 4, 1927, was sentenced by the court to pay a fine of six and one-quarter cents, costs and to undergo an imprisonment in the Western Penitentiary for a term of not less than four years nor more than eight years.

The applicant is a native-born citizen of the United States, thirty-seven years of age, unmarried, and a carpenter by occupation. He was last employed as a foreman by the Catherine Construction Company of Bradford, Pa. At the time of his arrest he resided with his father, seventy-eight years of age, in Smethport, Pa.

In September, 1927, the applicant went to the home of his father at Smethport, intending to work there and remain with his aged father. On the morning of September 26, 1927, the applicant was arrested at his father's home by County

Detective Allison of McKean County and was informed that he was charged with having broken by night into the home of Father Donohue, a priest of the Roman Catholic Church. The applicant asked him to take him to the home of the priest. He talked with the priest and endeavored to convince him that he had not broken into his house. The priest offered to drop the charge if the applicant would admit he had entered the house. This the applicant would not do and was taken to jail. The applicant was taken on two occasions on the same day to the home of the priest who told him that if he would sign a paper the priest had prepared the charge would be dropped and the applicant released. Detective Allison offered to go before the Justice of the Peace and say there was insufficient evidence to warrant the detention of the applicant. The applicant was steadfast in his refusal to sign the paper until the third trip to the priest's home, when, at the request of his father, the applicant finally signed the paper without reading it. He was immediately released. On the following morning he was rearrested on the same charge and placed in jail. When arraigned the applicant pleaded not guilty, but the paper he had previously signed was presented to the court as an alleged confession. The priest testified that during the night he was aroused from sleep, and that while he had not seen the face of the burglar, he had identified the applicant by his back. The applicant's father testified that the applicant had not left the house during the night, until six o'clock in the morning.

The applicant has now served almost two years of his term of imprisonment. The applicant's father, seventy-eight years of age, requires his support.

There was filed with the Board a letter from the trial Judge which is non-committal; also a letter from the trial District Attorney in which he states he has no objection to a pardon and believes that the applicant has been sufficiently punished; also a letter from the present District Attorney in which he states that he has no objection to clemency. County Detective Allison, who made the information against the applicant, has filed a letter with the Board in which he refers to the case as follows: "Since his (applicant's) conviction, information has been brought to me which causes a serious doubt as to whether or not he actually committed this offense and without solicitation, I would recommend that he be granted a pardon, both under the circumstances by which he was convicted, and the need of him to care for his aged father who is alone."

In consideration of all the circumstances of this case; the term of imprisonment already served; the need of his aged father for support; in consideration of the recommendations of the trial District Attorney and the County Detective, and because of the statement of the Trial Judge and present District Attorney, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence heretofore imposed by the court shall be commuted to two years' imprisonment, expiring on October 4, 1929.

We, therefore, "after full hearing, upon due public notice and in open session", recommend that the minimum sentence heretofore imposed on applicant be commuted to two years' imprisonment, expiring on October 4, 1929.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 245 and 247, February Sessions, 1920, in the Court of Oyer and Terminer, and at No. 246, February Sessions, 1920, and No. 11, February Sessions, 1921, in the Court

of Quarter Sessions of the Peace, in and for the County of Philadelphia, Frank M. Brown, alias "George," pleaded guilty to four indictments charging him with robbery, entering with intent to steal, aggravated assault and battery and assault and battery with intent to kill, and on March 28, 1921 was sentenced in the aggregate to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than eleven years nor more than thirteen years.

The applicant is a native-born American citizen, fifty-five years of age, and a skilled tool maker by occupation. At the time of his arrest, and for a year and a half prior thereto, he was employed as a skilled tool maker at the Naval Torpedo Plant, Alexandria, Virginia. The applicant is married and has two sons.

On or about December 31, 1919, the applicant was induced to participate in the robbery of a jewelry store in the City of Philadelphia, owned by Samuel S. Weissman. The robbery was planned in order to aid David Stern who had been released from the Eastern Penitentiary a few days before. The robbery was participated in by Stern, who was the ring-leader, William Bergman, who drove the automobile which was waiting outside the store, Joseph Abele, and the applicant, who did the actual taking or stealing of the goods. The proprietor and a female employe were frightened and both were injured. The applicant grabbed two trays of jewelry and ran out of the store, but on arriving outside found that the automobile had gone. The applicant then went into a side street and on examining the jewelry on the trays, found that the same consisted of signet rings which would retail at about \$219.00. The applicant received an aggregate sentence of from eleven to thirteen years as a first offender. All of the other participants in the robbery, who have past prison records, are at the present time enjoying their liberty. Stern pleaded guilty and was imprisoned from two to three years. Abele was convicted, secured a new trial and on the second trial was acquitted. Bergman was also acquitted.

The applicant has now served eight years and six months of his term of imprisonment. In 1919 he was tried and acquitted on the charge of stealing an automobile. Beyond this his record has been clear.

The wife of the applicant has filed with the Board an affidavit in which she states that before his imprisonment the applicant supported her and their two sons, and that during his incarceration he has contributed to their support.

The trial Judge is dead. There was filed with the Board a letter from S. S. Weissman, the prosecutor in the case, in which he states his belief that the applicant has been sufficiently punished and feels certain that if he is pardoned he will become a useful citizen. There was also filed with the Board a letter from Morrison and Dietz, Plumbers of Philadelphia, in which they offer to employ the applicant if released. There was also filed with the Board a letter from Doctor Edward E. Quayle of Washington, D. C., where the applicant's family now reside, in which he states that the eldest son of the applicant is undergoing treatment, suffering from an advanced case of pulmonary tuberculosis; that his condition is such that he will have to be sent to a warmer climate. He further states that this son aided materially in the support of the family and that since his illness their financial circumstances have become embarrassing.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; because employment has been offered him if released; because of the dire need of his family for support; because the prosecutor in the case believes that he has been sufficiently punished and that he will become a useful citizen if released, we have concluded that he has been sufficiently punished and that if now released he will become a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Frank M. Brown, alias "George."

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs

## Commonwealth of Pennsylvania.

## Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 26, March Sessions, 1928, in the Court of Quarter Sessions of the Peace in and for the County of Butler, V. F. Thomas, was convicted of abortion, and on July 9, 1928, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two years nor more than four years.

The applicant is sixty-eight years of age, a native-born citizen of the United States, and has been a qualified doctor of medicine since 1889. At the time of his arrest he was practicing his profession in the Borough of Evansburg (Evans City) Butler County, where he resided with his wife, one son, twenty-three years of age, and a grandson, twelve years of age.

On January 22, 1928, Violet McNany, aged about sixteen years, died at the Presbyterian Hospital, in the City of Pittsburgh, as a result of a criminal operation performed on her body sometime previously. On the following day the applicant was arrested charged with having performed the abortion. At the trial he was convicted mainly upon the ante-mortem statement of the girl, together with the testimony of Ray Davison, a married man, the acknowledged cause of her misfortune, who alleged that he brought the girl from her home to the front of the applicant's residence, on the night of January 12, 1928, at which time the operation is supposed to have been performed. Davison made the arrangements for taking the girl to the applicant's office. The latter absolutely denied performing any operation and stated that after having made a digital examination he told her that from appearance she was about to have a miscarriage and advised her to go home and go to bed. Davison later returned and asked the applicant to relieve the girl of her trouble, which the applicant declined to do. The parties were unknown to the physician and after the examination, which occupied from ten to fifteen minutes, he dismissed her and never saw her again.

The applicant has now served one year and two months of his term of imprisonment; he was never before charged with or convicted of crime; he is sixty-eight years of age; his heart and kidneys are seriously affected, as shown by a letter filed with the Board by the Resident Physician of the Penitentiary. There was also filed with the Board an elaborate report from Doctor Broecker, Assistant Psychologist, in which he reviewed the entire case. He states that since the trial it was learned that the victim had a distant relative, a trained nurse, who had acquired a reputation for performing operations of this sort. It was also learned that the father of the deceased child purchased a hard rubber catheter at a local drug store shortly before the time when the operation was probably committed. Before the death of the girl another physician, Doctor Stepp, was called in to attend her, whose reputation in matters of this kind was not good.

There was filed with the Board a letter from W. H. Martin, who assisted the District Attorney in the trial of the case, in which he states that from information received since the trial, he has "grave doubts of the defendant's guilt," and on account of the age of the applicant and his former excellent standing in his profession he recommends a pardon. The President of the Citizens National Bank of Evans City also recommends a pardon. There was also filed with the Board a large petition of citizens recommending clemency, and a petition of thirty-five members of the medical profession in Butler County, to the same effect.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; his prior good record; his advanced years; his impaired health; because of the term of imprisonment already served and because of the recommendations of the Assistant Prosecuting Attorney, the President of the Citizens National Bank, the numerous signed petitions of citizens and of the medical profession, we have concluded that the applicant has been sufficiently punished, and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice

and in open session," recommend that a pardon be now granted to the said V. F. Thomas.

## Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1154, December Sessions, 1925, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, William Higgins pleaded guilty to an indictment charging him with the unlawful possession of liquor, and on November 9, 1926, was sentenced by the court to be on probation for the period of one year.

The applicant is thirty-two years of age, a native-born citizen of the United States and at the present time is employed by Gimbel Brothers, Philadelphia, as a checker, earning twenty-two dollars per week. At the time of his arrest the applicant was employed by his brother who is in the real estate business in Philadelphia and resided in that city with his wife and two children.

In the month of December, 1925, a unit of the Philadelphia Police force entered No. 2501 East Allegheny Avenue, Philadelphia, by virtue of a warrant issued for the seizure of liquor alleged to be on the premises. At one time the mother of the applicant conducted a saloon in that locality, but for six months prior to the raid the saloon had been closed and boarded up, and the upper floors of the house rented. The applicant did not reside on the raided premises but at the time of the raid he happened to be there inspecting the premises upon a request of the tenants for repairs. He opened the door of the house and permitted the police to search the house. As a result of the search they found three gallons of liquor in the back kitchen and arrested the applicant on the charge above-named.

It is now two years and ten months since the applicant was placed on probation and during that period he has kept within the law. Prior to his present conviction he had never before been charged with or convicted of crime. He now desires a pardon because he has passed with high marks examinations conducted by the Civil Service Commission for aspirants to the police force, but is unable, because of his plea of guilty, to be placed on the eligible list which is used by the Director of Public Safety of Philadelphia in appointing policemen. His offense did not involve moral turpitude, but was merely a statutory offense.

There was filed with the Board two letters from Roman Catholic clergymen which certify to the applicant's excellent character and to his sobriety and industry.

In consideration of all the circumstances of this case, we have concluded that the applicant should be relieved from the stigma placed on him by reason of his plea of guilty to a statutory offense, and that he should be rehabilitated and restored to all the rights, duties and privileges of citizenship.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said William Higgins.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 12, 32, 33 and 36 May Term, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Mifflin, John Ehrenzeller pleaded guilty to four indictments charging him with larceny, receiving stolen goods and escape from prison, and on May 2, 1927, was sentenced in the aggregate to pay a fine of seventy-five dollars, costs and to undergo imprisonment in the Western Penitentiary for a term of not less than three years nor more than six years. Sentence was suspended on the last indictment, charging escape from prison.

The applicant is twenty-six years of age, a native-born citizen of the United States, a mill-worker by occupation, and, at the time of his arrest, had been employed as a mill-worker by the Logan Iron and Steel Company in Mifflin County for a period of ten years. He has a wife and one child.

On the evening of November 20, 1926, Arthur Foltz drove a car to the applicant's home and had supper with him and his wife. After supper Foltz asked the applicant to take a ride with him and they then drove to Middleburg, a distance of about seventy-five miles, and then returned to the applicant's home. Foltz drove away in the car the following morning, and the applicant went to work as usual, and worked steadily until February 8, 1927, eighty days after the automobile ride, when he was arrested and charged with having stolen this car and others. The car had been abandoned by Foltz the morning after the ride. It subsequently appeared that Foltz had stolen several cars, and that he enjoyed a bad reputation, which, however, the applicant did not know at the time, and when he took the ride he went with Foltz as a passenger, and did not know that the car had been stolen. The stolen cars belonged to Dr. O. M. Weaver and Charles C. Huffman, respectively, and the charge of receiving stolen goods grew out of the theft of the first automobile.

The charge of escaping from jail, on which sentence was suspended by the court, is based on the following circumstances: The applicant walked away from the jail for the purpose of securing witnesses in the trial and made no attempt to break jail.

The applicant has now served two years and four months of his term of imprisonment; he was never before charged with nor convicted of crime; he has a wife and child dependent on him for support; employment has been offered him if released; Foltz, the actual perpetrator of the thefts, was discharged from the Huntingdon Reformatory (to which he was sentenced, more than a year ago) after having served but one year.

The prosecutors in three of the cases have filed letters with the Board in which they recommend pardon on the ground that the applicant has been sufficiently punished; that his wife and child require support, and that Foltz, his associate, who had been sentenced to the Huntingdon Reformatory, was discharged more than one year ago.

The trial District Attorney has filed with the Board a letter in which he states that he has no objection to a pardon in this case. The trial Judge has also filed a letter in which, while not recommending a pardon, he states that the applicant, "has been sufficiently punished." The Sheriff of the County has also filed a letter in which he recommends pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because Foltz, his associate, who led him into trouble, was discharged from the Huntingdon Reformatory more than a year ago after serving but a single year; because his wife and child require his support, and in consideration of the recommendation of the prosecutors in three of the cases and the favorable attitude of the trial District Attorney and trial Judge, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice

and in open session," recommend that a pardon be now granted to the said John Ehrenzeller.

ARTHUR H. JAMES.  
Lieutenant Governor.

ROBERT R. LEWIS.  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD.  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 3, 4, 5, 6, 7, 8, 9, 72, 73, 100, 101 and 102 September Sessions, 1924, in the Courts of Oyer and Terminer and Quarter Sessions of the Peace, in and for the County of Allegheny, Thomas O'Brien pleaded guilty to indictments charging him with robbery and receiving stolen goods and larceny and receiving stolen goods, and on September 11, 1924 was sentenced in the aggregate to pay a fine of sixty-eight and three quarter cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than eleven and one-half years nor more than twenty-three years.

The applicant is twenty-four years of age, a native-born citizen of the United States, unmarried, and his occupation is that of chauffeur. At the time of his arrest he was so employed by the Pittsburgh Transportation Company, operators of the Green Cab, in Pittsburgh.

On or about June 1, 1924, at one thirty o'clock A. M., Louis Eskra, Jacob Finegold, alias Jack Green, George Wiggins, Harry Smith, Bobby Barnhard, Clarence Hosek and the applicant met at Hosek's home, located on the North Side of Pittsburgh. They drove over the Sixth Street Bridge to a point within about twenty feet of the Pittsburgh Natatorium, located on Duquesne Way, Pittsburgh. Six of the gang alighted from the car while Wiggins remained in it. Barnhard left the gang as the car approached the Natatorium and the other five men went into the Natatorium. Eskra held up the cashier, Smith and the applicant entered the cashier's cage, while Finegold, alias Jack Green, and Hosek covered the elevator operator. The night clerk in charge was compelled to turn over about eighteen hundred dollars in cash and thirty-one watches valued at twenty-five dollars each, and all other articles found on deposit belonging to the patrons. The men drove back to Hosek's residence where the loot was divided. Finegold, alias Jack Green, Hosek and Barnhard were arrested in Pittsburgh, Eskra, Wiggins and the applicant, in Cleveland, several days after the robbery. The applicant made the acquaintance of Hosek some time prior to 1924. The plans for the holdup were made in Hosek's dental office. At the trial all of the men pleaded guilty and were duly sentenced. Hosek, the ring-leader of the gang, was pardoned by this Board in March, 1928, Smith, an associate, in April, 1929, and Finegold, alias Jack Green, was this day pardoned by the Board.

The applicant has now served five years of his term of imprisonment. His prior record was good with a single exception. In 1923 he pleaded guilty to the larceny of a car and was sentenced to the Allegheny County Workhouse and liberated at the expiration of six months. He is now twenty-four years of age. He was only nineteen years of age when he participated in these crimes.

In consideration of all the circumstances of this case; the youth of the applicant when the crimes were committed; because of his prior good record, with a single exception; because of the term of imprisonment already served, and in consideration of the further fact that Hosek, the ring-leader of the gang, in whose office the holdup was planned, and from whose home the robbers went forth to plunder the Natatorium, and Smith and Finegold, alias Jack Green, two accomplices, have already been pardoned by this Board, we have concluded that the applicant has been sufficiently punished and that if now released will prove himself a peaceable and law-abiding citizen.

## APPENDIX TO THE

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Thomas O'Brien.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 6, February Sessions, 1910, in the Court of Oyer and Terminer in and for the County of Erie, Eugene Tallman was convicted of murder in the second degree, and on October 10, 1910, was sentenced by the court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than five years nor more than twenty years.

The applicant is a native-born citizen of the United States, fifty-three years of age, and at the time of his arrest, he was by occupation a farmer, working upon the farm belonging to his mother. He is unmarried. His proper place of residence is Francis, Erie County.

The applicant has been afflicted from birth with ephasia of the nose and right side of the face. On December 1, 1909, a farmer by the name of John May, a man whom the applicant had never seen and did not know, was shot and killed near Girard, Erie County. The applicant was arrested, tried, convicted and sentenced for the said killing, entirely upon circumstantial evidence and largely by reason of the fact that he had been before convicted of the crime of larceny. The applicant denies he committed the murder and avers that he has no knowledge of the crime other than the testimony given by the widow of the murdered man who distinctly refused upon the stand to identify him as the murderer even though she testified that the man who committed the murder stood within four or five feet of her. It occurred on a bright moonlight night, and on account of the facial deformity of the applicant it would seem to have been an easy matter to identify him at such a short distance.

The applicant, after serving five years, the minimum term of imprisonment, was released on parole, October, 1915, and one year later was arrested for breaking and entering and larceny, and on February 19, 1917, was sentenced to pay a fine, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than five years and one month, nor more than ten years, to be computed from the expiration of the sentence for murder imposed in October, 1910, as above stated.

There was filed with the Board, a letter from the Resident Physician of the Penitentiary. He states that the applicant has had two operations performed on his nose and face for a deformity which he has had since birth, the operations having been performed not only to improve his physical appearance, but also to improve his physical condition. He further states that the results up to the time have been fairly good and that another operation in the future would further improve his condition and ends by saying: "It would be well for him to be under the observation and treatment of a competent physician."

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; the physical condition of the applicant requiring special treatment; and the long term of imprisonment already served, we have concluded that he has been sufficiently punished and that if liberated, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice

and in open session," recommend that a pardon be now granted to the said Eugene Tallman.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 33, February Sessions, 1917, in the Court of Quarter Sessions of the Peace in and for the County of Erie, Eugene Tallman, pleaded nolo contendere to the first and second counts of an indictment charging him with breaking and entering a building in the night time with intent to commit a felony and larceny, and on February 19, 1917, was sentenced by the court to pay a fine of twenty-five dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than five years, one month, nor more than ten years; to be computed from the expiration of the sentence imposed October 10, 1910, at No. 6 February Sessions, 1910, on the charge of murder in the second degree.

The applicant is fifty-three years of age, a native-born citizen of the United States, unmarried, and at the time of his arrest, his occupation was that of farming. He resides with his mother and assisted her with the work of the farm at Francis, Pennsylvania.

During the summer or fall of 1916, the applicant who had been serving a term in the Western Penitentiary on a charge of murder in the second degree, was released on parole. He came to his home in Erie County and became friendly with a man by the name of George Riley. In October, 1916, the two men were on their way to Erie with a load of poultry. Complaints had been made by various persons who had lost poultry and other property. The two men were arrested by an officer. Some of the poultry they had in their wagon was identified by certain persons as their property. They also had in their possession a horse collar and one set of hames, which were identified by Benjamin F. Chambers as having been taken from his barn. An information was made against them by the said Chambers and they were indicted. Riley pleaded guilty while the applicant pleaded nolo contendere. The applicant claims that he did not steal the property mentioned in the indictment, but knew that other property consisting of poultry which was in the possession of Riley and himself, had been stolen. The applicant desired to raise a certain sum of money to pay a detective to ascertain the facts surrounding his former trial for murder and Riley said that if the applicant would help him dispose of the poultry, he (Riley) would help the applicant raise the money to pay the detective.

The applicant has now served continuously in the Penitentiary since February 19, 1917, a period of twelve years and seven months, including the remainder of the sentence for murder by reason of the parole violation. The value of the property taken from Chambers, as laid in the indictment, was only three dollars.

In consideration of all the circumstances of this case; the trifling value of the property as laid in the indictment, and the long term of imprisonment already served, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice

and in open session," recommend that a pardon be now granted to the said Eugene Tallman.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 3, 4, 5, 6, 7, 8, 9, 72 and 101, September Sessions, 1924, in the Courts of Oyer and Terminer and Quarter Sessions of the Peace, in and for the County of Allegheny, Jacob Finegold, alias Jack Green, pleaded guilty to nine indictments charging him with robbery and receiving stolen goods, entering a building with intent to commit a felony and larceny, and on September 9, 1924, was sentenced in the aggregate to pay a fine of fifty-six and one-quarter cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than eleven years nor more than twenty-two years.

The applicant is twenty-seven years of age, a native-born American citizen, unmarried, a salesman by occupation and at the time of his arrest was employed as manager of the Pittsburgh Curb Market, a fruit store, located at the corner of Euclid and Penn Avenues, Pittsburgh, Pa. At that time he resided in the City of Pittsburgh with his father, aged fifty-four, who is afflicted with an incurable disease, and his mother.

On or about June 1, 1924, shortly after midnight, seven men, including the applicant, met at the home of Clarence Hosek, located on the North Side of the City of Pittsburgh. The seven men then drove from Hosek's home through the North Side, over the Sixth Street Bridge, to the Pittsburgh Natatorium, located on Duquesne Way, Pittsburgh. Barnhard, one of the number, left the crowd when they arrived at the Natatorium. Five of the men went into the Natatorium, while Wiggins, one of the crowd, remained in the car. Eskra, one of the number, held up the cashier. Smith and O'Brien then entered the cashier's cage while Hosek and the applicant covered the elevator operator. The night clerk in charge was compelled to turn over to Eskra about eighteen hundred dollars in cash and thirty-one watches valued at about twenty-five dollars each, and all of the articles contained in the deposit wallets of the patrons. The applicant, with Hosek, who held the elevator operator, when the rest of the men had gone out of the building, followed them and entered the machine. They then drove to the home of Hosek where they divided the loot. Shortly thereafter all of the men were apprehended. The applicant had made the acquaintance of Hosek some time prior to 1924, and the plans for the Natatorium holdup were made in Hosek's dental office.

The six men all pleaded guilty and were duly sentenced. Hosek, the ring-leader of the gang, from whose home they went to the place of robbery, was pardoned by this Board in March, 1928. Harry Smith, another member of the gang, was pardoned in April, 1929, and Thomas O'Brien, another gangster, was this day pardoned by the Board.

The applicant has now served five years of his term of imprisonment. His prior record is good with a single exception; he pleaded guilty to the larceny of a car and was paroled for one year. His prison record is excellent, as shown by a letter from the Warden.

The trial District Attorney has filed with the Board a letter in which he states that inasmuch as Clarence Hosek has been pardoned, "it would seem only fair that Finegold (the applicant) be treated in like manner." The applicant's father, fifty-four years of age, is an incurable invalid, and his parents require his support.

In consideration of all the circumstances of this case, the prior good record of the applicant, with a single exception, the term of imprisonment already served, because his aged parents require his support, because of the statement of the trial District Attorney, and in consideration of the fact that the ring-leader of the gang and two of the applicant's accomplices have already been pardoned, we conclude that the applicant has been sufficiently punished and if now released will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Jacob Finegold, alias Jack Green.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 200 February Sessions, 1915, in the Court of Oyer and Terminer, in and for the County of Luzerne, Joseph Kamecz was convicted of murder in the second degree, and on April 29, 1915, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than nineteen years, eleven months and twenty-nine days nor more than twenty years.

The applicant is a native of Russian Poland, and at the time of his conviction he owed allegiance to the Czar of Russia. He is fifty years old and at the time of his arrest was employed as a blacksmith by the Sheldon Axle and Spring Company of Wilkes-Barre, and resided in that city.

The applicant and his wife had been married about six months. At the time of their marriage she was about eighteen years old and he was twice her age. Their married life proved unhappy and they frequently quarreled. On November 16, 1914, the day of the tragedy, the wife had expressed her intention to leave the applicant and had requested him to purchase beer that they might have a parting drink together. His refusal led to a quarrel in which she was evidently the aggressor. In the struggle which ensued the applicant knocked her to the floor and while she was in this position picked up an axe which was close at hand in the room in which they were, and struck her across the neck, almost separating her head from her body.

The applicant has now served fourteen years and five months of his term of imprisonment; he was never before charged with or convicted of crime; his prison record is excellent, as shown by a letter from the Chief Parole Officer of the Penitentiary.

There was filed with the Board a recommendation for clemency signed by the ten surviving members of the jury which convicted him. The trial District Attorney and his two assistants, who prosecuted the case, filed a joint letter with the Board in which they recommend a pardon for a crime which they certify, "seemed to have been the result of a sudden outburst of passion, brought about by his wife's attack on him." The present District Attorney has also filed a letter with the Board which evinces a favorable attitude; the trial Judge is non-committal.

In consideration of all the circumstances of this case; the prior good record of the applicant; his long term of imprisonment; because of his excellent prison record and the recommendations of the surviving members of the jury which convicted him, the trial District Attorney and his two assistants and the present District Attorney; we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and

## APPENDIX TO THE

in open session," recommend that a pardon be granted to the said Joseph Kamecz.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 17, May Session, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Clarion, John Greece was convicted of aggravated assault and battery and felonious assault and battery, and on September 8, 1928, was sentenced to pay a fine of one dollar, costs, and to undergo imprisonment in the Clarion County jail, for a period of two years.

The applicant is of Italian descent, a naturalized citizen of the United States, thirty-one years of age, a coal miner by occupation, and at the time of his arrest resided in Rimersburg, Clarion County, with his wife and five children.

On April 19, 1928, the applicant was visiting at the home of his father-in-law, Joseph Montana, in Rimersburg. At that time the applicant's family was staying with his father-in-law and the applicant was working in a coal mine near Pittston. Joseph Salvo, a brother-in-law, appeared at the home and words passed between him and the applicant. The next morning, about seven o'clock, the applicant appeared at the store of Salvo, on the Main Street of Rimersburg, and while Salvo was washing his hands the applicant spoke to him and words passed, whereupon the men began to fight. They fought from the rear end of the store, up along the counter to the center of the store, where they were found. Salvo was on his back and the applicant on top of him. Salvo had a revolver in his hand. The applicant had been shot twice, through the face and through the chest. The Commonwealth maintained that the applicant came into the store, made insulting remarks to Salvo, leaped upon him, biting and choking him, and that Salvo, during the struggle, secured the revolver and shot the applicant. The applicant maintained that the night before he had been invited to the store by Salvo to talk over some matters, and that during the talk Salvo, before any blows were struck, seized the revolver and before the applicant in the face, whereupon the applicant lunged towards him, seized him, was shot through the chest and the fight continued until the applicant finally got Salvo down where he could not shoot any more.

There had been bad blood between them for several years and Salvo had attempted to shoot the applicant two years prior to the present offense.

The applicant has now served one year of his term of imprisonment. His prison record is excellent, as shown by a letter from the Sheriff of the county.

Pardon is strongly recommended in this case. The trial Judge has filed two letters with the Board strongly recommending clemency; the first one is concurred in by the Clerk of the Courts, the County Commissioners, the Sheriff and the Register and Recorder. Justice of the Peace Sloan and former Sheriff Corbin also recommend clemency. The District Attorney has filed with the Board a statement of the facts of this case, in which he refers to the bad feeling existing between the two men, who were brothers-in-law. He neither recommends nor objects to pardon and concludes by saying, "A pardon may be all right providing that these parties can be kept apart."

In consideration of all the circumstances of this case; the term of imprisonment already served; and because of the strong recommendations of the trial Judge and other county officials who know the applicant and are acquainted with the circumstances surrounding the case, we have concluded that

the applicant has been sufficiently punished and if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said John Greece.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor:

Sir: At Nos. 1033 and 1034, October Sessions, 1921, in the Court of Oyer and Terminer in and for the County of Philadelphia, Samuel Fleming Andrews, alias Samuel Anderson, alias Samuel Johnson, pleaded guilty to indictments charging him with robbery and entering with intent to steal, and on November 1, 1921, was sentenced in the aggregate to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than nineteen years and ten months nor more than twenty years.

The applicant is a native-born citizen of the United States, forty-five years of age, colored, and is by occupation a barber. He is unmarried.

The applicant as before stated is a barber. Several times he established a business of his own, but the ventures proved unsuccessful. In 1913, he formed a partnership with another negro and went into business in Brooklyn, New York. After six months' experience, the applicant found himself without a partner and possessed of an enterprise with no assets and many liabilities. After paying all his creditors in full, the applicant applied himself diligently to his business and accumulated sufficient funds to purchase "The Cuban-American Barber Shop," at Brooklyn, New York. This was in 1920. In the beginning he prospered. In 1921 he took in other negroes as partners, but the business declined and the applicant was left to close out the business and pay the debts. He grew despondent. He became a journeyman barber and went from one job to another. One week before the commission of the present offense, he left Brooklyn and came to Philadelphia, his native city. About noon on November 29, 1921, he entered the store of Abraham Simon, 135 S. 13th Street, and engaged the attention of a salesman. When certain designated articles of jewelry had been placed on the counter before him, the applicant attempted to get away with them. The proprietor of the shop and his salesman rushed towards him and in the struggle, the applicant was severely wounded in the head. The police arrested him there, together with a co-defendant, sending the applicant to the hospital.

The applicant has now served seven years and ten months of his term of imprisonment. He was never before charged or convicted of crime. His prison record is excellent.

After entering the Penitentiary, he became a dispensary orderly and rose to the highest position of responsibility and trust, viz: that of Chief Assistant to the Pharmacist. For over three years, he has had sole charge of preparing and distributing the prescriptions of the doctor under the direction of the pharmacist, and his work has been such as to merit the unqualified approbation of his chief as well as of the Warden and Board of Trustees of this institution, as shown by letters on file with the Board.

There was filed with the Board, a letter from the prosecutor in the case in which he recommends clemency. The Board of Trustees of the Penitentiary have taken official action on the present application and by resolution of the Board, regularly passed, signed by the President and the members of the Board of Trustees, ask for clemency. There was also filed with the Board letters from the two resident physicians of the

Penitentiary and other persons in authority connected with the medical and drug departments of the institution.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the strong recommendations of the Board of Trustees, Resident Physicians and others in authority connected with the institution, we have concluded that the applicant has been sufficiently punished, and that if now liberated, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Samuel Fleming Andrews, alias Samuel Anderson, alias Samuel Johnson.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor:

Sir: At No. 576, February Sessions, 1929, in the Court of Oyer and Terminer in and for the County of Luzerne, Carmel Maranca, pleaded guilty to an indictment charging him with statutory rape, and on March 14, 1929, was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than two and one-half years, nor more than five years.

The applicant is a native of the Kingdom of Italy, and owes allegiance thereto. He is twenty-five years of age, a mine laborer by occupation and at the time of his arrest, was employed as such by the Pennsylvania Coal Company in Jenkins Township, Luzerne County. He resided in Pittston with his aged widowed mother, who is in ill health.

The crime charged was said to have been committed in Plains Township, Luzerne County, sometime after midnight on March 9, 1929, on the person of Theresa Molinaro, who lacked nine weeks of being sixteen years of age. Subsequent to the imposition of the sentence, the trial Judge on application made, permitted counsel for the applicant to recall for cross-examination, Theresa Molinaro, when she admitted that she had been confined by her father in the Home of the Good Shepherd, at Reading, from April, 1928, to October, 1928, for running away from home. She admitted that she began the practice of prostitution about a year and a half prior to the commission of the present offense; that one month prior thereto, she took up her residence in a bawdy house in Pittston, and that at the time of the alleged commission of the crime of statutory rape upon her by the applicant, she consented to the act. It further appeared that when the applicant entered his plea of guilty, neither the District Attorney or any of his assistants were aware of the bad repute of Theresa Molinaro. It was further shown that the bawdy house in which she was an inmate was raided, subsequent to the commission of the present offense, and that the proprietor is now serving a term of imprisonment in the Eastern Penitentiary for maintaining a bawdy house.

The above facts are taken from the Agreed Statement of Facts prepared by the District Attorney and counsel for the applicant.

The applicant has now served six months of his term of imprisonment. He was never before charged with nor convicted of crime. The Chief of Police of Pittston certifies to his prior good record by letter filed with the Board.

A number of letters were filed with the Board recommending clemency and a petition of citizens to the same effect.

Among others, the Vice-President of the Dime Bank and Trust Company of Pittston, recommends pardon.

In consideration of all the circumstances of this case; the applicant's prior good record; the term of imprisonment already served; because of the recommendations and petition of citizens of Pittston, and vicinity who are personally acquainted with the applicant, we have concluded that he has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Carmel Maranca.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons

Harrisburg, September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 577 February Sessions 1929, in the Court of Oyer and Terminer in and for the County of Luzerne, Paul Cumbo pleaded guilty to an indictment charging him with statutory rape, and on March 14, 1929, was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than two and one-half years, nor more than five years.

The applicant is of Italian descent, but a citizen of the United States, twenty-one years of age, a mine laborer by occupation, and at the time of his arrest, was employed as such by the Pennsylvania Coal Company in Jenkins Township, Luzerne County. He resided with his parents in the City of Pittston.

The crime was said to have been committed in Plains Township, Luzerne County, sometime after midnight on March 9, 1929, on the person of Theresa Molinaro, who lacked nine weeks of being sixteen years of age. Subsequent to the imposition of the sentence, the trial Judge on application made, permitted counsel for the applicant to recall for cross-examination, Theresa Molinaro, when she admitted that she had been confined by her father in the Home of the Good Shepherd, at Reading, from April, 1928, to October, 1928, for running away from home. She admitted that she began the practice of prostitution about a year and a half prior to the commission of the present offense; that one month prior thereto she took up her residence in a bawdy house in Pittston, and that at the time of the alleged commission of the crime of statutory rape upon her by the applicant, she consented to the act. It further appeared, that when the applicant entered his plea of guilty, neither the District Attorney nor any of his assistants were aware of the bad repute of Theresa Molinaro. It was further shown that the bawdy house in which she was an inmate was raided, subsequent to the commission of the present offense, and that the proprietor is now serving a term of imprisonment in the Eastern Penitentiary for maintaining a bawdy house.

The above facts are taken from the Agreed Statement of Facts prepared by the District Attorney and counsel for the applicant.

The applicant has now served six months of his term of imprisonment. He was never before charged with nor convicted of crime. The Chief of Police of Pittston certifies to his prior good record by letter filed with the Board. The applicant was only twenty-one years of age when this alleged crime was committed.

A number of letters were filed with the Board recommending clemency and a petition of citizens to the same effect. Among others, the President of the First National Bank of Pittston, and the Vice-President of the Dime Bank and Trust Company of Pittston, recommend pardon.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because of the recommendations and petition of citizens of Pittston and vicinity who are personally acquainted with the applicant, we have concluded that he has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Paul Cimbo.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 50, February Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Clearfield, Thomas Reed being without the advice of counsel, pleaded guilty to an indictment charging him with breaking and entering a dwelling in the night time with intent to steal, and on February 16, 1928, was sentenced by the Court to pay a fine of two hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two years, nor more than four years.

The applicant was twenty-three years of age, a native-born citizen of the United States. At the time of his arrest he was employed as a coal miner by the Northwestern Mining and Exchange Company and resided in the City of DuBois, Clearfield County. He has a wife and two small children, aged two and three years, respectively.

The applicant was charged with entering the dwelling house of D. J. Heath on December 23, 1927, at about 1.30 o'clock in the morning with intent to commit robbery.

At the time he was out of work on account of slack work in the mines where he was employed. On the evening of the day in question he became intoxicated to such an extent that he could not remember what occurred or what happened from about 11.30 o'clock that night until he awoke in the DuBois city jail the following morning. He was informed by police officers and the prosecutor, Heath, that some time after midnight he while in an extremely drunken condition jumped or fell through the front window of the home of the said Heath, breaking the glass and making a loud noise by his fall to the floor in the interior of the house. He was further informed that he had walked around the interior of the house until the owner awakened and came down stairs and that the applicant then ran out of the house and was found several blocks distant lying on the ground in a condition of extreme intoxication. It appeared that the applicant took nothing while in the house, nor so far as anyone known, did he attempt to take anything. About an hour previous to the occurrence in the Heath house, the applicant wandered into the dwelling house of Thomas Delaney, on a nearby street, and in the house of Delaney stated he was searching for his father-in-law's house and was directed elsewhere by the said Delaney.

The applicant has now served one year and six months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is good as shown by a letter from the Deputy Warden of the Penitentiary, filed with the Board.

There was filed with the Board a letter from Don J. Heath the prosecutor in the case, in which he asks pardon. There was also filed with the Board a letter from the general superintendent of the Northwestern Mining and Exchange Company, the former employer, in which he certifies that the

applicant was in his employ for a number of years, and was a good, reliable workman. He recommends clemency and offers to furnish the applicant employment if released. The Chief of Police of DuBois also filed with the Board a letter in which he refers to the applicant's intoxication and states his opinion that he was guilty of nothing greater than drunk and disorderly conduct. There was also filed with the Board a numerously-signed petition of citizens of DuBois, headed by the Mayor and Chief of Police, signed by the cashier of the DuBois National Bank and other prominent citizens.

In consideration of all the circumstances of this case; the comparative youth of the applicant; the need which his family has of support; because employment has been offered him if released; the prior good record of the applicant; the term of imprisonment already served; because of the recommendation of the prosecutor in the case; the Mayor of the city, Chief of Police and other prominent citizens of DuBois, we have concluded that the applicant has been sufficiently punished and if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Thomas Reed.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 25, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 84, January Term, 1927, in the Court of Oyer and Terminer, in and for the County of Chester, Antonio Mento pleaded guilty to an indictment charging him with voluntary manslaughter, and on February 2, 1927, was sentenced by the court to pay a fine of one thousand dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years, nor more than ten years.

The applicant is fifty-seven years of age, and a subject to the King of Italy. He is a paper maker by trade and at the time of his arrest, he was so employed by the Downingtown Paper Company. He resided in that borough with his wife and family.

The applicant was charged with having killed one, Elmer Clark, a colored man, on the night of November 15, 1926, under the following circumstances:

Clark came to the home of the applicant about 2:00 o'clock in the morning and in an effort to get into the house to obtain strong drink, aroused the applicant first by calling out to him and then by throwing a stone or stones through a second story window. The applicant with his son-in-law, Secundo Gnaro, who resided with him, sought to drive him away from the house and upon his refusal to go, the applicant obtained a gun and as the deceased who was abusive and threatening in his language, stood across the street about to throw a stone, fired at him with a shot-gun, one or more shots taking effect in the decedent's lungs, and he died as a result thereof. The applicant frankly admitted the occurrence, and on the advice of counsel, pleaded guilty to voluntary manslaughter.

The applicant has now served two years and seven months of his term of imprisonment. He was never before charged with or convicted of crime. He has a wife and three minor children, who reside with him, dependent upon him for support.

There was filed with the Board a numerously-signed petition of citizens of Downingtown, asking clemency. The petition is headed by the Chief Burgess, Chief of Police, two police officers, and two constables.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; and in further consideration of the petition of citizens of Downingtown, headed by the Chief Burgess and police officers of that borough, we have concluded that the applicant has been sufficiently punished and if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Antonio Mento.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, January Term, 1929, in the Court of Oyer and Terminer in and for the County of Bedford, Harvey Feathers pleaded guilty to an indictment charging him with murder, the degree of which was adjudged to be murder in the first degree, and on April 18, 1929, was sentenced by the Court to be electrocuted.

The applicant was seventeen years of age just one week ago. He was born in the United States and has no occupation or profession. At the time of his arrest he resided with his father (a farmer) in Greenfield Township, Blair County. His mother died when he was twelve or thirteen years of age. There were twelve children in the family, of whom five are deaf mutes. The applicant is the youngest child. He went to school very little and can scarcely read or write. After the death of his mother he was permitted to roam as he pleased and received no moral training.

On January 10, 1929, at about 5:15 in the evening, Huston B. Croyle returned from his employment at the Sproul Brick Plant, Sproul, Blair County, and drove his roadster into his barn which he used as a garage. As he got out of the car he was shot down from above by two shots from a shotgun, one shot going through the body and heart and the other shot literally blowing out his brains. The blood-stained shot-gun was found in a manger covered with hay. Tracks were discovered leading from a broken window and a pouch of tobacco was found along these tracks. With these clues, the State Police investigated the case and arrested and obtained confessions from the two brothers, Willis Feathers and the applicant, Willis Feathers is a deaf mute. The applicant did the shooting and Willis waited nearby. The crime had been deliberately planned by the two brothers. Their purpose was to kill Croyle and then rob him. After the shooting the applicant, without stopping to secure the money, fled to his home and later went to Claysburg and did not return to his home until 10:00 o'clock that night. When the applicant was arraigned he entered a plea of guilty, the degree of which was fixed by the court at first degree murder. Willis Feathers, the brother, stood trial and was convicted by a jury with penalty fixed at life imprisonment.

The applicant was never before charged with or convicted of crime. There was filed with the Board a letter from one trial Judge, in which he states that there seems to be a mental weakness in the Feathers family, and that, "in view of his age and his environment and his family history, I feel satisfied that justice will be done by commuting his (the applicant's) sentence of death to a sentence of life imprisonment." Associate Judge McKee also filed with the Board a letter in which he makes a similar recommendation because of the lack of moral or religious training afforded the applicant, because of his environment and because of his defective mentality. Taylor L. Dively, a school teacher, whose school the applicant attended, has filed with the Board a letter in which

he states his observation of the applicant's intelligence. He states that the latter did not advance beyond the fourth grade, and that he, on account of his undeveloped mind, did not realize the serious nature of the crime which he committed. John M. Reynolds, former Lieutenant Governor, has also filed with the Board a letter in which he also asks for a commutation of the sentence to life imprisonment, on account of the deficient mentality of the applicant. Other letters were filed recommending clemency and also an extensively-signed petition of citizens to the same effect.

Doctor William C. Sandy, Director of the Bureau of Mental Health in the State Department of Welfare, at the request of the Board, made a mental examination of the applicant. In his report of the result of the examination he states, "from the examination as above recorded, no evidence of mental disease (insanity) was found. While he is sufficiently intelligent to have some appreciation of right and wrong, this however, is decidedly limited. There is every evidence of inferior intelligence confirmed by a formal psychological test, the findings of which place him in the moron grade of mental deficiency (feeble-mindedness) he cannot therefore be regarded as fully responsible." Doctor Sandy recommends that the sentence of death be commuted to life imprisonment and suggests that he should be committed to the New Cumberland Valley Institution for Defective Delinquents, when completed.

In consideration of all the circumstances of this case; the extreme youth of the applicant; his mental and moral deficiency; in consideration of his family history and environment; because of the recommendations of the trial Judge, Associate Judge McKee; the recommendations of former Lieutenant Governor Reynolds, and other citizens; because the brother and co-defendant of the applicant has been sentenced to life imprisonment, we have concluded that the sentence of death heretofore imposed on the applicant should be commuted to life imprisonment.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the sentence of death heretofore imposed on the said Harvey Feathers be commuted to life imprisonment.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 239, 209, 210, 211 and 212, September Sessions, 1920, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Charles M. Toomey pleaded guilty to five indictments charging him with embezzlement by an employee and officer of a Trust Company, and on October 23, 1920, was sentenced in the aggregate to pay a fine of five thousand dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than ten years or more than thirty years.

The applicant is fifty-eight years of age, a native-born citizen of the United States, and by occupation a clerk. At the time of his arrest he was employed as an assistant secretary of the Fidelity Trust Company of Philadelphia, and resided in that city with his wife and an invalid sister, both of whom are dependent upon him for support.

The applicant's crimes consisted of a series of embezzlements from the Fidelity Trust Company of Philadelphia, to the amount of three hundred and thirty thousand dollars, which he accomplished by means of forgery. These pecuniations covered a period extending from June 19, 1916, to August 11, 1920, and comprised some thirty-five items. The indictments were confined to cover only five of the larger thefts.

In the exercise of his authority as assistant secretary, the applicant drew certain sums from the Trust Department,

purporting to be payments that he was making to Clarence Sinnott, one of the heirs of the Joseph F. Sinnott estate. He deposited these amounts in the Banking Department of the Trust Company, and furnished that Department with a signature card purporting to be signed by the beneficiary, who was living outside of the State. The signature on the card was a forgery, having been written by the applicant himself. After drawing the money from the Trust account on checks to the order of the beneficiary, the applicant deposited them in the account mentioned and then drew checks on that account to the order of the beneficiary, forging the latter's signature and endorsement. Thus the checks were drawn to the order of the beneficiary, apparently signed by the beneficiary, apparently endorsed by him, and were presented to the Banking Department of the Trust Company to be drawn from the beneficiary's banking account. The checks when presented to the Paying Teller were always paid in cash to the applicant, who was known to the teller as the officer attending to the details of the estate and as being on intimate terms with the members of the Sinnott family.

Through excessive drinking in saloons, the applicant became associated with crooked gamblers, who learned of his connection with a banking institution and thus began his downfall. He was the weak victim of unscrupulous men and the entire amount of the funds embezzled by him was dissipated in a wild orgy of horse race gambling. During his vacation in August, 1920, the shortage was discovered through Clarence Sinnott, calling upon the Fidelity Trust Company for a payment on account of the legacy of twenty-five thousand dollars bequeathed to him under his father's will, and upon the applicant's return from his vacation he was placed under arrest, pleaded guilty, and received the sentence which he is now serving.

The applicant has now served nine years of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent, as shown by letters from the Warden of the Penitentiary and from the Warden of the York County Jail.

The applicant's health is seriously impaired, as shown by letters from two physicians, to wit, Doctor Bacon and Doctor Cohen, the physician at the York County Jail. The applicant's wife and sister are dependent on him for support and require assistance. George A. Ansley, a realtor, and John E. Kearney, a contracting builder, both of Philadelphia, responsible citizens, in letters filed with the Board, offer the applicant employment if released. Albert W. Johnson, the trial Judge, who is now Judge of the United States District Court, in a letter filed with the Board recommends pardon. Mayor Mackey, of Philadelphia, and Mrs. Sinnamon, Assistant Director of the Department of Public Welfare, in letters filed, also recommend clemency. John Sinnott, one of the executors of the looted Sinnott estate, also recommends pardon.

There was also filed with the Board affidavits by Walter G. Stilwell, Sergeant of the State Police, and Eugene Fry, former County Commissioner, which contain statements of fact in connection with the applicant which would justify clemency. Major Adams, Superintendent of the State Police, President Judge Niles and Judge Ross, of York, and District Attorney Hermann, in letters filed with the Board, adduce strong reasons why the applicant should receive clemency. A representative of the District Attorney's office present at the oral hearing, while not recommending pardon, expressed sentiments favorable thereto.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because of the impaired health of the applicant; because of the need of his wife and aged sister for support; because employment has been offered him if released by several responsible persons; because of the recommendations of the trial Judge, Mayor Mackey of Philadelphia, Judges Niles and Ross, and District Attorney Hermann, of York; because of the letter of Major Adams and the affidavits of Walter Stilwell and former Commissioner Fry, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court shall be commuted to nine years' imprisonment, expiring on October 28, 1929.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Charles F. Toomey be commuted to nine years' imprisonment, expiring on October 28, 1929.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 112, 113, 114, 115 and 116, May Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, John Hanranhan, pleaded guilty to indictments charging him with burglary and entering to steal, and on May 10, 1928, was sentenced on Nos. 112, 114 and 115, in the aggregate, to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than ten years nor more than twenty years.

The applicant is now seventeen years of age and a native of the United States. At the time of his arrest he was learning the trade of plasterer in the employment of William Seka, Chestnut Hill, Philadelphia, and resided in Chestnut Hill with his parents, who have six children dependent upon them for support.

In February, 1927, at the time of the applicant's fifteenth birthday, he and another boy on two different occasions forced their way into a grocery store and moving picture theatre in Chestnut Hill. In the grocery store they stole forty dollars from the till, with which they purchased four rifles from Sears, Roebuck and Company. From the moving picture theatre they took less than one dollar from a drinking cup holder, and stole flash lights and tickets. They also burglarized another grocery store, but were unable to find anything they wanted. For these offenses, the applicant was sentenced to the Catholic Protectory by Judge Glass of the Juvenile Division of the Municipal Court of Philadelphia, on February 28, 1927, for three months, and served three months and three weeks. From this institution he was paroled in June, 1927. Immediately following his discharge from the Protectory, he engaged with John J. Cimorelli, a boy older than himself, in a series of burglaries in the neighborhood of Chestnut Hill, the burglaries being of the following character:

They stole some golf clubs and gloves from the residence of Chase Tatnall, after entering by removing a pane of glass from a window. They jimmied a window of John Bono's delicatessen store and took a small amount of change out of the till and some crackers. They forced open the hardware store of F. C. Goodwin Hardware Company, Germantown, and stole six knives, four watches and other small articles. They entered the open door of the garage of Stephen Noyes and stole a shotgun and pistol. They also entered the store of Charles Gable and took certain articles therefrom. These burglaries all took place in the summer and early fall of 1927. The applicant then forsook his evil courses and went to the parochial school in Chestnut Hill until his sixteenth birthday, when he started his apprenticeship with William Seka.

On May 3, 1928, Cimorelli and the applicant were arrested for the offenses above described and Cimorelli made a full confession.

The applicant has now served one year and five months of his term of imprisonment. All of the offenses enumerated above, were committed before he was sixteen years of age. His parents require his assistance in the support of the family.

A representative of the District Attorney's office present at the time of the oral hearing did not strongly oppose the application.

In consideration of all the circumstances of this case; the extreme youth of the applicant when these crimes were com-

mitted; the term of imprisonment already served; the need of his parents for assistance in supporting the family; in consideration of the further fact that the District Attorney did not strongly oppose the present application, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court, shall be commuted to one and one-half years' imprisonment, expiring November 10, 1929.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said John Hanranhan be commuted to one and one-half years' imprisonment, expiring on November 10, 1929.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1110, 1111, 1112, October Session, 1926, 1687, 1689, 1690, 1691, 1692, 1693, November Sessions, 1926, 146, 147, and 295, December Sessions, 1926, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, William L. Weinberg pleaded guilty to indictments charging him with forgery, embezzlement, fraudulent conversion, fraudulently making written instruments and publishing the same, and on December 17, 1926, he was sentenced, on Nos. 1689 and 1690 November Sessions 1926, in the aggregate to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than four years nor more than twelve years.

The applicant is a native-born citizen of the United States, thirty-three years of age. His occupation at the time of his arrest was that of a real estate and insurance broker. At that time he resided in the City of Philadelphia, with his wife, who since his imprisonment has obtained an absolute divorce from him on the ground that he was convicted on a criminal charge which carried with it an imprisonment of two years and upwards. He has one daughter six years of age.

The applicant in the conduct of his business, was connected with a number of building and loan associations. In order to assist home-buyers he would apply for mortgage loans to the associations and very often the funds were not available. In many instances he would arrange for temporary loans by David Levin to these building and loan associations in order to complete the settlement, with the expectation of repaying the said David Levin from the future collections of dues and interest in the association. In connection with these loans he would personally pay Levin both interest and bonus charges. He finally became financially involved as a consequence of trying to finance the purchasers of real estate, and in his desperation resorted to the forgery of notes, resolutions and certificates of the building and loan associations and others, and the conversion of moneys received through these forgeries and in the using and converting moneys which one, Mary E. Rich, gave him for the purpose of investing in mortgages; all of which resulted in his trial and conviction as above stated.

The applicant has now served two years and ten months of his term of imprisonment. Prior thereto, he served four months in the county prison while awaiting trial. He was never before charged with or convicted of crime.

There was filed with the Board a number of letters recommending clemency, including one from Mary E. Rich, a widow, who he defrauded of sixteen thousand dollars; a letter from her brother George H. Belzer who had a financial interest in his transactions with Mrs. Rich; a letter from David Levin

who was the chief prosecutor and from the officials of two of the building and loan associations which he defrauded. Michael Levin, one of the prosecutors, also recommend clemency. In his letter he states that the applicant's wife was responsible for his financial downfall; that she had very extravagant tastes which caused him to live far beyond his income, and that this was the cause of his ruin. Henry R. Roberts, President of the Commonwealth Title Company of Philadelphia, who was President of the People's Bank and Trust Company which met financial losses through the applicant's business transactions, has also filed with the Board a letter recommending clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because his minor child, six years of age, requires his support; because of the recommendation of the prosecutors in many of the cases, particularly, the recommendations of David Levin, Michael Levin and Mary E. Rich, who suffered the greatest losses through the applicant's financial transactions, we have concluded that he has been sufficiently punished, and that if now liberated, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said William L. Weinberg.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 62, June Sessions, 1928, in the Court of Oyer and Terminer, in and for the County of Mercer, Philip Restituto was convicted of murder in the second degree, and on June 27, 1928, was sentenced to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than two years nor more than four years.

The applicant is thirty-three years of age, a native of Italy, but a naturalized citizen of the United States. He is a boiler fireman by occupation and at the time of his arrest he was so employed by the American Sheet and Tin Plate Company at Farrell, Pennsylvania, and resided in that borough. He has a wife and child seven years of age in Italy.

On or about May 29, 1928, Paul Polenol of Jamestown, New York, telegraphed to Tony Nicastro and Sam Mareno, of Cleveland, Ohio, to meet him at the home of Angelo Nicastro in Sharon, Pennsylvania, to celebrate Decoration Day. Tony Nicastro, Mareno and Mrs. Mareno drove to Sharon on Decoration Day, where they were met by Mr. and Mrs. Polenol, at the home of Angelo Nicastro. They had dinner at seven o'clock, followed by dancing, the party breaking up about midnight. After midnight, Tony Nicastro, Polenol and Mareno drove to Farrell, a distance of about two miles, to call on a fellow Italian, whom they had known before. They decided to stop at the home of Sara Messina, whom Tony Nicastro had known in Italy as a child and with whom Polenol had cohabited prior to his marriage. They knocked on the door. Mrs. Messina, with whom the applicant was then cohabiting, admitted them. She warmed coffee for them, got them wine, and conversed with Tony Nicastro about the Old Country. A quarrel was begun by Polenol. Mrs. Messina called him "a louse." Polenol struck her and she struck back, whereupon he grabbed a meat cleaver hanging upon the wall and struck her with it on the head. Tony Nicastro, stood by but Sam Mareno intervened to stop the quarrel and to prevent injury to Mrs. Messina. The applicant, hearing his mistress screaming came down to the landing, witnessed the quarrel, reappeared with a shot gun and a forty-four calibre revolver.

From a distance of twelve feet at the foot of the stairs he shot Polenol in the head, scattering his brains about the kitchen. Mareno was trying to separate Polenol and Sara Messina, facing the applicant, when the latter emptied the second shell into Mareno. The latter fell writhing and lived until the next day. Tony Nicastro started to run through a side room to the front, was intercepted by the applicant and was shot twice, once in the leg and once in the hand. The police were called by a neighbor who heard the shooting and when they came they found the applicant and Tony Nicastro struggling for possession of the revolver. The meat cleaver used by Polenol had formerly belonged to Angelo Nicastro. When Nicastro retired from meat marketing, the applicant assisted him in moving his utensils, including the cleaver, to the Nicastro home, where it was kept on the wall and where Polenol found it when he fought with Sara Messina.

The applicant was first tried for the murder of Sara Messina and convicted of murder in the second degree. He was then tried for the murder of Polenol and acquitted. Polenol had a reputation as a blackhand, was a bad man and was using the meat cleaver on the head of Sara Messina at the time he was shot.

The applicant has now served approximately one year and four months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board letters from the Chief of Police of Farrell, the Sheriff of the County, Assemblyman Stevenson, the President of the Board of Poor Directors, Alderman Thomas, Deputy Clerk of the Quarter Sessions Court, Squire Frank, the County Treasurer and from the Editors of the Sharon Herald, the Record-Argus, of Greenville, Pennsylvania, and the News-Telegraph, Sharon, Pennsylvania, all recommending clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the recommendations of the Chief of Police of Farrell, the Sheriff, and other county and local officials, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Philip Restituto.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 30 and 31, December Sessions, 1926, in the Court of Quarter Sessions of the Peace, in and for the County of Cumberland, Earl Huber pleaded nolo contendere to two indictments charging him with sodomy and buggery and assault and battery, and on June 1, 1929, was sentenced in the aggregate to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the County jail for a period of not less than eight months nor more than four years.

The applicant is forty-two years of age, a native-born American citizen, unmarried, and for a period of twenty-one years had been employed as a clerk in the Bureau of Foods and Chemistry, Department of Agriculture, State of Pennsylvania. He resided with his parents in the Borough of Mechanicsburg.

On or about September 24, 1926, the applicant received a letter signed "The Hawk," in which he was directed to place one hundred dollars in a designated spot or the writer would reveal to the police the writer's improper conduct with four boys named in the letter. The applicant immediately sub-

mitted this letter to the police, who later apprehended and caused the conviction of the youth who wrote the letter. They brought the four boys mentioned in the letter to the office of the District Attorney, where they were questioned and admitted the improper relations with the applicant. At the direction of the District Attorney the Chief of Police of Mechanicsburg made two informations against the applicant, charging sodomy upon one Roy Dougherty and upon one Fred Higgins, two boys about sixteen years of age. The boys admitted improper conduct with the applicant, such as to constitute the crime of sodomy. The applicant has always denied his guilt.

The applicant has now served five months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a number of letters recommending clemency. James W. Kellogg, Director-in-Chief of the Bureau of Foods and Chemistry, in the Department of Agriculture, in which the applicant served twenty-one years, has filed with the Board a letter in which he strongly recommends pardon. The Chief Burgess of Mechanicsburg, the Chief of Police and prosecutor in the case, the Justice of the Peace, who acted as the committing magistrate, the parents of one of the boys who was debauched, the Postmaster of Mechanicsburg, the Treasurer of the First Bank and Trust Company, and others, have filed letters with the Board recommending pardon. Employment has been offered the applicant, if released, by the Dairy Products Laboratory, Pittsburgh.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because employment has been offered him if released; because of his impaired health, as shown by a letter from the president of the Carlisle Board of Health; because of the recommendations of Dr. Kellogg, his employer for many years, the Burgess of Mechanicsburg, and other prominent citizens, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Earl Huber.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 149, March Sessions, 1927, in the Court of Quarter Sessions of the Peace in and for the County of Cambria, W. W. Grove was convicted of an attempt to procure an abortion, and on September 5, 1927, was sentenced to pay a fine of five hundred dollars (\$500.00), costs, and to undergo imprisonment in the Cambria County jail for a period of not less than eighteen months nor more than three years.

The applicant is fifty-seven years of age, a native-born American citizen, and at the time of his arrest was engaged in the general practice of medicine in the City of Johnstown, Pennsylvania, where he resided with his wife and one son, who is also a physician.

The matter which lead to the arrest of the applicant was a declaration or statement made by Luna Kelly, a patient in the Memorial Hospital at Johnstown, to John M. Gross, a County Detective, and other officers, to the effect that the applicant and the husband of the said Luna Kelly, had, on September 6, 1926, administered certain medicines to her, and that thereafter the applicant, in the presence of her husband, had used an instrument upon her for the purpose of bringing

about an abortion. Luna Kelly having afterwards died, the applicant and Sam Kelly, the husband, were arrested and charged in separate indictments with:

(1) Administering drugs with intent to procure a miscarriage, resulting in death.

(2) The use of instruments with like intent, resulting in death.

Both the applicant and the husband of the deceased denied all knowledge of the offenses charged, and set up an alibi. The only direct testimony produced by the Commonwealth against either of them consisted of the above mentioned declaration of Luna Kelly, which was admitted as a dying declaration. At the trial the jury returned a verdict finding both men guilty of attempt to procure an abortion, and recommended them to the "extreme mercy of the Court."

The applicant has now served more than his minimum term of imprisonment, to wit, two years and one month, and is out on parole. The object of the present application is to make him eligible for reinstatement as a practitioner of medicine, his license having been taken away by reason of his conviction.

In 1910 the applicant was tried for a similar offense and convicted, but, after the Court had granted him a new trial, the case was nol-prossed, on motion of the District Attorney.

There were filed with the Board a large number of letters recommending clemency. The trial Judge, the Judge of the Orphans' Court, and two additional law Judges recommend clemency. The trial District Attorney, the Warden of the County Jail, Representatives Harkins and James, Judges Berkey of Somerset and Harvey of Clarion, Congressman Leech, Senator Baumer, Assemblyman Griffith, of Indiana County, two of the County Commissioners, the County Treasurer, County Controller, Sheriff, Clerk of the Courts, Register of Wills, Recorder of Deeds, and many physicians, lawyers and other business men recommend pardon.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the recommendations of the trial Judge and trial District Attorney, the two Additional Law Judges, the Judge of the Orphans' Court, County Officials, and others, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said W. W. Grove.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 3, December Term, 1924, in the Court of Oyer and Terminer, in and for the County of Somerset, Dory Hann, pleaded guilty to an indictment charging him with arson and on May 16, 1925, was sentenced to pay a fine of six cents, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than four years, nor more than eight years, to be computed from the expiration of the workhouse sentences imposed in No. 152, September Session, 1924, and No. 6, September Term, 1924.

The applicant is twenty-six years of age and a native-born citizen of the United States. He is a farmer and auto mechanic by occupation. At the time of his arrest he resided with an aunt who reared him from childhood.

On a certain evening in September, 1923, William Flook came to the applicant's home and asked the applicant to take

him for a ride. They then drove to Corgansville, Maryland, to visit two brothers by the name of Vogel. Flook asked Clarence and Clifford Vogel to accompany the applicant and himself to James R. Rinker's to obtain moonshine whisky. One-half gallon of liquor was purchased from Rinker and the entire quantity drunk until they were intoxicated. Rinker and Flook suggested that they go out and get some chickens and have a party. The applicant then drove near the Charles Krause farm. They stopped a short distance away from the farm house. They then walked to the Krause barn for the purpose of getting chickens. The applicant walked through the storm shed and sat down at the far end of the barn until Flook called to him to "come on." Flook and the two brothers had been in the barn. As Flook called "come on," the applicant looked up and saw lights flashing through the cracks of the barn. Flook and Clarence Vogel had chickens in a sack. Seeing the barn was afire, the applicant ran to his car, drove to Barreilville, Maryland, to Flook's home and left the chickens. The applicant returned home the following day.

He surrendered to the authorities on the charge of breaking and entering and larceny, and on September 17, 1924, was sentenced to serve two years in the workhouse. In May, 1925, the applicant was brought back for trial on the charge of arson. After hearing the testimony of those who accompanied him on the night of the fire, he pleaded guilty to the charge and was sentenced as before stated.

The applicant has now served three years of his term of imprisonment. Aside from his sentence to the workhouse, he was never before charged with or convicted of crime. The aunt with whom he resided at the time of his arrest, requires his support.

There was filed with the Board a letter from the trial District Attorney in which he recommends pardon. The trial Judge has also filed with the Board a letter in which, while not recommending clemency, he evinces a favorable attitude. Mr. and Mrs. Krause, the prosecutors in this case have filed with the Board a letter in which they recommend clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant, with a single exception; the term of imprisonment already served; because of the fact that the applicant's aunt who reared him requires his assistance in operating her farm; because of the recommendations of the prosecutors in this case, the trial District Attorney, and the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Dory Hann.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 34, August Sessions, 1926, in the Court of Quarter Sessions of the Peace in and for the County of York, Harry Brown, was convicted of assault and battery with intent to rob, aggravated assault and battery, assault and battery, and on January 21, 1927, was sentenced to pay a fine of One Hundred Dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than three years, nor more than six years.

The applicant is twenty-eight years of age, a native-born American citizen and a resident of West Manchester Township, York County. He is by occupation a silk weaver. At

the time of his arrest, he was unemployed for the reason that he had given up a position in Plainfield, New Jersey, in obedience to his doctor's orders, and was at his home in order to recoup his health. He is unmarried and resided with his parents.

On the evening of March 3, 1926, about eight o'clock, an attempt was made to rob the home of John Melhorn in West Manchester Township, York County, where a sale of farm goods had been held on the afternoon of that day. This attempt was made by two men, one with his hat pulled down over his ears and a mask on his face; the other with a handkerchief over his mouth and a cap pulled down over his eyes. When these men entered the Melhorn home, they demanded the money derived from the sale. They were refused the money and then left. One of the men lost his hat on leaving the premises, which hat was recovered by Melhorn and produced at the trial of the case. This hat bore the trade mark of a Plainfield, New Jersey, merchant. It was brought out at the trial that the applicant had worked at Plainfield, New Jersey, and his identity and conviction were based largely on the hat incident, although on behalf of the applicant, it was shown that he was at his home from five o'clock in the evening of March 3, 1926, until the morning of March 5, 1926.

The applicant at the trial was requested to try on the hat and proof was offered that he wears a hat size seven and one-half, whereas the size of the hat exhibited by Melhorn was six and three-quarters and the latter in no wise fitted the applicant. His conviction was based exclusively on the circumstantial evidence offered by the Commonwealth. On a motion for a new trial, one Samuel Weakley, who, after the trial, had confessed to being an accomplice of William Shoop (who was jointly indicted with the applicant), admitted that he was actually present at the Melhorn home with Shoop. At the hearing for a motion for a new trial, the applicant was shown to be an accessory before the fact instead of as a principal.

The applicant has now served approximately two years and nine months of his term of imprisonment. His father, more than seventy years old, is unable to perform physical labor, is tax collector of the Township and as such is forced to employ a man to attend to many of the duties devolving on him as tax collector. He requires the assistance of his son.

There was filed with the Board, letters from the trial Judge and trial District Attorney in which they strongly recommend pardon.

In consideration of the circumstances of this case; the doubt as to the guilt of the applicant; the need which his father has of his assistance; the term of imprisonment already served, and because of the strong recommendations of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished, and if now liberated, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Harry Brown.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 77, September Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Northumberland, Wally Dardzinski was convicted of larceny,

and on September 26, 1928, was sentenced to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Northumberland County jail for a period of not less than one and one-half years nor more than three years.

The applicant is a native of Poland and owes allegiance to the Republic of Poland. He is thirty-five years of age and came to the United States in January, 1928. He went directly to Johnson City in Northumberland County, Pennsylvania, where he boarded with a brother. He was a minor by occupation and employed by the Enterprise Colliery, Excelsior, Pennsylvania, at the time of his arrest. Shortly after his arrival his brother was killed, and the applicant remained as a boarder with the surviving widow. A few months after his brother's death, the widow suggested marriage with the applicant. The latter was not in accord with the suggestion and changed his boarding house. About the time he was arranging to leave the home of his brother's widow, she accused him of taking five hundred and fifty dollars from her pocketbook and had him arrested, charging larceny. At the trial he was convicted on the testimony of the widow and two of her female friends. The conviction brought about by testimony that the applicant knew to be untrue, and his confinement in prison, weighed upon his mind to such an extent that on the fourteenth day of February, 1929, the applicant was declared to be insane and removed to the State Hospital for the Insane at Danville. He was discharged from said hospital on April 26, 1929, and returned to the county jail. On May 22, 1929, the applicant presented a petition to the trial Judge, asking to be paroled, whereupon the Court ordered his release from prison and that he be paroled in the custody of the parole officer for the balance of his sentence.

On August 2, 1929, a warrant was issued against the applicant by the officials of the Department of Labor of the United States Government in proceeding for his deportation, he being an alien, who had been sentenced to imprisonment for a year or more because of conviction of a crime involving moral turpitude. The present application is made in order that the order of deportation may be rescinded, and the applicant permitted to remain in this Country.

The testimony in the case discloses no evidence that any portion of the money alleged to have been stolen was found in the possession of the applicant, nor was there any testimony tending to show that he had made use of any large or unusual sum of money at the time of the alleged larceny.

The applicant served less than eight months of his term of imprisonment when he was paroled by the Court. He was never before charged with or convicted of crime.

The trial Judge has led with the Board a letter in which he states that the applicant at the trial strenuously denied his guilt; that it was chiefly on the testimony of his sister-in-law that he was convicted; that this same woman was recently tried before him on the charge of taking One Hundred and Forty Dollars from an old man in Lewisburg with whom she was living; that he learned that she is an adventuress, a harlot and generally disreputable. He concludes: "I am now inclined to believe she lied about Wally Dardzinski (the applicant) and that he was wrongfully convicted and sentenced."

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; the term of imprisonment already served; his prior good record; because of the statement of the trial Judge and his recommendation of clemency, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Wally Dardzinski.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 23, October Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Lackawanna, Arthur Howey pleaded guilty to an indictment charging him with robbery, and on September 4, 1926, was sentenced to pay a fine of One Dollar, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than ten years nor more than twenty years.

The applicant is a native-born American citizen, thirty-three years of age and a professional baseball player by occupation. At the time of his arrest he resided in Dickson City, Lackawanna County, with his mother, seventy-six years of age, who is in feeble health and dependent on the applicant for support.

The applicant, after playing a game of baseball, went to a drinking place where he drank in company with Edward Hemphill and another friend. After imbibing freely, a fight ensued in which the applicant assaulted Hemphill and took from his person the sum of forty-seven dollars. Technically this crime was robbery, but the money was taken by the applicant while under the influence of drink.

The applicant has now served three years and one month of his term of imprisonment. He was never before charged with or convicted of crime. He is the only support of his mother, who is seventy-six years of age.

There was filed with the Board a letter from the trial District Attorney in which he states that while technically the crime committed was robbery, it appeared to him that the end of justice would have been met if the applicant had been convicted of assault and battery or of larceny from the person. He continues: "The defendant entered a plea of guilty to the charge of robbery and received a very severe sentence. I am inclined to think that the sentence was more than the actual facts warranted, and believe that the defendant has served a sufficient sentence in this case." He adds: "I am of the opinion that this is a proper case for clemency."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the fact that the applicant's aged mother requires his support; in consideration of the recommendation of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Arthur Howey.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 3, August Term, 1927, in the Court of Oyer and Terminer, in and for the County of Mifflin, Anthony Fisher was convicted of statutory rape and recommended to the mercy of the Court. On August 30, 1927, he was sentenced to pay a fine of one hundred dollars (\$100.00) costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than five years nor more than ten years.

The applicant is thirty-eight years of age, a native-born citizen of the United States, and a laborer by occupation. At

the time of his arrest, he was employed in the Viscose Silk Mill at Lewistown and resided there with his wife, two children and an adopted daughter.

Julia Fisher, the foster child, became sixteen years of age on December 30, 1927. On June 20, 1927, the applicant was arrested and charged with the offense of statutory rape committed on the person of his adopted daughter several weeks previously. The girl was placed in the Salvation Army Headquarters, then in the Carlisle Catholic Home, and her present whereabouts are unknown. The applicant was convicted largely on the testimony of Julia Fisher. At the trial she stated that she had been whipped by her foster father (the applicant) on several occasions for going out with fellows. She confessed to improper relations with one shaver. The applicant denied his guilt and alleged that the reason for the prosecution was the frequent whippings and scoldings that were administered to the girl by him for her misconduct with three or four young men, that the girl and her mother wanted one hundred dollars (\$100.00) to settle the case; that the girl had threatened, after being whipped, to get square with him; that she was incorrigible; that she was encouraged by her mother, and that the prosecution was "framed" by them.

The applicant has now served approximately two years and two months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent, as shown by a letter from the Warden of the Western Penitentiary.

The trial Judge and trial District Attorney have both filed letters with the Board recommending clemency. The latter states in his letter that he has "serious doubts" as to the guilt of the applicant. The Sheriff of the County, who is the prosecutor in the case, has also filed with the Board a letter recommending pardon.

In consideration of all the circumstances of the case; the doubt as to the guilt of the applicant, his prior good record; the term of imprisonment already served; because of the recommendations of the trial Judge, trial District Attorney, and the prosecutor in the case, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Anthony Fisher.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 30, December Term, 1922, in the Court of Oyer and Terminer, in and for the County of Northampton, John Kovacs pleaded guilty to the charge of voluntary manslaughter based on an indictment for murder, and on January 23, 1923, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than eight years nor more than twelve years.

The applicant is forty-five years of age, of Austrian nationality. He is unmarried. His occupation at the time of his arrest was that of laborer. He was so employed by the Alpha Portland Cement Company at Martins Creek, Northampton County.

The applicant lived in a small house in the village of Martins Creek. On January 22, 1923, at about seven P. M., Steve Tanko, somewhat under the influence of liquor, came to the house of the applicant. He got into the applicant's bed and at about eleven P. M., when requested to leave the bed and house so that the applicant could retire for the night, refused to do so.

An argument and quarrel ensued. The applicant forcibly ejected Tanko from the bed and from the house. In the scuffle, the applicant, fearing that Tanko was armed, grabbed a wooden pick handle and struck Tanko with it. He then put Tanko out of the house, bolted the door, went to bed and slept until morning. Tanko's body was found the following morning in the ice and snow and removed to the morgue. No weapon was used by the applicant except the pick handle. It is not clear whether Tanko's death resulted from hemorrhage, concussion of the brain, or exposure. At the worst the applicant used undue force to eject the intruder.

The applicant has now served six years and nine months of his term of imprisonment. He was never before charged with or convicted of crime. The Board of Prison Inspectors of Northampton County where the applicant is now confined, has filed with the Board a letter in which it recommends clemency. This request is joined in by the Warden of the Jail. The Register of Wills has also filed with the Board a letter recommending clemency. Employment has been offered the applicant if released by the proprietor of the White House Restaurant, at Easton.

In consideration of all the circumstances of this case; the doubt as to the exact cause of the death of the deceased; the prior good record of the applicant; the term of imprisonment already served, because employment has been offered the applicant if released; and because the Board of Prison Inspectors, the Warden of the Northampton County Jail and the Register of Wills recommend clemency, we have concluded that the applicant has been sufficiently punished, and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John Kovacs.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 87, September Sessions, 1926, in the Court of Oyer and Terminer in and for the County of Luzerne, Joseph Pigerilla, was convicted of rape, attempt to rape and assault and battery, and on November 2, 1926, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years, nor more than ten years.

George Petritus, Zigmund Churnetski and the applicant were jointly indicted and convicted of the above-named offenses and all received the same sentence.

The applicant is twenty-six years of age; a native-born citizen of the United States; a laborer by occupation. At the time of his arrest, he was employed by the Lehigh Valley Coal Company in the Borough of Warrior Run, Luzerne County. He is unmarried and resided with his mother, a widow in Ashley, Luzerne County.

On June 30, 1926, between the hours of nine and ten o'clock P. M., Mary Rushkowski, a married woman thirty-nine years of age, with six children, stood on the street corner. An automobile passed her containing four men, who were strangers to her, viz: the two men above mentioned, the applicant, and one, Joseph Bush, who is now a fugitive from justice. She hailed them, and asked them to drive her to Wilkes-Barre from whence she was going to Plains to meet her husband. She got into the automobile, which shortly thereafter turned off the street into Hanover Township. When they reached a stretch of woodland, she was forcibly taken from the automobile into the woods and assaulted and ravished by the four

men in turn. The time of the rape was approximately one-thirty A. M. She was then taken back into the automobile, and subsequently taken out the second time, ran away, went to a farm house, was taken by automobile to a garage in Ashley where the police were summoned as well as a doctor. Sixty dollars which she had on her person was missing, and articles of apparel were also missing. The four men were arrested the same night not far from the place of assault. They were traveling towards Ashley and away from the place of assault when arrested by the Ashley police, on the charge of speeding. Subsequently learning of the assault on Mary Rushkowski, the three men, including the applicant, were re-arrested. The one, Bush, became a fugitive from justice. The defense was an alibi accounting for the four men up to about eleven twenty P. M., on June 30, at which time they were in Sugar Notch and traveled from thence in their automobile to a pool room in Cary's Patch, in Hanover Township. They left the pool room about one o'clock A. M. and were shortly thereafter arrested for speeding.

The applicant has now served almost three years of his term of imprisonment. He was never before charged with or convicted of crime. The applicant's mother is unable to work and requires his support.

There was filed with the Board, three affidavits by Ignatz Gutowski and Harry D. Washick, both Justices of the Peace of Wilkes-Barre Township, and one by Patrick Langan, an Alderman of the city of Wilkes-Barre, all to the same effect. They aver that Mary Rushkowski's reputation in the community in which she resides is bad; that she is a trouble-maker, a common scold, and a habitual drunkard; that she appeared before them on several occasions as a defendant on criminal charges, including assault and battery, disorderly conduct and neglect of children. There was filed with the Board, a letter from the Chief of Police of Hanover Township, who was the prosecutor in the case, in which he recommends clemency. The Chief of Police and Burgess of Warrior Run and other citizens in letters filed with the Board also recommend pardon. A foreman of the Lehigh Valley Coal Company, a former employer, recommends clemency and offers employment to the applicant if released.

George Petritus and Zigmund Churnetski, co-defendants with the applicant have this day been recommended for pardon by the Board. Bush, the fourth defendant is a fugitive from justice.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the need which his mother has of support; because of the fact that his two co-defendants have been recommended for pardon; because of the fact that employment has been offered to him if released; because of the bad character and reputation of Mary Rushkowski, the victim of the alleged rape; because of the recommendations of the prosecutor of the case and the Chief of Police and Burgess of Warrior Run, we have concluded that the applicant has been sufficiently punished, and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Joseph Pigerilla.

ARTHUR H. JAMES,  
Lieutenant Governor.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 87, September Sessions, 1926, in the Court of Oyer and Terminer in and for the County of Luzerne, George Petritus was convicted of rape, attempt to rape and assault

and battery, and on November 2, 1926, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years nor more than ten years.

Joseph Pigerilla, Zigmund Churnetski and the applicant were jointly indicted and convicted of the above-named offenses and all received the same sentence.

The applicant is twenty-four years of age; a native-born citizen of the United States; a bratticeman by occupation. At the time of his arrest, he was employed by the Lehigh and Wilkes-Barre Coal Company at Sugar Notch, Luzerne County. He is unmarried and resides with his stepfather, in Hanover Township.

On June 30, 1926, between the hours of nine and ten o'clock P. M. Mary Rushkowski, a married woman, thirty-nine years of age, with six children, stood on the street corner. An automobile passed her containing four men, who were strangers to her, to wit, the two men above mentioned, the applicant and one Joseph Bush, who is now a fugitive from justice. She hailed them, and asked them to drive her to Wilkes-Barre from whence she was going to Plains to meet her husband. She got into the automobile, which shortly thereafter turned off the street into Hanover Township. When they reached a stretch of woodland, she was forcibly taken from the automobile into the woods and assaulted and ravished by the four men in turn. The time of the rape was approximately one-thirty A. M. She was then taken back into the automobile, and subsequently taken out the second time, ran away, went to a farm house, was taken by automobile to a garage in Ashley where the police were summoned as well as a doctor. Sixty dollars which she had on her person were missing. The four men were arrested the same night not far from the place of assault. They were traveling toward Ashley and away from the place of assault when arrested by the Ashley police, because of excessive speeding. Subsequently hearing of the assault of Mary Rushkowski, the three men including the applicant were rearrested. The one, Bush, became a fugitive from justice. The defense was an alibi accounting for the four men up to about eleven twenty P. M., on June 30, at which time they were in Sugar Notch and traveled from thence in their automobile to a pool room in Cary's Patch, in Hanover Township. They left the pool room about one o'clock A. M. and were shortly thereafter arrested for speeding.

The applicant has now served almost three years of his term of imprisonment. He was never before charged with or convicted of crime. The applicant's stepfather is unable to work and requires his support. The applicant is tubercular and further confinement will impair his health.

There was filed with the Board, three affidavits by Ignatz Gulkowski and Harry D. Washick, both Justices of the Peace, of Wilkes-Barre township and one by Patrick Langan, an Alderman of the city of Wilkes-Barre, all to the same effect. They aver that Mary Rushkowski's reputation in the community in which she resided is bad; that she is a troublemaker, a common scold, and a habitual drunkard; that she appeared before them on several occasions as a defendant on criminal charges, including assault and battery, disorderly conduct and neglect of children. There was filed with the Board, a letter from the Chief of Police of Hanover Township, who was the prosecutor in the case in which he recommends clemency, and letters from citizens to the same effect.

Joseph Pigerilla and Zigmund Churnetski, co-defendants with the applicant have this day been recommended for pardon by the Board. Bush, the fourth defendant is a fugitive from justice.

In consideration of the circumstances of this case; the prior good record of the applicant, the term of imprisonment already served; because of the need which his step-father has of support; because of his impaired health; because of the fact that his two co-defendants have been recommended for pardon; because of the bad reputation of Mary Rushkowski, the victim of the alleged rape; because of the recommendations of the prosecutor of the case, we have concluded that the applicant has been sufficiently punished, and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and

in open session," recommend that a pardon be now granted to the said George Petritus.

Board of Pardons.

Harrisburg, Pa., October 23, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 87, September Sessions 1926, in the Court of Oyer and Terminer in and for the County of Luzerne, Zigmund Churnetski was convicted of rape, attempt to rape and assault and battery, and on November 2, 1926, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years nor more than ten years.

Joseph Pigerilla, George Petritus, and the applicant were jointly indicted and convicted of the above named offenses and all received the same sentence.

The applicant is twenty-three years of age; of Polish descent but born in the United States; a bratticeman by occupation. At the time of his arrest, he was employed by the Lehigh and Wilkes-Barre Coal Company at Sugar Notch, Luzerne County. He is unmarried and resided with his parents.

On June 30, 1926, between the hours of nine and ten o'clock P. M. Mary Rushkowski, a married woman, thirty-nine years of age, with six children, stood on the street corner. An automobile passed her containing four men, who were strangers to her, to wit, the two men above mentioned, the applicant and one Joseph Bush, who is a fugitive from justice. She hailed them, and asked them to drive her to Wilkes-Barre, from whence she was going to Plains to meet her husband. She got into the automobile, which shortly thereafter turned off the street into Hanover Township. When they reached a stretch of woodland, she was forcibly taken from the automobile into the woods and assaulted and ravished by the four men in turn. The time of the rape was approximately one-thirty, A. M. She was then taken back into the automobile, and subsequently taken out the second time. She ran away, went to a farm house, and was taken by automobile to a garage in Ashley where the police were summoned as well as a doctor. Sixty dollars which she had on her person was missing, and articles of apparel were also missing. The four men were arrested the same night not far from the place of assault. They were traveling towards Ashley and away from the place of assault when arrested by the Ashley police, because of excessive speeding. Subsequently, hearing of the assault on Mary Rushkowski, the three men including the applicant were rearrested. The one, Bush, became a fugitive from justice. The defense was an alibi accounting for the four men up to about 11.20 P. M., on June 30, at which time they were in Sugar Notch and traveled from thence in their automobile to a pool room in Cary's Patch, in Hanover Township. They left the pool room about one o'clock A. M. and were shortly thereafter arrested for speeding.

The applicant has now served almost three years of his term of imprisonment. He was never before charged with or convicted of crime. He was twenty years of age when the crime was committed.

There was filed with the Board, three affidavits by Ignatz Gulkowski and Harry D. Washick, both Justices of the Peace of Wilkes-Barre Township, and one by Patrick Langan, an alderman of the city of Wilkes-Barre, all to the same effect. They aver that Mary Rushkowski's reputation in the community in which she resides is bad; that she is a troublemaker, a common scold, and a habitual drunkard; that she appeared before them, on several occasions as a defendant on criminal charges, including assault and battery, disorderly conduct and neglect of children. There was filed with the Board a letter from the

Chief of Police of Hanover Township, who was the prosecutor in the case in which he recommends clemency. A numerous signed petition of citizens also recommends clemency.

George Petritus and George Pigerilla, co-defendants with the applicant have this day been recommended for pardon by the Board. Bush, the fourth defendant is a fugitive from justice.

In consideration of the circumstances of this case; the youth of the applicant when the crime was committed; the prior good record of the applicant; the term of imprisonment already served; because of the fact that his two co-defendants have been recommended for pardons; because of the bad reputation of Mary Rushkowski, the victim of the alleged rape; because of the recommendations of the prosecutor of the case, and petition signed by numerous citizens, we have concluded that the applicant has been sufficiently punished, and if now released, he will prove himself a peaceful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Zigmund Churnetski.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 4, 5 and 7, December Sessions 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Bucks, James McGee alias James Joseph Magee pleaded guilty to three indictments charging him with conspiracy, breaking prison and escape, assault and battery with intent to kill, aggravated assault and battery and assault and battery, and on December 12, 1924, was sentenced on Nos. 5 and 7, in the aggregate, to pay a fine of two dollars, costs, and to undergo imprisonment in the Eastern Penitentiary, for a period of not less than six and one-half years, nor more than thirteen years, to be computed from the expiration of the sentence he was then serving on the charge of robbery. Sentence on the conspiracy charge embraced in No. 4, was suspended by the Court.

The applicant is thirty-two years of age, and a native-born citizen of the United States. He enlisted in the United States Navy in June 1915, as an apprentice seaman, and was discharged at the expiration of the enlistment, in December 1918, as an engineman second class. A week later, he went to work for the Sun Shipbuilding Company at Chester, Pennsylvania, where he was employed until the time of his arrest for robbery. He is unmarried and resided in the City of Philadelphia.

The applicant was charged with incorrigibility and was sentenced to the Glenn Mills School for Boys in April 1906, paroled March 3, 1908, resentenced to the same institution on the same charge in January 1912, was paroled in 1914, and finally discharged in 1924. On February 28, 1919, he was arrested in company with one, Joseph Wickersham, and convicted of the crime of robbing Gray's Ferry Meat Market. At the time of the robbery, Wickersham had a gun in his possession, and the applicant was armed. Wickersham claimed that he did not know the latter. Wickersham was a notorious criminal and subsequently became one of the noted "Four Horsemen" of the Eastern State Penitentiary. They were jointly tried and convicted for the robbery. Wickersham was sentenced for a term of not less than twelve years nor more than eighteen years in the Eastern Penitentiary, while the applicant received a sentence of not less than eight years nor more than ten years. While serving this sentence, he was transferred to the Bucks County Prison where, in November 1924, he, in company with two other prisoners, Fred Stetzer and Frank Chance, forcibly took the keys from Grant Myers,

keeper of the prison, and effected their escape. All three were captured by a State policeman within an hour, and all pleaded guilty and were sentenced for breaking and escaping as before stated.

The applicant has now served the full term of ten years, his maximum sentence for robbery, expiring April 4, 1929, and on that date began serving the present sentence imposed by the Bucks County Court as above stated, for breaking prison and escape.

The applicant has a mother, sixty years of age, residing in Philadelphia, who is dependent on her children for support, the only children being a married daughter and the applicant.

There was filed with the Board, a letter from Grant Myers, keeper of the Bucks County Prison, who was assaulted by the applicant in order to obtain the keys of the prison to effect the escape. Mr. Myers states that in his opinion, the applicant has served sufficient time and should have favorable action by the Board. The trial Judge has also filed a letter with the Board, in which he states that he has no objection to a pardon. He adds: "I find that his keepers at Graterford are of the opinion that he will make good if released. He has spent a long time in prison, and I have no desire to add to the time that he must serve to carry out the sentence of the Court." Judge Keller, additional Law Judge, in his letter, addressed to the applicant's counsel, states that he has no objection to the granting of a pardon in this case. The trial District Attorney has filed two letters addressed to the applicant's counsel, in which that official states that the statement of facts contained in the petition for pardon are correct and that he has no objection to favorable action by the Board.

In consideration of all the circumstances of this case; the term of imprisonment already served; the need of his aged mother for support; in consideration of the statements of the trial Judge, additional Law Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court, shall be commuted to eight months' imprisonment, expiring on December 4, 1929. After the last mentioned date the applicant will be on parole until the expiration of his maximum sentence, a parole of twelve years and four months.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said James McGee alias James Joseph Magee, be commuted to eight months' imprisonment expiring on December 4, 1929.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 65, February Session, 1927, in the Court of Oyer and Terminer in and for the County of Allegheny, Peter Martini, was convicted of felonious arson (with a recommendation to the mercy of the Court), and on March 11, 1927 was sentenced to pay a fine of one thousand dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than five years nor more than ten years.

The applicant is forty-seven years of age, and owes allegiance to the Kingdom of Italy. At the time of his arrest he was a laborer for the Duquesne Steel and Foundry Company at Kendall Station. He is married.

On November 19, 1928, at about two A. M., Mrs. Richetta Pacella was awakened by the noise of cracking flames. She immediately awakened her husband and upon looking out they discovered that the rear porch of their home was on fire. They

aroused the Lunn family residing in a frame house adjoining theirs, and an alarm of fire was sent in. The fire was soon extinguished by means of chemicals. The Pacella home had both a front and a rear porch, and the space underneath the rear porch was closed in with lattice work. This lattice work was broken in such a way that one had access to the space underneath the porch through the opening. On the other side of the Pacella home lived the family of the applicant. The Martini home was about ten feet from the Pacella home. Two hundred dollars would cover the damage done by the fire.

Upon investigation immediately after the fire, oil-soaked rags were found under the back porch still aflame, indicating incendiaryism. From the fact that the family of the applicant was not at the scene of the fire, as well as the additional fact that they were not on good terms with the Pacellas, suspicion was directed toward the applicant, and he was immediately taken out of bed, where he was found, and taken into custody.

There is no doubt that the fire was of incendiary origin. There was no eyewitness to the crime. A motive for the crime was sought to be established by reason of the fact that there was ill feeling between the Pacella family and the family of the applicant. Mrs. Pacella and the wife of the applicant are first cousins. On one occasion their differences were aired in the police court. A circumstance negating the idea that the applicant set fire to the Pacella home was the fact that his own home was only ten feet distant, and the applicant and his wife were found in bed immediately after the fire started.

The jury in their verdict of guilty, recommended the applicant to the mercy of the Court. The evidence against the applicant was entirely circumstantial, and not strong. At the trial, four witnesses, all Americans, testified to the applicant's good character, and to his industry and reliability as a workman. The witnesses included his foundry foreman, who had known him for fifteen years; an electric crane operator, who had worked with him for eight years; a Justice of the Peace, who had known him sixteen years, and a fellow-workman, who had known him a like time.

The applicant's wife is in a destitute condition and requires his support.

The applicant has now served two years and eight months of his term of imprisonment; he was never before charged with or convicted of crime.

There was filed with the Board a letter from the trial District Attorney in which he states that there is "great doubt" in his mind concerning the applicant's guilt; that he was never before convicted of crime, and bears a good reputation among Americans and among his employers. He continues: "the evidence in this case was highly circumstantial, with a very weak motive shown, and some prejudicial matters were proven at the trial, which in all probability assisted in bringing about his conviction". He further states: "the applicant has already been incarcerated since March 11, 1927 \* \* \* and I feel this is sufficient punishment for a crime of which there is great doubt as to his guilt. The application is meritorious, and I hereby recommend favorable action upon said application."

In consideration of all the circumstances of this case; the great doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the severe sentence; because his wife is destitute and requires support, and more particularly because of the strong recommendation of the trial District Attorney, we have concluded that the applicant has been sufficiently punished, and if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Peter Martini.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. —, September Sessions, 1920, in the Court of Oyer and Terminer, in and for the County of Bradford, Murray Smith pleaded guilty to an indictment charging him with rape, and on September 20, 1920, was sentenced to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years nor more than twelve years.

The applicant is sixty years of age, a native-born citizen of the United States, a widower, and at the time of his arrest was employed by the Lehigh Valley Railroad Company as a switchman and yardman. He had been in their employ for thirty-five years.

The applicant, in 1910, was married to a widow with four children, and resided in the Borough of Sayre, Pennsylvania. On August 11, 1920, the Chief of Police called at his home and asked the applicant's stepson and stepdaughter to go with him to his office at the Town Hall. On their return the girl told the applicant and his wife (her mother) that she had been questioned regarding the applicant's relations with her, adding that neither her stepfather nor her mother would ever "bother" her again. The "bother" referred to was the correction she had received for disobedience and running around late at night's with young men. The following day the applicant was arrested and charged with improper relations with his stepdaughter and on September 20, 1920, was brought before the Court, pleaded guilty to the charge, and was sentenced as before stated. The applicant had no counsel and not a word was spoken in his behalf at the time of the imposition of sentence and, therefore, the salient facts surrounding the case were unknown by the Court. It appears that for more than a year prior to the applicant's arrest his stepdaughter had been head-strong and disobedient, stayed out late at nights, ran around with the young men of the community, was promiscuous in her relations with them and was utterly beyond control. The applicant and the girl's mother remonstrated but to no avail.

The applicant has now served nine years and two months of his term of imprisonment. He was never before charged with nor convicted of crime. Employment has been offered him, if released.

There was filed with the Board a letter from the trial District Attorney addressed to Dr. Linn Bowman, Moral Instructor in the Penitentiary in which he states: "In regard to the matter of a pardon for Murray Smith, (the applicant), I take pleasure in stating to you that I am willing to do anything in my power to see that a pardon is granted. It has been my opinion that the sentence was too severe under the circumstances of this case and I feel that in the interests of justice he should be released from further custody." W. J. Harris and Son, of Athens, in a letter filed with the Board offer employment to the applicant if released.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; the grave doubt as to his guilt; the severity of the sentence imposed; because employment has been offered him if released; and because of the strong recommendation of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Murray Smith.

ARTHUR H. JAMES,

## Commonwealth of Pennsylvania.

## Board of Pardons.

Harrisburg, Pa., November 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 4 and 5, December Term, 1916, in the Court of Over and Terminer, in and for the County of Allegheny, Frank Richardson was convicted of robbery and rape, and on January 3, 1917, was sentenced to pay, in the aggregate, a fine of twelve and one-half cents, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than twenty-three years nor more than twenty-five years.

The applicant is forty-eight years of age, and a native-born citizen of the United States. He is unmarried. At the time of his arrest he was employed by George Sotis, proprietor of a restaurant at Wylie Street and Sixth Avenue, Pittsburgh, and resided in that city.

During the evening of November 2, 1916, the applicant was at the bake shop used in connection with the restaurant and located several blocks away, in company with Mr. Sotis, the proprietor. When they returned to the restaurant, about 8.45 P. M., a man who had just moved to that part of the city inquired whether there was a plasterer who lived nearby. The applicant said that he was acquainted with one residing about two blocks distant. The man arranged with the applicant to see the plasterer about the work which he desired to have done promptly. The applicant went on this errand about 9.30 P. M., and on his return a half hour later, when within a short distance of the restaurant, was arrested by two policemen and charged with assaulting, robbing and ravishing one Catherine Benzinger, an hour or so previously. The applicant's arrest was made on a vague description of her assailant given by the girl, but when she appeared shortly afterwards at the police station where the applicant had been taken, after scrutinizing the applicant, she said that he was not the man. The policemen took the girl out and after a short time brought her back, when she identified the applicant as the man who had attacked and robbed her.

The applicant after hearing was held for Court and when arraigned pleaded not guilty to the indictment. He had no money to employ an attorney, and the attorney assigned by the Court to represent him took no interest in the case. At the trial the girl identified the applicant as her assailant and testified that he had a gun when he attacked her and that he had robbed her of a pocketbook, a ring, and a small amount of money which she had, and that he had assaulted her when she was entering the gate of her home. When the applicant was searched by the police after his arrest, which was only an hour after the alleged perpetration of the crimes, no gun was found on him nor any of the articles mentioned by the girl.

Her testimony was uncorroborated, while the applicant if given the opportunity could have proven by Mr. Sotis that at the time of the commission of the alleged offenses he was at the restaurant.

The case was called for trial, unexpectedly, a day in advance of the time originally set for trial, and the applicant did not have time to obtain Sotis' presence in Court to testify in his behalf.

The applicant has now served twelve years and ten months of his term of imprisonment. His prior record was good, with the exception that in 1912 he was sentenced to the workhouse for thirty days on account of intoxication and that subsequently he was arrested on suspicion of having attacked a young woman in Pittsburgh, but he was never brought to trial on the latter charge.

There was filed with the Board a letter from the trial Judge in which he states that he has no objection to the granting of a pardon in this case. Homer N. Young, Assistant trial District Attorney, has filed with the Board a letter in which he states, inter alia, "Mr. Coulter, Parole Officer of the Penitentiary, tells me that Richardson (the applicant) has at all times been a very helpful prisoner. I think that he is entitled to a pardon and will respectfully ask that you give it to him".

John Francis, present County Treasurer and former Warden of the Penitentiary, has also filed with the Board a letter in which he speaks of the applicant's excellent prison record and recommends clemency. Scott M. Woods, former Deputy Warden of the Penitentiary, in a letter filed, refers to the appli-

cant's excellent prison record and recommends clemency. Deputy Warden Rucker certifies to his excellent prison record. Buka Brothers, former employes of the applicant, have also filed a letter with the Board recommending pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant, with minor exceptions; the term of imprisonment already served; because of his excellent prison record; because of the grave doubt as to the guilt of the applicant; because of the strong recommendations for clemency on the part of the trial District Attorney, the former Warden and Deputy Warden of the Penitentiary, and other, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Frank Richardson.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 76 and 80, February Sessions, 1921, in the Court of Oyer and Terminer, in and for the County of Allegheny, and at No. 64, February Sessions, 1921, in the Court of Quarter Sessions of the Peace, in and for the same county, Thomas C. Hutchinson was convicted of robbery, receiving stolen goods, felonious assault, and pointing fire arms, and on March 19, 1921, was sentenced in the aggregate to pay a fine of eighteen and three-quarters cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than twelve years nor more than twenty-three years.

The applicant is twenty-nine years of age, and a native-born citizen of the United States. He served in the American Army during the World War. He is an electrician by trade, but was out of employment at the time of his arrest. His proper place of residence is in Los Angeles, California, with his parents, who resided there. He is unmarried.

The applicant, being out of employment, went to Pittsburgh, in November, 1920, to make his home with his parents, who at that time resided in that city. Shortly after his arrival in Pittsburgh he called at the home of Mrs. Ida Kramer, a former friend, living on the north side of the city, and finding that she was not at home, for the time being, the applicant sat down to await her return. Shortly thereafter police officers appeared, asked for Mrs. Kramer, and stated that Police Commissioner desired to investigate a disturbance that had occurred at the house earlier in the day. In the absence of the landlady, the officers, searching the premises and finding Lawrence Fisher, a roomer in the house, in his room, took him, together with the applicant, to the station house for questioning. During the apprehension the officers took two guns from Fisher, and later when the applicant took a gun from his pocket, the officer in charge, John Platt, believing that the applicant was going to shoot, grabbed for the gun causing it to be discharged. The bullet entered the floor.

Under questioning at the station house, Fisher admitted his guilt of the offenses charged in Nos. 76 and 80 and implicated the applicant in these charges. Fisher pleaded guilty and was sentenced at the December Term of Court, but the applicant maintained his innocence and was held in the county jail to await trial at the February Term of Court. At this term the applicant was found guilty of the charges of robbery mentioned in Nos. 76 and 80 and pleaded guilty to the charge of felonious assault mentioned in No. 64. Fisher, who pleaded guilty to the charges of robbery, was pardoned in January, 1924, while the applicant who maintained his in-

nocence of the charges of robbery has been imprisoned eight years and eight months. He was never before convicted of crime. He was only twenty-one years of age when he was arrested.

There was filed with the Board a letter from the trial Judge addressed to the applicant which, while not recommending clemency, evinces a favorable attitude. He states that he "has no objections" to the pardon; that he gave him a "pretty stiff sentence," and while he believes that he was correct, he further states that the applicant has served the greater part of his minimum term and that the chances are that the applicant would become a better man if he were relieved of serving the entire minimum sentence. A number of letters were filed with the Board from persons residing in California recommending clemency. If liberated the applicant will return to his parents in Los Angeles, where employment will be provided for him. John Platt, the patrolman who arrested the applicant, and Patrick J. Carroll, a police officer, recommend clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the fact that Fisher who was jointly indicted with the applicant on the charge of robbery and receiving stolen goods was pardoned by this Board almost six years ago; because of the comparative youth of the applicant when the crime was committed; and because of the letters of recommendation filed with the Board, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Thomas C. Hutchinson.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 45 and 46, March Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Blair, Henry A. Sussman, alias Henry Stoltz, alias Henry Mobrey, pleaded guilty to two charges of burglary and larceny and on March 1, 1926, was sentenced in the aggregate to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than six years nor more than twelve years. Henry Grotz was jointly indicted with the applicant and received the same sentence.

The applicant is thirty-four years of age, a naturalized American citizen, a German by birth, and was brought to this country when ten years of age. He is unmarried.

The applicant was educated in the public schools of New Orleans, Louisiana. At the age of fifteen years, he secured a position with the United Fruit Company in Honduras, where he remained three years. He then returned to New Orleans, where he was employed as a Spanish interpreter, and Commission Merchant of Central American Dealers. In June, 1917, he enlisted for the duration of the World War, and served as a radio operator at Camp Jackson until January 1919, when he was honorably discharged, and resumed business in New Orleans until shortly before his arrest.

The applicant and Henry Grotz, left New Orleans in January 1926, to go to New York City via Pittsburgh, where they stopped for a time to purchase a used Deisel motor, and other equipment for the purpose of starting a freight line business between New Orleans and Mexico. They were informed in Pittsburgh that they might find the used equipment desired in Altoona. When they arrived in Altoona, they registered at

a hotel, and after investigation found that there was no second hand Deisel motors for sale, the second hand equipment for sale being principally railroad equipment. On January 31, 1926, they entered the Westfall Company Store of Altoona, opened the safe and took possession of eighteen hundred dollars in cash. The same night, they entered the Irving King Store in Altoona, where they attempted to open a safe, but were discovered and surrendered to the officers who had surrounded the building, and turned over the eighteen hundred dollars cash taken from the Westfall Company Store. They were immediately arrested, held for Court, pleaded guilty and sentenced as above stated.

The applicant has now served three years and eight months of his term of imprisonment.

There was filed with the Board a letter from J. N. Tillard, Chief of Police of the City of Altoona, in which he states as a result of diligent inquiry that the record of the applicant, prior to the safe-blowing episode in Altoona, was clean. He further states that the applicant bears a good reputation in New Orleans and alleges his belief that the applicant was a victim of his association with Grotz, whom he met in a legitimate business transaction, and if it had not been for this chance association, he probably would have never committed the crime. For the reasons mentioned, Tillard states that he has no objection to the application. Two former employers of the applicant residing in New Orleans, have filed with the Board, letters in which they state that the applicant, while working for them, was honest, industrious and efficient.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the fact that the money taken as a result of the safe-blowing was restored; because of the letters of the Chief of Police of Altoona, and two former employers of the applicant, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Henry A. Sussman alias Henry Stoltz alias Henry Mobrey.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth,

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 654, June Term, 1921, in the Court of Oyer and Terminer, in and for the County of Schuylkill, Frederick Pellegrino was convicted of murder in the second degree, and on November 7, 1921, was sentenced to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years nor more than fifteen years.

The applicant is a native of Italy, twenty-eight years of age. He came to the United States in 1920. He resided in Girardville, Schuylkill County. He and his father boarded with one Albert Isella. At the time of his arrest, he was working in a coal washery near Girardville.

On June 12, 1921, Frank Pellegrino, the father of the applicant, Albert Isella, the keeper of the boarding house, William Villano, Jimmy Cammerenno, Attilio Diotiauta, and the applicant, ate supper together. After supper, the father of the applicant and Cammerenno engaged in conversation concerning the applicant. Cammerenno used vile and abusive language with reference to Frank Pellegrino. The latter and Cammerenno arose and grabbed one another Isella took Cammerenno away and Villano, who was a cousin of the latter, jumped on the applicant and grabbed him by the nose with his teeth.

Diotiauta assisted Isella to pull Cammerenno away. The latter was a man more powerful and larger than Isella. Cammerenno was in the kitchen when Frederick Pellegrenno, the applicant, heard Diotiauta, his brother-in-law, cry: "Mom, he killed me." The applicant then left the dining room and went into the kitchen. Cammerenno was near the door and had a knife in his right hand. He made three attempts to stab the applicant and on the third attempt, the applicant grabbed a knife from the table and stabbed Cammerenno. He then left for Shenandoah, where he borrowed money from his sister and went by trolley to Mahanoy City, where he was apprehended in the railroad station by the police. While Diotiauta was helping Isella to hold Cammerenno, Cammerenno stabbed Diotiauta in the leg. The body of Cammerenno bore three knife wounds. When the applicant was arraigned, he pleaded not guilty, and at the time of the trial, he stated that he killed Cammerenno in self defense.

The applicant has now served eight years of his term of imprisonment. Prior thereto, he was in the Schuylkill County Jail about five months awaiting trial. He was never before charged with or convicted of crime. He was only nineteen years of age when Cammerenno was killed.

There was filed with the Board, a letter from the trial Judge in which he recommends pardon. The trial District Attorney, in a letter filed, also recommends clemency. The present District Attorney by letter filed, recommends pardon. The private counsel representing the Commonwealth in this case, wrote the Board that he has no objection to a pardon. Joseph Capparel, dealer in meats, groceries and provisions, in Girardville, in a letter filed with the Board, offers to give the applicant employment if released.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; the term of imprisonment already served; because employment has been offered him if released, and particularly because of the recommendations of the trial Judge, trial District Attorney and present District Attorney, and private counsel for the Commonwealth, we have concluded that the applicant has been sufficiently punished, and that if now released, he will prove himself a peaceful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Frederick Pellegrenno.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 38, May Sessions, 1929, in the Court of Oyer and Terminer in and for the County of Cumberland, James Bagrosky pleaded guilty to an indictment charging him with carnally knowing and abusing a woman child under sixteen years of age, and on April 15, 1929, was sentenced by the Court to pay a fine of one hundred and fifty dollars, costs, and to undergo imprisonment in the Cumberland County Jail for a term of not less than one and one-half years nor more than four years.

The applicant is a native-born American citizen, twenty-two years of age. At the time of his arrest he resided in Carlisle, Cumberland County, and was employed as a carpet weaver in the plant of C. H. Masland & Sons.

The applicant resided next door to Mervin Penner and his wife and their daughter Helen. The latter and the applicant became unlawfully intimate, and as a result of such intimacy Helen Penner became pregnant. When she informed the applicant of her condition he at once expressed his willingness to marry her and asked Helen to gain the consent of her

parents to the marriage. Helen did not do this, and suggested an elopement, but the applicant insisted upon gaining the consent of her parents. The latter were subsequently informed of the condition of their daughter by an outsider. The father, on February 9, 1929, without seeing the applicant, lodged an information against him charging statutory rape. Penner did not know that the applicant was willing to marry his daughter, and a marriage would have taken place immediately had the mother of the girl consented.

Penner did not cause the warrant to be served upon the applicant because a member of the Penner household and the information that had been lodged with the Justice was allowed to sleep. On the evening of April 5, 1929, a Constable called at the Penner home and asked the applicant to go to the Justice's office to pay the costs in the case, and when they left Penner (who was the prosecutor) told the officer that if the applicant could not raise the necessary money, he, Penner, would help him. In the Justice's office a warrant was served on the applicant and in lieu of bail he was held for a hearing, which took place on the following morning. At the hearing, despite the knowledge of the officers that Penner did not wish to press the case, the hearing was proceeded with and the applicant was bound over for court, and in default of bail was committed to prison to await trial. On April 9, 1919, the applicant pleaded guilty to the charge of statutory rape and while in prison awaiting sentence he and Helen Penner were united in marriage.

The applicant has now served seven months of his term of imprisonment. He was never before charged with or convicted of crime. He has an excellent prison record, as shown by letters from the Sheriff and Warden of the jail. C. H. Masland & Sons, his former employers, offer to re-employ him if released.

There was filed with the Board a petition of citizens of Carlisle recommending clemency, and there was also filed with the Board the affidavits of the father and mother of the girl, in which they verify the statements contained in the foregoing history of the case.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of his excellent prison record; because of the fact that employment has been offered him if released; because of the affidavits of the parents of the girl filed with the Board, and the petition of citizens, we have concluded that the applicant has been sufficiently punished and if now released will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said James Bagrosky.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 22 and 23, April Sessions, 1929, in the Court of Quarter Sessions of the Peace in and for the County of Clinton, Guy W. Crisinger pleaded guilty to two indictments charging him with forgery, and uttering, publishing, and passing forged checks, and on No. 23 was, on April 25, 1929, sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two years nor more than four years. There was no sentence in No. 22.

The applicant is twenty-seven years of age, a native-born citizen of the United States, married, and at the time of his arrest was employed as a cook in the Penn Restaurant, Lock Haven, Pennsylvania and resided in that city.

About seven A. M. on March 20, 1929, the applicant's brother-in-law, John Hicks, called on the applicant and asked him to go out with him, which he did. Hicks purchased whiskey and he and the applicant drank the same. When the applicant was under the influence of the liquor, Hicks asked the applicant to fill out and endorse certain checks that he, Hicks, had in his bill fold, the latter claiming that he was unable to write. Hicks, who was night watchman at the plant of the American Amiline Products Company, had extracted about twenty blank checks from the check book of said company. The applicant filled out two of these blank checks writing in the names that Hicks suggested and the necessary words and amounts. Hicks and the applicant then went to the Atlantic and Pacific Store in the city of Lock Haven and applicant waited outside while Hicks entered the store, passed the check, and received thirty-two dollars cash therefor. This is the check referred in the indictment at No. 22. Hicks then gave the applicant the other check in the sum of thirty-three dollars and he had same cashed at the Home Pure Food Store. This money was afterwards restored by the applicant. After both checks had been cashed, the applicant and Hicks returned to the place where they had previously purchased liquor and bought and drank more liquor until about two P. M. of said day, when they took the train for Pittsburgh but were arrested when they reached the city of Altoona and brought back to Lock Haven. The applicant has always admitted the commission of the offenses to which he pleaded guilty but avers that he was at the time under the influence of intoxicating liquor and that the offenses were committed under the immediate prompting and dictation of Hicks.

The applicant has now served seven months of his term of imprisonment. He was never before charged with nor convicted of crime.

There were filed with the Board a letter from the trial Judge in which he strongly recommends pardon. The trial District Attorney has also filed with the Board a letter in which he recommends clemency. H. R. Cramer, Superintendent of the Harbison-Walker Refractories Company, at Monument Centre County, a former employer of the applicant, offers to give the latter employment if released. There was also filed with the Board a numerously-signed petition of citizens recommending pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because employment has been offered him if released; because of the recommendations of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Guy W. Crisinger.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 20, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 690, December Sessions, 1913, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Harry Carey was convicted of larceny and receiving stolen goods, and on January 9, 1914, sentence was suspended by the Court and the applicant was discharged on probation for one year.

The applicant is thirty-five years of age, a native-born citizen of the United States. He is at the present time working as a landscape gardener for the Universal Landscape Gardners, 1341 Marlborough Street, Philadelphia. At the time

of his arrest he was unemployed. He now resides in the City of Philadelphia. He is married but not living with his wife.

On December 18, 1913, the applicant was arrested while walking along the Reading Railway tracks, about 11.00 A. M. The tracks are laid on American Street, which is a public highway, and he took this route for the purpose of visiting his aunt. The applicant noticed two men on the tracks engaged in working upon journals to wit: metal attachments connected with air brake hose. He stopped and watched them, and while so doing was arrested by railroad police. The other two men ran away. The applicant did not know that the two men engaged in the act of stealing the railroad's property, nor did he know the men, never having seen them before.

The applicant was never before charged with nor convicted of crime. As a result of his conviction his record is sullied. He has passed with a high percentage examinations conducted by the Civil Service Commission for aspirants to the Philadelphia Fire Department, but is unable, on account of his conviction, to be placed on the eligible list which is used by the Director of Public Safety of Philadelphia in appointing applicants to the Fire Department. Although arrested and prosecuted by the Reading Railway Company's police, he was subsequently employed by the said company from 1917 to 1922, and again employed by the same from January, 1929, to August, 1929, at which time he resigned on account of failing health. Since his conviction, the applicant served in the United States Navy during the World War and has an honorable discharge. The applicant is now at liberty, but the object of the present application is to qualify him for appointment to the Fire Department of Philadelphia.

There were filed with the Board letters from three former employers of the applicant recommending clemency. One from the President of the Universal Landscape Gardners. Also a letter from the Assistant Train Master of the Reading Company. The Employment Manager of the Pennsylvania Sugar Company, Philadelphia, which employed the applicant from February, 1923, to December, 1928, also recommends pardon.

In consideration of all the circumstances of this case, the prior good record of the applicant, and his excellent record since his conviction, we have concluded that he should be relieved from the stigma of his former conviction, and placed in line for appointment to the position for which he is now qualified in all respects.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Harry Carey.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1167, September Sessions, 1915, in the Court of Oyer and Terminer in and for the County of Schuylkill, Antonio Frolo was convicted of murder in the second degree, and on September 16, 1916, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than nineteen years nor more than twenty years.

Joseph Frolo and Dominick Fruscu, were jointly indicted with the applicant and both pleaded guilty to murder and were duly sentenced.

The applicant is thirty-seven years of age and owes allegiance to the Kingdom of Italy. His occupation at the time of his arrest was that of a miner, and he resided near Asnland, Schuylkill County. He was married, but his wife is now dead.

Dominico Futlatutti, alias Joseph Valero, alias Pango'lo, the man who was killed, appears to have made certain threats to kill Joseph Frolo and Dominick Fruscu, the co-defendants of

the applicant. In furtherance of this threat, the man who was killed came upon the said Joseph Froio and Fruscu with a revolver and a stiletto in a threatening manner, and the said Joseph Froio and Fruscu, being in fear of their lives, in self defense, shot and killed the said Futtiatutti, alias Valero, alias Pangollo. These two co-defendants originally charged the applicant with having given them the information of the intention of said Futtiatutti, alias Valero, alias Pangollo, to kill them and that the applicant advised them to be armed and to shoot the said Futtiatutti, alias Valero, alias Pangollo. The only connection that the applicant had with the murder as charged by his co-defendants, is that he warned and advised them to be armed and prepared should the decedent approach them as the latter intended to kill them.

The applicant was not present at the time of the killing, nor was any motive shown on his part to take the life of the decedent, nor to conspire with his co-defendants, and he denies that he advised them to be armed and to protect themselves against the man who was killed.

The co-defendants, Joseph Froio and Fruscu, both pleaded guilty to the murder and were each sentenced to serve from fifteen to twenty years in the Eastern Penitentiary and all three defendants are still confined in that institution.

There was filed with the Board, the affidavits of Dominick Fruscu, Joseph Froio (not the defendant), Joseph Giordiano, an interpreter, and William McDonald, a penitentiary guard, from which it appears that the applicant was not present at the killing, knew nothing about it and was not even acquainted with the deceased; that Joseph Froio and Dominick Fruscu were friends of the deceased, and during the day, had been drinking with the latter; that a quarrel arose and as a result, the murder took place. The revolver with which the deed was committed, was furnished Fruscu by one Joseph Procop'o who appeared as a witness against the three defendants and testified that they all were present at the time of the killing. The affiants aver that the applicant is now serving a sentence for a crime which he did not commit.

These affidavits embody statements which were obtained in October, 1922, in the reception room of the Penitentiary, in the presence of the four affiants.

The applicant has now served thirteen years and three months of his term of imprisonment. He was never before charged with nor convicted of crime.

There was also filed, the affidavit of the applicant himself, in which he denies all connection with the murder and the events which led up to it. He was not present at the killing; was not arrested until six months after the murder, he refused to plead guilty, for the reason that he was not present at the killing; did not know the deceased; and had no grievance against the latter.

There was also filed with the Board, letters from the trial Judge and trial District Attorney, in which, while not recommending clemency, both evince a favorable attitude. There was also filed with the Board, a letter from the Chief of the County Detectives, who was one of the prosecutors in this case, in which he recommends clemency.

In consideration of all the circumstances of the case; the grave doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served, because of the favorable attitude of the trial Judge, trial District Attorney, and Chief of the County Detectives, we have concluded that the applicant has been sufficiently punished, and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Antonio Froio.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 215, July Sessions, 1920, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Robert Wilder pleaded guilty to an indictment charging him with murder, which was subsequently adjudged to be murder in the second degree and on November 22, 1920, was sentenced to pay costs, and undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years nor more than fifteen years.

The applicant is forty-five years of age; a native-born citizen of the United States; colored. His occupation was that of laborer and at the time of his arrest he was so employed in the city of Philadelphia where he resided. He is a widower.

Applicant left his native city of San Diego, California at the age of eighteen years and came to Philadelphia. His record there for the following seventeen years up until the time of the commission of the crime for which clemency is sought, is an unbroken chain of industry. In 1928 he contracted marriage with a widow who had a son, three years old. For twelve years his domestic affairs ran smoothly. His wife began to neglect her home. She ran about and frequently omitted to prepare the evening meal; often came home at a late hour and sometimes not at all. The applicant remonstrated with her and told her he expected her to prepare the meals when his hard day's work had been completed. The applicant discovered his wife was consorting with a woman of questionable character. He forbade this woman entering his home. The next morning when he awoke, he found his wife had taken her son and (according to the note which she left) had gone to her mother's. Weeks afterwards, one night at ten o'clock, she returned only to notify him that her son had been arrested and was at the House of Detention. The applicant gave his wife the money to pay the boy's fine and took charge of him. He borrowed sufficient money to send the boy to Dover, Delaware, to school, paying his board, tuition and other expenses. The boy wrote his mother stating that he did not like the school, whereupon she wrote to the school officer to send her son home. At this time the applicant began to receive letters signed "Your Master," relating to the applicant and his wife. These letters advised him that the writer was living on money the applicant paid his wife weekly for her support and threatened dire penalties should the applicant speak of the matter to his wife. During this period, the applicant neither saw his wife, nor could he locate her.

In line with his duties where he was employed as assistant on a C. O. D. truck, the applicant carried a revolver, retaining it through the day and taking it to his home every evening. This was due to the fact that one of his employer's trucks had been held up and robbed. On the morning of May 11, 1920, while on his way to work the applicant encountered his wife at the corner of 15th and Pine Streets, Philadelphia. The wife was standing on the street corner and the applicant went over and asked her about the letters he had been receiving. Instead of explaining she began to curse and revile the applicant. She used filthy language and she threatened him with what the author of the letters would do to him if he met him. Seeing that she was in a rage the applicant turned away with the remark that he would see her and talk with her some other time. She seized him and said he would see her then. He said he would be late for work and again started off. His wife followed shouting epithets and created a disturbance. Finally she coupled herself and the author of the letters in no unambiguous terms. The applicant had his hands in his coat pockets. In the right pocket was the revolver which he was in the habit of carrying and his hand was resting on the butt. He drew the pistol and shot his wife with fatal results. Two shots were fired. He wandered about all day and in the evening surrendered himself to the police. The letters referred to were in the hands of his attorneys at the time of the trial.

The applicant has now served nine years, and one month of his term of imprisonment. He was never before charged with or convicted of crime. The meeting with the deceased was accidental, the provocation extreme, and the weapon was in his possession at the time for a legitimate purpose.

There was filed with the Board a letter from the Warden of the Eastern Penitentiary in which he lauds the applicant's prison record and urges the Board to commute the applicant's term of imprisonment so that he may be immediately discharged, promising to secure for him employment and to look after his future welfare.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served and the strong recommendation for clemency by the Warden of the Penitentiary and his offer to care for him if released, we have concluded that the applicant has been sufficiently punished; and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted so that the same will become effective on January 1, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Robert Wilder be commuted so that the same shall become effective on January 1, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 315, October Sessions, 1921, in the Court of Quarter Sessions of the Peace, in and for the County of Lackawanna, Frank Pitroski pleaded guilty to an indictment charging him with discharging firearms with intent to kill, and on December 17, 1921, was sentenced by the Court to pay a fine of two hundred fifty dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than two and one-half years, nor more than three years. This sentence to begin at the expiration of sentence for having broken parole.

The applicant is a native-born citizen of the United States, thirty-five years of age. At the time of his arrest his occupation was that of huckster of fruit and vegetables in the City of Scranton, where he resided with his father. He is unmarried.

In 1918, the applicant was sentenced by the Court of Oyer and Terminer in and for said county, to the Eastern State Penitentiary for a term of not less than three years, nor more than ten years, for the crime of breaking and entering. At the expiration of his minimum sentence, he was paroled. On December 17, 1921, he was sentenced as already stated, on the charge of discharging firearms with intent to kill. The second conviction automatically made the applicant a parole violator, requiring him to serve the remainder of the original sentence before the second sentence began to run.

The circumstances of the crime which led to the second conviction and sentence, were as follows: on May 28, 1921, the applicant arrived home from work and upon entering his father's house, his brother, Joseph, who also resided there, began to quarrel with him. Owing to the fact that the applicant had his left arm amputated in early youth, his brother, Joseph, took advantage of this handicap and became very domineering. His persecutions had extended over a long period of time. On the day in question, an argument arose and a quarrel ensued. The applicant in a rage secured a revolver, drew and pointed the gun at his brother Joseph, which was discharged without injury to either party. No actual assault was perpetrated. The applicant claimed that he did not intend bodily harm, but merely wanted to frighten his brother.

The applicant has now been confined seven years and ten months, to wit: seven years, the remainder of sentence for breaking and entering, and ten months on the present sentence. During his imprisonment he has acquired the trade of weaving, an occupation in which a one-armed person can work and make a livelihood.

The trial Judge has filed two letters with the Board in which he strongly recommends clemency, on the ground that the applicant has been sufficiently punished and that he gives every evidence of becoming a good citizen if liberated.

In consideration of all the circumstances of this case; the term of imprisonment already served; and particularly because of the strong recommendations of the trial Judge, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted so as to become effective on January 1, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Frank Pitroski be commuted so as to become effective on January 1, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 4, September Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Alexander A. Roseman pleaded guilty to an indictment charging him with conspiracy to cheat and defraud. William D. Rodgers, Rudolph C. Bender, Samuel B. Lush and Isidor Criver were jointly indicted with the applicant. All pleaded guilty and all received sentences of varying length. November 6, 1925, the applicant was sentenced to pay costs and undergo imprisonment, Philadelphia County prison for a term of eight years.

The applicant was involved in a long series of indictments as of September Sessions 1925, in the said Court, and was therein charged with conspiracy to cheat and defraud, together with false pretenses and making false statements in writing and obtaining property thereby.

The applicant is forty-seven years of age; a native-born American citizen and at the time of his arrest was engaged in the real estate business in the city of Philadelphia. He is the father of eight children. The oldest being seventeen years of age and the youngest three years.

He was not an officer or director in any of the seventeen building and loan associations which disastrously failed, causing criminal proceedings to be instituted against twenty defendants, including the applicant. About a year and a half after the various associations conducted and operated by the other defendants were in full operation, the applicant was induced to make loans from them. He purchased several hundred properties, all of which were mortgaged to these associations and mortgaged to an extent in excess of the then market value of the properties. The excess amount of money thus received was used in paying bonuses for the obtaining of the loans; and some of the properties were improved with such additional sums.

There were two sets of associations in existence at the time, those controlled by John S. Magee, William D. Rodgers and Jacob Marbin, and the other set controlled by Samuel S. Lush and W. B. Ginsburg, attorneys. Magee and Rodgers were partners in the real estate business and Marbin was an associate of theirs. Lush and Ginsburg were attorneys who organized the associations and represented them. The men involved in

the proceedings were employees of Lush, Ginsburg, Mager and Rodgers.

The State Banking Department in taking over the checks and papers of these seventeen looted associations soon discovered the hopeless financial tangle and caused an investigation to be made which was followed by many arrests. The applicant was an indorser on numerous notes, many of which notes he was not interested in but indorsed them in an endeavor to meet them when due in order to save the situation. For this reason there were numerous indictments against him, as there were separate indictments under the various notes. He only pleaded guilty to the charge of obtaining money under false pretense. He did not plead guilty to the other charges.

The applicant was not an officer or director of any of these associations and therefore was not in a position of trust. He did not embezzle, forge or receive money belonging to anyone for his own personal use. He cooperated in every way with the Banking Department and the District Attorney and assisted in the prosecution. In January, 1928, the home in which his family were living, was sold at Sheriff's sale, and his family, consisting of wife and eight children, are destitute and objects of charity.

The stipulation as to the facts agreed upon by the Commonwealth and counsel for the applicant (which was filed with the Board) makes the applicant appear in a favorable light, although admittedly guilty of crime.

Three of his co-defendants have been paroled, Magee, Lush and Criver, the last two named on December 6, 1929.

There was filed with the Board a letter from William White, who was Chief Examiner for the Department of Banking and the principal witness for the Commonwealth in the prosecution. He recommends clemency for the applicant. He states: "Poseman (the applicant) was really the only man to plead guilty in every sense of the word. He concealed nothing from the Department of Banking or the District Attorney and was a great aid to the prosecution in his endeavor to bring out the true facts in the case including figures, notes, checks, etc."

Many letters were filed with the Board recommending clemency. The applicant's family is destitute and require support.

In consideration of all the circumstances of this case; the prior good record of the applicant with a minor exception; the term of imprisonment already served; because of the fact that three of his co-defendants have been paroled; because of the letter from the principal witness for the Commonwealth in the prosecution, which recommends clemency, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a commutation be now granted to the said Alexander A. Roseman, whereby the sentence of eight years heretofore imposed shall be reduced to four years and one month, expiring on December 6, 1929.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 406 and 409, November Sessions, 1922, in the Court of Quarter Sessions of the Peace in and for the County of Luzerne, Robert Hartley pleaded guilty, without the formality of an indictment, to the charge of robbery, and on December 19, 1922, was sentenced by the Court in the aggregate to pay a fine of ten thousand dollars, costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than fifteen years nor more than forty years. William

Padmowsky was jointly indicted, tried and convicted with the applicant, and received the same sentence.

The applicant is twenty-nine years of age and an American-born citizen of the United States. His occupation is that of laborer. Shortly before his arrest he had been employed by the Lehigh Valley Railroad Company at Coxton Yards, but was laid off about a week before his arrest on account of slackness of work. He resided in the city of Wilkes-Barre, was married and had a boy six months of age.

About seven o'clock on the evening of December 12, 1922, the applicant left his home in Wilkes-Barre and came to the public square, and from there went to Heistand's pool room, located on said square. Here he met John Buckley and William Padmowsky, the co-defendant, who were in the pool room. Buckley and the applicant were well acquainted, having formerly resided in adjoining houses. From the pool room the three men went for a ride, the car supposed to have been owned by Buckley. They drove to No. 65 West Hollenback Avenue, Wilkes-Barre where Adam Goldeniewski conducted a saloon. Buckley and Padmowsky went inside and held up the proprietor, while the applicant stood on guard on the outside. No evidence was adduced showing that the applicant had a gun. From there they went to No. 432 George Avenue, Parsons, where they entered the saloon conducted by Joseph Zima. Again Buckley and Padmowsky entered the place and held up the bar-tender while the applicant remained outside. It was not shown that the applicant received any of the spoils, nor was there any money found on him when arrested. Padmowsky and the applicant were apprehended that same evening and placed under arrest. Buckley fled to Scranton and became a fugitive. Padmowsky and the applicant pleaded guilty without the form presentation of an indictment, and were sentenced as above stated.

The applicant has now served seven years of his term of imprisonment; he was never before charged with or convicted of crime.

Since his incarceration his wife has divorced him, and his aged mother requires his support. Buckley, the master-mind in the perpetration of the crime is a fugitive and has never been punished.

There was filed with the Board a number of letters recommending clemency; there was a petition of citizens of Wilkes-Barre to the same effect. There was filed with the Board a letter from the trial Judge addressed to the applicant which does not recommend clemency, but evidences a favorable attitude.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the letters and petition of citizens filed which recommended clemency; because of the favorable attitude of the trial Judge; and because the applicant's mother requires support, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to seven years imprisonment, expiring on December 19, 1929.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Robert Hartley be commuted to seven years imprisonment, expiring on December 19, 1929.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: Nos. 1020, 1022 and 1024, March Sessions, 1914, in the Court of Quarter Sessions of the Peace, in and for the County

of Philadelphia, Joseph Strank pleaded guilty to three indictments charging him with assault, being armed with an offensive weapon and robbery, and on April 11, 1924, was sentenced in the aggregate to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than twenty-five years, nor more than sixty years.

The applicant is of good family; a native-born citizen of the United States; twenty-six years of age; unmarried; is a clerk by occupation and resided with his family in the city of Philadelphia.

Edward Wouters, alias Edward Wonter, Robert Hallman and the applicant were jointly indicted for robbery. The crimes were recommitted during the early part of March, 1924, in the northeastern section of Philadelphia, known as Logan. The amounts taken in the three robberies aggregated eighty-five dollars.

The applicant has now served five years, eight months of his term of imprisonment. His prior record is good with a single exception. He once served a sentence of six months in the Philadelphia County Prison, for having received stolen goods.

Dr. Keegan, of Philadelphia, who is a surgeon for three hospitals, for the Coroner of Philadelphia County and the Eastern Penitentiary, appeared at the oral hearing and stated to the Board that he would take the applicant into his home and become sponsor for his future good conduct.

In consideration of all the circumstances of this case; the prior good record of the applicant with a single exception; the excessive sentence imposed; the term of imprisonment already served; and because of the fact that Dr. Keegan, a prominent and reputable surgeon of Philadelphia, will take the applicant into his home and become sponsor for his future welfare, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Joseph Strank.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 54, September Sessions, 1928, in the Court of Quarter Sessions of the Peace in and for the County of Lehigh, Joseph Ogrydziak was convicted of the larceny of an automobile, receiving stolen goods and tampering with a motor vehicle, and on September 27, 1928, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than two and one-half years, nor more than five years.

The applicant is thirty-one years of age, a native-born citizen of the United States. He is a laborer by occupation, but for the past fifteen years, due to the complete loss of his right arm, he was engaged as a salesman for different concerns, and at the time of the commission of the crime in question, was employed by the Four-In-One Rod Company of Hazleton, Pennsylvania. He is unmarried, and resided in the City of Hazleton with his mother.

The applicant was in the city of Allentown on August 7, 1928. On the evening of that day, he met a man by the name of Brogan and later a man by the name of Schekels, both of the city of Wilkes-Barre. He had met Brogan before, and understood that he was the chauffeur for one Julius Schwartz, alias Yankee Schwartz, whose home was in Atlantic City, New Jersey, but who was in Allentown at that time. The

three men went to a pool room in the central part of the town. After playing cards for an hour, Brogan suggested that they take a ride. The applicant accompanied Schekels and Brogan in the Chevrolet automobile of Schwartz to Bethlehem. On the return to Allentown, the applicant fell asleep, and while asleep, they met with an accident, the nature of which he cannot describe. The result of the accident was the destruction of the car and the applicant received a compound fracture of the skull. He was taken to the hospital in an unconscious condition, where he remained for some time. Neither of his companions were injured and they made their escape. Schwartz, the owner of the car, maintained that the car was stolen, that it had been taken without his knowledge or consent. He collected theft insurance on the car. Brogan the driver of the car was never arrested. After the applicant's recovery, he was arrested for the theft of the car, although there was no evidence to connect him with the felonious taking of the car. The applicant had no license to drive an automobile, and never did drive a car on account of his crippled condition. He was merely a passenger and was in the car by invitation of the chauffeur.

The applicant has now served one year and three months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board, a petition of citizens of the City of Hazleton requesting clemency. There was also filed with the Board, affidavits showing that Brogan and Schwartz, owner of the car, were close personal friends; that the former drove the car in question on many occasions with the consent of the owner; that the owner of the car on the night of August 6, 1929, stated that he had loaned his car to Brogan, his "lieutenant" and that Brogan had the keys to Schwartz's car.

In consideration of all the circumstances of the case; the grave doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the petition of citizens filed with the Board recommending clemency and letters from citizens to the same effect, we have concluded that the applicant has been sufficiently punished, and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Joseph Ogrydziak.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 26, October Sessions, 1923, in the Court of Oyer and Terminer in and for the County of Chester, John H. Conway pleaded guilty to murder in the second degree and on October 4, 1923, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than eight years nor more than sixteen years.

The applicant is forty-nine years of age, a native-born citizen of the United States, a cabinet maker by occupation, but at the time of his arrest, he was Chief of Police in the Borough of Malvern, Chester County. He had a wife and three children, at the time of his arrest.

While on duty as Chief of Police, about midnight on April 29, 1923, the applicant noticed two colored men trying to open a door of a restaurant on King Street, Malvern, owned and operated by a man named Downs. Inasmuch as the restaurant was closed at that hour, he questioned the young men as to what they were doing and asked who they were, as he did not

know them. The answers were not satisfactory and the applicant placed them under arrest, as suspicious characters. On the way to jail, two other young men ran up behind the applicant, and he believing that he was about to be attacked from the rear, drew his revolver and in so doing, the revolver was discharged, the bullet striking William Mitchell, one of the men who was under arrest. It was midnight, and the applicant was surrounded by four young men and with no assistance near at hand, and naturally feared attack. The applicant surrendered to the proper authorities and was placed under arrest to await the result of Mitchell's injuries. Mitchell died three days later of peritonitis. The applicant was indicted for murder. After the trial had continued two days, upon the advice of counsel, he pleaded guilty to murder in the second degree.

The applicant has now served six years and two months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent as appears from a letter from the Deputy Warden of the Penitentiary.

There were filed with the Board, letters from the resident physician of the Penitentiary at Rockview; a letter from Dr. Newcomb, medical director, Dr. Sheldon and J. Bruce McCreery, Deputy Secretary of Health, to the effect that the applicant is suffering from pulmonary tuberculosis; that this condition is aggravated by his environment, and that it is possible with a change of climate and proper care and treatment in favorable surroundings, his life might be prolonged.

There were also filed with the Board a petition of citizens and a number of letters recommending clemency, from the President of the National Bank of Malvern, Chief Burgess and others. The present District Attorney, who was one of counsel for the applicant at the time of his trial, in a letter filed with the Board recommends clemency. Butler Windle, who was trial District Attorney and who is now one of the Judges of Chester County, has filed with the Board, a letter which evinces a favorable attitude towards the applicant.

In consideration of all the circumstances of this case, the prior good record of the applicant; the term of imprisonment already served; because of the favorable attitude of the trial District Attorney and the present District Attorney, and because of the recommendation of the Chief Burgess, the President of the National Bank of Malvern, and others, but in particular, because of the reports of three physicians who have examined the applicant and pronounce him a victim of pulmonary tuberculosis, we have concluded that the applicant has been sufficiently punished, and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John H. Conway.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 310, April Sessions, 1922, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Bernard Sauers alias Bernard Benton pleaded guilty to an indictment charging him with entering with intent to steal and larceny, and on April 19, 1922, was sentenced to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than eight years, nor more than ten years.

The applicant is fifty-two years of age; a native-born citizen of the United States. He was married and has two children, aged sixteen and eleven years respectively. He is a

house painter by occupation and at the time of his arrest resided in the city of Philadelphia, but was separated from his family.

On the afternoon of April 4, 1922, the applicant entered the apartment of Mrs. Evans at 1527 Spruce Street, Philadelphia, and there stole jewelry valued at twenty-five hundred dollars. Four days later he entered the apartment of Mrs. Margaret Baruth, 1633 Girard Avenue, Philadelphia, and stole money and jewelry to the amount of five hundred forty-one dollars. About the same time he attempted to enter the apartment of Mrs. Charles Fell, 1506 Green Street, but withdrew upon the approach of another tenant in the apartment. There was no one at home in any of the apartments entered by the applicant and each apartment was entered by means of a false key. None of the offenses of which he was guilty had been accomplished by violence. While he was indicted on four bills, the indictment to No. 310 above-stated, covered the robbery of Mrs. Baruth and it was on this indictment he was sentenced. The three other indictments were nolle prossed.

Shortly after the applicant was confined in the Eastern Penitentiary on the present charge he developed pulmonary tuberculosis accompanied with hemorrhages which became progressively worse and he was advised it would result in death, unless he was transferred to a different climate. On April 1, 1929, he was transferred to the Rockview Farm, but he is growing weaker and has spent the last several months in the hospital of that institution.

Doctor McLaughlin, resident physician at Rockview, has filed a letter with the Board in which he states that the applicant is suffering from pulmonary tuberculosis; that his general condition is poor; and that he has a constant cough and progressive loss of weight. Doctor Charles W. Sheldon, of Tioga County, medical director, on November 6 last, by direction of the State Department of Health, made a physical examination of the applicant as a result of which he states that the applicant is suffering with chronic tuberculosis, both lungs being involved. That he has had frequent hemorrhages and that his weight has diminished from 178 pounds to 145 pounds.

The applicant has now served seven years, eight months of his term of imprisonment. His prior record was not good. It appears that he is suffering from advanced chronic tuberculosis and that there is no hope of recovery unless he is taken to where he can receive special institutional care. Rebecca Garber, aunt of the applicant, has filed with the Board a letter in which she states that she is financially able and will defray all necessary expenses involved in sending the applicant, if released, to his mother who resides in California. She states that the latter has sufficient means to care for him for the balance of his life.

In consideration of all the circumstance of this case; the term of imprisonment already served; because of the grave physical condition of the applicant with no hope of recovery unless released from prison; because of the fact that his relatives, who are financially able to do so, will send him to California to his mother where he will be cared for, for the remainder of his life; we have concluded that the applicant has been sufficiently punished and if now released, not only will his life be prolonged but he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Bernard Sauers alias Bernard Benton.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 827 and 828, March Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of

Philadelphia. Richard L. Raleigh together with one Walter Cooper were jointly convicted of conspiracy, and on December 11, 1925, the Court made the following order: "Defendants to enter their own bond in the sum of one thousand dollars (\$1,000.00), to appear for sentence when required." No sentence has been imposed, nor any further action taken since that time.

The applicant is now twenty-eight years of age; a native-born citizen of the United States; a mechanic by occupation; unmarried, and at the time of his arrest he was a member of the Police Force of the City of Philadelphia.

The applicant joined the Police Force in January, 1924, and was assigned to special duty in connection with the enforcement of Prohibition. His work as a policeman was good and he had the confidence of the police officials and was detailed to work in the Special Vice Squad under Lieutenant Charles Lee, operating from the City Hall in Philadelphia. In March, 1925, in company with other officers, he went to the saloon of Croasdale Knott in Germantown, Philadelphia, made a purchase of whiskey and arrested William Knott, son of the proprietor. Croasdale Knott was given a hearing before a magistrate and held under five hundred dollars bail for Court, on the testimony given by the applicant, on the charge of unlawful possession and sale of intoxicating liquor. The saloon keeper and his son, shortly after the hearing, brought a charge of extortion and conspiracy against the officers, which charges were embodied in the indictments on which the applicant was convicted. The applicant and Cooper contended that Croasdale Knott attempted to bribe them.

The character of the Knotts is shown by a brief recital of facts: William Knott, the son, was indicted on two bills of indictment but both indictments were nolle prossed by the District Attorney in March, 1926. Croasdale Knott had pleaded guilty to the illegal possession of intoxicating liquor in the Court of Quarter Sessions of Montgomery County on September 11, 1924, and had then been placed under probation by the Court.

The applicant was convicted on the testimony of Croasdale Knott and Lieutenant Krag of the Police Department, in whose District the raid was made. Croasdale Knott, the prosecutor, on June 24, 1928, and his bartender were held for Court after many quarts of whiskey were confiscated in his saloon. Krag who appeared as witness against the applicant, was subsequently twice discharged from the Police Department.

The applicant, although at liberty, can obtain no relief from the suspended sentence, except through a pardon, the trial Judge having since died.

In consideration of all the circumstances of this case; the prior good record of the applicant; the grave doubt as to his guilt; because during the past four years, while under a suspended sentence, no charges have been made affecting his good conduct; because he can obtain no relief from the suspended sentence except through a pardon, we have concluded that if now relieved from the stigma of his conviction he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Richard L. Raleigh.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1519, October Session, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Harry Krawonch, alias Harry Kriwonis, was convicted

of breaking with intent to commit a felony and on November 7, 1927, was sentenced to pay costs, and undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, nineteen years of age. He resided in the City of Philadelphia with his father, who is a cobbler and has a small shoe repair shop. The applicant's mother is dead. He had no regular occupation.

On the night of October 19, 1927, the applicant was on his way home and stopped in an alley at Eleventh and Porter Streets, Philadelphia, for no improper purpose. He was seen entering the alley by a police officer who followed him and arrested him. The said officer has since been discharged from the Police force of the city. A search revealed that the defendant had a screw-driver in his possession which the police contended could be used as an implement for "breaking" and that it was intended for such use. The applicant occasionally worked in his father's cobbling shop and often carried tools from the shop to his home. In view of the fact that several robberies had been reported in that vicinity at that time, and that the time of the incident was late at night, and the applicant had the screw-driver in his possession, resulted in an unfavorable atmosphere during the trial and the applicant was unable to overcome the unfavorable impression. If released, employment has been offered him by H. Kurtzman & Son, 133 North Third Street, Philadelphia, where he will work under the direct supervision of his older brother.

The applicant has now served two years and one month of his term of imprisonment. He was never before convicted of crime. The present application is made by E. M. Hackney, Probation Officer of the Court of Quarter Sessions, of Philadelphia County, by direction of the trial Judge.

Mr. Hackney has filed with the Board a letter in which he states that he has made a thorough investigation of the case by direction of the Court and finds mitigating circumstances and also doubt as to the applicant's criminal intentions. The trial Judge has filed with the Board a letter in which he states that he believes that the sentence imposed was too severe; that he had directed the parole officer of the Court, Mr. Hackney, to prepare a petition for a pardon and that he recommends favorable action thereon by the Board.

In consideration of all the circumstances of this case; the youth of the applicant when the alleged crime was committed; the doubt as to his guilt; his prior good record; the term of imprisonment already served; because employment has been offered him if released; because of the favorable attitude of the trial Judge and the Probation Officer of the Court, we have concluded that the applicant has been sufficiently punished, and if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Harry Krawonch, alias Harry Kriwonis.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 182, March Sessions, 1926, in the Court of Quarter Sessions of the Peace, in and for the County of Beaver, Harry McClermon pleaded guilty to an indictment charging him with assault and intent to rape and on May 17, 1926, was sentenced to pay a fine of five dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than five years, nor more than ten years.

The applicant is a native-born citizen of the United States; thirty-three years of age. By occupation he is a locomotive fireman for the Pennsylvania Railroad Company. He is married and has a wife and a four-year old child.

On Sunday afternoon, May 9, 1926, about 2.00 o'clock, the applicant was very much under the influence of intoxicating liquor, in the town of Conway, Beaver County, from which town he started his trips as a locomotive fireman for the Pennsylvania Railroad Company. He walked to the outskirts of Conway to try to locate some of his associates for a game of cards. On the way he was accosted by an Italian girl, Lucy Lodovic, under sixteen years of age, who asked him for money to buy candy. Being of a generous disposition, especially while under the influence of liquor, he complied with her request and went to his destination. Not finding his associates, he went into a shack back of the Y. M. C. A. building, to take a rest in order to get into condition to go to work at midnight. After going upstairs and being sound asleep for about half an hour, the girl came up, aroused him and wanted more money. The applicant tried to persuade her to go away, but she still clamored for more money. Suddenly her father and brother came upon the scene, with about forty foreigners. The girl started to cry. The applicant battled his way through the crowd and escaped. On the following morning he was arrested at Rochester by the State Police. He was taken to the Barracks where the girl's father appeared. He was not sure of the identification, and applicant was then persuaded to sign a statement acknowledging assault with intent to rape. No evidence was introduced in Court that the girl had been outraged, but due to the circumstances surrounding the case, State Trooper Bush now deceased, advised the applicant to plead guilty to the charge with the understanding that the applicant would receive a light sentence.

The applicant has now served three years and seven months of his term of imprisonment. He was never before charged with or convicted of crime.

The applicant is a veteran of the foreign wars and during the service contracted typhoid pneumonia which left him mentally deranged. The U. S. Veterans Bureau in April, 1927, made an examination and pronounced him forty per cent. mentally incapacitated. In October, 1928, two specialists of the United States Bureau, made another examination and confirmed the report of the first examination. According to letters on file with the Board, the applicant has now fully recovered his mental health. It is not free from doubt whether the applicant at the time of the alleged offense had sufficient mentality, due to intoxication and enfeebled mind, to form a specific intent to commit crime. The applicant's wife and small child are in Arizona. The wife is a victim of tuberculosis and both require the support of the applicant.

There was filed with the Board a letter from the trial District Attorney in which he refers to the prior good record of the applicant and to the need which his family has for his assistance. He concludes by saying, "I have talked this matter over with Honorable Frank E. Reader, the Judge who heard this plea, and we are of the opinion that the demands of justice have been met in this case and we will raise no objection to the granting of a pardon by your Honorable Board." The County Judge and Surrogate of Sullivan County, New York, has filed with the Board a letter in which he states that the applicant belongs to a good family identified with that village, and that when the applicant returned from the World War, his mental condition was bad and that for a time he was in the Middletown State Hospital; that he comes of good family and he would like to have his application receive favorable consideration.

In consideration of all the circumstance of this case; the prior good record of the applicant; the term of imprisonment already served; because of the doubt as to the mental capacity of the applicant when the crime was committed and doubt as to his guilt; because of the need which his wife and child have of support; and because of the favorable attitude of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and

in open session," recommend that a pardon be now granted to the said Harry McClernon.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 435, August Sessions, 1928, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Harry Diddlebock pleaded guilty to an indictment charging him with assault, being armed with an offensive weapon (two counts), and robbery (two counts), and on August 21, 1928, was sentenced by the Court to pay costs, and to undergo imprisonment in the Philadelphia County Prison for a period of not less than three years nor more than ten years. He was subsequently transferred to Rockview Penitentiary.

The applicant is a native-born citizen of the United States; twenty-nine years of age; he is married, has a wife and two children and resided in the City of Philadelphia.

On or about August 8, 1928, the applicant appeared at the Detective Bureau in the City Hall, about noon, and said that he wanted to clear his conscience. He stated that on the night of June 11, 1928, he and two other men, Claude Wasson and one, Ryan, were in an automobile which had been previously stolen by Wasson in the section of the city where he resided. He stated that all three had been drinking and that he was very much under the influence of liquor and sick. They stopped at Twenty-third and Chestnut Streets and the two men left the automobile (in which he occupied the back seat), and went into the restaurant kept by one John Karabinas, the applicant feeling too ill to accompany them. The two men came out of the restaurant shortly after and while they were driving away they aroused the applicant and told him they had held up the proprietor of the restaurant. An investigation of the matter was made, which proved the facts to be as stated. The stolen automobile was recovered. The restaurant keeper identified Wasson as one of the men who had held him up at the point of a gun and robbed him of thirteen dollars, but he could not identify the applicant. It was only through the confession of the latter that it was learned who had committed this crime. The third man was never apprehended.

The applicant has now served one year and four months of his term of imprisonment. He was never before charged with nor convicted of crime; he has a wife and two children who are dependent upon him for support. The applicant's conduct in the County Prison was so good that he was transferred to the Rockview Penitentiary more than seven months ago.

There was filed with the Board a letter from John Karabinas, the man who was robbed, who is the prosecutor in the case, in which he recommends clemency. Among other things he states, "It was purely a case of too much drink, for the boys did not harm anyone, although they could have done so." He further states that the defendant has a wife and two children dependent upon him for support, and that his prior record was good, and that he also had a splendid war record.

In consideration of the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the fact that his wife and two children are dependent upon him for support and because of the recommendation of the prosecutor in this case, we have concluded that the applicant has been sufficiently punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Harry Diddlebock.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 40 and 41, February Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Crawford, Earl Hunt pleaded guilty to two indictments, charging him with forgery and on February 27, 1928, was sentenced in the aggregate to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than two and one-half years, nor more than five years.

The applicant is a native-born American citizen, thirty-eight years of age and a farmer by occupation. He was unemployed at the time of his arrest. He has a wife and child dependent upon him for support.

In December, 1927, the applicant made a trip to Titusville, Pennsylvania, in order to seek employment and to settle up his father's estate. While there, the tires on his car went bad and being about seventy-five miles from his home, in New York State, he forged two checks aggregating in amount forty dollars. After buying one tire he sent twenty dollars to his wife for her support and the support of their four-year-old daughter. They knew nothing about the crime until his arrest in February, 1928.

The applicant has now served approximately one year and ten months of his term of imprisonment. He was never before charged with nor convicted of crime. His prison record is excellent as appears from a letter from the trial Judge. His wife and four-year-old child are in destitute circumstances and require his support. While in prison he completed a course of instruction in agriculture and kindred topics at the Pennsylvania State College.

There was filed with the Board a letter from the trial Judge in which he recommends clemency because of the applicant's excellent prison record; because of the fact that he has completed a course of instruction at the Pennsylvania State College and because his wife and child are in destitute circumstances. The trial District Attorney has also filed a letter with the Board in which he strongly recommends clemency. There was also filed with the Board a number of letters to the same effect from citizens of New York State, including one from the City Editor of the Jamestown Journal and from others who have known the applicant for many years. Four of the writers served with him in the National Guard of New York on the Mexican Border during the years 1916 and 1917.

In consideration of all the circumstances of this case; the prior good record of the applicant; his excellent prison record; the term of imprisonment already served; because the applicant's wife and child are in destitute circumstances and require his support, and particularly because of the strong recommendations of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and

in open session," recommend that a pardon be now granted to the said Earl Hunt.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 40, April Sessions, 1929, in the Court of Oyer and Terminer in and for the County of Lehigh, Raymond J. Whitehead was convicted of burglary and on April 8, 1929, was sentenced to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Lehigh County Prison for a period of not less than one year, nor more than two years.

The applicant is twenty-nine years of age and a native-born American citizen. He is a truck driver by occupation and at the time of his arrest was so employed in the city of Allentown, where he resided with his wife and four children, aged eight, six, four and three, respectively.

On January 27, 1929, at about 11.00 o'clock P. M. the house of George Mest, located in Alburtis, Lehigh County, was entered by three men who started to shoot. Mest jumped out of the window and went to his father's house in the village of Alburtis. When he returned to his home, the men had gone and there was missing the sum of five hundred seventeen dollars which he had in a coat hanging behind the door. At the trial of the applicant Mest testified to the above facts and further stated that when the men broke into the house he ran into another room and jumped out of the window and when asked if the applicant was one of the men in the house that night, he said that he "looked like him." Ten days after the occurrence, the applicant was arrested and indicted. Mest was the only witness. The applicant did not testify nor were any witnesses called in his behalf. There were filed with the Board five affidavits of persons who spent the evening at the Whitehead home on night when the alleged crime was committed. They all aver that the applicant was at his home continuously until midnight, about which time he took two of the affiants, women, to their homes and returned to his own home within half an hour thereafter.

There was filed with the Board a letter from the assistant trial District Attorney in which he states that in his judgment the applicant is innocent of the commission of this crime; that the prosecutor has been a flagrant violator of the criminal laws and that his testimony is not worthy of belief; that the prosecutor was the only witness against the applicant and failed to positively identify him as one of the men who entered his place that night, but stated that he "looked like the man." Both the trial District Attorney and assistant recommended clemency. The trial Judge has also filed with the Board a letter in which he states that there may have been a miscarriage of justice in this case and that he would parole the applicant if within his power, and that the present application for pardon was made at his suggestion. The Warden of the Lehigh County Prison has filed a letter in which he states that the applicant's prison record is good and he recommends clemency.

The applicant has now served eight months of his term of imprisonment. He was never before charged with or convicted of crime.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; his excellent prison record; because the applicant's family requires his support; because of the favorable attitude of the trial District Attorney and assistant, and the trial Judge and because of the affidavits filed which practically establish an alibi on behalf of the applicant, we have concluded that he has been suffi-

ciently punished and if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Raymond J. Whitehead.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 15, June Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Luzerne, Joseph Osiecki pleaded non vult contendere on the charge of attempt to rob, and on May 28, 1928, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than two years, nor more than four years. Peter Fiume and Nicholas Osticco were jointly indicted with him and received the same sentence.

The applicant is twenty-one years of age; a native-born citizen of the United States; a miner by occupation and was so employed at the time of his arrest by the Pennsylvania Coal Company. He resided in Pittston, Pennsylvania, with his mother, a widow, aged about fifty years, who is now a cripple and unable to work. The applicant is the oldest of the family.

On the morning of March 16, 1928, at about 6.00 o'clock A. M., Harry H. Hower, of Bloomsburg, while driving a truck which contained a load of paper, was held up on South Main Street, Pittston, by three men, Peter Fiume, Nicholas Osticco, and the applicant, who came alongside him in a car. Two of the defendants got on his running board and pointing a pistol, brought him to a stop. After investigating the contents of the truck, the three men left. All of the above facts were admitted by the intending robbers, except that they deny pointing a gun, although one of them admitted having a gun in his possession. All of the men admit that they were out that morning to hold up a beer truck, if one came along, and help themselves to the beer, but not to the truck. They mistook Hower's truck for a beer truck and therefore held him up. Finding that the contents of the truck was paper instead of beer, they got into their own car and drove away.

The applicant has now served one year and seven months of his term of imprisonment. He was never before charged with nor convicted of crime. He was only twenty years of age when this crime was committed. He has a widowed mother, who is crippled and unable to work, dependent upon him for support.

There were filed with the Board, three letters recommending clemency; one from F. L. Coursen of the Coursen Hardware Company, Pittston; one from Representative Hefferon; and one from F. L. Scrudato, Notary Public. All of them refer to the good reputation of the applicant and his co-defendants and recommend pardon so that these men, if released, can support their families.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; the need of his widowed mother, who is crippled and unable to work and dependent upon him for support, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and

in open session," recommend that a pardon be now granted to the said Joseph Osiecki.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 15, June Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Luzerne, Nicholas Osticco pleaded non vult contendere on the charge of attempt to rob, and on May 28, 1928, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than two years, nor more than four years. Peter Fiume and Joseph Osiecki were jointly indicted with him and received the same sentence.

The applicant is nineteen years of age, a native-born American of Italian parentage, and by occupation a miner, employed by the Pennsylvania Coal Company. He resided in Pittston with his mother, a widow.

On the morning of March 16, 1928, at about 6:00 A. M., Harry H. Hower, of Bloomsburg, while driving a truck which contained a load of paper, was held up on South Main Street, Pittston, by three men, Peter Fiume, Joseph Osiecki, and the applicant, who came alongside him in a car. Two of the defendants got on his running board and pointing a pistol, brought him to a stop. After investigating the contents of the truck, the three men left. All of the above facts were admitted by the intending robbers, except that they deny pointing a gun, although one of them admitted having a gun in his possession. All of the men admit that they were out that morning to hold up a beer truck, if one come along, and help themselves to the beer, but not to the truck. They mistook Hower's truck for a beer truck and therefore held him up. Finding that the contents of the truck was paper instead of beer, they got into their own car and drove away.

The applicant has now served one year and seven months of his term of imprisonment. He was never before charged with nor convicted of crime. He was only eighteen years of age when this crime was committed. He has a widowed mother dependent upon him for support.

There were filed with the Board, three letters recommending clemency. One from F. L. Coursen of the Coursen Hardware Company, Pittston; one from Representative Hefferon; and one from F. L. Scrudato, Notary Public. All of them refer to the good reputation of the applicant and his co-defendants and recommend pardon so that these men, if released, can support their families.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; the need of his widowed mother for his support, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Nicholas Osticco.

Board of Pardons.

Harrisburg, Pa., December 18, 1929.

His Excellency, John S. Fisher, Governor.

Sir: At No. 15, June Sessions, 1928, in the Court of Quarter Sessions of the Peace in and for the County of Luzerne, Peter Fiume pleaded non vult contendere to the charge of attempt to rob, and on May 28, 1928 was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than two years, nor more than four years. Nicholas Osticco and Joseph Osiecki were jointly indicted with him and received the same sentence.

The applicant is nineteen years of age, a native of the United States but of Italian parentage, and by occupation a truck driver. He resided in Pittston with his father-in-law. He was married eight months before the commission of this crime.

On the morning of March 16, 1928, at about 6:00 o'clock Harry H. Hower of Bloomsburg, while driving a truck which contained a load of paper, was held up on South Main Street, Pittston by three men, Nicholas Osticco, Joseph Osiecki and the applicant, who came alongside him in a car. Two of the defendants got on his running board and pointing a pistol, brought him to a stop. After investigating the contents of the truck, the three men left. All of the above facts were admitted by the intending robbers, except that they deny pointing a gun, although one of them admitted having a gun in his possession. All of the men admit that they were out that morning to hold up a beer truck, if one came along, and help themselves to the beer but not to the truck. They mistook Hower's truck for a beer truck and therefore held him up. Finding that the contents of the truck was paper instead of beer, they got into their own car and drove away.

The applicant has now served one year and seven months of his term of imprisonment. He was never before charged with or convicted of crime. He was only eighteen years of age when this crime was committed. He has a wife dependent upon him for support.

There were filed with the Board, three letters recommending clemency. One from F. L. Coursen of the Coursen Hardware Company, Pittston. One from Representative Heffernan and one from F. L. Scrudato, Notary Public. All of them refer to the good reputation of the applicant and his co-defendants and recommend pardon so that these men, if released, can support their families.

In consideration of all the circumstances of this case; his prior good record; the youth of the applicant when the crime was committed; the term of imprisonment already served; the need which his wife has for support, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Peter Fiume.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 52, June Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Indiana, Raymond McCloskey pleaded guilty to an indictment charg-

ing him with larceny, and on July 2, 1929, was sentenced to pay costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two years nor more than four years. Francis Skelly was jointly indicted with the applicant and received a like sentence.

The applicant is twenty-two years of age, a native-born citizen of the United States, a laborer by occupation, and at the time of his arrest was employed by Pelliccioni and Wise, of Gallitzin, in the cutting and manufacturing of paper wood. He is unmarried and resided with his mother, a widow, in Gallitzin.

On the evening of June 25, 1929, the applicant with one, Skelly, while in the borough of Gallitzin, drank a quantity of moonshine liquor. While under the influence of the beverage, they went across the street and sat in a Nash sedan, and while there discovered that the car was not locked. Skelly suggested that they go for a ride and asked the applicant if he could drive. When the applicant replied in the affirmative, he said, "Let's go," after which they left Gallitzin in the automobile and drove to Blairsville. Upon arriving at the latter place they discovered that a bearing in the car had burned out so they placed the car in a garage for repair. By this time, realizing that they had committed a serious offense, they decided that they must find some way out of it. Seeing an automobile standing on the street with a key in it they decided to take the car. They drove this automobile almost to Washington, Pennsylvania, where it crashed into a train. The applicant and his companion were arrested on suspicion and were in the Washington jail for about a week, and then taken to Indiana, where they entered pleas of guilty.

The applicant has now served six months of his term of imprisonment. He was never before charged with nor convicted of crime. He carries two honorable discharges from the United States Army.

There was filed with the Board a letter from the trial Judge in which he states that the applicant had appeared in open court without counsel and pleaded guilty to the charge; that the applicant had a good reputation and that his offense was caused by intoxication. He further states that the applicant's mother requires his help and that he believes that he would lead an honest life if he were paroled, and that had the Court been conversant with all of the facts, which have since been disclosed, the sentence would not have been so severe. There was also filed with the Board a letter from Colonel Reynolds, Commandant of the Medical Field Service School at Carlisle, in which he pronounces the applicant honest and reliable, and states that his offense was a boyish prank, the result of an error of judgment, rather than criminal intent. The trial District Attorney has filed with the Board a letter which evinces a favorable attitude toward the present application. He states that the applicant is young, that his offense was a boyish prank rather than the act of a hardened criminal, and that it was committed while under the influence of liquor. The cashier of the First National Bank of Gallitzin, in a letter filed, also recommends clemency.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; the recommendations of the trial Judge and others, and the favorable attitude of the trial District Attorney, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment imposed by the Court should be commuted to one year, effective July 2, 1930.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the minimum term of imprisonment heretofore imposed on the said Raymond McCloskey, be commuted to one year, expiring on July 2, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

## Commonwealth of Pennsylvania

## Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 40, October Term, 1921, in the Court of Oyer and Terminer in and for the County of Lackawanna, Max Klim, alias Max Klem, was convicted of murder in the second degree, and on February 4, 1922, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years nor more than fourteen years.

The applicant is a native of Russia, thirty-three years of age. He is a coal miner by occupation and at the time of his arrest was employed as such by the Delaware and Hudson Coal Company, at Carbondale, Pennsylvania. He is unmarried. At the time of his arrest he resided in Simpson, Lackawanna County.

On Labor Day, September 5, 1921, a party of about twenty men and women were gathered in the home of one Narkovitch in Simpson. All of the members of the party (including the applicant and three other men who were later charged with causing the death of Alexander Sahosky), were drinking and playing the accordion and dancing. An altercation arose between some of the members of the party, the men dividing themselves into opposing groups and a free-for-all battle ensued in a vacant lot adjoining the Narkovitch home. During the melee Sahosky received fatal injuries. The quarrel which resulted in his death took place about the middle of the afternoon. He died in the evening. Four men, including the applicant, were arrested and taken to the Lackawanna County Jail and held for trial. Narkovitch, at whose home the quarrel took place, and who had furnished the liquor for the crowd, was permitted to enter bail, and after turning State's evidence, was never brought to trial. The four defendants, including the applicant, were represented by counsel appointed by the Court.

The applicant has now served almost eight years of his term of imprisonment. He was never before charged with nor convicted of crime. Theodore Sedora, a co-defendant, was pardoned by this Board in September, 1926, having served but little more than four years. The applicant alone is in prison, the others are freed.

The trial Judge and trial District Attorney have filed letters with the Board in which they neither recommend nor oppose pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; because of the fact that all of his co-defendants are at liberty (Sedora, one of the number having served little more than four years), we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to eight years' imprisonment, effective on February 4, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum term of imprisonment heretofore imposed on the said Max Klim, alias Max Klem, be commuted to eight years' imprisonment, effective February 4, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor,

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 170, September Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of Centre,

James S. Lee, alias James Lees, pleaded guilty to an indictment charging him with breaking and escaping penitentiary, and on November 28, 1925, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two and one-half nor more than five years; sentence to compute after the completion of a former sentence from Philadelphia County for the larceny of an automobile.

Prior to the above-mentioned sentence, the applicant was convicted in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, at No. 275, November Sessions, 1924, of the larceny of an automobile, and sentenced to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than two and one-half years nor more than five years.

The applicant, is twenty-eight years of age, a native-born citizen of the United States, and a printer by occupation. At the time of his first arrest in 1924 he was an employee of a junk dealer and resided in the City of Philadelphia. He has a wife and one son, four and one-half years old.

The applicant was married in 1924, and received his first sentence in January, 1925, prior to the birth of his infant son. Upon his escape from Rockview, he went directly to his wife and child in the City of Philadelphia, and it was there he was retaken into custody, returned to Centre County, and sentenced by the Court of that County for his escape. From the letter of the wife, now on file with the Board, and all the attendant circumstances, it would seem that the sole reason for the escape, was his desire to see his wife and new-born child.

The applicant has now served four years and two months of his term of imprisonment imposed for breaking and escaping. The Judge who sentenced him appeared before the Board as his counsel.

In consideration of all the circumstances of this case; the need which his family has of support; and the term of imprisonment already served, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the maximum sentence if imprisonment heretofore imposed by the Court should be commuted to four years and one month of imprisonment, effective on December 28, 1929.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the maximum sentence of imprisonment heretofore imposed on the said James S. Lee, alias James Lees, be commuted to four years and one month's imprisonment, effective December 28, 1929.

ARTHUR H. JAMES,  
Lieutenant Governor.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 128, September Sessions, 1925, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, Jacob Marbin pleaded nolo contendere to an indictment charging him with conspiracy to cheat and defraud. William D. Rodgers, Rudolph C. Bender, Isidor Griver, Alfred Scarlett, Samuel B. Lush, and Alexander A. Roseman, were jointly indicted with the applicant. All defendants either pleaded guilty or nolo contendere and received sentences of varying lengths. On November 6, 1925, the applicant on the indictment above mentioned was sentenced to pay costs, and to undergo imprisonment in the Philadelphia County Prison for a term of seven years. The applicant was also convicted under two other indictments and pleaded nolo contendere to certain other indictments, but sentence was only imposed on the one charge above stated.

The applicant was involved in a long series of indictments, as of September Sessions, 1925, in the said Court and was therein charged with conspiracy to cheat and defraud, obtaining money under false pretenses, and making false statements in writing and obtaining property thereby.

The applicant is a naturalized citizen of the United States, sixty years of age, and at the time of his arrest was engaged in the real estate business in the City of Philadelphia. He has a wife, one son, and two daughters.

The applicant was not an officer or director in any of the group of seventeen building and loan associations which disastrously failed, causing criminal proceedings to be instituted against twenty defendants, including himself. The State Banking Department in taking over the books and papers of these looted associations, discovering the hopeless financial tangle there, caused an investigation to be made, which was followed by many arrests, including that of the applicant, who was an endorser on numerous notes issued by the said building and loan associations for the securing of loans from trust companies and also persons engaged in the business of loaning money for large bonuses. Some time prior to the charges being made, the applicant resigned from all of these associations involved in the indictments and entered into a written agreement with Lush, one of his co-defendants, whereby he transferred to Lush free stock in the associations which had cost him approximately fourteen thousand dollars and Lush agreed to indemnify the applicant against any loss. The applicant avers that he did not make any false statements and did not embezzle any moneys belonging to said associations and states that he did not have sufficient education to prepare statements of the financial condition, did not prepare them and had no knowledge of the contents of the statements used to secure loans upon notes of the associations. After the trials, the applicant under a plan of rehabilitation turned over to the persons in charge of said plan equities in real estate, full-paid stocks and notes at a cost value to him of one hundred fifty thousands dollars which was his entire estate.

The applicant has now served four years and two months of his term of imprisonment. He was never before charged with nor convicted of crime. Two of his co-defendants, Lush and Griver, were paroled on December 6, 1929, and the sentence of Roseman another co-defendant was, in December, 1929, commuted by this Board, and the term of imprisonment reduced to four years and one month, expiring December 6, 1929. The said Roseman is now also at liberty.

There were filed with the Board a number of letters recommending clemency. The applicant's wife is an invalid, and has for many months past been confined in a sanatorium. His son, who has a wife and three children, is in bad health and is unable to contribute to the support of his mother, who is in destitute circumstances.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because he surrendered his entire estate to satisfy his creditors; because his wife, an invalid, requires his support; because of the fact that two of his co-defendants have been paroled and a third one, Roseman, has already been released by this Board, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the sentence of imprisonment heretofore imposed by the Court should be commuted to four years and two months' imprisonment effective January 6, 1930.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the term of imprisonment heretofore imposed on the said Jacob Marbin, be commuted to four years and two months imprisonment, effective January 6, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 539 and 540, August Sessions, 1922, in the Court of Oyer and Terminer, in and for the County of Philadelphia, David Goldman was convicted of arson and conspiracy to wilfully, maliciously and feloniously cause a dwelling house to burn, and on November, 1922, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than ten years, nor more than twelve years. David Sonis and Benjamin Sonis, who were jointly indicted and convicted with the applicant, received like sentences.

The applicant is thirty-six years of age; a native-born citizen of the United States and a machinist by occupation. At the time of his arrest he was engaged in operating a public garage for his mother and resided with his wife in the City of Philadelphia.

The applicant while engaged in conducting a garage became acquainted with one, Weisfeld, who occasionally stored his automobile at the garage. He had known him about two months prior to the applicant's arrest, but knew nothing about his character, habits or associates. A few days before the applicant's arrest, Weisfeld came to the garage with David Sonis, later a co-defendant, to arrange with the applicant to assist in removing by stealth, certain merchandise from the store and dwelling of Benjamin Sonis, David Sonis' brother, at 58th and Rodman Streets, Philadelphia, the avowed purpose being to aid Benjamin Sonis in defrauding his creditors. At this time the applicant had no knowledge that arrangements had already been made to burn the building. The applicant was engaged by Weisfeld to operate the automobile which would assist in removing the merchandise. On the following Sunday, the applicant went with Weisfeld to the premises at midnight, as a result of arrangements made by the latter with Sonis' brother. Weisfeld and the applicant entered the premises and when they had gone inside, Weisfeld requested the applicant to take a seat in the kitchen and wait a few minutes while he went to the front of the premises. The applicant had remained and about ten minutes later he smelled gasoline and went immediately to see what Weisfeld was doing. He saw Weisfeld pouring gasoline over the furniture, whereupon the applicant left the premises by the back door, jumped over the rear fence and started to walk to the automobile in which he had come to the premises, when he was arrested by the fire marshal, who, having previously received information that the building was about to be burned, had thrown a guard around the building. Shortly thereafter Weisfeld came out of the premises and started to run, disappeared in the darkness, escaped and has never been arrested. Immediately after his arrest, the applicant told the assistant fire marshal that he did not know the building was to be burned and had been engaged by Weisfeld and the Sonis brothers to aid in the secret removal of the merchandise for which he was to receive one hundred dollars. Upon the arrest of Benjamin Sonis, there was found in his possession a receipt signed by Weisfeld for two hundred and fifty dollars for the money which Sonis paid to Weisfeld. At the trial, the applicant was convicted chiefly on the testimony given by Benjamin Sonis and the circumstantial evidence of the fact that he was arrested upon leaving the premises.

The applicant has now served seven years, two months of his term of imprisonment. He was never before charged with or convicted of crime. David Sonis, one of his co-defendants, was pardoned by this Board in September, 1925. Weisfeld was never apprehended.

There were filed with the Board two letters from Doctor Linn Bowman, Moral Instructor of the Penitentiary, in which he states that in a conference with the trial Judge (who had formerly opposed a pardon), the latter declared that while he would not recommend a pardon in this case, he really had no objection thereto. Doctor Bowman strongly recommends a pardon because of the former record of the applicant; because the applicant's family sorely requires his assistance and because the trial Judge and the District Attorney's office are not opposed thereto. There was also filed with the Board a number of letters recommending clemency.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; his prior good record; the long term of imprisonment already served; the need of his family for support; because David Sonis, one of his co-defendants was pardoned by this Board more than four years ago; because the trial Judge and District Attorney's office do not object to clemency; because of the letters filed in behalf of the applicant and the strong recommendation for clemency on the part of Doctor Bowman, we have concluded that the applicant has been sufficiently punished and if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said David Goldman.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, October Term, 1903, in the Court of Oyer and Terminer in and for the County of Carbon, Martin Leskoski was convicted of murder in the first degree and on March 27, 1909, was sentenced by the Court to be hanged. In October, 1917, the sentence of death was commuted to life imprisonment.

The applicant is fifty-five years of age and owes allegiance to Austria. He is a rock miner by occupation and was so employed at the time of his arrest. He resided in Lansford, Carbon County, with his wife.

Mary Yananchik resided with her husband, Valent Yananchik, in the Borough of Lansford, and on the evening of July 20, 1903, while on her way home from a visit to a neighbor, was shot and died the following evening from the effect of a bullet wound.

The applicant with a number of others boarded in the home of Valent Yananchik, and not being satisfied with his work as a rock miner, decided to go to the soft coal region in search of other work. On the evening of the day in question, the applicant changed his clothes, packed his trunk and stated that he would send a letter to Valent Yananchik directing him where to send his trunk. He bade good-bye to his associates in the boarding house and went out the rear of the lot and down an alley. Some time after he left the house, the deceased, while returning from a neighbor's house, was shot near the gate of her home in the same alley traversed by the defendant in leaving the boarding house.

After leaving the house, the applicant first went to a park in Lansford where he was seen and recognized by persons who knew him. After enjoying the bright lights, dancing and other amusements, for about an hour, he boarded a trolley car and went to Tamaqua where he visited a barroom and pawned a pistol. The following morning he was found asleep in the yard of the Reading Railroad Company in Tamaqua and was arrested and brought back to Lansford. He was arrested on complaint of the husband of the deceased.

The alleged crime took place on July 20, 1903, twenty-six and one-half years ago and during that period of time the applicant has suffered imprisonment a period of more than twelve years in the Penitentiary, and was confined in the county jail of Carbon County, at different times since his arrest, almost three years, making a total imprisonment of over fifteen years. He was never before charged with or convicted of crime.

There was filed with the Board a letter addressed to the applicant's counsel, by J. Edward Wasser, M. D., of East Mauch Chunk, in which he states that the applicant is suffering from chronic bronchitis and that in his opinion continued confinement will tend to a progressive aggravation of his heart and

lung degeneration. Doctor Gorman, Medical Director of the Hamburg State Sanatorium, made a recent physical examination of the applicant and also states that the latter is suffering from chronic bronchitis. Doctor McCreary, Deputy Secretary of Health, has filed with the Board a letter in which he states that in his judgment the applicant is suffering from chronic bronchitis.

The trial Judge and the trial District Attorney have both filed with the Board letters in which they recommend clemency. Former District Attorney Grey and the present District Attorney in letters filed with the Board also recommend pardon. President Judge Thomas in a letter to the Lieutenant Governor indicates a favorable attitude.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the seriously-impaired physical condition of the applicant; the recommendations of the trial Judge and the trial District Attorney, District Attorney Grey and the present District Attorney, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a peaceful and law-abiding member of the community.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Martin Leskoski.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. —, September Sessions, 1928, in the Court of Oyer and Terminer, in and for the County of Chester, Marion L. Hoopes waived the finding of a true bill by the Grand Jury, and pleaded guilty to the charge of arson and defrauding an insurance company, and on September 8, 1928, on the charge of arson alone, was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than three and one-half years nor more than seven years. Sentence was suspended on the second charge.

The applicant is a native-born citizen of the United States, thirty-six years of age. He is a farmer by occupation and at the time of his arrest resided in East Fallowfield Township, Chester County. He has a wife, a son aged three years, and a daughter aged twenty-two months.

The applicant was a tenant on the farm of Edward P. Worth. He was seriously involved financially, was deeply in debt, and in order to defraud the insurance company carrying the policies on his personal property, he, on August 15, 1928, set fire to the barn, destroying the crops and farming utensils belonging to him.

The applicant has now served one year and four months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the President of the Bryant Bureau, Incorporated, in which he states that he had investigated the fire on behalf of the insurance carriers. He adds that the applicant was weak, but truthful, and frankly admitted his responsibility. He further states that he believes that the applicant will not break any laws in the future, that he has been substantially punished and that the community will not oppose leniency at this time. The vice-president of one of the insurance-carrying companies has filed a letter with the Board in which he states that his company will interpose no objection to the release of the applicant. There was also filed with the Board a letter from the trial District Attorney, in which he states, that he is advised that the insurance com-

pany does not object to a pardon in this case. He adds: "After a thorough investigation on the part of the District Attorney's office I am satisfied that the petitioner at the time of the commission of the crime was under a severe mental strain due to financial trouble and it is a serious question in my mind whether or not he was mentally responsible for the deed. The man heretofore bore a good reputation and his act was in my judgment the result of his weakened mental and physical condition and not due to any criminal tendency. His wife and family (I understand they have two young children), are in destitute circumstances and are entirely dependent on relatives for support. From information obtained from reliable residents of the neighborhood where the crime was committed I have learned that should you pardon this defendant, your action will meet with the approval of these conversant with the facts surrounding the case."

In consideration of all the circumstances of this case; the term of imprisonment already served; the prior good record of the applicant; because his family are in destitute circumstances and dependent on him for support; and because of the letters from the man who investigated the fire for the insurance carriers, from the vice-president of one of the companies, and particularly because of the letter of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and if now released will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Marion L. Hoopes.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 138, September Term, 1927, in the Court of Quarter Sessions of the Peace in and for the County of Northumberland, Clifford C. Keller pleaded guilty to an indictment charging him with forgery, and on September 27, 1927, was sentenced by the Court to pay a fine of \$500.00, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than three years nor more than six years.

The applicant is twenty-three years of age; a native-born citizen of the United States; and a chauffeur and mechanic by occupation. At the time of his arrest he was employed as a drayman and resided in Sunbury.

John R. Ruch, an automobile sale man, cashed a check for the sum of \$28.00, upon which check the applicant had forged the name of another. He was only twenty-one years of age when he committed this crime.

The applicant has now served two years and four months of his term of imprisonment.

The trial Judge and the trial District Attorney have both filed letters with the Board which indicate a favorable attitude to the present application. The prosecutor in the case also recommends clemency in a letter filed. The Warden of the county prison has filed with the Board a letter in which he testified to the applicant's excellent prison record and recommends a pardon.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; because of the term of imprisonment already served; his good prison record; because of the recommendation of the prosecutor in the case and the favorable attitude of the trial Judge and the trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice

and in open sessions," recommend that a pardon be now granted to the said Clifford C. Keller.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, February Term, 1917, in the Court of Oyer and Terminer, in and for the County of Monroe, Jesse Repsher was convicted of murder in the second degree, and on February 21, 1917, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than fifteen years nor more than twenty years.

The applicant is sixty-one years of age, a native-born citizen of the United States, a laborer by occupation, and at the time of his arrest, was employed as such by Jerome Butts, of Monroe County, Pennsylvania. The applicant was a resident of Pocono Township, said County, is a widower, and has no children.

Charles Paul and the applicant were friends and lived under the same roof. Paul made his home with the Repsher family. Both men were well known and of good reputation. Their only fault was a fondness for strong drink.

On the night of December 2, 1916, Paul and the applicant went to Tannersville, Pennsylvania, to buy fish. Upon arriving at Tannersville, they first went to a hotel and drank liquor. They went to a store across the street and bought fish, tobacco, etc. They then returned to the hotel and drank more liquor. Before leaving the hotel, Paul bought a bottle of gin. On the way home they took several drinks. They arrived home about midnight. Early the next morning Paul arose and began to prepare breakfast for himself. A quarrel arose between him and the applicant over the fact that Paul spilled food on the carpet. During the quarrel Paul knocked the lamp off the table. Shortly after this occurrence the applicant left the house and visited two of his neighbors, when he returned, he first went to the barn. Shortly thereafter he went to the house, opened the door and saw that Paul was still there. What then happened is largely a matter of conjecture for the reason that no witnesses were present. At the trial the applicant claimed that when he opened the door to enter the house, Paul grabbed a shotgun and threatened to kill him; that he ran out and around the corner of the house, Paul pursuing him and shooting at him from the kitchen door. The applicant called to Paul to put the gun down. Again Paul threatened his life and took another shot at him. The applicant avers that he then saw Paul working at the shotgun to expel the shell. Knowing that the ejector in the gun was broken, the applicant rushed into the house, hoping to get the gun away from Paul before he had time to reload. They met in the kitchen; each grabbed the gun and struggled for its possession. In the struggle Paul lost his hold on the gun and went towards the outside kitchen door. The gun discharged almost immediately just as Paul was trying to catch himself on the side of the door. At the trial the plea of self defense was set up by the applicant.

The agreement of counsel as to the facts shows that the kitchen looked as if there had been a fight but no shells could be found. The Commonwealth contended that the killing of Paul was a wilful act on the part of the applicant because the former had teased him about his having been arrested on the charge of burning a haystack and also to remove him as a possible witness in the case. After the shooting the gun was found in the garden some distance from the house. The body was found in the door way and counsel agree that the discharge of the gun may have been of an accidental nature.

The applicant has now served twelve years and eleven months of his term of imprisonment.

There was filed with the Board a letter addressed to the present counsel of the applicant by President Judge Shull, who was counsel for the applicant at the trial, in which he states that in his judgment the applicant has been sufficiently punished and could very safely be paroled without in any way jeopardizing the good order of the community. He adds that under the Ludlow Act the applicant would have been paroled at the end of ten years' imprisonment. The trial District Attorney has also filed with the Board a letter in which because of the age of the applicant and his long term of imprisonment he recommends clemency. A number of letters from the Recorder of Deeds and others were filed with the Board recommending pardon.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant as to wilful murder; the long term of imprisonment already served; because of the favorable attitude of the President Judge and the recommendation of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Jesse Repshe

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 4, May Term, 1919, in the Court of Oyer and Terminer, in and for the County of Washington, Gust Calagas was convicted of voluntary manslaughter, and on May 26, 1919, was sentenced to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than eleven years, six months, nor more than twelve years.

The applicant is forty-three years of age; a native of Greece; unmarried; a baker by occupation and at the time of his arrest conducted a bake shop in Donora, Pennsylvania, with Peter Stoycoff and John Alexoff as partners.

On October 7, 1918, Peter Stoycoff, one of the applicant's partners, was found dead in his place of business with a fractured skull, the injuries to the head having been caused and inflicted by a pick handle, and the Coroner's jury recommended that the applicant be held to await the action of the Grand Jury on a charge of murder. The applicant was subsequently indicted and tried for the murder of his partner, but the jury found him guilty of voluntary manslaughter as before stated.

Inasmuch as it was shown that the applicant had purchased a pickax from a hardware dealer in Donora shortly before the murder, and because there had been controversies between the two men over business matters, the motive assigned for the deed was one of revenge.

There was filed with the Board an affidavit by one, Jack Kosta, a Greek, of Newell, Fayette County, in which he claims that a man, Jim Lazarus, did, in May, 1919, confess to him that he (Lazarus) killed Stoycoff, and not the applicant. There was also filed with the Board the affidavit of H. N. Manicy, attorney, giving a full and complete history of his trip to Europe to back up the Kosta affidavit, Kosta having gone abroad shortly after the commission of the crime in question.

The applicant has now served ten years and eight months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a petition of citizens who are well acquainted with the applicant, in which they certify to his good character, industry, peaceableness and sobriety. They ask

the Board to give weight to the affidavits filed in behalf of the applicant, tending to show that he is guiltless.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the long term of imprisonment already served; because of the affidavits filed in this case tending to show that another and not the applicant perpetrated this murder, and because of the petition of citizens who are well acquainted with the applicant and certify to his good character and peaceableness, we have concluded that he has been sufficiently punished and if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Gust Calagas.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 16, April Term, 1925, in the Court of Oyer and Terminer in and for the County of Montgomery, Nicholas De Sante was convicted of rape, and on March 1, 1929, was sentenced to pay a fine of one dollar, costs, and to undergo imprisonment in the Eastern Penitentiary, for a term of not less than three years nor more than fifteen years, to compute from October 25, 1927.

The applicant is thirty-five years of age, a native of Italy but a naturalized citizen of the United States. He is by occupation a chauffeur and lived in Lower Merion Township, Montgomery County, for a period of seventeen years prior to his arrest. He was unmarried at the time of the alleged commission of the crime, but was married prior to his commitment to the Montgomery County Prison.

The applicant was convicted and sentenced for having committed rape on the person of one Elizabeth Sheridan, at about seven-thirty P. M., on March 7, 1925. The girl was employed as a servant and the applicant as chauffeur by the Ryan family. Shortly before this occurrence, she secured employment as a domestic with the Clothier family at Villa Nova. The Commonwealth maintained that the applicant went to the Clothier home and informed the girl that there was mail for her at the Ryan home and that if she would ride down with him, he would obtain the letters for her; that after he drove the car into the Ryan garage, he enticed her into his quarters on the ground floor of the garage, tied her on a cot with trunk straps and outraged her.

Nowhere does it appear that the girl had improper relations with him prior to the assault. The applicant contended that he was paying attentions to Miss Sheridan with a view of marrying her; that in the occurrence under consideration, she was the aggressor and that the offense committed was fornication and not rape. He further alleges that the girl told no one of the occurrence for several days, talked to him on the following day, accompanied him to church on the succeeding day, and on the third day told the priest who informed the brother of Miss Sheridan, who had the applicant arrested.

At the first trial the jury disagreed, but at the second trial conviction was secured. The applicant was arrested in Canada, where he had fled after the alleged assault.

The applicant has now served two years and three months of his term of imprisonment. He was never before charged with or convicted of crime.

Judge Corson, who was a defense counsel at the second trial, has filed with the Board a letter in which he states, "As I remember the testimony, it would have been perfectly possible for the jury to have brought in a verdict either way."

There was filed with the Board a numerously-signed petition of citizens in which they recommend clemency. They state that the applicant enjoyed an excellent reputation in the community for good order and chastity and that he had never been in trouble before.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the petition of citizens recommending clemency and the letter of Judge Corson, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Nicholas De Sante.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 324, 325, 987, 988, 989, October Sessions, 1922, and No. 396, January Sessions, 1922, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, James McKeon either was convicted, or pleaded guilty to six indictments charging him with larceny, robbery and operating an automobile without the consent of the owner, and on December 13, 1922, was sentenced in the aggregate to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than eight years nor more than ten years.

The applicant is twenty-eight years of age, a native-born citizen of the United States, and is by occupation an automobile mechanic. At the time of his arrest he resided in Philadelphia with his mother. He is unmarried.

In No. 324 the applicant pleaded guilty to the larceny of a Ford coupe, the property of Robert Wilson. In No. 325 he pleaded guilty to the charge of operating the above-mentioned automobile without the consent of the owner. In No. 987 the applicant was convicted of taking from the person of Henry B. Irey the sum of thirty-three hundred dollars. In 988 the applicant pleaded guilty to the larceny of a Ford sedan, the property of Albert Moyer. In No. 989 the applicant pleaded guilty to operating the above-mentioned automobile without the consent of the owner. In No. 396 the applicant pleaded guilty to the larceny of a Ford automobile, the property of William Bates.

The applicant has now served seven years and one month of his term of imprisonment. He was twenty-one years of age when sentenced.

There were filed with the Board the affidavits of the mother, brother and sister of the applicant, showing that the applicant could not have been guilty of robbery, as alleged, because at the time he was in their joint home, in bed, intoxicated, and the mother avers that the other offenses were committed while he was under the influence of liquor.

There were filed with the Board letters from Dr. McLaughlin, Resident Physician at Rockview, alleging that the applicant is afflicted with primary tuberculosis. Dr. Sheldon, Tioga County Medical Director, by request of the State Department of Health, made a physical examination of the applicant and finds that he is suffering from incipient tuberculosis, rapidly taking on an active stage. Dr. McCreary, Deputy Secretary of Health, advises the Board that the applicant is suffering from tuberculosis of the lungs and that in his present environment he will not improve, but that the progress of the disease may be checked under more favorable living conditions.

In consideration of all the circumstances of this case; the youth of the applicant when these crimes were committed; the term of imprisonment already served; and more particularly, because of the reports of the several physicians, who have examined the applicant and find him suffering from tuberculosis of the lungs which will probably not be arrested unless under improved living conditions, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open sessions," recommend that a pardon be now granted to the said James McKeon.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 45 and 46, March Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Blair, Forrest Van Loon Ryder, alias Henry Grotz, pleaded guilty to two charges of burglary and larceny, and on March 1, 1926, was sentenced in the aggregate to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than six years, nor more than twelve years.

Henry Stoltz, alias Henry Mobrey, was jointly indicted with the applicant and received a like sentence.

The applicant is a native-born citizen of the United States, thirty-two years of age and is unmarried. After his graduation from the Troy New York High School, he worked for a time building boats for his grandfather. He subsequently obtained a position in Springfield, Massachusetts, and afterwards went to New Orleans, Louisiana, and started a small business in re-built marine machinery. It was at this time that the applicant met Henry Stoltz, his co-defendant.

On or about January 15, 1926, the applicant and Stoltz left the city of New Orleans, with New York as their destination. On the way to the latter city, they stopped in the cities of Pittsburgh and Altoona. While in the latter city, the applicant became involved in the crimes for which he is now serving sentence. They went to the latter city expecting to find used machinery for sale. They registered at a hotel and afterwards found that the second-hand equipment for sale in Altoona was principally railroad equipment which was unserviceable for their intended project. While in Altoona, on the night of January 31, 1926, the applicant and Stoltz entered the Westfall Company Store through the skylight on the roof, opened the safe and took therefrom eighteen hundred dollars in cash. No explosive was used. The same night they entered the Irving King Store where they attempted to open a safe but were discovered and surrendered to the officers who had surrounded the building. They surrendered the cash taken from the Westfall Company Store.

The applicant has now served three years and ten months of his term of imprisonment. His co-defendant, Stoltz, was pardoned by this Board in November, 1929.

A number of letters were filed with the Board showing that the applicant possesses great skill in ship modeling, all of which indicates that if released, he would not become a charge on the community, but could readily support himself.

In consideration of all the circumstances of this case; the term of imprisonment already served; because of the fact that Stoltz, his co-defendant, equally guilty, who received a like sentence, was recently pardoned by this Board, we have concluded that the applicant has been sufficiently punished, and if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Forrest Van Loon Ryder, alias Henry Grotz.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., January 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 362, September Sessions, 1922, in the Court of Oyer and Terminer, in and for the County of Luzerne, Kaiten Colack pleaded guilty to an indictment charging him with murder, the degree of which was adjudged by the Court to be murder in the second degree, and on November 14, 1922, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than twelve years nor more than twenty years.

The applicant is fifty-seven years of age; a native of Russian Poland but a naturalized citizen of the United States; a miner by occupation, but at the time of his arrest, he was employed as a casual laborer on a farm. He resided at Port Griffith, Luzerne County, with his wife and one son.

The applicant lived in domestic peace and harmony with his wife for a period of twenty-two years. They had one child twenty-one years of age when the murder was committed and his wife, the victim, was forty-five years old.

In the early part of 1922 his wife had purchased a still and had begun the illicit manufacture of alcoholic liquor to be consumed by herself and the applicant. For a period of five days and four nights immediately preceding the murder the applicant was continuously drunk. During this same period the wife was also drinking to excess. On July 18, 1922, the wife returned to her home intoxicated. The applicant was in a drunken stupor; a quarrel ensued. When he scolded her for neglect of household duties, she handed him a bread knife, saying that if he were not satisfied with her, he should run the knife into her. The atmosphere was tense, and the applicant, the knife in his hand, suffering from the effects of a five days' drunken debauch, ran the knife into his wife's stomach, disemboweling her. A neighbor and his son came upon the scene immediately after and the son foiled the applicant's attempt to commit suicide. In this attempt the son had his fingers almost bitten off by the applicant. During his thirteen years of residence in Port Griffith the applicant was known in the neighborhood as a quiet man. During his seven years' incarceration he has been a model prisoner.

The applicant has now served seven years and two months of his term of imprisonment. He was never before charged with or convicted of crime. The trial Judge has filed with the Board a letter in which, pursuant to his unbroken policy, he neither recommends nor opposes the present application.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served, we have concluded that he has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Kaiten Colack.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 365 and 366, April Term, 1928, and No. 135, September Term, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Allegheny, Jack Bernstein pleaded guilty to the charges of breaking and entering a building and carrying concealed deadly weapons, and on September 27, 1928, was sentenced by the Court in the aggregate to pay a fine of 13½ cents, costs, and to undergo imprisonment at the Western Penitentiary for a period not less than three years nor more than six years.

The applicant is twenty-four years of age and a native-born American citizen. His occupation was that of chauffeur. At the time of his arrest he lived at Aliquippa, Beaver County, with his parents.

On the night of February 17, 1928, the applicant was traveling on foot to Tarentum. He stopped at Glasmere and because of the cold weather he felt that alcohol in his body might stimulate him. He broke into a drug store at four o'clock in the morning for the sole purpose of securing whiskey. He failed in his object and was arrested. On his person there was found a revolver but he made no effort to use the weapon. In August, 1928, while in Emsworth with a companion, he again broke into a drug store for the sole purpose of obtaining whiskey. He was again apprehended. This latter offense took place while the applicant was on bond for the first offense. In neither of these cases did he steal or carry away any object.

The applicant has now served one year and five months of his term of imprisonment.

In consideration of all the circumstances of this case and the term of imprisonment already served, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and five months' imprisonment effective on February 27, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Jack Bernstein be commuted to one year and five months' imprisonment expiring on February 27, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 654, February Sessions, 1915, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Robert Jackson was convicted of murder in the first degree. A new trial having been granted by the Court, the applicant subsequently withdrew his former plea of not guilty and pleaded guilty, the degree of which was adjudged to be murder in the second degree, and on May 4, 1916, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than 15 years nor more than 16 years, sentence to compute from February 4, 1916.

The applicant is 37 years of age, a native-born citizen of the United States, colored and unmarried. He was not working at the time of his arrest and resided in the city of Philadelphia.

Samuel Cain, an aged, colored pensioner of the United States Government, resided with his widowed daughter, Theresa Clark, and her two children, at 911 South 19th Street, Philadelphia. On the night of February 4, 1915, Thomas Smith, colored, who formerly lived in the house, in company with the applicant, called to see Mrs. Clark. Smith and the latter talked for some time, discussing the failure on the part of Cain to pay his daughter any portion of his quarterly pension money, to-wit, \$90.00. The callers remained about fifteen minutes and Smith promised to come again when he was in the neighborhood. The next morning Mrs. Clark was ironing. About 9 o'clock the two men came again and Smith said: "I suppose you are surprised to see me." Mrs. Clark assented and Smith said: "will you let my pal use the toilet?" Mrs. Clark permitted the applicant to go upstairs and he returned at once saying that someone was in the toilet. Smith then sent the applicant for beer, which they drank, and both left shortly thereafter. Later, as Mrs. Clark was going down the street on her way to work, she saw the two men coming up the street, but they disappeared into an alley. At 11:25 o'clock on the same morning, she was called on the telephone at her place of employment and told that her father was dead or dying. She went home at once and found him dead.

Mrs. Clark's two daughters, aged 10 and 12 years, respectively, started to school on the morning of the murder and being late they decided not to go in. They returned to their home and hearing voices upstairs were frightened, because they thought their mother was still in the house and would punish them for being late at school. One of the little girls tiptoed to the second floor and looked into the room occupied by her grandfather. She saw a man wearing a dark handkerchief on his face ransacking the chiffonier. She hurried downstairs, told her sister and together they went to a neighbor and told what they had seen. They were advised to telephone to the police which they did. Sergeant Deaver was sent to the house. The little girls had seen the applicant run out of the front door and then down the street. He wore a dark coat, a red sweater, and had a dark handkerchief around his neck. The girls had met Smith, and told him there was a burglar in the house and he went in the back way through to the front coming out of the house right after the applicant had left, saying that he didn't see any robber.

The applicant signed a written confession, giving the details of the crime. He said that they went to the house for the purpose of getting the pension money. Cain was asleep, but awakened when they entered the room. Smith pulled out a knife and said: "tell me where your money is," Cain replied: "you can't scare me." Smith told the applicant to take hold of the deceased and he put his hand over his mouth and when his hand slipped off Cain's mouth, the latter holloed: "murder murder." In an effort to get his hand again over Cain's mouth, Cain almost bit his finger off. Smith tied Cain's feet and hands and put a pillow over his head. They were finally frightened off by the sound of footsteps. They did not obtain the money. The evidence at the trial showed that when the police officers came they saw Cain lying on the bed dead, bleeding at the mouth and nose. Dr. Bayton stated that he found no marks of violence on the body but that he saw blood ooze from the mouth and nose and that there was also froth. Dr. Wadsworth testified that he found certain marks about the mouth of the deceased and evidence of asphyxia and two of the lower front teeth had been recently knocked out. He also found cuts about the mouth.

Smith was first arrested and pleaded guilty and received the same sentence as the applicant who was subsequently arrested.

The applicant has now served fourteen years of his term of imprisonment. He was never before charged with, or convicted of crime.

There was filed with the Board a letter from J. A. Jackson, State Librarian of West Virginia, a cousin of the applicant, in which he offers the latter a position if he is liberated. There were filed with the Board letters from the United States District Judge, Secretary of State, President of the Supreme Court of Appeals, two Associate Judges and the Clerk of the Supreme Court, all of West Virginia, certifying to the high character and responsibility of the State Librarian. A sister, who is secretary of the Building Owners Repairs Association, in New York City, has also offered applicant a home and employment, if released.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprison-

ment already served; because employment has been offered him, if released, by the State Librarian of West Virginia; we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court, should be commuted to fourteen years imprisonment, effective on February 4, 1930.

We, therefore, "after hearing, upon due public notice and in open session," recommend that the minimum sentence heretofore imposed on the said Robert Jackson, be commuted to fourteen years' imprisonment, expiring on February 4, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, January Sessions, 1923, in the Court of Oyer and Terminer, in and for the County of Susquehanna, Elmer Hicks, alias Elmer Washburn, was convicted of murder in the second degree, and, "in consideration of his age and mental condition," was recommended to the mercy of the Court, and, on July 2, 1923, he was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than seventeen years and not more than nineteen years.

The applicant is now twenty years of age. He is a native-born citizen of the United States. At the time of his conviction he had no trade or occupation, but is a journeyman tailor and expert musician. His father and mother separated many years ago, and he was given to his foster mother, Mrs. Ella Washburn, at about the age of two and one-half years, and resided with her continuously from that time until he was arrested on the present charge.

On October 30, 1922, Cyrus Payne, a man approximately eighty years of age, was found dead in the farm house occupied by him, in Susquehanna County, within short distance of the home of the applicant. Preliminary investigation directed suspicion towards the applicant, who was then under fourteen years of age and upon interrogation the applicant confessed the crime, and was tried, convicted, and sentenced, as before stated.

When this crime was committed the applicant was not yet fourteen years of age and had only attained the fourth grade in school because of the condition of his health, his highly nervous state, and the fact that his attendance at school was interrupted for long periods, and his inaptitude for any mental progress due to his subnormal mental condition.

The applicant has now served six years and seven months of his term of imprisonment. He was never before charged or convicted of crime.

By direction of the Board, Dr. William C. Sandy, Director, Bureau of Mental Health, in the Department of Welfare, on January 2, 1930, made a mental examination of the applicant. He reports the applicant's physical condition as very good. He concludes, "From the examination and reports of those who have had him under observation, the prisoner is of normal intelligence and there is no evidence of mental disease. He has profited to an unusual degree by the opportunities afforded him at the prison, becoming proficient in school, music, and various forms of work; his behavior has been exemplary, and he appears to be a very favorable case for return to the community if he has some supervision. In fact, for his own good he should, if possible, be removed soon from the prison associations. In view of the desirability for further supervision (but at the same time removal from the prison atmosphere) it is suggested that his minimum sentence be commuted sufficiently to make it possible for the

parole board of the prison to parole him, and thus keep him under supervision, returning him for further observation if this were deemed necessary. This would also afford an opportunity of helping the young man to find other work or make other arrangements if the plan under which he is paroled does not prove to be satisfactory. For these reasons, it is suggested that parole would be better than pardon in this case." There were also filed with the Board several letters recommending clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; the extreme youth of the applicant when the crime was committed; because of the letters on file recommending clemency, and more particularly because of the recommendation of Dr. Sandy that the applicant be paroled so that he may continue to be under supervision, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to six years and seven months imprisonment, effective on February 2, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Elmer Hicks, alias Elmer Washburn, be commuted to six years and seven months imprisonment, expiring on February 4, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 73, December Sessions, 1927, in the Court of Oyer and Terminer, in and for the County of Greene, Alva Tennant was convicted of felonious arson, and on December 10, 1927, was sentenced to pay a fine of six and one-fourth cents, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than three and a half years nor more than seven years.

The applicant is a native-born citizen of the United States, thirty-eight years of age. He is by occupation a tin mill worker, but for the past few years has lived on a small, ten-acre farm near Waynesburg, Greene County, with his family consisting of a wife and nine children ranging in age from seven months to fifteen years.

On Sunday afternoon, October 16, 1927, the applicant accompanied by his nephew, Guy Tennant, and his two sons, aged eight and ten years, respectively went to the farm of Mary White, a distance of three or four miles from his home, in a Ford truck, for the purpose of getting certain household articles left there about 3:00 P. M. and found that the house had been broken into and damaged considerably. In a short time they returned to their home where the applicant remained until his arrest on the following morning. While at the Mary White house, seeing its condition, he tried to call on the telephone, the owner's mother, Mrs. Charles White, but was unable to get her. On his return to his own home, he passed on the highway, Mrs. Charles White and party in an automobile, a short distance from the house, which the applicant was charged with having burned. When Mrs. White and party reached the house, they alleged that a bucket containing rags was setting on the hearth stone with an old lounge thrown over it from which smoke was arising. At the trial the applicant and his nephew denied there was any fire about the premises or that any attempt was made to burn the house, and they declared that as soon as they secured the articles they went for, they returned home. The White house

is located directly on a public highway in full view of passers-by. The applicant had slight acquaintance with the owner of the property and at the trial no malice or incentive to set fire to the house was shown.

The applicant has now served two years and two months of his term of imprisonment; his prior record is good with the exception of a sentence to eight months in the workhouse for larceny. The applicant's family requires his support. The little farm on which they reside consisting of ten acres is subject to a mortgage, the title is in the wife's name, and they are unable to obtain any assistance from the county.

The trial Judge has filed with the Board a letter in which he states the applicant's wife is a deserving woman and that if the applicant is released, he can go to work and save the home which is mortgaged and support his family which is in destitute circumstances. He adds: "If his conduct and record at Rockview are satisfactory and there is nothing against him, I would recommend that he be pardoned."

There were filed with the Board, several other letters from citizens of Greene County recommending clemency.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; the term of imprisonment already served; his prior good record, with a single exception; and in consideration of the fact that his wife and family are in destitute circumstances and require support; and because of the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to two years and two months' imprisonment, effective on February 10, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Alva Tennant, be commuted to two years and two months' imprisonment expiring on February 10, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 510, March Sessions, 1922, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Giuseppe Travaglini, alias Giuseppe Trevaline, pleaded guilty to an indictment charging him with murder, the degree of which was subsequently adjudged to be second degree, and on December 1, 1922, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than ten years, nor more than twelve years.

The applicant is fifty-three years of age; a native of Italy but a naturalized citizen of the United States. At the time of his arrest he was employed as a laborer by Doyle & Company, a contracting firm in the city of Philadelphia, and resided in that city with his wife.

On the evening of February 14, 1922, the applicant had returned from work and was sitting in the kitchen talking to his wife who was preparing supper, when the door bell rang. Upon answering the ring, your applicant found one, John Montefesco, a neighbor residing across the street, with whom he was on pleasant, neighborly terms. Montefesco was invited into the house. He was under the influence of intoxicating liquor. He stated to the applicant he was out of work and asked the latter if he could not obtain for him a job. The applicant stated that there was not much work where he was employed, whereupon Montefesco became abusive. The applicant tried to pacify him

and offered him a glass of wine. He then became quiet and remained so until the applicant's wife handed the applicant a letter to read to her, which contained the announcement that her mother had died in Italy, whereupon the applicant's wife began to weep loudly which apparently disturbed Montefesco, who aroused himself and began to curse the applicant's wife and deceased mother. On being asked to leave, the visitor without any provocation drew a knife and attacked the applicant's wife. The applicant interfered, intercepted the blow, received a gash on his arm and then forced Montefesco out of the house. Later Montefesco returned to the house armed and demanded admittance. Upon refusal he commenced to break down the door and the applicant in fear went to the second floor, obtained a revolver which he kept for self-defense and after trying to frighten Montefesco from the door and seeing that he was actively engaged in breaking his way in, the applicant discharged the gun at Montefesco, with fatal results.

The applicant has now served almost seven years and three months of his term of imprisonment. He was never before charged with or convicted of crime. His wife, who is over sixty years of age, is almost blind and until recently supported herself largely by doing washing, but is now unable to do manual work owing to the fact that she is a constant sufferer from rheumatism.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the need which his aged, afflicted wife has of his support, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to seven years and three months imprisonment, effective on March 1, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Guiseppi Travaglini, alias Guiseppi Trevaline, be commuted to seven years and three months' imprisonment, expiring on March 1, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 78 and 79, December Sessions, 1923, in the Court of Quarter Sessions of the Peace, in and for the County of Clearfield. Howard Ardery pleaded guilty to the charges of felonious entry, larceny, and receiving stolen goods, and at No. 33, December Sessions, 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Centre, he pleaded guilty to the charge of breaking and escaping from the penitentiary, and on June 11, 1924, was sentenced at Nos. 78 and 79, to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than two years nor more than four years, and on November 22, 1927, at No. 33, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than two years nor more than four years; sentence to compute from the completion of the sentence from Clearfield County.

The applicant is a native-born citizen of the United States, twenty-nine years of age. He is by occupation a clay-worker and at the time of his arrest, he was so employed by the Harbison-Walker Refractories Company, in Clearfield, and resided in Clearfield with his wife and two daughters, aged eight years and thirty months respectively.

The applicant bears an honorable discharge as a veteran of the World War. Prior to his war service, he had an excellent reputation in the community, but after his return from service there was a change in the applicant's conduct and outlook upon life. He consorted with men who engaged in breaking into stores and warehouses. The heads of these gangs were foreigners who picked out young men for their criminal purposes and used them not only to assist in the commission of the crimes, but also as a shield in the event of trouble. The applicant was very young when discharged from war service and he became a victim to the designs of a gang known as the "Greek gang." The crimes which he committed were under the direction and influence of this gang. He pleaded guilty to all the charges brought against him in Clearfield County Four months after his sentence by the Clearfield County Court, to wit: on October 13, 1924, he escaped from Rockview Penitentiary and voluntarily returned some time during the following month.

The applicant has now served in the penitentiary from June 11, 1924, until the time that he escaped, to wit: on October 13, 1924, a period of four months and two days. He has served two years and about three months since his voluntary return to the penitentiary, making a total of two years and seven months. The applicant's prior record is good with one exception. He was convicted and sentenced for the non-support of his wife, but later they were reunited and lived together.

Many letters from citizens of Clearfield County were filed with the Board recommending clemency. The trial Judge and trial District Attorney in Clearfield County, in letters filed with the Board, recommend a pardon. The resident physician of the Rockview Penitentiary, for whom the applicant served as clerk and X-ray technician, has filed with the Board a letter recommending pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant, with a single exception; the term of imprisonment already served; his good prison record; because of his family requires support; because of the many letters filed recommending clemency, particularly the letters of the trial Judge, trial District Attorney, and resident physician of the penitentiary, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Howard Ardery.

ARTHUR H. JAMES,  
Lieutenant Governor.

Board of Pardons.

Harrisburg, Pa.

..February, 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 100, November Sessions, 1924, in the Court of Oyer and Terminer, in and for the County of Allegheny, Robert L. Henderson was convicted of murder in the first degree with a recommendation to the mercy of the Court. A new trial having been granted, the applicant pleaded guilty to murder in the second degree and, on May 7, 1926, was sentenced to pay a fine of six and one-quarter cents, and to undergo imprisonment in the Western Penitentiary for a period of not less than ten years nor more than twenty years. A nol pros was entered at No. 101, same term, charging involuntary manslaughter.

The applicant is fifty-three years of age and native of the State of Mississippi. He resided in the city of Pittsburgh for the past eighteen years. He is a structural iron worker by occupation but for some time past had been engaged in the butchering

business, and as proprietor of a pool room in the city of Pittsburgh, and was so employed when convicted. He resided in the city of Pittsburgh with his wife and has a mother eighty-one years of age and three sisters residing in the state of Mississippi.

On October 21, 1924, at about 5:00 P. M. the applicant and one, Harry J. Schlessman, met in a saloon on the North Side, city of Pittsburgh. The latter was eighteen years younger and a larger, stronger man. A number of other persons were present. There had been bad feeling between these men both having been engaged in the butchering business. Schlessman became abusive toward the applicant, called him vile names, and threatened him. The applicant sought to avoid trouble but Schlessman refused to be quieted and continued his aggressive attitude towards the applicant. The latter endeavored to withdraw from the premises and proceeded to the Izora Street entrance, but finding that Schlessman had gone around to Izora Street the applicant returned to the premises, entered the toilet and closed the door. After a short retirement, believing that everything had quieted down, he emerged from the toilet, intending to depart by the Izora Street entrance, but was observed by Schlessman, who again became the aggressor and followed the applicant, threatening him. The applicant with gun in hand sought to hold off Schlessman, all the while threatening him. Schlessman grabbed his hand after striking him on the head, and in the encounter the applicant's gun was discharged, resulting in the death of Schlessman. The following day the applicant surrendered himself to the city authorities. Against his earnest protest he was persuaded to enter a plea of guilty to murder in the second degree, although he claimed that he was not guilty of the crime.

The applicant has now served three years and nine months of his term of imprisonment. Prior to his sentence of May 7, 1926, the applicant had been in jail awaiting trial pending a motion for a new trial and new sentence since October 21, 1924. He has, therefore, been incarcerated five years and four months. He was never before charged with or convicted of crime.

A great many letters were filed with the Board recommending clemency, including letters from E. V. Babcock, former mayor and present County Commissioner, former Congressman Morin, Register of Wills Mackrell, and other prominent citizens of Pittsburgh. The Governor of Mississippi, the applicant's native state, and the two United States Senators from the same state have also interested themselves in behalf of the applicant's pardon.

The trial District Attorney has filed with the Board a letter in which, after reviewing the circumstances of the murder, he states that the case was tried upon the theory that the applicant after the first altercation had left the saloon and gone to his home to procure a revolver and returned indicating that the murder was premeditated and the jury at the first trial evidently agreed with this theory and found him guilty of murder in the first degree. On the other hand the applicant has always claimed that he did not leave the saloon and that he had his revolver with him at all times during the altercation. The letter continues: "I desire to say that there is considerable doubt in my mind as to whether or not the Commonwealth's theory was correct, and there is considerable evidence to support Henderson's story that he did not leave the building at any time. While he was sentenced on May 7, 1926, he had been incarcerated in jail awaiting trial and also pending the motion for a new trial and resentence since October 21, 1924. Henderson had been a resident of Pittsburgh for many years and prior to this time had never been in trouble."

To account for the applicant's possession of the revolver at the time of the murder, two affidavits were filed, one by Stella Henderson, his wife, in which she avers that the applicant had carried a revolver for more than a year before the murder for the purpose of protection during automobile rides and in the home. William Brose, in an affidavit filed, avers that the applicant, one week before the murder, at a party in his house, told him that he carried a gun in his car for self-protection but on the suggestion of Brose that the gun might be stolen from the car, he brought the gun into the house and gave it to Brose who kept it in his possession until the afternoon of the day of the murder when he suggested to the applicant that he had not taken away the gun. The applicant's family is in destitute circumstances.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the many letters filed with the Board recommending clemency from prominent citizens of Pittsburgh and elsewhere; because of the applicant's family which is in destitute circumstances and requires support; and more particularly because of the favorable attitude of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now released will prove himself a law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Robert L. Henderson.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBEERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 43, 45, 46, 48 and 49, February Sessions, 1922, in the Court of Oyer and Terminer in and for the County of Cumberland, Ernest T. Bobbitt pleaded guilty to five indictments charging him with robbery and felonious assault, and on February 10, 1922, was sentenced by the Court in the aggregate to pay a fine of \$4,000, costs, and to undergo imprisonment in Eastern Penitentiary for a period not less than sixteen years and four months and not more than nineteen years and eight months.

The applicant is thirty-one years of age; a native-born American citizen; a chauffeur by occupation, but he was not employed at the time of his arrest. At that time he was married, but his wife has since obtained a divorce. His proper place of residence is at Belmont, La., with his parents and married sister.

The applicant with one, Lee Miller (who was made a co-defendant, and received the same sentence), held up a trolley car of the Valley Railways Company, in South Middleton Township, Cumberland County, on January 19, 1922. On the car were four persons, including the crew. Both Miller and the applicant were armed. Personal property and currency to the amount of \$166.66 were stolen and Eicholtz (one of the occupants of the car) was shot. The arm by a bullet from a revolver that reflected from the car door. Out of this holdup arose a series of charges. The men were both charged with robbery of each of the car's four occupants and there was an additional charge of felonious assault for the wounding of Eicholtz. The applicant's co-defendant, Lee Miller, was pardoned by the Board on March 20, 1928.

The applicant has now served eight years of his term of imprisonment. He was never before charged with or convicted of crime. In November, 1928, the applicant presented a petition for pardon. The trial District Attorney and the present District Attorney appeared in person to oppose the same. Before the hearing they agreed to withdraw all opposition, provided the applicant would withdraw his application and not renew it until after he had served eight years of his sentence. The request was granted and the application was withdrawn. Employment has been offered the applicant, if released, by the sales manager of the Braddock Cork Company, Brooklyn, N. Y., as shown by a letter on file. The applicant enlisted in the World War when sixteen years of age, served overseas, and bears an honorable discharge.

There was filed with the Board a letter from the trial District Attorney addressed to Dr. Bowman, moral instructor in the penitentiary, in which he states that he is authorized by the trial Judge to declare for him that the latter makes no objections to a pardon. He adds: "The trolley car company will likewise interpose no objection, so I can see no reason

why Bobbitt should not have a clear case for consideration by the Board of Pardons."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because his co-defendant Miller was pardoned by this Board almost two years ago; because employment has been offered him if released; because of the favorable attitude of the trial District Attorney and trial Judge, as shown by a letter filed with the Board, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Ernest T. Bobbitt.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 32 and 33, December Sessions, 1928, in the Court of Quarter Sessions of the Peace in and for the County of Cumberland, George Granville Wren, pleaded nolo contendere to the following charges: Operating a motor vehicle while intoxicated, illegal possession of intoxicating liquor, assault with intent to commit rape, assault and battery, and assault, and on December 8, 1928, was sentenced in the aggregate to pay a fine of \$100.00, costs, and to undergo imprisonment in the Cumberland County jail for a period of not less than two years nor more than four years.

The applicant is a native-born citizen of the United States, unmarried, and at the time of his arrest he was manager of the classified advertising department of The Patriot and The Evening News, Harrisburg, and resided in that city with his parents. He is thirty-three years of age.

The circumstances of the case as set forth in the application for pardon are as follows:

In September, 1928, Gladys Malick who resided in the Bricker Apartment Building, South Market Square, Harrisburg, invited the applicant to attend a party. About 8:30 P. M. on the day designated the applicant went to the Malick Apartment and found with Miss Malick a man and woman. The two latter were strangers to the applicant. Soon thereafter another man came into the apartment with a package which he stated contained several pints of excellent liquor. Shortly thereafter Florence Goodall appeared. The applicant then met her for the first time. After a little while there were served glasses filled with whiskey. All drank except Miss Malick; all continued drinking, and by 10.00 o'clock all but the hostess were intoxicated. Miss Goodall became ill. About 10:30 o'clock she and the applicant left the apartment, the former stating that she had better start home. When they reached the applicant's car he helped her in and took the wheel. She said that she was sick and could not go home in that condition so they decided to take a short ride in order that she might sober up. When they reached the west end of the Market Street bridge, which is within sight of the Goodall home, to-wit: the Beach Front Hotel, Worleysburg, they turned west and passed through Lemoyne and Camp Hill and took the Trindle Road towards Mechanicsburg. Miss Goodall continued ill and vomited over the side of the car and on the running board. Finally when they reached the cemetery attached to St. John's Church on the Trindle Road, north of Shiremanstown, the applicant concluded that Miss Goodall was able to return home and pulled the car to the side of the road in order to turn around. Miss Goodall screamed and jumped from the car. As she jumped she fell headforemost

on the ground. The applicant jumped out after her and tried to pick her up and when he did so she screamed again. The applicant put his hand over her mouth; she got his thumb in her mouth and bit it and continued to scream. The applicant tried to lift her into the car but she fought him. In the meanwhile several cars passed. The applicant was frightened. He was unable to hoist Miss Goodall into the car. Finally, he left Miss Goodall on the roadside, jumped into his car and drove to Mechanicsburg, and beyond, and was arrested at the outskirts of Carlisle and taken to the Carlisle Police Station, and then to a physician for examination as to his condition. The physician pronounced him capable of driving his car. In the meanwhile a police officer from Mechanicsburg telephoned the police station to have the applicant detained and when the officer arrived the applicant was taken back to Mechanicsburg and examined by a second physician who pronounced him intoxicated. He was then taken to jail and first charged with operating a motor car while intoxicated. Subsequently the charges of illegal possession and assault and battery with intent to commit rape were added. The applicant has never denied that he was intoxicated on the occasion referred to but denies the act and intent to commit rape. He entered a plea of nolo contendere upon the advice of counsel believing that under that plea he would be paroled at the end of three months.

The applicant has now served one year and two months of his term of imprisonment. His prior record is good with a single exception. About five years ago he settled a fornication and bastardy case out of Court.

There was filed with the Board a letter from the Sheriff of Cumberland County and the Warden of the prison certifying to the applicant's excellent prison record. He has been employed by the County on road work without an armed guard and has not abused the trust reposed in him. Albert H. Goodall, the father of the girl and the prosecutor in the case, has filed with the Board a letter in which he states that the applicant has been severely punished and recommends a pardon. A number of letters were filed with the Board from prominent citizens of Cumberland County recommending clemency.

In consideration of all of the circumstances of this case; the grave doubt as to the guilt of the applicant on the charge of attempting to ravish; the prior good record of the applicant, with a single exception; the term of imprisonment already served; because of his excellent prison record and the letters of recommendation from prominent citizens of Cumberland County including the Sheriff, and the recommendation of the prosecutor of the case, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said George Granville Wren.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 219, September Sessions, 1927, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Amedeo Cardone, alias Frank Donnelly, was convicted of assault, being armed with an offensive weapon, and on June 21, 1928, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than two and one-half years nor more than five years.

The applicant is a native-born citizen of the United States, thirty-two years of age and unmarried. His occupation was that of printer but he was not so employed at the time of his arrest. His residence is with his mother in New York City.

About 6:00 P. M., on August 8, 1927, the applicant entered a restaurant conducted by one, Dispagno, at 760 South Ninth Street, Philadelphia, and went back to the kitchen where the proprietor's son, Ralph Dispagno, was working. The applicant, known as a former customer, asked him for money. Dispagno directed the waiter to give the applicant \$10.00. Before any money had changed hands, Dispagno testified at the trial that he noticed an automobile directly in front of the restaurant with the motor running and he and the waiter ran out. Shortly thereafter, they heard two shots. Within five minutes the police arrived and found the applicant on the second floor with a revolver in his hand. They arrested him and brought the prisoner, the revolver and the automobile to the station house. The Commonwealth was unable to show that at any time the applicant displayed a revolver to Dispagno or the waiter. The applicant was indicted for the larceny of the automobile, operating an automobile without the consent of the owner, entering with intent to steal and carrying concealed deadly weapons. At the trial, by direction of the Court, the applicant was acquitted on the two indictments relative to the automobile, but convicted on the bills charging him with entering to steal, and carrying concealed deadly weapons. The applicant was sentenced as above stated, the sentence to run concurrent with a prior conviction on which he was then serving the unexpired portion of a maximum sentence. The latter sentence has been fully served and the only charge for which the applicant is being confined is that on which clemency is now sought.

The applicant has now served one year and eight months of his term of imprisonment. The present application is based solely on his physical condition. He is a victim of progressive tuberculosis and if released he will be sent to the White Haven Sanitarium. The cost of his maintenance at the latter institution has been provided by free-will offering of the inmates of the Penitentiary. The collection was made with the consent and approval of the Warden, and the money will be forwarded to the Treasury of the White Haven Sanitarium when the applicant is released and sent thither.

There was filed with the Board the letter of the Chief Resident Physician of the Eastern Penitentiary, which states that applicant has advanced tuberculosis of the lungs; that there has been progressive loss of weight and that the applicant is confined in bed in the observation ward at the present time, to wit: February 1, 1930.

In consideration of all the circumstances of this case; the term of imprisonment already served and particularly because of the report of the Chief Resident Physician of the Eastern Penitentiary showing that the applicant has advanced tuberculosis of the lungs, we have concluded that he has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Amedeo Cardone, alias Frank Donnelly.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 420 and 421, September Sessions, 1923, in the Court of Oyer and Terminer in and for the County of Philadelphia, Edward Hale, alias Emory W. Sadler, was convicted of being armed with offensive weapons with intent to rob, and on October 8, 1923, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than seven years nor more than fourteen years.

The applicant is a native-born citizen of the United States, thirty-two years of age, and a salesman by occupation. At the time of his arrest he resided in the city of Philadelphia with a

wife and one child, but his wife has since divorced him because of his conviction of crime. He has an honorable discharge from the United States Marine Corps.

On September 9, 1923, at about 8:30 P. M., the applicant met on the street George Connors, a former comrade. After talking together for an hour or more the two started in a taxi for West Philadelphia, the applicant to collect money due him and Connors on another errand. At 49th Street and Haverford Avenue the applicant left the taxi and entered a small store on the corner to ask directions for reaching the 5900 block of Overbrook Avenue, and on returning to the taxi directed the driver to continue out Haverford Avenue to 63rd Street. On entering the taxi Connors told the applicant that he had recognized the driver as the person who had taken \$25.00 from him some time previously, and was going to stop him and question him concerning the incident. At 50th Street and Haverford Avenue Connors suddenly directed the driver to turn down 50th Street and when the driver had turned down the street Connors stood up and ordered the driver to stop. The applicant then for the first time noticed that Connors had a revolver in his hand. He had no prior knowledge of his possession of any offensive weapon. Connors then ordered the driver to descend from the taxi and the applicant followed and was asked by Connors if he could drive the cab, and upon answering in the affirmative was told by Connors to drive it. The applicant drove the cab a short distance. On leaving the cab the applicant overheard the driver say to Connors that the watch belonged to the driver's father. The applicant after his return to the cab asked, "what watch", and was told by Connors that he had found a watch on the bottom of the cab which the driver claimed as his property. No mention was made at this time of money, and the applicant had no knowledge of any money having been taken until arrested about an hour later when the money and watch were found on Connors by the police together with the revolver and a blackjack. The applicant had no weapon. No force or violence was used on the taxi driver other than the brandishing of the revolver. None of the property claimed by the taxi driver was found on the applicant when arrested about an hour after the ride.

The applicant has now served six years and four months of his term of imprisonment. He was never before convicted of crime.

There was filed with the Board the affidavit of the taxi-cab driver who was the prosecutor in the case in which he states that he does not believe that the applicant was a participant in the affair by any pre-arrangement; that Connors was the only one guilty of the hold-up; that the revolver, watch and money belonging to the affiant were on Connors' person at the time of the arrest. He recommends clemency. There were also filed with the Board letters from certain high officials of the Penitentiary including the Deputy Warden and Secretary of the Board, in which they recommend clemency, and the trial Judge has also filed with the Board a letter in which he recommends that the applicant, a first offender, be pardoned. The District Attorney's office actively opposed a former application for pardon, but at the oral hearing of the present application a representative of the District Attorney present did not oppose the present application. Employment has been offered him, if released, by letter filed.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of his excellent prison record; because of the number of letters filed with the Board recommending clemency, and the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Edward Hale, alias Emory W. Sadler.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 3, December Term, 1928, in the Court of Oyer and Terminer in and for the County of Somerset, Stella Bassinger and Ben Bassinger were jointly convicted of breaking and entering, and setting fire to a building to defraud an insurance company, and on February 25, 1929, were each sentenced to pay a fine of six cents, costs, and to undergo imprisonment in Western Penitentiary for a term of not less than two years and not more than four years. Sentence was imposed on the third count of the indictment and suspended on the first and second counts.

Stella Bassinger, one of the applicants, is twenty-six years of age, and Ben Bassinger, the other applicant, is thirty-five years of age. Both are native-born American citizens. The occupation of Ben Bassinger, applicant, at the time of his arrest, was that of laborer. The applicants are husband and wife.

On July 2 and 3, 1928, the applicants moved their household goods from Scottdale, Westmoreland County, to a dwelling house near Bakersville, Somerset County, belonging to the estate of Cyrus Pyle, deceased, which they claimed to have rented from Elmer Pyle, the administrator. On July 6, 1928, Stella Bassinger, applicant, accompanied by Eva Howard, her sister, who was indicted for the same offenses, left their homes in Westmoreland County and came to Somerset, where Stella Bassinger, applicant, effected \$1,500.00, fire insurance on her household goods which had been removed to the Pyle house. She was indebted to Eva Howard in the sum of \$1,000.00. On the night of July 7, 1928, the house to which the goods had been removed was totally destroyed by fire. On the day and night of July 7, it was shown at the trial, that both Stella Bassinger and Ben Bassinger, applicants, and Eva Howard, were at the home of the latter in Mt. Pleasant Township, Washington County, fourteen miles distant, with two mountain ranges intervening. They were convicted entirely on circumstantial evidence. A potent factor in securing their conviction was testimony showing that the applicants had obtained an old piano-harp from one Robert Peiffer shortly before the fire. A piano-harp was found in the ruins of the Pyle fire, but it was of an entirely different type from that which it was alleged had been purchased from Peiffer.

The prosecutor has filed with the Board a letter in which he recommends a pardon.

There was also filed with the Board the affidavit of Harry Lisbon in which he avers that Mary Lisbon, his wife, now deceased, told him before she died that on the night of July 7, 1928, she left a lamp fall while she was looking for some goods which she believed had been taken by Ben Bassinger, applicant, and as a result of this accident which caused the fire, the house was destroyed. She averred that she and neither the Bassingers nor Eva Howard set the house on fire. There was also filed with the Board the affidavit of Lavina Howard, who avers that in January, 1929, she visited said Mary Lisbon, now deceased, wife of Harry Lisbon, and that Mary Lisbon told her that she had accidentally burned the Elmer Pyle house on the night of July 7, 1928; that she was in the house looking for goods which she blamed the Bassingers with having taken, and that when she came down the stairs the lamp fell from her hand and exploded, which set the house on fire. This was the house that the Bassingers had rented from Pyle. Mrs. Lisbon made affidavit promise never to tell anyone while she lived as they might arrest her. There was also filed with the Board the affidavit of Robert Peiffer, in which he avers that he never sold to or allowed Ben Bassinger and Stella Bassinger, the applicants and Eva Howard, to take any of his property, including a piano-harp that the piano harp which he owned was not of the type of the one found in the ruins of the Pyle fire.

There was filed with the Board a letter from the trial District Attorney in which he reviews the causes against the applicants and Eva Howard. He states that the defendants were convicted on purely circumstantial evidence, and that if, as alleged, they have an affidavit to the effect that the piano-harp found in the ruins of the Pyle fire was of a different type to the one which the Commonwealth alleged had been destroyed in the fire, "it would raise a serious doubt that the

defendants obtained and placed in the Pyle property a wrecked piano to make a false show of property."

The applicants have now served one year of their respective terms of imprisonment. Neither of them was ever before charged with or convicted of crime.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicants; their prior good record; the terms of imprisonment already served; because of the recommendation of the prosecutor in the case and because of the letter of the trial District Attorney and the affidavits filed showing that the applicants had no agency in causing the fire and that the piano-harp found in the ruins was not of the same type as the one which the Commonwealth showed they possessed prior to the fire, we have concluded that the applicants have been sufficiently punished and that if now released they will prove themselves peaceable, law-abiding citizens.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Stella Bassinger and Ben Bassinger.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa.

February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2 December Term 1928, in the Court of Oyer and Terminer, in and for the County of Somerset, Eva Howard was convicted of breaking and entering and setting fire to a building to defraud an insurance company, and on February 25, 1929, was sentenced by the Court to pay a fine of six cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two years, nor more than four years. Sentence was imposed on the charge of arson and suspended on the charge of breaking and entering.

The applicant is thirty-five years of age, and a native-born citizen of the United States. At the time of the arrest she resided in Mt. Pleasant Township, Westmoreland County, together with her husband, Thomas Howard, and two children who are minors.

On July 2 and 3, 1928, Ben and Stella Bassinger, (the latter a sister of the applicant) moved their household goods from Scottdale, Westmoreland County, to a dwelling house in Jefferson Township, Somerset County, belonging to the Estate of Cyrus Pyle, which the Bassingers claimed that they had rented from Elmer Pyle, the administrator. The applicant participated in the moving on the third of July. Three days later, the applicant accompanied her sister, Stella Bassinger, to Somerset, where the latter effected \$1500.00 fire insurance on the household goods which had been removed to the Pyle house aforesaid. The applicant claimed that Stella Bassinger, the insured, owed her \$1000.00, and her purpose in going to Somerset was to have her indebtedness secured or protected by an insurance policy.

On the night of July 7, 1928, the Pyle building, to which the insured goods had been removed, was totally destroyed by fire. The applicant claimed and proved by several witnesses at the trial, that she and the Bassingers were at the applicant's home during the day and night of the fire; her home being in Westmoreland County, fourteen miles distant, with two mountain ranges intervening.

The applicant has now served one year of her term of imprisonment. She was never before charged with or convicted of crime. Her husband, seventy years of age, is in ill health. One of her daughters, aged fourteen years, by reason of her mother's imprisonment, has been prevented from continuing

her high school course, and the other child is of tender age and needs the care of her mother.

The applicant was convicted entirely on circumstantial evidence. A potent factor in the conviction was proof of the fact that the defendant had obtained from Robert Peiffer an old piano-harp shortly before the fire in the Pyle house. A piano-harp was found in the ruins of this fire. There was filed with the Board, the affidavit of Robert Peiffer in which he states that neither the applicant nor the Bassingers had ever obtained a piano-harp or anything else belonging to him; that the piano-harp which he owned was of a different type from the one found in the ruins of the fire on the Pyle property. The trial District Attorney, in a letter filed with the Board, states that an affidavit, such as the one mentioned, would "raise a serious doubt that the defendants obtained and placed in the Pyle property a wrecked piano-harp to make a false show of property."

There was also filed with the Board, an affidavit of Harry Lisbon, who avers that his wife, Mary Lisbon, just before her death, told him that she had left the lamp fall on July 7, 1928, the night of the fire, while she was looking for some goods which she believed were stolen by Ben Bassinger, and as a result of the falling of the lamp a fire ensued and the house was destroyed. There was also filed with the Board the affidavit of Lavina Howard, in which she avers that in January, 1929, she visited Mary Lisbon, now deceased, wife of Harry Lisbon, and that Mrs. Lisbon told her that she had accidentally set fire and burned the Elmer Pyle house on the night of July 7, 1928; that she was in the house looking for some goods which she believed the Bassingers had taken, and that as she came down the stairs, the lamp fell and exploded, burned the house and almost burned her. The house referred to is the one that the Bassingers had rented from Elmer Pyle. Mrs. Lisbon made the affiant promise never to tell anyone while she lived, as they might arrest her.

There was also filed with the Board the affidavit of S. S. Devaux, M. D., in which he avers that he is the family physician of the applicant's family that the husband of the applicant is about seventy years of age, and in a serious physical condition, and not able to look after his family and that his wife, the applicant, is needed to look after the home and family.

Elmer H. Pyle, the prosecutor in this case, has filed with the Board a letter in which he recommends clemency.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; her prior good record; the term of imprisonment already served; because of the affidavit filed in this case, showing that Mrs. Lisbon and not the applicant had accidentally set fire to the house which was destroyed; because the applicant's enfeebled husband and minor children require her support; because of the recommendation of the prosecutor in the case; we have concluded that the applicant has been sufficiently punished, and that if now released she will prove herself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Eva Howard.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 277 and 277a, November Sessions, 1921, in the Court of Quarter Sessions of the Peace, in and for the County of Luzerne, Joseph Dugan, alias Joseph Savitski pleaded guilty to two indictments charging him with breaking and larceny,

and on November 18, 1921, was sentenced by the Court in the aggregate to pay a fine of \$1,000, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than sixteen years, nor more than twenty years.

The applicant is twenty-seven years of age and a native born citizen of the United States. At the time of his arrest he had no trade or profession and was an enlisted man in the United States Navy. He is unmarried. His place of residence is with his father and married sister, in Plains, Luzerne County.

When the applicant was ten years of age, he was sent to Kisllyn for truancy. After being there about one and one-half years, he ran away and upon his apprehension was sent to Glen Mills, at which place he escaped after being there about the same period of time. He then adopted the name of Joseph Dugan, and enlisted in the United States Navy. While in the service he associated with wild companions and broke into the unoccupied home of F. E. Zerby, of Wilkes-Barre, and stole a fraternity pin, victrola records and meerschaum pipes to the value of \$15.00, and also broke into the Tailor Shop of one, Flower of Kingston, and stole one suit of clothes to the value of \$50. There were four other bills of indictment pleaded to by the applicant but he was only sentenced on the two above-mentioned. He was only nineteen years of age when these crimes were committed and was unarmed.

The applicant has now served eight years and three months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from John Thomas, Superintendent of the Prison Labor Division, in the Eastern Penitentiary. He states that the applicant has learned the shoe-making trade and is competent to demand a good salary in any shoe factory in the country. He recommends clemency. The Warden of the Penitentiary in a letter addressed to the applicant's counsel and filed with the Board states that the applicant has a good prison record. The Mayor of Wilkes-Barre has filed with the Board a letter in which he recommends pardon. Richard Powell, Chief County Detective, in a letter filed with the Board states that the applicant's two married sisters and their husbands residing in Plains Township, Luzerne County, are property owners and substantial citizens and have offered to give the applicant not only a home but also employment, if released.

In consideration of all the circumstances of this case; the youth of the applicant when the crimes were committed; the term of imprisonment already served; his prior good record; his good prison record; because of the recommendation of Mayor Hart, and the fact that the applicant's near relatives will give him a home and employment, if released, we have concluded that he has been sufficiently punished and that if now liberated, he will prove himself a useful and law abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Joseph Dugan, alias, Joseph Savitski.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., February 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 15, January Term, 1926, in the Court of Oyer and Terminer in and for the County of Blair, Marvin C. Burkholder pleaded guilty to the charge of murder in the second degree, and on January 14, 1926, was sentenced to pay a fine of \$50.00, costs, and to undergo an imprisonment in the Western Penitentiary for a period of not less than six and one-half years nor more than thirteen years.

The applicant is a native-born American citizen, fifty years of age. At the time of his arrest he was a railroad engineer

and fireman for the Pennsylvania Railroad Company and had been for a period of time a conductor for the same company. His residence for many years had been in Juniata, Blair County. He has a wife and two children.

At the time of the commission of the crime the applicant was a Constable in the Borough of Juniata, serving a second term. Bernard Gephard was driving a Ford automobile which had been changed to a racer, at an illegal rate of speed and without lights, but no shots were fired by the applicant until after he had repeatedly called upon Gephard to stop, and the firing was done simply to frighten Gephard and induce him to stop, with no motive to do Gephard bodily harm, yet Gephard was shot with fatal results. They had been acquainted for many years and were on good terms. The shooting occurred on the night of August 27, 1925. The applicant suffered great mental anguish on account of this fatal occurrence and while he originally pleaded not guilty to the charge of murder, he was hardly in a mental state to realize what he was doing and allowed himself to be persuaded to plead guilty of murder in the second degree.

The applicant has now served four years and one month of his term of imprisonment. He was never before charged with or convicted of crime.

A great many letters were filed with the Board recommending clemency, one from Sheriff Baird, and others from prominent citizens. There was also filed a large petition of citizens and a large petition of Pennsylvania Railroad employees to the same effect.

The trial Judge, who is now a Judge of the Superior Court, has filed with the Board a letter in which he states that he is of the opinion that the applicant should be pardoned. He continues: "He was an officer of the law and I think he felt he was doing his duty, although he was very reckless in the use of firearms, but I feel that that there was no absence of any evil intent and that his illegal act was more on account of being over-zealous and that he did not expect to really injure or kill the young man. I am not especially interested, but if I were on the Board I would lean toward clemency."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the many letters filed recommending clemency; and the two large petitions to the same effect; and more particularly because of the strong recommendation of the trial Judge, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Marvin C. Burkholder.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 983, January Sessions, 1921, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Jacob Skullnick was convicted of arson, and on February 11, 1921, was sentenced by the court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than eleven years and six months nor more than twelve years.

The applicant, a native of Russia, owes allegiance to that country, and is forty-two years of age. He came to America in September, 1920. He is married and has two children, one of whom is being taken care of by a charitable organization. His wife is employed as a chambermaid and cook and earns fifteen dollars a week. She has no other means of support.

After his arrival in America, the applicant was employed as a driver for a bakery concern in New York City. In

January, 1921, he met Joseph Fickler, Kolman Polefsky and Harry Perlberg in New York City. At this meeting there was considerable drinking and he was induced by the three men to come to Philadelphia with them for the purpose of setting on fire a cloak and dress factory that was conducted by Perlberg and others. While under the influence of liquor, he was taken to the factory and he, Perlberg and the others placed bundles of celluloid throughout the factory and then applied matches to the same. The burning celluloid caused considerable smoke; but the applicant, being unfamiliar with the plan of the factory, was unable to escape. The fire did not ignite any of the woodwork, but scorched a few machines and a small amount of dress goods. The report of the fire marshal shows that very little of the goods was burned, and that the loss from the fire standpoint was small. The fire occurred on the evening of January 25, 1921, on the fourth floor of the building on North Second Street, Philadelphia, occupied by the said Fickler, Perlberg and others, manufacturers of dresses. When the firemen arrived they found considerable smoke but no blaze and, in the loft, located the applicant in a drunken condition. He immediately admitted his attempted arson and was arrested.

The applicant was not only indicted for the offense above-mentioned, but was also jointly charged with Fickler, Polefsky and Perlberg and others with conspiracy to set fire to the building and factory owned by William Haines and Howard L. Haines. While the other were charged with conspiracy, the only one indicted was the applicant, who was found guilty, but sentence was suspended. Subsequently, Fickler was convicted and sentenced for corrupt solicitation and bribery of one of the Assistant Fire Marshals of the City of Philadelphia.

The applicant has now served nine years and nine months of his term of imprisonment. He was never before convicted of crime.

There was filed with the Board a number of letters from Thomas B. Donaldson, former Insurance Commissioner of Pennsylvania, in which he urges clemency. He states that the applicant's wife and children are in destitute circumstances, the one child, aged nine, is in charge of Hebrew charities in New York City. The second child was born soon after the applicant was sent to the Penitentiary. Mr. Donaldson states that he knows the applicant personally and that he has for years been interested in him, and in his family. He further states that the applicant was made the "goat" in the commission of the crime; and that he is not a real criminal. There was also filed with the Board a letter from William Portner, Chairman of Social Service District Grand Lodge No. 3, Independent Order, B'nai B'rith, Philadelphia, in which he offers to become sponsor for the applicant, if released. There was also filed with the Board a report from the resident physician of the Penitentiary in which he certifies to the applicant's impaired health.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; because of the recommendations of clemency by Thomas B. Donaldson, former Insurance Commissioner; because of the fact that a responsible officer of the Grand Lodge No. 3, Independent Order, B'nai B'rith, offers to become sponsor for the future welfare of the applicant; because his wife and children require his support; and because of his impaired health, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence heretofore imposed by the court should be commuted to nine years and one month's imprisonment, effective March 11, 1930.

We therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Jacob Skullnick be commuted to nine years and one month's imprisonment, expiring on March 11, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

## Commonwealth of Pennsylvania.

## Board of Pardons.

Harrisburg, Pa., March 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 30 and 30½, May Term, 1926, in the Court of Oyer and Terminer, in and for the County of Monroe, F. S. Taylor pleaded guilty to two indictments, charging him with robbery, felonious assault and carrying concealed deadly weapons, and on May 11, 1926, was sentenced in the aggregate, on the charge of robbery, to pay a fine of one thousand dollars, costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five nor more than ten years.

The applicant is a native-born citizen of the United States, thirty-nine years of age. His occupation is that of an auto painter. In April, 1915, he enlisted as a private in the Canadian Mounted Rifles and served overseas for three years and ten months and was honorably discharged March 27, 1919. Later he enlisted in the United States Army and was in service at the time of his arrest; and, due to his conviction, was dishonorably discharged, having served only seven months of a three years' enlistment. The applicant was married, but has since been divorced; and his proper place of residence is with his sister in New York City.

About 8.30 P. M., March 6, 1926, the applicant and one Harvey Flory (who was jointly indicted and convicted with him and received a like sentence), both being under the influence of liquor, held up two men, Reed and Gilen, on the highway in Stroudsburg, Pennsylvania. The applicant was armed with a revolver, which was carried to intimidate the persons robbed. Approximately six dollars in cash and property were stolen from the men after an assault was made on them. Both Flory and the applicant were sentenced on the charge of robbery. Sentence on the charge of felonious assault and carrying concealed deadly weapons was suspended.

The applicant has now served three years and ten months of his term of imprisonment. He was never before charged with, or convicted of crime. C. S. Miller, Philadelphia, representative of the Egyptian Lacquer Manufacturing Company, Incorporated, of Philadelphia, has offered to employ the applicant, if released, and act as his sponsor.

The present District Attorney filed a letter with the Board, in which he states that the former trial District Attorney and County Detective informed him that applicant's statement of facts is correct and that they had no objection to the granting of a pardon; that he is also advised that the trial Judge, who imposed the sentence, maintains a favorable attitude. He concludes his letter by saying: "There being no other charges against this defendant in this county and in view of the attitude of the former District Attorney, County Detective and the Court, I have no objection to the granting of a pardon to this defendant at this time."

In view of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served, because employment has been offered him, if liberated, and because of the favorable attitude of the trial District Attorney, the trial Judge, the present District Attorney and prosecutor in the case, we have concluded that the applicant has been sufficiently punished and that, if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said F. S. Taylor.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

## Commonwealth of Pennsylvania.

## Board of Pardons.

Harrisburg, Pa., March 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 92, June Sessions, 1916, in the Court of Oyer and Terminer in and for the County of Luzerne, Luigi Cumbo was convicted of murder in the second degree, and on June 19, 1916, was sentenced by the Court to undergo imprisonment in the Eastern Penitentiary for a period of not less than nineteen years and three hundred and sixty-four days nor more than twenty years.

The applicant is a native of Italy, thirty-five years of age, unmarried, and was employed as a laborer in the anthracite coal mines at Pittston, Pennsylvania, and resided in that city. He came to America in 1912.

In March, 1916, a street car strike was in progress in Pittston and vicinity. On March 13th the applicant with two companions, Vincenzo Territo and Samuel Salvo, desired to visit a friend in the borough of Old Forge, and there being no trolley service they boarded a jitney which was operating from Pittston to the border line separating Duryea Borough from Old Forge, a distance of approximately five or six miles. It was a night shortly after pay day in the mines. The three Italians had been drinking. The jitney driver, one John Melvin, took them as far as the border line separating Duryea and Old Forge, and demanded an exorbitant extra fare to take them to their destination, about a mile beyond. The applicant and his friends protested against the extra fare. Salvo, understanding English better than the others, argued with Melvin, which resulted in the latter, who was a rough-spoken fellow, upbraiding Salvo and calling him vile names, as a result of which a fight ensued, in which the applicant shot and killed Melvin. Prior to the tragedy Melvin and the Italian boys had been total strangers.

Territo, Salvo and the applicant were jointly indicted for murder but tried separately. The applicant was tried first and a verdict of second degree murder returned. Territo next was tried and he, too, was convicted of murder in the second degree. When Salvo's case was called the Commonwealth entered a noli prosequi. Territo was sentenced to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than nineteen years and nine months, nor more than twenty years. He was pardoned in January, 1925.

The applicant has now served thirteen years and nine months of his term of imprisonment. He was never before charged with or convicted of crime. He was only twenty-one years of age when the present crime was committed.

There was filed with the Board a letter from Rinaldo Cappellini, President, District No. 1, United Mine Workers of America, in which he states that he has investigated the crime for which the applicant was convicted, and believes that it was the outcome of a sudden quarrel precipitated by the deceased; that the applicant has been sufficiently punished; that he has bettered himself in every way and is employed as one of the trusted inmates in the repair of plumbing and steam fitting. He adds: "I want to assure your Honorable Board that in the event Cumbo is released, I will personally take a deep interest in the boy, and will look after him and assure you that I will find lucrative employment for him immediately upon his release." The trial Judge has filed with the Board a letter in which, in accordance with his invariable custom, he neither recommends nor opposes a pardon, relying upon the discretion of the Board. Doctor Linn Bowman, moral instructor in the Penitentiary in a letter to the applicant's counsel, which was filed with the Board, states that the applicant is an "excellent Italian," and that his prison record is clear. The trial District Attorney, in a letter addressed to applicant's counsel and filed with the Board, states that Territo, one of the applicant's co-defendants, was pardoned in January, 1925; that the testimony in both cases was practically the same; that he had recommended Territo's pardon because of his previous good character; that no crime was intended up to the very time of the struggle with the victim and that Territo had behaved well in the Penitentiary and had completed nearly one-half of his maximum sentence. He adds: "I understand from you that all of these things might be said in behalf of Luigi Cumbo and that there is the additional circumstance that he had

undergone several surgical operations while in the Penitentiary, and that his health has been considerably impaired." The letter continues: "It has been my custom not to write for or against any application for pardon, but as Territo was pardoned and as there was no difference in the grade of the act, and as Cumbo has served nearly three years more than Territo, the Pardon Board might justifiably look with favor upon this application." The last mentioned letter was written in December, 1928, fifteen months ago.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the long term of imprisonment already served; because of the recommendation of Cappellini, President of the United Mine Workers of the Luzerne District, and his offer to become sponsor for the applicant's future good conduct, and because of the favorable attitude of the trial District Attorney and the excellent prison record of the applicant; because of the impaired health of the applicant, and because one of his co-defendants was pardoned more than five years ago, we have concluded that the applicant has been sufficiently punished and if now liberated will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice, and in open session," recommend that a pardon be now granted to the said Luigi Cumbo, upon the express condition that he be deported to Italy.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 20, September Sessions, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Crawford, J. V. Hendrickson pleaded guilty to an indictment charging him with embezzlement and making false entries by bank employe, and on July 5, 1927, was sentenced by the Court to pay a fine of \$500.00, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than three years nor more than six years.

The applicant is a native-born American citizen, thirty-six years of age. He is a bank clerk by occupation and was employed as paying teller by the Commercial Bank and Trust Company of Titusville, Pennsylvania, at the time of his arrest, and resided in said City of Titusville with his wife. He has an aged mother and an invalid sister who are dependent upon him for support.

The applicant, at various times between January, 1926, and June, 1927, being the employe of a bank, as aforesaid, embezzled funds belonging to said bank aggregating two thousand dollars and at various times received moneys for which he did not make entries on the books and accounts of the said bank.

He entered the service of the bank shortly after his graduation from the High School and soon became imbued with a mania for speculating in the stock market. Every sale or purchase of stock made by him was with the full knowledge of the president of the bank; and throughout his dealings the loans were protected by collateral belonging to the president of the bank. They consummated many deals together. The applicant became heavily involved. At first he only embezzled sufficient to cover the interest on his loans; but later he applied the same on the principal. The president of the bank offered to make good the amount of money applicant had taken; but the bank examiner would not permit this. The applicant was then arrested, but was released when the vice-president of the bank signed the bail bond. The shortage at

the bank was covered by the bonding company and only the small bank account of the applicant was taken in restitution, as the loan at the bank was greater than the amount of the market value of the applicant's collateral.

The applicant has now served two years and eight months of his term of imprisonment. He was never before charged with, or convicted of, crime. His prison record is excellent as appears by a letter from the Warden of the Penitentiary filed with the Board.

Applicant has for several years been the support of his mother and sister. The mother is confined to her bed suffering from advanced cancer of the left breast and his sister is also an invalid. A letter as to the physical condition of the mother was filed by the family physician.

A number of letters were filed with the Board, recommending clemency. The President Judge recommends pardon so that the applicant may be with his aged and afflicted mother in the closing years of her life. The present District Attorney recommends clemency for the same reason. The trial District Attorney writes the Board that the applicant has been sufficiently punished and that he should be returned to his invalid mother and sister. The Chief of Police of Titusville, County Commissioner Conover, William R. Main and Fred L. Main, of Main and Company, Accountants, in letters filed also recommend clemency. Employment has also been offered him, if released, by T. M. Dame of Titusville.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because of the recommendations of the President Judge, present District Attorney, trial District Attorney, Chief of Police of Titusville, and others; and because his aged, invalid mother and invalid sister require not only his support, but his presence; because employment has been offered him if released, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said J. V. Hendrickson.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1033 and 1034, October Sessions, 1921, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Constantino Spaneo pleaded guilty to two indictments, charging him with robbery and entering with intent to steal, and on November 1, 1921, was sentenced by the Court in the aggregate to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than nineteen years and ten months, nor more than twenty years.

The applicant is thirty-three years of age, of Italian origin, but a citizen of the United States. He is unmarried. He was a laborer at the time of his arrest.

At the time that the present offense was committed the applicant was unemployed, except for short periods of a day or two. On the afternoon of October 29, 1921, the jewelry store of Abraham Simon and Sons, at 135 South 13th Street, Philadelphia, was entered by Samuel F. Andrews, a colored man, and the applicant. The former pointed a gun at the proprietor and employes and two diamond rings valued at \$4500.00 were taken. A police officer was on duty at 13th and Walnut Streets at the time, and seeing a crowd gathering in front of the jewelry store, ran up and caught the two men while still in the store. Andrews had a loaded revolver in

his hand and had fired one shot in the store. At the trial both pleaded guilty to the two indictments charging robbery and entering with intent to steal, whereupon, both received a like sentence.

The applicant has now served eight years and five months of his term of imprisonment. He was never before charged with, or convicted of crime.

Andrews, the co-defendant of the applicant, was pardoned by this Board in September, 1929. There was filed with the Board a letter from the Secretary of the Board of Trustees of the Penitentiary, in which he states that the Board officially recommends clemency for the applicant. Similar action was taken when Andrews, the co-defendant, applied for pardon. There was also filed with the Board a letter from the Field Secretary of the International Correspondence Schools, at Scranton, in which he certifies that the applicant has taken a special combination course in their schools, indicating that he is endeavoring to fit himself to fill a useful place in the world on his release. There was also filed with the Board a letter from Dr. Ungerleider, now connected with the Medical Department of the Equitable Life Insurance Society at New York, in which he states that he was the chief physician at the Penitentiary from April, 1921, to December, 1925, during which time he came into personal contact with the applicant. He alleges that when the latter came to the Penitentiary he was an illiterate Italian boy, and that during his term of imprisonment he has learned to read and write, has taken a course in a correspondence school, and at the present time is employed in the printing shop of the Penitentiary. He offers to take the applicant, if released, into his home and be personally responsible for his future welfare. There was also filed with the Board a letter from Samuel Simon, a partner in the firm which the applicant and Andrews endeavored to rob, in which he recommends clemency because of the evidence of rehabilitation which he has shown.

In consideration of all the circumstances of this case: the prior good record of the applicant; the term of imprisonment already served; because the Board of Trustees of the Penitentiary recommend clemency; because Andrews, the co-defendant of the applicant was pardoned by this Board in September, 1929; because the former chief physician of the Penitentiary, now residing in New York, has offered to take the applicant into his home, if released, and be responsible for his future welfare; and because a member of the firm which the applicant attempted to rob also recommends pardon, we have concluded that the applicant has been sufficiently punished and that if now liberated, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend a pardon be now granted to the said Constantino Spaneo.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons

Harrisburg, Pa., March 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 3, 5, 6, 7, 8 and 9, September Sessions, 1924, in the Court of Oyer and Terminer, in and for the County of Allegheny; at Nos. 100, 102, September Sessions, 1924, of the same court; and at Nos. 72 and 73, September Sessions, 1924, in the Court of Quarter Sessions of the Peace, in and for the same county, Louis Eskra, alias Dutch Louie pleaded guilty to ten indictments charging him with robbery, larceny, receiving stolen goods and entering a building with intent to commit a felony, and on September 11, 1924, was sentenced in the aggregate to pay a fine of fifty-six and one-fourth

cents, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than eleven years, nor more than twenty-two years.

The applicant is twenty-four years of age; a native-born citizen of the United States; unmarried and a laborer by occupation. He resided with his parents in the City of Pittsburgh.

On or about June 1, 1924, at 1.30 A. M., Jacob Finegold, George Weigand, Harry Smith, Robert Barnhart, Clarence Hosek, Thomas O'Brien and the applicant met at the residence of Clarence Hosek, a dentist, located in Troy Hill on the North Side of Pittsburgh. They drove together from Troy Hill to the Pittsburgh Natatorium, located on Duquesne Way. Weigand remained in the car. Barnhart abandoned the party when the car approached the Natatorium. It was about 2.00 A. M. Five of the men entered the Natatorium. The applicant held up the cashier, Smith and O'Brien entered the cashier's cage, while Finegold and Hosek covered the elevator operator. Alston, the night clerk in charge was compelled to turn over to O'Brien and Smith about eighteen hundred dollars in cash and thirty-one watches, valued at twenty-five dollars each, and all other articles found on deposit belonging to the patrons of the Natatorium. O'Brien and Smith were in the cashier's cage with the applicant and after the cashier had been held up, Smith and O'Brien left the place of robbery and the others followed. They drove back together to Hosek's residence where the loot was divided. Shortly thereafter, one of the men was arrested. The applicant was arrested in Cleveland, in company with O'Brien and Weigand. Finegold, Hosek and Barnhart were arrested in Pittsburgh several days after the robbery. The applicant alleges that he made the acquaintance of Hosek through Smith after the plans for the hold-up of the Natatorium had been made. All the defendants pleaded guilty and received a like sentence.

The applicant has now served five years and six months of his term of imprisonment. Four of his co-defendants have already been pardoned by this Board; Hosek in March, 1928, Smith in April, 1929, Finegold and O'Brien in October, 1929.

There was filed with the Board a letter from the assistant trial District Attorney, who is now a Member of Congress. In it he states, inter alia, "As I recall the facts all of the defendants were equally guilty, although some effort was made to show that one Clarence Hosek, a dentist, was the brains of the gang. . . . I understand that Clarence Hosek, Harry Smith, Jacob Finegold and Thomas O'Brien, all implicated in the crime with Eskra and equally guilty, have been pardoned and I, therefore, in the interest of justice, can see no reason why pardon should not be granted to Eskra under these circumstances." A number of letters from various individuals were filed with the Board, recommending clemency.

In consideration of all the circumstances of this case; the term of imprisonment already served; and particularly, because of the fact that four of the applicant's co-defendants, who received like sentences, have already been pardoned by this Board, we have concluded that the applicant has been sufficiently punished and that if now liberated, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Louis Eskra, alias Dutch Louie.

Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 131, April Sessions, 1922, in the Court of Oyer and Terminer, in and for the County of Luzerne, Charles White was convicted of murder in the second degree, and on June 8, 1922, was sentenced by the Court to undergo im-

prisonment in the Eastern Penitentiary for a period of not less than nineteen years and eleven months nor more than twenty years.

The applicant is a native-born citizen of the United States, colored, thirty-seven years of age and is by occupation a rock miner, formerly employed by the Glen Alden Coal Company. He resided in the City of Wilkes-Barre.

The applicant and his wife had been separated for several days. On the night of March 7, 1922, he appeared as prosecutor against one, Jackson, upon a charge of breaking up the applicant's home. After the hearing, accompanied by two others, he left the office of the Alderman on Market Street, Wilkes-Barre and started for his home on Lincoln Street, about one-half mile distant. He stated at the trial that he carried a revolver with him that night because Jackson had already threatened his life. Arriving at Lincoln Street, one of his companions said: "Look, there comes your wife now." They met. The applicant asked his wife why she did not return home, and why she did not appear at the hearing in the Alderman's office. After the exchange of a few words, the applicant described the subsequent shooting as follows: "Well, at that time I pulled the revolver and fired. I really didn't know at the minute what I was doing. I had so much worryment and bother I didn't know what I was doing at the time." The wife was shot by him, taken to a hospital and died four days later.

It appeared at the trial that she had been out of town for some time with Jackson and that when she returned, her husband, (the applicant) found in her suitcase some of the clothing and personal belongings of Jackson. There had been a number of temporary separations between the applicant and his wife on account of her intimacy with Jackson. Applicant avers that the infidelity of his wife and her conduct at the time of the commission of the act deprived him of his reason; and that the shots were fired when he was morally irresponsible; and that his present punishment has been adequate.

There was filed with the Board a letter from the assistant trial District Attorney, in which he recommends pardon, alleging that the applicant has been sufficiently punished and that his liberation would not offend justice. County Commissioner Rosser also in a letter filed, recommends clemency. There were also filed with the Board letters from the foreman and nine of the jurors who convicted the applicant urging pardon because under the criminal code the minimum sentence for murder in the second degree has since been reduced to ten years; that he has served nearly eight years of his sentence; that he is a first offender; and because his conduct in prison has been exemplary.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the recommendation of the assistant trial District Attorney, County Commissioner Rosser and ten members of the jury which convicted him, we have concluded that the applicant has been sufficiently punished and that if now liberated, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Charles White.

ARTHUR H. JAMES,  
Lieutenant Governor,  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 5, September Sessions, 1927, in the Court of Oyer and Terminer, in and for the County of Huntingdon, Leopold Curti pleaded guilty to murder, the degree of which was subsequently adjudged to be voluntary manslaughter and on September 19, 1927, was sentenced by the Court to pay a

fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than four years nor more than eight years.

The applicant is forty-three years of age, a native-born citizen of Italy, but a naturalized citizen of the United States since 1924. At the time of his arrest he was a laborer, tossing brick for the United States Refractories Company, at Mount Union, Pennsylvania, and resided in said borough. He is the father of three daughters, aged 22, 13, and 6, respectively, and one son, aged 11 years.

On July 17, 1927, about 2.30 P. M., the applicant was with his wife, Annie Curti, and his four children, in their home at Mount Union, when George Prevot, who had been at the applicant's home for dinner, made a slurring remark to the applicant and in his presence flirted with the applicant's wife. The applicant had previously been informed of the illicit relationship between his wife and Prevot, but up until that time had not believed it; but when he saw the actions of his wife and Prevot he realized the truth of his information. Prevot had threatened the children of the applicant with a revolver (which was produced in Court) if they would tell their father of his clandestine meetings with the wife. When the applicant witnessed the actions of Prevot and his wife he told the former to leave the house, which he refused to do, pulled a revolver and threatened to shoot the applicant. The latter, knowing of the bad reputation of Prevot, grabbed a revolver from the top of the sideboard and shot at Prevot, who rushed out of the house, and Annie Curti, applicant's wife, who jumped in front of Prevot, received the bullet and was killed. The applicant did not realize what had happened when he fired the shot until he saw his wife lying on the floor mortally wounded. He had no thought or intention, whatever, of shooting his wife; but when Prevot drew his revolver and threatened to kill the applicant, the latter, knowing the bad reputation of Prevot, and believing that his life was in danger, fired at Prevot the shot which killed his wife.

The applicant has now served two years and six months of his term of imprisonment. He was never before charged with, or convicted of, crime. His small, motherless children require his care and support.

The present District Attorney and the trial District Attorney have filed a joint letter with the Board in which they recommend a rehearing and a full pardon, alleging that the applicant has suffered sufficient punishment and that the ends of justice would be satisfied with a pardon. There was also filed with the Board a petition of 119 representative citizens of Huntingdon, in which they recommend clemency, alleging that the applicant has been sufficiently punished, and that his motherless children require his care.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because his motherless children require his care and support; because of the joint recommendation of the trial District Attorney and the present District Attorney, and the petition of 119 citizens of Huntingdon county, we have concluded that the applicant has been sufficiently punished and that, if now released he will prove himself a peaceable and law abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Leopold Curti.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., March 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 3, January Sessions, 1907, in the Court of Oyer and Terminer, in and for the County of Blair, Rocco Cirullo was convicted of murder in the first degree, and on August

5, 1907 was sentenced by the Court to be hanged. The first application for commutation of the death sentence was filed with the Board of Pardons in November, 1907. The case was heard at the regular meeting in that month and held under advisement. At the meeting in January, 1908, the application was refused. "with recommendation to the Governor not to issue a death warrant for the present on the ground of present probable insanity." No death warrant was ever issued. At the meeting of the Board in March, 1910, the case was again taken up for final determination. In the meanwhile, Doctor Frank Woodbury, Secretary of the Committee on Lunacy of the State Board of Public Charities, at the request of the Board had made three different examinations as to the sanity of the applicant, and filed reports in December, 1907, May, 1909 and February, 1910. As a result of these several examinations, the Board, inasmuch as it had grave doubts as to the sanity of the applicant, recommended commutation of the death penalty.

The applicant killed his wife on December 27, 1906, at their home in the city of Altoona. The murder was unprovoked and brutal. When he returned home from his work he found his wife ironing in the kitchen; without a word of warning he seized a large knife, chased her out into the yard and cut her throat. He surrendered himself to the police. He had been in confinement ever since the murder, either in jail or in the penitentiary.

At the trial the only defense advanced was that of insanity. No expert testimony was offered in his behalf. There was testimony relating to certain peculiarities and strange conduct, on the part of the applicant, and on hallucinations regarding the chastity of his wife, which latter were baseless, nevertheless, acting upon the impulse of these hallucinations he committed the felony. The jury promptly rendered a verdict of first degree murder. On application made to the Court a commission de lunatic inquiring was appointed, and Doctor Morris S. Guth, Superintendent of the State Hospital for the Insane at Warren, was designated to examine the applicant's mental condition. In his report bearing the date of November 4, 1907, he held that the applicant was suffering from degenerative delusional insanity, not only at the time of the examination, but at the time when the murder was committed. Shortly thereafter, the application for the commutation of the death sentence was filed, and finally disposed of nearly three years later.

The applicant is a native of Italy, 45 years of age, but a naturalized citizen of the United States. He was a laborer by occupation and at the time of his arrest was employed by the Pennsylvania Railroad Company in the machine shops at Altoona, and resided in that city.

The applicant has now been in prison since April, 1907, a period of almost twenty-three years, and was never before charged with or convicted of crime.

There was filed with the Board a letter from the Warden of the Penitentiary in which he states that the applicant's prison record is good; also a letter from the resident physician of the Penitentiary, addressed to the Warden under date of June, 1929, which states that the applicant is in good general physical condition; that he shows no evidence of organic trouble, and that his mental condition is "normal." There were also filed with the Board a number of affidavits from relatives and friends of the applicant with regard to his domestic life and mental condition covering the past years.

The trial District Attorney who formerly lodged a protest against the granting of a pardon (believing the applicant unsafe to be at large), finally agreed to withdraw opposition thereto on condition that the applicant if pardoned be immediately deported. This appears from the affidavit of the applicant's counsel filed with the Board. There was also filed with the Board the affidavit of the applicant himself in which he stipulates and agrees that any pardon granted him shall be contingent upon his submitting voluntarily to deportation from the United States; that the Board may direct that said pardon shall not be effective until delivered to him on shipboard by a guard from the Western Penitentiary or anyone else designated by the Board, he agreeing to pay the necessary expenses of the guard who shall escort him to the Port of New York and place him on shipboard, the expenses of the guard to be deducted from applicant's funds in possession of the Warden.

In consideration of all the circumstances of this case; the long term of imprisonment served, the prior good record of the applicant; because of the grave doubt as to his legal guilt

when the crime was committed; and because the trial District Attorney who had for years strenuously opposed clemency in this case is now satisfied to have the applicant released if he is immediately deported to Italy, we have concluded that the applicant has been sufficiently punished, and we therefore recommend clemency on the express condition that he is immediately deported to Italy on the terms which he voluntarily proposed to the Board.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said Rocco Cirullo on the express condition that he be immediately deported to Italy.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1231, December Sessions, 1928, in the Court of Oyer and Terminer in and for the County of Philadelphia, Nicholas Watkins was convicted of murder in the first degree, and on March 8, 1929, was sentenced by the Court to be electrocuted.

The applicant is a British subject, colored, having been born on the Bahama Islands, fifty-five years ago. His trade is that of cement finisher. He was employed by John F. Carberry to mix mortar at 2124 Market Street, Philadelphia. He resided in an apartment house in that city.

On the evening of November 22, 1928, between 6.30 and 7.00 o'clock Clara Batcher, the common law wife of the applicant, was found dead in the bedroom of their apartment. There were marks on various parts of her head, apparently caused by a blunt instrument. Her skull was fractured and she died as a result thereof. Small hammers, which might have caused the bruises on the deceased's head, were found in the applicant's apartment, but they bore no traces of blood, and were not identified as the instruments inflicting death. At the trial it was shown that John Washington and Emma Washington, occupants of the third floor apartment, had seen the applicant in their apartment about 6:30 P. M. Two witnesses testified to certain conversations with the deceased, in which the latter spoke of threats made on her life by the applicant. The latter was arrested and charged with the murder. He denied the accusation. He testified that on the evening in question he arrived home from work about 6:00 o'clock, was unable to gain admittance to his rooms, and inquired of the Washington family in the apartment above whether they had seen Clara Hatcher. Finally, he climbed through the window and admitted himself to his kitchen. When he opened the door of his bedroom he discovered the body of his dead wife. He called to the Washingtons, and, when they arrived, he went to his landlord on the first floor and requested him to notify the police. Edward Washington, the eleven-year-old son of John and Emma Washington, testified that while he was ascending the stairway, he looked through the stairway window of the applicant's apartment and saw him hitting his wife with two hammers. The applicant was convicted mainly on the testimony of this boy, who did not disclose the information until seven weeks after the murder was committed.

There was filed with the Board the affidavits of Paul Will, Edward Washington, and Emma Washington, his mother. The former avers that he investigated certain facts in connection with this murder, and that Emma Washington and Mary Gibbs, the mother and grandmother of Edward Washington, told him that the latter (who claimed to be an eye witness of the murder), was untruthful, that his companions were bad boys, and that they never knew where he was or what he was doing. Emma Washington, the mother, stated that the boy never told her of having witnessed the killing until

the trial was in progress. Will avers that one of the women who testified as to the threats against the deceased was a woman of immoral character, and that the other woman who gave similar testimony at the trial has since disappeared. He further states that the boy's attendance at school was very infrequent, and that his reputation for truth was bad; that he interviewed him, and that the latter admitted he was unable to identify the man in the room. Edward also confessed that he never told anyone of what he saw until he informed his parents during the trial. Edward Washington, (the boy), in his affidavit filed, states that he saw a man whom he did not recognize strike the deceased on the head with a hammer, and that he told no one what he saw until the night before he was taken to the City Hall as a witness, when he told his parents. Emma Washington, the mother, in her affidavit filed, states that she cannot believe anything that her son says, and that he first told her husband and herself his story of the murder on the last day of the trial, which was January 16, 1929, seven weeks after the tragedy.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; because of our distrust of the boy, Edward Washington, the only eye witness to the tragedy; because of the affidavits of the father and mother and Paul Will filed in the case showing the unreliability of the said Edward Washington, we have concluded that the sentence of death heretofore imposed upon the applicant should be commuted to life imprisonment.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the sentence of death heretofore imposed on the said Nicholas Watkins be commuted to life imprisonment.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 144, December Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Beaver, Abraham Bilwas was convicted of receiving stolen goods, and on December 10, 1929, was sentenced by the Court to pay a fine of \$500.00, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than one year nor more than two years.

The applicant is forty-one years of age, a Russian Jew by birth and allegiance, and a junk dealer by occupation. At the time of his arrest, he was engaged in buying and selling junk on his own account in the Borough of Aliquippa, Beaver County, and resided in said Borough with his wife and three boys, age 12, 11, and 9 years, respectively.

The applicant was charged with having received, on October 12, 1929, copper, the property of the Jones and Laughlin Steel Corporation, valued at \$131.35, knowing the same to have been stolen from said corporation by one Arthur Brayshaw, an employee.

The applicant, as before stated, was a junk dealer, living in Aliquippa, wherein is located the large steel mills of the Jones and Laughlin Steel Corporation. One Arthur Brayshaw, was employed by said Company, and had, for some time, been stealing copper ingots from his employer, and storing them in the cellar of his home located at Monaca Heights, about five and one-half miles distant. During the month of October, 1929, while gathering junk, the applicant happened to pass the Brayshaw home. Mrs. Brayshaw called him and asked what he was paying for copper. He replied nine cents a pound. He did not go into the house to look at the copper, but informed Mrs. Brayshaw where his place of business was located. Shortly thereafter, she called the applicant on the

telephone and told him that her husband had about seven hundred pounds of copper which could be bought for ten cents a pound, and asked him to come and get it. Pursuant to the call, the applicant took his son and drove to the Brayshaw home. Brayshaw took the applicant and his son into the cellar and sold him about seven hundred pounds of copper at the price agreed. Brayshaw had, from time to time, been carrying this copper out of the plant of his employer in his dinner pail and his wife was cognizant of the theft. Brayshaw was arrested and he and his wife testified that they had told the applicant where he had gotten the copper, and that the applicant said that it was all right and that he would take all that Brayshaw could get. This the applicant and his son denied. After getting the copper, the applicant took it to his place of business and finally sold it to another junk dealer. Brayshaw pleaded guilty to the charge of larceny and was paroled for three years upon payment of the costs.

The applicant has now served four months of his term of imprisonment. He was never before charged with or convicted of crime. His wife and family are in destitute circumstances as appears by the certificate of citizens of Aliquippa filed with the Board. Brayshaw, the man who stole the copper, pleaded guilty to the theft and was paroled for three years upon payment of the costs.

There was filed with the Board, a letter from W. T. Mossman, representing the Jones and Laughlin Steel Corporation, in which he states that they have no objection to a pardon being granted in this case. The assistant trial District Attorney has also filed with the Board, a letter in which he states that they have no objection to clemency. Assemblyman Steedle has also filed with the Board, a letter in which he states that he is reliably informed that the Jones and Laughlin Steel Corporation are willing to have the applicant pardoned. He states that the applicant had been a law-abiding citizen and that his family are in destitute circumstances and require his support and recommends clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because the applicant's wife and children are in destitute circumstances and require his support because the prosecutor in the case and the trial District Attorney have no objection thereto; and in consideration of the fact that the man who actually stole the copper suffered no imprisonment and was paroled for three years upon payment of the costs, we have concluded that the applicant has been sufficiently punished, and that if now released he will prove himself a useful and law-abiding citizen.

We, however, are not satisfied that the applicant should be granted an absolute pardon. We have determined that the minimum sentence of imprisonment heretofore imposed by the Court shall be commuted to four months' imprisonment, effective on April 10, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Abraham Bilwas, be commuted to four months' imprisonment, effective on April 10, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 610, 611, and 612, November Sessions, 1921, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Francis Doran was convicted of assault being armed with an offensive weapon with intent to rob; enter-

ing with intent to steal; and assault with intent to kill; and on January 5, 1922, was sentenced by the Court (on No. 610), to undergo imprisonment in the Eastern Penitentiary for a term of not less than nine years nor more than ten years, "to run concurrent with parole from sentence imposed from Norristown, Pennsylvania."

The applicant is a native-born citizen of the United States, forty-five years of age, a steam-fitter by occupation, and at the time of his arrest, resided in the City of Philadelphia, where he was in business for himself as a huckster and had been so engaged for about eight months since his release on parole from a previous conviction.

The applicant has had three previous convictions: the first on the charge of trespassing on a railroad and carrying concealed deadly weapons, and again, for carrying concealed deadly weapons, and then, for felonious entry, larceny, and receiving stolen goods for which latter offense he was convicted and sentenced at Norristown on March 8, 1915, to serve not less than six years nor more than seven years, in the Eastern Penitentiary. He was on parole for the last-mentioned offense when he was again arrested on November 5, 1921, on the charge of attempted robbery by entering the saloon of the prosecutor and attempting to hold him up at the point of a gun. For this offense, he received the sentence first above-mentioned.

This crime was committed while under the influence of intoxicating liquor and he claims to know nothing of what happened, nor that he had been shot by a policeman while attempting to escape, until he regained consciousness in the hospital, to which he was taken some forty-eight hours later. He had no gun when he was picked up after having been shot and the applicant does not remember of ever having seen the gun found in an adjacent lot the following day, until it was offered in Court.

The applicant has now served eight years and three months of his term of imprisonment. For nearly two years past he has been in charge of the operation of the sewage disposal plant at the new Eastern Penitentiary, Graterford, and has learned every phase of its operation, in order to fit himself to take a like position elsewhere and earn an honest living. The Deputy Warden of the Penitentiary has filed with the Board a letter in which he strongly commends the applicant for the manner in which he has performed his duties. The sewage disposal plant is located half a mile outside of the prison walls and the applicant has been given quarters in the plant and has never violated the confidence placed in him. District Engineer Freeburn of the State Department of Health, in a letter addressed to the applicant and filed with the Board, states that he will obtain a position for him if possible, and will not hesitate to recommend him for a position similar to the one which he has filled. James J. Jackson, whose saloon the applicant attempted to rob, has filed with the Board a letter in which he recommends clemency.

In consideration of all the circumstances of this case; the long term of imprisonment already served; because of the splendid record achieved by the applicant while in prison; and because of the recommendation of the prosecutor in this case, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to eight years and three months' imprisonment, expiring on April 5, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Francis Doran, be commuted to eight years and three months' imprisonment effective April 5, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 180, February Sessions, 1928, in the Court of Quarter Sessions of the Peace in and for the County of Erie, Frank Wasson pleaded guilty to an indictment charging him with the larceny of an automobile and receiving stolen goods, and on April 2, 1928, was sentenced by the Court to pay a fine of twenty-five dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than four years and six months nor more than nine years.

The applicant is a native-born American citizen, twenty-six years of age. He is by occupation a truck driver and was last employed by the Erie Railroad Company. He resided in Meadville, Pennsylvania. He is married and has one foster child.

On the night of February 9, 1928, the applicant, Louis Foley, and Harold Schaaf were arrested in the possession of a stolen automobile, the property of Louis Corrier. At the time of the arrest the applicant was drunk and was riding in the rear seat of the car. The applicant subsequently came into court and on April 2, 1928, pleaded guilty to the theft of the car. On May 7, 1928, a true bill was found by the Grand Jury against the three men. On May 14, 1928, on motion of the District Attorney the case was nol prossed as to Foley and Schaaf upon payment of the costs.

The applicant claimed that on the night in question, about ten o'clock, while drunk, he met the two men on Tenth Street, Erie, when they drove up to him in a Moon coach. He got in and sat on the back seat, and several stops were made at places where more liquor was purchased. It was a "Joy ride." About three o'clock the occupants were arrested. Foley drove the car the entire time as is shown by the testimony in the Alderman's court.

The applicant has now served a little more than two years of his term of imprisonment. His prior record is good with a single exception. In November, 1927, he was paroled on a charge of receiving stolen goods. A number of letters were filed with the Board, recommending clemency. The trial District Attorney has filed with the Board a letter in which he states the facts involved in the case, but make no recommendation. The prosecutor in the case by letter filed recommends clemency.

In consideration of the circumstances of the case; the prior good record of the applicant (with a single exception); the term of imprisonment already served; because of the letters of recommendation filed with the Board from the prosecutor and others, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to two years' imprisonment, expiring on April 2, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Frank Wasson be commuted to two years' imprisonment, expiring on April 2, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 171, September Term, 1929, in the Court of Oyer and Terminer, in and for the County of Chester, Howard E. Winward pleaded guilty to an indictment charging him

with larceny and receiving stolen goods, and on September 6, 1929, he was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than one and one-half years, nor more than two years.

The applicant is a native citizen of the United States, thirty-nine years of age. His occupation is that of "railroader." At the time of his arrest he resided in the City of Coatesville with his wife and three children, aged twelve, ten and three years respectively.

The applicant was an employe of the Reading Railway Company, shifting cars into and out of the yards of the Bethlehem Steel Corporation at Coatesville. He was charged with and pleaded guilty to the theft of brass and copper from the yard of the road. This material was sold by him to Riebman, a "fence" of the city of Coatesville. The applicant has previously borne an excellent reputation and was believed to have been induced by the "fence" to pilfer the material.

The applicant has now served seven months of his term of imprisonment. He was never before charged with or convicted of crime. His family, consisting of a wife and three small children, is in destitute circumstances and requires his support.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the need which the family of the applicant has of support, we have concluded that he has been sufficiently punished and if now released he will prove himself a useful and law abiding citizen.

We, therefore "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said Howard E. Winward.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 155, September Term, 1929, in the Court of Oyer and Terminer, in and for the County of Chester, Charles D. Allbright pleaded guilty to an indictment charging him with larceny and on September 6, 1929, was sentenced by the Court to pay a fine of one hundred dollars, costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than one and a half years nor more than two years.

The applicant is a native-born American citizen, twenty-nine years of age. His occupation, as stated in his application is that of "railroader." At the time of his arrest he resided in the city of Coatesville with his wife and son, aged six years.

The applicant was an employe of the Reading Railway Company, shifting cars into and out of the yards of the Bethlehem Steel Corporation at Coatesville. He was charged with, and pleaded guilty to the theft of brass and copper in small quantities from the yard of the road. This brass was sold by him to Riebman, a "fence" of the city of Coatesville. The applicant had previously borne an excellent reputation and was believed to have been induced by the "fence" to pilfer the brass and copper.

The applicant has now served seven months of his term of imprisonment. He was never before charged with or convicted of crime. His wife and child are in destitute circumstances and require his support.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because his family is in destitute circumstances and requires support, we have concluded that the applicant has been sufficiently punished and if now liberated he will prove himself a useful and law abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Charles D. Allbright.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, December Sessions, 1923, in the Court of Oyer and Terminer, in and for the County of Franklin, John D. Leshar was convicted of murder in the second degree and on February 13, 1924, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years nor more than twenty years.

The applicant is a native-born American citizen, forty years of age. He is a brass moulder by occupation but at the time of his arrest he was running an engine for a concrete mixer for Harry K. Gerhart, a contractor. The applicant has three children, aged thirteen, ten and eight years respectively, residing with relatives.

On the afternoon of Thanksgiving Day, 1923, about 2.30 o'clock, Fannie, the wife of the applicant, was found in a dying condition lying on a walk at the rear of the home of one, Potts, in Waynesboro, Pennsylvania, where she had been living, nominally as a house-keeper for Potts, but, as the applicant claimed, as Potts' mistress. In a few minutes she died, death having been caused by a bullet from a revolver which entered her back and penetrated the heart. She was found by her young son, born before her marriage to the applicant, who had heard two shots as he neared the Potts home, and had passed the applicant coming away from the house shortly after these shots had been heard. Later the same afternoon the applicant was arrested while walking down the street with a friend to surrender himself to the police, he having come after the shooting to the home of his mother, where he had been influenced by his relatives and this friend to surrender and where he had admitted that he had shot his wife.

At the trial the Commonwealth showed the above facts, also the fact that the applicant had quarreled with his wife shortly before the shooting, several remarks in the nature of threats made by him prior to the tragedy, and other evidence, cumulative in character, and pressed for a first degree verdict. The applicant did not deny the shooting. He offered evidence to show that he and his wife had been living apart for several months and that he had tried without success to induce her to come back and live with him; that she was a prostitute and had shown him money earned by her misconduct; that his actions for some months prior to the shooting indicated a strained mental condition and that he had been drinking and was considerably under the influence of liquor the afternoon of the tragedy. He testified that he was struck by someone, presumably Potts, while sitting in the room of the Potts house a few minutes before the shooting, while waiting to see his wife, and that he remembered nothing of what happened after the blow.

The applicant has now served six years and two months of the term of his imprisonment. He was never before convicted of crime.

There was filed with the Board a number of letters from citizens of Waynesboro asking for clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the recommendations of friends and neighbors of the applicant; we have concluded that he has been sufficiently punished and that if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John D. Leshner.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 67 May Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Centre, Edward Billett pleaded guilty to an indictment charging him with enticing a female child under sixteen years of age for immoral purposes and adultery, and on April 30, 1929, was sentenced by the Court to pay a fine of one dollar, costs and undergo imprisonment in the Western Penitentiary for a term of not less than two years nor more than four years.

The applicant is a native-born citizen of the United States, twenty-three years of age. At the time of his arrest he was employed as a brakeman by the Bellefonte Central Railroad Company and resided in Spring Township, Centre County. He is married and has two small children. At the time of his arrest the applicant and his wife were not living together.

The applicant, a married man twenty-two years of age, on or about January 13, 1929, committed the crime of adultery with one Caroline Downing, she being at the time under sixteen years of age. He was not living with his wife at the time and the girl, who had been adjudged incorrigible, was then in the custody of the Juvenile Court of Centre County. She had been sentenced to Sleighton Farms, but had been paroled by the Court in order that she might remain with her grandparents. The basis for her delinquency was the fact that she had been promiscuous in her sexual relations with various men and boys. At the date mentioned she had had sexual relations with six other men under similar circumstances, through forcing herself upon them; and of the six men, two had pleaded guilty, two were found guilty on trial, and two were acquitted. The applicant was one of the first men sentenced and received a heavier sentence than any of the other men sentenced for the same offense and was the only one sentenced to imprisonment in the Western Penitentiary. One man was sentenced to the Centre County jail and paroled at the expiration of seven months. Three other men had sentences suspended upon payment of costs.

The applicant has now served almost one year of his term of imprisonment; approximately one-half of his minimum sentence, which is five months more than any other man served who was sentenced as a result of sexual relationship with Caroline Downing. His prior record was good with a single exception. In 1928 he was charged with desertion and non-support of his wife and family and directed by the Court to pay the sum of \$25.00 per month for their support. The applicant was complying with this order at the time of his arrest. A reconciliation has been effected between him and his wife, and if released, he expects to live with his wife and family.

There was filed with the Board a letter from the trial Judge in which he reviews the case and states that Caroline Downing was not of good repute and that she, to a great extent, solicited the attention of the men who were implicated with her. He adds that "the ends of justice have been met and that it would be unjust to detain Billett for a longer period," and, therefore, recommends pardon. The trial District Attorney has filed with the Board a letter in which he advocates pardon, stating that since the sentence of the applicant it has been shown that the girl had had immoral relations with six other

men at about the time of this offense. He adds that the applicant, of all the men implicated by the girl, had been most severely punished.

In consideration of all the circumstances of this case; the term of imprisonment already served; the prior good record of the applicant with the single exception; his comparative youth when the crime was committed; because he was punished more severely than others guilty of like offenses with this same girl; and because of the strong recommendations of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished and that, if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Edward Billett.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1214 and 1215, September Sessions, 1929, in the Court of Quarter Sessions of the Peace in and for the City of Philadelphia, Richard Van Blunt was convicted of larceny and operating a motor vehicle without the consent of the owner, and on September 20, 1929, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than one and one-half nor more than three years. John Hirshman who was jointly indicted with the applicant, pleaded guilty and received a like sentence.

The applicant is a native-born citizen of the United States, thirty-four years of age. In the World War he served over-seas for two years and eleven months and has an honorable discharge. He had been employed as a conductor for the Philadelphia Rapid Transit Company for eighteen months and in the pressroom of the Philadelphia Inquirer for six months. He also had been employed by the Philadelphia Department of Public Works, off and on, for a period of two years. He is married, but his wife left him because of his drinking. He resided in the City of Philadelphia.

Early in the morning of September 15, 1929, two city policemen came upon a Ford coupe without lights, being pushed by another automobile, north on Delaware Avenue, near Fairmount Avenue. They asked the occupants of the car, Hirshman and the applicant, for their licenses, which they could not produce. For want of a satisfactory explanation both men were arrested and taken to the police station. The Ford coupe had been parked by the owner, Frank Grassburger of Camden, New Jersey, on the evening of September 14, 1929, while visiting friends. When he came out of the house about 1:45 A. M., the car was gone, and he reported the loss to the police. Hirshman testified that he had been drunk on the night in question. Then he woke up in a Ford coupe and had no recollection of how he got there. The applicant testified that on the night in question, he was on the corner of Second and DeLancy Streets, waiting for trucks to come which he might help to load or unload; that while standing there, a stranger carrying a can, asked him where he could get gas. The man was Hirshman, his co-defendant, whom he had never seen before in his life. He and Hirshman then got gasoline in a garage around the corner and he went with Hirshman to the car and helped him to try and get the car to run. He claimed that he thought the car belonged to Hirshman, and that they were trying to get the car to start when they were arrested.

The applicant has now served seven months of his term of imprisonment. His prior record is not good, but his offenses were of a minor character, and due to the fact that he was addicted to strong drink.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant and the term of imprisonment already served, we have concluded that the applicant has been sufficiently punished, and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Richard Van Blunt.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 19, January Sessions, 1908, in the Court of Oyer and Terminer, in and for the County of York, Henry Snyder was convicted of murder in the first degree, and on January 9, 1909, was sentenced by the Court to be hanged. Subsequently, on October 20, 1909, the sentence of death was commuted to life imprisonment.

At No. 18, of the same term, in the same Court, the said Henry Snyder was indicted for murder and manslaughter in causing the death of Curwin L. Hoover. A true bill was found by the Grand Jury to which the defendant pleaded not guilty. The case was continued until April Sessions, 1908, and has never been called for trial.

The applicant is a native-born citizen of the United States, forty-four years of age. At the time of his arrest his occupation was that of farmer and he was so employed on his father's farm situate about six miles from the City of York. He resided with his father. He is unmarried.

At daybreak on November 17, 1907, William Hoover, aged about seventeen and one-half years, and his brother, Curwin L. Hoover, aged about nineteen years, were found unconscious lying about eight feet apart, on a public road in the village of Pleasureville, situated about four miles from the City of York. William Hoover had a bullet wound back of the right ear, and Curwin L. Hoover had a bullet in his forehead. Both boys died without regaining consciousness. The applicant was indicted under two separate indictments for the murder of these two young men. He was, as already stated, convicted for the murder of William Hoover and sentenced to death, but has never been tried on the indictment charging the murder of Curwin L. Hoover.

The applicant and the Hoover boys were close neighbors, lived on adjoining farms, and the boys' parents were close friends. On the evening of November 16, the applicant, with two young men, was in York. The former drank six glasses of beer between 8:00 and 10:30 o'clock. At about half past ten he and his two companions left York in one buggy and drove to Pleasureville. On the way and when they arrived in Pleasureville, the three drank a quart of whiskey, within an hour and fifteen minutes of the time of the homicide. The applicant and his two companions stopped near a restaurant where they met the Hoover boys, who apparently were looking for the applicant, having seen him earlier in the evening. The Hoovers entered the buggy with the applicant and his companions and drove a distance of about two city blocks to the place where the homicide occurred. Here the applicant and the Hoovers got out of the buggy and the other two men after a brief delay drove on, leaving the applicant and the two Hoovers alone, within sixty-five feet from where the bodies were found. At this time the applicant and the Hoovers were quite peaceful and friendly and there was no quarrel or angry words between them. Immediately after the two men drove

away in the buggy, the applicant and the Hoovers walked in the direction of the place where the bodies were found, turning into a side road leading from the main road in which they were when the men drove away, which side road led to their homes. After they had turned into this road, four shots were heard in rapid succession, and about a minute later two more shots were heard. Several witnesses passed within sixty feet of where the bodies were found about the time the last shot was fired and one man passed a minute or two later. Two witnesses saw the flash of the last shot and two saw a man fall at the last shot. The bodies were seen in the road but no one was seen moving about, although it was a bright moonlight night. The witnesses, believing that what they saw were drunken men lying in the road, and believing them to have firearms, passed on without inquiry.

The applicant was arrested the following day and after repeated importunities made a series of conflicting confessions or admissions, the one being in substance that the Hoover boys demanded whiskey of him and searched him for it, and in a slight struggle that followed he first shot Curwin Hoover and then shot William Hoover because he was afraid he would tell and was afraid that he, the applicant, would get shot. These conflicting stories undoubtedly brought about the conviction of the applicant. Offers to show that the applicant was intoxicated at the time of the shooting were rejected by the Court. The Court also overruled a number of offers to show epileptic insanity. At the time of the homicide the applicant was less than twenty-one years of age.

At the trial thirty-eight witnesses, nearly the entire voting population of Pleasureville, testified to his good reputation. He was evidently greatly intoxicated at the time he committed the crime. From the time of his infancy until he was about thirteen years of age he was repeatedly seized with epileptic convulsions which would render him for the time being unconscious. In later years he was seized with minor epileptic attacks which apparently were not as severe as formerly. His mind at the time of the homicide was abnormal and defective. Apparently he did not comprehend the gravity of the charge against him or understand the character or effect of his statements. At the trial no motive for the killing was shown. In fact, the testimony showed friendly relations between the boys. The killing must have been on sudden impulse and not as a result of premeditation.

The applicant has been in prison for twenty-three years and is the third oldest man in point of services under life imprisonment in the Eastern Penitentiary. His prison record is excellent as shown by a joint letter from Doctor Linn Bowman, Moral Instructor, and Courtland Butler, Chief Parole Officer of the Eastern Penitentiary. He was never before charged with or convicted of crime. He was only twenty-one years of age when this crime was committed. Doctor William C. Sandy, Director, Bureau of Mental Health, State Department of Welfare, by request of the Board made a mental examination of the applicant and in his report filed states that the applicant is not mentally deficient but he recommends clemency. There was also filed with the Board letters from the present District Attorney, former District Attorney Herrmann, and President Judge Niles, all recommending pardon, believing that justice has been vindicated.

In consideration of all the circumstances of this case; the youth of the applicant at the time the crime was committed; his apparent lack of motive; his prior good record; his excellent prison record; because of the long term of imprisonment served; and, particularly because of the recommendations of the present District Attorney, his immediate predecessors in office, Dr. Sandy, and President Judge Niles, we have concluded that the applicant has been sufficiently punished and if now liberated he will prove himself a peaceful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Henry Snyder.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 35, September Term, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Monroe, Mahlon Prentice pleaded guilty to the charge of larceny; and on August 16, 1927, was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, twenty years of age. When arrested he resided in the city of Newark, New Jersey.

On or about July 14, 1927, the applicant and three companions, James King, Wilbur Hall and Clifford Hall, being in Stroudsburg, Pennsylvania, took and drove away a Chevrolet coach, valued at \$600, the property of Edward Serfass, for the purpose of returning to their homes in Newark, New Jersey, after which the car was there abandoned.

Subsequently, on August 10, 1927, the applicant and his three companions took another automobile from Newark, New Jersey and drove to Tobyhanna, Pennsylvania. On the return trip, while temporarily delayed just outside of Stroudsburg, the four men were arrested and upon being accused of the theft of the automobile of Edward Serfass, as already mentioned, on July 14, 1927, all pleaded guilty and received a like sentence. No injury or damage was done to the automobiles in question and both were returned to their respective owners. The machines, in the language of the application, were "borrowed without the consent of the owner" only to make the trips to the Tobyhanna cantonment.

The applicant has now served two years and eight months of his term of imprisonment. He was only eighteen years of age when these offenses were committed.

The trial Judge has filed with the Board a letter in which he states: "These boys were sentenced at a time when stealing of automobiles was becoming quite prevalent in this community and I felt that for the general effect it was necessary to impose a heavy sentence. As to this application for pardon, there was nothing unusual in the manner in which this automobile was taken. They are all young, and if the facts and circumstances in the case appeal to your Board as being such as would move you to grant a pardon, I feel that the same should be granted and feel that at this time, in view of their age, etc., they have in all probability been sufficiently punished."

In consideration of all the circumstances of this case; the extreme youth of the applicant when the crime was committed; the severity of the sentence; the term of imprisonment already served; and because of the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished and if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, after full hearing upon due public notice and in open session, recommend that a pardon be now granted to the said Mahlon Prentice.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 36, September Term, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Monroe, Wilbur Hall pleaded guilty to the charge of larceny, and

on August 16, 1927, was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, twenty-four years of age. When arrested he was employed as a mechanic by his father and resided in the city of Newark, N. J. Clifford Hall, a co-defendant, is his brother.

On or about July 14, 1927, the applicant and three companions, James King, Clifford Hall, and Mahlon Prentice, being in Stroudsburg, Pa., took and drove away a Chevrolet coach valued at \$600, the property of Edward Serfass, for the purpose of returning to their homes in Newark, N. J., after which the car was there abandoned.

Subsequently, on August 10, 1927, the applicant and his three companions took another automobile from Newark, N. J., and drove to Tobyhanna, Pa. On the return trip, while temporarily delayed just outside of Stroudsburg, the four men were arrested and upon being accused of the theft of the automobile of Edward Serfass, as already mentioned, on July 14, 1927, all pleaded guilty and received a like sentence. No injury or damage was done to the automobiles in question and both were returned to their respective owners. The machines, in the language of the application, were "borrowed without the consent of the owner" to make the trips to the Tobyhanna cantonment.

The applicant has now served two years and eight months of his term of imprisonment. He was only twenty-two years of age when these offenses were committed.

The trial Judge has filed with the Board a letter in which he states: "These boys were sentenced at a time when stealing of automobiles was becoming quite prevalent in this community and I felt that for the general effect it was necessary to impose a heavy sentence. Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 15, September Term, 1925, in the Court of Oyer and Terminer in and for the County of Fayette, Frank Barber alias Francesco Barbalace was convicted of murder in the second degree and on November 14, 1925, was sentenced by the Court to pay a fine of six cents, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than ten years nor more than twenty years.

The applicant is a native and subject of the Kingdom of Italy, unmarried, twenty-nine years of age, a farmer by occupation, and at the time of his arrest, was employed by the Frick Coal Company at Nasontown, Fayette County, and at that time resided in Masontown.

On June 27, 1925, the applicant was at his home which was about 150 feet distant from the place of business of one, Samuel Manley, who kept a pool room, a house of ill fame and was commonly known as a bootlegger. It was the pay day of the Frick Coal Company and there were a large number of men in the pool room, drinking and making a disturbance. The applicant went to the Manley place to inquire the cause of the turmoil, and while he was walking with Manley, and advising him to keep a quiet place or he would get into trouble with the authorities, a man by the name of Larry Tassoni walked into the place and called Manley outside. Shortly afterwards the applicant followed him and saw Tassoni shoot Manley. The latter picked up the gun and shot five times at Tassoni, hitting him once in the leg, but he escaped. Manley was immediately taken to the hospital. On the morning of the following day, the applicant went to the hospital to see Manley; was admitted into his ward, shook hands with him, expressed his sympathy, and asked him if he knew who it was that shot him. Manley replied "that when he got well, he would find him." When the applicant left the hospital, he was arrested by Chief County Detective Bell, as a suspect. Two days later, Bell, in company with Pulosi, an interpreter, called at the jail and Bell asked the applicant who shot Manley, and when informed that it was Tassoni said that he would arrest him, but Tassoni was not apprehended.

There was filed with the Board, a letter from the trial District Attorney in which he states that the applicant called Manley from his place of business to a place at the rear and outside of the building; that the applicant wanted to get some money from Manley and that while they were talking, Manley was shot, and died three days later in the hospital at Uniontown; that there were no eye witnesses to the shooting, but at the hearing it was shown that Manley had been called outside by the applicant and it was at the rear of the building that Manley was shot. After Manley was brought to the hospital, he was questioned about the shooting, and claimed in his statement to the County Detective that the applicant was the man who fired the shot. The trial District Attorney makes no recommendation. There was filed with the Board, the affidavit of Mell, Chief County Detective, who was the prosecutor in the case, in which he states that Manley on his death bed, declared that the applicant fired the fatal shot, but that he believes that Manley, when he made this declaration; was not in a proper mental state to permit his statement to be used as evidence against the applicant; that Manley at the time really expected to recover and he believes that from the attitude and manner of speech of Manley that the latter knew more of the details than he wanted to tell and that his statement should not have been used against the applicant as a dying declaration. There was also filed with the Board, two affidavits of Mrs. Anna Darby, one of the jurors who convicted the applicant, in which she states that while the jury was deliberating, she was threatened and coerced by other members of the jury, and that matters not pertaining to the case were employed to establish the guilt of the applicant. That one of the jurors, after retiring to the jury room, by his attitude and expressions, displayed a feeling of intolerance towards persons born in Italy or persons of foreign extraction. There was also filed with the Board a request signed by ten of the jurors, who convicted the applicant, in which they ask the Board, "to give the above petitioner due consideration in his application for a pardon." There was also filed with the Board, a further statement from the Chief County Detective and prosecutor in the case, in which he states that in his opinion, the applicant was not implicated in any way with the shooting of Manley; that the applicant was convicted solely upon the alleged dying declaration of Manley who was not in a mental condition to make such a statement, and that there was no other evidence against him. He asks clemency. Mrs. Anna Darby in a further statement filed with the Board, alleges that she doubts the guilt of the applicant and that the verdict of guilty was against her will and judgment and that she is now satisfied that the applicant is innocent and trusts that he will be pardoned.

That applicant has now served four years and five months of his term of imprisonment. He was never before charged with or convicted of crime.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the affidavits of the County Detective and prosecutor in the

case and Mrs. Darby one of the jurors, and the recommendations for clemency; and because of the request of the ten jurors who convicted the applicant, we have concluded that the applicant has been sufficiently punished, and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Frank Barber, alias Francesco Barbalace.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 45, 46, and 47, March Sessions, 1925, in the Court of Quarter Sessions of the Peace in and for the County of Bucks, Peter Shields was convicted of conspiracy, felonious arson, and burning a barn and stable, and on March 18, 1925, was sentenced by the Court on No. 46 (charging felonious arson), to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than six years nor more than twelve years. Joseph Pauza and Mary Pauza, his mother, were jointly indicted with the applicant. The latter pleaded not guilty to the three indictments, while his co-defendants pleaded guilty. The applicant was sentenced as above-stated on but one indictment, while sentence was suspended on the other two. Mary Pauza was sentenced to pay a fine of five hundred dollars, and to undergo imprisonment in the Bucks County Jail for a period of not less than six months nor more than twelve months, and Joseph Pauza, the son of the said Mary Pauza, aged about eighteen years, was put on probation for two years.

The applicant is forty-eight years of age, a native of Poland, but a naturalized citizen of the United States. He was a laborer by occupation.

The applicant, a laborer, went to board with Mary Pauza and her son, Joseph, at their home situated about one mile from the Village of Plumstead, in Bucks County, and in December, 1924, learned, upon his arrest in the City of Philadelphia, where he was then working, that he was charged with arson and the burning of the dwelling house, barn, and stable, belonging to the said Mary Pauza and her son. The buildings mentioned were all burned on November 28, 1924, and the basis of the criminal charges against the three was conspiracy on their part to burn the buildings and to defraud two insurance companies, which held policies on them. The applicant testified that he knew nothing of the burning of the buildings. While convicted of conspiracy and the actual burning of all of the buildings, he was sentenced only on the one charge, to wit: the burning of the dwelling house. The principal witness against him was Mary Pauza, who first charged him with the burning and then afterwards confessed that she burned them herself. While in prison she committed suicide.

The applicant has now served five years and one month of his term of imprisonment. He was never before charged with or convicted of crime. There was filed with the Board, letters from the trial Judge and trial District Attorney, addressed to the applicant's attorney, in which both state that they have no objection to a pardon in this case. The trial District Attorney and the present District Attorney have filed with the Board, a letter in which they also state that they have no objection to clemency. The sister of the applicant, who resides in the City of Philadelphia, has filed with the Board, a letter in which she offers the applicant a home if liberated.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because his punishment was far more severe than that meted out to his co-defendants; and because of the favorable attitude of the trial Judge and trial District Attorney and the present District Attorney, we have concluded that the applicant has been sufficiently punished, and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Peter Shields.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 33, September Term, in the Court of Quarter Sessions of the Peace, in and for the County of Monroe, Clifford Hall pleaded guilty to the charge of larceny, and on August 17, 1927, was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years or more than ten years.

The applicant is a native-born citizen of the United States, eighteen years of age. When arrested he was employed as a mechanic by his father, and resided in the city of Newark, New Jersey. Wilbur Hall, a co-defendant, is his brother.

On or about July 14, 1927, the applicant and three companions, James King, Wilbur Hall and Mahlon Prentice, being in Stroudsburg, Pennsylvania, took and drove away a Chevrolet coach, valued at \$600., the property of Edward Serfass, for the purpose of returning to their homes in Newark, New Jersey, after which the car was there abandoned.

Subsequently, on August 10, 1927, the applicant and his three companions took another automobile from Newark, New Jersey and drove to Tobyhanna, Pennsylvania. On the return trip, while temporarily delayed just outside of Stroudsburg the four men were arrested and upon being accused of the theft of the automobile of Edward Serfass, as already mentioned, on July 14, 1927, all pleaded guilty and received a like sentence. No injury or damage was done to the automobiles in question and both were returned to their respective owners. The machines, in the language of the application, were "borrowed without the consent of the owner" to make trips to the Tobyhanna cantonment.

The applicant has now served two years and eight months of his term of imprisonment. He was only sixteen years of age when these offenses were committed.

The trial Judge has filed with the Board a letter in which he states: "These boys were sentenced at a time when stealing of automobiles was becoming quite prevalent in this community and I felt that for the general effect it was necessary to impose a heavy sentence. As to this application for pardon, there was nothing unusual in the manner in which this automobile was taken. They are all young and if the facts and circumstances in the case appeal to your Board as being such as would move you to grant a pardon, I feel that the same should be granted and feel that at this time, in view of their age, etc., they have in all probability been sufficiently punished."

In consideration of all the circumstances of this case; the extreme youth of the applicant when the crime was committed; the severity of the sentence; the term of imprisonment already served; and because of the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished and if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Clifford Hall.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 34, September Term, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Monroe, James King pleaded guilty to the charge of larceny, and on August 16, 1927, was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, eighteen years of age. When arrested he was employed in the press room of the Albright Rubberset Company of Newark, N. J., and resided in that city.

On or about July 14, 1927, the applicant and three companions: Wilbur Hall, Clifford Hall and Mahlon Prentice, being in Stroudsburg, took and drove away a Chevrolet coach valued at \$600, the property of Edward Serfass, for the purpose of returning to their homes in Newark, N. J., after which the car was there abandoned.

Subsequently, on August 10, 1927, the applicant and his three companions took another automobile from Newark, N. J., and drove to Tobyhanna, Pennsylvania. On the return trip, while temporarily delayed just outside of Stroudsburg, the four men were arrested and upon being accused of the theft of the automobile of Edward Serfass, already mentioned, on July 14, 1927, all pleaded guilty and received a like sentence. No injury or damage was done to the automobiles in question and both were returned to their respective owners. The machines, in the language of the application, were "borrowed without the consent of the owner" to make the trips to the Tobyhanna cantonment.

The applicant has now served two years and eight months of his term of imprisonment. He was only sixteen years of age when these offenses were committed.

The trial Judge has filed with the Board a letter in which he states: "These boys were sentenced at a time when stealing of automobiles was becoming quite prevalent in this community and I felt that for the general effect it was necessary to impose a heavy sentence. As to this application for pardon, there was nothing unusual in the manner in which this automobile was taken. They are all young and if the facts and circumstances in the case appeal to your Board as being such as would move you to grant a pardon, I feel that the same should be granted and feel that at this time, in view of their age, etc., they have in all probability been sufficiently punished."

In consideration of all the circumstances of this case; the extreme youth of the applicant when the crime was committed; the severity of the sentence; the term of imprisonment already served; and because of the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished and if now liberated he will prove himself a useful and law-abiding citizen.

ARTHUR H. JAMES,  
Lieutenant Governor.  
ROBERT R. LEWIS,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

## Commonwealth of Pennsylvania

## Board of Pardons.

Harrisburg, Pa., April 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 8, April Sessions, 1925, in the Court of Oyer and Terminer, in and for the County of Allegheny, Mike Calucci was convicted of robbery and receiving stolen goods, and on April 16, 1925, was sentenced to pay a fine of six and one-quarter cents, costs and to undergo imprisonment in the Western Penitentiary for a period of not less than four years nor more than eight years. At No. 9 of the same term and in the same Court he pleaded nolo contendere to a second indictment based on a similar charge, and on the same day received a like sentence to take effect, however, at the expiration of the former sentence.

The applicant is a native of Italy, but a naturalized citizen of the United States, thirty-one years of age. He came to the United States in 1913, served honorably overseas in the World War and is unmarried. At the time of his arrest he was a foreman and paymaster in the employ of Emil Gabriel, a contractor of Pittsburgh, Pennsylvania, engaged in foundation construction work.

On the evening of February 23, 1925, the applicant was called to the home of Mrs. Mary Spennelli. He had carried on a brief flirtation with Mary Spennelli, believing her to be what she represented herself to be, a single woman. This particular evening she had sent for him to obtain financial aid for one Cono Spennelli (her husband) and Thomas Darling, who had been arrested for robbing two taxicab drivers. The applicant refused to aid her and while they were talking over the matter detectives came and arrested Mary Spennelli and a roomer by the name of Joseph Perroni, for complicity in the crimes for which the two men had been arrested. Mary Spennelli told the officers that the applicant knew absolutely nothing about the crimes. At the police station she made a written confession in which she admitted being the woman in the case, but did not implicate the applicant. Nevertheless, the latter was held, but it was not until the trial that Mary Spennelli and Thomas Darling implicated the applicant and said that he had been aiding them in the robberies. Mary Spennelli, Cono Spennelli, Thomas Darling, Joseph Perroni and the applicant were found guilty on the first charge and received the following sentences: The applicant was sentenced to pay a fine and to serve a term of imprisonment in the Western Penitentiary for a period of not less than four years nor more than eight years; Cono Spennelli was sentenced to pay a fine and to serve a term of imprisonment in the Western Penitentiary for a period of not less than two years nor more than four years; Thomas Darling was sentenced to pay a fine and to serve a term of imprisonment in the Allegheny Workhouse for a period of not less than one year nor more than two years; Joseph Perroni was sentenced to pay a fine and committed to the Pennsylvania Industrial Reformatory at Huntingdon; while sentence was suspended on Mary Spennelli on payment of costs by the County.

The following day the applicant found himself charged with a second robbery. He stoutly denied any knowledge of the crime and declared his innocence. His lawyer insisted that he enter a plea of nolo contendere and not knowing what it meant and believing that it meant that he was not guilty he allowed the plea to be entered in his behalf, and was sentenced to pay a fine and to undergo imprisonment in the Western Penitentiary for a period of not less than four years nor more than eight years, to begin at the expiration of the former sentence. The applicant declared that he had never met or heard of Cono Spennelli, Thomas Darling or Joseph Perroni until the night of his arrest. They, the persons who actually committed these crimes have been free for nearly two years.

The applicant has now served five years of his term of imprisonment on the first sentence and has not yet begun to serve the period of imprisonment imposed by the second sentence. He was never before charged with or convicted of crime.

There was filed with the Board a letter from Emil Gabriel, the applicant's former employer, in which he recommends clemency and offers to reemploy the applicant if released.

There was also filed with the Board a letter from the applicant's former Army Captain (who is a member of the Legislature from Pittsburgh), also a petition of members of the 107th Field Artillery, former comrades, and a petition of neighbors and friends of the applicant, all recommending pardon.

There was filed with the Board a letter from the trial District Attorney in which he states that, after consultation with his assistant who actually tried the case, they would, at the present time, recommend clemency.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; his excellent war record; because he has been more severely punished than his co-defendants, who are now at liberty; because employment has been offered him if released; because of the recommendations of his former Army Captain, comrades and friends in Pittsburgh; and in consideration of the recommendation of the trial District Attorney, we have concluded that he has been sufficiently punished and should be relieved from the operation of the second sentence imposed at No. 9, April Sessions, 1925, and thereby made eligible for parole on the first sentence at No. 8, April Sessions, 1925.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said Mike Calucci for the offense covered by No. 8, April Sessions, 1925, only, but not to include the similar offense covered by No. 8, April Sessions, 1925.

ARTHUR H. JAMES,  
Lieutenant Governor.

ROBERT R. LEWIS,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

## Commonwealth of Pennsylvania.

## Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 121, December Sessions, 1916, in the Court of Oyer and Terminer, in and for the County of Delaware, Alexander Cullen pleaded guilty to an indictment charging him with murder, the degree of which was adjusted to be murder in the second degree, and on March 22, 1917, was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than fifteen years, nor more than twenty years.

The applicant is a native-born citizen of the United States; thirty-six years old; colored. He is a stationary fireman by trade. He was so employed by the Beacon Light Company, Chester, Pennsylvania, at the time of his arrest, and resided in that city.

The applicant, a native of Maryland, remained in that State until May, 1916. He was a member of the church, sang in the church choir and was a member of the Knights of Pythias. He was married and had one son. In January, 1916, he became entangled in an affair with a colored woman, Mary White, which finally resulted in trouble and disgrace, causing him to be evicted from his lodge and church. Owing to the disgrace, in May, 1916, he came to Chester, Pennsylvania. The following August, Mary White followed him to Chester. They finally lived together at the home of Mrs. Dougherty, and remained there together until November 21, 1916. On October 30, 1916, Mary White went out with another negro while the applicant was working on night shift. Prior thereto she had stayed out at night with other men. The applicant remonstrated with her and told her if she was willing to live decently, all would go well, otherwise she would have to get out. Mrs. Dougherty scolded the girl for her waywardness, but she did not change her method of living. After having caught her on several occasions, the applicant came home, on November 20, 1916 and told Mrs. Dougherty what he had seen and that he would not live any longer with Mary White. Mary came home that day,

however, and persuaded the applicant to take her back and resume their lives together. She, however, continued her relations with other men. On November 21, 1916, the applicant packed her trunk and put her out. She left, but several days later began writing letters to the applicant making every endeavor to see him. On November 27, 1916, she accidentally met him on the street and asked him to meet her at the home of Mrs. Collins, saying that she wanted to talk to him. When he arrived at the Collins house, Mary was there. After he came in, Mrs. Collins asked him what was the matter with him that he did not look right, that he had a haunted look in his eyes. He said nothing but asked where Mary was, and Mrs. Collins came over and looked through his pockets, finding that he had a gun. She asked him to give it to her, to which he replied: "No, it is the only friend I have." Mary and the applicant went into a room and had a long talk together. He told her he had given up everything for her, his wife, his family, his child, his position in the community and there was nothing further that they could do; that there was only one step to take, and that was for both of them to commit suicide. He pulled out his gun and she jumped up and screamed. Mrs. Collins ran in and struggled with him. Mary got away and ran upstairs. He meant to kill her and himself, as he thought that was the only way out. He picked up his gun, rushed upstairs after Mary, where he shot her three times, killing her. He went downstairs, put the gun in his pocket, went home to Mrs. Dougherty and told her what he had done. He then went out and stood on the street smoking a cigarette until the police came and arrested him.

The applicant has now thirteen years, two months of his term of imprisonment. He was never before charged with or convicted of crime.

A large number of letters were filed with the Board recommending clemency. Many came from his former home in Maryland. Among others was a letter from the President of the City Council of Crisfield. Employment has been offered the applicant by the proprietor of a garage in Atlantic City if he is liberated. Samuel R. Boggs, a member of the Board of Trustees of the Penitentiary, has actively interested himself in behalf of a pardon for the applicant.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; because of the many letters recommending clemency; particularly the recommendation of Samuel R. Boggs; because employment has been offered him if released, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to thirteen years and two months' imprisonment, effective on May 22, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Alexander Cullen be commuted to thirteen years and two months' imprisonment, expiring on May 22, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 3, December Sessions, 1927, in the Court of Oyer and Terminer in and for the County of Lawrence, Frank Elisco was convicted of manslaughter, and on February 23, 1929, was

sentenced by the Court to pay a fine of fifty dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than three years nor more than seven years.

The applicant is thirty-five years of age and owes allegiance to the Kingdom of Italy. He came to this country in 1912. He is a laborer by occupation, having worked in the tin mill at New Castle. At the time of his arrest, he was employed as a collector and driver for Alfonso Scarazzo and resided in New Castle with his wife and six children, the oldest being thirteen years of age.

The applicant, Antonio DiRouso and two companions spent the night of November 19, 1927, traveling about the city of New Castle visiting one house after another, drinking wine and other intoxicating liquors until nearly daybreak the following morning. During this period, there were slight altercations between the applicant and DiRouso wherein the latter threatened the applicant with bodily harm. The applicant had been warned by the two men that DiRouso was trying to pick a quarrel with him. He was also warned that the former had killed a man in Italy. About daybreak on the morning of November 20, 1927, the two companions, DiRouso and the applicant got out of the automobile in which they had been riding and went to another house to get more liquor. DiRouso got out of the car and on the sidewalk asked the applicant: "Won't you get out of the car?" The applicant said, "No Andy, it is pretty late. I want to go home." DiRouso said, "Late? You are not going to go home." He caught hold of the applicant and said, "I am going to kill you the same as I killed the man in the old country," and pulled the applicant out of the car and slapped him with his open hands across the face. After further altercation, the applicant saw DiRouso pull a gun with his right hand ready to shoot. He got hold of DiRouso with his left arm, then pulled his own gun, shot him in the abdomen, wounding him so that he died the same day. At the trial the applicant contended that he shot the deceased in self-defense because he believed at the time that he was in actual or imminent peril of his life and would suffer great bodily harm and had no means of escape. The jury found him guilty of manslaughter.

The applicant has now served one year and three months of his term of imprisonment. He was never before charged with or convicted of crime. His wife and six small children are dependent on him for support. They are now being supported out of public funds and by private donations.

There was filed with the Board, a numerously-signed petition of citizens of New Castle requesting clemency, on the ground of the applicant's prior good reputation for peace and good order in the community and for the further reason that they believe that he has been adequately punished and will lead an upright life if released. Charles H. Young, a prominent lawyer of New Castle has filed with the Board, a letter in which he states that the local sentiment is favorable to the applicant's pardon; that he has a wife and six small children who are dependent on him for support and that the sentiment in the community is that he should have been acquitted on the ground of self defense. He adds that the applicant has always borne a good reputation; that he has been adequately punished, and that further imprisonment would work a hardship on his family. Charles J. Margiotti, a prominent attorney of Punxsutawney, who recently spent considerable time in New Castle in the trial of a famous murder case, writes the Board, inter alia, as follows: "Mr. Elisco is well thought of in his community and bears a splendid reputation for having been peaceable and law-abiding all his life. Although he was convicted of manslaughter, the facts indicate that he acted in self-defense. The applicant has expiated nearly half of his minimum sentence and I believe that a pardon at this time would adequately meet the ends of justice."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the need which his family has of support; because of the recommendations of Charles H. Young, Charles J. Margiotti and the petition of citizens, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and three months' imprisonment effective on May 23, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence

of imprisonment heretofore imposed on the said Frank Elisco be commuted to one year and three months' imprisonment expiring on May 23, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 18 and 19, December Sessions, 1916, in the Court of Quarter Sessions of the Peace in and for the County of Centre, Edward Bannon pleaded guilty to two indictments charging him with arson, and on November 21, 1916 was sentenced by the Court in the aggregate to pay a fine of fifteen hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than twenty years nor more than thirty years.

The applicant is a native-born citizen of the United States, forty years of age, unmarried, and at the time of his arrest resided with his parents in Philipsburg, Centre County. His occupation was that of buying and selling small pieces of merchandise and occasionally working about the mines.

On March 13, 1916 the large McGirk building on one of the principal streets in said borough was completely destroyed by fire. This building consisted of store rooms, apartments, and dwelling houses.

On October 29, 1916 the Odd Fellows' building in the Borough of Philipsburg was set on fire and was partly damaged before the flames were extinguished.

In connection with these fires informations were lodged against the applicant charging him with arson, and he, being weak mentally and also under the influence of liquor, was unable to properly prepare a defense and was taken to jail. Prior to his conviction the applicant was a quiet, unassuming man showing no vicious tendencies whatever. He is a cripple, having lost one of his legs when he was a child six years of age. From boyhood he exhibited a low grade of intelligence and was unable to meet the charges.

The applicant has now served thirteen years and six months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the trial Judge, now deceased, in which he recommends pardon. There was also filed with the Board a letter from the trial District Attorney which evinces a favorable attitude. The Warden of the Penitentiary has filed a letter in which he refers to the marked improvement in the physical and mental condition of the applicant since his incarceration. J. C. Coulter, parole director of the penitentiary, has filed a letter with the Board in which he refers to the applicant's excellent prison record and the great improvement in his condition since his imprisonment. He recommends clemency. There was also filed with the Board a numerously-signed petition of citizens of Philipsburg in which they ask clemency. Annie McGirk, owner of the McGirk building, has filed a letter in which she asks clemency.

Dr. Sandy, director, Bureau of Mental Health, Department of Welfare, by request of the Board of Pardons, made a mental examination of the applicant in March, 1930, and in his report filed states that the applicant's mentality is not high and that he should be classed as "dull-normal." He adds: "His mentality is sufficiently high to enable him to make a living especially under the proposed circumstances, his younger brother having offered to receive him in his home at Altoona and help him to secure work." Dr. Sandy suggests that instead of a pardon the applicant be kept under supervision for a time.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprison-

ment already served; because of the recommendation of the trial Judge and the favorable attitude of the trial District Attorney and the favorable statements of the Warden and Parole Director of the Penitentiary, and because of the recommendation of Dr. Sandy, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to thirteen years and six months' imprisonment effective on May 21, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Edward Bannon be commuted to thirteen years and six months' imprisonment, expiring on May 21, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 5, March Sessions, 1917, in the Court of Oyer and Terminer in and for the County of Allegheny, Gust Paolis pleaded guilty to an indictment charging him with murder, the degree of which was adjudged to be murder in the second degree, and on April 6, 1918, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than thirteen years nor more than eighteen years.

The applicant is thirty-nine years of age, a native of Greece, and owes allegiance to that country. He is unmarried and a blacksmith by trade. He was employed by the American Steel and Wire Company of Pittsburgh, as a laborer, at the time of his arrest.

On December 23, 1916, the applicant became very ill while at work in the plant of the American Steel and Wire Company at Pittsburgh. He complained of his illness to a fellow workman who advised him to drink a couple of glasses of good whiskey as a medicine. Applicant did as he was advised and became very much intoxicated. Later he met a friend, Alekos Philivaki, who at once noticing his condition took him to his home, insisting on bathing the applicant's head with cold water. While being bathed, the applicant drew a revolver and accidentally shot his friend, Philivaki, in the leg. He then left the Philivaki home and went to a restaurant, after which he went to his boarding house. While there he shot and killed Mrs. Kirana Clares, wife of the proprietor of the boarding house. During the shooting the applicant was intoxicated. These acts were committed while he was not in possession of his mental faculties, due to strong drink. He was immediately arrested, entered a plea of guilty, and was held more than fifteen months before he was tried and sentenced as above.

The applicant has now served twelve years and one month of his term of imprisonment. Prior thereto he was imprisoned fifteen months awaiting trial, making a total of more than thirteen years, which is greater than his minimum term of imprisonment. His prior record was good.

There was filed with the Board a letter from the trial Judge, addressed to the applicant's counsel, in which he states that there was a serious question as to the applicant's mental condition when the crime was committed. He further states that in view of all the circumstances of the case, and after mature reflection, he would have no objection to a pardon, and that, "if I had myself to make the decision it is probable that I would release this man at this time." He further states that he never could understand why the applicant shot Mrs. Clares. He concludes, "I do not feel that I have any such knowledge that I could recommend a pardon but would be very strongly

disposed to grant it if the matter were up to me." The trial District Attorney is no longer in the service of the county. There was filed with the Board a letter from George Kowmaroas, the brother-in-law of the applicant, engaged in the mercantile and meat business in Weirton, West Virginia, in which he states that he will gladly take the applicant into business partnership with him if he is released.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; because employment has been offered him if released, and because of the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to twelve years and one month's imprisonment, expiring on May 6, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Gust Paolis be commuted to twelve years and one month's imprisonment, effective on May 6, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 112, June Sessions, 1924, in the Court of Oyer and Terminer, in and for the County of Lawrence, Gustyn Ganiel alias Justyn Jamiel pleaded guilty to an indictment charging him with murder, the degree of which was adjudged to be murder in the second degree, and on June 26, 1924, was sentenced to pay a fine of fifty dollars, costs and to undergo imprisonment in the Western Penitentiary for a term of not less than ten years nor more than twenty years.

The applicant is about forty-two years of age and unmarried. He owes allegiance to the Republic of Poland. At the time of his arrest he was employed in the Shenango Tin Mill at New Castle, Pennsylvania, and resided in that city.

The applicant boarded at the home of one Joe Kivich. Joe Urovich, a relative of the proprietor, boarded at the same place. Both worked in the Shenango Tin Mill. At the time of the commission of the offense, which is the basis of the present application, the applicant was on a spree. He had been off work for about three days. When he returned to work his boss saw that he was unfit and sent him home. Instead of going home he visited a number of speakeasies. While on the spree he purchased a revolver but claims he doesn't know where, nor does he know the calibre of the weapon nor the purpose for which it was bought. He finally returned to his boarding house. Previously Joe Urovich had threatened to stab him. Urovich carried a knife with him at all times and was in the habit of brandishing it and telling the applicant that he was going to use the knife on him. The applicant dimly recollects seeing Urovich standing over him with a knife as if to stab him. He tried to defend himself and the gun was discharged while he was struggling for his life and Urovich fell to the floor. From that time until the applicant awoke in the New Castle Hospital he had no recollection of what took place. He was subsequently informed that there had been an altercation between him and Urovich at the boarding house and that Urovich was dead. He had no recollection of having shot Urovich. He himself had been shot through the chest and he did not know by whom or for what cause. It was for this injury that he was taken to the hospital. He remained in the hospital for three months after which he

was removed to the New Castle jail. There he was subsequently charged with the murder of Urovich.

The applicant has now served five years and eleven months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from President Judge Hildebrand, who was the attorney for the applicant at the trial. He states that the applicant had been drinking moonshine whiskey for several days and that he had shot a friend with whom he had associated for six years without any quarrel and without any apparent reason. He added: "after shooting his friend he attempted to take his own life. It was my opinion then and it is my opinion now that the man at the time of the shooting was crazed by drink to such an extent that he didn't know and realize what he was about." Judge Hildebrand joins the applicant in his plea for pardon.

There was also filed a letter from the president of the Peoples Savings and Trust Company of New Castle, in which the writer recommends clemency. He states that he knew the applicant and that he was a "peaceful and hard working man." The manager of the tin plate mill in which the applicant was employed also wrote a letter to the Board in which he states that the applicant was employed by them for almost seven years and during that time he was a steady worker and that his foreman highly recommended him.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; and because of the recommendations of President Judge Hildebrand and others, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon we have determined that the minimum sentence of imprisonment heretofore imposed by the Board should be commuted to five years and eleven month's imprisonment, effective on May 26, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Gustyn Ganiel, alias Justyn Jamiel, be commuted to five years and eleven month's imprisonment effective on May 26, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 495, January Sessions, 1929, in the Court of Quarter sessions of the Peace, in and for the County of Lackawanna, Aldo Pagliary pleaded guilty to an indictment charging him with the larceny of an automobile, and on February 7, 1929, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than four years nor more than eight years.

The applicant is a native of Scranton, of Italian parentage, and when arrested was only sixteen years of age. At this time he was out of employment. Previously he had been an apprenticed plumber's helper and resided in the City of Scranton with his mother, a widow.

The applicant is charged with having taken on January 23, 1929, between the hours of ten and eleven P. M., a Gardner Sedan, the property of C. Scott. At the time there was an epidemic of petty burglaries and thefts of automobiles by boys and young men. The Courts and police officers were making a determined effort to check this outbreak of crime and arrests were made in large numbers, of boys and young men suspected of having any connection with these offenses. Joseph Bieger

confessed to certain of these offenses and stated that on one occasion when an automobile, the property of C. Scott, was taken for a short ride, he was accompanied by the applicant. Upon information thus obtained the applicant was arrested, taken first to a cell in the City Hall, and then removed to the County Jail, and shortly thereafter, for the purpose of forcing a confession, was taken to the barracks of the State Constabulary. He was only sixteen years of age. He was refused an opportunity to communicate either with his family or counsel. After being detained at the barracks several days, the applicant, in company with other youths charged with various crimes and in charge of the State Police, was arraigned before an Alderman. He pleaded guilty to the larceny of an automobile and was thence immediately taken over to the Chambers of Judge Newcomb, where, in answer to a bill of indictment, a plea of guilty was entered. At the time of his sentence there were a number of other youths charged with burglary and the same sentence was alike imposed upon each and all of the offenders. The automobile in question was merely taken for a ride, abandoned a few hours later, recovered by the police, and on the following day returned to the owner undamaged.

The applicant has now served one year and three months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a petition of neighbors asking clemency. They allege that the applicant is the eldest son of his widowed mother who is in poor health and that the family requires his assistance. They certify that prior to his sentence he bore a good reputation and worked hard to assist his mother.

In consideration of all the circumstances of this case; the extreme youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; the severity of the sentence and the need which his mother has of his support, we have concluded that the applicant has been sufficiently punished and that if now liberated, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Aldo Pagliari.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 24, May Session, 1927, in the Court of Oyer and Terminer, in and for the County of Lackawanna, Bernard Hicks pleaded guilty to an indictment charging him with having feloniously stolen a motor vehicle and on April 16, 1927, was sentenced by the Court to pay a fine of one dollar, costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five nor more than ten years.

The applicant is a native-born citizen of the United States, twenty-eight years of age, and unmarried. He has been a laborer in the mines and resided in the city of Scranton with his mother and grandmother.

On May 20, 1927, about 8 o'clock P. M., the applicant in company with one Harold Baum, an occasional acquaintance with whom he had been spending the evening, were walking along Sanderson Avenue in the City of Scranton when they saw a Studebaker car parked close to the curb. The two boys got into the car, drove it about four blocks and parked it immediately in front of the owner's home. The latter recognized his car and had the boys arrested. The car was in their possession about twenty minutes. No damage was done to the car.

The applicant has now served three years and one month of his term of imprisonment. He was never before charged with or convicted of crime. The applicant's mother, about sixty years old, requires his support.

There was filed with the Board a letter from a former employer in which he states that the applicant was employed by them as a driver and in that capacity handled cash and that they always found him to be honest. In the event of a vacancy they offer to give him employment if released. Louis J. Murphy, the owner of the stolen automobile, has filed with the Board a letter in which he states that he believes the applicant has been sufficiently punished and joins in his application for pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because his aged mother requires his support; because a former employer is willing to re-employ him if released; and because of the recommendation of the prosecutor in the case, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Bernard Hicks.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1004, December Session, 1923, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, Joseph Walker was convicted of robbery and assault, being armed with an offensive weapon, and on January 8, 1924, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years nor more than twenty years.

The applicant is thirty-three years of age, colored, and unmarried. At the time of his arrest he resided in the City of Philadelphia. He had previously been employed in the Carnegie Steel Mills at Braddock, Pennsylvania, until December 1, 1923, when he was laid off on account of slack work. He came to Philadelphia on December 17, 1923, and one week later was arrested and held for trial on the charge of robbery.

It is alleged that the applicant, on December 31, 1923, being armed with an offensive weapon, assaulted and robbed one Henry W. Cook, and took from his person twenty-five dollars in cash; a watch valued at fifty-five dollars; a watch chain valued at twelve dollars, and an overcoat valued at thirty dollars, the total value of the stolen articles being one hundred twenty-two dollars. The applicant denies his guilt and claims that when the alleged crime was committed, he was in jail, having been arrested on December 24 as already stated, and was continuously in the custody of the police from that date until he was sent to the penitentiary in January, 1924. He avers that the police records corroborate his statement.

The applicant has now served six years and four months of his term of imprisonment. He admits guilt of two prior offenses of a minor character.

In consideration of all the circumstances of this case; the term of imprisonment already served, and the grave doubt as to the guilt of the applicant, we have concluded that he has been sufficiently punished and that if now liberated he will prove himself a peaceful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and

## APPENDIX TO THE

in open session," recommend that a pardon be now granted to the said Joseph Walker.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 420 and 421, September Sessions, 1923, in the Court of Oyer and Terminer in and for the County of Philadelphia, Eugene J. O'Neill, alias George Connors was convicted of robbery, being armed with an offensive weapon, and on October 8, 1923, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than seven years nor more than fourteen years.

The applicant is twenty-six years of age, a native-born citizen of the United States, and unmarried. He was born and resided in the City of Springfield, Massachusetts. At the time of his arrest he was out of employment.

On September 9, 1923, at about 10.30 P. M. the applicant with one, Edward Hale, engaged a taxicab of the Yellow Cab Company of Philadelphia at 22nd and Chestnut Streets. They directed the driver to go to 50th Street and Haverford Avenue, where Hale got out of the cab to go to a drug store. The applicant believed that the taxicab driver was the same person who had held him up some time previously and had taken twenty-six dollars from him. Upon the return of the applicant, he and Hale decided that they would even scores. They directed the driver to go back a short distance when they stepped, Hale taking the wheel of the cab and putting on the cap of the taxicab driver while the applicant took his money and watch. They drove a short distance, got out of the cab, took the name and address of the driver and told him that they would find out whether or not he was the man who had committed the former robbery of the applicant, and if they determined he was not, they would return the money and watch to him. They then walked to 40th and Market Streets and took another cab to return to their starting point when they were apprehended.

The applicant has now served six years and seven months of his term of imprisonment. He was never before charged with or convicted of crime. Hale, his co-defendant, was pardoned by this Board in February, 1930. He was 21 years of age when this crime was committed.

There was filed with the Board a letter from the City Assessor of Springfield, Massachusetts, in which he states that he has known the applicant since childhood and that if released, he will secure employment for him. There was also filed with the Board, a letter from the Probation Officer of the District Court of Springfield in which he states that the applicant has no record in that Court and that he will supervise the applicant should he be paroled and return to his old home.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because employment and supervision have been offered if the applicant returns to Massachusetts, his old home, and because of the additional fact that Hale, his co-defendant, equally guilty, was pardoned by this Board in 1930, we have concluded that the applicant has been sufficiently punished and that if now liberated, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice in

open session," recommend that a pardon be now granted to the said Eugene J. O'Neill, alias George Connors.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 15, April Sessions, 1923, in the Court of Oyer and Terminer, in and for the County of Lackawanna, Joseph Wall pleaded guilty to an indictment charging murder, the degree of which was adjudged to be murder in the second degree, and on May 15, 1923, was sentenced by the Court to undergo imprisonment in the Eastern Penitentiary for a term of not less than eleven years nor more than fifteen years.

The applicant is a native-born citizen of the United States, twenty-four years of age. He is by occupation a motor runner in the coal mines, and was so employed, at the time of his arrest in the Marvine Colliery of the Hudson Coal Company in the City of Scranton, and resided in that city with his mother, who is a widow. He is unmarried.

The applicant was one of four young men indicted for the murder of Evan Parker, in the Borough of Dickson City, Lackawanna County, on the night of December 21, 1922. The three other men implicated in the shooting were Leonard Gilgallon, Joseph Gentile, and John Robinson. Gentile and Robinson met the applicant by chance in Scranton about eight P. M. The three men took an automobile and started up the valley toward Dickinson City. On the way they picked up Gilgallon. The applicant was driving the car. They visited different places and finally came to the corner of Lincoln Avenue and Johnson Street, Dickson City, near the place where Parker lived. Parker had escorted a friend of his family to a street car and was returning to his home. He was accosted by two men, one of whom had a revolver, who demanded that he throw up his hands. At this point the gun was fired and Parker fell to the ground shot through the right lung. He died a few hours later. The two hold-up men jumped into the car and fled. The four men were arrested, subsequently indicted, and separately brought to trial.

The Gentile case was tried first and the jury rendered a verdict of murder in the second degree. The Robinson case was next tried. The jury was out for six days and unable to agree. Finally, when it became apparent that no verdict could be reached, Robinson entered a plea of guilty to second degree murder. Gilgallon and the applicant subsequently entered pleas of guilty of murder in the second degree. Gilgallon and Gentile were each sentenced to imprisonment in the Eastern Penitentiary for not less than eighteen nor more than twenty years; Robinson fifteen to eighteen years in the same institution, and the applicant eleven to fifteen years.

The applicant has now served seven years of his term of imprisonment. He was never before charged with or convicted of crime. He was only seventeen years old when this crime was committed.

A number of letters were filed with the Board recommending clemency. Colonel Groome, a member of the Board of Trustees, the Warden and Assistant Warden of the Penitentiary recommend clemency. The trial Judge and present District Attorney, in letters filed, recommend clemency. John Boylan, president, District 1 United Mine Workers of America, the Chief Deputy Sheriff and Representative Munley also recommended clemency.

In consideration of all the circumstances of this case; the extreme youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because of the recommendations of the trial Judge, present District Attorney, penitentiary officials, and

others, we have concluded that the applicant has been sufficiently punished, and that if now released he will prove himself a peaceful and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said Joseph Wall.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 59, October Sessions, 1928, in the Court of Quarter Sessions of the peace, in and for the County of McKean, Raymond Sackett pleaded guilty to an indictment charging him with assault and battery and on October 3, 1928, was sentenced by the Court to pay a fine of twenty-five dollars, costs, and to undergo imprisonment in the Allegheny County Workhouse for a period of eleven months and fifteen days.

The applicant is thirty-six years of age, and a native-born citizen of the United States. He is unmarried. He had been working in a glass factory at Kane until a short time before his arrest, at which time he resided in Kane with his mother and two sisters.

The applicant, on October 4, 1926, was sentenced on the charge of larceny, to serve a term of not less than one and a half years nor more than three years in the Western Penitentiary. He served his minimum sentence and was on parole when he was sentenced to the term first above-mentioned on the charge of assault and battery. The object of the present application is to obtain a pardon so that he can be re-paroled on the sentence first imposed on the charge of larceny.

On August 26, 1928, the applicant met one, Mike Cournean, on the street, and the latter told him that some men had liquor in the woods and asked him to accompany him there, which he did. He found five or six men with whiskey. The applicant drank some of the whiskey and later went to one side, laid down on the leaves and went to sleep. Later he was awakened by an officer who arrested him. He learned that one, John Limdstrom and another man, both of whom had been in the drinking party, had engaged in a fight. Limdstrom received a black eye and swore out a warrant for the arrest of Cournean and the applicant. Limdstrom claimed that they had attempted to rob him, but later admitted that he was not sure whether or not they had intended to rob him, and that the only thing he had on his person was a box of snuff. The applicant did not remember of having been in a quarrel with anyone, and Limdstrom was not positive that the applicant was the one who hit him, but the applicant, having broken his parole, pleaded guilty in order that he might receive a lighter sentence. He was returned to the penitentiary to serve the maximum of his original term and he is now there imprisoned.

The applicant has served his entire sentence of eleven months and fifteen days on the charge of assault and battery, and is now serving his maximum term of three years on the charge of larceny. His mother and sisters require his support.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant on the charge of assault and battery, and the need which his mother and sisters have of support, we have concluded that he has been sufficiently punished and that if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice

and in open session", recommend that a pardon be now granted to the said Raymond Sackett.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 7 and 10, April Sessions, 1926, in the Court of Oyer and Terminer in and for the County of Lackawanna, Joseph Parazinsky was convicted of rape, with the request on the part of the jury that the Court show him mercy on account of his wife and child, and on April 9, 1926, he was sentenced to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than seven and one-half years nor more than fifteen years.

The applicant is twenty-nine years of age, a native-born citizen of the United States, and at the time of his arrest was employed in the mines as a laborer. He resided in Dickson City. He is married and has one child.

From the Agreement of Facts signed by the District Attorney of Lackawanna County and the attorney for the applicant it appears that on the night of February 14, 1926, at about eleven fifty P. M., the applicant met the prosecutrix in this case, Mary Chmiel, and started to accompany her to her home. When they reached a point near Main Street, Dickson City, the Commonwealth contended that the applicant and another man who followed them, Stanley Labinski, committed felonious rape on the person of Mary Chmiel. The applicant contended that the prosecutrix went with him voluntarily.

The applicant has now served four years and one month of his term of imprisonment. He was never before charged with or convicted of crime. His wife and child are dependent on him for support. He claims that the prosecutrix in this case sought his company for some time prior to the commission of this offense, knowing that he was a married man; that she was a woman of bad reputation, and notified him that she would not testify against him if he paid her a sum of money.

There was filed with the Board a letter from the Chief of Police of Dickson City in which he states that the reputation of Mary Chmiel was very bad for a long time prior to the conviction and sentence of the applicant. He adds, "We ordered her out of town many times. She solicited intercourse from the boys of our town frequently before the applicant's arrest." There was also filed with the Board the affidavit of the mother of Mary Chmiel in which she states that the applicant is unjustly imprisoned for the reason that her daughter, the prosecutrix, continually sought the company of the applicant, endeavoring to make dates with him at many times, knowing that he was a married man. She adds, "She has been a very bad girl. A few years ago she gave birth to an illegitimate child and brought the child home and left it with me for support and then disappeared. I do not know where she is at the present time." There was also filed with the Board the affidavit of Stanley Labinski, who was also charged with having forcibly outraged Mary Chmiel. He states that he met the latter in the year 1924 and that time she had the reputation of being unchaste, that she was regarded by the people of the community as immoral. He further states that not only had he been guilty of misconduct with her, but that he had personal knowledge of two other men guilty of the same offense. He states that she was very fond of the applicant and many times asked him to meet her.

In consideration of all the circumstances of this case; the grave doubt as to the legal guilt of the applicant; his prior

good record; the term of imprisonment already served; because of the letter of the Chief of Police of Dickson City and the affidavits of the mother of the girl and Stanley Labinski; because his wife and child require support, we have concluded that the applicant has been sufficiently punished and that if now liberated, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Joseph Parazinsky.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 18, 56, 57, 58 and 72, October Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of McKean, Arnold Pinkerton pleaded guilty to five indictments charging him with fraudulently making a written instrument; uttering and publishing a forged instrument and breaking jail, and on December 14, 1925, was sentenced in the aggregate to pay a fine of six and a quarter cents, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than six years nor more than twelve years.

The applicant is thirty years of age; unmarried; a native-born citizen of the United States and a machinist by occupation. He was last employed by the Dresser Manufacturing Company of Bradford, Pennsylvania, and resided in that city.

During the early part of 1925, the applicant was laid off work by his employer on account of lack of orders. He unsuccessfully endeavored to obtain work, not only at his trade, but as an ordinary laborer. He was unemployed for nearly three months and was in debt for room rent, board and other necessary living expenses. Finally, idleness and want drove him to desperation. In order to obtain money, he drew checks, at two different times, in all four checks, for small amounts totaling twenty-five dollars, and after making purchases at several stores and buying eatables, paid for the same out of the proceeds of the forged checks and received the balance in cash. The dates and amounts of the checks, the names of the drawers and the places of business where the checks were cashed, are as follows:

June 12, 1925, \$5.00, Leon Marsh, Grand Union Groceries Co.

June 12, 1925, \$5.00, Leon Marsh, Restaurant of Alexander Maras.

June 20, 1925, \$5.00, John Powell, S. M. Flickinger, Inc., Store No. 253.

June 20, 1925, \$10.00, John Powell, Grand Union Groceries Co.

The applicant was arrested and indicted for forgery in four cases and pleaded guilty. He was only sentenced in the first case. Sentences in the other cases were originally suspended.

On September 20, 1925, while in the McKean County Jail awaiting removal to the penitentiary, the applicant escaped from prison. He went to a coal mine in Mercer County where he worked in a mine until apprehended on October 28, 1925. When arraigned he pleaded guilty to the last mentioned charge and was sentenced. At the same time he was sentenced in the three forgery cases in which sentences had originally been suspended.

His prior record is good with a single exception. In 1921, when twenty-one years of age, he served sixteen months in the Mansfield Ohio Reformatory for forgery.

There was filed with the Board, a letter from the trial Judge in which he states that he has no objection to a pardon in this case. The trial District Attorney has filed a letter with

the Board in which he states, "the applicant has served since December, 1925, and in the opinion of the writer, he has been sufficiently punished and his application for pardon should be granted". The present District Attorney has also filed with the Board a letter in which he states that he will not oppose pardon. He states, "it is probably true that he has been sufficiently punished, and this case is doubtless deserving of your serious consideration."

There was also filed with the Board a joint letter recommending pardon signed by the present Chief of Police, City Detective, Mayor and a former Chief of Police. The prosecutors in two of the cases also recommend clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant with a single exception; the term of imprisonment already served; because of the favorable attitude of the present District Attorney; because of the recommendations of the trial District Attorney, certain city officials and the prosecutors in two cases, and because the trial Judge has no objection thereto, we concluded that the applicant has been sufficiently punished, and if now liberated, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Arnold Pinkerton.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 13 and 14, September Sessions, 1924, in the Court of Oyer and Terminer, in and for the County of Monroe, Clinton P. Diehl, alias Clinton Deihl was convicted of rape and adultery, and on November 20, 1924, was sentenced in the aggregate to pay a fine of one hundred and ten dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than eight and one-half years nor more than fifteen years. The fine of ten dollars and sentence of one year imposed in Indictment No. 14, charging adultery, has been nolle prossed by the County Court, as the result of an order from the Supreme Court of Pennsylvania, which body decided that the said sentence was illegal.

The applicant is a native-born citizen of the United States, thirty-four years of age. He is by occupation a butcher, and at the time of his arrest was the proprietor of his own retail market located in East Stroudsburg, Pennsylvania. He was married but divorced in 1928. He has three children. His proper place of residence is East Stroudsburg, Pennsylvania.

On or about August 15, 1924, the applicant with one, Harry Fullerton, a friend, drove in the evening to the Delaware Water Gap. Upon their return it began to rain, and as they were crossing a bridge near the Gap they were hailed by two women, who said they were on their way to Saylorburg and asked for a ride. The women were Margaret Dombar, aged twenty-two, and Jean Sheridan, aged twenty-five. These women were employed as waitresses at the Glenwood Hotel, Delaware Water Gap. This incident was the beginning of a number of trips made with them during the succeeding two weeks. During these trips there was drinking, and on a certain night, on or about August 30, probably more than the usual amount of liquor had been consumed by the four persons. It was on this night that the alleged attack took place. The applicant has always denied his guilt.

The applicant has now served five years and six months of his term of imprisonment. He was never charged with or convicted of crime. His prison record is excellent, as shown by a letter from the Penitentiary authorities.

There were filed with the Board a large number of letters recommending clemency. The trial District Attorney, Associate Judge Clark, the Mayor of Stroudsburg, the Burgess of East Stroudsburg, the Chief of Police of Stroudsburg, and a number of business and professional men ask clemency.

Doctor Charles W. Sheldon was detailed by the Department of Health to make a physical examination of applicant, and his report, filed with the Board, shows that the applicant is subject to epileptic convulsions, which are of daily occurrence and are of a serious type. He also has been suffering for some months from chronic iritis, which is accompanied by severe pain. He has been operated on for gastric ulcer and for fistula and hemorrhoids. Doctor Sheldon, in his letter, concludes: "He is suffering from severe nervousness, and it is evident that a mental breakdown is imminent. I believe that release from his present environment, with proper institutional care, may avert a complete mental collapse."

In consideration of all the circumstances of this case; the prior good record of the applicant; his excellent prison record; the term of imprisonment already served; because of the favorable recommendations of the trial District Attorney, the Mayor of Stroudsburg, and others, and particularly because of the medical report of Doctor Sheldon, showing that the applicant's health has become seriously impaired, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Clinton J. Deihl, alias Clinton Deihl.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 619 and 620, January Sessions, 1928, in the Court of Oyer and Terminer, in and for the County of Lacawanna, John Edwin Tibbs, alias John Tibbs pleaded guilty to two indictments charging him with larceny and receiving stolen goods and breaking and entering, and on February 11, 1928, on No. 620, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, twenty-six years of age, and married. At the time of his arrest he was employed as a coal truck driver by T. J. Davis, of Taylor, Pennsylvania, and resided at Rendham, Pennsylvania.

On the night of January 6, 1928, the applicant was at the home of Thomas Carey participating in a christening celebration. The applicant drank wine during the evening and when he left the Carey home was in an intoxicated condition. At about 10.30 P. M. while passing the garage of the Thomas Motor Company, owned by Dewey Thomas, seized by the desire to realize money in order to purchase more liquor he decided to enter the garage and help himself to motor accessories. At this time he was earning seventy-five dollars per month, one-third of which he contributed towards the support of his aged and widowed mother. He entered the garage by means of an unsecured cellar door and took therefrom three automobile tires, which he sold for ten dollars. The Justice of the Peace filed with the Clerk of the Courts transcripts of two charges, to wit: the breaking and entering the garage and larceny and receiving stolen goods. The District Attorney, through error, prepared two indictments in the one charging the applicant with burglarizing from one, Clarence Imes goods

and chattels valued at fifty dollars and in the other burglarizing from the Thomas Motor Company goods and chattels valued at fifty-five dollars. The applicant had no counsel at the time he entered the plea of guilty and when he pleaded guilty to the second indictment he was under the impression that he was again pleading to the single charge of having burglarized the Thomas Motor Company. There was no transcript in the office of the Clerk of the Court charging the applicant with burglarizing the goods and chattels of Clarence Imes. Therefore, the applicant, through ignorance, pleaded guilty to two distinct acts of burglary, one of which never occurred, believing that both indictments referred to one and the same offense.

The applicant has now served two years and three months of his term of imprisonment. He was never before charged with or convicted of crime. The applicant's aged mother is in impaired health, as shown by the affidavit of her attending physician filed with the Board and depends for support on the applicant.

There was filed with the Board a petition of citizens of Old Forge recommending clemency and certifying to the applicant's prior good record and to the need which his mother has to support. There was also filed with the Board a number of letters recommending clemency. The prosecutor in the case has filed with the Board a letter recommending clemency believing that the applicant has been sufficiently punished. The present District Attorney has filed with the Board a letter in which he recommends pardon for the reason that the applicant was only twenty-three years of age when the crime was committed; was under the influence of liquor at the time and because of the long sentence and the need which his aged mother has of support.

In consideration of all the circumstances of this case; the comparative youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because of the need which his mother has of support; because of the petition and letters recommending clemency; because the prosecutor in the case asks for pardon and the present District Attorney recommends the same, we have concluded that the applicant has been sufficiently punished, and if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John Edwin Tibbs, alias John Tibbs.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 92, May Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Washington, John Pasco pleaded guilty to an indictment charging him with larceny, and on April 1, 1929 was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than two years, nor more than four years. Albert Greene, William Mitchell, H. B. Greene and Herman Greene were jointly indicted with the applicant, entered the same plea and received the same sentence.

The applicant is of Italian descent, but a native-born American citizen, twenty-four years of age. He attended public schools until he attained the age of fourteen years, when he began to work. He was employed three years in a glass factory and worked for the Washington Gas and Coal Company for an equal period. He has an honorable discharge from the regular army.

The applicant had been employed by Albert Greene as a mechanic's helper in a garage. When he entered his employ, he had no acquaintance with Greene. On the afternoon of February 16, 1929, H. B. Greene and Herman Greene, father and brother of his employer, came to the garage to borrow Albert Greene's car. Albert Greene refused to permit them to use the car. In the evening when the applicant and his employer had completed work, the father and son returned in a drunken condition and offered the applicant and Albert Greene intoxicating liquor. At eleven o'clock, the applicant, the three Greenses and William Mitchell, colored janitor, drove to the property of C. Donaldson, situated in Mt. Pleasant Township, Washington County, and stole five sheep and eleven chickens. The applicant carried the two sheep. They returned to the car and drove home, each going to his own home. H. B. and Herman Greene disposed of the stolen goods, keeping the proceeds while Albert Greene, the applicant and Mitchell received nothing. Owing to their drunken condition, these men did not realize the seriousness of the offense.

The applicant has now served one year and one month of his term of imprisonment. He was never before charged with or convicted of crime. Employment has been offered him by C. C. Hammond a former employer if he is liberated.

There was filed with the Board a letter from the trial District Attorney, in which he recommends clemency. He states that the applicant became involved in the crime through the leadership of the Greenses; that his prior record was good. He adds, "I believe that your Board would not make any mistake in the event that leniency should be extended to this defendant."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because employment has been offered him if released, and particularly because of the recommendation of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John Pasco.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 23, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2, June Sessions, 1925, in the Court of Oyer and Terminer in and for the County of Armstrong Louis Larosa was convicted of voluntary manslaughter, and on June 27, 1925, was sentenced by the Court to pay a fine of one thousand dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than six years nor more than twelve years.

The applicant is a naturalized American citizen born in Italy, thirty-eight years of age. He is a shoemaker by occupation and at the time of his arrest conducted a shoe shop in the Borough of Freeport, Armstrong County, and resided in said borough. He was married, but has no children.

On April 10, 1925, Marie Larosa, wife of the applicant, was found dead in her home in the Borough of Freeport. Her death resulted from stab wounds inflicted on her body. At the same time, the applicant was found lying unconscious in the basement of the house seriously wounded by knife wounds in his chest and a gunshot wound in his head, the revolver lying on the floor nearby. Four days later the applicant was arrested and charged with the murder of his wife. He was subsequently indicted, tried and sentenced as above stated.

There were no eye witnesses to the tragedy. The testimony and the contention of the applicant has always been that he acted in self-defense and that in so doing, he so seriously wounded his wife that she died from the effects thereof. He claims that the deceased was the aggressor and that she attacked him with a knife inflicting serious bodily injury compelling him to defend himself.

The applicant has now served four years and eleven months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a large number of letters recommending clemency and also a petition of citizens.

The trial Judge has filed a letter recommending clemency in which he states that the crime was committed under "very aggravating circumstances as the evidence showed that the act was committed during a quarrel." Both the trial District Attorney and present District Attorney recommend clemency. The trial District Attorney in his letter states, inter alia: "I have always believed that Louis Larosa committed the crime while laboring under great mental strain, as he had an excellent reputation prior to that time and also that the crime was committed in a very serious quarrel with his deceased wife." The prosecutor and Sheriff, the Coroner, the committing Justice of the Peace, the present County Detective, who are familiar with the facts surrounding this case, all recommend clemency. The Chief of Police of Freeport, Representative Himes, and Congressman Strong also request pardon. Ten of the jurors who convicted the applicant recommend clemency. The warden of the penitentiary certifies to the applicant's excellent prison record.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because of the petition of citizens and many letters recommending clemency from the trial Judge, trial District Attorney, present District Attorney, ten jurors, County Officials and other, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Louis Larosa.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., May 28, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 597, January Sessions, 1928, in the Court of Oyer and Terminer in and for the County of Lackawanna, Paul Durkin pleaded guilty to an indictment charging him with the larceny of a motor vehicle, and on February 7, 1928, was sentenced to pay a fine of one dollar, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than four years nor more than eight years.

The applicant is twenty years of age and unmarried. He is a native-born citizen of the United States and at the time of his arrest resided with his parents in the City of Scranton. He was educated in the public schools of that city and worked in the coal mines as a laborer for about two years.

John Knapp, Lillian Campton, and the applicant were jointly indicted with having stolen on February 6, 1926, a Marmon sedan, the property of Doctor Frederick Bishop. While they were in the midst of a "joy-ride" several hours later, they were arrested in the Borough of Moscow, situated five miles from Scranton, by a constable of the said borough. The applicant was only eighteen years of age when this crime

was committed. No sale of the car was intended nor any conversation of the same, but it was taken temporarily to satisfy the desires of three young people for an automobile ride. Knapp, who was a party to the act and equally guilty with the applicant, received a suspended sentence, while Lillian Campton was never prosecuted.

The applicant has now served two years and three months of his term of imprisonment. His prior record is good with a single exception; he was confined in the Huntingdon Reformatory for approximately eighteen months on the charge of the larceny of an automobile.

There was filed with the Board a letter from former Mayor John Durkan, in which he offers the applicant employment if released. The superintendent of the colliery in which the applicant was employed has also filed a letter with the Board in which he states that the applicant was a faithful and conscientious worker. M. J. McHugh, a former superintendent of police, has also filed a letter in which he recommends clemency. Representative Williams has also filed with the Board a letter to the same effect.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record with a single exception; because of the term of imprisonment already served; and in consideration of the fact that Ex-Mayor Durkan offers to employ the applicant if released; and in consideration of the recommendations of Representative Williams and former Chief of Police McHugh, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a peaceful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Paul Durkin.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 17, June Sessions, 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Warren, John J. Ponsoll pleaded guilty to an indictment charging him with breaking and entering and larceny, and on April 21, 1924, was sentenced by the Court to pay a fine of five hundred dollars, costs and to undergo imprisonment in the Western Penitentiary for a term of not less than two and one-half years nor more than five years.

At No. 85, September Sessions, 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Centre, the said John J. Ponsoll pleaded guilty to an indictment charging him with breaking and escaping penitentiary and on July 28, 1925, was sentenced by the Court to pay a fine of one dollar, costs and to undergo imprisonment in the Western Penitentiary for a period of not less than two and one-half nor more than five years; sentence to compute after completion of the sentence from Warren County.

The applicant is a native-born citizen of the United States, twenty-seven years of age. He was by occupation an acetylene welder, and at the time of his arrest was employed at the Hammond Iron Works, Warren, Pennsylvania, and resided with his father in that borough. He is unmarried.

On the night of March 20, 1924, while under the influence of liquor, the applicant broke a window of the Sturgis Jewelry Store, Warren, and reaching through the broken window took articles of jewelry which had an approximate value of \$400.00. This occurred on a Saturday night, after the applicant had been at a dance and he was considerably intoxicated. The fol-

lowing day, still under the influence of liquor, he went by street car to Jamestown, New York, and disposed of one watch and one ring. He then went to Oswego, New York, where he had friends and when he became sober, realized what he had done and finally concluded to return to Warren and give himself to the police authorities. Before he surrendered, he was arrested in Oswego by Chief of Police of Warren and immediately confessed what he had done and turned over to him all the stolen property with the exception of the one watch and one ring which he had pawned. He waived extradition, returned to Warren, went into Court, pleaded guilty and received the sentence above stated.

On July 12, 1924, he was transferred from the Western Penitentiary, in Allegheny County, to the Rockview Prison, and escaped from the latter on August 6, 1924. He was re-arrested at Syracuse, New York on July 9, 1925, admitted his identity, and stated that he had escaped from the penitentiary at Rockview. He again waived extradition and returned to Bellefonte, pleaded guilty and was sentenced as above stated for the escape.

At the time of his first offense, the applicant was twenty-one years of age and under the influence of liquor. When he escaped from Rockview he had been seriously ill, following an infection from vaccination. The doctor instructed him to walk for exercise and he was permitted to walk around the yards and out through the stockade to the superintendent's office. He decided to go home to see his people, walked out through the gate in the daytime and disappeared down the road.

The applicant has now served continuously in prison since April 21, 1924, with the exception of the period from August 6, 1924, to July 9, 1925 (eleven months), immediately following his escape from prison, or a total period of approximately five years and three months. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the trial District Attorney in which he states that the applicant was intoxicated when he committed the first offense. He also states that he is satisfied that the applicant has been punished severely for what he has done and that the ends of justice would be met by his release. There was also filed with the Board a letter from President Judge Arird, addressed to the applicant's counsel, which indicates that he is favorable to the application. The trial Judge has filed with the Board a letter in which he states, "I will not oppose the granting of this man's pardon under any circumstances. It appears that he has fully paid his debt to society. The prolonging of his sentence will neither benefit him nor will it make further amends to the Commonwealth". The Chief Burgess and the Chief of Police of Warren, have also filed letters recommending clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; and because of the favorable recommendations of the trial Judge, trial District Attorney, President Judge Arird and the Chief Burgess and Chief of Police, of Warren, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John J. Ponsoll.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

At No. 64, March Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of Indiana, Louis

Ottavario was indicted for aggravated assault and battery; assault and battery; assault with intent to maim and disfigure; pointing firearms and carrying concealed deadly weapons. He pleaded guilty to the charges of aggravated assault and battery, assault and battery and carrying concealed deadly weapons, and on June 22, 1925 was sentenced by the Court in the aggregate to pay a fine of eighteen and three-fourths cents, costs and to undergo imprisonment in the Western Penitentiary for a term of not less than five and one-half, nor more than eleven years.

There were two indictments, the applicant having been twice indicted for the same offense.

The applicant is a native of Italy, thirty-five years of age, and owes allegiance to the Kingdom of Italy. He has a wife and three children in that country. He came to America in 1921. He went to Cincinnati, Ohio, and thence to Milburn, West Virginia, where he worked for two years, and then to Detroit, Michigan, where he worked three years, and then came to Boltz, Indiana County, Pennsylvania, where he was working at his trade as carpenter when he was arrested and sentenced as before stated.

On March 14, 1925, in the evening, the applicant met one Sam Mangarella, with whom he had but a slight acquaintance. Mangarella came up to him and said, "You are supposed to go way." The applicant paid no attention to the remark. The following night Mangarella came up to the applicant on the street and said, "I thought I told you you were to go away." The applicant did not have time to answer before Mangarella struck him on the left jaw felling him to the ground. He saw what he believed to be a gun in Mangarella's hand and in order to protect himself, drew a pistol and shot Mangarella. The applicant then went to his boarding house and remained overnight. The following morning he decided he had better leave town to avoid further trouble, but he was arrested and charges were lodged against him as above stated. Mangarella soon recovered.

The applicant has now served five years of his term of imprisonment. He was never before charged with or convicted of crime. The Warden of the Penitentiary has filed with the Board a letter in which he states that the applicant's record in prison is beyond reproach. The applicant was twice sentenced for the same offense and, therefore, he was twice placed in jeopardy, which is contrary to the Statutes of Pennsylvania. He also claims that the sentences imposed were greater than those provided by law.

There was filed with the Board a letter from the trial Judge in which he recommends clemency, as follows, "It occurs to me that a favorable consideration of his application at this time would meet the ends of justice. I, therefore, recommend his pardon."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because of the severity of the sentence imposed; because of the further fact that the applicant was twice in jeopardy, contrary to the provisions of law and in consideration of the further fact that the trial Judge recommends clemency, we have concluded that the applicant has been sufficiently punished and if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Louis Ottavario.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 24, September Sessions, 1926, in the Court of Quarter Sessions of the Peace in and for the County of

Clinton, Percy F. Emert pleaded guilty to the second and third counts in the indictment which charged him with larceny of 250 gallons of moonshine whiskey, the property of Luther Self, in the custody of the Sheriff of Clinton County, and entering court house, without breaking, with intent to feloniously steal said whiskey, and on April 25, 1929, was sentenced by the Court to pay a fine of \$1.00, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than three years nor more than six years. Ralph Hale, who was also indicted for participation in the same offense, entered the same plea and received a like sentence.

The applicant is a native-born citizen of the United States; 29 years of age. He is married and has one son, six years of age. At the time of his arrest he was the owner and operator of an automobile truck business and resided in the city of Lock Haven with his family.

On the evening of August 4, 1928, the applicant drove his truck to the residence of Ralph Hale in Castanea Township, Clinton County, whence he met Ralph Hale and one Charles Tryon, whom he had never met before. He went there for a social call with no intention of planning or committing the acts which followed. About 9 o'clock in the evening the applicant started to return home, Hale and Tryon accompanying him to Lock Haven. The distance is about one and one-half miles. The applicant drove his truck into an alley about half a block west of the court house and parked it. Hale and the applicant left Tryon and proceeded on Main Street, purchased some candy and sandwiches, and stayed in the central part of Lock Haven for approximately an hour. They then returned to the place where the truck was parked. Hale asked the applicant to wait for a few minutes, which he did. Hale then asked the applicant to run his truck down the alley in the rear of the court house and when he arrived there he saw a keg on the ground. Tryon was there and either he or Hale, or both of them, had removed a number of kegs of moonshine whiskey which had been confiscated and placed in the court house, and loaded the whiskey upon the truck, when loaded, the truck was driven to Castanea Township where the kegs were placed in a barn. When the applicant was charged with having been implicated in the larceny of the whiskey he immediately confessed and informed the officers where the whiskey could be recovered. It was found where the applicant directed. At no time did the applicant enter the court house, nor did he know that it was the intention of Hale or Tryon to enter the court house and remove the whiskey therefrom. He permitted Hale and Tryon to persuade him to become a party to the transaction in allowing his truck to be used for the purpose of removing the whiskey from the court house, but had no part whatever in the planning thereof, or in the actual removal of the whiskey from the building.

The applicant has now served one year and two months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the trial Judge in which he recommends clemency because of the applicant's prior good record, and because he believes he had no part in planning the crime, and has been sufficiently punished. The Chief Probation Officer of Clinton County also recommends clemency, as well as Associate Judge Dunn. The trial District Attorney recommends pardon because of the applicant's prior good record and because he was led into crime by Tryon who has never been apprehended.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term already served; and the recommendations of the trial Judge, Associate Judge Dunn and trial District Attorney, we have concluded that the applicant has been sufficiently punished and if released will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Percy F. Emert.

ARTHUR H. JAMES,  
Lieutenant Governor.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 105, September Session, 1926, in the Court of Quarter Sessions of the Peace in and for the County of Centre, Clement Edward O'Donnell pleaded guilty to the charge of breaking and escaping from the Penitentiary, and on September 27, 1926, was sentenced to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than three years nor more than six years; sentence to compute after completion of sentence from Philadelphia County.

The applicant is a native-born American citizen, thirty years of age. His trade in the application is given as that of "wood, wire and metal lather," and prior to his imprisonment, resided in the City of Philadelphia with his wife and two children, aged respectively seven and five years.

In April, 1924, the applicant was arrested in company with three others in connection with the theft of a taxicab in the City of Philadelphia, and on April 21, 1924, was sentenced to the Eastern Penitentiary for a term of not less than five years nor more than ten years. On June 12, 1925, he was transferred from the Eastern Penitentiary to the new Western Penitentiary at Rockview. From the time of his arrival there until September 26, 1926, he worked steadily at the tasks assigned to him. During the last nine months of this period he heard nothing from his wife, mother, or other members of his family, who were at loggerheads, although he wrote them frequently. As a result of this worry regarding his family and believing that his oldest child, who had been taken to a hospital shortly after his incarceration, had died in the hospital, he decided to leave the prison farm at the first opportunity and make his way home and ascertain the true condition of affairs. Accordingly, on September 26, 1926, he left Rockview and started toward Philadelphia. After he had gone about ten hours and traveled about twenty miles toward his home, he was arrested on the charge of escaping, and lodged in the Centre County jail. Brought before the Court on the following day he pleaded guilty to the charge and was sentenced as previously stated.

The applicant has now served almost six years of the sentence given him for robbery. The three men implicated with him on the same charge have been paroled for more than four years. The applicant's wife is without means of support other than what she earns by her own labor, and his family requires his support.

There was filed with the Board a letter from the Warden of the Penitentiary in which he states that the applicant's record since his return in September, 1926, has been beyond reproach. There was also filed with the Board a letter from the trial Judge in which he recommends clemency.

In consideration of all the circumstances of this case; the period of imprisonment already served by the applicant; because of the need which his family has of support; because of the letter from the Warden of the Penitentiary and the recommendation of the trial Judge, we have concluded that the applicant has been sufficiently punished, and if now liberated will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Clement Edward O'Donnell.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 501, January Sessions, 1914, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Frank

Palandrani, alias Frank Paroli pleaded guilty to an indictment charging him with murder, the degree of which was adjudged to be murder in the second degree, and on June 19, 1914, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than eighteen years nor more than twenty years.

The applicant is fifty-one years of age, a native of Italy and owes allegiance to that country. He came to America in 1906. He was a laborer and then engaged in the selling of fruits and vegetables. He prospered in a small way in June, 1913, was married. He and his wife then conducted a small store located in the City of Philadelphia until the day of the commission of the crime in question. He resided in that city with his wife (until the time of her death) and three step-children.

On Sunday, November 30, 1913, Mary Angeline Palandrani was preparing dinner at her home when she was stabbed by her husband, the applicant. The jugular vein was severed. She died before reaching the hospital. The applicant went through a back alley, boarded a street car and made his escape. He was apprehended at Frankford-on-the-Rhine, Germany, in January, 1914, and brought back to this country for trial.

The events which led up to the tragedy were as follows: The applicant and his wife had been married five months. Their married life was a series of bickering and quarrels. On the day in question, shortly before noon, they began quarreling. The wife was in the kitchen preparing the dinner. The thirteen-year-old stepson was in the kitchen with his parents, who were furiously angry and while upbraiding each other they came together and their bodies touched. The wife, having a fork in her hand which she was using in the process of preparing dinner, brandished it in a threatening manner. The applicant retreated in fear. She then deliberately threw the fork in the face of the applicant and attempted to seize a butcher knife, which was lying upon the kitchen table. Fearing injury the applicant grappled with her and in great excitement, reached in his trouser pocket, drew out a penknife and stabbed her four times in the back. She then released her hold upon him and the applicant fled. She followed, but fell in the back yard. She then arose and went into the house where she fell upon a couch and died from internal hemorrhage.

The applicant has now served sixteen years of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the trial Judge, who seldom if ever recommends a pardon. He states, inter alia, that he understands the applicant has a very good record in the Penitentiary and adds: "Upon a re-reading of the testimony. I believe that he has been sufficiently punished for the crime committed. I interpose no objection to any favorable action of the Board upon the petition."

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served and particularly because of the recommendation of the trial Judge, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Frank Palandrani, alias Frank Paroli.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 32, April Sessions, 1929, in the Court of Quarter Sessions of the Peace in and for the County of Clinton, Ralph

Hale pleaded guilty to an indictment charging him with entering, without breaking, larceny, and the unlawful possession and transportation of intoxicating liquor, and on April 25, 1929, was sentenced to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than three years nor more than six years.

Percy F. Emert, who was also indicted for participation in the same offense, pleaded guilty and received a like sentence.

The applicant is thirty years of age, and a native-born citizen of the United States. He is married and has four children aged eight, six, four, and two, respectively. He is a coal miner by occupation but at the time of his arrest was working in an apple orchard.

On August 2, 1928, the applicant was living in Castanea Township, about one and one-half miles from the City of Lock Haven. At that time there was a great deal of talk about certain liquor that had been stored in the basement of the court-house. The applicant and two others, Percy F. Emert and Charles Tryon or Tryson, decided that they would endeavor to obtain some of this liquor. They took Emert's truck and when they arrived at the court house, in Lock Haven, in the evening, found it open, went in and loaded two hundred forty gallons of the liquor on the truck and drove away. The following day Emert was arrested. The applicant was not arrested until some time later. Tryon or Tryson has never been apprehended. The applicant pleaded guilty to the charges as above stated and received the sentence above mentioned. Emert was given a like sentence. The liquor was returned to the County.

The applicant has now served one year and two months of his term of imprisonment. His prior record is good with a single exception, that on one occasion he was fined one hundred dollars for being on a truck that was transporting liquor.

The applicant has a wife and four small children who are dependent upon him for support. They are now objects of charity.

There was filed with the Board a letter from the trial Judge in which he recommends clemency. He stated that Tryon or Tryson has never been apprehended and he is generally believed to have been the real instigator of the crime. He also states that the applicant's wife and four small children are objects of charity. The trial District Attorney has also filed with the Board a letter in which he recommends clemency. He states that the applicant's family are objects of charity and need his support, and that his prior record is good with a single exception. He believes that the applicant had no part in planning the affair, that Tryon or Tryson, the third man in the affair, has never been apprehended.

In consideration of all the circumstances of this case; the prior good record of the applicant with a single exception; the term of imprisonment already served; because the applicant's family are in destitute circumstances and require support, and because of the recommendations of the trial Judge, and trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Ralph Hale.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 27, 28, 29, 30 and 33, December Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the

County of Cumberland, Leon Kuhn pleaded guilty to five indictments charging him with larceny, and on November 25, 1929, was sentenced in the aggregate to pay a fine of fifty dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than one and one-half years, nor more than three years.

The applicant is a native-born citizen of the United States, nineteen years of age. He is by occupation a day laborer. At the time of his arrest he resided with his parents in Lower Frankford Township. He is unmarried.

The applicant was jointly indicted with his brother, Melvin Kuhn, Charles Finkenbinder and Edward Booher, in two of the above indictments charging larceny, and was jointly indicted with his brother, Melvin Kuhn, and Finkenbinder in two of the above stated indictments. The applicant was the sole defendant in one indictment.

About the latter part of September, 1929, these four young men under the leadership of Melvin Kuhn, organized a campaign of stealing from farmers who resided near the Kuhn home. Melvin Kuhn, who was then under parole from the Eastern Penitentiary, was the master mind in the enterprise. These four boys visited five farms and stole whatever of value they could find. None of the articles were of great value and the total value did not exceed two hundred dollars. Suspicion attached to Melvin Kuhn because he had a criminal record and was known to have formerly been active in chicken stealing. He was arrested and confessed, whereupon the others confessed. Practically all the stolen property was found in their possession and promptly returned to the owners. All of the defendants pleaded guilty to the charges.

The applicant has now served approximately seven months of his term of imprisonment. He was never before charged with or convicted of crime. He was only eighteen years of age when these crimes were committed.

Within the past month, the applicant's father has died, leaving his mother, two sisters of tender years and a brother of seventeen years, to operate a farm containing one hundred seventy-five acres. The applicant believes that with his experience and aid of his younger brother, he can successfully operate this farm and harvest the crop, otherwise the mother and family will become dependent upon charity. He was under the sinister influence of his older brother when these crimes were committed and was too young to realize the folly of his course.

There was filed with the Board a letter from the trial District Attorney, in which he states: "The authorities here will not oppose this application."

In consideration of all the circumstances of this case; the youth of the applicant when the crimes were committed; his prior good record; the term of imprisonment already served; because his mother and family require his assistance and support and because of the favorable attitude of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now liberated, he will prove himself a useful, peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Leon Kuhn.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1301 and 1302, June Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Edward Martin and Edward Marshman both

pleaded guilty to two indictments charging them with larceny, receiving stolen goods and operating a motor vehicle without the consent of the owner, and on June 27, 1929, were each sentenced to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than four years, nor more than eight years.

The applicant, Marshman, is a native-born citizen of the United States; unmarried; nineteen years of age. He has no trade or profession and was unemployed at the time of his arrest and resided with his parents in the city of Philadelphia. The applicant, Martin, is a native-born citizen of the United States; twenty-three years of age. He has no trade or profession. He was on unauthorized leave of absence from the United States Army at the time of his arrest. He is married and has a wife in the State of New Jersey.

On June 24, 1929, at Juniper and Chestnut Streets, a police noticed an automobile which bore the number of a car that had been reported stolen a short time previously. The car, a Hudson roadster, was going east on Chestnut Street and the two applicants were in the machine, Martin driving the car. The officer ordered the men to draw over to the curb, which they did, and both jumped out and started to run. The officer caught hold of the applicant, Marshman. The applicant, Martin, started to run away. The officer pulled out his revolver and commanded the applicant, Martin, to stop. At the sight of the revolver in the officer's hand, applicant Martin retraced his steps to where the officer was standing with applicant Marshman. At first the applicants denied having stolen the car, but finally confessed having taken it about an hour previous, from 917 Ridge Avenue.

Both applicants have now served approximately one year of their respective terms of imprisonment. They were never before charged with or convicted of crime. The Chief Parole Officer of the Eastern Penitentiary certifies that both applicants have good prison records. The wife of applicant Martin is a cripple and dependent on her relatives for support.

There was filed with the Board a letter from the prosecutor in the case, addressed to the wife of applicant Martin, in which he states he will assist him in securing a pardon and if released will endeavor to secure him a position. There was also filed with the Board a letter from the trial Judge, addressed to E. M. Hackney, Chief Probation Officer, City Hall, Philadelphia, who pressed the application for pardon in behalf of the applicants, in which he states that while he will not recommend a pardon, he has no objections to clemency if the Board believes that the applicants have been sufficiently punished.

In consideration of the circumstances of this case; the prior good record of both applicants; the term of imprisonment already served; the severity of the sentences; their excellent prison record; because of the letters filed with the Board recommending clemency, including a letter from the prosecutor and trial Judge, the latter of which is not adverse to the application; and because the crippled wife of applicant Martin requires his support, we have concluded that both applicants have been sufficiently punished and that if now liberated they will prove themselves useful and law-abiding citizens.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Edward Martin and Edward Marshman, respectively.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

Excelsency, John S. Fisher, Governor.

Sir: At No. 56, October Sessions, 1919, in the Court of Oyer and Terminer, in and for the County of Mercer, Tony Eker

pleaded guilty to an indictment charging him with murder, the degree of which was adjudged to be murder in the second degree, and on October 9, 1919, was sentenced by the Court to pay costs and to undergo imprisonment in the Western Penitentiary for a term of not less than sixteen years nor more than twenty years.

The applicant is fifty-seven years of age, a native of Jugo-Slavia and owes allegiance to that country. He came to the United States in 1913 and lived in Farrell, Mercer County, where he was employed in the steel mills until shortly before his arrest. The applicant has a wife and three children living in Jugo-Slavia.

The applicant was charged with having caused the death of Alex Rus on September 26, 1919, but knows nothing concerning the crime with which he was charged. He has always been a man of good habits and worked steadily in the steel mills for a number of years prior to the time of his arrest. He had been laid off for a few days prior thereto and became intoxicated. When he recovered his senses, he was in jail and found that he was under arrest for the murder of the said Rus on the evening of the date mentioned. From the testimony, it appears that the applicant had been stupidly and staggering drunk the afternoon and evening of the day of the tragedy. Different witnesses testified that they had seen the applicant wandering about in a drunken condition, staggering and falling down, and one witness testified that he had picked up the applicant and tried to put him on his feet. Some of the witnesses stated that the applicant had wandered into their homes as late as half-past five and six o'clock of that day, stupidly and staggering drunk. The only eye witness was a little boy John Chlopka, age five years, who apparently testified at the hearing before the magistrate, before the Grand Jury and before the Court. According to the testimony of this juvenile witness, he saw the applicant strike Rus on the head with a hatchet. The applicant cannot refute the inference raised from the child's statement, yet he knows nothing of the matters related by the witnesses as to what he did during the afternoon and evening of the day of the tragedy. The testimony of the witnesses showed no motive of the commission of crime and shows an entire absence of ill feeling or malice on the part of the applicant toward the deceased. He and Rus had been on friendly terms.

The applicant's wife and three children are in Jugo-Slavia. With them and partially supported by the wife are six minor children of a deceased daughter who was the wife of a veteran of the World War. The applicant desires to return to his native country and if permitted to do so, will support his family and the six minor grandchildren above mentioned.

The Commissioner of Emigration for the Kingdom of Jugo-Slavia, at New York City, will provide the applicant's transportation from said city to the nearest port of debarkation to Jugo-Slavia, with a passport to his final destination in that country. The applicant has saved sufficient money to pay the expenses of himself and an officer from Pittsburgh to New York City and the return expense of the officer to Pittsburgh; also the expense of the applicant from the port of debarkation to his destination in Jugo-Slavia. There was filed with the Board a letter from the Commissioner of Emigration, at New York City, above referred to, in which he offers to provide not only transportation from New York to Jugo-Slavia but also a passport to his final destination, in the event that the Board grants pardon or commutation to the applicant.

The applicant has now served ten years and eight months of his term of imprisonment. He was never before charged with or convicted of crime.

There were filed with the Board letters from the trial District Attorney and the trial Judge which indicate that they are favorable to a pardon or commutation if the applicant is deported to his native country. The present District Attorney has also filed with the Board a letter which indicates a favorable attitude. The Chaplain of the Western Penitentiary and the Educational Director of the same certify to the applicant's excellent prison record and recommend clemency.

In consideration of all the circumstances of this case; the need of his family for support; the prior good record of the applicant; the long term of imprisonment already served; because of his excellent prison record and because the trial Judge, the trial District Attorney and the present District Attorney are favorable to clemency on the express condition

that the applicant be deported to his native land, we have concluded that he has been sufficiently punished and that if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said Tony Eker upon the express condition that he be immediately deported to Jugo-Slavia, his native land, and never return to the United States.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 7, January Term, 1922, in the Court of Oyer and Terminer in and for the County of Lackawanna, Griffiths Richards pleaded guilty to an indictment charging him with murder, the degree of which was adjudged to be murder in the second degree, and on February 6, 1922, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than sixteen years nor more than twenty years.

The applicant is a native born citizen of the United States, fifty-six years of age. He is by occupation a pump runner for the Glen Alden Coal Company, but at the time of his arrest had been out of employment for several months by reason of a suspension of work at the mines. He is a widower.

The applicant's wife died several years before the commission of this crime. After her death he began to drink heavily. He had no home ties of any kind. About eight months before the tragedy he became acquainted with one Harriet Bernard, employed as a waitress at a hotel on Penn Avenue, Scranton, a place of bad reputation. He became intimate with her. They drank together and from time to time he loaned her money and upon several occasions, while he was intoxicated in her company, she took money from his pockets. He finally concluded to break off their intimacy and for three or four days prior to the shooting he avoided her. All this time he was drinking heavily. Finally on the evening of October 8, 1921, about midnight, she met him in the hotel on Penn Avenue and persuaded him to go to her room. She asked him for money, which he refused. The applicant, who was intoxicated, remained with her for a time and when about to leave she reached into his pocket and took his last remaining money. In great excitement he took a revolver from his pocket and threatened her and tried to recover the money. In the struggle the revolver was discharged and the bullet lodged in the body of the woman causing her death. Only one bullet was fired. After a time the applicant realizing what had happened shot himself in the head, but recovered, after several weeks in the hospital. When he was able to do so, he made a full statement to the police and pleaded guilty as already stated.

The applicant has now served eight years and four months of his term of imprisonment. He was never before charged with or convicted of crime.

There were filed with the Board several letters and a petition of citizens recommending clemency. The superintendent of police of the city of Scranton, who is familiar with the facts of the case, recommends pardon. The trial District Attorney makes no recommendation.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; in consideration of the recommendation of the superintendent of police of the city of Scranton and the

letters and petition of citizens, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said Griffiths Richards.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1398, 1399, 1400 and 1401, January Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, William McHale pleaded guilty to four indictments charging him with fraudulently making and uttering a written instrument; false pretense and conspiracy, and on February 2, 1928, was sentenced to pay costs and undergo imprisonment in the Eastern Penitentiary for a term not less than three and one-half nor more than seven years.

The applicant is a native-born American citizen, sixty years of age, unmarried. He has for the greater part of his life been engaged as a clerk and executive. He was for thirteen years Treasurer of McLaughlin Brothers and Company, of Philadelphia, now out of business. In later life he engaged in the advertising business. At the time of his arrest he was unemployed. He resided in the City of Philadelphia with his widowed sister, sixty-five years of age, who is largely dependent upon him for support.

The applicant's record prior to the commission of the present offense was good with a single exception. More than twenty years ago he was sentenced to the Philadelphia County Prison for a term of six months for the larceny of \$3.60 from his employer.

For a period of about six months prior to his arrest for the present offense, the applicant had been drinking heavily and was frequently intoxicated. Being without funds he was induced to represent himself as a duly accredited agent of the publishers of a book published annually by the Pennsylvania State Firemen's Association; this for the purpose of soliciting advertisements for said publication. He procured various checks amounting to the sum of \$55.00, payable to the said Association, which checks he cashed and appropriated the proceeds thereof to his own use.

The applicant has now served two years and four months of his term imprisonment. His prior record is good, with the single exception noted above. Employment has been offered him if released. A widowed sister, sixty-five years of age, with whom he resided, requires his support.

There was filed with the Board a letter from John McCaffery, publisher, 1214 Walnut Street, Philadelphia, who was a private prosecutor at the trial, in which he states that in all fairness, the applicant has undergone a punishment commensurate with his crime. L. D. McKenney, Director of Campaigns for newspapers and magazines, Pittsburgh, has also filed with the Board a letter in which he states that the applicant had been employed by him for three years during which time he found him to be "honorable and ambitious." He offers to employ the applicant if released. He recommends clemency. There was also filed with the Board a letter from the Secretary of the State Firemen's Association of Pennsylvania, which Association was a private prosecutor in the case. He states that the ends of justice have been met by the punishment already undergone by the applicant and suggests favorable action on the part of the Board.

In consideration of all the circumstances of this case; the term of imprisonment already served; the prior good record

of the applicant, with the single exception noted; because employment has been offered him if released; because the prosecutors in the case recommend clemency and because his aged, widowed sister requires his support, we have concluded that the applicant has been sufficiently punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said William McHale.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 450, 451, 452, 453, and 457, August Sessions, 1925, in the Court of Oyer and Terminer, in and for the County of Philadelphia, James Quinn, alias James Clancy, pleaded guilty to five indictments charging him with robbery, being armed with an offensive weapon, attempted robbery and carrying concealed deadly weapons, and on August 13, 1925, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years, nor more than twenty years. He was also sentenced on No. 452, but this sentence was subsequently reconsidered and rescinded on account of the youth of the applicant and his prior good record.

The applicant is a native-born citizen of the United States; unmarried and twenty-five years of age. He is by occupation a cigar maker, but was unemployed at the time of his arrest.

The applicant was jointly indicted with one, John Ward, alias Frank James Clancy, for a series of robberies, to wit: On August 9, 1925, they held up one, Joseph Lefevre, a taxicab driver, while passengers in cab, and took from him \$22.04. On August 12, 1925, they held up two taxicab drivers, one, Vern Campbell, from whom they took \$4.00 in cash, and a watch and chain to the value of \$20.00, and the other, Francis Gormley, from whom they took \$8.00 cash. Also on the same day they admitted the attempted hold-up of one, Louis Wagner, but were not successful. As a result of this attempted hold-up they were arrested by police officers and indicted, pleaded guilty and sentenced as aforesaid. In the attempted hold-up it was alleged that the applicant had a gun and that he fired shots at the officers, but the bill of indictment covering this charge was submitted to the jury with the direction from the Court that a verdict of "not guilty" be entered. He was also indicted on the charge of assault and battery with intent to kill, but by direction of the Court, a verdict of "not guilty" was entered. Since his incarceration his father has become incapacitated from performing manual labor and his mother is in impaired health, and both parents require the support of the applicant.

The applicant has now served four years and ten months of his term of imprisonment. He was never before charged with or convicted of crime. He was only twenty-one years of age when these crimes were committed.

In consideration of all the circumstances of this case; the prior good record of the applicant; his youth when the crimes were committed; the term of imprisonment already served; the need which his parents have of support, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and

in open session," recommend that a pardon be now granted to the said James Quinn, alias James Clancy.

ARTHUR H. JAMES,  
Lieutenant Governor,

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, May term, 1919, in the Court of Oyer and Terminer in and for the County of Somerset, Antonino Di Mauro, alias Anthony Di Mauro, pleaded guilty to murder in the second degree, to an indictment charging him with murder, and on September 4, 1919, was sentenced by the Court to pay a fine of \$100.00, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than fifteen years nor more than twenty years.

The applicant is a native of Italy, forty-five years of age, and owes allegiance to the Kingdom of Italy. His wife is dead; he has two children; he is a coal miner by occupation, and at the time of his arrest was working for the Maple Ridge Coal Company and lived at Holsopple, Pennsylvania, where he owned his own home.

Joe Crizzulla, alias Joe Catalano, a coal miner employed in the same locality, was believed to belong to an organization or society known as the "Black Hand", and from time to time made demands of money of the applicant, and obtained \$200.00 or more from him. Crizzulla continued making demands and threatened the applicant with his life. The latter warned Crizzulla to stay away from him; Crizzulla promised to do so. Shortly afterwards, the applicant went to Johnstown to spend Sunday with his brother, and on Saturday night, during the applicant's absence, his home was entered and two fifty dollar Liberty Bonds and jewelry belonging to his deceased wife were taken from a trunk which had been broken open. The applicant, upon his return, found these articles missing and accused a young man and his wife, who were rooming in in applicant's home. They denied knowledge of the alleged entering and theft, but later the wife came to the applicant and told him that Crizzulla and two other men had entered the house and told her and her husband that they would kill them if they revealed what they saw. The applicant had been in constant fear of his life and did not know what to do. The following day he saw Crizzulla, who approached him in a friendly manner and demanded money. He told the applicant that two men had entered the latter's home on Saturday night; that he knew who they were and if the applicant would give him money he would aid in apprehending the two men. The applicant knew that Crizzulla himself had been with the two men referred to, and, finally, when they reached a bridge near the village, told him so. A quarrel ensued and fearing Crizzulla, who bore a bad reputation, he shot the latter, intending to scare him, but Crizzulla died from the effects of the shooting. The applicant was arrested and upon the advice of counsel entered a plea of murder in the second degree and received the sentence above mentioned.

The applicant has now served ten years and nine months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from Gordon Mathias, Superintendent of the Shallmar Mining Corporation, Maple Ridge, Pennsylvania, a former employer, in which he offers to employ the applicant if released. The trial Judge has since died, but the present Judge, Berkey, has filed with the Board a letter in which he states that the Court has no objection to a pardon, nor has the community any objection thereto. The present District Attorney has filed with the

## APPENDIX TO THE

Board a letter in which he states that the Board would be, "warranted in favorable considering his application for a pardon under the circumstances, assuming that his record has been good in prison."

In consideration of the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; because employment has been offered him if released, and because the present District Attorney and the present Judge evince a favorable attitude, we have concluded that the applicant has been sufficiently punished and if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Antonino Di Mauro alias Anthony Di Mauro.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 122, May Sessions, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Northumberland, Felix Boccacchio, alias Felix Bocchicchio, was convicted of pandering, and on October 17, 1927, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, twenty-three years of age. Before his conviction he was employed by Louis Muff for a period of one year as his chauffeur and before that time, resided with his parents at Atlas, Northumberland County, assisting them in their work at the store. He is unmarried.

Victor Stello maintained a house of ill repute at Mt. Carmel. It is alleged that on April 25, 1927, Victor Stello with the applicant, in the former's car, met Helen Stesney, Beulah Moyer, and a female companion, in Shamokin; that they drove into the country, and returning to Shamokin, left the female companion out; the remaining four went to Harrisburg, and from there to Millersburg, where the Moyer girl stopped off. Helen and the two men then went to Stello's place, where she had been promised work at fifteen dollars per week; that she remained at Stello's place four days, during which time she was used for immoral purposes, for a price. These are the facts as stated by Helen, but their accuracy is denied by the applicant.

Stello was convicted of keeping a bawdy house, while the applicant was convicted and sentenced for pandering. Stello, the older of the defendants, and the proprietor of the alleged house of ill fame, was later paroled by the Court, while the applicant has been confined in prison for two years and eight months.

He was only twenty-one years of age when the alleged crime was committed and was never before charged with or convicted of crime.

There were filed with the Board two letters from the trial District Attorney, who states that both men were tried and convicted at the same time: Stello for keeping a bawdy house and the applicant for pandering. The maximum sentence for the former offense is two years, while the maximum sentence for pandering is ten years. He further states that he does not know why the Court gave the applicant the maximum sentence, while Stello was not given the maximum sentence for his offense. He recommends clemency.

In consideration of all the circumstances of this case; the youth of the applicant when the alleged crime was committed; the doubt as to his guilt; his prior good record; the severity of

the sentence imposed by the Court; and the recommendation of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and if now liberated, will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Felix Boccacchio, alias Felix Bocchicchio.

ARTHUR H. JAMES,  
Lieutenant Governor,  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 450, 451, 452 and 453, August Sessions, 1925, in the Court of Oyer and Terminer, in and for the County of Philadelphia, John Ward, alias Frank James Clancy, pleaded guilty to four indictments charging him with robbery, being armed with an offensive weapon, and attempted robbery, and on August 13, 1925, on No. 451, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years, nor more than twenty years.

James Quinn, alias James Clancy, was jointly indicted with the applicant, pleaded guilty and received a like sentence in No. 451. Similar sentences imposed on both defendants at No. 452, were rescinded on account of the youth of the applicants and their prior good record.

The applicant is a native-born citizen of the United States; unmarried; twenty-two years of age. His occupation is that of cigar maker, but he was unemployed at the time of his arrest and resided in the City of Philadelphia.

The applicant, together with one, James Quinn, alias James Clancy, was involved in a series of robberies, to wit: On August 9, 1925, they held up one, Joseph Lefevre, a taxicab driver while they were passengers in his cab, and took from him the sum of \$22.04. On August 12, 1925, they held up two taxicab drivers, taking from one, Vern Campbell, \$4.00 cash, a watch valued at \$15.00 and a chain valued at \$5.00, and from the other, Francis Gornley, \$8.00 cash. On the same day they admitted that they held up one, Louis Wagner, but were unsuccessful, and as a result of this attempted hold-up they were arrested by police officers and indicted and sentenced as before stated. In the hold-up it was alleged that Quinn, alias Clancy had a gun and that he fired shots at the officers. The bill of indictment covering this charge was submitted to the Jury, and a verdict of "not guilty" rendered by direction of the Court. The applicant was also indicted on the charge of larceny on which a verdict of "not guilty" was also entered, by direction of the Court.

The applicant has now served four years and ten months of his term of imprisonment. He was never before charged with nor convicted of crime. He was only eighteen years of age when these crimes were committed.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; and the youth of the applicant when the crimes were committed, we have concluded that he has been sufficiently punished and if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John Ward, alias Frank James Clancy.

ARTHUR H. JAMES,  
Lieutenant Governor,  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 162, March Sessions, 1923, in the Court of Oyer and Terminer in and for the County of Philadelphia, John J. Cahill was convicted on the charge of being armed with an offensive weapon, and on April 20, 1923, was sentenced by the court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than nine and one-half years, nor more than ten years. Thomas McCafferty was jointly indicted with the applicant, was convicted and received a like sentence, but has since been pardoned.

The applicant is twenty-seven years of age, a native-born citizen of the United States, unmarried, a chauffeur by occupation and resided in the City of Philadelphia with his parents.

According to the testimony, the applicant was arrested in a raid by detectives, on a restaurant situated at 1307 Columbia Avenue, Philadelphia, on the morning of February 24, 1923 at 2:00 A. M. This restaurant was located on what was known as the "Gold Coast" and was much frequented by bootleggers and other undesirable citizens. Cahill was seated at the table with one, Thomas McCafferty, and behind the table hung an overcoat with a 32 caliber revolver in one of the pockets. Both men denied ownership of the coat and the police were unable to prove ownership of the gun. Therefore, the Court instructed the jury to render a verdict of not guilty as to the indictment, No. 264, for carrying concealed deadly weapons. After the arrest, McCafferty and the applicant were brought to the station house as suspicious persons and subsequently a charge of robbery was brought against the applicant covering the following circumstances: On the morning of February 21, 1923, at about 4:00 A. M., one, Wilfred S. Patterson, was driving a five ton truck belonging to the American Transportation Company, north, on Broad Street, which truck contained a load of sugar consigned to a grocery firm in Bangor, Pennsylvania. The driver noticed that he was being followed, and at the corner of Board and Huntingdon Streets, four men with drawn revolvers came out of the touring car and accosted the driver. They lifted the tarpaulin and after satisfying themselves that the truck did not contain liquor, they departed in peace. The driver identified the applicant as being one of these men and he further stated that the applicant did not have a gun. He said he did not see him in the car, but said he saw him on the street. There not being any testimony of any illegal act on the part of the applicant, counsel for the defense elected to stand on the Commonwealth's testimony. The trial Judge directed the jury to render a verdict of guilty and the applicant was sentenced as above stated.

The applicant has now served seven years and two months of his term of imprisonment. He was never before charged with or convicted of crime. His accomplice, McCafferty was pardoned by this Board in June, 1929. The applicant was only twenty years of age when this crime was committed. His mother is in ill health and requires his support.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because his mother requires his support; and because his accomplice, McCafferty, was pardoned by this Board in June, 1929, we have concluded that the applicant has been sufficiently punished and if now liberated, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John J. Cahill.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 332 and 333, September Sessions, 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, George Carland, Jr. pleaded guilty to two indictments charging him with entering to steal, and on October 2, 1924, was sentenced by the Court in the aggregate to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than two years, nor more than twenty years.

The applicant is a native-born citizen of the United States; forty-three years of age; an electrician by occupation and a widower with two children.

The applicant served his minimum sentence and was released on parole in October, 1926. He has held a responsible business position ever since his release and has deported himself well. His offenses consisted in posing as a Bell Telephone employe and as such gaining admittance into two dwelling houses where he appropriated certain articles of value. In the one case the goods taken were valued at \$16.00 and in the other the value of the articles were \$112.00. There was no denial of the charges and the present application is based entirely on circumstances which have arisen since that time.

After his release, the applicant removed to Camden, New Jersey, and made his home in that city, with his two children, a boy of eighteen and a girl of sixteen. He is now a well known and respected resident of that city and holds an excellent position. His daughter is a victim of pulmonary tuberculosis and a change of climate has been recommended by physicians. The applicant has made arrangements to move to Los Angeles, California, where he has relatives living who have offered to provide him with a home and position, and this application is made so that he may continue the good work of the past four years in a new environment.

There was filed with the Board a certificate from Doctor F. J. Cilibert of Oaklyn, New Jersey, certifying that the applicant's daughter is suffering from pulmonary tuberculosis and that a change of climate incident to her removal to California would be beneficial. There was also filed with the Board letters from Doctor Miller and William H. Brush, citizens of Camden, in which both state that they have known the applicant for about three years and that he is sober, industrious and worthy of confidence.

In consideration of all the circumstances of this case: the minimum term of imprisonment already served; his prior good record; his excellent record since his discharge on parole as shown by letters on file; and in consideration of the further fact that his daughter's physical condition requires a change of climate and that the applicant has arranged to remove to California, where home and position will be provided, we have concluded that he is now worthy to be accorded an absolute pardon.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said George Carland, Jr.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18

His Excellency, John S. Fisher, Governor.

Sir: At No. 26, December Term, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of Mon-

roe, Thomas A. Pulici pleaded guilty to an indictment charging him with breaking and entering and larceny, and on December 15, 1925, was sentenced in the aggregate to pay a fine of fifty dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years.

The applicant is twenty-five years of age; a native-born citizen of the United States, unmarried, and resided with his parents on a farm at Adelia, Pennsylvania, at the time of his arrest. He is an automobile mechanic by occupation.

On the night of November 17, 1925, a Dodge touring car was taken from the Conrad Motor Company's garage in Stroudsburg, Pennsylvania. Four days later the applicant was arrested in New York City, waived extradition, and was brought back to Stroudsburg to answer the charges before mentioned. The car was returned to the owner and the applicant pleaded guilty to the charge of breaking and entering and larceny, two counts, and was sentenced as above stated.

The applicant has now served four years and six months of his term of imprisonment. He was never before charged with or convicted of crime. He was only twenty-one years of age when this crime was committed.

There was filed with the Board a number of letters: from the Burgess of Hawley, the Sheriff and the Prothonotary of the County; the assistant cashier of the First National Bank of Hawley and others, all recommending clemency. The president of the Conrad Motor Company, the prosecutor in the case, recommends pardon. The trial Judge in a letter filed with the Board and addressed to Doctor Lynch, Superintendent of Farview State Hospital, states: "In reply to your inquiry would say that I would not oppose a pardon; as a matter of fact I rather feel that perhaps this man has been sufficiently punished, and should his record since sentence warrant favorable consideration at the hands of the Board of Pardons, I would see no reason why such action should not be taken."

District Attorney Ames, of Wayne County, a life-long friend of the applicant, has filed a letter with the Board in which he states that the present is the only offense with which the applicant as been charged, and that if paroled he would make a good citizen. The present District Attorney has filed with the Board a letter which evinces a favorable attitude. He concludes as follows: "I feel that if Mr. Pulici were paroled, that he would go straight and make a good citizen."

In consideration of all the circumstances of this case; the comparative youth of the applicant when the crime was committed; his former good record; the term of imprisonment already served; because of the recommendations of the Burgess of Hawley, county officials and others; because of the favorable attitude of the trial Judge and the prosecutor in the case, the present District Attorney and District Attorney Ames of Wayne County, we have concluded that the applicant has been sufficiently punished, and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Thomas A. Pulici.

ARTHUR H. JAMES,  
Lieutenant Governor,

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 494, April Sessions, 1918, in the Court of Oyer and Terminer in and for the County of Philadelphia, Antonio DiGuilio was convicted of murder in the second degree, and on June 12, 1918, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a

term of not less than eighteen years nor more than twenty years.

The applicant is thirty-four years of age, a native of Italy and owes allegiance to the Kingdom of Italy. He came to America about 1913. He was by occupation a shoemaker. He was employed by his father in the City of Philadelphia where he resided with his wife at the home of his parents.

On April 23, 1917, the applicant, twenty-two years of age, married Lucia Vergoglini, aged sixteen. The couple lived together with a fair degree of harmony, the only conflict being over the independence of the wife and her insistence upon being allowed to work at outside employment. On January 31, 1918, after the couple had been married nine months, the applicant's parents gave a supper to his sister who had been recently married. The participants then visited the home of another sister nearby. After celebrating the occasion in accepted Italian style, wine being plentiful, the applicant and wife returned to their home about ten P. M. and repaired to bed. The applicant, under the influence of the wine which he had consumed during the festivities, demanded sexual rights, and the wife refusing, arose from the bed, put on her clothes and prepared to go out of the house. Because of the lateness of the hour, the applicant requested her to return to bed, but she refused and after repeated requests, persisted in her refusal. A quarrel then ensued which according to the testimony in the case continued "very loudly", for five minutes. The applicant losing his self-control, drew a 22 calibre pistol from the open closet nearby and shot his wife who died two weeks later. Realizing what he had done, he then attempted to kill himself, but the shot that he intended for his heart wounded him on the left arm. He was forthwith arrested and taken along with his wife to the hospital where he soon recovered.

The applicant has now served twelve years of his term of imprisonment. He was never before charged with or convicted of crime. He was only twenty-two years of age when this crime was committed.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment served and his comparative youth when the crime was committed, we have concluded that he has been sufficiently punished, and if now liberated, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Antonio DiGuilio.

ARTHUR H. JAMES,  
Lieutenant Governor,

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 117, November Sessions, 1928, in the Court of Oyer and Terminer, in and for the County of Luzerne, John Clark alias Jack Clark was convicted of breaking and entering and larceny, and on November 30, 1928, was sentenced by the Court to pay a fine of five hundred dollars, costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than three years nor more than six years.

The applicant is a native-born citizen of the United States, thirty-six years of age, a laborer by occupation. He had been employed as such by William B. Richards, a contractor engaged in the erection of a school building in Jenkins Township, Luzerne County, until one week prior to his arrest. He was married but was divorced by his wife since his imprisonment. He resided in Jenkins Township, Luzerne County, with his parents, who are aged and in infirm health and are largely dependent upon him for support.

Early in the morning of October, 1928, the applicant was arrested by police officers of the City of Pittston, near the jewelry store of M. Epstein, Pittston, the window of which had been broken into a short time previously and three watches, having a total value of approximately eighty dollars taken therefrom, which watches were found in the applicant's possession when arrested.

At the trial, a witness who lived across the street from the jewelry store testified that he was awakened by the crash of glass about 2 A. M. of the morning in question; that he arose from his bed, looked out of his window and saw the applicant picking up something from the broken window of Epstein's store. A policeman testified at the trial that about 2 A. M. he drove past the jewelry store in a police car and observed the applicant standing or sitting beside the window that was afterwards broken; that upon his return past the store, he found the window broken and picked up a pint bottle of whiskey at the point where he had observed the applicant sitting; that he saw the applicant later at police headquarters and, in his opinion, the applicant was then under the influence of intoxicating liquor. The applicant at the trial was the only witness in his own behalf. He stated that he had been drinking that night and had gone to Pittston about nine or nine-thirty to attend a dance and while in Pittston drank more whiskey; that while waiting for a street car an acquaintance whom he knew as "Red" passed by and stopped to converse with him; that they walked down the street together; that "Red" crashed the window and then ran into the alley where the applicant was awaiting him and gave him the watches. The stolen articles were returned to the owner.

The applicant has now served approximately one year and seven months of his term of imprisonment. He was never before charged with or convicted of crime.

He alleges he was without the benefit of counsel until the day of the trial and that there was not sufficient opportunity to prepare an adequate defense.

There was filed with the Board a letter from the trial Judge in which he states that he has no objection to a pardon at this time. He adds, "When this defendant was tried and convicted, there were a number of similar crimes committed by young men in this county. In order to correct the evil, I imposed a sentence which might not have been as severe under normal conditions."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the need which his parents have of his support, we have concluded that the applicant has been sufficiently punished and if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said John Clark alias Jack Clark.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 90 and 92, September Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of Centre, Robert C. McWilliams pleaded guilty to two indictments charging him with breaking and escaping from prison and larceny, and on August 15, 1925, was sentenced in the aggregate to pay a fine of two dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not

less than four years nor more than eight years; sentence to compute from the completion of sentence from Philadelphia County.

The applicant is a native-born citizen of the United States, twenty-eight years of age and is unmarried. His father is a prominent dentist in the city of Baltimore, Maryland.

The applicant was convicted of larceny, in the city of Philadelphia, at the age of eighteen years, and was sentenced to a term of not less than six years nor more than eight years in the Eastern Penitentiary, the maximum of which sentence the applicant has served. Prior to this time the applicant had never been arrested or charged with or convicted of any crime except on a charge of petty larceny, in New York City, in 1920, upon which sentence was suspended.

On January 1, 1921, the applicant was committed to the Eastern Penitentiary on a charge of larceny. He had been to New York on a trip and on his return having exhausted his funds and having fallen in with bad companions he got into the difficulty which resulted in the last mentioned sentence. He was then only eighteen years of age and a school boy. In 1925 he was transferred to Rockview prison and while there he became associated with two men who determined upon escaping. On or about August 3, 1925, he together with these two men, left the institution and went to Bellefonte where he took an automobile and drove to Hackensack, New Jersey, where the applicant was apprehended and returned to the penitentiary. He was charged not only with breaking and escaping prison but was also charged with the larceny of the automobile and was sentenced as above stated. As a result of this escape he has been obliged to serve the maximum of his prior sentence and unless clemency is granted, he will be obliged to serve three years more. He would have been eligible for parole in January, 1927, on his original sentence. As a result of his escape he has already served three and one-half years in addition to the maximum sentence on his original commitment.

The applicant has now served a period of approximately nine and one-half years of imprisonment which includes eight years, the minimum sentence on the first charge of larceny and an additional period of approximately one and one-half years under the two sentences for which pardon is now sought. He was only eighteen years of age and a school boy when first imprisoned.

In consideration of all the circumstances of this case and the long term of imprisonment already served, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Robert C. McWilliams.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 98, June Sessions, 1927, in the Court of Oyer and Terminer, in and for the County of Luzerne, Thomas Condeelis was convicted of arson, and on June 13, 1927, was sentenced by the Court to pay a fine of five hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than three years nor more than six years.

The applicant is a native of Greece but a naturalized citizen of the United States, thirty-five years of age. He has a wife

and daughter, seven years of age, who are dependent upon him for support.

From the agreed statement of facts, it appears that on April 4, 1927, about 3:30 A. M. the Fire Department of the City of Wilkes-Barre was called to the Corso Restaurant, situated on South Main Street, Wilkes-Barre. The restaurant was owned or managed by the applicant and opened for business on or about January 15, 1927. They found a fire in progress which originated in the cellar underneath the restaurant and when checked had reached a point underneath a stairway leading to the second and third-floor apartments over the restaurant. There was no furnace or other heating apparatus in the cellar and it was unoccupied except for storage purposes and two "clothes changing rooms," one for the male and one for the female help.

At the trial the Commonwealth showed that the applicant left the restaurant about 2:15 A. M. on April 4, 1927; that on the preceding day he had gone into the cellar with a package under his arm that about noon of the day of the fire, the Chief of the Fire Department and his assistant located on the floor of the cellar a jug and a jar which were proved, upon analysis, to contain some inflammable substance akin to kerosene, and that the applicant at the time of the fire owed various creditors \$6,000.00 and upwards for alterations made to the restaurant and for fixtures, supplies and help. It was also shown that four policies of insurance, aggregating \$12,000.00, covering the restaurant and fixtures, were made payable to George Condeelis, the brother of the applicant, who had advanced to the latter four or five thousand dollars. The applicant was located by the Fire Department officials in his apartment on South Washington Street, Wilkes-Barre, situated about three blocks from the scene of the fire, where he resided with his wife and child, about seven o'clock on the morning of the fire and at that time denied all knowledge of the same. The applicant had no insurance of any description upon the premises or the contents thereof. Under the above-stated facts, the applicant was tried and convicted of the crime for which sentence was imposed as hereinbefore stated.

The applicant has now served three years of his term of imprisonment. He was never before charged with or convicted of crime.

There were filed with the Board a number of letters recommending clemency from Sheriff Davis and others. There was also filed with the Board a letter addressed to the attorney for the applicant by the attorneys who are collecting the insurance moneys from the various companies involved, in which they state that suits have been instituted in the name of George Condeelis who claims that he owns the stock and fixtures in the restaurant. The insurance was written in his name and the insurance companies are resisting payment on the ground that George Condeelis was not the owner of the stock and fixtures insured and that the fire was of incendiary origin at the hand of the applicant but with the knowledge and consent of his brother, George.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the need which his family has of support and because of the recommendations of Sheriff Davis and others, we have concluded that the applicant has been sufficiently punished and that if now liberated, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Thomas Condeelis.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 50 and 51, May Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Cum-

berland, Claude Sheeley, Junior, was convicted of fornication and bastardy, statutory rape and prostitution of child under sixteen years of age, and on May 18, 1929, on the charge of fornication and bastardy, was sentenced to pay a fine of \$5.00; \$25.00 lying-in-expenses, and to pay for the support of the child the sum of \$3.00 a week, starting from its birth until it reaches the age of sixteen years. In No. 51, on the charge of statutory rape, the applicant was sentenced to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than four and one-half, nor more than ten years. The Jury recommended him to the mercy of the Court.

The applicant is a native-born citizen of the United States, twenty-three years of age. He is a baker by occupation and at the time of his arrest he resided in the Borough of Lemoyne, Cumberland County, with his wife and a daughter aged about fifteen months.

At the time of the alleged crime, the applicant lived with his parents, and two or three rooms on the third floor of the same house were occupied by Mrs. Violette Ebert, an aunt of the defendant, together with her daughter, Bernice, aged about fourteen years, who was the first cousin of the applicant. The latter's parents, on account of the poverty of Mrs. Ebert and her family, took them into their own home and gave them several rooms.

The girl gave birth to an illegitimate child and charged the applicant with its paternity. When the mother discovered her daughter's condition, the girl refused to name the guilty person, for the reason, as she afterwards testified, that she was unwilling to involve her own cousin. Before the birth of the child, however, she divulged who the father was. At the time of the birth no statement was made for the reason that the doctor did not arrive until after the child was born, and there was no one present who had the foresight to ask the proper questions. The applicant has always denied having ever had any improper relations with his cousin.

The applicant has now served one year and one month of his term of imprisonment on the charge of statutory rape. He was never before charged with or convicted of crime. He was only twenty-two years of age when he was convicted. His wife and child require his support, and he is unable to earn money, while in prison, to maintain his family and to comply with the order of the Court.

There were filed with the Board a number of letters recommending clemency. The Clerk of the Courts, the Sheriff of the County, the Chiefs of Police of New Cumberland and Lemoyne, the Cashiers of the Shiremanstown State Bank and the Camp Hill National Bank, the Postmaster of Camp Hill and others, urge pardon. There was also filed numerous signed petitions to the same effect.

The prosecutrix in the case, who is the mother of the girl, has filed with the Board a sworn statement in which she alleges that while she believes the applicant to be the father of her daughter's illegitimate child, nevertheless, because of the close family relationship existing between them, and because her daughter requires means of support for her child, she asks that the Board grant pardon for the offense of statutory rape, but not for the offense of fornication and bastardy.

Employment has been offered the applicant if released by the Manbeck Baking Company, Lemoyne.

In consideration of all the circumstances of this case; the comparative youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because employment has been offered him if released; because his wife and child as well as the illegitimate child require support; because of the recommendations of County Officials and others, and the petition of citizens who are personally acquainted with the applicant, and have general knowledge of the conditions, and because of the request of the prosecutrix in the case, we have concluded that the applicant has been sufficiently punished for the offense of statutory rape, and while we are not satisfied that he should be granted an absolute pardon for this crime, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court on the charge of statutory rape be commuted to one year and one month's imprisonment, effective June 18, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Claude Sheeley, Junior, for the offense of statutory rape, be commuted

to one year and one month's imprisonment, expiring on June 18, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor,

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2, May Term, 1923, in the Court of Oyer and Terminer in and for the County of Somerset, Charles Wilson was convicted of murder in the second degree, and on June 1, 1923 was sentenced by the Court to undergo imprisonment in the Western Penitentiary for a term of not less than ten years nor more than fifteen years.

The applicant is a native-born citizen of the United States, forty-six years of age, colored. He is by occupation a laborer, and had been employed by the Pennsylvania Railroad, the Harbison-Walker Brick and the Cambria Steel Companies. He was also employed in the mines and was so employed at the time of his arrest. He bears an honorable discharge for service in the World War. The applicant's wife is blind, resides in Tyrone, and is supported by charity.

On March 12, 1923, and for six months prior thereto, the applicant lived with his wife in the half of a double house at Coal Junction, a small mining village in Somerset County. The half of another double house, about fifty feet away, in the same row of five double houses, was occupied by Henry Goldsmith, colored, and Ida Goldsmith, his white wife, and the other half by Walter Burrell, colored, and Dolly Bivins, a white woman who claimed to be his housekeeper, but who was commonly known as his wife. Goldsmith, Burrell and the applicant were all employed in the mines by the same company. On the date mentioned there was no work at the mines. Goldsmith and Burrell were away from the village. During the afternoon, about three o'clock, the applicant went to one of the houses in the row to see a friend, George Galloway, who had come from Johnstown. After talking with him for a short time the applicant left for home, saying he would return in the evening. In passing the Goldsmith house the applicant was called in and offered a drink from a bottle of liquor. He drank some of the booze and remained to talk. The people in the house were Ida Goldsmith and Dolly Bivins. During the conversation Mrs. Goldsmith said to the applicant that if he had any money and wanted a good time he could buy some booze or spend it otherwise, and the applicant replied that he could have a good time at home without spending money. Whereupon Mrs. Goldsmith called him a tightwad, cursed him and struck him several times. Dolly Bivins joined in the melee and hit the applicant on the wrist with a butcher knife. After pushing the women away the applicant went home where he remained until after dark, as the booze in which he had indulged at Goldsmith's had made him drunk and sick. After the effects of the liquor had worn off somewhat, the applicant took his wife to the home of a neighbor to remain while he went on a visit to Galloway as he had promised. After leaving his wife the applicant proceeded toward the house of Mr. Galloway along the path in the rear of the row of houses, the usual way of going. When he approached the house occupied by Goldsmith and Burrell, Goldsmith and his wife came out of the back door and went over to the door of the side occupied by Burrell, apparently intending to enter. Upon seeing the applicant, Mrs. Goldsmith said loudly: "that is the man that is raising all the hell here." The applicant walked on and as he was passing Goldsmith and his wife, Goldsmith said "we will settle this right now," and struck the applicant, who returned the blow in self-defense.

Mrs. Goldsmith joined in the fray, as well as Burrell and Dolly Bivins, who rushed through the pantry door when they heard the struggle. In the scuffle the applicant was knocked down in the mud and when he got up was struck by several assailants and pushed through the open door. The men and women kept assaulting the applicant and the fight finally reached the kitchen where the applicant was knocked down on his back. In his struggle to get up, a pistol which he had in the pocket of his overalls, fell out on the floor. He picked it up to return it to his pocket when Burrell struck him on the hand with a poker and knocked the pistol from his hand; Goldsmith and the applicant both seized it and in the tussle it was discharged. Goldsmith left go of the pistol and said "you shot." The four assailants fled into the adjoining room and the applicant ran out of the house. The applicant then returned to the house where he had left his wife. Upon his arrival she told him that word had been brought that Ida Goldsmith had been shot, this information being the applicant's first knowledge that anybody had been shot. Mrs. Goldsmith had made no outcry. The bullet had struck and entered the right side of her body and she died about an hour after the shooting.

The applicant was arrested several days later, charged with murdering Mrs. Goldsmith and when arraigned pleaded not guilty and claimed that the discharge of the pistol was accidental. He was, however, convicted on the testimony of Goldsmith, Burrell and Dolly Bivins, the three surviving assailants, who falsely testified that the applicant came at night to the house of Burrell where Goldsmith and his wife were and pulling the revolver from his pocket shot Mrs. Goldsmith after she finished telling her husband about the trouble in the afternoon. Unfortunately for the applicant there were no eye witnesses to the melee except the persons named, and his story could not be corroborated although he showed to the jury the cuts and bruises which he received in the assault, and the man and woman with whom his wife remained while he visited Galloway testified that when he came for his wife his clothes were muddy and his shirt torn.

The applicant has now served seven years of his term of imprisonment. He was never before charged with or convicted of crime. His wife is blind and dependent upon charity; he has an excellent prison record as shown by letters from prison officials.

There was filed with the Board a letter from the trial District Attorney in which he states that in his judgment the ends of justice have been met in the punishment of the applicant and that if he is either pardoned or paroled he will become a useful citizen. The trial Judge has filed with the Board a letter in which he states, inter alia, "I believe this man has been sufficiently punished . . . the release of the prisoner would not do any violence to the community in which he may live as a sober man. I recommend that he be released from prison under the supervision of the Parole Director."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because his blind wife is dependent upon him for support; and because of the recommendations of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the court should be commuted to seven years' imprisonment, effective on June 1, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed upon the said Charles Wilson be commuted to seven years' imprisonment expiring on June 1, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 111, 112, 120, 121, 122, 822, 823, 824, 825, 826, 827, 828, February Sessions, 1927, in the Court of Oyer and Terminer, in and for the County of Allegheny, John Thompson pleaded nolo contendere to twelve indictments charging him with statutory rape, sodomy, assault and battery with intent to ravish, indecent assault and battery and open lewdness, and on March 8, 1927, was sentenced in Nos. 111, 112, 120, 121, 122, in the aggregate, to pay a fine of thirty-one and one-fourth cents, costs and to undergo imprisonment in the Western Penitentiary for a term of not less than seven years nor more than fourteen years. Sentence was suspended in the remaining cases.

The applicant is a native-born citizen of the United States, sixty-four years of age, unmarried. He has been a coal miner since he was twelve years of age, but at the time of his arrest he was employed as a carpenter's helper, aiding in the construction of a building. He lived in a small shanty at the summit of Whitman Hill, twentieth ward, Pittsburgh. There were no houses within a mile of his shanty.

From the statement of facts filed with the Board by an Assistant District Attorney of said county, it appears that the applicant was arrested on January 29, 1927, charged with being a suspicious person. Complaint was made that Stella Skowronska, Cecelia Wittmann and Helen Drwiega, girls under sixteen years of age and other young girls, frequented the applicant's shanty either while he was present or at times when he was at work. The girls above-named were accused of running around with other men and their reputation was bad. The applicant pleaded nolo contendere, admitting that the girls were frequently at his place but furnished no reasonable explanation as to his permitting these girls to visit his home during the day and sometimes at night. No complaint was made by any of the girls as to the different crimes of which the applicant stood accused until after his arrest on the date above-mentioned. Each complaint was made a considerable time after the occurrences complained of. The applicant admitted habitual and excessive drinking and claimed that he had no recollection whatever of having committed the criminal acts charged by the girls.

The applicant has now served three years and three months of his term of imprisonment. He was never before charged with or convicted of crime, except on one occasion. He was arrested in February, 1925, charged with being a suspicious person and was sentenced by a police magistrate of the city of Pittsburgh to serve thirty days in the Allegheny County Workhouse.

There was filed with the Board a letter from the Warden of the Western Penitentiary which states that the applicant's record in that institution is beyond reproach. He states that from an investigation of his case in the community in which the applicant lived, they found that he was addicted to the use of liquor and that the girl who was his main accuser bears a bad reputation. He also states that the applicant claimed that he was drunk and doesn't recollect anything about the occurrences complained of; although he admits that the girls frequently came to his house and stated that their object was to steal or get money. His letter indicates that he is favorable to a pardon. The trial District Attorney has made no recommendation.

In consideration of all the circumstances of this case; the prior good record of the applicant, with a single exception; the doubt as to his guilt; because of the bad character of his chief accuser; and in consideration of the term of imprisonment already served and the statement of the Warden of the Penitentiary, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to three years and three months' imprisonment, effective on June 8, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said John Thomp-

son be commuted to three years and three months' imprisonment, expiring on June 8, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 168, February Sessions, 1925, in the Court of Quarter Sessions, in and for the County of Luzerne, Russell Priestman was convicted of robbery, and on March 31, 1925, was sentenced to pay a fine of five thousand dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years nor more than twenty years.

The applicant is a native-born citizen of the United States, thirty-five years of age. His occupation is that of shoe cutter. He is unmarried. At the time of his arrest he resided in Glenolden, Luzerne County.

On the night of January 13, 1925, at about 9:30 o'clock, the applicant in company with Harry P. Smith and Earl Van Steenberg proceeded by automobile to the gasoline service station of the S. S. Oil Company, at Pittston, and robbed the attendant, one Edward Schmaltz, of the sum of forty dollars. For some time previous to the commitment of this crime the applicant had associated with Smith and it was the latter who conceived the plan of this robbery, due to the fact that he had a short time previously worked as an attendant at the same station. He outlined the easy possibility of getting quick money from this source and the applicant participated with him in the crime.

The applicant has now served five years and three months of his term of imprisonment. His prison record is excellent as shown by letters on file from the officers of that institution. During his imprisonment he has invented and patented a "safety diving bell," which has been looked upon with favor by the United States Government and is still under consideration by them. It is the desire of the applicant, if released, to continue development of this device. Smith, the instigator of the crime, received a sentence of from two and a half years to five years in the County Jail of Luzerne County and was later paroled after having served but nine months of his sentence. If released, the applicant will return to his home with his father and pursue his occupation as a shoe cutter and further promote his invention.

There was filed with the Board a letter from the assistant District Attorney who prosecuted the applicant. He states that he understands that the applicant has perfected a diving bell and has been in all respects, "a model prisoner." In view of these facts and of the probability that his good prison conduct forecasts useful citizenship he recommends clemency. There was also filed with the Board a letter from the S. and S. Oil Company, the prosecutor in the case, addressed to the applicant, in which the company recommends pardons if the applicant is able "to show recommendation from other citizens of good repute."

In consideration of all the circumstances of this case; the term of imprisonment already served; his excellent prison record; because of the recommendations of the prosecuting attorney and the prosecutor in the case, and because of the additional fact that the applicant's accomplice, Smith, who was the real instigator of the crime, was discharged on parole after serving but nine months in the County jail, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to five years and three months' imprisonment effective on July 1, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Russell Priestman be commuted to five years and three months' imprisonment effective on July 1, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 302, December Sessions, 1922, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Salvatore Passant pleaded guilty to an indictment charging him with robbery; assault with intent to rob; robbery, being armed with an offensive weapon; robbery and in the commission thereof, beating and striking and ill-using one Morris Fine, and on February 2, 1923, was sentenced by the Court to pay a fine of one thousand dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years, nor more than twenty years.

The applicant is thirty-five years of age, a native of Italy, but a naturalized citizen of the United States. He has an honorable discharge for service overseas during the World War. He is married but has no children.

At the time of his arrest, the applicant was employed as a laborer by the Atlantic Refining Company, Philadelphia, and resided in that city.

About nine o'clock, on the night of November 16, 1922, the dry-goods store of Morris Fine, located at the corner of Second and Fitzgerald Streets, Philadelphia, was entered by three men, one of whom asked to see a belt. When Fine turned to get the belt, one of the men pointed a revolver at him and demanded that he throw up his hands. All three men held revolvers, but instead of obeying the command, Fine ran to the rear of the store. The man who had addressed Fine, fired at him, hitting him in the back. The three bandits rushed from the store and two of them jumped into an automobile which was standing outside of the store. These two men were Louis Francesca and the applicant. The car started as the third man, Bartholmew Rulli, attempted to enter it but he was thrown to the ground. When he saw that his comrades were leaving him behind, he fired at the occupants of the automobile and hit Francesca. The two in the automobile got away and Rulli ran about a square from the scene of the crime and was apprehended by an officer dressed in civilian clothes. Later the same night, Francesca and the applicant called at the office of a physician to have Francesca treated. The doctor was suspicious of the case and sent the men to the Pennsylvania Hospital, after which he communicated with the Station House. An officer was sent to the doctor's office and found there two guns which had been left behind by Francesca and the applicant. He then went to the Pennsylvania Hospital and took the applicant to the Police Station and placed a police guard over Francesca who was confined to the Hospital for nine days. Fine, the proprietor of the store, was taken to the Hospital suffering from a bullet wound in the spine. Rulli and the applicant were positively identified by Rulli's wife, who ran into the store when she heard the shooting. The applicant was identified as the man who held the gun in front of Fine when he told him to hold up his hands, and who shot the proprietor of the store when they started to run. The three defendants claimed that they did not know one another. But this was proven to be untrue when the Commonwealth produced an Italian police officer who had been stationed in a cell adjoining the defendants' and heard them discussing the crime and planning their defense. He also heard the applicant and Fran-

cessca say to Rulli: "Why did you shoot?" He replied: "Why did you leave me on the street?" This is the Commonwealth's account of the crime.

The applicant has now served seven years and four months of his term of imprisonment. While he pleaded guilty upon the advice of counsel, he avers that he is innocent of the crime but admits that he and Francesca had taken an automobile ride and on their return to the home of the latter, stopped at a dry-goods store and that Francesca entered the store to purchase handkerchiefs which he required, while the applicant stopped the car, remaining in it while Francesca was in the store. The latter, after a short absence, reappeared running from the store toward the automobile. Just as he attempted to step into the automobile, a shot was fired from the store and Francesca was struck by a bullet in the left side of his back. The applicant admits that he took Francesca to a physician, and that before they left the physician's office, they were arrested. He claims that he never saw Rulli until they were both before the magistrate. The applicant's brother has offered to provide a home and employment on a farm in New Jersey if he is released.

In consideration of all the circumstances of this case; the long term of imprisonment served; because of doubt as to the guilt of the applicant; because a home and employment have been offered the applicant if released, we have concluded that the latter has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to seven years and four months' imprisonment effective on June 2, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Salvatore Passant be commuted to seven years and four months' imprisonment, expiring on June 2, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 81, May Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Allegheny, William Galvin pleaded guilty to the charge of larceny and on May 22, 1929, was sentenced by the Court to pay a fine of six and one-fourth cents, costs and to undergo imprisonment in the Western Penitentiary for a period of not less than three years nor more than six years.

The applicant is a native-born citizen of the United States, twenty-three years of age, and at the time of his arrest resided with his mother, Mary Galvin, in the City of Pittsburgh. He was by occupation a clerk and later a truck driver.

The applicant on the night of April 4, 1929, entered a parked automobile in the Lawrenceville District of the city of Pittsburgh, together with two other young men, without the permission of the owner of the car, and drove the car from that point to the East Liberty District of the city where the automobile was abandoned. The defendant was later apprehended by the police and admitted his guilt. His two companions were paroled without sentence.

The applicant has now served one year and one month of his term of imprisonment. His prior record is good with the exception that when eighteen years of age he was sentenced to six months in the Allegheny County Jail on a charge of larceny. He was twenty-two years of age when the present crime was committed.

There was filed with the Board several letters recommending clemency; one from Luke Sullivan, member of the House of

Representatives, another from Congressman Sullivan. Both men know the applicant and his family and are familiar with the case and both recommend clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant with a single exception; his comparative youth when the crime was committed; the term of imprisonment already served and because his two accomplices were paroled by the Court without sentence and because of the recommendations of Assemblyman and Congressman Sullivan, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and one month's imprisonment effective June 22, 1930.

We have, therefore, "after full hearing, upon due public notice and in open session," recommended that the minimum sentence of imprisonment heretofore imposed on the said William Galvin be commuted to one year and one month's imprisonment expiring on June 22, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 73 and 79, June Term, 1919, in the Court of Oyer and Terminer in and for the County of Northampton, Hal Goodman alias Hal Goodwin alias Texas Goodwin, pleaded guilty to two indictments charging him with statutory burglary, and on September 8, 1919, was sentenced in the aggregate to pay a fine of one hundred dollars, costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than eighteen years nor more than twenty years.

The applicant is a native-born citizen of the United States, forty-five years of age, unmarried. He has no occupation and no particular address. His parents are well known and respected citizens, upwards of seventy years of age, residing in San Antonio, Texas.

On August 8, 1919, a number of burglaries in the Third Ward of the city of Easton were reported to the police authorities. Three days later the applicant was arrested in the vicinity where the burglaries had been committed for unlawfully breaking and entering, in the night time, two residences in that city, and taking therefrom certain articles of clothing and jewelry. In the statement of facts agreed upon by the District Attorney and counsel for the applicant, it is alleged that the applicant at the date of his arrest and arraignment, "was addicted to the use of drugs."

The applicant has now served ten years and nine months of his term of imprisonment. His prior record is not good.

There was filed with the Board, a letter from the Warden of the Eastern Penitentiary, in which he states that during the past six years the applicant has not used drugs. He recommends a commutation of sentence so that he be placed under parole supervision. He also urges that the applicant be returned to his parental home in Texas, stating that his parents are persons of high character as shown by letters on file with the Board. Dr. Linn Bowman, Moral Instructor and Courtland Butler, Parole Supervisor of the Penitentiary, have also filed with the Board a joint letter in which they refer to the applicant's excellent record in the penitentiary, and state that from the correspondence with the father of the applicant, they are satisfied that full confidence can be reposed in him when he undertakes to become responsible for his son's future welfare. They state that the present application for pardon was filed at their instance. There was also filed with the Board a letter from the father and mother of the applicant

in which they state that they have been in constant correspondence with their son for the past ten years and have heard from him regularly every week. They ask the Board to permit his return to them and promise to care for him. There was also filed with the Board, letters from the vice-president of the First National Bank of San Antonio, Texas, and from the mayor of the city certifying to the high character and standing of the father of the applicant.

In consideration of all the circumstances of this case; the applicant's excellent prison record; because of the recommendations of the prison officials; and because the applicant's parents who are reputable and responsible citizens of Texas desire the return of their son and have offered to become responsible for his future welfare, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to ten years and nine months' imprisonment effective on June 8, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Hal Goodman alias Hal Goodwin, alias Texas Goodwin, be commuted to ten years and nine months' imprisonment expiring on June 8, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 339, 339-A, 339-B, 339-C, 339-D, 339-E, 339-F, and 339-G, April Sessions, 1927, in the Court of Oyer and Terminer, in and for the County of Luzerne, John Schutt, alias John Shatusky pleaded guilty to eight indictments charging robbery, discharging firearms, breaking and entering, and on April 13, 1927, was sentenced by the Court, on Nos. 339-E and 339-F, in the aggregate to pay a fine of six hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than ten years, nor more than twenty years. No sentence was imposed by the Court upon any of the remaining indictments. August Frank Lessing was jointly indicted with the applicant, pleaded guilty and was committed to the Huntingdon Reformatory and has since been paroled.

The applicant is a native-born citizen of the United States, unmarried, a laborer by occupation and at the time of his arrest worked in the anthracite coal mines and resided in the Borough of Kingston.

On March 19, 1927, in the daytime, the applicant and one, August Frank Lessing, went to the store of the Atlantic and Pacific Tea Company in Kingston, in an automobile and by flourishing a revolver which was in the hands of Lessing, compelled the employees to turn over to them thirty dollars in cash, and shortly thereafter, the same day, they went to the store of the American Stores Company on Main Street, Swoyerville, and compelled the persons in the store by brandishing the revolver to turn over to them the sum of \$21.67. About a week later the applicant and Lessing were apprehended in Bethlehem while attempting to break into a store. They confessed and pleaded guilty. At the time of sentence the applicant also pleaded guilty to indictments charging him and Lessing with the following crimes committed during March, 1927, to wit: the larceny of a taxicab in the Borough of Kingston; the larceny of a Paige Sedan in the City of Wilkes-Barre; the larceny of an Atwater-Kent Radio with tubes, in the Borough of Kingston; the breaking and entering a garage and stealing therefrom a Maxwell coupe; the breaking and entering a store

in the Borough of Kingston and taking therefrom certain articles of merchandise and the robbery of a store in the Borough of Kingston and taking therefrom \$35.00 in cash.

The applicant is a cripple, having lost his right foot and part of his leg previous to the commission of the above-mentioned crimes and after his confinement in the Penitentiary the stump of his leg became infected and it became necessary for him to submit to an operation and have six inches more taken off his leg. His mother has two business places in the Borough of Kingston which she has conducted with the aid of a son twenty-one years of age and a daughter. The son is in poor health and his doctors have urged him to go to a warm climate. The sister was recently married and will leave Kingston shortly. The mother will therefore be required to employ outside help or sell out her business. She is willing to take the applicant into one of the stores and teach him the business and eventually turn it over to him.

The applicant has now served three years, two months of his term of imprisonment. He was only nineteen years of age when these crimes were committed.

The Chief of Police of the Borough of Kingston has filed with the Board a letter in which he recommends clemency. He states that Lessing, the accomplice of the applicant, was paroled in July, 1928. He further states that the applicant's mother is conducting two stores in Kingston and requires the assistance of her son. He calls attention to the fact that if the applicant misbehaves after release, he can be sentenced on the remaining indictments to which he pleaded guilty.

Richard Powell, Chief County Detective of Luzerne County, has filed with the Board, a letter in which he recommends clemency for the reasons set forth in the letter of the Chief of Police of Kingston Borough.

In consideration of all the circumstances of this case; the youth of the applicant when these crimes were committed; the term of imprisonment already served; because of the need which his mother has of his assistance and because she has offered to provide a home and employment; because his accomplice was paroled in July, 1928, and particularly because of the recommendations of the Chief of Police of Kingston and the Chief County Detective of Luzerne County, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to three years and two months' imprisonment, effective on June 13, 1930.

We, therefore, "after full hearing upon due public notice, and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said John Schutt, alias John Shatusky, be commuted to three years and two months' imprisonment, expiring on June 13, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., June 18, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 94, May Sessions, 1927, in the Court of Oyer and Terminer in and for the County of Philadelphia, Roscoe Mackey pleaded guilty to an indictment charging him with murder, the degree of which was adjudged to be murder in the second degree and on June 15, 1927, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, thirty-two years of age, colored. His occupation at the time of

his arrest was that of a waiter. He resided in the city of Philadelphia with his wife.

The applicant was charged with having killed his wife, Florence Mackey, on March 29, 1927. The applicant had not been at his home for two nights prior to the time of the killing. The deceased had made threats to the effect that she would cut the applicant's throat. When he came home on the evening of the tragedy, the deceased started quarreling with him, threatening him, threw a clock, vase and other articles at him, and then put her hand down her bosom and drew out a knife, at the same time making a dash in his direction. The applicant ran away from her in an attempt to evade her, trying to get out a window which was unfortunately fastened, leaped over the bed with her in pursuit and in an attempt to frighten her, fired his pistol. The deceased came towards him, and twisted her body so that the shot struck her under the left arm. There was but one shot fired with fatal results. The applicant testified at the trial that the deceased had previously assaulted him with knives, and that on several occasions he was actually injured. After the shooting, the applicant ran into the street, hailed a taxicab and took her to the hospital. He remained by her bedside until she died and then surrendered himself to the police. The applicant has always denied having any intention of striking her, and avers that he fired in an attempt to frighten her and that the shooting was accidental. The room in which the tragedy occurred was a scene of disorder. The police officers brought into Court pieces of the china clock which was thrown by the deceased and smashed. It is urged on behalf of the applicant that the evidence shows a crime no greater than voluntary manslaughter. Two witnesses other than the applicant were so unreliable that the Court and counsel for the applicant felt it unsafe to permit such testimony to get to the jury. The Court in sentencing the applicant said: "I will fix the grade of the crime as murder in the second degree. It is between voluntary manslaughter and second degree murder."

The applicant has now served three years of his term of imprisonment. He was never before charged with or convicted of crime. Employment has been offered him if released by R. T. Sherman, Treasurer of the Calcite Quarry Corporation at Lebanon, Pennsylvania.

There was filed with the Board, a letter from the chaplain of the Lutheran City Mission of Philadelphia in which he recommends clemency. There was also filed with the Board a petition recommending clemency filed by a number of citizens of Philadelphia. A. G. Frazer, Superintendent of the Pennsylvania Prison Society, Philadelphia, has filed with the Board, a letter in which he strongly recommends pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the letters of recommendation filed with the Board; because employment has been offered if released, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to three years' imprisonment, effective June 15, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Roscoe Mackey be commuted to three years' imprisonment expiring on June 15, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 141, September Session, 1927, in the Court of Quarter Sessions of the Peace, in and for the County of Le-

high, John Johnson alias John Edwards, was convicted of robbery, assault with intent to rob, carrying concealed deadly weapons, and wantonly pointing firearms, and on January 5, 1928, was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern State Penitentiary for a period of not less than five years nor more than ten years. Michael Flok, Edward Sill, and Joseph Dougherty were jointly indicted and convicted with the applicant and received like sentences.

The applicant is a native-born citizen of the United States, twenty-two years of age, and a laborer by occupation. He resided in the city of Allentown with his father and was there employed at the time of his arrest.

On February 9, 1927, at about ten P. M., the applicant, together with the three men above mentioned, waited outside a house where an automobile was parked, and, when the owner, Robert E. Bradford, entered his car, the four men including the applicant got aboard the car, took possession of it, and forced the owner to ride along with them. During the ride the car ran out of gas. The applicant and one of the other men left the car to obtain gas, and while they were gone, the two men who remained in the car robbed the owner of ten dollars, all the money he had in his possession. The ride was then resumed, the four men, including the applicant, taking the owner to Seidersville, where they released him, he proceeding to Bethlehem where he reported the robbery to the chief of police. Soon thereafter all four men were arrested and were convicted and sentenced as above stated.

The applicant has now served two years and eight months of his term of imprisonment. He was never before charged with or convicted of crime. He was only twenty years of age when the robbery occurred.

There was filed with the Board a letter from Robert E. Bradford, the man who was robbed, in which he recommends clemency. Philip Lucas, one of the jurymen who convicted the applicant, also recommends pardon.

In consideration of all the circumstances of this case; the extreme youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; and because of the recommendation of the prosecutor in this case, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to two years and eight months' imprisonment, effective on September 5, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said John Johnson, alias John Edwards be commuted to two years and eight months' imprisonment expiring on September 5, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 241, March Sessions, 1929, in the Court of Oyer and Terminer in and for the County of Delaware, William H. Schwalbe, alias William H. Hall, pleaded guilty to an indictment charging him with highway robbery, and on March 21, 1929, was sentenced by the Court to pay a fine of five thousand dollars (\$5,000.00), costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than eight years, nor more than twenty years.

The applicant is a native-born citizen of the United States, twenty-eight years of age. He is a salesman by occupation. At the time of his arrest, he was a partner in the Electrical

Theatre Supply Company of Philadelphia, and resided in Oakmont, Delaware County. He is married.

In the early morning of January 8, 1929, a truck owned by John Hilyard, an expressman of Eddystone, Pennsylvania, was apparently held up in the Borough of Yeadon, and carried off. The truck was carrying plush and cloth to the value of approximately twelve thousand dollars from mills in Delaware County to New York. Eight men, including the applicant, were indicted for the robbery. The applicant was also indicted for carrying concealed deadly weapons, pointing and discharging a gun, conspiracy, larceny and receiving stolen goods, and for violating the Drug Act. The applicant entered a plea of guilty to the robbery, but stood trial on the remaining charges. The jury, by direction of the Court, found him not guilty of all the offenses, except that of robbery. Charles F. Zoll, one of the applicant's co-defendants, pleaded guilty and was sentenced to pay a fine of one thousand dollars (\$1,000.00), and to undergo imprisonment for a period of from five to fifteen years. Another co-defendant, Rocco Mattio, pleaded not guilty, and by direction of the Court, was acquitted. Frank McGlinchey, who was a fugitive from justice, finally surrendered himself in April, 1929, and pleaded guilty to all of the indictments found against him. He involved John Hilyard, the truck owner and it was then revealed that Hilyard and McGlinchey had conspired to have the truck, which was heavily insured, robbed, McGlinchey to secure as confederates, the persons indicted as above stated, and all, including Hilyard, to divide the loot. Hilyard was subsequently indicted for conspiracy and fraudulent conversion, was convicted of the same, and sentenced to pay a fine of five hundred dollars (\$500.00), and to undergo imprisonment for a term of one to two years. A portion of the goods and materials on the truck was sold to Louis Lasch, one of the applicant's co-defendants, who was convicted of conspiracy, larceny, and receiving stolen goods, and sentenced in the aggregate to pay a fine of fifteen hundred dollars, (\$1500.00), and to undergo imprisonment for a period of from three to six years. This sentence was subsequently modified and the fine reduced to one thousand dollars (\$1,000.00), and the county jail of Delaware County was substituted for the place of imprisonment instead of the Penitentiary. In June, 1930, Lasch, the receiver of the stolen goods, was paroled for a period of nine years upon payment of one thousand dollars (\$1,000.00) fine, and costs, and was ordered to enter into his own recognizance in the sum of five hundred dollars (\$500.00) to keep the peace.

The applicant has served one year and six months of his term of imprisonment. His prior record is good with the exception of four minor offenses. When fifteen years of age, he was arrested for aggravated assault and battery. He was arrested on three subsequent occasions for violation of the motor vehicle regulations; discharged in two cases and fined twelve dollars and fifty cents (\$12.50) in the third instance.

There was filed with the Board, a letter from the First National Pictures Distributing Corporation of Philadelphia, in which it is alleged that the applicant had been employed by them for about six years, and had been a reliable salesman. There was also filed with the Board, a letter from Edward H. Bryant of the Bryant Bureau, Inc., in which he states that he has made investigation of the alleged robbery made the basis of the present application and finds that it was not merely a holdup but a conspiracy on the part of a number of men acting in collusion with one of the owners of the truck hauling the goods for the purpose of defrauding the insurance company; that this fact was not revealed until after the applicant was sentenced and imprisoned. Two men owned the truck, one of whom was Hilyard, who was subsequently indicted and convicted of conspiracy to have his truck and cargo stolen by the applicant and his gang.

In consideration of all the circumstances of this case; the term of imprisonment already served; the prior good record of the applicant with the exception of minor infractions of the law; because of the severity of his sentence for the alleged highway robbery as compared with the sentences meted out to his co-defendants, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and six months' imprisonment, effective on September 21, 1930.

We, therefore, "after full hearing, upon due public notice, and in open session," recommend that the minimum sentence

of imprisonment heretofore imposed on the said William H. Schwalbe, alias William H. Hall, be commuted to one year and six months' imprisonment, expiring on September 21, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 23, April Term, 1916, in the Court of Oyer and Terminer, in and for the County of Mercer, Fred Christy pleaded guilty to an indictment charging him with murder, the degree of which was finally adjudged to be murder in the second degree, and on October 16, 1917, was sentenced by the Court to undergo imprisonment at the Western Penitentiary for a period of not less than nineteen years nor more than twenty years.

The applicant is a native-born citizen of the United States, thirty-one years of age, unmarried. His occupation was that of helper. He resided with his father on a small farm in West Salem Township, Mercer County. His mother died while he was an infant.

During the latter part of January, 1916, the body of one, John Christy, with several gunshot wounds, was found in an abandoned well on his farm and on February 11, 1916, his son, the applicant, seventeen years of age, was arrested and charged with the murder of his father. When he first entered his plea of guilty to the charge of murder, the Court, on November 3, 1916, determined the degree of guilt to be murder in the first degree and sentenced the applicant to suffer the death penalty. Subsequently, on October 16, 1917, the Court revoked the former sentence and imposed the prison sentence above stated.

The applicant, as already stated, was seventeen years of age when this crime was committed. A mental examination made at the time disclosed the fact that his mentality was that of a boy of eleven to twelve years of age. Sometime later, while he was confined in jail another mental test was made which showed that his mentality was improving, and that at that time he had the mental capacity of a normal boy of about thirteen years of age. Since his incarceration in the Penitentiary and under instruction he has rapidly developed and his mental ability now seems to be that of the average man of his age. At the trial there was some evidence as to cruelty on the part of the father, the defendant claiming that an injury to his chest was the result of a beating or kicking by his father.

The applicant has now been imprisoned since February 11, 1916, a period of fourteen years and seven months; one year and eight months in the County prison and twelve years and eleven months in the Penitentiary. He was never before charged with or convicted of crime.

There was filed with the Board a letter dated November 18, 1924, from Doctor W. W. Richardson, Medical Director of the Mercer Sanitarium, Mercer, Pennsylvania, in which he states that he had examined the applicant previous to his trial, and found him to be "a moron with a mental age of from eleven to twelve years. That being the case he was not fully endowed by nature as to his mentality and hence cannot be said to be fully responsible for his actions. In view of this fact I feel that a pardon at this time would be justifiable, assuming that his prison record has been good."

There was also filed with the Board a letter from Doctor McLaughlin, resident physician of the Rockview Penitentiary, dated February 14, 1930, in which he states that the applicant is in good general physical condition and that, "mentally also this man is apparently normal." There was also filed with the Board a letter from the trial District Attorney in which he

states, inter alia: "in my opinion Christy's application is more meritorious than any ever presented to your Board on behalf of a prisoner convicted during my term." He further states that in his judgment the applicant's mental deficiency was due to lack of ordinary parental care; that his mother had died in infancy; that his home life was dull and dreary and he did not develop normally; that he was quiet and well-behaved. He also states that he has received a number of letters from the applicant since his incarceration which indicates that he has developed to a remarkable degree.

Doctor Sandy, Director, Bureau of Mental Health, State Department of Welfare, by request of the Board made a mental examination of the applicant in June, 1930, and reported that the applicant has "normal general intelligence," and is "normal mentally," and recommends clemency.

In consideration of all the circumstances of this case; the extreme youth of the applicant when the crime was committed; his mental deficiency at that time; in consideration of his prior good record; the term of imprisonment already served; because of the strong recommendation of the trial District Attorney; the favorable report of the resident physician of the Penitentiary, and the recommendation of Doctor Sandy, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to twelve years and eleven months' imprisonment, effective on September 16, 1930.

We, therefore, "after full hearing upon due public notice and in open session," recommend the minimum sentence of imprisonment heretofore imposed on the said Fred Christy be commuted to twelve years and eleven months' imprisonment expiring on September 16, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 19 April Term, 1924, in the Court of Oyer and Terminer, in and for the County of Montgomery, Harold W. Dean pleaded guilty to murder in the second degree and on June 19, 1924, was sentenced by the Court to pay a fine of ten dollars, costs, and to undergo imprisonment in the Montgomery County Prison for a term of not less than ten years nor more than twenty years.

The applicant is a native born American citizen, twenty-nine years of age and unmarried. At the time of his arrest for the present offense he was employed at the Francis Freas Glass Works at Conshohocken.

At the time of the trial the voluntary confession of the applicant was filed. From it, it appears that the applicant met Louise Bruppacher about Christmas, 1921. She lived on her father's farm in Montgomery County. The applicant kept steady company with her until July, 1922. He then lived in Philadelphia for one year and spent week-ends at the Bruppacher farm. In September, 1923, he went to the farm to live. The girl became his fiancée. He learned that she was running around with other men. She and another girl named Becker visited the Montgomery Hotel with men. The applicant became jealous. Quarrels ensued between them because of this fact. Finally, on February 27, 1924, under an assumed name, he purchased chloroform in a drug store in Norristown. On February 28, 1924, after spending the evening at the Lyric Theatre with friends, he drove to the Bruppacher home at about 10:15 P. M. The applicant occasionally used chloroform. He went to bed and consumed half of the bottle. He then took the remainder of the chloroform to Louise's room. She

was awake. He remained there a while and during that time gave her the chloroform on a cloth, laying it on her nose and face. The room was dark and he did not know that she was dead when he returned to his own room. The next morning the girl was found dead. The applicant claims that he was under the influence of chloroform when he committed this crime and not responsible for his action.

The applicant has now served six years and three months of his term of imprisonment. He was never before charged with or convicted of crime. Employment by two respectable citizens has been offered him if he is released and a brother residing in New Jersey has offered him a home.

There was filed with the Board a number of letters recommending clemency. The Warden, Chaplain, Prison Physician and President of the Board of Prison Inspectors of the Montgomery County Prison certify to the applicant's good prison record and recommend clemency. Numerously signed petitions of citizens filed also recommend pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; and because of the recommendations of the prison authorities and others, and because employment and a home have been offered him if released, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to six years and three months' imprisonment effective on September 19, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Harold W. Dean be commuted to six years and three months' imprisonment expiring on September 19, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 55, November Sessions, 1925, in the Court of Oyer and Terminer, in and for the County of Allegheny, Oliver Ogden was convicted of voluntary manslaughter, and on April 30, 1926, was sentenced to pay a fine of one hundred dollars (\$100.00), costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than six years nor more than twelve years, effective February 20, 1926. At No. 56, November Sessions, 1925, in the same Court, the applicant was charged with involuntary manslaughter, but the indictment was not pressed on motion of the District Attorney, by reason of the applicant's conviction and sentence at No. 55, involving the same facts.

The applicant is a native-born citizen of the United States, almost twenty-nine years of age. He served in the United States Navy from September, 1917 to December, 1918. After his discharge from the Navy, he worked for the Carnegie Steel Company until March, 1920. In June of that year he went to Philadelphia and was employed at that city in the freight house, Thirtieth and Market Streets, at the time of his arrest. He is unmarried. His parents are upwards of sixty years of age.

On September 15, 1925, there was an election in progress throughout Allegheny County, and a warm fight ensued for the office of Burgess of Homestead, in which borough the applicant was employed at the time. Some time during the afternoon in the third precinct of the third ward of that borough a bitter fight developed between two opposing political factions. As a result, one Walter Gant, who was serving as

a deputy constable in the precinct was shot and taken to the hospital, where he died shortly after midnight. Three men were charged with the murder, to wit: Fred Squires, Leo Shelton, and the applicant. The two first named were tried and acquitted; but the latter was convicted. The applicant, accompanied by a group of men, went to the voting place and after an argument about voting there, the applicant, together with his companions, left the polls and returned about an hour later, at which time the shooting took place. About a week after the election, the applicant went to Ohio for a visit and was there arrested and brought back to Homestead to stand trial.

The applicant has served four years and seven months of his term of imprisonment. His prior record was good with a single exception. Before he went to Homestead he served a minimum term in the penitentiary for the crime of rape.

The applicant has steadfastly denied the murder and did not go to the polls with the expectation that there would be any serious trouble. He avers that his conviction was brought about through the testimony of those whom he opposed politically.

There was filed with the Board a number of letters addressed to counsel for the applicant from six witnesses, who appeared against him at the trial, in which they aver that the applicant, in their judgment, is innocent of the crime and that he was convicted on account of political animus. There was filed with the Board a numerously-signed petition of citizens of Homestead recommending clemency on the ground that the applicant is innocent of the crime; that his conviction was brought about through political animus, and that he has been sufficiently punished and will become a law-abiding citizen if released.

In consideration of all the circumstances of this case; the prior good record of the applicant with a single exception; the term of imprisonment already served; because his two co-defendants were tried and acquitted; because of the letters from six witnesses who appeared against him at the trial and the petition of citizens recommending clemency, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to four years and seven months' imprisonment, effective on September 30, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Oliver Ogden be commuted to four years and seven months' imprisonment, expiring on September 30, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WOODWARD,  
Secretary of the Commonwealth.

CYRUS E. WOODS,

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 48, 49, 50, 51 and 52, October Sessions, 1928, in the Court of Quarter Sessions of the Peace in and for the County of York, Sterling Ruth pleaded guilty to five indictments charging him with larceny, receiving stolen goods, fraudulently making a written instrument, and uttering and publishing a forged instrument, and on November 26, 1928, was sentenced by the Court in the aggregate to pay a fine of \$125.00, costs, and to undergo imprisonment in the Eastern State Penitentiary for a term of not less than three years nor more than six years.

The applicant is a native-born citizen of the United States, twenty-four years of age. He is married and has three chil-

dren. At the time of his arrest he was employed as a laborer in the leaf tobacco warehouse of J. E. M. Walker, in the city of York. He held a responsible position.

In the fall of 1927, the applicant, then aged twenty-two years, was employed, as already stated, in and about the leaf tobacco warehouse of J. E. M. Walker, in the city of York. The former having been drinking intoxicants to excess for a number of days and while under the influence of liquor, stole from the office of Walker a watch and a number of blank checks. He subsequently filled out four of the said blank checks in various amounts, passed them upon different persons and received as the proceeds of the checks the sum of \$415.38, all of which with the exception of approximately \$86.00 he spent in a short time in an improvident manner. The money was partly used in making restitution to one of the prosecutors in these cases who had been victimized by the applicant. The applicant promptly admitted his guilt.

The applicants' family is in destitute circumstances and requires his support. He was only twenty-two years of age when these crimes were committed.

The applicant has now served one year and ten months of his term of imprisonment. He was never before charged with or convicted of crime except that when a boy thirteen years of age he was sentenced to Glen Mills for larceny.

There were filed with the Board letters from the trial Judge and trial District Attorney in which both recommended clemency. The present District Attorney has filed with the Board a letter in which he states that he does not believe the applicant to be an habitual criminal and that he is not likely again to violate the law and hence has no objection to a pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant (with a minor exception); his comparative youth when the crime was committed; the term of imprisonment already served; because his family consisting of a wife and three children are in destitute circumstances and require support, we are of the opinion that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and ten months' imprisonment, effective on September 26, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Sterling Ruth be commuted to one year and ten months' imprisonment, expiring on September 26, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,  
Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 59, March Sessions, 1929, and 73, April Sessions, 1929, in the Court of Quarter Sessions of the Peace in and for the County of Allegheny, Harry Fink, was convicted of pandering, and conspiracy, and on June 14, 1929, was sentenced on the charge of conspiracy to pay a fine of one dollar, costs and to undergo imprisonment in the Allegheny County jail for a period of six months. Sentence was suspended on the charge of pandering and the applicant was placed on probation for two years. On August 23, 1929, the applicant was paroled for four years and on August 30, 1929, he was paroled for one year as to Stella Jones, who was a co-defendant with him in both indictments.

The applicant is a native-born citizen of the United States, thirty-one years of age. By occupation he is a clerk and at the time of his arrest he was employed as a private detective. The present address of the applicant, who is out on parole, is 1208 Hazel street, Pittsburgh. While the applicant is married he is not living with his wife, she having left him on account of these charges.

The applicant for a number of years prior to his arrest was a private detective operating out of the office of John Verona, an Alderman of the city of Pittsburgh. At the time of his arrest there was much political disturbance and turmoil in that section of the city. Betty Melton, an inmate of an alleged disorderly house, was arrested by the police. She made a statement involving the applicant claiming that he had previously secured her release from the work-house and had told her to return to the alleged house of prostitution conducted by one, Stella Jones. She, however, did not return to this place. She also stated that at one time she had seen Stella Jones give the applicant money which by inference was for protection. There was no corroboration of her story and she was the only witness. The political faction to which the applicant belonged at that time was at odds with the city police. The applicant was indicted with Stella Jones and charged with pandering. Later he was indicted under the same set of facts with Stella Jones and Alton Cotman charged with conspiracy to pander. The first trial resulted in a disagreement of the jury. At the second trial Cotman, Stella Jones and the applicant were found guilty. The applicant, as already stated, was sentenced to undergo imprisonment in the Allegheny County jail for a period of six months but later was paroled by the Court for two years.

The applicant after serving his jail sentence was discharged on parole. His prior record was good. While he was once charged with a violation of the National Prohibition Act in the Federal Court in Pittsburgh the case was not pressed by the District Attorney.

It was shown at the trial that Betty Melton was a prostitute before she ever met the applicant; that she did not go to Stella Jones' house after she says the applicant told her to go there; that neither the applicant nor Stella Jones received one penny of the twenty-two dollars charged in the indictment.

There was filed with the Board a number of letters recommending clemency from the chief City Detective, the Register of Wills, chief Probation Officer, the Warden of the City Prison, Representatives Marcus and Lynch, Prothonotary Vogt, Controller Woodside, Deputy Recorder Costello, Congressman Estep, Coroner McGregor, and others.

There was filed with the Board a letter from the present District Attorney in which he states that he has had occasion to observe the applicant's conduct since his parole and believes that his personal habits and activities have been those of a law-abiding citizen. The trial District Attorney has also filed with the Board a letter in which he states that the applicant's conviction was based "almost entirely on the testimony of the Melton girl, who did not impress me as being a particularly truthful witness. There is no doubt that the prosecution against Fink was prompted to a greater extent by reason of a factional political fight in his ward, as he was somewhat of a stormy petrel in politics. I believe the ends of justice would be met by granting this pardon." The trial Judge in his letter filed with the Board states that the applicant's conviction was brought about by the testimony of a "girl of apparently very low character. There is no doubt that politics had something to do with the prosecution." He concludes by saying that in view of the testimony presented at the trial and the letters of recommendation, "a pardon granted to him would be entirely satisfactory to me as trial Judge."

In consideration of the circumstances of this case; the grave doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; his good conduct on parole, and because of the favorable attitude of the present District Attorney and the recommendations of county officers, the trial District Attorney and trial Judge, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said Harry Fink.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
CYRUS E. WOODS,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 49, December Sessions, 1922, in the Court of Quarter Sessions of the Peace in and for the County of Centre, E. C. McFeaters pleaded guilty to an indictment containing five counts, charging him with falsely, fraudulently and unlawfully uttering and publishing a certain school bond which he knew to be forged and counterfeited with intent to cheat and defraud, and on January 18, 1929, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than five years nor more than ten years; sentence to be computed from January 7, 1929. The concrete offense for which he was convicted and sentenced consisted in selling to the First National Bank of Spring Mills, Centre County, five \$1,000 bonds, which has been forged by him, whereby the bank was defrauded of a certain sum of money.

The applicant is a native-born American citizen, forty-two years of age, unmarried, and his occupation was that of a bond salesman employed by Lyon, Singer Company of Pittsburgh. He resided in that city.

The applicant previously was charged with the crime of false pretense and forgery in Blair County, Pennsylvania, and on January 7, 1924, pleaded guilty thereto and was sentenced by the court to a term of not less than five nor more than ten years in the Western Penitentiary. In January, 1929, upon the expiration of his minimum term of imprisonment, he was paroled and taken to Centre County for trial for the offense for which he is now seeking pardon.

The applicant has now served one year and nine months of his term of imprisonment. His aged father is in declining health and is dependent upon him for support.

There was filed with the Board, a number of letters recommending clemency from the President and Treasurer of Prescott Lyon and Company, Pittsburgh, W. H. Singer of Lyon, Singer Company of Pittsburgh, the Comptroller of State College, the first vice-president of the City Deposit, Bank and Trust Company of Pittsburgh, and others. There was also filed a letter from the trial District Attorney of Blair County (now President Judge) in which he states that the Blair County Court, when it imposed sentence, knew that several prosecutions had been instituted in Blair County against the applicant for similar offenses.

The trial District Attorney of Centre County, in a letter filed with the Board, recommends clemency. The trial Judge in Centre County has also filed a letter with the Board, in which he states that the ends of justice have been met by the applicant on the sentence which is made the basis on the present application for pardon.

In consideration of all the circumstances of this case; the term of imprisonment already served; because his aged father requires support; because of the many letters filed with the Board recommending clemency, particularly the letters of the trial District Attorney and trial Judge, we have concluded that the applicant has been sufficiently punished and if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said E. C. McFeaters.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 53 to 68, both inclusive, December Sessions, 1925, in the Court of Oyer and Terminer in and for the County

of Philadelphia, Frank Fisher pleaded guilty to sixteen indictments charging him with robbery being armed with an offensive weapon, assault and battery with intent to rob, larceny of an automobile, and conspiracy to rob, and on April 30, 1926, was sentenced on No. 53 to pay costs, and to undergo imprisonment in the Eastern State Penitentiary for a term of not less than six years nor more than twelve years.

The applicant is a native-born citizen of the United States. At the time of his arrest he was only sixteen years of age, and was employed as a clerk in the office of the Pennsylvania Railroad Company.

On the afternoon of October 19, 1925, between the hours of 2:00 and 3:00 o'clock, five milkmen were held up and robbed, in the northern section of Philadelphia by three young men, masked, and money to the amount of about five hundred dollars (\$500.00) was taken. The method used by these men in all instances except one was to drive an automobile, in which they were riding, in front of the milkman's horse, and when the horse would stop, they would jump out of their car, run up to the driver, point a pistol at him, and demand his money. In one instance, they got out of their car and ran up to a doorstep where a milkman was standing, and, pointing a pistol at him, demanded his money.

An investigation of these crimes caused the police to suspect John Green, John O'Rourke, and the applicant, who had frequented a certain house located at Twelfth and Montgomery Streets. Fisher was first arrested while walking on the street. Shortly thereafter the officers attempted to enter the house referred to and Green and O'Rourke, who were in the house, fired at the officers. The officers returned fire, killed Green, and captured O'Rourke. A number of bills of indictment were found against both O'Rourke and the applicant. While the applicant when brought to trial pleaded guilty, O'Rourke stood trial and was convicted. Both received the same sentence upon the first indictment charging robbery, being armed with an offensive weapon.

The applicant has now served four years and five months of his term of imprisonment. He was never before charged with or convicted of crime. He was only sixteen years of age when the present crimes were committed.

There was filed with the Board a number of letters of Samuel R. Boggs, President of the Board of Trustees of Eastern State Penitentiary, in which he strongly recommends clemency and offers to become sponsor for the applicant's future good conduct.

In consideration of all the circumstances of this case; the extreme youth of the applicant when these crimes were committed; his prior good record, and because of the fact that Samuel R. Goggs, President of the Board of Trustees of Eastern State Penitentiary, strongly recommends clemency and offers to become sponsor for the applicant's good conduct, we have concluded that he has been sufficiently punished, and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing and upon due public notice and in open session," recommend that a pardon be now granted to the said Frank Fisher.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 23, May Sessions, 1928, in the Court of Quarter Sessions of the Peace in and for the County of Clearfield, Alvin

Gustafson alias Bowser Gustafson was convicted of statutory rape, adultery, and bastardy, and on May 17, 1928, was sentenced by the Court to pay a fine of \$200.00, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than three years nor more than six years.

The applicant is a native-born citizen of the United States, thirty-six years of age. He has a wife and three children. At the time of his arrest he was working as a coal miner in the vicinity of Bannion, Clearfield County, where he resided with his family.

On June 16, 1927, the wife of the applicant left home to attend the funeral of her sister-in-law. She arranged with Mary Zimmerman to look after the children and to attend to the household duties during her absence. The latter remained there two days, left and did not return. On the third day the applicant went to her home to make inquiries concerning her, but could not find her. The Zimmerman home is near where reside Mr. and Mrs. Hamilton whom the applicant had known for several years. The latter went to see them to ask them to permit their daughter, Anna, to come to his home and look after the children during his wife's absence. The parents consented. The applicant and Anna Hamilton went to his home in the afternoon. That night Anna Hamilton slept on a cot in the bedroom where two of the children slept, while the applicant slept in the bedroom with his youngest child. Anna Hamilton alleges that after she had gone to bed the applicant entered her bedroom and forcibly assaulted her. The applicant admits that he entered the room for the purpose of lowering the open window, but denies the assault. The following morning Anna Hamilton prepared the applicant's breakfast. His wife returned the same evening with a group of relatives. No complaint was made about the alleged assault. Anna Hamilton remained a second night, sleeping with the applicant's wife and sister. The following day she returned home. This assault took place on June 19, when the girl was under sixteen years of age. On July 13, Anna Hamilton returned to the applicant's home stating that her mother sent her to inquire as to the health of her aunt. The applicant was not at home when Anna came but returned later in the day when the girl alleged that he committed a second assault upon her. This the applicant denied. Three months later the girl's mother noticed that she was pregnant and the latter then, for the first time, named the applicant as responsible for her condition. Information was made against him on December 1, 1927, and the following March Anna Hamilton gave birth to a child naming the applicant as its father. The latter has steadfastly denied his guilt.

The applicant has now served two years and four months of his term of imprisonment. He was never before charged with or convicted of crime. During his incarceration his wife and children have become destitute. The children are in a home in Clearfield while the applicant's wife resides with relatives in Detroit, Michigan.

There were filed with the Board two letters from the assistant trial District Attorney (who is the present District Attorney). In the first letter he states that he does not oppose the application for pardon because the evidence on behalf of the Commonwealth rested entirely upon the testimony of the prosecutrix, "whose manner was not convincing." In the second letter, written last April, he states, *inter alia*, that he "did not like the attitude of the prosecutrix \* \* \* and had no faith in her veracity. This was based on the fact that she was a very unwilling witness and refused to assist this office in any way in the prosecution of the case. This was not through any bashfulness on her part." District Attorney Edwards in office at the time of the conviction appeared in person before the Board and verbally recommended pardon.

In consideration of all the circumstances of this case; the grave doubts as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the fact that the applicant's wife and children are in destitute circumstances and require his support; because of the favorable attitude of the assistant trial District Attorney and the recommendation of the former District Attorney, we have concluded that the applicant has been sufficiently punished and if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice

and in open session," recommend that a pardon be now granted to the said Alvin Gustafson alias Bowser Gustafson.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 8, 9, 10, 11 and 12, January Sessions, 1928, in the Court of Quarter Sessions of the Peace in and for the County of York, Harvey B. Test, alias Harvey Test, was convicted of larceny and receiving stolen goods, and on January 6, 1928, was sentenced in the aggregate to pay a fine of one hundred twenty-five dollars (\$125.00), costs, and to undergo imprisonment in the Eastern State Penitentiary for a period of not less than four years nor more than eight years.

The applicant is a native-born American citizen, thirty-four (34) years of age. At the time of his arrest, he was engaged in the business of painting automobiles.

The applicant, as before stated, was a brush painter, working on automobiles. About July, 1928, ducoing or spraying automobiles became the popular method of painting cars. His business declined and finally he closed out. During the time of idleness, he became acquainted with Walter Langhein and Elmer Langhein, brothers, and Monroe Spangler, and drank to excess. Certain goods were stolen from the cars of the Western Maryland and Pennsylvania Railroad companies, and the applicant was jointly indicted in different cases with the Langhein brothers and Spangler. Elmer Langhein and Monroe Spangler have never been apprehended. Walter Langhein was tried, convicted, and sentenced for his part in the larcenies.

The applicant claims that he may have unknowingly received stolen goods while under the influence of liquor, but has no definite knowledge. He is divorced from his wife and has one child who is dependent on him for support. Employment has been offered him by Earl R. Sollenberger, who is the manager of the Palace Garage, in the city of York, and by P. C. Wilson, a contractor, of Lancaster.

The applicant has now served two years and nine months of his term of imprisonment. He was never before charged with or convicted of crime. In 1916 he was indicted for the crime of assault and battery but the Grand Jury ignored the bill and placed the costs upon the prosecutor.

There was filed with the Board a number of letters recommending clemency; also a petition signed by thirty-one citizens. The Deputy Warden of the Penitentiary certifies that his prison record is good. Letters were filed by officers of the two railroad companies in which they state that they have no objection to a pardon. The trial District Attorney has filed with the Board a letter in which he recommends clemency, stating that the applicant was a tool used by the Langhein brothers, and that the Court imposed "rather severe sentences" on him. The trial Judge in a letter filed with the Board recommends clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because two of his co-defendants have never been brought to trial; because employment has been offered him if released; because his child requires support, and more particularly because of the favorable recommendations of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished and that if now released, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice

and in open session." recommend that a pardon be now granted to the said Harvey B. Test, alias Harvey Test.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 42, June Session, 1929, in the Court of Oyer and Terminer, in and for the County of Allegheny, Peter Sevanstonk pleaded guilty to an indictment charging him with statutory rape, and on July 3, 1929, was sentenced by the court to pay a fine of six and one-quarter cents, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than two and one-half years, nor more than five years.

The applicant is a native of the United States, eighteen years of age and has resided in Duquesne, Allegheny County, all his life. Prior to the time of his arrest for the present offense, he was a student in the Junior High School in Duquesne and after school hours and during the summer vacation was employed in the grocery store of Jacob Barsky, Duquesne, and was so employed at the time of his arrest.

On the evening of June 16, 1929, the applicant who was only sixteen years of age, met his friend, John Paylo, twenty years of age, who told him that if the applicant could borrow a machine, they would go out riding. The applicant borrowed a machine and first took John Paylo home where the latter dressed and then said he was going to invite a girl he knew to ride with them. The defendant and his brother, John Sevanstonk, waited in Paylo's house until he came back. With Paylo in the car there were three girls, one of whom was Irene Hoblack, under sixteen years of age. The applicant at first refused to go out driving with them, but was finally persuaded by Paylo to accompany them. The applicant with his brother John, John Paylo and the three girls drove the car to the reservoir located at Duquesne View, in Duquesne, Pennsylvania. The applicant, his brother and two girls stepped out of the car, walked away and did not return until half an hour later. Paylo then bought the girls candy and ice cream and took them home. The following day the applicant and Paylo were arrested and committed to jail on the charge of statutory rape, Irene Hoblack being the accuser. At the trial the applicant was not represented by counsel and had no legal advice. He pleaded guilty and was sentenced as above set forth. Paylo also pleaded guilty and received a like sentence.

The applicant has now served one year and two months of his term of imprisonment. He was never before charged with or convicted of crime. He was only sixteen years of age when the alleged offense was committed. Employment has been offered him if released, by Jacob Barsky, a former employer who certifies that the applicant had worked for him about two years and was a satisfactory employe.

There was filed with the Board the affidavit of John Sevanstonk, the brother of the applicant, in which he states with reference to the offense charged, that when they drove to the reservoir, the applicant drove the car; that everybody except John Paylo and Irene Hoblack (who were cousins) stepped out of the car and walked around, returning half an hour later when they drove back home; that the applicant was not alone with Irene at any time and that nothing happened to any of the girls when all were together. There was also filed with the Board a letter from the District Attorney of Allegheny County, in which he states he does not know the reason why the sentencing Judge failed to distinguish between the younger defendant (the applicant) and the older defendant in the sentence which was passed upon them. He

adds: "I have seen the affidavits which the applicant is filing with your Honorable Board and I have no evidence to the contrary of these affidavits. From what I can learn of the case, I believe this young defendant has been sufficiently punished and I will therefore recommend a pardon be granted."

There was also filed with the Board two affidavits in which the affiants aver that on September 15, 1930, in the office of the Holy Trinity School, Irene Hoblack in their presence, stated that the applicant did not harm her, and was not in the car; that her cousin, John Paylo, was guilty of the offense charged, while the others were absent.

In consideration of all the circumstances of this case; the extreme youth of the applicant; his prior good record; the term of imprisonment already served; because of the affidavits filed, establishing the innocence of the applicant, and because the present District Attorney of Allegheny County recommends clemency, we have concluded that the applicant has been sufficiently punished and if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session." recommend that a pardon be now granted to the said Peter Sevanstonk.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., September 24, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 52, September Sessions, 1927, in the Court of Quarter Sessions of the Peace in and for the County of Columbia, Theodore McHenry pleaded guilty to an indictment charging him with breaking and entering, and larceny, and on August 22, 1927, was sentenced by the Court to pay a fine of \$400, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, twenty-seven years of age, and unmarried. He is a car builder by occupation and at the time of his arrest lived with his father and sister at Berwick, Pennsylvania, and was employed by the American Car and Foundry Company in Berwick.

On or about August 12, 1927, Clarence Markle, Morris Stout and the applicant were together on the streets in Berwick. It was evening. They had been drinking. Coming to the Elks Building, the applicant and his companions entered the building without any well-defined intention of doing anything. Seeing a small safe they found a screw driver and easily forced the safe open, taking therefrom an amount approximating \$580.00. All three men were arrested and pleaded guilty to the charge and received a like sentence.

The applicant has now served three years and one month of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board a letter from Harry E. Davis, residing at Forks, Columbia County, in which he offers to give the applicant employment if released. There were also filed with the Board letters from the trial Judge and the District Attorney, in which both recommend clemency on the ground that the applicant has been sufficiently punished for his crime.

The vice-president of the Berwick Store Company, in a letter filed with the Board, states that the applicant was employed in their department store for almost one year and that his record with them was good.

In consideration of all the circumstances of this case; the term of imprisonment already served; the prior good record of the applicant; the fact that employment has been offered him if released; and the further consideration of the fact

that the trial Judge and District Attorney both recommend clemency on the ground that the applicant has been sufficiently punished, we have concluded that the ends of justice have been met and that if now released the applicant will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Theodore McHenry.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 117, May Sessions, 1919, in the Court of Oyer and Terminer, in and for the County of Allegheny, Orazio Baldino pleaded guilty to an indictment charging him with murder, the degree of which was subsequently adjudged to be murder in the second degree, and on October 28, 1919, was sentenced by the Court to pay a fine of six and one-fourth cents, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than fifteen years nor more than sixteen years.

The applicant is an Italian by birth and allegiance, forty-two years of age and unmarried. At the time of his arrest he was employed as a foreman at the Jones and Laughlin Steel Pipe Mills, Pittsburgh.

On February 23, 1919, at about 6:40 P. M. the applicant entered the residence of Mrs. Concetta Plumbo and shortly thereafter a bullet which was discharged from a 32 caliber revolver carried by him, passed through the brain of Camillo Plumbo, a boy aged eleven years, causing instant death.

The applicant was a peaceable and law-abiding citizen of good repute. He had worked his way from laborer to the position of foreman in the plant in which he had been employed for four years. He had but one failing; he became intoxicated almost every pay day. About four years before the tragedy, the applicant while rooming at the Plumbo home, kept company with Mary Plumbo, who was then fourteen years of age. The courtship continued for about two and one-half years when it was broken up and the applicant moved to another lodging house. The parties, however, continued on good terms, except for occasional disagreements. Mary Plumbo testified at the trial that on various occasions the applicant had called her opprobrious names. She also testified that on the Saturday before the shooting he had shown her the revolver and threatened to kill her because she was keeping company with another man, and gave the revolver to her upon her promise to marry him. Mrs. Tini in whose presence this alleged conversation took place contradicted Mary. She testified that Mary has asked the applicant to loan her money to assist her in making restitution for goods which she had stolen from the store wherein she was employed. The applicant stated that he had no money and emptied his pockets to demonstrate the truth of his statement. When he took out the gun, Mary asked him why he carried it and he explained that he had received letters from black-hands demanding money and he carried the revolver for protection. This was corroborated by the Commissioner of Police who testified that a nurse at the hospital handed him the letter in question when she found it in the applicant's clothing and that it was a black-hand letter. The applicant had been drinking the entire day of the tragedy; he began in the morning and by six o'clock he was intoxicated. He went first to the Tini home and then went to the Plumbo home adjoining. He entered the kitchen where Mary Plumbo and the man who was Mary's fiancé at the time and who afterwards became her husband, and Camillo Plumbo, were seated at the table. Near a fire

sat three boarders. Mrs. Plumbo was near the stove cooking. The stories of the witnesses as to what then transpired do not agree. The Commonwealth showed that Mrs. Plumbo ordered him out of the house and thereupon the revolver was discharged and the boy killed. A fair statement of the circumstances is as follows:

When the applicant entered the kitchen, Mrs. Plumbo shouted, "Get out of here," and assaulted him with a rolling pin thirty inches long and six inches in circumference. She struck him a blow on the head, which caused him to bleed profusely, and it was after this blow that the fatal shot was fired. Mary's fiancé also joined in the attack and during the scuffle another shot was fired, which lodged in the applicant's leg. Shortly after the shooting, the applicant was arrested. He made no effort to escape. He was taken first to the Police Station and then to the hospital, where his injuries were treated. He told Mary that he was sorry for what had occurred and that he had not intended harming anyone and did not know why he went there. The Commonwealth failed to produce the three boarders as witnesses and the applicant was unable to locate them subsequently. None of the witnesses saw the applicant draw his gun nor did they see him fire it. The firing of the second shot is also obscure. When the affray was over, the gun was found in the hands of Mary's fiancé and not in the hands of the applicant.

The applicant has now served eleven years of his term of imprisonment. He was never before charged with or convicted of crime. There was filed with the Board a letter from the trial Assistant District Attorney, who now resides in Florida. He states: "In view of the extenuating circumstances of this case, I believe that the ends of justice would be served by granting the prayer of the petition." The present District Attorney's office has filed with the Board a letter in which they state that inasmuch as the applicant has served more than ten years of his sentence, they offer no objection to his pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; because of the recommendation of the trial District Attorney and the favorable attitude of the present District Attorney, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to eleven years' imprisonment, effective on October 28, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Orazio Baldino be commuted to eleven years' imprisonment, expiring October 28, 1930.

Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 12-139, June Sessions, 1916, in the Court of Oyer and Terminer in and for the County of Fayette, Dan Plumbo was convicted of murder in the second degree, and on June 24, 1916, was sentenced by the Court to pay a fine of six cents, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than sixteen years nor more than twenty years.

The applicant is a native of Italy, thirty-nine years of age, and owes allegiance to the Government of Italy. He is unmarried, an electrician by occupation, and worked in the mines at Uniontown, where he had resided for seven years prior to his conviction on the present charge.

The applicant lived in a suburb of Uniontown and worked in the coal mines in that vicinity. He and two or three others usually spent their evenings together drinking and playing cards. One evening an argument arose between the applicant and a man named Conteen. The latter struck the applicant and the blow was returned. Some time later the applicant was leaving a store in the neighborhood, with his arm full of groceries. When he stepped out of the door he was attacked by four men, one of whom was Joseph Conteen, a son of the man with whom the applicant had quarreled previously. These four men beat the applicant with a pick handle. Some time later the applicant met Joseph Conteen, the son, on the street. The latter tried to beat the applicant, and being much larger in size he was succeeding when the applicant reached in his pocket and secured a small penknife with which he tried to defend himself. During the melee the applicant stabbed Conteen. The latter was taken to the hospital and died four days later.

The applicant has now served fourteen years and four months of his term of imprisonment; he was never before charged with or convicted of crime; his prison record is good, as appears from a letter, from the Warden of the Penitentiary, on file.

There was filed with the Board a letter from the trial Judge in which he states, *inter alia*, "I do not know what the applicant's behavior has been while in confinement. If it has been good, and if by any action of your Board he could now be made eligible for parole, the minimum period having been changed since he was sentenced, I know of no reason why such action should not be taken. It would seem fair and just."

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; his excellent prison record; and because of the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to fourteen years and four months' imprisonment effective on October 24, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Dan Plumbo be commuted to fourteen years and four months' imprisonment, expiring on October 24, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. and 5, May Term, 1922, in the Court of Oyer and Terminer, in and for the County of Washington, Gaetano Cimicata pleaded guilty to murder in the second degree, in both cases, and on May 10, 1922, was sentenced by the Court in the aggregate to pay a fine of \$2.00 costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than twelve years, nor more than twenty years.

The applicant is a naturalized citizen of the United States of Italian birth, fifty-one years of age and a coal miner by occupation. At the time of his arrest he was employed in the mines of the Duquesne Coal and Coke Company at Avella, Washington County.

The applicant was married in Italy in February, 1906, while on a visit. At the time of the commission of the offenses he resided with his wife and their five children, aged fourteen, twelve, nine, six, and four years, respectively, with two or three boarders, including Sam or Saverio Massa, in a coal

company house of four rooms in Avella, Washington County. Massa had lived with the family for several years before the commission of the offenses. The applicant did not want to keep boarders any longer and ordered Massa to leave his home, but the applicant's wife insisted upon Massa's return. He had been told of improper conduct between his wife and Massa and when he told her she said she did not care for him (the applicant) any longer. She consulted a lawyer about securing a divorce, but did nothing more. This was within two months of the commission of the offenses. Applicant's wife finally forced him to leave his home, at the point of a gun, she and Massa possessing two guns. Massa and the wife frequently had made threats to kill the applicant. On different occasions Massa, who was larger, attacked, beat and kicked the applicant.

Some weeks prior to the commission of the offenses the applicant was told by his wife's brother that she and Massa had made many threats to kill the applicant and then and there gave him a revolver with which to defend himself. Shortly before the commission of the offenses, applicant was informed that Massa tried to rape applicant's daughter Lena, aged fourteen years. After he was put out of his own home he was informed that Massa had kicked and beaten his daughter Lena and that Lena was ill. On the date of the tragedy, the applicant came to Avella and went to a squire's office to be advised how to get his daughter away from the house where Massa lived with the wife and was informed that he would have to go to Court. Applicant then went to the school to see his children, and his son Frank after hugging and kissing him, showed him a big lump on his head where Massa had struck him and informed the applicant that Massa had hit, kicked, beaten and choked all of the children, and that Massa and the wife were going to kill him.

While the applicant was walking on the road, Massa and his nephew came towards him. They both caught hold of the applicant and Massa reached into his pocket where he was in the habit of carrying a gun. When he did so and while the three of them were struggling, applicant pulled his gun, shot and killed Massa. A gun was later found in Massa's pocket. Applicant then went a short distance to where his wife resided. When she saw him at the door he said to her: "I have shot Sam, tell me if you care?" She screamed and said: "You dirty dog, you kill my Saverio," and scratched and bit him. As he knocked her from him she fell but got up and ran toward the bed where she kept her revolver. As she put her hand toward the pillow where the applicant knew she kept the revolver, he shot and killed her. After the killing, he took his children to the squire's office, told the squire what he had done and was taken to jail.

The applicant has now served eight years and five months of his term of imprisonment. He was never before charged with or convicted of crime. Four of his children who are under age, are now living with his oldest girl, aged twenty-one years, who is married and has two small children of her own and all are in destitute circumstances and require his support.

There were filed with the Board letters from the trial Judge and trial District Attorney recommending a rehearing. The Judge states: "The circumstances in this case were most extenuating. Had the Ludlow Act been in effect, I am quite sure that my minimum sentence would not have exceeded the period already served by the defendant. I therefore recommend that the prayer of the defendant's petition for rehearing be granted." The trial District Attorney in a letter filed with the Board, states: "After discussing this case with the trial Judge, I also join in recommending that the defendant be given a rehearing on his application for pardon."

In consideration of all the circumstances of this case; the prior good record of the applicant, the long term of imprisonment already served; the destitute condition of his family, which requires support, and because of the favorable attitude of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to eight years and five months' imprisonment, effective on October 10, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Gaetano

Cimicata be commuted to eight years and five months' imprisonment, expiring on October 10, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 142, February Sessions, 1925, in the Court of Oyer and Terminer, in and for the County of Luzerne, Louis Brass was convicted of arson, and on June 14, 1926, was sentenced by the Court to pay a fine of four thousand dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than ten years nor more than twenty years.

The applicant is a Hebrew and at the time of his arrest was thirty years of age. He is a native-born citizen of the United States, a merchant and has a wife and three children living. His place of residence was the City of Wilkes-Barre.

On November 25, 1924, the applicant was conducting a furniture and housefurnishing store in said city. The building has two stories, the upper story of which was occupied by the applicant and his family as living quarters. About two o'clock in the morning of that day fire was discovered in the basement of the building. After the fire was extinguished evidence of incendiarism was found upon the premises. The applicant alleged that he went to New York City the night before the fire, returned to Wilkes-Barre the day after the fire when he was arrested for arson. He produced many witnesses to show his absence in New York City at the time and denied all knowledge of, or complicity in the fire.

The applicant has now served four years and four months of his term of imprisonment. He was never before charged with or convicted of crime. His family, consisting of a wife in delicate health and three children, aged fourteen, eleven, and five years, respectively, are the recipients of charity.

There was filed with the Board a petition for clemency signed by eleven of the jurors who convicted him. There was also filed with the Board a letter from President Judge Fuller, in which he states that while he never recommends pardon, nevertheless, he believes that clemency might well be exercised in the present case. There were also filed with the Board letters recommending clemency from the Chief of Police, Chief of the Fire Department and Mayor of Wilkes-Barre, Senator Sordoni, and other prominent citizens. There was also filed with the Board a letter from the prison physician in which he states that the applicant has been in ill health for the past two years and that the confinement is injurious to his health.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; the need which his family has of support; because of the impaired health of the applicant, and the favorable recommendations of Judge Fuller, Mayor Hart, Senator Sordoni, eleven jurors, and others, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to four years and four months' imprisonment effective on October 14, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Louis Brass

be commuted to four years and four months' imprisonment expiring on October 14, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2, October Sessions, 1923, in the Court of Quarter Sessions of the Peace in and for the County of Franklin, Charles H. Coover pleaded guilty to an indictment charging him with embezzlement, and on September 25, 1923, was sentenced by the Court to pay a fine of fifty dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than three years nor more than six years. Pursuant to said sentence the applicant served his minimum term of imprisonment and was discharged on parole on September 25, 1926.

The applicant is a native-born citizen of the United States, fifty-one years of age. He has a wife and four children and formerly resided in Waynesboro, Pennsylvania.

The applicant taught in the public schools for seven consecutive school terms and was then a rural mail carrier until 1905. He then taught another year. He then entered the employ of the Landis Tool Company, Waynesboro, as a clerk in the Cost and Time Department and after serving one month was placed in charge of said department and remained there until December, 1906, when he became bookkeeper for the Farmers and Merchants Trust Company, Chambersburg, and after three months became teller of said company and served as such until January, 1918, when he resigned to become secretary and treasurer of the Waynesboro Trust Company, Waynesboro, and served there continuously until June, 1923, at which time he resigned. The directors of the company discovered a shortage in its securities and when the matter was submitted to the applicant (who was secretary and treasurer of the company), he immediately admitted that there was a shortage and assumed full responsibility. He not only made a complete confession of his guilt, but rendered every possible assistance to the State Banking Department in straightening out the affair. The shortage proved to be \$183,393.65. The applicant surrendered his entire estate amounting to \$50,491.25 and the Trust Company received insurance amounting to \$120,746.45 leaving a net deficit to said company of \$12,155.95.

The applicant served his minimum sentence as before stated. After his discharge on parole he held a clerical position in the Treasurer's Department of the Frick Company of Waynesboro until March, 1930, when he returned to engage in outdoor work and now conducts a chicken farm in Maryland.

The present application for pardon was filed September 6, 1927, and refused by the Board at the October Sessions, 1927. The Board, of its own motion, reconsidered its former action at the regular meeting held this day.

With the original application were filed letters from the trial Judge and trial District Attorney, in which they recommend clemency. Also letters from the president of the Farmers and Merchants Trust Company (of which the applicant was teller), the president and vice president of the Waynesboro Trust Company (of which the applicant was secretary and treasurer at the time of the defalcation), and from two directors of the last named company, all recommending clemency.

Recently, additional letters from the following were filed with the Board certifying to the applicant's exemplary conduct since his discharge on parole and recommending clemency: the vice president and general manager of the Frick Company, the trial Judge, trial District Attorney, president of the Landis Tool Company, vice president of the Frick Com-

pany, vice president of the First National Bank and Trust Company of Waynesboro, and the president of the Farmers and Merchants Trust Company of Chambersburg, and president of the Landis Machine Company.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his exemplary conduct since his discharge on parole; and because of the recommendations of prominent citizens of Franklin County, including the trial Judge, trial District Attorney and officers of the institutions with which the applicant had been formerly connected, we have concluded that the applicant should now be granted an absolute pardon whereby he may resume all of his civil rights and privileges.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said Charles H. Coover.

ARTHUR H. JAMES,  
Lieutenant Governor

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 87, April Sessions, 1927, in the Court of Quarter Sessions of the Peace in and for the County of York, William Hamilton pleaded guilty to an indictment charging him with breaking and escaping from the York prison, and on July 5, 1927, was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than one year nor more than two years; to commence at the expiration of sentence at Nos. 70 and 71, January Sessions, 1919, on two charges of rape (said sentence imposed March 17, 1919, being in the aggregate not less than ten years nor more than fifteen years).

The applicant is a native-born citizen of the United States; fifty-six years of age. His occupation at the time of his arrest in 1919 was that of storekeeper. He is unmarried.

The applicant was incarcerated in the York County jail as a prisoner of the Eastern Penitentiary. He served as a trusty in the jail and was occupying quarters in the warden's apartment. His duties were those of head runner, taking care of the lawn and doing odd jobs around the prison. He served in that capacity almost three years. The applicant's health was poor and he feared that he would die in prison. Doctor Cohen the jail physician gave him constant treatment for a heart affection. On the morning of November 16, 1927, the applicant disappeared by way of the back door of the warden's apartment. He was apprehended in New Jersey about five months later, where he was staying with his sister.

The applicant has now served ten years of his original minimum sentence on the charge of rape; he has also served one year and three months additional which is more than the minimum sentence on both charges. By reason of his escape he must serve the full maximum of fifteen years before the present sentence for breaking and escaping can begin. If pardoned of the breaking and escaping he will be eligible for parole for more than three years.

There was filed with the Board a letter from the trial Judge in which he recommends clemency; also a letter from the trial District Attorney in which he recommends pardon. The present District Attorney has filed a letter with the Board in which he states that he has no objection to a pardon.

In consideration of all the circumstances of this case; the long term of imprisonment already served; and because of the favorable attitude of the trial Judge and trial District Attorney, we have concluded that the applicant has been

sufficiently punished and that if now released will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said William Hamilton.

ARTHUR H. JAMES,  
Lieutenant Governor

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1189, 1190, 1191, 1192, 1193, 1194, 1195, and 1196, April Sessions, 1927, in the Court of Oyer and Terminer in and for the County of Philadelphia, Lewis Cohen, alias Lewis Cohen, II, pleaded guilty to eight indictments charging him with embezzlement by an officer of a corporation, fraudulent conversion, and forgery of endorsement on check, and on May 17, 1927, was sentenced by the Court in the aggregate on Nos. 1194 and 1195, charging forgery of endorsement on two checks, to imprisonment in the Eastern Penitentiary for a period of not less than four years nor more than twelve years. Sentence was suspended on the remaining bills of indictment.

The applicant is a native-born citizen of the United States, thirty-six years of age. His occupation at the time of his arrest was that of conveyancer and real estate broker and his place of residence was in the City of Philadelphia. He is unmarried.

The applicant had been conveyancer of four building and loan associations in Philadelphia, to wit: South Penn Building and Loan Association, Doris Building and Loan Association, Seventeenth Street Building and Loan Association, and the Home Building and Loan Association, which met monthly at his place of business, Seventeenth and Bainbridge Streets. He had several male and female employees and before and after the meeting nights of said associations stockholders were accustomed to pay their dues at the office, either to him or his employees. The record of payments by stockholders disclosed in many instances that moneys received and signed for by his employees and himself were not accounted for. When the applicant was arrested, after examination made by the State Banking Department, the above facts were disclosed. The amount of the shortages in all of the associations according to the examination approximated four thousand dollars (\$4,000.00). This sum represents moneys for the payment of dues which are embraced in bills of indictment Nos. 1189 and 1190. Indictments Nos. 1191 and 1193, which are familiarly known in legal circles as "Companion Bills," charged fraudulent conversion of the same moneys. Applicant pleaded guilty to all of the indictments.

The two bills of indictment upon which sentences were imposed covered the issuance of two checks of the South Penn Building and Loan Association in the amount of eight hundred dollars (\$800.00) and five hundred dollars (\$500.00), respectively, drawn on the Broad Street Trust Company on stock loans, on both of which checks the endorsements had been forged.

Bill of indictment No. 1196, covered the same sort of transaction as that embraced in the two bills on which sentences were imposed.

There was little testimony given at the trial. The only witness who testified was a representative of the Banking Department, who stated: "That they had discovered irregularities and shortages in the associations hereinabove mentioned."

The applicant made immediate efforts to make restitution and at the time of his trial he had made substantial restitution to all of the associations that suffered loss by reason of his alleged misconduct. Since the trial he has fully reimbursed everyone who was in any way injured by his misconduct.

The applicant has now served three years and five months of his term of imprisonment. He was also confined in the Philadelphia County Prison for a period of five weeks awaiting trial. He was never before charged with or convicted of crime.

The Board of Pardons at its regular meeting this day held allowed a rehearing and then reconsidered its former action in refusing the applicant's petition for a pardon.

There were filed with the Board a large number of letters recommending clemency. Joseph W. Salus, President of the Broad Street Trust Company, which cashed the two checks on which the endorsements were forged, formerly protested a pardon, but now urges clemency in a letter filed with the Board. Judge Knowles, of the Municipal Court of Philadelphia, urges the Board to give careful consideration to the application. Magistrate Henry, in a letter filed, recommends pardon. The officers of the Home Building and Loan Association, have filed with the Board a sworn statement indicating that full restitution has been made them for their losses. The treasurer of the South Penn Building and Loan Association also recommends pardon. The State Banking Commissioner, who had strongly protested a pardon orally informed a member of the Board that he no longer was interested in the case.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because full restitution has been made by the applicant whereby no loss has been sustained by anyone through his misconduct; because of the many strong letters of recommendation filed and the changed attitude of President Salus and the Banking Commissioner, we have concluded that the applicant has been sufficiently punished and that if now liberated he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Lewis Cohen, alias Lewis Cohen, II.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 139, November Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Luzerne, John Reilly and James Tigie, were jointly indicted and convicted of pandering, and on November 30, 1928, were sentenced as follows: Reilly, to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than three and one-half years, nor more than seven years; Tigie, to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than four and one-half years nor more than nine years.

At the time of their conviction and sentence applicant Reilly was twenty-nine years of age and applicant Tigie, thirty-five years of age. Both were of American birth and both had been employed by the Pennsylvania Coal Company. Applicant Reilly resided at Pittston and applicant Tigie, in West Pittston.

In August, 1928, applicant Tigie, who was working temporarily as waiter and cook in the Columbus Restaurant, Pittston, was approached by a patron of the restaurant, an Italian who first name was John and resided on Railroad Street, and offered a position as cook and waiter in the Palace Restaurant at Plainsville, Luzerne County. This restaurant was owned by Peter Defont, Joe Mangione, and John the Italian whose last name is unknown to the applicant. The stock in trade was to consist of foodstuffs, cigars, cigarettes, candy bottled soda and beer. Applicant Tigie accepted the offer. On August 31, his friend, applicant Reilly, came and stated that he was out

of work and asked applicant Tigie to go with him to look for work elsewhere. Business in the restaurant was dull, and applicant Tigie agreed to accompany applicant Reilly if the latter would wait until the return of John, who had gone to Buffalo, New York, to visit his sick wife. The men remained at the Palace Restaurant until August 19, when they locked up the place and left, John having failed to return. They then went to board with a Polish family at Hudson, applicant Reilly meanwhile obtaining a position in the repair shop of a washing machine company. On September 12, 1928, both men were arrested by the State Police. The charge was pandering based on the testimony of one Hannah Reed, who stated that she was brought to the restaurant by one Frank Sandy of Pittston, on Sunday, August 12, and on the following three days remaining in the house for several hours, but never over night. She stated that she had divided the money she received between Sandy and applicants Reilly and Tigie. She also admitted occupying a furnished room in Pittston with Sandy, to which place she always returned after leaving the Palace Restaurant. Early in September, 1928, Hannah Reed left Sandy and returned to the home of her sister in Old Forge, to which place Sandy followed the girl in an effort to resume the relationship. Hannah's sister caused his arrest by the State Police, and he in turn implicated applicants Tigie and Reilly as participants in the crime of pandering. It is claimed that Sandy, who had a long crime record in Luzerne County, induced Hannah Reed to throw the responsibility on applicants Tigie and Reilly in an effort to save himself, and this fact was borne out by the testimony of Hannah Reed and Sandy in court. Sandy, who appears to have been the master mind in this offense, was sentenced to the county prison for a term of not less than two years nor more than five years, and was released within six months.

Both applicants have now served approximately one year and eleven months of their respective terms of imprisonment. Their prior records were good and their prison records are good as shown by letters from the penitentiary authorities. Employment has been offered applicant Tigie if released.

There was filed with the Board a letter from the trial Judge in which he states that at the time the sentences were imposed in this case, Luzerne County experienced a wave of pandering which necessitated severe punishment in cases of conviction. He states, furthermore, that the real culprit, and the motivating influence behind most of the crimes, was subsequently tried before him, convicted, and sentenced to the Penitentiary for a period of five to ten years, since which time there has been no further trouble. He states that a pardon would not be subversive of justice. The trial District Attorney recommends clemency. Alderman Smith, of Pittston, Captain Clark of the State Police and the Mayor of Pittston concur.

In consideration of all the circumstances of this case; the prior good record of both applicants; the terms of imprisonment already served; because of the favorable recommendations of the trial Judge, trial District Attorney, Mayor of Pittston and others, we have concluded that both applicants have been sufficiently punished, and that if now liberated, will prove themselves useful and law-abiding citizens.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John Reilly and James Tigie, respectively.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 302, 303, 525, 526, May Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Vance Senseman was convicted of assault

and battery, assault being armed with an offensive weapon and aggravated assault and battery, and on May 17, 1929, was sentenced to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than five years nor more than ten years. Joseph Heppler alias Joseph Heffler, jointly indicted with him, received the same sentence.

The applicant is a native-born citizen of the United States, twenty-two years of age and unmarried. He is a printer by occupation. He had enlisted in the United States Navy and at the time of his arrest was employed in the United States Naval Hospital located at the Navy Yard in the City of Philadelphia.

The applicant and one Joseph Heppler alias Joseph Heffler had been drinking together. They both went to a section known as Strawberry Mansion in Fairmount Park, Philadelphia, on or about May 9, 1929, at about 9:45 P. M. where they accosted one Joseph Eppelbaum. The testimony discloses that the applicant with his co-defendant hit Eppelbaum on the head with a blackjack. Eppelbaum testified that they took nothing from him. The applicant and his co-defendant on April 25, 1929, at or about the same place, struck another man. Both had been drinking. There is no testimony to indicate that the applicant or his co-defendant attempted to steal or rob those whom they had assaulted.

The applicant has now served one year and five months of his term of imprisonment. He was never before charged with or convicted of crime. He was only twenty-one years of age when this crime was committed. His prison record is good as shown by letter from the warden of the penitentiary.

Several letters were filed with the Board from the Burgess and a prominent citizen of Mechanicsburg, Pennsylvania, (the applicant's former home) in which they certify to the applicant's good record while in that town. There was also filed with the Board a letter from the trial Judge in which he states that he would object to the applicant's pardon because he was properly convicted, but would have no objection if he were discharged on probation for the balance of his term.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; and because of the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished and that if now released, he would prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Vance Senseman.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 599, March Sessions, 1926, in the Court of Oyer and Terminer in and for the County of Philadelphia, George E. Osborne was convicted of voluntary manslaughter, with a recommendation to the mercy of the Court, and on April 30, 1926, was sentenced to pay costs and to undergo imprisonment in the Philadelphia County Prison for a period of not less than three years nor more than six years. He was discharged on parole upon the expiration of his minimum sentence, and the present application is made to clear his record and to qualify him for appointment to the Fire Department, Department of Public Safety, Philadelphia, for which he is now disqualified by reason of his conviction and sentence.

The applicant is a native-born citizen, thirty years of age, married, but not living with his wife. He resides in the City of Philadelphia with his mother.

For seven years prior to his arrest in the present case, he worked on a milk wagon for the Supplee-Wills-Jones Milk Company. His hours of employment were from 2:30 A. M. until 3 P. M., except on Mondays and Tuesdays, when he arrived home about 6 o'clock in the evening.

The tragedy occurred on Tuesday, February 16, 1926. The applicant on his return to his home on the preceding Friday at about 1:30 P. M. saw James F. Hartley, who conducted a butcher store, coming out of his home and applicant's wife following. On seeing her husband, the wife stopped short and became nervous and excited. Her actions aroused the applicant's suspicions. On the following morning he returned home about 6:30 A. M. and hid in the cellar. About the middle of the morning he overheard a conversation his wife had on the telephone which increased his suspicions. He then went to the Domestic Relations Branch of the Municipal Court for advice and they told him to obtain detectives or to conduct his own investigating. On the morning of the tragedy he again came home from work at about 6:30 A. M. and hid in the cellar. About 10 o'clock Hartley drove up to the house in his car. The applicant recognized him by his voice, and he overheard the conversation between his wife and Hartley which confirmed his fears and suspicions. He heard them kissing and one of the two went to the front door and locked it, then he heard scuffling on the floor. Opening the cellar door suddenly he caught his wife in the act of adultery, lying on the floor with Hartley. His wife screamed and Hartley started to run into the parlor, the applicant yelled: "Stay there you dog, and don't run." Hartley then turned and with his fists hit the applicant in the eye nearly knocking him down. The applicant had a gun in his pocket which he carried for protection while he was collecting large sums of money for his company, and after Hartley hit him he drew it and yelled: "Stay where you are." Hartley advanced and grabbed the gun with both hands. A fight ensued in which Hartley grabbed the applicant's left thumb with his right hand and bent it back. The pain was so great that the applicant was forced backwards, but he managed to release the safety catch on his revolver and fired one shot. Hartley fell forward shot in the chest. He was taken to the hospital where he died five days later. The applicant's clothes were torn in the fight. The applicant then opened the front door to let in his neighbor, Mrs. Hagerdorn; when she entered she saw Hartley's clothing disarranged and his exposed body, as did the officers who came soon and made the arrest. The applicant asked Mrs. Hagerdorn to call an ambulance and when the police arrived he told how the trouble occurred and admitted firing the shots.

As before stated the applicant has been released on parole since May 3, 1929. He has passed his examination for appointment as city fireman, but is disqualified to obtain the position by reason of his conviction and sentence. He was never before charged with or convicted of crime.

There was filed with the Board a letter from the trial Judge which strongly recommends pardon. He states that this is an unusual case with many extenuating circumstances, and concludes: "I was compelled to sentence him owing to the gravity of the crime, but it is the kind of case that if I had the power to pardon I would do so without hesitation."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; and because the present application is made to clear his record and to qualify him for a position under the city government, we have concluded that the applicant has been sufficiently punished and should now be qualified to resume all the rights and privileges of citizenship.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said George E. Osborne.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 509, September Sessions, 1928, in the Municipal Court of the County of Philadelphia, Criminal Division, Lyle K. Dawson was indicted for assault and battery, aggravated assault and battery, assault and battery with intent to ravish and rape, and was convicted on all counts except that charging rape; and on September 28, 1928, was sentenced on the charge of assault and battery with intent to ravish, to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than three years nor more than six years.

The applicant is a native-born American citizen, thirty-one years of age, and at the time of his arrest was a sailor in the United States Navy. He is unmarried and the sole support of his mother who is seventy-eight years of age. At the time of his arrest he was stationed and lived at League Island

On the night of September 4, 1928, Sophie Butkus the prosecutrix in this case, a resident of Hartford, Connecticut, who was then visiting her sister in Philadelphia, through a flirtation at Strawberry Mansion, a resort in Fairmount Park, met the applicant while on her way to take the trolley. The applicant persuaded her to walk with him until they reached a lonesome spot in the park, where, she claimed, he violently assaulted her. The applicant was arrested on the following day. He denied the charge, and his shipmates (who testified that the girl's sister was a familiar figure to them) corroborated him. Nevertheless, the jury convicted him of assault and battery with intent to commit rape and acquitted him on the charge of rape.

The applicant has now served two years and one month of his term of imprisonment. He was never before charged with or convicted of crime. He has served for many years in the United States Navy. He claims that the maximum sentence for his crime under the law is five years, and not six years. His mother, seventy-eight years of age, is dependent on him for support.

There was filed with the Board letters from prominent citizens of Carter County, Oklahoma, in which State the applicant was reared, County Judge Grunert, Attorney Ledbetter, the chief of police of Ardmore, Oklahoma, and Representative Fischl in letters filed with the Board certify to the applicant's good record in that State.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the fact that his aged mother requires his support; and in further consideration of the letters filed with the Board from prominent citizens of Oklahoma certifying to the applicant's good record in that State, we have concluded that he has been sufficiently punished and that if now released, he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Lyle K. Dawson.

ARTHUR H. JAMES,  
Lieutenant Governor

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 302, 303, 525 and 526, May Term, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Joseph Hepler alias Joseph Heffler was con-

victed of assault and battery, aggravated assault and battery and assault, being armed with an offensive weapon, and on May 17, 1929, was sentenced in the aggregate to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years, nor more than ten years. Vance Senseman was jointly indicted with him and received a like sentence.

The applicant is a native-born citizen of the United States, twenty years of age. At the time of his arrest he was in the United States Navy in the capacity of trained male nurse. His place of residence at that time was League Island Navy Yard, Philadelphia. He is unmarried.

The applicant was tried and convicted on the charge of assault and battery, committed on April 25, 1929. He denied the charge, claiming that he did not leave the United States Navy Yard at that time and took no part in the occurrence. He was also tried and convicted on the charge of assault and battery with intent to rob, committed on May 9, 1929. The facts of this case were as follows: the applicant in company with Vance Senseman, his co-defendant, were at Strawberry Mansion, Fairmount Park, Philadelphia, Senseman was considerably under the influence of liquor, but the applicant was sober. Senseman had words with Joseph Eppelbaum who appeared as the prosecutor in the trial. As a result Senseman hit Eppelbaum and then both Senseman and the applicant ran away. The applicant did not take any part in the quarrel and did not injure Eppelbaum in any way. After Senseman and the applicant had run several hundred yards and were then walking, Eppelbaum came up with a policeman.

The applicant has now served one year and five months of his term of imprisonment. He was never before charged with or convicted of crime. He was only nineteen years of age when these alleged crimes were committed. Prior to his imprisonment he helped his father support the family. The father received a salary of but eighteen hundred dollars a year.

Senseman, the applicant's co-defendant, was pardoned by this Board at its present Session.

In consideration of all the circumstances of this case; the extreme youth of the applicant when these alleged crimes were committed; his prior good record; the term of imprisonment already served; because of the fact that the applicant in part supports the family, his father's salary being insufficient for the purpose; and because of the further fact that his co-defendant has been pardoned by this Board, we have concluded that the applicant has been sufficiently punished and that if now released he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that a pardon be now granted to the said Joseph Hepler, alias Joseph Heffler.

ARTHUR H. JAMES,  
Lieutenant Governor

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 55, February Sessions, 1930, in the Court of Quarter Sessions of the Peace, in and for the County of Erie, James Hill was convicted of larceny from the person and receiving stolen goods, and on February 19, 1930, was sentenced to pay a fine of ten dollars, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than one year and four months, nor more than three years. John

Bugig, his co-defendant, received a like sentence, except that the minimum term of imprisonment was one year and one month.

The applicant is a native-born citizen of the United States; thirty years of age. He is a telephone lineman by occupation, but at the time of his arrest was working as a salesman for the Maytag Washing Machine Company in Erie, in which city he resided with his wife and one child. The applicant being unable to secure a position as telephone lineman in Erie became a salesman.

On the morning of January 16, 1930, he called upon a prospect for a washing machine and while in the house learned that "home brew" could be bought there, and saw several men drinking beer. He met there one Edward Miller, and had several drinks with him, when John Bugig entered. Miller called the latter over to the table where they sat. About noon the applicant told them he had to go home and they said they would accompany him if he would come back, so all three went to the home of the applicant, remaining there about an hour when they returned to the house where they had been. They had more beer, and about 3 P. M. Miller said he wanted to buy a basket of groceries to take to a lady friend and asked them to accompany him. After purchasing the groceries, Miller called a taxi and Bugig, Miller, and the applicant went to the home of Miller's lady friend. Upon arriving at the house, the applicant did not enter, but waited on the outside. Miller and Bugig entered the house, and within a short time the latter came out and both went to a hotel to get some sleep; the applicant went to bed and Bugig proceeded to wash his face and hands. The latter then said, "Let's go out and get some more beer, I will buy it." The applicant arose, washed and went with Bugig back to the house where they had been before. While in the house, Miller and another man came in and asked Bugig to come on the outside as they wanted to talk with him. The applicant awaited Bugig's return, and after a long period of waiting went back to his room and went to bed and slept until he was awakened the following morning by a knock on the door. A man told him to dress as he was wanted at the Alderman's office. The applicant accompanied the man to the Alderman's office and there learned that Miller had lost his pocketbook; that it had been found on Bugig and that the latter had stated that the applicant had taken the pocketbook and given it to him. The applicant denied this. In the Alderman's office Miller did not want to prosecute, so the Alderman told the applicant to pay the costs and he would be released. The applicant did not have the money, so the Alderman told him he would wait a few days until he got it. The applicant was then taken to jail; he got the money and was again taken before the Alderman and advised that the costs were twelve dollars. The applicant did not have this amount, as he had previously been advised the costs would be eight dollars. Upon his return to jail, the applicant arranged to obtain the additional amount and advised the Alderman to that effect. The latter replied that it was too late as the case had been turned over to the District Attorney's office. When arraigned in Court on February 17, 1930, the applicant was told that the costs were forty-eight dollars. The assistant District Attorney asked the applicant if he could pay the costs, the latter replied that he could not. He then told the applicant he would have to stand trial. The applicant pleaded not guilty, but was found guilty by a jury which recommended him to the leniency of the court.

The applicant has now served eight months of his term of imprisonment. He was never before charged with or convicted of crime. The jury which convicted him recommended him to the leniency of the court. His family is destitute and requires support.

There was filed with the Board a letter from the trial District Attorney in which he recommends clemency. He states that his assistant who tried the case believes that "a pardon in this case would not be amiss." He also refers to the fact that the jury in its verdict recommended mercy.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; the need which his family has of support; because of the recommendation of the jury which convicted him and the favorable attitude of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and if now liberated, he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said James Hill.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

CYRUS E. WOODS,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 22, December Sessions, 1924, in the Court of Quarter Sessions of the Peace in and for the County of Centre, David L. Stevens, pleaded guilty to an indictment charging him with breaking and escaping from the Western Penitentiary, and on October 20, 1924, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than three and one-half years nor more than seven years; sentence to compute after the completion of present sentence from Allegheny County for voluntary manslaughter.

The applicant is a native-born citizen of the United States; thirty-five years of age, and is married. He is a waiter and porter by occupation and at the time of his original arrest was employed by Hayworth and Dohurst at Ninth and Duquesne Way, Pittsburgh, and resided in that city since 1909.

On July 14, 1922, the applicant's wife and one Tom Jones spent the night together, without the applicant's knowledge, and committed adultery. The following morning the applicant met Jones on the street in Pittsburgh. The latter invited the applicant to accompany him to a crap game on the outskirts of the city. They went there on a street car. Jones led the applicant into a thicket and then advised him that he did not bring him there to meet others and shoot crap; that the latter was only a pretext and that he wished to inform the applicant that the latter was abusing "his woman" (meaning the applicant's wife). The applicant replied that she was his lawful wife. Jones then became angry and told the applicant that she was "his woman," and that he, Jones, had stayed with her the previous night and had committed adultery with her, and drawing a razor he rushed towards the applicant shouting that he was going to cut out his heart. The applicant immediately shot and killed Jones. The latter died in a few minutes, and when found by the chief of police of Westview, had the razor in his hand, which was identified as being Jones' property. The applicant claimed that he was forced to kill Jones in order to save his own life and was therefore convicted of voluntary manslaughter; was sentenced on February 2, 1923, to serve not less than five years, nor more than seven in the Western Penitentiary. A copy of the instructions to the jury by the trial Judge was filed with the Board which instructions verify the fact that Jones led the applicant to the thicket on a pretext and that the applicant killed Jones in self-defense. Within a year after the applicant's incarceration in the Western Penitentiary he was transferred to the prison farm at Rockview. His mother-in-law died in October, 1924. He was not allowed to attend the funeral. He became despondent, and a few days later, on October 16, escaped from prison. He was apprehended the same day and on October 20, 1924, was sentenced as above stated.

The applicant on March 2, last, completed the maximum sentence imposed by the Allegheny County Court for voluntary manslaughter and since that date has been serving the sentence imposed October 20, 1924, for breaking and escaping. His record prior to the first offense was good.

There was filed with the Board a letter from the trial Judge in which he states: "I will not make any objection to the granting of a pardon to this applicant if the Pardon Board sees fit to grant same in its discretion."

In consideration of all the circumstances of the present case and the prior one from Allegheny County; because of the long term already served; because of the applicant's good record with the exceptions noted, we have concluded that he has been sufficiently punished and if now liberated, will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said David L. Stevens.

ARTHUR H. JAMES.  
Lieutenant Governor.

JAMES A. WALKER.  
Secretary of the Commonwealth.

CYRUS E. WOODS.  
Attorney General.

JAMES F. WOODWARD.  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 91, June Sessions, 1922, in the Court of Oyer and Terminer, in and for the County of Luzerne, Charles Fanti, alias Charles Finn, alias Carlo Charlie, pleaded guilty to an indictment charging him with murder, the degree of which was adjudged to be murder in the second degree, and on June 19, 1922, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than twelve years, nor more than sixteen years.

The applicant is of Italian descent, twenty-eight years of age, and owes allegiance to the Kingdom of Italy. He is a coal miner by occupation and was so employed at Parsons, Luzerne County, at the time of his arrest. His place of residence is Clarksburg, West Virginia, where reside his wife and two children.

The applicant came from West Virginia to Pennsylvania about seven weeks prior to the tragedy. He secured board at the home of one Mike Basta in said borough and obtained work in the coal mines. On March 25, 1922, he received his pay and went from the pay car to his boarding house with one Frank Basta, a fellow boarder and brother of Mike Basta. Frank and Mike had an altercation over the board. Frank and the applicant then left the house after supper and went to an Italian's house up town and drank two quarts of wine. Frank then asked the applicant to accompany him to the home of a relative in an adjoining town. They went there and arrived at the home of Freda Marco at about 9:00 o'clock; they drank more wine until about 10:30 P. M. An argument ensued between the applicant and Tony Coradi, who was present, and the latter threw a glass in the applicant's face. Freda Marco told the applicant to go home. He said that he forgave Coradi because he was drunk, and left the house. Frank Basta followed him but soon returned to the house. The applicant had started for his home when Coradi left by the front door. (The applicant had gone by the rear door but passed the front of the house on his way home). A fight then ensued with three or four men engaged, the details of which are not clear, but as a result Coradi was mortally wounded and the applicant crawled away in a dazed condition. He was found by State troopers a distance of a five minutes' walk from the scene of the fight and about five or six hundred yards from his own home, and was very drunk, and unable to walk or talk; his face was bloody; his eye discolored and they thought his skull was fractured and took him to a hospital. His condition was testified to by the doctor, the State troopers and witnesses. Five days after the affray they had to hold his eye open to make a picture. A loaded revolver was found at the scene of the tragedy but it had not been discharged. Cartridges found in the applicant's pocket did not fit the revolver, but did fit a revolver found at his home, which had not been used.

The applicant has now served eight years and four months of his term of imprisonment; he was never before charged with or convicted of crime.

There was filed with the Board a letter from the assistant trial District Attorney in which he recommends clemency. He states that there was but one shot fired and that there was great doubt as to whom the revolver having a discharged shell, belonged; that the pistol might have been discharged in a struggle for its possession; that the applicant might have been justified in defending himself and that he was severely beaten and unable to stand up or speak when found by the officers shortly afterwards.

The counsel for the applicant has filed a letter with the Board in which he states his belief that the applicant would have had "a substantial chance of acquittal if his case had been submitted to a jury on a plea of not guilty." The attorney for the applicant in the present proceeding has filed a letter with the Board in which he states that he is authorized by the trial Judge to state that he would have no objection to the granting of a parole or pardon.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because of the written statements of applicant's attorney at the trial and in the present proceeding; and because of the favorable attitude of the trial District Attorney, we have concluded that the applicant has been sufficiently punished and if now liberated will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Charles Fanti, alias Charles Finn, alias Carlo Charlie.

ARTHUR H. JAMES.  
Lieutenant Governor.

JAMES A. WALKER.  
Secretary of the Commonwealth.

WILLIAM A. SCHNADEK,  
Attorney General.

JAMES F. WOODWARD.  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 57, March Term, 1930, in the Court of Quarter Sessions of the Peace, in and for the County of Beaver, Jay A. Johnson pleaded guilty to an indictment charging him with larceny and receiving stolen goods, and on March 4, 1930, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than one year nor more than two years.

The applicant is a native-born citizen of the United States, thirty-seven years of age. He came from Kentucky to Aliquippa, Beaver County, in July, 1926, and has worked continuously since that date for the Jones and Laughlin Steel Company. He resided in Aliquippa. The applicant has a wife and two boys, aged thirteen and eight years respectively. Since his incarceration they have been residing with relatives.

The applicant was a motorman on the Woodlawn and Southern Street Railway Company, a street car line owned and operated by the Jones and Laughlin Steel Company. During the last few months of his service he had taken from fares the amount of three hundred fifteen dollars, which amount was subsequently repaid in full. During his employment as a motorman he had invested his earnings, over and above what was necessary for the support of his family, in a small home in which they were residing at the time of his trouble, and on which he was making payments. He had no other property or means of any kind.

The applicant has now served seven months of his term of imprisonment. He was never before charged with or convicted of crime. His wife and children are in destitute circumstances and require his support.

There was filed with the Board a letter certifying to the applicant's excellent prison record; there were also filed with the Board letters which indicate that the applicant prior to his present offense had been an honest and industrious man and that his family is destitute and requires his support. County Commissioner Coombs certifies that the applicant had been a law-abiding citizen and that his family is destitute and requires support. The trial Judge in a letter filed with the Board states that if the applicant is released he will join his wife, who is now in Kentucky, and recommends immediate release.

In consideration of all the circumstances of this case; the prior good record of the applicant, the term of imprisonment already served; his excellent prison record; because his family is in destitute circumstances and requires his support, and because of the favorable attitude of the trial Judge, County Commissioner Coombs and others, we have concluded that the applicant has been sufficiently punished, and if now liberated will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Jay A. Johnson.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 69, September Sessions, 1922, in the Court of Oyer and Terminer, in and for the County of Luzerne, Frank Bedharski pleaded guilty to an indictment charging him with murder, the degree of which was subsequently changed to be murder in the second degree, and at No. 570 of the same term and in the same Court, he also pleaded guilty to an indictment for burglary, and on September 19, 1922, was sentenced by the Court in the aggregate to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than nineteen years, eleven months, nor more than thirty years.

At the time of his arrest, the applicant was twenty-three years of age. He had been idle for about three months, but prior thereto had been employed as an electrician at the Henry Colliery of the Lehigh Valley Coal Company. While of Polish descent, he is a native of the United States and unmarried. At the time of his arrest he resided in Plains, Pennsylvania.

On the night of June 1, 1922, Bridget Halliday accompanied by Gus Anderson, both of whom resided in Ashley, about three miles south of Wilkes-Barre, were sitting on the grass in Hollenbach Park, near Wilkes-Barre. They had been sitting there about two hours. It was a dark night and there were no lights in the park. At about 10:00 o'clock, a young man (the applicant) and two boys walked by where the couple were sitting. An altercation of some kind took place between the woman and the applicant. According to the testimony of Anderson, the applicant had a pistol in his hand, and, when the woman reached for a stone, he shot her killing her instantly. There was no apparent motive for the killing which was the result of an altercation. The deceased was a woman of about forty years of age, about six feet tall and weighed three hundred pounds. Neither she nor her companion were acquainted with the applicant. For some reason unknown to him, the applicant was not called in his own defense. He alleges that he and his two boy companions were walking down the park on the night in question; that it was very dark; that he stepped on something that moved under his foot; that he jumped back and grabbed his pistol and started to move away; that he saw nothing but a dark, bulky shape;

that his two companions had proceeded on their way; that he heard a female voice curse him and a man's voice trying to quiet her, that the applicant started to answer the woman; that at about that time he heard a stone strike the ground behind him and he fired a shot into the ground; that a man then grabbed him by the throat and the woman started to beat him over the head with what he thought was a club; that during the melee his pistol was unintentionally discharged, instantly killing the woman.

On May 28, 1922, the Armory in the city of Pittston was burglarized and revolvers, binoculars, clothing and other articles were taken therefrom, it is alleged, by the applicant.

The applicant has now served eight years and one month of his term of imprisonment. He was only twenty-three years of age when these crimes were committed.

There was filed with the Board a letter from the trial Judge in which he makes no objection to clemency, if the Board believes that the applicant deserves it. The chief of the county detectives has filed with the Board a letter which favors clemency. He states that the sister of the applicant and her husband, who are responsible people, have offered to give the applicant a home if released and to secure his employment. There was also filed with the Board a letter from the assistant trial District Attorney, which favors clemency. Captain Clark of the State Police, who was the prosecutor in the case, advises the Board that the applicant's conduct in prison has been good and that he has no objection to a pardon.

In consideration of all the circumstances of this case; the comparative youth of the applicant when this crime was committed; the long term of imprisonment already served; because of the favorable attitude of the assistant trial District Attorney and chief of the county detectives, the prosecutor and others, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to eight years and one month's imprisonment, effective on October 19, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Frank Bednarski be commuted to eight years and one month's imprisonment, expiring on October 19, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1199, December Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Paul Stauffer, together with Alfred Powell, John Ford and Joseph Connor were jointly indicted for larceny, and on December 20, 1929, Ford, Powell, and the applicant pleaded guilty to the indictment and on the same day, the applicant was sentenced to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years, nor more than ten years. Three days later this sentence was reconsidered by the Court and the period of imprisonment reduced to a minimum of two and one-half years and a maximum of five years.

The applicant is nineteen years of age, and a native-born citizen of the United States. His occupation is that of clerk and chauffeur. He is unmarried. At the time of his arrest, he was employed as clerk and chauffeur by the Economy Cleaners and Dyers, South 52nd street, Philadelphia, and resided in that city with his parents.

The applicant left school a short time before his arrest and was in the employ of his brother-in-law, who conducts the establishment above referred to. He was but eighteen years of age and had become acquainted with the several young men with whom he was jointly indicted but a short time previous to the larceny of the automobile which was made the basis of the present prosecution. He claims that he took no part in the actual larceny of the automobile, but entered the car with one, Joseph Connor, at the invitation of Ford and Powell. Conner and the applicant were standing on the sidewalk when the invitation was extended. Connor who pleaded "not guilty" to the charge of larceny, was subsequently acquitted by a jury. The applicant has no knowledge of the disposition of the car. Ford and Powell were both subsequently arrested upon a more serious charge and in a confession mentioned the larceny of the automobile and implicated the applicant. All three defendants were sentenced upon pleas of guilty.

The applicant has now served ten months of his term of imprisonment. He was never before charged with or convicted of crime. He was only eighteen years of age when this alleged crime was committed.

Four letters from citizens of Philadelphia who are personally acquainted with the applicant and his family, were filed with the Board recommending clemency.

In consideration of all the circumstances of this case; the extreme youth of the applicant when the alleged crime was committed; his prior good record; the term of imprisonment already served; in consideration of the further fact that his co-defendant Connor who stood trial was acquitted by the jury, and because of the favorable recommendations of persons who are personally acquainted with the applicant we have concluded that he has been sufficiently punished and if now liberated he will prove himself a peaceable and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Paul Stauffer.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 603, 604, 605, 606, and 608, June Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Nicholas Perry, pleaded guilty to five indictments charging him with assault, being armed with an offensive weapon, entering to commit a felony, assault and battery, aggravated assault and battery, carrying concealed deadly weapons, and operating an automobile without the consent of the owner, and on June 14, 1928, was sentenced by the Court, on No. 603, charging assault, being armed with an offensive weapon, to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than eight years nor more than twenty years. Frank Grandella and two others were jointly indicted with him.

The applicant is twenty-two years of age, a native-born citizen of the United States, of Italian extraction, and unmarried. Prior to his sentence he was engaged in the packing and shipping department of the Congress Cigar Company, Third and Spruce Streets, Philadelphia, and resided in that city with his parents.

On June 11, 1928, about 11.30 P. M., a phone call was received at the Station House, Seventh and Carpenter Streets, Philadelphia, stating that a holdup had occurred at a garage in the neighborhood of Fourth and Fitzwater Streets. Three officers were sent to the scene of the crime and interviewed

one William McBride, who was the night attendant at the garage. They were informed that he had been held up at the point of a gun by four white men who took fifty cents from his pocket and then went back into the garage and took an old Peerless touring car, the property of Eugene Pratt. McBride was afraid to stop the men, and they escaped. From the description which he gave four men at 1.40 A. M. were arrested by the Delaware River Bridge police as they were about to cross into New Jersey.

The defendants who were taken to the Station House first denied all knowledge of the holdup, but later Frank Grandella and the applicant both admitted that they had entered the garage, held up the colored men, and stolen the automobile, after which they had picked up David Mauro and Louis Similowitz and were on their way to a bungalow in New Jersey. The applicant claims that he and Grandella found the car with the engine running on Washington Avenue about midnight and jumped into the car to go their club bungalow in New Jersey. He avers that he changed his original plea of not guilty to one of guilty because he was afraid of physical violence from the police officers.

The applicant has now served two years and four months of his term of imprisonment. He was never before charged with or convicted of crime. He was only twenty years of age when the crime was committed.

A representative of the District Attorney's office who was present at the oral hearing of this application neither recommended a pardon nor did he oppose the same. His attitude, however, was favorable.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; and because of the favorable attitude of the District Attorney's office, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to two years and four months' imprisonment effective on October 14, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Nicholas Perry, be commuted to two years and four months' imprisonment, expiring on October 14, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 6, June Sessions, 1927, in the Court of Oyer and Terminer, in and for the County of Allegheny, Joseph McDermott, alias Joseph Murphy was convicted of robbery, and on September 16, 1927, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, thirty-two years of age. Prior to his arrest he was the owner of two stores in which he sold confectionery, cigars and tobacco, and resided in the City of Pittsburgh.

On April 7, 1927, at about 11:30 o'clock P. M., an East End Club, located at 107 Whitfield Street, in the City of Pittsburgh, was entered and certain members, or patrons, of the club were robbed, at the point of revolvers, by four men: Herbert Spencer, Michael Piccardo, Leslie Mauer and Frank Peroski. At the time of the robbery there were thirty or forty men in the club room, and approximately four thousand dollars was taken

as loot. The four men who committed the robbery left the club room and went to the Del Rae Hotel, located about two squares distant from the club. Here the money was divided and the four men afterwards went to Detroit, Michigan, where they were apprehended several days later. A portion of the money and a number of revolvers were found on them when arrested. The day before the robbery these four men, one of whom had known the applicant in Detroit, where he had formerly resided, met him on the streets of Pittsburgh, and it was through his recommendation that they went to the hotel in question for accommodations. Two days after the robbery the applicant was arrested at the Del Rae Hotel, and was accused by the arresting officers of having participated in the robbery. He repeatedly told them that he had had nothing to do with the crime and has always maintained his innocence. The four robbers made written confessions in which they implicated the applicant as "one of the gang," stating that he had been the driver of the car which took them to the scene of the crime and drove them away after its perpetration. Before the jury was sworn in the trial of the applicant, the four robbers entered pleas of guilty. After the Commonwealth's case was closed, the defense put the four confessed robbers on the stand and each of them denied that the applicant had participated in any way in the robbery. They further testified that the reason they accused the applicant in the confessions they had made was because the officers had told them that the applicant had been instrumental in giving them the necessary information whereby they had been located in Detroit, and that they had implicated him in the crime in a spirit of revenge. The applicant, at the trial, strenuously denied his guilt. At the close of the case, on request of the District Attorney, the confessions of the robbers were sent out to the jury, and doubtless largely aided in the applicant's conviction.

The applicant has now served three years and one month of his term of imprisonment; he was never before charged with or convicted of crime, except that there are now pending two charges for a violation of the Federal Statutes.

There was filed with the Board a letter from the District Attorney in which he recalls a former letter which voiced opposition to a pardon in this case. In his second letter he states that the other men implicated in the robbery have been discharged from the Penitentiary, and that the applicant's sister, a woman of good repute and standing in Detroit, has agreed to take him and supervise his conduct. He concludes, "If your Board can be assured of this, I will withdraw my opposition in the granting of this pardon and leave it entirely in your hands." The applicant's sister has offered in writing to provide a home and employment. There was also filed with the Board a letter from the Assistant United States District Attorney at Pittsburgh in which he states that they have no objection to the applicant being released on parole, inasmuch as they may then place him on probation in the Federal Court on charges of having violated the Federal laws.

In consideration of the circumstances of this case; the prior good record of the applicant, with the exception noted; the term of imprisonment already served; because of the change in the attitude of the District Attorney, which is no longer unfavorable, and because the representative of the Federal Government, which has two charges pending against the applicant, does not object to parole, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to three years and one month's imprisonment effective on October 16, 1930.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Joseph McDermott, alias Joseph Murphy be commuted to three years and one month's imprisonment expiring on October 16, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., October 22, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2, May Sessions, 1928, in the Court of Oyer and Terminer in and for the County of Washington, Melvin Allman, alias Melvin Allmon pleaded guilty to an indictment charging him with murder. A plea of guilty of voluntary manslaughter was tendered and accepted by the District Attorney, and May 11, 1928, the applicant was sentenced to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than four years nor more than eight years.

The applicant is a native-born citizen of the United States, thirty-four years of age. He is a coal miner by occupation and at the time of his arrest was working for the Pittsburgh Coal Company at Montour, No. 9 Mine, Robinson Township, Washington County. He resided in said township. He has a wife and one child, now living at Pittsburgh.

The applicant was convicted and sentenced for the murder of one, Gussie Burch. The tragedy occurred between two and three o'clock on the morning of March 11, 1928, under the following circumstances detailed in the application:

During the previous evening, there had been a dance at the home of "Son" Johnson and his wife. About midnight, the Coal and Iron Police notified the participants that the dance would have to end and all persons left, with the exception of Gussie Burch (the deceased), Leroy Simms, "Son" Johnson and his wife and the applicant. Gussie Burch had been living as the common-law wife of Robert Johnson, a son of "Son" Johnson. Robert Johnson and Gussie had come from their home to attend the dance. There was drinking during the evening. The persons above named, who remained in the house after the dance broke up, continued drinking.

Gussie Burch was drinking before she came to the dance and had been in a quarrelsome mood. About two o'clock in the morning, Simms began talking to her. An argument ensued and she, taking a dagger from her bosom, attacked him. The applicant, being nearest to her, grabbed her arm and tried to remonstrate with her. She became infuriated and turned upon him with a knife. She struck at his breast and cut a slit across his vest. She followed him and as he started around a table, she continued to follow him slashing with a knife and cut his hand. Finally, she had the applicant in a corner and he was unable to retreat farther. Fearful for his life, he pulled a gun and shot at her, more with the intention of frightening her than with the intention of inflicting injury. As he shot, "Son" Johnson threw his arm toward Gussie and the bullet hit him in the fleshy part of his arm and hit Gussie in the head. She immediately died. The applicant immediately left the house and determined to go to Pittsburgh. When he was about to take an early morning train, he was arrested.

The Commonwealth in accepting the plea of voluntary manslaughter took into consideration that the deceased had been living with the son of "Son" Johnson; bore a bad reputation; was intoxicated at the time of the tragedy; had a knife in her possession, with which she cut the applicant; and that the latter was also intoxicated.

The applicant has now served two years and five months of his term of imprisonment. He was never before charged with or convicted of crime. He accounts for his possession of the gun by the statement that he had loaned money to one of his companions and that the weapon was given to him as security for the loan.

There was filed with the Board a letter from the Superintendent of the McCandlish Mine of the Hutchinson Coal Company, West Virginia (a former employer), in which the latter refers to the applicant's industry, efficiency, good character and reputation, and offers re-employment if released. There was also filed with the Board a letter from the trial District Attorney in which he states, "There is some merit to the application of this defendant in view of his previous good character and also of the reputation of the deceased for being a trouble-maker and one who might be considered a dangerous woman." While the letter does not recommend clemency, it evinces a favorable attitude.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the fact that employment has been

offered him if released; and in further consideration of the favorable attitude of the trial District Attorney, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the court should be commuted to two years and five months' imprisonment effective on October 11, 1930.

We, therefore, "after full hearing, upon due public notice, and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Melvin Allman, alias Melvin Allmon be commuted to two years and five months' imprisonment, expiring on October 11, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2, December Sessions, 1912, in the Court of Oyer and Terminer, in and for the County of Beaver, Alessandro De Felippis was convicted of murder in the first degree, and on October 23, 1913, was sentenced to be hanged. Subsequently, on October 21, 1914, the sentence of death was commuted to life imprisonment.

The applicant is forty-five years of age and owes allegiance to the King of Italy. His occupation is that of railroad laborer. At the time of his arrest he resided in Ellwood City, Lawrence County and was about to take a labor gang from that place to Connellsville, Pennsylvania.

The applicant boarded with Dominic and Theresa Salzello. He paid his board regularly and turned over the balance of his wages to Theresa Salzello for safe keeping until she had \$250.00 of his money. A short time before November 24, 1912, he asked her for some of his money as he was going to New York to look for a job. She refused to give him any of his money. He pawned his watch, went to New York but found no position, and started back to Ellwood City, stopping off at Connellsville, where a foreman on the Baltimore and Ohio Railroad promised him a job if he would go to Ellwood City and bring back to Connellsville five or six other laborers. He returned to Ellwood City to look for the men and went back to board with the Salzellos. On the morning of Sunday, November 24, 1912, someone having offended Theresa Salzello, she ordered the applicant and John Marconi to leave the house, which they did, taking most of their belongings with them to another boarding house. On the evening of the same day they returned to the Salzellos for the remainder of their goods and there was a conversation between the applicant and Dominic Salzello, the latter begging the applicant to stay at his house and the applicant saying that after all that had happened he was afraid to stay and that if he did stay there might be trouble. The following morning, Monday, the twenty-fifth, the applicant accompanied Marconi to the Salzellos where Marconi had gone to get a pair of gloves he had left there. The applicant and Theresa Salzello met and their relations were amicable. On the evening of the twenty-sixth the applicant received a party pass over the Baltimore and Ohio Railroad from Ellwood City to Connellsville for himself and the laborers he was to take with him. On the morning of the following day, November 27, the applicant went to the Salzellos and asked Theresa for his money that he might go to Connellsville and take his men with him. She refused to give him his money or any part of it. A dispute arose between them that culminated in his shooting her. He fled from the house, concealed himself in a railroad tunnel until the night of Thursday November 28, when he crawled with frozen feet to the home of a fellow countryman, where he was arrested without resistance. The jury at the trial deliberated twenty-five hours before re-

turning a verdict of guilty of murder in the first degree.

The applicant has now been imprisoned seventeen years and eleven months. He was never before charged with or convicted of crime. The Warden of the Penitentiary certifies to his excellent prison record.

There were filed with the Board a number of letters recommending clemency. The trial Judge and trial District Attorney in letters filed recommend clemency. The latter heretofore had opposed pardon.

There were also filed with the Board the affidavits of the Sheriff of Beaver County and the Superintendent of the Rochester General Hospital, setting forth that in February, 1914, when the applicant was confined as a patient in the Rochester General Hospital, Rochester, Pa., under a special guard appointed by the Court, this guard in the night time died from a stroke of apoplexy; that the applicant seeing that the guard was dead made no effort to escape but on the contrary got up from his cot, called the attendants and assisted in connection with the death of the guard.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; his excellent prison record; because of the recommendations of the trial Judge and trial District Attorney; and in consideration of the affidavits of the Sheriff of the county and the Superintendent of the Rochester General Hospital, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence heretofore imposed by the Court should be commuted as of December 12, 1930, and that the applicant should be placed on probation for a period of ten years.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed upon the said Alessandro De Felippis be commuted as of December 12, 1930, and that the said Alessandro De Felippis be placed on probation for a period of ten years.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 15, June Term, 1918, in the Court of Oyer and Terminer, in and for the County of Allegheny, Charles E. Scherer was convicted of murder in the first degree, and on July 10, 1919, was sentenced by the Court to be electrocuted. Subsequently, on September 23, 1920, the sentence of death was commuted by the Governor to life imprisonment.

The applicant is a native-born citizen of the United States, fifty-nine years of age. He engaged in the grocery and general merchandise business at Wilmington, North Carolina, from 1895 until 1917, when he removed to Pittsburgh, Pennsylvania, where he was employed in Pickering's and Spear's Department Stores from December 19, 1917 to March, 1918. He was unemployed at the time of the tragedy. His residence was at 3531 Butler Street, Pittsburgh. The applicant was twice married. His first wife died in 1908, leaving seven children, ranging in age from ten days to thirteen years. On March 7, 1909, he married Bertha Banks, a girl of eighteen, the victim in this case, by whom he had no children.

For several years the applicant and his second wife lived together peaceably and to all appearances contentedly. The applicant then heard reports that his wife was meeting other men clandestinely. He first disbelieved the rumors but finally, receiving apparent confirmation of these stories from several sources, he repeated to his wife the stories that were afloat. This led to a quarrel, followed by other quarrels based on similar rumors. His wife left home several times after these con-

tentions, but was persuaded by the applicant to return. He did everything possible to make her happy. Among other things, he purchased her an expensive automobile and deeded her a five-thousand-dollar property. After the lapse of some time, the applicant obtained confirmation of renewed reports that his wife was continuing to entertain other men, and being no longer able to endure the scandal, he decided to dispose of his business and holdings and leave Wilmington in order to take his wife away from her paramours. This he did; he sold his property and took his second wife and the children by his first wife to Pittsburgh. Subsequently observing that his wife had become acquainted and was friendly with an attractive barber whose shop was across the street, the applicant gave up his position. He watched the movements of his wife for several weeks and obtained abundant evidence of her infidelity. Frequently, he observed her and the barber signaling each other, after which she would leave the house and the barber go from the shop. With a policeman as witness, he watched them loving in Arsenal Park one afternoon. He saw them meet and kiss on the street one evening and walk off arm in arm. Together they passed near him a number of evenings and disappeared from sight. On all such occasions, his wife would return home late. This wayward conduct of his wife made the applicant frantic. Having sacrificed his business and property and left his native city on her account and finding her still unfaithful, he became a nervous wreck. Violent quarrels ensued. On one occasion, his wife procured a gun from a neighboring apartment and attempted to shoot the applicant. On the night of April 26, 1918, the applicant's wife came in unusually late and went upstairs. When the applicant ascended shortly afterward, she came down again. The applicant, without removing his clothing, lay down on his bed and passed a sleepless night. At five o'clock in the morning, he went down in the living room where his wife was sleeping on a davenport, where she had slept for a number of nights. He sat down on a chair in front of the gas stove and fell asleep. About eight o'clock he awoke from a nightmare and began shooting with a revolver at his wife, who was then up and about. She was hit by several bullets and killed. Seeing his wife was dead, the applicant ran out into the street and surrendered himself to the police.

The applicant has been incarcerated since July 10, 1919, when he was sentenced to be electrocuted. He was never before charged with or convicted of crime.

The trial Judge and trial District Attorney have filed a joint letter with the Board recommending pardon. The Warden of the Western Penitentiary certifies to his excellent prison record. The Steward and Resident Physician concur in this statement. The prosecutor in this case, in a letter to the Board, recommends clemency. A number of other letters recommending clemency were filed by citizens of Pittsburgh and Wilmington, North Carolina.

In consideration of all the circumstances of this case: the prior good record of the applicant; the long term of imprisonment already served; his excellent prison record and because of the recommendations of the trial Judge and the trial District Attorney and prison authorities, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted as of November 10, 1930, and that the applicant be placed on probation for a period of nine years.

We, therefore, "after full hearing, upon due public notice in an open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Charles E. Scherer be commuted as of November 10, 1930, and that the said Charles E. Scherer be placed on probation for a period of nine years.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, January Sessions, 1920, in the Court of Oyer and Terminer, in and for the County of Blair, Jesse Allen was convicted of murder in the second degree and recommended to the mercy of the Court, and on January 19, 1920, was sentenced to pay a fine of fifty dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than fourteen years nor more than sixteen years.

The applicant is a native-born citizen of the United States, colored, unmarried, and thirty-seven years of age. At the time of his arrest he was employed as a laborer by the Pennsylvania Railroad Company, at Altoona.

On October 6, 1919, the applicant, together with Granville Davis and other persons unknown to him, participated in a crap game, in a field located in the suburbs of Altoona. After the game Davis and the applicant returned to the home of Myers Walker, where they were boarding. On the following day the applicant and Davis held a drinking party at the Walker home. About six o'clock that evening, after a great deal of drinking, Davis accused the applicant of having used loaded (crooked) dice in the crap game of the previous day. After some argument Davis attacked the applicant with a knife. The latter then drew his knife, and in the fight which ensued Davis was cut in the stomach and back, from which wounds he died that same evening. After the cutting the applicant remained at the Walker home, where he was arrested about one hour later and remanded to jail.

The applicant has served ten years and ten months of his term of imprisonment. His mother, seventy years of age, residing in Harrisburg, has been earning her own living as a scrub woman and now requires his support. The applicant has always claimed that he stabbed the deceased in self-defense while under uncontrollable fear of death or great bodily harm and took human life only when his own life was in great danger.

There was filed with the Board a letter addressed to the applicant, in which the trial District Attorney (who is now President Judge) authorizes him to state to the Board of Pardons that the Court is satisfied that the applicant be released on parole for the remainder of his minimum sentence.

In consideration of all the circumstances of this case; the long term of imprisonment already served; because of the need which the applicant's aged mother has of support and in further consideration of the recommendation of the trial District Attorney (now Judge), we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to eleven years imprisonment effective on January 19, 1931, and that the applicant should be placed on probation for a period of five years.

We, therefore, "after full hearing, upon due public notice in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Jesse Allen be commuted to eleven years' imprisonment expiring on January 19, 1931, and that the said Jesse Allen be placed on probation for a period of five years.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 41, February Sessions, 1927, in the Court of Quarter Session of the Peace, in and for the County of Erie, Mike Ezbicki, alias Michael H. Ezbicki pleaded guilty to an indictment charging him with entering a building with intent to commit a felony and robbery, being armed with weapons, and on May 21, 1929, was sentenced to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than four years nor more than eight years.

The applicant is of Polish descent, but an American citizen by birth, twenty-six years of age. He is married and has a wife and a two-year-old daughter residing in the City of Erie.

The crime for which the applicant was tried and convicted was committed on October 22, 1926, at about 9 o'clock P. M. That same evening, about 7 o'clock, the applicant received a call from his brother to the effect that he was ill in a house at Sixteenth and Wallace streets. He answered the summons and when he arrived at the place designated, he found that he had been made the victim of a hoax and that instead of his brother being ill, a drinking party was in progress. When he discovered this, he wished to leave but was persuaded to remain and join the drinking party. The following morning about 3 o'clock he was discovered by his wife, sleeping in his car parked in the garage near the house where he resided. Shortly thereafter his brother, Stanley Ezbicki, Edward Zolinski, and Andrew Mikolajczyk, were arrested and charged with the robbery of a gasoline station on Twenty-sixth Street, and East Avenue, and were also charged with having entered, without breaking, a certain building located at 1209 French Street, Erie, on October 22, 1926, and of having taken from H. P. Amthor and Clarence Comstock the sum of six dollars and fifty cents, the last-mentioned offense being the one laid in the indictment under which the applicant as a co-refendant, was tried and sentenced.

The applicant on learning the criminal charges left Erie, hired on a lake steamer, and, while going through the locks at Sault Sainte Marie, Michigan, was arrested. He waived extradition and returned to Erie. A preliminary hearing was had before an Alderman and he, with the others named, was held for Court on both charges, including the entry of the gasoline station above referred to, but was never tried for the latter offense.

The applicant forfeited his bail and was a fugitive for almost two years, during which time he lived with his wife in Carteret, New Jersey, under an assumed name. First employed as an ordinary laborer, by reason of efficiency, he was advanced rapidly. In addition to his industry he became active in civic affairs and was the Vice-President of the Polish Citizens Club of Carteret. His true identity was finally discovered, and he was arrested, waived extradition and was brought back to Erie for trial. When arraigned, he pleaded guilty to the charge contained in the indictment and received the sentence above stated. After he was taken to the Western Penitentiary he taught school for eleven months, when he was transferred to Rockview last April, where he now is.

The applicant has now served one year and six months of his term of imprisonment. Prior to the offenses hereinbefore mentioned, he was never before charged with or convicted of crime.

There were filed with the Board two letters from the trial District Attorney. In the first, he states that there was no evidence to connect the applicant with the entry and robbery of the gasoline station, and that he has no intention of prosecuting him therefor; that he was made a co-defendant because of his association with the other three men who were joined with him in the indictment for which he was convicted and sentenced. In the second letter, he states that he has definite information that while the applicant was employed at Carteret, New Jersey, his conduct was above reproach. He also adds that he personally has sympathy for the applicant, owing to his good conduct at Carteret. George J. Christophe, Captain of Detectives, Department of Police, Erie, writes the Board that prior to the commission of this crime, the applicant had been a good citizen, that his record in Carteret, New Jersey,

is good, and in case the applicant is pardoned or paroled, he will be re-employed. He believes that if released, the applicant will prove himself a law-abiding citizen. The Chief of Police of Carteret, New Jersey, writes the Board that he has investigated his conduct there and finds that he was a good worker, and that the company was about to make him a foreman; that his record in Carteret was good. The Chief of Police of Erie recommends pardon in a letter filed. The Deputy Warden of the Western Penitentiary certifies to his excellent prison record. A number of other letters were filed with the Board recommending clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because of his good record in New Jersey while a fugitive from justice; because of the favorable attitude of the trial District Attorney and the favorable letters of the Chiefs of Police of Erie and of Carteret, New Jersey, and other recommendations for clemency, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have concluded that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and six months' imprisonment, effective on November 21, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Mike Ezbicki, alias Michael H. Ezbicki, be commuted to one year and six months' imprisonment, expiring on November 21, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 181, 183, 184, 185, 186 and 213, September Term, 1928 and at Nos. 36, 37, 38, 39 and 40, December Term, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Beaver, Otto M. Solkovy pleaded guilty to eleven indictments charging him with larceny by bailee, embezzlement and fraudulent conversion, and on October 4, 1928, he was sentenced in the aggregate, on Nos. 185, 184, 185, 186 and 213, September Term, 1928, to pay a fine of five dollars, costs and to undergo imprisonment in the Western Penitentiary for a period of not less than seven and one-half years nor more than fifteen years. Sentence was suspended upon the remaining bills of indictment.

The applicant is a native of Austria-Hungary, but a naturalized citizen of the United States, forty-three years of age. He is married and has a wife and three children, aged seventeen, fourteen and eleven years, respectively, all residing in the City of Pittsburgh.

The applicant worked in a bank at Aliquippa for fifteen years. He then entered the real estate and insurance business. In addition thereto, he held the office of Justice of the Peace of said borough, having been twice elected to that office. In the course of business he had a number of clients whose insurance be carried waiting for them to pay delinquent insurance premiums. Applicant had to settle with the insurance companies in which he had written the policies. In his effort to take care of these obligations he drew checks on his account in the bank in which he had deposited all moneys received from the real estate and insurance business and also moneys paid to him as Justice of the Peace. He used about fifty-five hundred dollars in this manner, but before he could make collections of rents, he was arrested. Since his arrest on August 28, 1928, he has made restitution to the amount of seventeen hundred sixty-six dollars and sixty-five cents. The surety

company paid another one thousand dollars, making a total of twenty-seven hundred sixty-six dollars and sixty-five cents paid, or one-half of the amount of the total defalcations. The applicant did not appropriate this money to his own use with the intention of profiting thereby. He used the funds to pay premiums to insurance companies for delinquent policyholders. He was carrying his insurance clientele until they were able to meet their obligations to him, which they failed to do. Neither the applicant nor his family profited in any way from these moneys.

The applicant has now served two years and one month of his term of imprisonment. He was never before charged with or convicted of crime. The Warden of the Penitentiary certifies to his excellent prison record. His family is in destitute circumstances. His wife is in a hospital as a charity patient.

There were filed with the Board a number of letters recommending clemency. The trial Judge and trial District Attorney in a joint letter filed indicate a favorable attitude toward the present application, because restitution has been substantially made by the applicant, because of the destitution of his family and because of his high standing in the community before his conviction. The president of the bank in which the applicant was employed for fifteen years recommends pardon. The president of the Beaver Trust Company, the Prothonotary of Beaver County, two of the County Commissioners, the prosecutors in two cases, and others, recommend clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; his excellent prison record; the term of imprisonment already served; because substantial restitution has been made; because the applicant's family is in destitute circumstances and requires support; and because of the favorable attitude of the trial Judge and trial District Attorney and recommendations of prominent citizens, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to two years and one month's imprisonment, effective on November 4, 1930.

We, therefore, "after full hearing, on due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Otto M. Solkovy be commuted to two years and one month's imprisonment, expiring on November, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
WILLIAM A. SCHNADER,  
Attorney General.  
JAMES F. WOODWARD  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1 to 38 inclusive, Nos. 125 to 167, inclusive and No. 674, September Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, William D. Rodgers, together with Rudolph C. Bender, Samuel B. Lush, Isidor Griver, Alexander A. Roseman and Jacob Marbin, was charged with conspiracy to cheat and defraud, false pretenses, and making false statements in writing, and obtaining property thereby. When arraigned for trial the applicant entered pleas of not guilty to all indictment and was found guilty on indictment No. 674. He was immediately ordered to be tried on the other indictments before the same panel of jurors. By advice of counsel he withdrew his plea of not guilty, and with the consent of Court, entered pleas of nolo contendere, which pleas were accepted, and the applicant was adjudged guilty. On December 6, 1925, on indictment No. 4, September Sessions, 1925, charging conspiracy to cheat and defraud, the applicant was sentenced by the Court to pay costs, and to undergo imprisonment in the Philadelphia County

Prison for a term of ten years. Sentence was suspended on the remaining bills of indictment.

The applicant is fifty-four years of age, and a native-born citizen of the United States. He is, by occupation, a real estate broker, and at the time of his arrest was engaged in the real estate business as a member of the firm of Magee and Rodgers, 1200 Locust Street, Philadelphia, and was an officer and director in seventeen building and loan associations. These associations, although originally independent had interlocking directorates. The applicant became acquainted with his co-defendants through these associations. The applicant and his co-defendants believed that these associates could be operated for the mutual profit of officers, directors and stockholders. The associations loaned money to the purchasers of real estate and some of the money was used to improve properties in which the applicant and his co-defendants were interested. Immediately prior to the arrest, the real estate market in Philadelphia became very much deflated, values dropped and many of the loans became unsound. As a result of the investigation of the State Banking Department the latter took over the books and papers of the association and found a hopeless financial muddle which was followed by the arrest of the applicant and his associates.

The applicant has now served five years of his term of imprisonment. He was never before charged with or convicted of crime. He is the sole support of an aged and infirm mother, seventy-six years of age, who is now in destitute circumstances. All of the men who were convicted at the same time and charged with the same offenses have been either paroled or have had their sentences commuted by this Board. The sentences of Roreman and Marbin were commuted almost a year ago. Lush was paroled in November, 1927. Griver served his full sentence and is now discharged from prison.

There were filed with the Board a number of letters recommending clemency from the County Controller of Delaware County and prominent citizens of Philadelphia.

A representative of the District Attorney's office present at the oral hearing of this applicant stated that they did not oppose clemency; and that four of the applicant's co-defendants have received shorter sentences and are now out of jail.

In consideration of all the circumstances of this case, the prior good record of the applicant; the term of imprisonment already served; because of the fact that the applicant is the sole support of his aged mother who is in destitute circumstances; because of the recommendations of the County Controller of Delaware County and other prominent citizens who are personally acquainted with the applicant, and in further consideration of the fact that the District Attorney's office is not opposed to the present application, and that the applicant's co-defendants are at liberty, we have concluded that he has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to five years' imprisonment, effective on November 6, 1930.

We, therefore, "after full hearing, upon due public notice, and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said William D. Rodgers be commuted to five years' imprisonment, expiring on November 6, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
WILLIAM A. SCHNADER,  
Attorney General.  
JAMES F. WOODWARD  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 906, May Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Andrew Vogt pleaded guilty to an indictment charging

him with assault and battery, aggravated assault and battery and assault and battery with intent to kill, and on May 23, 1929, was sentenced to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than two years, nor more than four years.

The applicant is thirty-eight years of age. At the time of his arrest, he was engaged in the produce business in Philadelphia. He is unmarried.

On the morning of May 5, 1929, between eight and nine o'clock, the applicant in company with six other men left his boarding place, where they had been all night drinking. When they reached the corner of Jasper and Somerset Streets, they began pushing one another with the result that the applicant became angry, made objection, words passed, and the applicant pulled out a pistol and shot Thomas Dowdell (one of the party) in the chest and William Norton (another companion) in the neck.

The testimony in the case was not transcribed, but Dowdell and Norton, the victims of the shooting, filed with the Board an affidavit in which they recite the above facts and aver that the shooting was the result of the drunken condition of the applicant as a result of the night's party; that they do not believe, had he been in his proper senses, he would have inflicted any bodily injury upon them. They further state that they have no hatred or animosity toward the applicant, and join in his petition for a pardon.

The applicant has now served one year and six months of his term of imprisonment. His prior record is good with a single exception. In 1915, he received a sentence of three months for the larceny of an automobile, but the sentence was subsequently reduced and he was placed on probation for one year.

In consideration of all the circumstances of this case; the prior good record of the applicant with a single exception; because of the term of imprisonment already served, and more particularly because of the statements contained in the affidavit of Dowdell and Morton, the victims of the shooting and their favorable attitude, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and six months' imprisonment, effective on November 25, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Andrew Vogt be commuted to one year and six months' imprisonment, expiring on November 23, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1296, 1298 and 1300, March Term, 1926, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, William Kennedy pleaded guilty to three indictments charging him with assault, being armed with an offensive weapon and on April 5, 1926, he was sentenced in the aggregate by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than twenty-five years, nor more than fifty years. Francis O'Tery was jointly indicted and convicted with the applicant and received a like sentence.

The applicant is twenty-one years of age, a native-born citizen of the United States. Shortly before his arrest he was a student in the public schools of Philadelphia and lived with his mother and sister in that city.

Early in 1926, while the applicant was a school boy sixteen years of age, he was persuaded by evil associates to leave home and was subsequently influenced by them to commit certain crimes, the character of which can be briefly described as follows:

On March 13, 1926, the applicant together with one, Francis O'Tery, being armed with offensive weapons, took the sum of fifty-three cents from one, Milton Barto. On the same day the applicant, together with O'Tery assaulted one, David Koldner, from whom it does not appear that they obtained any money or goods of any nature whatsoever. Later on the same day, the applicant and O'Tery assaulted one, Edward Cronin of Burlington, New Jersey, from whom they are alleged to have obtained goods to the value of eleven dollars. The applicant having been arrested and charged with the commission of these offenses, pleaded guilty and was sentenced as hereinbefore stated.

The applicant has now served four years and seven months of his term of imprisonment. He was never before charged with or convicted of crime. At the time of the commission of these offenses he was a school boy only sixteen years of age. These offenses were all committed on the same day and the result of impulse rather than criminal tendencies. No actual violence was employed.

There was filed with the Board a letter from Doctor Herbert Goddard, Vice-President of the Board of Trustees of the Eastern Penitentiary, in which he strongly recommends clemency. The trial Judge has filed with the Board a letter in which he states that he has watched the applicant's progress in the Penitentiary and that he seems to have developed an entirely different outlook on life and that he believes that he has undergone a regeneration. He concludes: "If in view of what the authorities report, your Board should see fit to grant him a commutation, I think it would be well worth the experiment."

In consideration of all the circumstances of this case; the extreme youth of the applicant when these crimes were committed; his prior good record; the long term of imprisonment already served and because of the strong recommendation for clemency on the part of Doctor Goddard, Vice-President of the Board of Trustees of the Penitentiary, and the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to four years and seven months' imprisonment, effective on November 5, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed upon the said William Kennedy be commuted to four years and seven months' imprisonment, effective on November 5, 1930."

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 3, June Sessions, 1929, in the Court of Oyer and Terminer, in and for the County of Luzerne, Luigi Bonomo, alias Luger Bonman, pleaded nolo contendere to an indictment charging him with statutory rape, and on June 15, 1929, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than four years nor more than eight years.

The applicant at the time of his sentence was twenty-two years of age. He is of Italian descent but American born. He is by occupation a laborer in the mines.

On the evening of March 24, 1925, the applicant, in company with three other boys, in an automobile belonging to one of the number, took two girls to the outskirts of the Borough of Yatesville. The one girl of Polish descent was apparently more than sixteen years of age; the other, an Italian girl who appeared mature and more than sixteen years of age, was only fifteen years of age. The boys bought ice cream and cigarettes and treated the girls. When they came to a woods, the applicant and the Italian girl left the others and the latter alleged that the applicant committed fornication. The other girl reported the matter to the local police, who apprehended the boys but only the applicant was arrested. There was no element of bastardy in the case. While the applicant was out on bail, he offered to marry the girl, but the girl's stepfather refused to permit the marriage and countered with a proposal that the applicant pay him the sum of fifteen hundred dollars. No charges were made against the other occupants of the car and the applicant, believing that he might be shown mercy, pleaded *nolo contendere*, but received the sentence above stated.

The applicant has now served one year and five months of his term of imprisonment. He was never before charged with or convicted of crime. He offered to marry the girl. Since the age of sixteen years, he has helped to support the family which is now in destitute circumstances, the mother being seriously ill and the minor children without means of support. The applicant was only twenty-two years of age when the crime was committed.

In consideration of all the circumstances of this case, the youth of the applicant when the crime was committed; the term of imprisonment already served; his prior good record; the need which his family has of support, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and five months' imprisonment, effective on November 15, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Luigi Bonomo, alias Luger Bonman, be commuted to one year and five months' imprisonment, expiring on November 15, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 65, February Sessions, 1928, in the Court of Oyer and Terminer in and for the County of Luzerne, Edward Doucett pleaded guilty to an indictment charging him with pandering, and on June 9, 1928, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years nor more than ten years.

The applicant is thirty-seven years of age, of French-Canadian parentage, but born in the United States, and is by occupation an iron worker. At the time of his arrest, he conducted a gasoline station and store, on the State Highway near Shickshinney, Luzerne County, and also kept a hotel in Alden. He resided in Newport Township, Luzerne County. He is married.

The Commonwealth alleged that the applicant in his hotel in Alden, and at his gasoline station on the State Highway near Shickshinney, maintained a bawdy house. Mary Michaelowski, the applicant's alleged sweetheart, engaged in prostitution at his home in Alden. The applicant traveled to Scranton

for the purpose of purchasing merchandise, such as candy and tobacco, etc., which he sold in his places of business. While eating in a lunch room, he became acquainted with Salvatore Pasqualle, Daniel Palmatissa, Charles Moskowitz and Isadore Zeigler. As a result of this acquaintance, he drove Pasqualle and Mary, his alleged sweetheart, to the city of Wilkes-Barre and thence to his hotel in Alden. On or about November 12, 1926, the Shawnee Inn, conducted by Ruth Ferris, located in the Borough of Plymouth, was raided by State troopers. As a result of a statement made by Mary Michaelowski, who was in the Inn, the four men and the applicant were arrested and charged with pandering. It was further alleged by the Commonwealth that Mary Michaelowski had been reported missing from the city of Scranton; that the police were searching for her and finally traced her to Luzerne County. It is further alleged by the Commonwealth that the applicant knew of this, after which he and the other defendants transported her to Shickshinney; that business was bad and Palmatissa finally took her to Plymouth and placed her in the Shawnee Inn where the police found her at the time of the raid. All five men were subsequently indicted for pandering. All entered pleas of not guilty. At the trial Pasqualle was found guilty on all counts and was sentenced to from five to ten years in the Luzerne County Prison. Palmatissa and Zeigler were found guilty on one count and sentenced to from three to six years, while Moskowitz was acquitted. The applicant failed to appear for trial and his bail was forfeited. Later he was arrested and pleaded guilty. He was first sentenced to the County Prison, but upon his own request the sentence was modified, and he was sent to the Eastern Penitentiary. He also pleaded guilty to the charges of keeping a bawdy house in Alden, but sentence was suspended on the latter charge.

The applicant has now served two years and five months of his term of imprisonment. He was never before charged with or convicted of crime.

There was filed with the Board, a numerously signed petition of citizens certifying that they have known the applicant upwards of five years and that "his reputation in the community as an honest, industrious and law-abiding citizen is of the very best."

In consideration of all the circumstances of this case; the prior good record of the applicant, and the term of imprisonment already served, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to two years and five months' imprisonment, effective on November 9, 1930.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Edward Doucett be commuted to two years and five months, effective on November 9, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 5 and 6, April Sessions, 1930, in the Court of Oyer and Terminer in and for the County of Clinton, Dean W. McAulay pleaded guilty to two indictments charging him with burglary and larceny and on May 1, 1930, was sentenced by the Court in the aggregate to pay a fine of two dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than two years nor more than four years.

The applicant is a native-born citizen of the United States, twenty-nine years of age, a tinner and carpenter by occupation. At the time of his arrest, he resided in Lock Haven, Pennsylvania. He has a wife and three children, aged nine, seven and three years respectively, residing in Salona, Penn-

sylvania. The wife is in poor health. The family is in destitute circumstances and a charge on the poor district.

James Fred Stahl, who was jointly indicted and convicted with the applicant, came to board at the latter's home about two weeks before the alleged crimes were committed. On the evening of February 15, 1930, Stahl took a truck which belonged to the applicant, without the applicant's knowledge, and robbed two stores in Lock Haven and took merchandise therefrom to the home of the applicant. The following day, Chief of Police Harvey and the Game Warden came to the applicant's home and made a search for the merchandise which had been stolen the previous night. When the applicant learned what the officers were looking for he gave them the merchandise in the same condition as it was when it was brought there by Stahl. The value of the merchandise was \$17.86.

Stahl and the applicant were both arrested and placed in the Lock Haven jail from which Stahl escaped. He tried to induce the applicant to leave with him, but the applicant refused to accompany him. Stahl has never been apprehended. The applicant being unable to read or write other than to sign his name, and thought when he pleaded guilty that he was pleading guilty to having stolen goods in his possession and not to the charge of burglary and larceny as laid in the indictment. The applicant took no part in committing the crime; had no knowledge of its commission, and did not leave his home on the night of the robbery.

The applicant has now served approximately seven months of his term of imprisonment. He was never before charged with or convicted of crime. His wife is in poor health. His family is in destitute circumstances and a charge on the poor district.

There were filed with the Board, a number of letters recommending clemency. Assistant United States Attorney Reich writes the Board that the applicant has been of considerable assistance to the Department of Justice in connection with the investigation of violations of the Federal Law and asks that the Board take this into consideration when acting on the present application. The trial District Attorney writes the Board that he believes that the applicant was led astray by Stahl; that he is easily influenced, but if given a chance he believes he will become a good and useful citizen. He recommends that the applicant be paroled but not pardoned. The two associate Judges of Clinton County in a letter filed with the Board, recommend that the applicant be not pardoned but paroled so that he can work and support his family which is destitute. The prosecutor in the case writes the Board recommending clemency believing that the applicant has been sufficiently punished and that he was influenced by Stahl. The Alderman who originally heard the case in a letter filed with the Board indicates that he favors clemency. William Neff, a contractor, writes the Board that the applicant's family requires his support and that if he is released, he will give him employment.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the recommendations of the trial District Attorney, the assistant United States District Attorney, the associate Judges, the prosecutor, and the Alderman who originally heard the case; because of the destitute condition of the applicant's family, and the further fact that employment has been offered the applicant if released, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to seven months' imprisonment, effective on December 1, 1930.

We, therefore, "after full hearing, upon due public notice, and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Dean W. McAulay be commuted to seven months' imprisonment, expiring on December 1, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 108 and 119, February Sessions, 1929, in the Court of Oyer and Terminer in and for the County of Northampton, Michael Long was convicted of felonious arson and conspiracy, and on October 7, 1929, was sentenced by the Court, on No. 119, charging felonious arson, to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than two and one-half years nor more than five years. Sentence was suspended on No. 108, charging conspiracy.

The applicant is a native of Austria-Hungary, thirty-nine years of age. He is now a naturalized citizen of the United States. At the time of the commission of the crimes with which he is charged, the applicant conducted a retail milk and dairy business in the City of Bethlehem. He is married and the father of six minor children.

The applicant came in contact with one, Frank Terr, who was likewise in the milk and dairy business, wholesale and retail. Terr had considerable difficulty in competing with another wholesale and retail dealer, Alfred T. Helms, and suggested to the applicant that he procure someone to burn down Helms' dairy. The applicant mentioned this conversation to one, Peter Toliczski, who suggested one, Joseph Hochauser, to do the burning. The applicant took Hochauser to a point within five hundred yards of the Helms' dairy on September 22, 1928, the day on which the dairy was burned. Hochauser was jointly tried and convicted with the applicant for the crime of felonious arson and has since been committed to the Farview State Hospital for the Criminal Insane at Waymart. After the burning, the applicant delivered money, the exact amount of which is unknown, from Terr to Toliczski to be delivered to Hochauser. The applicant pleaded guilty to the charge of conspiracy. Terr, who was acquitted on the charge of arson, because of lack of evidence, pleaded not guilty to the charge of conspiracy. Before the trial, the applicant communicated with the District Attorney's office and co-operated with them in an effort to secure the conviction of Terr in the conspiracy case. At the trial, the applicant testified against Terr who was convicted, and is now serving a sentence of not less than two nor more than four years in the Northampton County prison. There was no evidence that the applicant received any of the money received by Terr nor received any benefit from his criminal acts.

The applicant has now served one year and one month of his term of imprisonment.

The trial Judge has filed with the Board a letter in which while not recommending pardon, he states that he does not oppose it. He also states that Terr was the moving spirit in the commission of the crime and that he would not have been convicted without the co-operation of the applicant who is entitled to consideration because of this fact. The trial District Attorney has filed with the Board, a strong letter recommending clemency in which he states that Terr instigated the commission of these crimes. He also stated that the applicant bore a good reputation in his community. Frank P. McCloskey, attorney for Helms, who assisted the District Attorney in the prosecution of Terr, has filed with the Board, a letter in which he states that it was through the testimony of the applicant that Terr the instigator of the burning of Helms' creamery was convicted, and that the applicant would have taken no part in the commission of this crime had it not been for the persuasion of Terr. The Treasurer of the E. P. Wilbur Trust Company of Bethlehem also recommends clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant with a minor exception; the term of imprisonment already served; because of the fact that the applicant's wife and six children are in destitute circumstances and require his support; because of the fact that Terr, the master mind in these crimes, was acquitted on the charge of arson, because of the recommendations of the trial District Attorney, the Treasurer of the E. P. Wilbur Trust Company and others, and because of the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the

minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and one month's imprisonment, effective on November 7, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Michael Long be commuted to one year and one month's imprisonment, effective on November 7, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1095 to 1097, inclusive, and Nos. 1165 to 1177, inclusive, of May Sessions, 1929, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, Morris Mogerma pleaded guilty to indictments charging him with subornation of perjury; fraudulently procuring to be acknowledged recognizance in the name of another person not consenting thereto, and conspiracy to procure the fraudulent taking of surety, and on May 28, 1929, was sentenced by the Court, on No. 1177, charging subornation of perjury, to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than two years nor more than seven years; to date from May 14, 1929. On the same day sentence was suspended on No. 1176, charging subornation of perjury, and defendant placed upon probation for the period of seven years from and after the expiration of sentence upon bill No. 1177.

The applicant is thirty-six years of age and a native of Russia. He came to this country when sixteen years of age and has resided in Philadelphia since that time. He is now an American citizen.

Applicant for the past twelve years has been engaged in the restaurant business in said city. Prior thereto, he conducted a cigar and candy store for five years. He has a wife and three children, aged sixteen, fourteen and six years, respectively.

The charges against the applicant arose from the alleged course of conduct by and between Simon Shapiro and one, Harry Roiter. In April, 1928, Shapiro (Whose real name is Robert Shapiro.) and the applicant decided to use the deed to a certain piece of real estate, located at No. 2624 Warnock Street, Philadelphia, owned by Robert Shapiro's father, as bail and in the course of a year Robert Shapiro, under the name of Simon Shapiro, entered thirty-seven bonds, involving forty-one defendants and amounting to a total of twenty-five hundred dollars. A number of the defendants so bailed were never produced, nor did they appear at the time of their trials and nine bonds were sued out by the County of Philadelphia to the amount of fifty-four hundred dollars. The assessed value of the property in question was alleged by the two men to be thirty-five hundred dollars, whereas the actual assessment was only twenty-five hundred dollars, and the encumbrance was stated to be eighteen hundred dollars, when in fact it amounted to twenty-eight hundred dollars. In addition, when bail was entered, they falsely stated that there was no bail outstanding. Shapiro and the applicant in the furtherance of their scheme decided to take title to another piece of real estate for the purpose of entering additional bail, and a piece of real estate at Oak Lane Avenue, Philadelphia, the title to which was then in the name of Norman Goldstein, was conveyed to their nominee, one Charles Katz, who was a fictitious person and turned out to be Shapiro himself. This property was assessed at twenty thousand dollars, although the assessment in the bail bond as entered was given as twenty-five thousand dollars. In addition, the encumbrances as set forth

when bail was entered were fixed at two mortgages, when in truth there were three to the amount of twenty-five thousand dollars. This deed was entered by Shapiro, under the name of Charles Katz, twenty-eight times, involving twenty-eight defendants. When this deed was first presented the first man used by them to enter bond was Harry Roiter, who entered three bonds in one day aggregating eighteen hundred dollars. Shapiro, under his father's name, Simon Shapiro, identified the person named in the deed. The prisoner and Shapiro were accustomed to enter this bail at various Magistrates' Courts in the police stations of the city and the history of their activities indicates that the applicant introduced Robert Shapiro as Charles Katz and in one case identified him as such on the bail-piece and that the applicant, in addition, gave a fictitious name in the identification, to wit: that of Max Kaplan.

The applicant has now served one year and six months of his term of imprisonment.

Prior to his pleas of guilty the applicant by his counsel entered into an agreement with the District Attorney's office, whereby the said office would recommend that the applicant have imposed upon him on all the bills of indictment a flat sentence of two years' of imprisonment in the county prison. This agreement was made with John H. Maurer, Assistant District Attorney, but the Court was not a party thereto. Relying upon this information conveyed to the applicant by his counsel the former agreed to enter pleas of guilty. Notwithstanding the agreement of counsel referred to, the trial Judge imposed the sentence above stated, refusing to follow the suggestion of the District Attorney's office.

The family of the applicant, as a result of his imprisonment, is in dire need and his wife has been compelled to seek employment in order to support the family.

In consideration of all the circumstances of this case; the term of imprisonment already served; because of the fact that the applicant was moved to enter pleas of guilty as the result of an agreement between his counsel and the District Attorney's office, which the Court declined to ratify; because of the need which the applicant's family has of support, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and six months' imprisonment, effective on November 14, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Morris Mogerma be commuted to one year and six months' imprisonment, expiring on November 14, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1296, 1298, and 1300, March Sessions, 1926, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Francis O'Tery pleaded guilty to three indictments charging him with assault, being armed with an offensive weapon, and on April 5, 1926, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than twenty-five years, nor more than fifty years. William Kennedy was jointly indicted and convicted with the applicant and received a like sentence.

The applicant is a native-born citizen of the United States, twenty-two years of age. Prior to his arrest for the present offenses he had been employed in a box factory and by the

Wagner Electric Company, and resided with his parents in the city of Philadelphia.

Early in 1926, the applicant, then being seventeen years of age, together with one William Kennedy, committed a series of crimes, the character of which can be briefly described as follows:

On March 13, 1926, the applicant together with Kennedy, being armed with offensive weapons, took the sum fifty-three cents from one Milton Barto. On the same day, together with said Kennedy, they assaulted one, David Koldner, from whom it does not appear that they obtained any money or goods of any nature whatsoever. Later on the same day they assaulted one Edward Cronin, of Burlington, New Jersey, from whom they were alleged to have obtained goods to the value of eleven dollars. The applicant having been arrested and charged with the commission of these offenses, pleaded guilty thereto and received the sentence hereinbefore stated.

The applicant has now served four years, seven months of his term of imprisonment. No actual violence was employed in the perpetuation of these crimes. During his incarceration he has learned the printing trade and has become an expert linotypist and can doubtless obtain a permanent position if released. William Kennedy, his co-defendant, has been pardoned by this Board.

In consideration of all the circumstances of this case; the extreme youth of the applicant when these crimes were committed; the term of imprisonment already served; because of the fact that during his incarceration he has learned a trade which will insure permanent employment if released, and in consideration of the fact that his co-defendant, William Kennedy, has already been pardoned by this Board, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to four years and seven months' imprisonment, effective on November 5, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Francis O'Tery be commuted to four years and seven months' imprisonment, expiring on November 5, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania,

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 52, September Sessions, 1924, in the Court of Quarter Sessions of the Peace in and for the County of Centre, John Kelly, alias John McBurney, pleaded guilty to an indictment charging him with breaking and escaping from the penitentiary, and on August 18, 1924, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than ten years nor more than twenty years; sentence to be computed from the completion of the present sentence from Westmoreland County for murder. Subsequently, on October 4, 1924, the sentence theretofore imposed on the applicant was cancelled and sentence was suspended.

The applicant is a native-born citizen of the United States, thirty-three years of age. He is unmarried. He became a carpenter and later intended to enter the automobile business and pursued a course of instruction in a school at Youngstown, Ohio. His last residence was at the home of his grandmother in Westmoreland County.

When thirteen years of age, the applicant was convicted of taking a gun from his stepfather's trunk and was sentenced to the Morganza Reform School and discharged at the termination of two years and nine months. On March 30, 1915, at the age of eighteen years, the applicant was arrested and charged with blowing up the house of Noah Pannazzi in Derry Township, Westmoreland County, with dynamite, causing the death of five persons. At No. 5, May Term, 1915, in the Court of Oyer and Terminer, for said County, he was convicted of murder and recommended to the extreme mercy of the Court. On May 21, 1915, he was sentenced to a term of from fifteen years and three months to twenty years in the Western Penitentiary. The applicant's conviction of murder was brought about by an unfriendly cousin, one George Donahue, who a few days afterwards confessed that his testimony at the trial was false. Nevertheless, the applicant's attorneys (having been appointed by the Court for his defense) made no effort to secure a new trial for him and he was committed to the penitentiary as sentenced.

On October 2, 1923, the applicant was transferred to Rockview and assigned as a nurse in the hospital. His duties were unpleasant and he applied for a transfer which was given him. However, he was so discontented on account of his experience in the hospital, that he determined to escape. On the eve of August 10, 1924, he left the prison farm. Several hours later he was apprehended while walking along the railroad towards Tyrone.

The applicant has now served sixteen years and three months in the penitentiary, being more than the minimum term of his original sentence for murder.

The present District Attorney has filed with the Board, a letter in which he states that the facts set forth in the application are correct and that he knows of no reason why pardon should not be granted. The trial Judge is dead. The present Judge has filed with the Board a letter in which he recommends clemency. Fred B. Healy, Clerk to the Board of County Commissioners of Center County, and a former Deputy Warden of the Penitentiary, writes the Board that the applicant was a model prisoner; that he is easily influenced and when the other two men of a more hardened type prevailed upon him to escape, he did not have the will-power to refuse. He recommends clemency.

In consideration of all the circumstances of this case; the long term of imprisonment already served; because of the favorable attitude of the present District Attorney; the recommendation of the present Judge and of the former Warden of the Penitentiary, we have concluded that the applicant has been sufficiently punished, so far as the sentence for breaking and escaping penitentiary is concerned, and that if now pardoned on the latter charge, he will become eligible to parole on his original sentence for murder.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John Kelly, alias John McBurney, for breaking and escaping penitentiary.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 372, November Sessions, 1926, in the Court of Quarter Sessions of the Peace, in and for the County of Allegheny, Charles F. Golden was convicted of conspiracy; making a false count and a false return of an election and failing to deliver ballot box with tickets, voters' list and other papers enclosed, and on February 24, 1928, was sentenced in the aggregate by the Court to pay a fine of eighteen and three-quarter

cents, costs, and to undergo imprisonment in the Allegheny County jail for a period of one year. J. W. Bolster, who was jointly indicted and convicted with the applicant, received a like sentence. Mrs. Anna Conklin, who was also jointly indicted with the applicant, was convicted of making a false count and a false return of election and recommended to the extreme leniency of the Court.

The applicant is a native-born citizen of the United States, forty-three years of age. He is a life-long resident of the city of Pittsburgh. At the age of twenty-two years, he entered the service of the city as a fireman in the Bureau of Fire, Department of Public Safety, serving continuously until the date of his sentence and rising by successive promotions to the rank of Captain. He is married and has a daughter aged seventeen years.

On October 5, 1928, after having served seven months and nineteen days of his sentence, he was paroled by the Court, and at the expiration of his sentence, on February 23, 1929, was discharged from parole.

The election involved in the applicant's conviction and sentence was the Primary Election held in the County of Allegheny on May 18, 1926. His co-defendants were election officers, but the applicant was not a member of the Election Board, nor connected therewith.

The applicant as already stated served seven months and nineteen days of his term of imprisonment, was discharged on parole and since February 23, 1929, has been at liberty. By reason of his conviction and sentence, he is not only disqualified as a voter, but cannot re-enter the employ of the Bureau of Fire, Department of Public Safety, in order to complete the few months' service necessary to entitle him to the pension provided by the ordinances of the city and the laws of Pennsylvania. He was never before charged with or convicted of crime.

There were filed with the Board a number of letters recommending clemency. The trial District Attorney in his letter filed with the Board says inter alia, with reference to the present application, "As a result of his conviction and sentence he has been disfranchised and finds it very difficult to get a position. A number of defendants later convicted of practically the same offense, were let down with a much lighter sentence than Golden; therefore, I would favor that he be granted a pardon at this time, which would restore his civil rights." The Warden of the County Prison certifies to the applicant's excellent record. The Chief of the Bureau of Fire recommends clemency. The director of physical education, Y. M. C. A. of Pittsburgh, certifies to the applicant's good conduct. The Mayor of the city also recommends clemency. Representative Wettach and Senator Coyne recommend pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; his excellent prison record; because of the fact that since his discharge from parole he has deported himself well; in consideration of the fact that if pardoned he may resume all the rights of citizenship and qualify himself for a pension under the Fire Department of the city of Pittsburgh; and because of the recommendations of the trial District Attorney, the Mayor of the city, Senator Coyne, and other prominent citizens of the city of Pittsburgh, we have concluded that the applicant has been sufficiently punished and that if now liberated, will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Charles F. Golden.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 43, June Sessions, 1926, and Nos. 4, 5, 6, 17, 22, 23, 24, 25, 27, 28, 30, 32, 35, 41, and 45, September Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Allegheny, Bernard Harris pleaded nolo contendere and guilty upon numerous charges of robbery and receiving stolen goods, and on September 27, 1926, was sentenced in the aggregate to pay a fine of eighteen and three-quarter cents, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than five years, nor more twenty-five years. Sentences were imposed on Nos. 4, 17, and 22, September Sessions, 1926, and suspended on the remaining indictments.

When the application for pardon came to be heard by the Board, counsel for the applicant withdrew from the consideration of the Board, all of the sentences except the one imposed at No. 22, September Sessions, 1926, and the application was heard and considered upon said sentence alone, which was as follows, to wit, a fine of six and one-quarter cents, costs, and imprisonment of not less than one year, nor more than five years in the Western Penitentiary; this sentence to begin and take effect at the expiration of sentence at No. 17, September Sessions, 1926.

The applicant is a native-born citizen of the United States, of Jewish descent. He lost his mother in 1921 and the father was so engrossed in his business as a wholesale and retail dealer in tobacco that the applicant was neglected and fell in with evil companions. In 1925 he was arrested for stealing an automobile and sentenced for a period of from three to six months in the County jail, although he claimed that he did not know that the man who was driving and who had invited him into the car had stolen the automobile.

The applicant, together with four other men associated themselves together, in May, 1926, in a series of robberies and received stolen goods in connection therewith. They were armed with revolvers and assaulted pedestrians on the highway and relieved them of valuables and money, all of which led to his trial and conviction. The applicant was the youngest of his companions and was under their influence and domination. He neither carried nor had in his possession a revolver, but drove the automobiles used in their escapades and at no time did he leave the automobile for the purpose of committing crime.

The applicant has now served four years and two months of his term of imprisonment. He was never before charged with or convicted of crime, except in the one instance above mentioned. The Warden of the Western Penitentiary certifies to the applicant's excellent prison record.

There were filed with the Board a number of letters recommending clemency. The assistant trial District Attorney writes to the Board that he has no objection to the granting of a pardon in No. 22, September Sessions, 1926, the last sentence imposed, whereby the applicant would be placed on parole for the remainder of the maximum sentences in the other cases. The trial Judge has filed a letter with the Board in which he states that the purpose of the three sentences and the suspension of the remaining sentences was to give the applicant a course of training which would make it probable that at the expiration of the minimum sentences, he could be released on parole for a long enough period with the probability that he could live at liberty and obey the law. He further states that his release should depend upon his prison record and state of health and mind, and that if the Board is satisfied that he will live an orderly life if released, he would not object to a pardon on the last indictment, whereby he would become eligible for parole on the two sentences, amounting to a minimum of four and a maximum of twenty years, leaving a parole period of more than fifteen years. One of the prosecutors in the case writes the Board that the applicant was the youngest of the gang and that his part in the crimes was driving the automobile. He states that he does not believe that he was one of the hold-up men, nor that he carried a gun. He recommends clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant with a single exception; the term of imprisonment already served; his excellent prison

record; because of the favorable attitude of the trial Judge and one of the prosecutors in the case and the recommendations of persons personally acquainted with the applicant and his family, we have concluded that he has been sufficiently punished, so far as relates to the sentence imposed at No. 22, September Sessions, 1926. Nevertheless, the remaining two sentences shall stand.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Bernard Harris, on sentence imposed at No. 22, September Sessions, 1926.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., November 26, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 5, September Sessions, 1922, in the Court of Oyer and Terminer, in and for the County of Huntingdon, Herbert J. Bryson was convicted of murder in the second degree, and on January 5, 1923, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than fourteen years, nor more than eighteen years.

The applicant is a native-born citizen of the United States, fifty years of age, and a physician by profession. At the time of his arrest for the present offense he was engaged in the active practice of his profession in Cassville, Huntingdon County, Pennsylvania. His proper place of residence is Washington, D. C.

In 1908 the applicant enlisted in the National Guard of the District of Columbia, serving until 1917. While in the Guard he served as a medical officer on the Mexican Border. Upon the entry of the United States into the World War, he was assigned to the Forty-second or Rainbow Division, as a major. In October, 1917, he embarked for France. He participated in the Chateau Thierry, and St. Mihiel offensive and Argonne defensive and offensive. Later, he was assigned to the Army of Occupation. After overseas service of more than two years, he returned and was honorably discharged from the service in August, 1920. He resumed practice at Washington. Upon his return to civil life, he found difficulty in readjusting himself to routine affairs, due in part, at least, to the fact that he was afflicted with a form of paresis, as the uncontradicted testimony at the trial later developed. While in a disturbed mental state, produced or aggravated by his service overseas, he became infatuated with a married woman named Helen Haines, considerably beneath him in breeding and social standing. He left a fairly lucrative practice, abandoned his family and friends in Washington, and removed to Robertsdale, Huntingdon County, Pennsylvania, in 1920, where he was joined by this woman, who with his sanction, posed as his wife. After a short time he moved to Cassville, a small mining town in the same county. On the evening of April 8, 1922, the tragedy occurred, which resulted in the death of Helen Haines, and the applicant's arrest on the charge of murder. The only real evidence against the applicant was the dying declaration of the deceased, in which she stated that they had engaged in an altercation about some trivial matter, during which she had thrown a lamp at him and fled to her room; that he then followed her, broke open the door and shot her. The cause of the quarrel was not revealed in the testimony, but was later learned to be an unjustifiable, jealous accusation against him and one of his patients. Her dying declaration was to some extent substantiated by circumstantial evidence. She was taken to the hospital at Huntingdon where she was operated upon in an

unavailing effort to save her life. At the trial, counsel for the applicant interposed the defense of insanity, and showed by testimony of numerous experts that he was suffering from paresis, which had affected him mentally as well as physically. That this evidence was a mitigation of the offenses in the minds of the jury is shown by their verdict of murder in the second degree.

The applicant has now served seven years and ten months of his term of imprisonment. Prior to his sentence, he had been imprisoned since April 8, 1922. He was never before charged with or convicted of crime.

There were filed with the Board a number of letters recommending clemency. The trial Judge who in 1924 opposed a pardon, has filed with the Board a letter dated August 14, 1930, in which he states: "I am thoroughly satisfied that the ends of justice have now been met in this case, and that this application should be favorably considered." The trial District Attorney has filed with the Board a letter in which he states, *inter alia*: "I feel Doctor Bryson has been sufficiently punished and favor his application for pardon. As a physician he was a man of unusual intelligence and ability before he got into this trouble and if released from prison now, he no doubt would be a useful citizen." Samuel I. Spyker, who assisted the District Attorney in prosecuting the applicant, writes the Board that he has personally observed the applicant during his imprisonment and believes that his pardon would be entirely right and proper at this time and therefore recommends clemency.

Doctor Sandy, Director, Bureau of Mental Health, Pennsylvania Department of Welfare, by request of the Board, made a physical examination of the applicant, in October, 1930. In his report to the Board, he concludes that the applicant had a stroke or shock of some severity, of probable syphilitic origin, but that present indications do not indicate that he was a victim of paresis. He concludes: "There is no indication of mental disease at this time," and recommends that he be granted clemency.

In consideration of all of the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; and because of the recommendations of the trial Judge, trial District Attorney, the attorney who assisted in the prosecution and Doctor Sandy, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to seven years and ten months' imprisonment, effective on November 5, 1930.

We, therefore, "after full hearing, upon due public notice, and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Herbert J. Bryson be commuted to seven years and ten months' imprisonment expiring on November 5, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2 May Term, 1925, in the Court of Oyer and Terminer, in and for the County of Westmoreland, George Nahas was convicted of felonious arson, and on September 2, 1927, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than five years, nor more than ten years.

The applicant is a native of Syria, but a naturalized citizen of the United States, forty-one years of age. At the time of

his arrest he was employed as a mill worker in the Monessen Plant of the American Sheet and Tin Plate Company, but owing to the depression in the steel business, worked but two or three days per week and in addition thereto, canvassed from house to house for a Pittsburgh concern selling Walker Products. The applicant is unmarried and resided in the City of Monessen.

The fire which was made the basis of the present charge, occurred on March 16, 1925, between the hours of 2.00 and 2.30 A. M., in a building owned by James Nahas, in the City of Monessen. The latter was a distant relative of the applicant. The building involved in the charge of arson, was a brick structure, four stories high, known as the Monessen Hotel Property. On the first floor James Nahas, the owner, conducted a pool room, and his upper floors were used and occupied by roomers and lodgers. A portion of the second floor was also used by James Nahas as a dwelling for himself and the members of his family. He and his family were absent on the morning of the fire, having gone to visit relatives in New Castle. The applicant occupied a room on the second floor of the building.

Before his departure for New Castle, James Nahas arranged with the applicant that the latter should manage the pool room for him during his absence. On Saturday night, March 14, at the close of business, the applicant closed the pool room, went to his room on the second floor of the building and retired for the night. He spent the greater part of the afternoon and early evening of the following day at the home of his brother-in-law, Mike Moses. In the early evening, in company with Moses, he visited the home of John Daniels, a friend, where the two remained until about 10.30 P. M. The applicant then drove Moses to the latter's home and afterwards parked his car in a garage on 12th Street, a block or more from the Nahas building in which he lived. Leaving the garage he went to a restaurant where he made the acquaintance of Isaac Bather, with whom he lunched and after they had chatted together the two separated about 1.30 A. M., the applicant going directly to the building and to his room on the second floor where he retired for the night. Sometime after two o'clock in the morning he was awakened by the noise of shots discharged in the street and cries of fire. Upon arising he discovered his room and the building were filled with smoke. Quickly getting together his clothing he threw them out of a rear window and jumped to the ground, a distance of about fifteen feet. While outside the building in the act of clothing himself, an officer accosted him and inquired if there were others in the building. The applicant replied that he did not know, but suggested that the officer enter the building, which he did. Later upon returning, the officer told the applicant he could find no other persons there. About this time the city fire department arrived and in due time the fire was extinguished. An examination of the premises later disclosed the fact that five kegs were located in different parts of the building, each containing twenty-five gallons of carbon oil. The evidence produced at the trial was entirely circumstantial. It was not shown that the applicant had any interest, financial or otherwise to destroy the building, nor was any reasonable motive shown for such action by him. The strength of the Commonwealth's case lay in the proofs that the applicant was the only occupant of the building when the fire was discovered, although it was also shown that other persons had access to the building at the time of the fire. The applicant had two trials and was both times convicted. After the second trial he became a fugitive, but was apprehended several months later and received the sentence above stated.

The applicant has now served three years and three months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent as shown by a letter filed by the Warden of the Penitentiary.

There were filed with the Board a number of letters recommending clemency from city officials and citizens of Monessen. There was also filed with the Board a letter from the trial Judge who presided at both trials, in which he strongly recommends pardon on the ground that the applicant's guilt was purely circumstantial, and because there was no proof of any motive, financial or otherwise, on the part of the applicant to burn the building. Additional strength is given to the Judge's recommendation by his statement that during his service of nine years on the bench, he had suggested the granting of a pardon in but one other case.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; and because of the recommendations of prominent citizens of Monessen who have personally known the applicant for many years; and in consideration of the strong recommendation of the trial Judge, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to three years and three months' imprisonment, effective on December 2, 1930.

We, therefore, "after full hearing, upon due public notice, and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said George Nahas be commuted to three years and three months' imprisonment expiring on December 2, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 181, September Term, 1928, in the Court of Oyer and Terminer, in and for the County of Montgomery, Lewis Finley was convicted of statutory rape, bastardy and adultery, and on February 9, 1929, was sentenced on the charge of statutory rape to pay a fine of \$100.00, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than four years nor more than eight years. On the charge of bastardy he was sentenced by the Court to pay the sum of \$50.00 to Nancy Daniels for lying-in expenses, and to enter bond in the sum of \$500.00 with approved surety to the Directors of the Poor of Montgomery County, and to pay the sum of \$5.00 per week towards the support of the male bastard child born October 26, 1928, begotten on her person by the said Lewis Finley, to be computed from this date and to continue until the child arrives at the age of sixteen years, if he should so long live. On the charge of adultery sentence was suspended.

The applicant is a native-born American citizen, forty-seven years of age. His occupation is that of acetylene gas welder and he was so employed at the time of his arrest, and for many years prior thereto, with the Cruse Kemper Corporation of Ambler, Pennsylvania. He resided at Spring House, Lower Gwynedd Township, Montgomery County. He has a wife and child about ten years of age. At the time of his arrest the applicant was living in the family relationship with his wife and child.

The applicant, a married man, was charged with having committed the crimes above referred to on the person of Nancy Daniels, the thirteen-year-old stepdaughter of Earl Leamey.

The applicant has now served one year and ten months of his term of imprisonment. He was never before charged with nor convicted of crime; his wife and child are in destitute circumstances and his wife is required to support herself and child on her own earnings.

There was filed with the Board a number of letters recommending clemency, also a numerously-signed petition of the friends and neighbors of the applicant, in which they ask clemency on the ground that the applicant has been sufficiently punished and that his wife and son are in need of his support.

The trial Judge, in a letter addressed to the attorney for the applicant and filed with the Board, states, in acknowledging receipt of a copy of the application for pardon: "I will further add that the case is one in which the Board of Pardons, in my opinion, should give favorable consideration."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; the destitute condition of the applicant's wife and child; because of the petition of citizens and numerous letters filed recommending clemency; and in further consideration of the recommendation of the trial Judge; we have concluded that the applicant has been sufficiently punished in so far as the charge of statutory rape is concerned, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court for the said offense should be commuted to one year and ten months' imprisonment, effective on December 9, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Lewis Finley for the crime of statutory rape, be commuted to one year and ten months' imprisonment, expiring on December 9, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 207, 208, and 209, July Sessions, 1925, and at Nos. 377, 378, and 379, August Sessions, 1925, in the Court of Quarter Sessions of the Peace in and for the County of Philadelphia, Jean Roberts, alias Louis Ferarro, was indicted for assault and battery with intent to rob, and robbery, being armed with an offensive weapon, carrying concealed deadly weapons, aggravated assault and battery and conspiracy to rob. The applicant was convicted of robbery at No. 207 with one, Nicholas Amicone, as co-defendant, and convicted at No. 209 of carrying concealed deadly weapons. At No. 377, 378 and 379 he was jointly indicted with one, Charles Andrilla; Andrilla was acquitted by the Jury while the applicant pleaded guilty to all three bills. On July 13, 1925, he was sentenced by the Court, in the aggregate, to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than seven and one-half years nor more than fifteen years.

The applicant is a native of Italy but a citizen of the United States twenty-three years of age. He is a mechanic by occupation. He is unmarried. He was a resident of the city of Philadelphia.

The applicant appears to have led a clean life until the early summer of 1925 when he began to associate with evil companions. The first crime with which he was connected was that of robbery. He, together with one Nicholas Amicone, met a colored man at Rittenhouse Square and after some conversation, they went out to Fairmount Park. The colored man was despoiled of his clothing and both men were afterwards arrested in the park with his clothing in their possession. About a month after sentence had been imposed, a confession was made to the police by one Charles Andrilla, implicating the applicant in the robbery of Mrs. Annie Beniamo, which occurred one or two days before the previous crime. It appeared from the testimony that Mrs. Beniamo was robbed in her home of the sum of \$365.00 by several men and the applicant admitted that he was one of the men although he did not actually go into the house when the robbery was committed.

The applicant has served five years and five months of his term of imprisonment. He was never before charged with or convicted of crime. He was only eighteen years of age when these crimes were committed. Charles Andrilla, his co-defendant in the robbery of Mrs. Beniamo was acquitted by the jury. There was filed with the Board a large number of letters

recommending clemency, from persons who were personally acquainted with the applicant.

In consideration of all the circumstances of this case; the youth of the applicant when these crimes were committed; his prior good record; the term of imprisonment already served; in consideration of the fact that Andrilla, his co-defendant in the one robbery, was acquitted by the jury, and in consideration of the large number of letters filed recommending clemency, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to five years and five months' imprisonment, effective on December 13, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Jean Roberts, alias Louis Ferarro be commuted to five years and five months' imprisonment, expiring on December 13, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. WALKER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 457, 458, 459 and 460, July Session, 1928, in the Court of Oyer and Terminer in and for the County of Philadelphia, Thomas Brogan, alias Thomas C. Byers, was convicted of robbery, entering with intent to commit a felony, assault and battery, aggravated assault and battery, and assault and battery with intent to kill, and on August 3, 1928, was sentenced by the Court, in the aggregate, to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than seventeen and one-half years, nor more than thirty-five years.

The applicant is a native-born citizen of the United States, twenty-eight years of age. He is an insurance agent by occupation, but at the time of his arrest he was unemployed. He resided in the City of Philadelphia with his parents.

On about April 5, 1925, Mrs. Joseph Payne and her brother, Arthur HESSIE, were assaulted and robbed in the home of Mrs. Payne, 1062 North Sixty-seventh Street, Philadelphia, at about 1.30 P. M. At the time of the said robbery both victims were beaten about the head with a piece of pipe, and a diamond ring, valued at three hundred dollars was taken from Mrs. Payne. The person who committed the crime, after leaving the Payne house, was pursued by a number of workmen who were employed on a building operation adjoining the Payne home. He made his escape. On the same day about 5.00 P. M. detectives arrested the applicant and one Harry Harris in a drug store at Eighth and Race Streets. They were taken to the City Hall and slated as suspicious characters. About 10.30 P. M. the same evening both men were released on copies of the charge to appear the next morning for hearing before the Magistrate. That official was informed by Detective HACKETT that both men had been arrested on suspicion of the holdup and robbery of Mrs. Payne and her brother, but that they had no evidence to hold them, as their pictures were not recognized by the complainants. About three months later, to wit: July 13, 1928, the applicant and Harris were arrested and later that afternoon the applicant was identified by Mrs. Payne and her brother as the men who held them up and assaulted them. One week later the defendants were brought to trial and convicted upon the evidence of Mrs. Payne and her brother, Arthur HESSIE.

The applicant has now served two years and four months of his term of imprisonment. There were filed with the Board two letters from the trial Judge in which he states that

he believes the applicant's conviction was a case of mistaken identity; that had the same evidence been presented to him at the trial which is now before the Board in the form of affidavits, he would not have imposed sentence or at least would have granted a new trial.

A number of affidavits were filed with the Board from men employed in the building operation adjoining the Payne home and who saw the robber flee from the house. They all state that the applicant was not the fleeing robber. Other witnesses who have no interest in the case have accounted for the presence of the applicant at the time of the alleged robbery at a place far removed from the alleged occurrence. This testimony is new evidence discovered since the trial. I now appears that the crime was actually committed by one John O'Donnell, alias John Ridell, a professional criminal now serving a life term in Dannemora Prison, New York, who was in and about the City of Philadelphia at the time of the commission of this crime, and who bears a striking resemblance to the applicant.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; the term of imprisonment already served; because of the favorable attitude of the trial Judge and the affidavits of witnesses who were not heard at the trial, and whose testimony tends to show that the applicant was not the actual perpetrator of the crime, we have concluded that he has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to two years and four months' imprisonment, effective on December 3, 1930.

We, therefore, "after full hearing, upon due public notice and in open sessions," recommend that the minimum sentence of imprisonment heretofore imposed on the said Thomas Brogan, alias Thomas C. Byers, be commuted to two years and four months' imprisonment expiring on December 3, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
WILLIAM A. SCHNADER,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 476, 477 and 479, May Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Arthur R. Ball pleaded guilty to three indictments charging him with assault, being armed with an offensive weapon, with intent to rob, robbery, being armed with an offensive weapon, robbery and in the commission thereof beating, striking and ill-using, entering with intent to steal and rob, and conspiracy to enter and rob, and on May 20, 1925, was sentenced by the Court, in the aggregate, to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than ten years, nor more than twenty years. Howard Williams and William Lynch were jointly indicted with the applicant and received like sentences.

The applicant is a native-born citizen of the United States, thirty-two and one-half years of age. He is by occupation a sheet metal worker and at the time of his arrest, was employed by Walter L. Ball, Fairmount Avenue, Philadelphia, and resided in that city with his wife and three children, aged twelve, nine and seven years respectively.

On the morning of May 4, 1925, the applicant went to the saloon of Joseph Gmack, situate at the corner of Delaware Avenue and Pine Streets, Philadelphia. At 9.30 A. M., while drinking there alone, he met William Lynch, who prior thereto was unknown to him. They drank together in the saloon until 11.00 o'clock the same morning. Lynch then called a cab and together they went to an apartment at Thirteenth and Masters Streets, where they drank more liquor.

They remained there until about 1.00 P. M., when they returned to the Gmack saloon to get more whiskey. Considerable whiskey was consumed by the applicant and he was so intoxicated he was compelled to remain in the cab while Lynch went into the saloon for whiskey. The applicant remembers no more until he awoke on the floor of a rooming house at Thirteenth and Columbia Avenue about 9.00 o'clock that evening. He left this place and went to his home and went to bed. The following morning he found his watch and signet ring missing. He went to the Gmack saloon and asked Gmack if he knew the whereabouts of his watch and ring. The saloon keeper referred the applicant to a man named Smith who was in the saloon at the time and Smith advised the applicant to go to 1435 North Thirteenth Street, where he could obtain his watch and ring. Smith accompanied the applicant to the place, where, through the intervention of Smith, he recovered the watch, but not the ring. He was then arrested and taken to the Central Police Station. He was detained there about a week for identification in connection with other offenses, but he was not identified. He was then taken to Moyamensing Prison and remained there about a week, when he was brought up for trial. By advice of his counsel he entered pleas of guilty and received the sentence above mentioned. As before stated, the applicant was too intoxicated to leave the cab when they returned to the saloon at 1.00 P. M., and consequently does not know what occurred in the saloon. Gmack testified at the trial that during the occurrence in the saloon the applicant was in the cab outside, drunk.

The applicant has now served five years and seven months of his term of imprisonment. He was never before charged with or convicted of crime. His co-defendant, Williams, was pardoned by this Board at the current session. Three men, including his former employer, have offered to give him employment if he is released. Their letters are on file with the Board.

In consideration of all the circumstances of this case; the grave doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served; because employment has been offered him if released by three responsible parties; because his wife and three children require his support and because his co-defendant, Williams, who received a like sentence, has been pardoned by this Board, we have concluded that he has been sufficiently punished, and while we are not satisfied that he should have an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to five years and seven months' imprisonment, effective on December 20, 1930.

We, therefore, "after full hearing, upon due public notice, and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Arthur R. Ball be commuted to five years and seven months' imprisonment, expiring on December 20, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
WILLIAM A. SCHNADER,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 476, 477 and 479, May Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Howard Williams was convicted of assault, being armed with an offensive weapon, with intent to rob, robbery, being armed with an offensive weapon, with intent to rob, and in the commission thereof, beating, striking and ill-using; entering with intent to steal and rob, and conspiracy to enter and rob. And on May 20, 1925, was sentenced in the aggregate to pay costs and to undergo imprisonment in the Eastern Penitentiary for a term of not less than

ten years, nor more than twenty years. William Lynch and Arthur R. Ball were jointly indicted with the applicant. Lynch and Ball pleaded guilty. All received a like sentence.

The applicant is a native-born citizen of the United States, twenty-four years of age and by occupation a chauffeur but at the time of his arrest was out of employment. He is married and has one daughter five years of age.

At 10.00 o'clock on the morning of May 8, 1925, the applicant left his residence in the City of Philadelphia to get something to eat. He walked south on Thirteenth Street to Pearl Street, where he entered a restaurant, where he ordered food. In the restaurant he was arrested by four detectives and taken to City Hall. There he was questioned about the robbery of the Gmack saloon at Delaware Avenue and Pine Street on May 4, 1925; he denied all knowledge of this. He was, however, held for identification for one week in the City Hall during which time Gmack, the saloon keeper, came to identify him as one of the men implicated in the robbery. Gmack failed to do so. The following day Gmack and his wife were again asked to identify him, but could not identify him with certainty. After talking with the detective, they finally identified the applicant as one of the robbers. Ball, one of his co-defendants, had a slight acquaintance with the applicant. Lynch, the other co-defendant, had been known to him approximately five years. Ball made a statement at the trial of the case to the effect that the applicant was not with him any part of the day of May 4, 1925, the day of the robbery. At the time of the trial the applicant learned for the first time the facts of the case, for which he was being held, which facts were: Lynch and Ball had been drinking in Gmack's saloon and left there in a taxicab. They returned to the same place in the afternoon. Ball remained in the cab because he was very intoxicated. Lynch went into the saloon to get more whiskey, but Gmack refused to sell. As a result of the refusal Lynch became angry and struck Gmack over the head and took the liquor and money alleged to have been stolen.

The applicant has now served five years and seven months of his term of imprisonment. Prior to the present conviction two criminal charges were preferred against him, but in both cases he was acquitted by a jury. He was nineteen years old when the present robbery was committed.

There was filed with the Board a letter from the Superintendent of Printing in the Eastern Penitentiary, in which he certifies to the applicant's good conduct in prison and also to his efficiency as stockman and cutter in the printing department. There was also filed with the Board a letter from Frederick Grundy Iron Works, Incorporated, in which they offer employment to the applicant if released. The applicant's wife and daughter are partly dependent on his father for support, and require the support of the applicant.

Arthur R. Ball, jointly indicted and convicted with the applicant, who received a like sentence, was pardoned by this Board at the current session.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his prior good record; the term of imprisonment already served; because employment has been offered him if released; because his family is destitute and requires support; because the applicant's co-defendant, Ball, has been pardoned by this Board, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to five years and seven months' imprisonment, effective on December 20, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Howard Williams, be commuted to five years and seven months' imprisonment, expiring on December 20, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 440, September Sessions, 1917, in the Court of Oyer and Terminer, in and for the County of Luzerne, William Loudenberg was convicted of murder in the first degree. Subsequently, a new trial was granted, and at the second trial the applicant was convicted of murder in the second degree, and on April 20, 1918, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than twenty years, less one day, nor more than twenty years.

The applicant is a native-born citizen of the United States, fifty-nine years of age. He is by occupation a coal miner and worked in and around Wilkes-Barre and Parsons, Luzerne County. At the time of his sentence, he was married, but since his incarceration his wife has secured a divorce and remarried. The applicant has three children, aged nineteen, seventeen and fifteen years respectively.

The applicant, after spending the day in the woods adjacent to the town of Parsons, returned to his home and procured hard cider from his cellar, drinking to excess and remaining in an intoxicated condition for a period of four or five days. As a result of this circumstance his wife and children, on August 21, 1917, left the home and went to live at the home of Thomas Reese, a neighbor. Two days later, to wit, August 23, 1917, the applicant, hearing that his wife was at the home of Reese, called there in order to effect a reconciliation. He asked if he could talk with his wife, his intention being to prove that he had not pawned a revolver which he owned and which his wife had accused him of pawning in order to procure whiskey. This accounts for the applicant having the revolver on his person at that time. Mrs. Reese, who was sitting on the porch with her husband, called the applicant's wife to the front porch. The applicant then asked her: "I want to know if you won't come home with me," and her reply was: "Not until you quit drinking." The applicant knowing the circumstances under which she left home tried to explain to her that he had not pawned the revolver and drew it from his pocket and showed it to her. Mr. Reese, seeing the revolver and fearing that the applicant was going to fire, sprang to his feet and grappled with the applicant. They both fought for the possession of the revolver. During the struggle, the revolver was discharged and Mrs. Reese exclaimed: "I am shot." The applicant was then beaten into an unconscious condition. Mrs. Reese was taken to the Wilkes-Barre City Hospital where she died within fifteen minutes.

The applicant has now served twelve years and eight months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is good.

A number of letters were filed with the Board recommending clemency. The trial District Attorney and trial Judge, in their letters to the Board, do not recommend clemency, but evince a favorable attitude.

In consideration of all the circumstances of this case; the age of the applicant; his prior good record; the term of imprisonment already served; his excellent prison record; because of the letters of recommendation filed with the Board and the favorable attitude of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court be commuted to twelve years and eight months' imprisonment, effective on December 20, 1930, conditioned, however, that the applicant remain away from Luzerne County.

We, therefore, "after full hearing, upon due public notice and in open sessions," recommend that minimum sentence of imprisonment heretofore imposed on the said William Loudenberg be commuted to twelve years and eight months'

imprisonment, expiring on December 20, 1930, conditioned however, that the applicant remain away from Luzerne County.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
WILLIAM A. SCHNADER,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 60 and 61, January Sessions, 1928, in the Court of Oyer and Terminer, in and for the County of Lehigh, Raymond Seibert was convicted of burglary, entering in the night with intent to commit a felony, breaking and entering in the daytime with intent to commit a felony, carrying concealed deadly weapons, assault and battery, larceny and receiving stolen goods, and on January 23, 1928, was sentenced by the Court in the aggregate to pay a fine of two hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than five years nor more than ten years.

The applicant is a native-born citizen of the United States, twenty-four years of age, is married and has a son six years old. He resided in the city of Allentown. Prior to January 1, 1927, he was employed as a salesman and branch manager for the International Machine Corporation of New York City. Prior thereto, he was employed as store manager for the Atlantic and Pacific Tea Company at Allentown.

On the night of November 17, 1927, in company with one, Paul Helsel, the applicant visited several pool rooms and drank until about midnight. He and Helsel then drove in his car to an apartment house in the city of Allentown, and while the applicant remained in the car, Helsel went into the apartment house. A few minutes later he called the applicant from the car and the latter joined him in the house, went upstairs with him where Helsel handed him a watch and ring. They then left the apartment house and drove to Trexlertown near Allentown, and parked the car outside of a garage. The applicant had been drinking heavily and claims that he did not recall what had happened after the car was parked until he was shot by W. S. Hall, the prosecutor, in Indictment No. 60. After having been shot, the applicant remembers getting into his car and driving back to Allentown and when within a block of the Allentown hospital, remembers that he was arrested. He was placed in the hospital where he was treated for gun shot wounds. He remained there from that time until December 6, 1927, when he was removed to the Lehigh County Prison. Helsel was never apprehended.

The applicant has now served two years and eleven months of his term of imprisonment. His prior record is good with a single exception. He served a term of eight months in the County prison on the charge of forgery. The applicant has been a model prisoner as shown by letter on file from Penitentiary authorities. Employment has been offered him if released by three responsible parties, to wit, Day & Zimmerman Engineering and Construction Company, Philadelphia; Roy Zeigler Company, Norristown, and Benjamin Quillman Hardware Company, Norristown. Letters on file with the Board indicate these offers. The applicant's wife and child require his support.

There were filed with the Board, letters from W. S. Hall, the prosecutor in No. 60, in which he recommended clemency. The trial District Attorney evinces a neutral attitude. The trial Judge in a letter filed, states that he is advised by the Penitentiary authorities that the applicant has reformed and has given apparent evidence of his purpose to remake his life. He states that he has no objection to a pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant, with a single exception;

the term of imprisonment already served; his excellent prison record; the fact that Helsel, his accomplice, has never been apprehended; the fact that employment has been offered him by three responsible parties, and the further fact that his wife and child require his support; because of the recommendation of the prosecutor in one of the two cases, and the favorable attitude of the trial Judge, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to two years and eleven months' imprisonment, effective on December 23, 1930.

We, therefore, "after full hearing, upon due public notice and in open sessions," recommend that the minimum sentence of imprisonment heretofore imposed on the said Raymond Seibert be commuted to two years and eleven months' imprisonment, expiring on December 23, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 14 and 16, May Sessions, 1925, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Philip S. Kaplan was convicted of assault, being armed with an offensive weapon (two charges), and on May 11, 1925, was sentenced by the Court, in the aggregate, to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than fifteen years nor more than thirty years.

The applicant was born in Warsaw, Poland, and is thirty-four years of age. He is a naturalized citizen of the United States and a mechanical engineer by occupation. At the time of his arrest he resided in the City of Philadelphia and was employed as a gas fitter and electrician. He is married and has four children living with his wife's parents.

The applicant was arrested on suspicion of having robbed Blitzstein's Bank, Fourth and Lombard Streets, Philadelphia, on March 21, 1925. He was taken to the City Hall for identification. A colored man was brought to identify him. The colored man, on being asked if the applicant was the man, replied, "yes." Later he was taken before a Magistrate and held without bail for Court. He was tried before Judge Audenreid, and later the Judge granted him a new trial. Before the second trial additional charges were preferred against him to the effect that he had participated in a robbery on March 23, 1925. Six bills of indictment were found by the Grand Jury, but four of them were nolle prossed, and conviction was had on the two above stated. The applicant denied all knowledge of the robbery committed on March 23, 1925. Samuel Stein testified at the trial that he was not sure that the applicant was the robber; that he did not see his face. Israel Brody stated that the applicant was the man who committed the crime, but his statement differs in regard to the clothing worn by the applicant at the time of the commission of the alleged crime. Brody testified that the applicant wore a dark suit with stripes, a cap and a spring topcoat. On the other hand, Abie Cohen, a co-defendant in the case, and against whom other charges were being tried, took the stand and testified that the applicant wore a light green suit, army shirt and hat.

The applicant has served five years and seven months of his term of imprisonment. During his incarceration the applicant has perfected a well-drilling apparatus and has been granted two patents on the same.

There were filed with the Board a number of letters with regard to the applicant's character and inventive ability. The Manager of the Stollwerk Chocolate and Royal Cocoa Com-

pany, of Camden, New Jersey, a former employer, has offered to give the applicant employment if released. Herbert Smith, Warden of the Penitentiary, writes the Board that the applicant's record in prison has been good.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; the term of imprisonment already served; his excellent prison record; because of the number of letters on file testifying to the applicant's good conduct, his inventive genius, and the value and importance of his inventions, and because employment has been offered him if released, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to five years and seven months' imprisonment, effective on December 21, 1930.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Philip S. Kaplan, be commuted to five years and seven months' imprisonment, expiring on December 21, 1930.

ARTHUR H. JAMES.  
Lieutenant Governor,

JAMES A. WALKER.  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1094, 1095, 1096, and 1097, October Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Philadelphia, John Nelson pleaded guilty to indictments charging him with murder, voluntary manslaughter, assault and battery, aggravated assault and battery and failure to stop and render assistance to person injured by automobile. All of these offenses charged grew out of the killing of one, William Hoben, Sr. The applicant pleaded guilty to the charge of murder, which the Court, after hearing, adjudged to be murder in the second degree, and on November 1, 1923, was sentenced by the Court at No. 1094, to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than six years nor more than twelve years.

The applicant is a native-born citizen of the United States, thirty-six years of age. He is married and has eight children, the oldest being fourteen years of age. At the time of his arrest, he resided with his family in the City of Philadelphia. Since his confinement, his wife has been obliged to place all the children in institutions and she supports herself by working as a nurse in St. Vincent's Hospital. When arrested for the present offense, and for five years previous thereto, the applicant was a member in good standing of the Philadelphia police force. He had been a licensed operator of motor vehicles in the State of Pennsylvania for fifteen years and had never been involved in an accident of any kind.

On October 18, 1926, the applicant was off duty for the day. He had been to a party the previous night with his wife and liquor was served, and in the course of the day of the tragedy, he had several drinks of whiskey, and late in the afternoon he left his home to get his automobile from a repair shop. Shortly after 5.30 in the evening, he left his home, drove north on 22nd Street; thence east on Allegheny Avenue. While passing the intersection of 17th Street and Allegheny Avenue, the applicant noticed a crowd of people standing in the roadway waiting for a street car. He passed them and continued on his way, unaware that he had struck one of them. Two days later he was arrested and then knew for the first time that he had struck William Hoben, Sr. and had injured him so severely that the latter died shortly after his admission to the hospital. Desiring to atone for his unintentional offense, he pleaded guilty to the charge of murder and was sentenced as above.

The applicant has now served four years and one month of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent as shown by a letter from the Deputy Warden. For two years, he has been engaged in working as a carpenter outside the prison walls in the construction of the new Eastern State Penitentiary at Graterford, and is a first class mechanic as shown by a letter from the field superintendent.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because his family, consisting of a wife and eight children, are in destitute circumstances and require his support, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to four years and one month's imprisonment, effective December 1, 1930.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said John Nelson be commuted to four years and one month's imprisonment, expiring on December 1, 1930.

ARTHUR H. JAMES.  
Lieutenant Governor.

JAMES A. WALKER.  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 908, March Sessions, 1925, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Joseph A. Stevens was convicted of assault with intent to rob, robbery, being armed with an offensive weapon, and at No. 909, March Sessions, 1925, in the Court of Quarter Sessions of the Peace, in and for the said county, the said Joseph A. Stevens was convicted of conspiracy to enter and rob, and on October 23, 1923, was sentenced by the Court, at No. 908, to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a term of not less than eight years nor more than sixteen years.

The applicant is a native-born citizen of the United States, thirty years of age. He is by occupation, an automobile mechanic, and at the time of his arrest was so employed in the City of New York. His place of residence is in said city.

At 8.55 a. m., on December 11, 1924, the jewelry store of S. Rosenblatt & Son, at 2649 Germantown Avenue, Philadelphia, was robbed by three men who entered the store while the fourth man remained in a touring car across the street from the said store. They secured money and jewelry to the value of \$69,025.00. Germantown Avenue runs generally north and south in the neighborhood of the store which is on the easterly side of the avenue. North of the jewelry store is Shelmire's store at the southeast corner of Germantown and Lehigh Avenues. On the opposite side of the street, but further to the south, is a lunch room. In front of the lunch room was the Buick touring car in which the robbers made their escape. At the steering wheel of the car sat a chauffeur, alleged by the Commonwealth to be the present applicant.

The applicant was arrested at his home in New York City on December 19, 1924. He resisted extradition and presented strong evidence of an alibi, but was finally brought to Philadelphia on March 6, 1925, which he avers was the first time he had ever been in the city. Of the three men who entered the store, one, John Feenicks was convicted on a separate trial and sentenced to from fifteen to thirty years in the Eastern Penitentiary. Another, Michael Flynn was acquitted by a jury on account of deficient identification. The third, Herman Gross, had in the meantime, committed another crime in New York City for which he was convicted and sentenced to a term of

approximately thirty years. Feenicks, Flynn and Gross were well known to the police in the cities of Philadelphia and New York. The applicant admits that he had previously known Gross having met him in New York, but never saw Feenicks or Flynn until he was arrested. These three men were identified as the three men who entered the store, and the applicant as the driver of the car.

The applicant has now served five years and two months of his term of imprisonment. He was never before charged with or convicted of crime. Employment has been offered the applicant, if released, by Dr. Fishburg, a physician, having an office on Fifth Avenue in New York City. A number of letters recommending clemency were filed with the Board by persons residing in New York City, including three physicians who were personally acquainted with the applicant.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because Flynn, one of the applicant's co-defendants who entered the store was acquitted by a jury and escaped punishment; because employment has been offered him in New York City, if released, by Dr. Fishburg, who was one of the applicant's chief alibi witnesses when he fought extradition in New York State; because of the letters recommending clemency filed with the Board, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to five years and two months' imprisonment, expiring on December 23, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence heretofore imposed on the said Joseph A. Stevens be commuted to five years and two months' imprisonment, expiring on December 23, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 55 and 56, April Sessions, 1928, in the Court of Oyer and Terminer, in and for the County of Allegheny, Sam Koneski and Fred Simonetti, who were jointly indicted for murder, voluntary manslaughter and involuntary manslaughter, were convicted of voluntary manslaughter and on March 1, 1929, were each sentenced to pay a fine of six and one-fourth cents, costs and to undergo imprisonment in the Western Penitentiary for a term of not less than four nor more than eight years. Joseph Bassetti, John Micklow, John Koneski, Elic Simon, John Kubic, Louis Branzet and Julius Frank were named as additional co-defendants in the indictments above mentioned. Of the latter group, John Koneski, Micklow and Bassetti were convicted of voluntary manslaughter, while Kubic, Simon, Branzet and Frank were acquitted by the jury.

Applicant Koneski is a native-born citizen of the United States, twenty-one years of age and at the time of his arrest was employed as a coal miner and lived with his father and mother at Russellton, Allegheny County. He is unmarried and has two brothers and four sisters. Applicant Simonetti was born in Italy and owes allegiance to that country. He came to this country when he was four years of age. He is twenty-one years old. At the time of his arrest he was a coal miner by occupation. He is unmarried. He resided with his stepfather and mother at Russellton, Allegheny County. He has two sisters and three brothers.

On March 6, 1928, the body of Michael Yarsavage was found lying in Walters' Chapel Cemetery, Indiana Township, Alle-

gheny County. After investigation by the authorities, all of the above named persons, including the two applicants, were arrested and held for trial. Yarsavage was a stranger in the community, having arrived at Russellton, near the cemetery, in the afternoon of the preceding day. He was talked to by three of the defendants, Simon, Kubic and Branzet, as they walked along the main highway of Russellton in the direction of Rural Ridge. While they walked together they met the other men, including the two applicants. Yarsavage claimed he was looking for someone, but it was rumored in the community that he was seeking work in the mines and the defendants, being striking miners, talked with him about taking their jobs. Simon, Kubic and Branzet stopped along the highway as the others proceeded to a point where a direct road turning to the left led in the direction of the cemetery. At the junction of the road Yarsavage struck applicant Simonetti, knocking him to the pavement and then started up the dirt road with applicant Simonetti following. Some distance up the dirt road Yarsavage and applicant Simonetti engaged in a further struggle with Yarsavage getting the best of it. Micklow went to the rescue of applicant Simonetti, striking Yarsavage, no serious injury being inflicted on the latter. Micklow, with Frank, then left the scene of trouble and returned to the highway. John Keneski, Bassetti and both applicants, continued on the roadway following Yarsavage. The testimony revealed that no real harm had been inflicted on Yarsavage up to the time they approached the cemetery several hundred yards from the scene of the first trouble. There was no direct testimony of the infliction of the blows which caused the death of Yarsavage, but there was testimony as to the removal of several fence pailings, and from all the circumstances the jury came to the conclusion that some of the defendants had beaten Yarsavage with the fence pailings removed from the cemetery fence. The testimony revealed that applicants Koneski and Simonetti followed Yarsavage after the others had stopped and by reason of the fact that the applicants had gone farther than the other defendants, the trial Judge made a distinction in sentencing the five defendants against whom a verdict of manslaughter had been returned. The applicants denied having inflicted the blows that caused the death of Yarsavage and there was evidence of the tracks of an automobile through the snow to the cemetery fence near the point where the body of Yarsavage was found, which left room for the inference that other persons might have been in the vicinity after the applicants left.

Both applicants have now served one year and nine months of their respective terms of imprisonment; neither had previously been charged with or convicted of crime. They were only nineteen years of age when this alleged crime was committed.

A number of letters were filed with the Board recommending clemency. The writers are personally acquainted with the applicants. The present District Attorney has filed with the Board a letter in which he states: "The assistant District Attorney who tried the above case in Court tells me that he is of the opinion that older men who were involved in this killing were found not guilty by reason of insufficient evidence and that the two defendants above named (the applicants), were possibly under the influence of those older heads at the time of the killing. Three of the defendants who were convicted have been released from the Workhouse and I am unable to discover any reason why the two applicants before your Board should have been given any longer sentences than the other three."

In consideration of all the circumstances of this case; the youth of the two applicants when the alleged crime was committed; the prior good record; the terms of imprisonment already served; because of the letters filed with the Board recommending clemency; because three of the co-defendants of the applicants have already been released from imprisonment, and in consideration of the letter of the present District Attorney, we have concluded that both applicants have been sufficiently punished; and while we are not satisfied that they should be granted absolute pardons, we have determined that the minimum sentences of imprisonment heretofore imposed by the Court should be commuted to one year and nine months' imprisonment, effective on December 1, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentences of imprisonment heretofore imposed on the said Sam Koneski

and Fred Simonetti, respectively, be commuted to one year and nine months' imprisonment, expiring on December 1, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 762, 763, 764, 765 and 766, August Sessions, 1929, and Nos. 1210 and 1211, September Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Roy P. Wahl pleaded guilty to seven indictments charging him with fraudulently making a written instrument (three charges), fraudulent conversion (two charges), false pretenses and larceny, and on September 24, 1929, he was sentenced by the Court on Bill No. 762, to undergo imprisonment in the Eastern Penitentiary for a period of not less than two and one-half years nor more than five years.

The applicant is a native-born citizen of the United States, twenty-nine years of age. At the time of his arrest his occupation was that of salesman for James A. Head, Inc., of Birmingham, Alabama, dealers in bank and office supplies. His proper place of residence is in Minneapolis, Minnesota, where his wife, parents, brothers and sisters reside. He is a member of a respectable family, a high school graduate and a seminary student of four years' standing intending to prepare for the priesthood.

The applicant's downfall dates from his employment as a salesman for aluminum by the Super-Maid Cook Ware Corporation of Illinois. The applicant was assigned to the territory of Trenton, New Jersey, and vicinity, and worked under the direction of the Division Manager named Byers, with whom he lived, who in turn, reported to the District Manager, Gutilius, in Philadelphia. A few months after the applicant had been working as a salesman, an auditor of the Company discovered that the bonus by which the Company stimulated its salesmen was too big a bait, for they were anticipating sale deliveries in turning in slips to secure credit on the bonus. When the applicant won a bonus, Byers, the Division Salesman, and Gutilius, the District Manager, also became entitled to a bonus. There was no necessary intent to defraud the Company if the goods were actually afterwards delivered. The salesmen were simply super-selling the Super-Maid. Accusing the applicant of irregularity, the auditor discharged him; Byers was censured and Gutilius was demoted and transferred. All the papers and records belonging to the applicant which he might have used advantageously at his subsequent trial were seized by the auditor and retained by the Company. A year later the applicant became a salesman for a firm dealing in bank and office supplies at Birmingham, Alabama, and there he met with Harold Schaible whom he had known before and who had also worked for the Super-Maid Corporation. Schaible was wanted by the Company to answer charges of embezzlement. He was arrested and held pending an investigation. The applicant offered to help Schaible and assisted in procuring an attorney for him to fight extradition, which was finally refused by the Governor of Alabama. The applicant having thus further incurred the hostility of the Super-Maid, continued in his employment at Birmingham.

One year and a half after the applicant ceased to be a salesman for the Super-Maid Company, the latter Company brought charges against the applicant and had him extradited and brought to Philadelphia to stand trial. Removed from relatives and friends the applicant decided to enter a plea of guilty, trusting to the mercy of the Court. The alleged crime with which he was charged was the signing of a customer's name to an installment contract for the purchase of \$71.30 worth of aluminum ware. The record indicates that this was

done in Trenton, New Jersey, almost two years before any indictment was found. Though sentenced on one indictment, six were held over him, four involving the same transaction. Two others apparently dealt with another matter, but the alleged loss to the Super-Maid was less than \$100. The penalty imposed was to cover all charges. The notes of testimony show that the applicant was without counsel and confronted by a public and a private prosecutor.

The applicant has now served one year and three months of his term of imprisonment. He was never before charged with or convicted of crime. The applicant has always denied wrongdoing. There was no testimony that he had signed the customer's name to the installment contract. All but one of the witnesses against him were employees of the Company. The applicant was not represented by counsel and lacked sufficient opportunity to be fully heard. All of his papers available as evidence had been taken by the auditor and retained by the Company. The alleged crime was over a year and a half old before any effort was made to apprehend the supposed culprit, although they knew his whereabouts. There was no indictment pending when it was sought to extradite the applicant.

There was filed with the Board a letter from the trial Judge, dated December 1, 1930, as follows: "Upon a careful review of testimony in the above matter, which was tried before me, I feel that the ends of justice have been amply served by the term served to date by the Defendant and I am prepared to be recorded as favoring the application for pardon." A number of letters were filed from former employers and others certifying to the applicant's good conduct.

In consideration of all the circumstances of this case; the doubt as to the guilt of the applicant; his prior good record; the term of imprisonment already served, and in consideration of the recommendation of the trial Judge, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the court should be commuted to one year and three months' imprisonment, effective on December 24, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Roy P. Wahl be commuted to one year and three months' imprisonment, expiring on December 24, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 667 and 668, October Sessions, 1928, in the Municipal Court of Philadelphia County, Criminal Division, Charles Welden Austin was convicted of subornation of perjury and conspiracy, and on October 11, 1928, was sentenced at No. 667 for subornation of perjury, to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than four years nor more than eight years.

The applicant is a native-born citizen of the United States, thirty-one years of age. He served in the Navy and in the Army and was over-seas during the World War. His occupation is that of helper and pipe fitter. At the time of his arrest, he was employed by the Reiser Wet Wash Laundry, Philadelphia, and resided in that city. He is unmarried.

The applicant, in company with one Dorothy Beaky, on or about October 3, 1928, procured a marriage license to enable the applicant to marry Ruth T. Allen, which was the name given by Dorothy Beaky to the Clerk of the Court in obtaining the marriage license and the name by which the applicant

knew her. The Commonwealth contended that Ruth T. Allen, was Dorothy Beaky (which was the fact), and that her real age was seventeen years. The applicant contended that Dorothy told him that she was nineteen years old; that she looked as if she were that age; that he had met her but a few days before their marriage; that she told him she came from South Carolina and that her father was a retired farmer.

At the trial it appeared that Dorothy Beaky was a resident of Philadelphia, a runaway from home and apparently seventeen years of age. The Commonwealth produced the detectives who made the arrest but who knew nothing about the circumstances of the case; also her father and mother, who likewise could tell nothing about the conspiracy or subornation of perjury, and the private prosecutor, Dorothy Beaky, herself, the wife of the applicant whose testimony was used against him. The application for the marriage license was offered in evidence, but there was nothing to show that the girl did not do what she did voluntarily and without inducement, except her own weak testimony. The marriage was never consummated and the applicant was willing either to permit an annulment or to support his wife. No annulment proceedings have ever been instituted.

The applicant has served two years and two months of his term of imprisonment. He claims that his sentence was excessive in that the Act of 1860 providing punishment for the offense for which he was sentenced fixes the maximum term of imprisonment at seven years. It is not certain that the applicant knew Dorothy Beaky's correct name and age and if he did, he permitted the girl he was marrying to misstate her name and age, which is rather a common offense. He was not represented by counsel at the trial. The wife's testimony was used against him. The girl had a record in the Morals Court of Philadelphia County and had previously been declared incorrigible in an application made by her grandmother. She was a runaway from home and according to her own story had slept several nights in an automobile by herself and slept a few nights before her marriage with another man in a rooming house.

There were filed with the Board a number of letters recommending clemency from persons who are personally acquainted with the applicant.

In consideration of all the circumstances of this case; the term of imprisonment already served; the excessive sentence imposed by the Court; in consideration of the letters filed with the Board by persons acquainted with the applicant, which show him in a favorable light so far as his general character is concerned, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to two years and two months' imprisonment, effective on December 11, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Charles Welden Austin be commuted to two years and two months' imprisonment expiring on December 11, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 260, 261, 330, 546, 547, 548, 549, 550 and 551 May Term, 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Peter Ott, alias Peter Joseph Ott, was indicted for conspiracy (three counts), entering to steal (three counts), burglary, larceny and operating an

automobile without the consent of the owner. He pleaded guilty in all but the first two indictments in which he was convicted. On July 3, 1924, he was sentenced in the aggregate to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than seven years nor more than nineteen years.

The applicant is a native-born American citizen of German descent, thirty years of age, a mechanic by occupation, but at the time of his arrest temporarily out of employment; a resident of the City of Philadelphia, and at the time of his conviction had a wife and one child. The wife has secured a divorce since his incarceration.

The convictions and aggregate sentence were the result of the series of crimes above indicated which extended over a period of approximately three weeks.

The applicant was temporarily out of employment and fell among evil companions and when once embarked in the arena of crime continued until he was finally apprehended by the police authorities.

The applicant has now served six years and five months of his term of imprisonment. He was never before charged with or convicted of crime. The Warden of the Penitentiary certifies to his excellent prison record. He has a child nine years of age who is now being supported by the parents of the applicant who are advanced in years.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because his nine-year-old child is dependent on him for support, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to six years and five months' imprisonment, effective on December 3, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Peter Ott, alias Peter Joseph Ott, be commuted to six years and five months' imprisonment, expiring on December 3, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, June Term, 1916, in the Court of Oyer and Terminer, in and for the County of Indiana, Frank Borgia, alias Frank Borge, was convicted of murder in the first degree and on October 21, 1916, was sentenced by the Court to be hanged. Subsequently, in October, 1917, the sentence of death was commuted to life imprisonment.

The applicant is a native of Italy, forty-two years of age, and a coal miner by occupation. At the time of his arrest for the present offense he resided with his family in Iselin, Indiana County. The family consisted of a wife and three children who are now of the ages of fourteen, fifteen, and seventeen years, respectively, and reside with their mother in Brooklyn, New York.

About a year after the applicant's marriage (which occurred in Passaic, New Jersey, they removed to Iselin where he obtained employment in the mines and lived in a house provided by the mining company. Sam Russo, an unmarried Italian miner, became a boarder in their home. In April, 1915, the applicant learned through a friend of Russo's that while he (the applicant) had temporarily left his home to seek work in another locality, Russo had attacked his wife and had sexual relations with her. The applicant immediately demanded the

truth from his wife. She informed him what had happened. He then told her that she would have to kill Russo, if she was not guilty, otherwise he would kill her. She claimed that Russo forced his attentions on her under a threat to kill her and her children. The wife insisted that on account of what had happened they remove from Iselin, which they did. When Russo desired to accompany the family, the wife told him that she did not care to have him as a boarder any longer. On May 2, 1915, the applicant and his wife went to Iselin and spent the day at the house of Lizzie Ross, with whom Russo boarded. The applicant gave a revolver to a neighbor and asked her to give to his wife. The wife was informed that the revolver was there and that the applicant desired her to take it. This was at 5:00 o'clock in the evening. The applicant told his wife that if Russo had attacked her against her will she should shoot him and if it was not against her will she would be afraid to shoot Russo and in the latter event, the applicant would shoot her. Two other men and the applicant were sitting outside of one of the houses talking. The applicant's wife was walking up and down when Russo came along and passed her. She shot him twice in the back. The applicant followed him into his house and fired two more shots and as he was sitting on the top of the stairs, the wife fired at him twice again and the applicant then took her away. As the result of this fusillade Russo died.

Angeline Borgia, the wife of the applicant who was jointly indicted with him on the charge of murder and convicted, was pardoned in 1923, after an imprisonment of seven years.

The applicant has been incarcerated in the Penitentiary for fourteen years and two months. He was never before charged with or convicted of crime. The trial District Attorney is dead. The present District Attorney has filed with the Board a letter in which he states that he is not personally familiar with the facts of the case, but that the history of the case as contained in the application is substantially correct, with one exception, to wit: that the intimacy between Russo and the applicant's wife was voluntary. He also states that the applicant, who had been confined in the Farview Hospital for the Criminal Insane, was recently removed from that institution to the Penitentiary at Pittsburgh for the reason that he was not in further need of medical treatment.

The applicant's family consisting of a wife and three children, are supported by the wife and members of her family with whom they reside and require the support of the husband.

In consideration of all the circumstances of this case; the prior good record of the applicant; the long term of imprisonment already served; because the applicant's family is destitute and requires his support; because the applicant's wife was pardoned after serving but seven years in the Penitentiary, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the sentence of life imprisonment heretofore imposed by the Court should be commuted as of December 21, 1930, and the said applicant be placed on probation for the period of five years and ten months.

We, therefore, "after full hearing upon due public notice, and in open session," recommend that the sentence of life imprisonment heretofore imposed on the said Frank Borgia, alias Frank Borge, be commuted as of December 21, 1930, and the said applicant be placed on probation for the period of five years and ten months.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 738, April Sessions, 1922, in the Court of Quarter Sessions of the Peace, in and for the County of Allegheny, John Gergurich was convicted of open lewdness, and at Nos.

739, 740 and 741, in the same term of Court, pleaded nolo contendere to indictments charging him with similar offenses, and at No. 598, June Sessions, 1922, in the same Court, pleaded guilty to an indictment charging him with a similar offense. On September 20, 1922, he was sentenced by the Court, in the aggregate, to pay a fine of thirty-one and one-quarter cents (\$.31¼), costs, and to undergo imprisonment in the Allegheny County Prison for a term of one year.

The applicant is a native-born citizen of the United States, forty-two years of age. At the time of his sentence, he was a police officer in the City of Pittsburgh, and had served in that capacity for a period of nine and three-quarter years. He resided in that city with his wife. He served overseas in the World War for a period of twenty-three months. During the past seven years he has been employed as a private watchman for the Jones and Laughlin Steel Company in Pittsburgh.

No notes of testimony were taken at the time of the trial, but from the agreement as to the facts signed by the assistant trial District Attorney and applicant's counsel, it appears that the applicant at various times and at different sections of the city exposed his person. The latter alleged that he did not intend a violation of the law, and produced a number of witnesses to prove his moral character.

The applicant has long since served his term in the County prison. He was never before charged with or convicted of crime. He maintains that his guilt was technical. His record since his discharge from prison has been good as shown by a number of letters from citizens of Pittsburgh on file. He claims an assurance that if a pardon is granted, he will be re-instated as a police officer.

The assistant trial District Attorney has filed with the Board, a letter in which he states that in consideration of the time that has elapsed since the commission of these offenses, and the fact that the man has paid the penalty inflicted by the law, he would not object to this application for pardon.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his good record for the past seven years since his discharge from prison, and because a pardon would render him eligible for reinstatement to the police force, we have concluded that he has been sufficiently punished and that if now released he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said John Gergurich.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 639, August Sessions, 1916, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Andrew Amoroso was convicted of entering with intent to steal, larceny and receiving stolen goods, and on November 3, 1916, was sentenced by the Court to pay costs, and to undergo imprisonment in the Philadelphia County Prison for a period of four months. Subsequently, on December 5, 1916, the sentence was reconsidered and suspended and the said Amoroso was placed on parole for a period of one year.

The applicant is a native-born citizen of the United States, thirty years of age. His occupation at the time of his arrest was that of an errand boy. At that time he resided in the City of Philadelphia. He is now married and has two children.

The crime of which the applicant was convicted was committed on July 15, 1916. He was charged with having entered

the house of one John Ingino with intent to steal, and with having carried away certain jewelry valued at \$61.50. The building was entered in the early hours of the morning. In the afternoon of the same day, one John McCloskey, a neighbor of the applicant, eight years his senior, approached the latter and asked him to hold two pieces of jewelry for him, to wit: a stick pin and a ring. About fifteen minutes after the applicant became possessed of the jewelry as aforesaid, he was arrested by a member of the Philadelphia Police force, who lived in the neighborhood, and through the window of his home saw the transfer of the jewelry. The latter proved to be part of the jewelry stolen from the place entered earlier in the day. There was no evidence offered at the trial of any breaking or entering on the part of the applicant, nor was there any evidence of the applicant's theft of the jewelry in question. The only testimony produced at the trial was the fact that the applicant was in possession of articles recently stolen and it was upon this evidence alone that he was convicted.

The applicant was only sixteen years of age when the alleged crime was committed. His prior record was good. He served thirty-two days of his sentence in the Philadelphia County Prison. The court evidently took into consideration the questionable character of the evidence upon which the applicant was convicted and therefore imposed a light sentence which was shortly thereafter suspended. It is now fourteen years since the applicant was sentenced and released from prison. While at liberty, he has suffered hardship and his conviction has proven an obstacle in obtaining employment.

The applicant has made application for a position as patrolman on the Philadelphia Police force but he is not eligible therefor on account of his conviction. The present application is made to qualify him for this position and to clear his record.

In consideration of all the circumstances of this case; the extreme youth of the applicant when the alleged crime was committed; the grave doubt as to his guilt; because of the fact that the sentence originally imposed was a light one and within a period of thirty-two days was suspended; because of his prior good record and unobjectionable conduct since his release fourteen years ago; and because of the further fact that a pardon will qualify him for the position of patrolman which he now seeks and clear his record, we have concluded that he should be freed of the stigma incident to his conviction and restored to all the rights, duties, and privileges of citizenship.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Andrew Amoroso.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 740, 741 and 745, August Sessions, 1926, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, William Kazman was convicted of certifying on election returns as correct, return which they knew to have been fraudulently deposited therein; writing false names in voters' list of voters, and conspiracy so to do, and permitting to vote at a primary, persons not entitled to do so, and on April 14, 1927, was sentenced in the aggregate to pay costs, and to undergo imprisonment in the Philadelphia County Prison for a term of six months.

Harry J. Wachs was jointly indicted with the applicant for certifying on election returns as correct, return which they knew to have been fraudulently deposited therein, and upon conviction of this and another offense against the election laws, was sentenced to pay a fine of one thousand dollars

(\$1,000.00), costs and to undergo imprisonment in the Philadelphia County Prison for a term of two years. He was pardoned by this Board at the current session.

The applicant is a native-born citizen of the United States, thirty-eight years of age. At the time of his conviction he resided in the city of Philadelphia and was employed as a clerk by the City of Philadelphia. He is married.

The applicant was judge of an election board which served in the Primary Election for the Fortieth Division of the Twenty-fourth Ward of the City of Philadelphia, in the year 1925. The violations of law complained of by the Commonwealth were shown at the trial to be more in the nature of negligence on the part of the applicant, than criminal fraud.

The applicant was never before charged with or convicted of crime. He served all but fourteen days of the six months' sentence imposed upon him by the Court and was discharged on parole. It was the first election in which he presided as an election officer. He is now employed as a salesman in the City of Philadelphia. The applicant not only has suffered by reason of his imprisonment, in mental anguish and social standing, but cannot vote or exercise certain of the privileges of citizenship. The object of the present application is to clear his record and to permit him to again resume all of his rights as a citizen.

There were filed with the Board letters from Blakely D. McCaughn, Clerk of Quarter Sessions of Philadelphia, and from Joseph Gilfillan, former Sheriff and law partner of George S. Graham, member of Congress, recommending clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because his subsequent record so far as we are advised has been unobjectionable; because of the recommendations of McCaughn and Gilfillan, prominent citizens of Philadelphia, and because Wachs, his co-defendant, who received a sentence of two years has been pardoned by this Board, and in order that the applicant may be restored to all the rights of citizenship, we have concluded that he has been sufficiently punished and if now pardoned he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said William Kazman.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 735, 740, and 741, August Sessions, 1926, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Harry J. Wachs pleaded guilty to Bill No. 735 charging him with the unlawful registration of voters by registrars, and was subsequently convicted of certifying on the election returns as correct, a return which they knew to have been fraudulently deposited therein; writing false names in voters' list of voters, and conspiring so to do, and on November 18, 1926, was sentenced by the Court in the aggregate to pay a fine of one thousand dollars (\$1,000.00), costs, and to undergo imprisonment in the Philadelphia County Prison for a term of two years.

The applicant is a native-born citizen of the United States, thirty-eight years of age. He is an insurance and real estate broker by occupation and resides in the City of Philadelphia. He has a wife and two children.

An investigation by the Committee of Seventy in the City of Philadelphia, disclosed discrepancies in the election returns, registration and voting lists in the Fortieth Division of the

Twenty-fourth Ward of that city, in the Primary Election of 1925. Subsequently the applicant, together with four others, comprising the election board of that division, were arrested, indicted and tried for certain violations of the election laws. William Kazman, the judge of election, for his part in these violations, was sentenced to pay costs, and to undergo imprisonment in the Philadelphia County Prison for a term of six months. He was pardoned by this Board at the current session.

The applicant was never before charged with or convicted of crime. He served eighteen months of the two-year sentence imposed by the Court and was discharged on parole. He never before acted as an election officer and his derelictions of duty may have been due more to ignorance than to criminal intent. The applicant was the most severely punished of all his co-defendants in these cases and his sentence was one of the most severe ever meted out in an election case in Pennsylvania. His conviction and disfranchisement have caused him serious embarrassment and have hindered him in his business and social relations. The object of the present proceeding is to re-establish him in all of his rights of citizenship.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; the severity of the sentence imposed; because of his subsequent unobjectionable record so far as we have been advised; in consideration of the fact that Kazman, one of his co-defendants, the judge of election, has been pardoned by this Board; in consideration of the fact that the applicant by reason of his disfranchisement is denied the privilege of voting, and is under the stigma incident to his conviction and sentence, we have concluded that he has been sufficiently punished and that if he is now pardoned he will prove himself a useful and law-abiding citizen.

We, therefore, "after full hearing upon due public notice and in open session," recommend that a pardon be now granted to the said Harry J. Wachs.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 254, December Sessions, 1920, in the Court of Oyer and Terminer, in and for the County of Philadelphia, John E. Murray was convicted of murder in the second degree, and on November 7, 1921, was sentenced by the Court to undergo imprisonment in the Eastern Penitentiary for a period of not less than nineteen years nor more than twenty years.

The applicant is a native-born citizen of the United States, thirty-one years of age; he is a mechanic by occupation and was employed by the Motor Parts Company, now the Wilking Manufacturing Company, in the City of Philadelphia, where he resided with his parents and two sisters. He is unmarried.

On the evening of Decoration Day, 1920, six young men of the approximate age of twenty-two years set out upon what at first appeared to be an adventure, but which ended up in tragedy. All of them, with possibly one exception, had led correct lives up to that evening. The six men referred to were Thomas McHale, John Donahue, James Melaugh, Eugene Walsh, Charles J. Blum, alias Yockey, and the applicant. Before the evening was passed, they had held up and robbed at least eight persons of small sums of money, and during one of these robberies, a man, Nickola Ostah, was shot and killed. About six weeks after the tragedy, these men were arrested and charged with the murder of Ostah, and also with the robberies in which they had participated. The applicant was

placed on trial for murder on January 26, 1921. Two days later, a verdict of murder in the first degree was rendered by the jury. Subsequently, a new trial was granted, which resulted as first above stated.

The murder was committed about 10:45 P. M. under these circumstances: Ostah, a Pole, together with a friend, Katherine Cap, were walking along South College Avenue, near 22nd Street, Philadelphia, when an automobile, containing the six men above named, drew up to them. McHale, Blum and the applicant alighted from the automobile and demanded that Ostah turn over to them, the money which he had on his person. Katherine Cap ran away. Ostah turned away from the three men, apparently with the intention of running. He was struck at Ostah with a black-jack and then shouted to the applicant to shoot. The latter who had been standing five or six feet from Ostah and covering him with a gun, discharged it. Ostah turned and ran for a full city block when he collapsed. The three men entered the automobile and drove away. Ostah died the following morning. It appeared that the six men did not believe that the shot had taken effect and were unaware of the fact that a general alarm had gone out and continued to rob a number of other persons. Walsh, one of the defendants, a witness for the Commonwealth testified: "I said to Murray: 'I think you hit that man,' and Murray said: 'I didn't hit that man. I didn't shoot to hit him.'" Subsequently, after the applicant's trial, his co-defendants pleaded guilty to murder. The Court fixed the degree as murder in the second degree and sentenced them to the Philadelphia County Prison as follows: Blum, for a period of eighteen years; McHale, for a period of fifteen years; Donahue and Melaugh for terms of seven years, respectively, and Walsh for five years. Approximately six months after sentence, Walsh was discharged on parole. In May, 1924, Donahue was similarly discharged, and in January, 1925, Melaugh, and in June, 1925, McHale, were also discharged on parole.

The applicant has now served nine years and one month of his term of imprisonment. He was twenty-two years of age when this crime was committed. He was never before charged with or convicted of crime. There was no evidence that the crime was premeditated nor that the applicant had any intention of killing Ostah.

The applicant's father, an aged man, is almost blind, and his mother is crippled with rheumatism. The applicant's sister, Mary, is the sole support of the family, consisting not only of the parents above named, but a sister suffering from tuberculosis and her daughter aged eleven years. The applicant's co-defendants with the exception of Blum, have long since been discharged on parole and while there was no evidence that they had fired the fatal shot, their guilt, under the law, is as grave as that of the applicant who did fire the shot. Employment has been offered him if released.

In consideration of all the circumstances of this case; the comparative youth of the applicant when the crime was committed; the lack of motive; his prior good record; the term of imprisonment already served and because of the fact that the applicant's family are in destitute circumstances and require his support, and in further consideration of the fact that four of his co-defendants have already been discharged on parole, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to nine years and one month's imprisonment, effective on December 7, 1930.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the minimum sentence heretofore imposed on the said John E. Murray, be commuted to nine years and one month's imprisonment, expiring on December 7, 1930

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

## Commonwealth of Pennsylvania.

## Board of Pardons.

Harrisburg, Pa., December 17, 1930

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, June Sessions, 1929, in the Court of Oyer and Terminer, in and for the County of Dauphin, and at No. 11, of the same term, in the Court of Quarter Sessions of the Peace, in and for the said County, Chester Young pleaded guilty to two indictments charging him with the larceny of a clock and with robbery, and on May 28, 1929, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than two years, nor more than four years.

The applicant is a native-born American citizen, twenty-nine years of age. He is by occupation a cement finisher. At the time of his arrest, he was not employed and had not been employed for two months previous thereto. He is unmarried. His place of residence was in the City of Harrisburg where he resided with his father.

As before stated, the applicant was out of work. He became despondent and associated with evil companions. On or about January 25, 1929, he and another boy named John A. Groft, both of whom had been drinking, stopped at the office of Doctor William Wright in the City of Harrisburg. The applicant, considerably intoxicated, entered Doctor Wright's office, took a clock from the office and walked out with it. After he sobered up he was ashamed to return the clock and not knowing what to do with it, threw it into the Susquehanna River. The following month the applicant being still out of employment, became more and more discouraged, continued his evil associations, and drank bad liquor. On or about February 1, at 10:00 o'clock in the morning, the applicant in company with Charles Zerbe, Earl Stuckey and Harry Drewett went to the drug store of J. K. Garland at 1933 North Sixth Street, Harrisburg, and while the others went inside to rob, the applicant remained outside to watch. When Mr. Garland went to the rear of the drug store, the boys inside robbed him. They secured fifty-six dollars, of which the applicant received as his share thirteen dollars. In April, the applicant who was detained in the Dauphin County Prison on suspicion of having stolen the clock (although no formal charge had been made), confessed his crimes to the District Attorney who had been sent for. He implicated the three boys, two of whom stood trial for robbery, were convicted and sentenced to the Huntingdon Reformatory. Drewett is a fugitive from justice. Groft, who was jointly indicted with the applicant for the larceny of the clock, stood trial and was acquitted.

The applicant has now served one year and seven months of his term of imprisonment.

There were filed with the Board letters from the trial District Attorney and trial Judge in which both recommend pardon. Both state that through the voluntary confession of guilt made by the applicant, they were enabled to convict the others against whom there was no evidence prior to the confession. The trial Judge states that had he been in possession of all the information which he now has, the sentence imposed would not have been so severe.

In consideration of all the circumstances of this case; the term of imprisonment already served; because through the voluntary confession of the applicant the authorities were enabled to convict the perpetrators of a bold robbery; because of the fact that the applicant's co-defendant on the charge of larceny was acquitted by the jury and more particularly because of the strong recommendations of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and seven months' imprisonment, effective on December 23, 1930.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Chester Young

be commuted to one year and seven months' imprisonment, expiring on December 28, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 2, December Term, 1920, in the Court of Oyer and Terminer, in and for the County of Franklin, George Doleman pleaded guilty to an indictment charging him with arson and burning a storage house, and on December 11, 1920, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than twelve years nor more than thirteen years.

The applicant is a native-born citizen of the United States, colored, unmarried, and thirty years of age. At the time of his arrest he was working as a helper in the furniture store of P. Nicklas Brothers, in the Borough of Chambersburg, Franklin County, and resided in that borough.

On the morning of November 2, 1920, the building occupied by P. Nicklas Brothers furniture store and warehouse caught fire. These buildings were situated on South Main Street in the Borough of Chambersburg. The store fronted on the street and the buildings extended along an alley for a considerable distance. The buildings were in an important section of the borough and adjoined other business buildings on Main Street. The fire destroyed the Nicklas buildings, and the adjoining buildings were badly damaged.

The applicant at the time of the fire worked for P. Nicklas Brothers as a helper. He was not quite of full age, and resided with his father and brothers on South Main Street, about four squares south of the fire. His mother is dead. He had never before been in trouble. He was never especially bright but had intelligence sufficient to discern right from wrong. After the fire started he helped fight the flames. On the day of the fire, acting on some information, police officers took the applicant to the office of Walter K. Sharpe, attorney for P. Nicklas Brothers, and there he signed a paper in the nature of a confession of guilt. This confession, a copy of which is attached to the certified Court record, is not at all satisfactory as a confession. The applicant admits setting fire to some inflammable matter by carelessly casting a match into it. He also stated he did not like one of his employers, but liked the other ones. No real motive is shown in the confession. After signing the confession he was placed in jail and at the trial pleaded guilty and was sentenced as before stated. At the trial no witnesses were heard and nothing offered except the statement of the officers, the confession and witness as to his previous good reputation.

The applicant has now served ten years of his term of imprisonment. He was never before charged with or convicted of crime. He was only twenty years of age when the crime was committed.

There was filed with the Board a numerously-signed petition of citizens recommending clemency. The trial Judge is dead, but the trial District Attorney has filed with the Board a letter recommending clemency.

In consideration of all the circumstances of this case; the youth of the applicant when the crime was committed; his previous good record; the term of imprisonment already served; because of the petition of citizens recommending clemency, and in consideration of the recommendation of the trial District Attorney (the trial Judge being dead), we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we

have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to ten years, effective on December 11, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said George Doleman be commuted to ten years' imprisonment, expiring on December 11, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, December Sessions, 1921, in the Court of Oyer and Terminer, in and for the County of Armstrong, Charles Lyle pleaded guilty to an indictment charging him with murder, the degree of which was adjudged by the Court to be murder in the second degree, and on December 23, 1921, was sentenced to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than nineteen and one-half years nor more than twenty years.

The applicant is a native-born citizen of the United States, fifty-seven years of age. He is a coal miner by occupation and at the time of his arrest was working as an attendant at a sub-station of the Hicks Coal Company, at Leechburg, Pennsylvania, and resided in Leechburg.

On August 24, 1917, while the applicant was at work in the coal mine, a large slab of slate loosened itself from the roof of the mine, fell upon him and as a result he suffered fractures of both legs. He was confined in the hospital and at home for almost two years. He remained a cripple in both legs. It also left him in a low physical condition. In 1919 the applicant returned to work for the Hicks Coal Company as a night watchman and later was shifted to day attendant at a sub-station of the same company. At these jobs he was obliged to carry a revolver. He did no physical work during the time of his illness and even after he returned to work as a watchman and attendant, whereas formerly he had been active physically. During this time, on account of his physical condition and inactivity, the applicant became obsessed with the idea that his wife did not want him any longer as a husband and that she was too familiar with other men. However, during this entire period, from the time of his injury to the time of the tragedy, he lived with his wife and children, and was at all times a kind husband and father.

In August, 1920, the applicant's wife opened a restaurant in Leechburg. She came in contact with male customers and was friendly with certain of them, which strengthened the applicant's belief that his wife no longer cared for him and was unfaithful to him. In the early evening of March 31, 1921, the applicant, when he left work, was informed that his services were no longer required. On his return home from work he informed his wife that he had lost his job. She said: "If you have no job, you have no home." He then left the house, met some friends, began drinking and got drunk. He returned to his wife's restaurant before midnight. His wife, sister-in-law and his son, Albert, were in the restaurant. He was in a drunken and moody condition and after silence for about a half-hour, he drew his gun and began shooting, hitting his son (who recovered in a short time) and hitting his wife, who died fifteen minutes after being shot. The applicant alleges that the entire incident of the killing is a blank and that he did not know he had shot anyone until he awoke in jail the following day.

The applicant has now served nine years of his term of imprisonment. He was never before charged with or convicted of crime. The Warden of the Penitentiary certifies to the applicant's good prison record. There was filed with the Board a letter from Dr. Everwine, who states that he examined the applicant immediately after the murder and found him to be under the influence of liquor. He states that the applicant became obsessed with the idea that his wife was untrue to him. He adds that the applicant was not an habitual drunkard. There was filed with the Board a letter from the trial District Attorney which evinces a favorable attitude. A number of letters were filed recommending clemency. The trial Judge states to the Board that he has "no objection to the granting of a pardon to this man." A daughter in St. Louis, Missouri, has offered to provide a home for the applicant.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because a home has been offered him if released; because of the favorable attitude of the trial District Attorney and the trial Judge, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court, should be commuted to nine years' imprisonment, effective on December 23, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Charles Lyle be commuted to nine years' imprisonment, expiring on December 23, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 438, September Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Luzerne, May Kebort was convicted of manslaughter, and on November 13, 1926, was sentenced by the Court to pay a fine of one thousand dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than six years nor more than twelve years.

The applicant is of German descent, thirty-nine years of age. At the time of her arrest she lived with her husband and daughter in Lafflin, Luzerne County, Pennsylvania. The husband has since died but the daughter, unmarried, is working her way through the schools of New York City.

The applicant and George W. Kern, were neighbors at Port Blanchard, Luzerne County. The applicant was living with her husband and daughter, and Kern, who was retired, lived with his wife and son. In 1924 Kern requested the applicant to take care of his home and invalid wife. She made frequent visits to his home and she and Kern became friendly. Kern's wife died in 1925, and from that time the meetings were frequent and clandestine, and their relationship became illicit. The husband of the applicant was suspicious of their actions and ordered Kern out of his home. On June 26, 1926, the applicant and Kern went to Wilkes-Barre in Kern's coupe to do some shopping. They decided to take a motor trip along the Sullivan Trail. They stopped at a road-house and drank a large amount of wine. On their return trip shots were fired from a revolver in the automobile, the car overturned, and both the applicant and Kern were removed to the Pittston Hospital. The revolver was taken into the car by the applicant in her vanity box and placed on the shelf in the back of the car.

Doctors Murphy and Lenahan, witnesses for the Commonwealth testified in substance that the examination at the hospital showed that Kern had four bullet wounds on his person and that he died on August 11, 1926, from meningitis, and that the applicant had four wounds on her body. She was charged with murder committed in Luzerne County. Her trial was scheduled for the September Term, 1926, but on account of her physical condition, it was continued until the November Term when she was convicted and sentenced as above stated.

The applicant has now served four years and one month of her term of imprisonment. She was never before charged with or convicted of crime. A large petition was filed with the Board recommending clemency. The petitioners are personally acquainted with the applicant and certify that her reputation in the community as an honest, industrious and law-abiding citizen was of the very best.

There were also filed with the Board a number of letters recommending clemency. One from the Deputy Warden of the Lackawanna County Prison, who certifies to her good prison record. The prison's physician advises the Board that her physical condition is bad; that she has varicose veins in her legs making it very difficult for her to get about and also suffers from nephritis, requiring a diet different from that served in prison. The Mayor of Pittston and others recommend clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; her impaired physical condition; because of the petition filed recommending clemency and numerous letters to the same effect, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that she should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to four years and one month's imprisonment, effective on December 12, 1930.

We, therefore "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said May Kebort be commuted to four years and one month's imprisonment, effective on December 12, 1930

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
WILLIAM A. SCHNADER,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 208, February Term, 1920, in the Court of Oyer and Terminer in and for the County of Philadelphia, Charles Miller was convicted of murder in the second degree, and on October 21, 1920, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than fourteen years nor more than sixteen years.

The applicant is a native-born citizen of the United States, colored, and forty-one years of age. He is a teamster by occupation and at the time of his arrest was so employed at Hog Island, Philadelphia, Pennsylvania.

At midnight, on Saturday, October 5, 1919, a group of five or six colored men were engaged in a crap game on Thirteenth Street, just below South, in the City of Philadelphia. The game had been in progress for some time when the applicant and his brother, Elijah, joined the game. The Miller brothers were both employed in connection with the Government's operations at Hog Island. Shortly after their entry into the game a fight ensued between the applicant and another man, whom the former claimed had improperly appropriated fifty cents belonging to him. The applicant chased the man referred to a distance of a few hundred feet and was returning to the game when Charles B. Jones appeared on the scene. The latter was a colored police officer charged with special duties on the

Vice Squad and was not in uniform at the time. Immediately following the arrival of Jones an altercation arose between him and the applicant. Two witnesses for the Commonwealth who were participants in the game testified at the trial that the Miller brothers were strangers in the neighborhood; that Officer Jones broke up the crap game and ordered the crowd to desist; that the witnesses recognized him as an officer although he was not in uniform. Lisby, a colored barber, was looking out of the window at the group when Jones broke up the game. He testified that he observed the officer and applicant clinching and that it was his impression that Jones was hitting the applicant over the head with a blackjack. The physical encounter lasted for a few moments and then he heard the shots and saw Jones fall in the center of the street. At this particular moment the same witness testified that Elijah Miller, the brother, was at the corner of Rodman Street and called to the applicant to run, whereupon both ran up Rodman Street. At the trial the applicant admitted having fired the shot which killed Jones but set up the defense that he did not know that he was a policeman and that he shot him only when he had been repeatedly hit on the head with a blackjack. Elijah Miller, the brother corroborated him. The applicant, at the trial, exhibited to the jury the marks of the blackjack on his head which were visible one year after the trial.

The applicant has now served ten years and two months of his term of imprisonment. He was in prison one year before the trial. His prior record is good. In 1916 he was sentenced to three years in the Florida State Prison on the charge of larceny, but was subsequently pardoned. Employment has been offered him, if released, by the president of the Lawrence-McFadden Company, Philadelphia, as appears by a letter on file in this Department. While in prison, he has engaged in the operation of a laundry which cares for the laundry of the resident members of the prison staff and he has devoted the proceeds of this business to the support of his son. For eight years he has been a janitor in the office of Dr. Bowman, moral instructor of the Penitentiary, and the latter has agreed to act as his moral preceptor if released. There was also filed with the Board a letter from the assistant trial District Attorney in which he states: "I am of the opinion from his record and what I gleaned of the case at the time that the Board would be justified in granting the application."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because employment has been offered him if released; and because Dr. Bowman, moral instructor of the Penitentiary, has agreed to look after his future moral welfare, and, in further consideration of the recommendation of the assistant trial District Attorney, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to ten years and two months' imprisonment, effective on December 21, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Charles Miller be commuted to ten years and two months' imprisonment, expiring on December 21, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
WILLIAM A. SCHNADER,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 13, October Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Lackawanna, Michael Provprack, alias Michael Prompovitch, was convicted of statu-

tory rape, and on April 11, 1927, was sentenced to pay a fine of one dollar, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than seven and one-half years nor more than fifteen years.

The applicant is a native-born citizen of the United States, of Hungarian parentage, twenty-five years of age. At the time of his arrest he was employed as a laborer in the mines and resided with his parents in the City of Scranton. He has a wife and a son three and one-half years of age, born since his conviction.

The crime in question was alleged to have been committed about 11:30 P. M. on May 21, 1926, in the city of Scranton. At the trial it was shown that one Alma Holtzman, a girl about fifteen years of age (whose age was in dispute), in company with a young man, was sitting in a Ford coupe which was parked with lights dimmed on the side of Keyser Avenue, Scranton. When the girl and her companion were starting their car to drive on, they were approached by three young men, two of whom jumped on the running board of the car, and compelled them to stop. These men forced Alma Holtzman to get out of the car and into a Maxwell coupe which it was claimed was being driven by the applicant. She was taken a short distance into the woods in the car and while the two young men held her she was assaulted, in the car, by the applicant.

The applicant has served three years and eight months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent as shown by a letter from the Warden of the Penitentiary. The applicant's wife and small child require his support.

There was filed with the Board a numerous-signed petition of citizens who believe him to be innocent of the crime charged, and declare him to be honest, conscientious, upright, and moral, and recommend clemency. One of the jurors who convicted the applicant, in a letter filed, requests clemency. The Warden of the Penitentiary has filed with the Board a letter in which he strongly recommends pardon. The trial Judge, relying on the judgment of the Warden, also recommends clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his excellent prison record; because his wife and small son require his support; because of the petition of the citizens and the recommendations of the Warden of the Penitentiary and the trial Judge, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to three years and eight months' imprisonment, effective on December 11, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Michael Provprack, alias Michael Prompovitch, be commuted to three years and eight months' imprisonment, expiring on December 11, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
WILLIAM A. SCHNADER,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 28. March Sessions, 1928, in the Court of Quarter Sessions of the Peace, in and for the County of Butler, Ray Davison pleaded guilty to an indictment charging him with statutory rape, and on March 17, 1928, was sentenced by the Court to pay a fine of \$500.00, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than five years nor more than ten years.

The applicant is a native-born American citizen, twenty-five years of age. He is a carpenter by occupation and at the

time of his arrest he was employed by D. C. Stewart, General Contractor, Ben Avon, Allegheny County. He resided in Butler County. He is at the present time unmarried and has no children.

The applicant was married on November 23, 1925. His wife deserted him in January, 1927, when the man to whom she is now married began his action for divorce from his former wife. In the fall of 1927, he was living with his widowed mother and sister in Mars, Butler County, and kept company with Violet McNany. She knew that he had been married and was not living with his wife, and intended to get a divorce. While she was under sixteen years of age she was apparently a woman fully grown. The applicant claims that she never revealed her age. They were madly in love and as a result of intercourse between them, with her consent, she became pregnant. Both the applicant and the girl desired her to leave home until after the child was born and until after the applicant had secured a divorce, at which time it was their intention to be married. Members of her family objected to this and insisted upon her undergoing an illegal operation. Against the real wishes and desires of both, an illegal operation was performed on her by Doctor V. F. Thomas, of Evans City, Pennsylvania. She became ill and required the services of another physician who immediately sent her to the Presbyterian Hospital at Pittsburgh, where she died in January, 1928. The applicant had been with her constantly during her illness and was arrested at the door of her room in the hospital and taken to Butler County and charged with the crime of statutory rape. Against the advice of counsel, he refused to defend, pleaded guilty to the indictment and was sentenced as above-stated. The applicant's wife divorced him and married her sweetheart who had procured a divorce from his wife in the fall of 1927. The applicant is now unmarried and needed for the support of widowed mother.

The applicant has now served two years and nine months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record is excellent, as shown by letter from the Warden of the Penitentiary. He was twenty-two years of age when this crime was committed. Doctor Thomas, the physician who performed the illegal operation, has been pardoned by the Board.

There were filed with the Board letters from the parents, two brothers and sister of the deceased girl requesting clemency. William H. Martin, who was private counsel for the family of the deceased girl, at the time of the trial, has filed a letter with the Board recommending clemency. The Burgess, Borough Secretary, and Justice of the Peace of Mars wired the Board urging pardon. A petition of citizens of Mars and vicinity was also filed with the Board requesting clemency. They testify to the good reputation of the applicant. The trial District Attorney has also filed a letter with the Board which shows a favorable attitude toward the present application.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; his good prison record; because his widowed mother requires his support; in consideration of the petition of citizens; the recommendations of the family of the deceased girl, the recommendation of the private counsel for the family at the time of the trial; the recommendations of the Burgess, the Borough Secretary and Justice of the Peace of Mars, and the favorable attitude of the trial District Attorney, we have concluded that the applicant has been fully punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to two years and nine months' imprisonment, effective on December 17, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Ray Davison be commuted to two years and nine months' imprisonment expiring on December 17, 1930

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
WILLIAM A. SCHNADER,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 9, October Sessions, 1924, in the Court of Oyer and Terminer, in and for the County of Blair, Daisy R. Woods, alias Margaret Hayes, alias Cleveland, pleaded guilty to an indictment charging her with murder, and on October 20, 1924, was sentenced by the Court to pay a fine of fifty dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than eight years nor more than sixteen years.

The applicant is a native-born citizen of the United States, thirty-one years of age. By occupation she is a waitress and at the time of her arrest was a restaurant keeper. Her restaurant was located at 1216 Fourth Street, Altoona, Pennsylvania, where she resided. She was married and divorced and never had any children.

On August 16, 1924, Archie Cleveland, a roomer in the home of the applicant (which was in the same building as the restaurant she kept), had been drinking, and was in and out of the restaurant all day. The applicant ordered him to leave and he refused. She informed him that if he did not leave, she would go to a neighbor's and stay there all night. About 11:45, he left the restaurant and she thought he had gone. At 12:00 she closed the restaurant and went into the house and found Cleveland there. She started to leave when he, with an ice pick in his hand, stepped between her and the door. She ran for the kitchen door but it was locked. He came towards her with the ice pick upraised to strike her when she reached in a drawer of the kitchen cabinet and found a revolver which she had placed there a month before when she loaned money to a man from Pittsburgh and took the revolver as security. She took the revolver and started for the front door and told Cleveland to let her alone. He began to strike her with the ice pick. In the turmoil the gun went off, the bullet entering his stomach, and he died several hours later. There were no eyewitnesses to the tragedy. Upon advice of counsel, she pleaded guilty to the indictment for murder.

The applicant has served six years and two months of her term of imprisonment. She was never before charged with or convicted of crime. The present District Attorney, after examining the application and notes of testimony and after having talked with the officers in charge of the prosecution, filed a letter with the Board in which he states that he believes the applicant is entitled to such favorable action as the Board may see fit to take. The Superintendent of the Allegheny County Workhouse, in a letter filed with the Board, dated November 24, 1930, states that the applicant has been in his custody since November, 1924, and that her conduct there had been good.

In consideration of all the circumstances of this case, the prior good record of the applicant; the term of imprisonment already served; her good prison record, and because of the favorable attitude of the present District Attorney, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that she should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to six years and two months' imprisonment, effective on December 20, 1930, conditioned, however, that the applicant immediately return to Virginia.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Daisy E. Woods, alias Margaret Hayes, alias Cleveland, be commuted to six years and two months' imprisonment, expiring on December 20, 1930, conditioned, however, that immediately upon her release she return to Virginia.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 630, 631, 632, 633 and 634, November Sessions, 1924, in the Court of Quarter Sessions of the Peace, in and for the County of Philadelphia, Edward Donnelly was convicted on five indictments charging attempted robbery, entering with intent to commit a felony, conspiracy to rob, assault and battery, aggravated assault and battery, battery to kill and carrying concealed deadly weapons, and at Nos. 630, 631, and 633, was sentenced, in the aggregate, to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than fifteen years nor more than thirty years. Sentence was suspended at Nos. 632 and 634, charging conspiracy to rob and carrying concealed deadly weapons.

The applicant is a native-born citizen of the United States, twenty-seven years of age. At the time of his conviction he was engaged in the illicit sale of intoxicating beverages. He is married and has a wife living in California. He has one child, aged six years, residing in Malvern, Pennsylvania.

The applicant, Edward Brennan and James Baily entered the tin can and bottle store of Ruby Gulkis, at 703 East Passyunk Avenue, Philadelphia, at about 10:30, on the morning of November 19, 1924. Harry Gulkis, a brother, and others were in the store at the time. The applicant, Brennan and Baily (partners in bootlegging), met by appointment on the morning of the day in question for the purpose of calling on various customers to whom whiskey had been delivered and making collections for the same. The visit to the Gulkis' store was to make a collection for fifteen cases of whiskey that had been delivered there a week previous. The applicant and Brennan, at suggestion of Gulkis, went into his office, which was in the rear of the store, and the door was closed. Baily remained in the store.

At the trial, the Commonwealth contended that the applicant held up Ruby Gulkis and that in the melee which followed Brennan and Baily escaped; that the brother, Harry Gulkis, reached from behind and grabbed the applicant's gun just as the same was being discharged at Ruby Gulkis and the bullet went wild; that this was the only shot fired; that when the policemen arrived on the scene he found the applicant lying on the floor overpowered by the two Gulkis brothers and another man. Ruby Gulkis was bleeding from a gash in the head and was taken to a hospital.

There were filed with the Board the affidavits of Edward Brennan and James Baily, co-partners and companions of the applicant. Brennan was the only eye witness of the affair in the office, with the exception of the Gulkis brothers. Brennan deposes that after the office door was closed an argument arose between Ruby Gulkis and the applicant as to the quality and price of the liquor which had been delivered; that during the course of the argument Harry Gulkis, the brother, came into the office; that an altercation ensued between the latter and the applicant during which Harry struck him in the eye; that a general fight followed at which time, Baily and Brennan managed to escape.

Brennan states that at no time was there a revolver in evidence and that, to the best of his knowledge, the applicant did not have a revolver in his possession; that at no time was there any attempt to rob or to commit any offense whatever on the persons of the Gulkis brothers and that the visit to the store was for the sole purpose of collecting the money due for whiskey sold and delivered; that affiant was arrested for his part in the affair but neither of the Gulkis brothers appearing against him he was discharged; that within three months after the applicant's conviction and sentence, a man who was connected with the Gulkis store visited him and asked him if he wouldn't compromise the claim due for whiskey; that within several months thereafter this same man, who appeared to be working for the Gulkis brothers, gave him eight hundred twenty-five dollars (\$825.00), the original price claimed for the whiskey; that he took the money, adjusted Baily's share with him, but never gave the applicant any portion of the money received.

Baily, in his affidavit, states that during the melee no revolver was shown; that he did not have one in his possession, and, so far as he knew, neither Brennan nor the applicant had revolvers; that there was no attempt made to rob or com-

mit any offense, and that the sole purpose of going to the Gulkis' store was to collect money due for the whiskey sold and delivered; that he was arrested for his part in the affair, but, the Gulkis brothers not appearing against him, he was discharged. He further states that the Gulkis brothers knew Brennan, the applicant and himself, as they were all in the bootlegging racket and had prior dealings and that he received from Brennan his share of the money.

The applicant has now served six years and one month of his term of imprisonment. He was twenty-one years of age when sentenced.

There was filed with the Board a letter from Allen M. Matthews, Treasurer of the Board of Trustees of the Eastern State Penitentiary, in which he strongly recommends clemency, offering to become sponsor for the applicant. He believes that the applicant has been morally rehabilitated. The trial Judge has filed two letters with the Board. In the first, he strongly recommends that a rehearing be granted the applicant. In the second, addressed to the Attorney General and filed with the Board, he states that he now believes that the applicant has truly reformed and can safely be liberated. He adds that the late President of the Board of Trustees, Alfred Fleisher, Allen M. Matthews, a member of the Board, Reverend Linn Bowman, Chaplain of the Penitentiary, Charles Edwin Fox, former District Attorney, and others have taken a great interest in the applicant. Doctor Herbert Goddard, Vice-President of the Board, told him that he would be pleased to stand as the applicant's sponsor—that Mr. Matthews will, in fact, act as his sponsor—and that Mr. Joseph Cunningham, who is connected with the Ford Automobile Agency in Philadelphia, has a position ready for him in Chester. He concludes his letter by recommending the applicant's commutation of sentence.

In consideration of all the circumstances of this case, the comparative youth of the applicant when sentenced; the term of imprisonment already served; because the applicant bears evidence of having truly reformed; because his small son needs his support, because employment has been offered him if released; because the Treasurer of the Board of Trustees will sponsor him; because of the statements contained in the affidavits of Brennan and Baily, partners and eye-witnesses and more particularly because of the strong recommendations of the trial Judge and the statements contained in his letters, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to six years and one month's imprisonment, effective on December 20, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed upon the said Edward Donnelly be commuted to six years and one month's imprisonment, expiring on December 20, 1930.

ARTHUR H. JAMES,

Lieutenant Governor.

JAMES A. WALKER,

Secretary of the Commonwealth.

WILLIAM A. SCHNADER,

Attorney General.

JAMES F. WOODWARD,

Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 36, October Term, 1919, in the Court of Oyer and Terminer in and for the County of Lackawanna, Pasquale Mossotti pleaded guilty to an indictment charging him with murder, the degree of which was adjudged by the Court to be murder in the second degree, and on November 22, 1919, was sentenced by the Court to pay a fine of one dollar, costs and to undergo imprisonment in the Western Penitentiary for a period of not less than fourteen years nor more than twenty years.

The applicant is a native of Italy, sixty-one years of age and owes allegiance to that country. He came to America in 1908. He has a wife and five children in Italy. He was by occupation a laborer and at the time of his arrest was working for

the Delaware and Hudson Railway Company as a track layer and lived in the City of Carbondale.

On or about June 9, 1919, the applicant and one Angelo Molanaro came out of a saloon where they had been drinking together. They had gone but a short distance until two shots were fired and Molanaro fell to the street. The applicant fearing he too would be shot, started to run. He was intoxicated and continued running to the borders of the town. The applicant heard some one call out and tell him to get away and stay away or he would get it next. The applicant ran it to a field and there went to sleep and slept until the following day. When he awoke he wondered what he was doing there and started back to town. On his return to town he was arrested. Molanaro was taken to the hospital where he died. He declared at the hospital that he saw no one around and for that reason the applicant must have shot him, although he admitted they had been good friends. The applicant had no knowledge of having shot his friend and has always maintained his innocence. He was without funds to employ counsel and the Court appointed an attorney to defend him. During the trial the interpreter told him he had better plead guilty or he would be sent to the chair. Fearing he would not be able to establish his innocence, he pleaded guilty to the charge of murder and was sentenced as aforesaid. The above is a history of the crime as contained in the application.

The applicant has now served approximately eleven years and one month of his term of imprisonment. He was never before charged with or convicted of crime. The Superintendent of the Western Penitentiary certifies to his excellent prison record.

There was filed with the Board two letters from Judge Maxey who was the trial District Attorney. In the first letter Judge Maxey states that he has no objections to favorable action to the application. He also states: "Judge Newcomb, the sentencing judge informs me that he has not." In the second letter Judge Maxey states in connection with the present application: "I hope that his case may be reopened and that his application for a pardon may be favorably acted upon. I believe that the eleven years that this man has served in prison satisfy the requirements of justice. Mossotti is now sixty-three years of age and I hope that he may be given an opportunity during the remaining years of his life to achieve social usefulness and happiness."

In consideration of all the circumstances of his case; the age of the applicant; his prior good record; the long term of imprisonment already served; his good prison record; and because of the favorable attitude of the trial Judge and the strong recommendation of the trial District Attorney, Judge Maxey, we have concluded that the applicant has been sufficiently punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to eleven years and one month's imprisonment, effective on December 22, 1930.

We, therefore, "after full hearing, upon due public notice, and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Pasquale Mossotti be commuted to eleven years and one month's imprisonment expiring on December 22, 1930.

Lieutenant Governor.

JAMES A. WALKER,

Secretary of the Commonwealth.

WILLIAM A. SCHNADER,

Attorney General.

JAMES F. WOODWARD,

Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 6, March Sessions, 1924, in the Court of Oyer and Terminer, in and for the County of Blair, Harry P. Albright pleaded guilty to murder in the second degree, and on March 17, 1924, was sentenced by the Court to pay a fine of

fifty dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than nine nor more than eighteen years.

The applicant is a native-born citizen of the United States, fifty-eight years of age, a laborer by occupation, and at the time of his arrest was employed by the Pennsylvania Railroad Company at Altoona, in which city he resided with his wife. There were no children.

The applicant and his wife lived apart from each other for approximately twenty years, during which time and previous thereto the behavior of the wife was very bad. She was arrested many times for drunkenness and disorderly conduct and was a notorious prostitute. After this long period of separation the applicant became ill and was a patient in the Altoona Hospital, at which place the applicant's wife called upon him on several occasions, and after he had been restored to health they agreed to live together again as man and wife, after promises had been made by her that she would be a dutiful wife. She behaved for a time, but later became as bad as ever, holding drinking parties in their home during the absence of her husband; leading the life of a prostitute, and was arrested many times.

Upon the day of the murder the applicant, who was away working during the day, returned home and found a drinking party in progress, there being twelve to fourteen guests present. He was asked to drink and refused, but finally was prevailed upon to do so and became intoxicated. When his wife hit him over the head with a beer bottle he fired a shot into the wall to intimidate her, and when several male friends of her's endeavored to take the revolver from him it was discharged and the woman killed.

The applicant has now served six years and nine months of his term of imprisonment. He was never before charged with or convicted of crime. His prison record was good, as is shown by a letter from the Deputy Warden of the Penitentiary. There were filed with the Board a number of letters recommending clemency, from Representative Hartsock; Chief of Police Tillard; the Sheriff of the County, and Commissioners Corsuch, Royer and Brumbaugh, and other prominent citizens, all certifying that the applicant was a peaceable and well behaved citizen while his wife was a notoriously bad woman. There was also filed with the Board a letter from the trial District Attorney, who is now the President Judge of the County, in which he states that: "having in mind the facts and circumstances of the crime for which Harry P. Albright was tried and convicted, his previous good behavior; his age and the time already served, I am convinced that the Board of Pardons would be justified in favorably acting upon his petition for pardon, and therefore join the petitioner in making this request."

In consideration of all the circumstances of this case; the age of the applicant; his prior good record; his excellent prison record; the term of imprisonment already served; because of the many letters filed recommending clemency, from the Chief of Police of Altoona, the Sheriff of the County, the County Commissioners and others, and in further consideration of the recommendation of the trial District Attorney, who is now the President Judge, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment should be commuted to six years and nine months' of imprisonment, effective December 17, 1930.

we, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Harry P. Albright be commuted to six years and nine months' imprisonment, expiring on December 17, 1930.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 1, August Sessions, 1929, in the Court of Oyer and Terminer, in and for the County of Mifflin, Adolph Lehmann entered the plea of guilty of voluntary manslaughter to an indictment charging him with murder, and on August 27, 1929, was sentenced by the Court to pay a fine of one hundred dollars, costs, and to undergo imprisonment in the Western Penitentiary for a period of not less than three years nor more than six years.

The applicant is a native of Baden, Germany, twenty-seven years of age, and owes allegiance to that country. He is a butcher by occupation, but was employed by Miller Brothers, owners of the 101 Ranch and Wild West Shows, and had personal charge of Mr. Zack Miller's horses and two saddles valued at \$10,000 and \$7,500, respectively. He is unmarried.

The applicant has been employed for a period of three years by the Miller Brothers. On the morning of May 22, 1929 the show arrived at Lewistown, Pennsylvania, and upon the applicant's arrival at the tent where hay was kept for the horses he saw the space which had been reserved for the hay for Zack Miller's horses, occupied by buffalo. The applicant and another cowboy moved the buffalo from the space and just as they had finished transferring them to another location a colored man who had charge of the buffalo came in and inquired what was the meaning of the moving of the buffalo. The applicant replied that he ought to know better than to put the buffalo in the space in which, for more than three years, he had kept hay. The colored man said he would put the buffalo back in this space. An altercation arose between them, which was summarily concuded when the chief of the cowboys came and ordered the colored man out of the tent. The applicant placed the hay in the space the buffalo had occupied and went to breakfast. After breakfast, he returned to the tent and again encountered the man with whom he had had the altercation. The latter had in his hand the quirt which he had taken from the applicant during the former altercation. When the applicant asked him for the quirt he struck at him. The applicant backed away. The man reversed the quirt in his hand, which was loaded with lead, grasping the tassel part, and again struck the applicant. In making this second attack he arose from the bale of hay on which he had been sitting, and, as he struck at the applicant, the latter pulled a pistol out of his pocket and shot him. The man was taken to the hospital and died twenty-eight hours later. After the shooting, the applicant went into the main tent and told Mr. Zack Miller what he had done. The latter advised him to go to the police station, which he did. He was then arrested and placed in prison.

The applicant has now served one year and four months of his term of imprisonment. He was never before charged with or convicted of crime. A letter was filed with the Board from Frank Schmidt, residing in Chicago, in which he agrees to give the applicant, if released, a home and employment. Z. F. Miller, the applicant's employer, has filed with the Board a letter in which he states that the applicant had worked for him at different times for about four years and that he had never been in trouble. He states that he would give him a job if he were released. He adds, "I am thoroughly familiar with the circumstances surrounding this unfortunate affair and know the negro who was killed to have been a very quarrelsome and vicious man. It was my understanding that at one time he was convicted of poisoning some performing dogs. I learned of this after the unfortunate occurrence of which Lehmann was convicted." He concludes by recommending pardon.

The trial Judge and trial District Attorney, in letters filed with the Board, both recommend clemency.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because employment and a home have been offered him if released; in consideration of the letter from the applicant's former employer and the recommendations of the trial Judge and trial District Attorney, we have concluded that the applicant has been sufficiently punished, and, while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprison-

ment heretofore imposed by the Court should be commuted to one year and four months' imprisonment, expiring on December 27, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Adolf Lehmann be commuted to one year and four months' imprisonment, expiring on December 27, 1930.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 121, 122, and 124, April Sessions, 1922, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Mario Lopez, alias Morris Jaffer, alias Steve Vukmanis, was convicted of assault, being armed with an offensive weapon, assault, with intent to rob; assault and battery with intent to kill, and conspiracy to rob, and on April 10, 1922, was sentenced by the Court in the aggregate to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than twenty-eight years, six months, nor more than thirty years.

The applicant is of Italian birth, a citizen of the Republic of Argentina, thirty-eight years of age, and unmarried. He was an interpreter by occupation, but for a time prior to his arrest for the present offense he had been employed as a fireman on ocean-going steamers. He had resided with his parents in the City of Buenos Aires, Argentina, almost his entire life, but at the time of his arrest he resided in the City of Philadelphia.

On March 13, 1922, Robert McGirr and Gordon Hood, bank messengers in the employ of the Southwestern National Bank, Philadelphia, shortly after noon had \$13,500.00, in cash, in their joint possession. They proceeded to walk northward along the east side of Broad Street and as they approached Rodman Street, two men jumped upon them and knocked Hood out of the way, seized the package of currency being carried by McGirr, and climbed into an automobile which had been parked facing east on Rodman Street, with a man at the wheel. McGirr then followed the two men and jumped on the running board of the automobile. The man whom he later identified as John Vantage, struck him over the head with the butt of a revolver causing him to fall off in the street. The automobile proceeded on its course until finally two police officers took up the chase, commandeering a motor truck, and followed the bandit car. The applicant was identified as having jumped from the bandit car on Eighth Street and having walked southward on said street. One of the officers jumped from the truck and arrested Lopez. The other officer continued after the bandit car. Vantage leaped from the bandit car and ran into a pool room. The officer pursued him and as he approached, Vantage opened fire with a revolver, shooting the officer through the left arm. The officer then attempted to beat him into submission but before he had time to do so, Vantage had fired another shot into the officer's back. Finally the officer with the aid of another officer who had been attracted to the scene, subdued Vantage and placed him under arrest. The bandit car, after Vantage leaped from it, disappeared. Joseph Weiner was later arrested and identified as the driver of the car. Vantage, Weiner and the applicant were jointly indicted by the Grand Jury. When the cases were called for trial, Weiner was granted a severance and was subsequently tried and acquitted by the Jury. The applicant was convicted and sentenced as before stated. Vantage received a like sentence. When the applicant was arrested he was walking on the street near his home, and was not armed with any weapon, nor did he have any money on him.

During the trial the applicant was not represented by counsel and could not speak or understand the English language. He did not testify in his own behalf, nor was an interpreter

available to interpret the testimony of the witnesses against him. The entire trial lasted but twenty minutes. The officials of the Penitentiary state that when the applicant was admitted into that institution, he could neither speak, nor understand the English language.

The applicant was arrested but once before his present trouble, charged with disorderly conduct and was discharged by the Magistrate. He has now served eight years and eight months of his term of imprisonment. Arrangements have been made to deport him to Buenos Aires.

In consideration of all the circumstances of this case; the prior good record of the applicant, with a minor exception; the long term of imprisonment already served; the fact that Weiner, one of his co-defendants, who drove the car, was acquitted by the Jury, and because arrangements have been effected whereby the applicant will be deported to Argentina, we have concluded that he has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to eight years and eight months' imprisonment, effective on December 10, 1930, upon the express condition that the applicant immediately upon his release be deported.

We, therefore, "after full hearing upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed upon the said Mario Lopez, alias Morris Jaffer, alias Steve Vukmanis, be commuted to eight years and eight months' imprisonment, expiring on December 10, 1930, upon express condition that the applicant be immediately deported.

ARTHUR H. JAMES,  
Lieutenant Governor.  
JAMES A. WALKER,  
Secretary of the Commonwealth.  
WILLIAM A. SCHNADER,  
Attorney General.  
JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 22, April Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Venango, Edmond L. Flick was convicted of forgery, and on July 8, 1929, was sentenced by the Court to pay a fine of one dollar, costs, and to undergo imprisonment in the Western Penitentiary for a term of not less than two years nor more than four years.

The applicant is a native-born citizen of the United States, twenty-eight years of age. He is a bank clerk by occupation and at the time of his arrest, was the cashier of the Citizens Bank of Pleasantville, Pennsylvania. He resided in that County, and has a wife and two sons, age three and eight years, respectively, who are now residing with his father and mother on a farm in Venango County.

In October, 1927, the applicant became cashier of the Citizens Bank of Pleasantville, Pennsylvania, after having been employed for seven years in the Oil City National Bank of Oil City, Pennsylvania. Forest B. Kuhns, a contractor, carried an account at the Citizens Bank and frequently made loans of several thousand dollars. The applicant and Kuhns were very friendly, the former having frequently accommodated Kuhns in the bank by making loans to him, which he urgently needed. On September 24, 1928, the bank was burned, broken into and robbed and its records partially if not completely destroyed. Certain evidences of indebtedness to the bank, contained in a metal box in the safe, were removed by Sylvester Watson, colored, the janitor, a self-confessed forger who pleaded guilty, and was sentenced by the Court of Quarter Sessions of Venango County, at No. 17, November Sessions, 1928, on the charges of burglary, larceny, and arson. After the robbery and burning of the bank, as aforesaid, the bank officials made a check-up of its affairs and records and found among the evidences of indebtedness to the bank, a note purported to have been signed by the said Forest B. Kuhns, in the sum of one thousand, two hundred thirty dollars (\$1,230.00). Mr. Kuhns'

attention was called to this note and he denied ever having signed it. A few weeks later, the applicant was arrested and subsequently indicted for the forgery of Kuhns' signature on the said note.

At the trial, the applicant was convicted and received the sentence hereinbefore stated. The applicant admitted that he had signed Kuhns' signature to the note and had not attempted to disguise his handwriting but claimed that Kuhns had authorized him to sign the latter's name to the note for the purpose of putting it into the bank to replace a note of like amount which was then in the assets of the bank and to which the officials of the bank were objecting as not being sufficiently secured, although the bank officials for some months prior thereto had knowledge of this alleged unsecured note being among the assets of the bank. The applicant received none of the proceeds from the Kuhns' note nor anything of value in connection with this particular note or the note which it replaced in bank. Kuhns admitted that some time after he learned that the note bearing his signature was in the bank and had been put there by the applicant, that he took the applicant into his employ in the City of Oil City and kept him employed for about two weeks.

The applicant has now served one year and five months of his term of imprisonment. He was never before charged with crime, except that at No. 7, January Sessions, 1929, in the same Court, he was acquitted by a jury on the charge of wilful and malicious breaking and entering and larceny, in connection with the robbery and burning of said bank. His wife and two small boys are in need of his support. Employment has been offered the applicant, if released, by former County Commissioner Tate, who has a store at Cranberry, Pennsylvania, and by George R. Bugbee, Justice of the Peace and real estate dealer at Pleasantville, Pennsylvania.

There were filed with the Board a number of letters recommending clemency. The City Treasurer of Oil City, Commissioners Gates, Ritchey and McElhaney, County Chairman Phipps, Wm. S. McKay, President of the First National Bank, Greenville, Sheriff Voorhees, Prothonotary Swyers, the Chief of Police of Oil City, the Vice President of the Franklin Trust Company and others, in letters filed with the Board, asked clemency. The trial District Attorney writes the Board that the applicant's wife and two boys need his care and support and under all the circumstances he doubts if the interests of the Commonwealth will be conserved by his further incarceration and, therefore, "makes no opposition to the application." The present District Attorney writes the Board with regard to the general good reputation of the applicant and his family. He makes no recommendation but states: "I am not familiar with the material facts of the case but believe the case comes within that class wherein the notoriety derived from the case and the fact that the defendant was convicted is, in itself, the more severe punishment."

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment already served; because of the many letters of recommendation filed with the Board from county officials, bankers and others; because of the favorable attitude of the present District Attorney and trial District Attorney; because employment by two responsible parties has been offered the applicant if released and because his wife and two small boys are in need of his care and support, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and five months' imprisonment, effective on December 8, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed upon the said Edmond L. Flick be commuted to one year and five months' imprisonment, expiring on December 8, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 1016 and 1017, August Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Nathan Devoughan was convicted of murder in the second degree, and on December 3, 1926, was sentenced by the Court to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than six years nor more than twelve years.

The applicant is a native born citizen of the United States, sixty-four years of age, colored. He is married and has two children. At the time of his arrest he was a resident of Philadelphia and was employed at the Baldwin Locomotive Works as a pile driver and blacksmith's helper.

The applicant shot and killed Seaborn Fanning on July 17, 1926, at the house of one James Harris, 8410 Erwig Avenue, Philadelphia. At the time of the shooting there were about five people present besides the deceased and the applicant, although only one person of the five was called by the Commonwealth as a witness. Prior to the shooting the applicant was at his home. James Harris and Seaborn Fanning came and requested him to go to the house of Harris with one Peter Stewart in order to straighten out a matter or difficulty between Stewart and a man named Lane who had previously been cut by Stewart. The applicant complied with their request and went to Harris' house where all of them except the applicant engaged in gambling pending the arrival of Lane. Everybody in the party was drinking with the exception of the applicant who did not drink pursuant to the orders of his physician. After a time a quarrel ensued between Fanning and Stewart, the former claiming that Stewart had refused to pay a bill of one dollar. In a few minutes the parties went downstairs and both Stewart and Fanning seized knives. The latter seized a butcher knife which belonged in the house. At the time Fanning was in a drunken condition and had locked the front door and placed himself in the back door with the knife in his hand. The applicant desiring to go home, approached the back door and asked Fanning what he intended to do with the knife. Fanning replied that he intended to kill every nigger there. The applicant then said: "Don't bother me with your knife. I ain't done nothing to you." Fanning replied: "I don't give a damn. I am going to kill everybody." Thereupon Fanning advanced toward the applicant and struck at him over the table which was between them. The applicant backed away toward the wall of the room but Fanning kept on approaching. The applicant then seized his pistol which was tied up in a newspaper and tore the paper off and warned Fanning to keep away. The latter, however, kept on coming and struck at the applicant again and this time the point of the knife penetrated the applicant's shirt and struck the back of the building and loan book which he had in his pocket. The applicant then fired his gun downward at the floor to frighten Fanning, but the bullet struck him in the stomach and adjacent organs causing a hemorrhage from which he died within a few hours.

The possession of the gun by the applicant was explained as follows: He had had the gun for about eleven years and during this period it had been fired but once. On the day before the shooting the applicant had made arrangements to sell the gun to his cousin, Thomas Brown, and when he left the house he took the gun with him for the purpose of delivering it to Brown, but the latter not being at his home the applicant proceeded to the Harris house as he had set out to do. The gun at all times was kept wrapped in a newspaper and tied with a string. He had known Fanning for less than a year but had had no quarrel with him and, therefore, there was no reason why he should have shot Fanning except in self-defense. The only eye-witness for the Commonwealth was Harris, who was the brother-in-law of Fanning. The latter boarded with him at the time of the tragedy. He testified that no words passed between the applicant and Fanning, that there was no quarrel between them or anything from which the applicant might have taken offense.

The applicant claimed that he fired but one shot which was in self-defense while the deceased was advancing upon him with a butcher knife and had him backed against the wall.

that there was no way of escape, and that he did not intend to kill the deceased and that the killing was accidental.

In consideration of all the circumstances of this case; the prior good record of the applicant; his age; the term of imprisonment already served, we have concluded that the applicant has been severely punished and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to four years' imprisonment effective on December 3, 1930, upon the express condition, however, that the applicant immediately return to North Carolina, his native state.

We, therefore, "after full hearing, upon due public notice, and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Nathan Devoughan be commuted to four years' imprisonment, expiring on December 3, 1930, upon the express condition, however, that the applicant immediately return to North Carolina, his native state.

ARTHUR H. JAMES.  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER.  
Attorney General.

JAMES F. WOODWARD.  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 241, March Sessions, 1929, in the Court of Quarter Sessions of the Peace, in and for the County of Delaware, Charles F. Zoll pleaded guilty to an indictment charging him with highway robbery, larceny and receiving stolen goods, carrying concealed deadly weapons, wantonly pointing and discharging a gun and conspiracy, and on March 22, 1929, was sentenced to pay a fine of one thousand dollars, costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than five years nor more than fifteen years.

The applicant is a native-born American citizen, twenty-five years of age. At the time of his arrest, he was unemployed. His residence was in the City of Philadelphia, where he lived with his mother and two sisters. He is unmarried.

In the early morning of January 8, 1929, a truck belonging to John Hillyard, an expressman of Eddystone, Pennsylvania, was apparently held up in Lansdowne Avenue, in the Borough of Yeadon, Pennsylvania, and carried off. The truck was carrying plush and cloth to the value of approximately twenty thousand dollars from mills in Delaware County to New York. Eight men, to wit, William H. Schwalbe, Frank McGlinchey, Rocco Matio, Nicholas Bartilucci, Joseph Bogash, Tony Kelly, Louis Lasch and the applicant were jointly indicted for the robbery, while the applicant was also indicted for carrying concealed deadly weapons, wantonly pointing and discharging a gun, conspiracy, larceny and receiving stolen goods. The applicant entered a plea of guilty to all the indictments and was sentenced as above stated. Schwalbe pleaded guilty to the robbery and not guilty to all of the remaining indictments. He was acquitted on all charges except that of robbery (to which he pleaded guilty) and received a sentence of from eight to twenty years in the Eastern Penitentiary. Matio was acquitted on all charges. McGlinchey pleaded guilty to all indictments, and involved Hillyard, the owner of the truck, in a conspiracy to have the truck, which was heavily insured, robbed. Hillyard was subsequently convicted of conspiracy and fraudulent conversion and sentenced to pay a fine of five hundred dollars and to undergo imprisonment for a term of from one to two years. A part of the goods and materials on the truck were sold to Lasch, who, as aforesaid, pleaded not guilty but was convicted of conspiracy, larceny and receiving stolen goods and sentenced to pay a fine of one thousand dollars, and to undergo imprisonment for a term of three to six years. In June,

1930, Lasch, the receiver of the stolen goods, was paroled on the payment of one thousand dollars, fine and costs. At the September Sessions of this Board, Schwalbe's minimum sentence of imprisonment was commuted to one year and six months, as of September 21, 1930.

The applicant has now served one year and nine months of his term of imprisonment.

There was filed with the Board, a letter from George W. Small, private detective, New York City, in which he offers the applicant employment if released. Charles F. Smith, Superintendent of Police of Haverford Township, Delaware County, the prosecutor in the case, recommends clemency. Samuel Seigle, Superintendent of Police of the same township, also recommends pardon. Thomas Wideman, member of the House of Representatives, recommends clemency.

In consideration of all the circumstances of this case: the term of imprisonment already served; because employment has been offered him if released; because of the recommendation of the prosecutor in this case, Representative Wideman and others, and in further consideration of the fact that Schwalbe and Lasch, two of the applicant's co-defendants are out on parole; that Matio, another co-defendant, was acquitted by the jury; that McGlinchey, another co-defendant, received a jail sentence of from one to two years, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to one year and nine months' imprisonment, expiring on December 22, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Charles F. Zoll be commuted to one year and nine months' imprisonment, expiring on December 22, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER.  
Attorney General.

JAMES F. WOODWARD.  
Secretary of Internal Affairs.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At Nos. 555, 556, 557 and 560, October Sessions, 1923, in the Court of Oyer and Terminer, in and for the County of Philadelphia, John Kanowski was indicted for robbery, entering to steal, assault and battery and carrying concealed deadly weapons. He pleaded guilty to all of the indictments excepting the last one, in which the jury found him guilty, and on October 18, 1923, was sentenced by the Court in the aggregate to pay costs and to undergo imprisonment in the Eastern Penitentiary for a period of not less than ten years nor more than twenty years.

The applicant is of German and Polish parentage, but a native-born citizen of the United States, twenty-seven years of age. Both of his parents died when he was four years of age and he was reared by an aunt, residing in Pittsburgh. He attended the public schools of that city. His occupation prior to his arrest was that of a painter, although he had been a waiter. At the time of his arrest he was out of employment. He came from Pittsburgh to Philadelphia to seek work on October 5, 1923. He is unmarried.

The applicant made efforts to secure employment in Philadelphia and in the course of his wanderings, made the acquaintance of Morris Noble and another person, who was later involved in the robbery. The three men were in the vicinity of Sixth and Lombard Streets, Philadelphia, where the drug store of Maurice H. Cohen is located. It was suggested by the third man, who is now a fugitive, that they go in and hold up the drug store. The applicant consented and

went into the store with the others, although he was unarmed, and his only participation in the robbery was the rifling of the cash register. Noble and the other man held up the proprietor and took from him some money and his watch and chain. The applicant offered no violence of any kind. They were apprehended not far from the place where the crime was committed. The money taken from the cash register by the applicant was recovered.

At the trial, the applicant was not represented by counsel and entered pleas of guilty to all indictments but the one involving the carrying of concealed deadly weapons.

The applicant has now served seven years and two months of his term of imprisonment. His prior record is good except that about six years prior to the present charge, was placed on probation in Pittsburgh on the charge of larceny and when he failed to report to his parole officer, he was brought before the Court and sentenced to the Huntingdon Reformatory where he was confined thirteen months. At the time of the present offense, the applicant was twenty years of age.

A number of letters were filed with the Board recommending clemency. Maurice H. Cohen, the prosecutor, in his letter filed with the Board states that the applicant, at the time of the robbery offered no violence and merely rifled the cash register. On account of his youth, he recommends clemency. John S. Michalski, who conducts a drug store in Cleveland, Ohio, has written the Board that the applicant, as a boy, worked in his drug store in Pittsburgh for five or six years. He asks the Board to grant clemency. He has also written to the Secretary of the Board that he will give the applicant, if released, a position in the drug store which he is managing. Frank Sonnefeld, the brother-in-law of the applicant, who for seventeen years has been indictment clerk in the District Attorney's office in Pittsburgh, has written the Board offering a home to the applicant if released and will watch over him. He states that Mr. Ball, who is in the warehouse business in Pittsburgh, has a job awaiting the applicant if he is pardoned.

In consideration of all the circumstances of this case; the prior good record of the applicant, with a single exception; the term of imprisonment already served; the youth of the applicant when the crime was committed; because of the recommendation of the prosecutor in this case; because the applicant, when released, has been offered a position by a former employer, and a home; we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to seven years and two months' imprisonment, effective on December 18, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed upon the said John Kanowski be commuted to seven years and two months' imprisonment, expiring on December 18, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

Commonwealth of Pennsylvania.

Board of Pardons.

Harrisburg, Pa., December 17, 1930.

His Excellency, John S. Fisher, Governor.

Sir: At No. 888, March Sessions, 1926, in the Court of Oyer and Terminer, in and for the County of Philadelphia, Craw-

ford Thomas pleaded guilty to an indictment charging him with murder, the degree of which was subsequently adjudged to be murder in the second degree, and on July 2, 1926, was sentenced by the Court to pay costs, and to undergo imprisonment in the Eastern Penitentiary for a period of not less than six years nor more than twelve years.

The applicant is a native-born citizen of the United States, colored, fifty-two years of age. His occupation is that of a rigger. He is married. His residence is with his brother in the City of Philadelphia.

In July, 1914, the applicant was employed as a yard foreman for The Barrett Company. He had a wife and five children to support and found it hard to make a living, so decided to take a roomer. A few weeks after Courtney A. Green came to live at the applicant's home, he became suspicious of his wife and Green, and one evening, returning home from work, he found his suspicions verified and immediately ordered Green out of his home. After this occurrence, the applicant's wife admitted wrongdoing, but claimed that Green had given her narcotics in order to accomplish his purpose. The day after Green was ordered out of the applicant's home, his wife left him and went to Green. They remained together as man and wife for three weeks. She then returned to the applicant's home, saying that she was sorry and would not transgress again if the applicant would take her back on account of the children. The applicant took her into his home but she did not keep her promise and continued to meet Green. The applicant returning from his place of employment in the month of February, 1925, found that his wife and Green had moved all of his furniture to another house and were living as man and wife, and took the children with them. In April, 1925, Green became tired of the applicant's wife and ordered her out. He sold all of the applicant's furniture and property that they had taken with them. After this occurrence, the applicant's wife again came to him and asked him to take her back into his home, which he had refurbished. The applicant again took her in and moved to another street, and after a period of three weeks, came home and found his wife and Green in bed together. He left his home, but kept on supporting the children. In June, 1925, the applicant's wife and Green lived as man and wife at 1122 Brown Street, where they were arrested for the violation of the liquor laws and for maintaining a disorderly house. After this occurrence, the applicant's wife moved to Eighth and Paris Streets, where she lived with Green until she was arrested by the Pennsylvania Society to Protect Children from Cruelty and was sentenced to the Philadelphia House of Correction where she served forty-five days and was released after promising to lead a different life and take care of her children. She did not keep her promise. After one week, she went again to live with the applicant where she stayed only one week and went again to live with Courtney Green and gave birth to a child which the applicant adopted and supported.

On March 10, 1926, after the applicant was warned that Green was going to kill him the first time he saw him, the applicant lost his patience and about 7:30 P. M. he went to the house at 876 North Eighth Street, Philadelphia, where his wife and Green were living as man and wife, to try and induce her to come home as the children were sick. As he walked into the room, Green reached towards his pocket, and the applicant took out his pistol and shot Green, who died immediately. He then left the house, walked the streets for a few hours, and then voluntarily surrendered. At the trial, he first pleaded not guilty, but subsequently withdrew his plea and pleaded guilty to the indictment.

The applicant has now served four years and five months of his term of imprisonment. He was never before charged with or convicted of crime. The Barrett Company, his former employer, through David Joyce of the chemical department, has offered employment to the applicant if released. The applicant's five children are now being cared for by the Bureau of Colored Children of Philadelphia.

There was filed with the Board, a letter addressed to the applicant from the agent of the Pennsylvania Society to Protect Children from Cruelty which gives a detailed account of the misconduct of Pearl Thomas, wife of the applicant, covering a period extending from October, 1924, to June, 1927.

In consideration of all the circumstances of this case; the prior good record of the applicant; the term of imprisonment

already served; because employment has been offered him if released; because the applicant's five small children require his support, we have concluded that the applicant has been sufficiently punished, and while we are not satisfied that he should be granted an absolute pardon, we have determined that the minimum sentence of imprisonment heretofore imposed by the Court should be commuted to four years and five months, expiring on December 2, 1930.

We, therefore, "after full hearing, upon due public notice and in open session," recommend that the minimum sentence of imprisonment heretofore imposed on the said Crawford

Thomas to be commuted to four years and five months' imprisonment, expiring on December 2, 1930.

ARTHUR H. JAMES,  
Lieutenant Governor.

JAMES A. WALKER,  
Secretary of the Commonwealth.

WILLIAM A. SCHNADER,  
Attorney General.

JAMES F. WOODWARD,  
Secretary of Internal Affairs.

# ONE HUNDRED AND FORTY-NINTH SEMI-ANNUAL REPORT OF THE DOLLAR SAVINGS BANK OF PITTSBURGH.

## THE DOLLAR SAVINGS BANK

338-344 Fourth Avenue, Pittsburgh, Pa. December First, Nineteen Hundred Twenty-Nine

### LIABILITIES

Amount due Depositors, December 1, 1929	\$43,435,661.41

<b>\$69,303,127.11</b>	<b>\$67,679,136.41</b>

#### CREDITS

Deposits .....	\$59,891,813.40
Contingent Account .....	7,787,323.01
	<b>\$67,679,136.41</b>

The UNDERSIGNED, Auditors appointed by the President Judges of the Courts of Common Pleas of Philadelphia, to audit and settle the accounts of THE WESTERN SAVING FUND SOCIETY OF PHILADELPHIA, in conformity with the provisions of Article 1 of the "Act" incorporating the said Society, approved eighth February, 1847, having been duly sworn according to law faithfully so to do:

Certify that the Assets of the said Society, at the close of business on the thirty-first day of December, 1929, have been examined and verified by them, and that the cost thereof as set forth in the above Schedule agree with the books and the balance sheet of the Society.

The amount due to depositors, including interest, on the first day of January, 1930, and the Surplus or Contingent Fund are correctly stated and are in agreement with the books and the balance sheet.

JOHN C. HINCHEY,  
THOMAS RIDGWAY,  
CHAS. J. BIDDLE.

The Society also holds for 2,840 Depositors, U. S. of America Liberty Loan Bonds and Treasury Certificates, deposited severally by them for safekeeping, of which the par value is \$490,800.

JOHN C. HINCHEY,  
THOMAS RIDGWAY,  
CHAS. J. BIDDLE.

The undersigned, Auditors appointed by the President Judges of the Courts of Common Pleas of Philadelphia, to audit and settle the accounts of The Western Saving Fund Society of Philadelphia, in conformity with the provisions of Article I of the "Act" incorporating the said Society, approved 8th February, 1847, having been duly sworn according to law faithfully so to do:

Certify that the assets of the said Society, at the close of business on the thirty-first day of December, 1930, have been examined and verified by them, and that the cost thereof as set forth in the above schedule agrees with the books and the balance sheet of the Society. The amount due to depositors, including interest, on the first day of January, 1931, and the surplus or contingent fund are correctly stated and are in agreement with the books and the balance sheet.

CHAS. J. BIDDLE,  
THOMAS RIDGWAY,  
JOHN C. HINCHLEY.

The Society also holds for 2,668 depositors, U. S. of America Liberty Loan Bonds and Treasury Certificates, deposited severally by them for safekeeping of which the par value is \$467,150.

JOHN C. HINCHLEY,  
THOMAS RIDGWAY,  
CHAS. J. BIDDLE.

## REPORT OF THE AUDITORS OF THE PHILADELPHIA SAVING FUND SOCIETY FOR THE YEAR 1929.

The subscribers, duly appointed by the President Judges of the Courts of Common Pleas of Philadelphia County, to audit and settle the Accounts of The Philadelphia Saving Fund Society, under the provisions of the Third Section of the Supplement to the "Act" incorporating the said Society, approved March 15, 1824, having been duly qualified respectfully report:—

That, in the performance of the duties assigned them, they have audited and settled the Books and Accounts of The Philadelphia Saving Fund Society for the year ending the thirty-first day of December, 1929, and have examined and ascertained the amount of the Bonds and Mortgages, Real Estate, Public Loans, Railroad

Loans, and the other evidences of the property and effects of the said Society, and agreeably thereto have made out the subjoined statement, which agrees with the books at that date, and exhibits the situation and condition of the said The Philadelphia Saving Fund Society on the first day of January, 1930.

C. BERKELEY TAYLOR,  
FRANCIS B. BIDDLE,  
EMILN C. GUYELIN,

Auditors,

## REPORT OF THE AUDITORS OF THE PHILADELPHIA SAVING FUND SOCIETY FOR THE YEAR 1930.

The subscribers, duly appointed by the President Judges of the Courts of Common Pleas of Philadelphia County, to audit and settle the Accounts of The Philadelphia Saving Fund Society, under the provisions of the Third Section of the Supplement to the "Act" incorporating the said Society, approved March 15, 1824, having been duly qualified, respectfully report:—

That, in the performance of the duties assigned them, they have audited and settled the Books and Accounts of The Philadelphia Saving Fund Society for the year ending the thirty-first day of December, 1930, and have examined and ascertained the amount of the Bonds and Mortgages, Real Estate, Public Loans, Railroad Loans,

and the other evidences of the property and effects of the said Society, and agreeably thereto have made out the subjoined statement, which agrees with the books at that date, and exhibits the situation and condition of the said The Philadelphia Saving Fund Society on the first day of January, 1931.

C. BERKELEY TAYLOR,  
FRANCIS BIDDLE,  
EMILIN C. GUYELIN,  
Auditors.

## REPORT OF THE LEHIGH COAL AND NAVIGATION COMPANY FOR THE YEAR 1929

The Lehigh Coal and Navigation Company  
1421 Chestnut Street, Philadelphia, Pa.

HENRY H. PEASE, Vice-President and Secretary

December 14, 1929.

TO THE SENATE AND HOUSE OF REPRESENTATIVES of the Commonwealth of Pennsylvania in the General Assembly met:

In compliance with the requirements of the 19th Section of the Act of Assembly, passed March 20, 1818, entitled "An Act to Improve Navigation of the River Lehigh," I would respectfully report that the tolls received on the Lehigh Navigation during the year 1929 amount to THIRTY-SIX THOUSAND FIVE HUNDRED FORTY-FOUR DOLLARS AND SIXTY-NINE CENTS (\$36,544.69), according to the returns made to this office.

Very truly yours,

HENRY H. PEASE, Secretary.

STATE OF PENNSYLVANIA: }  
CITY OF PHILADELPHIA: } ss.

Before me, the subscriber, a Notary Public of the County of Philadelphia and State of Pennsylvania, personally appeared on this fourteenth day of December, A. D. 1929, Henry H. Pease, Secretary of THE LEHIGH COAL AND NAVIGATION COMPANY, who being duly affirmed according to law, did depose and say that the above statement is just and true to the best of his knowledge, information and belief.

HENRY H. PEASE.

AFFIRMED AND SUBSCRIBED before me the day and year aforesaid.

R. V. PIERCE, Notary Public.

My Commission expires February 21, 1931.

## REPORT OF THE LEHIGH COAL AND NAVIGATION COMPANY FOR THE YEAR 1930

The Lehigh Coal and Navigation Company  
1421 Chestnut Street, Philadelphia, Pa.

HENRY H. PEASE, Vice-President and Secretary

December 18, 1930.

TO THE SENATE AND HOUSE OF REPRESENTATIVES of the Commonwealth of Pennsylvania in the General Assembly met:

In compliance with the requirements of the 19th Section of the Act of Assembly, passed March 20, 1818, entitled "An Act to Improve Navigation of the River Lehigh," I would respectfully report that the tolls received on the Lehigh Navigation during the year 1930 amount to TWENTY-NINE THOUSAND, ONE HUNDRED SEVENTY-FOUR DOLLARS AND SEVENTY-ONE CENTS (\$29,174.71), according to the return made to this office.

Very truly yours,

HENRY H. PEASE, Secretary.

STATE OF PENNSYLVANIA: }  
CITY OF PHILADELPHIA: } ss.

Before me, the subscriber, a Notary Public of the County of Philadelphia and State of Pennsylvania, personally appeared on this eighteenth day of December, A. D. 1930, Henry H. Pease, Secretary of THE LEHIGH COAL AND NAVIGATION COMPANY, who being duly affirmed according to law, did depose and say that the above statement is just and true to the best of his knowledge, information and belief.

HENRY H. PEASE.

AFFIRMED AND SUBSCRIBED before me the day and year aforesaid.

R. V. PIERCE, Notary Public.

My Commission expires February 21, 1931.

## JOINT RESOLUTION OF THE STATE OF WISCONSIN

## STATE OF WISCONSIN

[Jt. Res. No. 65, S.]

No....., 1929.

## JOINT RESOLUTION

Memorializing the Congress of the United States to call a convention for the purpose of proposing amendments to the United States constitution.

WHEREAS, Article V of the United States constitution provides for the calling of a convention to propose amendments to such constitution; and

WHEREAS, Other states have in the past asked that such a convention be called; and

WHEREAS, There are sections of the United States constitution that should be amended; therefore be it

Resolved by the Senate, the Assembly concurring, That the legislature of the state of Wisconsin here earnestly requests and petitions congress to call a convention for proposing amendments to the United States constitution; and be it further

Resolved, That a copy of this resolution, properly attested, be forwarded to the presiding officers of both houses of congress, to the presiding officers of the legislature of the other states, and to the Wisconsin senators and representatives in congress.

CHARLES B. FERRY,  
Speaker of the Assembly.

C. E. SHEFFER,  
Chief Clerk of the Assembly.

HENRY A. HUBER,  
President of the Senate.

O. G. MUNSON,  
Chief Clerk of the Senate.

## REPORT OF THE DELAWARE RIVER BRIDGE JOINT COMMISSION OF PENNSYLVANIA AND NEW JERSEY FOR THE YEAR 1929

## COMMISSION

Joseph K. Costello, General Manager

## COUNSEL

David J. Smyth

T. Harry Rowland

Ralph Modjeski, Chief Engineer

To the Honorables, the Legislatures of the Commonwealth of Pennsylvania and of the State of New Jersey and the Council of the City of Philadelphia.

Business of the Delaware River Bridge between Philadelphia, Pennsylvania, and Camden, New Jersey, showed an increase of 19 per cent. in 1929 over the preceding year. This was about double the anticipated gain.

The bridge was opened to traffic, July 1st, 1926. Following are the records for the three calendar years of operation:

Year	Vehicles	Receipts	Daily Average Vehicles	Daily Average Receipts
1929	11,615,609	\$3,331,781.26	31,824	\$9,128.16
1928	9,725,470	2,827,786.83	26,572	7,726.19
1927	8,593,201	2,435,784.40	23,543	6,673.39

Net receipts for the year amounting to \$2,933,258.26 were returned to the State of New Jersey, Commonwealth of Pennsylvania and City of Philadelphia, distribution being made June 30th and December 31, 1929. New Jersey received \$1,466,629.14 while the shares of Pennsylvania and Philadelphia were \$733,-314.56 each. In 1928 the total net receipts were \$2,449,196.82. Expenses in 1929 amounted to \$398,523.00 and in 1928, \$378,-590.01. The increase in net receipts was 19.75 per cent. while net expenses increased 5.27 per cent. Prior to the opening of the bridge it was estimated that the annual expenses would be \$400,000.

Appended to this report are detailed statements of receipts, expenses and distribution.

## Bridge Gets Lion's Share of Traffic

During 1929 the bridge carried approximately 78 per cent. of the total traffic crossing the Delaware River. The volume of bridge traffic was not affected by the opening of the new Tacony-Palmyra Bridge in August.

The Pennsylvania and Reading Railroads' ferries accommodated about 16 per cent. of the total trans-river traffic. In June, 1926, prior to the opening of the Delaware River Bridge,

545,840 vehicles crossed the river on ferry boats. In June of 1929 this cross river traffic jumped to 1,410,359 of which 1,126,-167 used the Delaware River Bridge.

Pleasure cars and light delivery trucks furnished as usual the great bulk of the Delaware River Bridge traffic. This class was represented by 10,096,414 vehicles. Next in numerical importance were 1,313,737 passenger buses. In 1928 the buses numbered 1,297,533 and in 1927, 1,181,183. The number of heavy trucks rose from 151,583 in 1928 to 170,126 in 1929. There was a further decrease in the number of horses crossing the bridge, only 468 appearing in 1929.

Several times during the summer new records were set for the collection of tolls in 24-hour periods. The high water mark of the year was reached on Sunday, July 28th, 1929, when 64,-667 vehicles crossed. This was hailed as a new record for toll bridges or tunnels. Four lanes of traffic were run west and two east on Sunday nights during the summer. A count showed that the four westbound lanes were carrying 5,340 vehicles an hour during the traffic peak. The daily average travel during 1929 was 31,824 as compared with 26,572 in 1928 and 23,543 in 1927. The average Sunday and holiday traffic for the entire year was 45,194 compared with 38,096 for 1928.

It is felt that the volume of traffic will steadily increase and the total of 100,000 may be reached in three or four years. This latter figure is regarded as the maximum which the present six lanes of roadway of the bridge can comfortably accommodate. When the mark of 100,000 cars in a single day is approached there can reasonably be expected to arise a public demand for the construction of either another bridge or tunnel or the utilization of the present unused trolley and high speed spaces for the accommodation of vehicular traffic. It may be that before the time for a decision arises some practical plan may be devised for the extension of high speed service on rails over the bridge. Toward the close of the year there was considerable discussion of methods for utilizing the unused space. A preliminary report had been made to the Commission by its Chief Engineer that the space could be paved for vehicular traffic at a cost of \$1,500,000. This cost was contrasted with the estimate of \$40,000,000 for the building of another bridge or a vehicular tunnel.

## The Question of Transit on Rails

The Joint Commission has always approved the principle of high speed transit crossing the bridge and has faced with much regret the fact that the transportation companies of Pennsylvania and New Jersey have failed to take advantage of the situation. The position of the Joint Commission in this matter was defined in a letter addressed by former Judge John B. Kates, Chairman of the New Jersey Interstate Bridge Commission which is the New Jersey half of the Delaware River Bridge Joint Commission, to Mr. J. V. Moran, President of the South Jersey Transit Commission. Judge Kates said in part:

"As I explained last Friday the Bridge Commission has jurisdiction over the bridge only and its jurisdiction ends in Camden south of Penn Street or east of Seventh Street or in Philadelphia south of Race Street or west of Sixth Street, and it would be unwise for it to suggest any plan not embraced within the limits of its jurisdiction.

"In the planning of the bridge the Commission directed

that ample provision be made for trolley and high speed lines. The trouble has been, to speak frankly, to find a customer for this valuable unused space. Many conferences have been held with officials of the Pennsylvania Railroad and the Reading Railroad and representatives of these potential patrons went over the bridge very carefully on a number of occasions but reluctantly reported that the cost of uniting their tracks in Philadelphia and Camden by way of the bridge and changing their electric train equipment to climb the bridge grade was entirely prohibitive. It would be interesting to know if you have found any change in this decision when you conferred with the railroad officials, as I assume of course you have done.

"The only offer to operate cars on tracks across the bridge came from the Philadelphia Rapid Transit Company in agreement with the Public Service Railway of New Jersey. A surface and trolley loop was to be built from Fifth and Mickle Streets, Camden, to the bridge. Trolleys were to be operated across the bridge terminating at Sixth and Race Streets, Philadelphia. The P. R. T. Company hoped later to run the trolleys into a subway that would connect with the Chestnut Street subway which was then being planned. The Chestnut Street subway was never built and in fact the thought of building a subway in that street has been abandoned. Then it was proposed that the trolleys from the bridge be run into a subway in Locust Street which the City of Philadelphia planned to build to West Philadelphia. The Locust Street subway was not built. There has been some discussion in Philadelphia that the Locust Street subway should be constructed for high speed trains which of course would bar its use by trolley cars. This offer of the Rapid Transit Company was rejected on several grounds, but mainly on account of the demand contained in the offer that they enjoy the exclusive use of the spaces to be used.

#### Shuttle Service Unattractive

"In all discussions of rail transit over the bridge the important problems do not arise until conditions in Camden and Philadelphia are considered. The laying of rails upon the bridge is the simplest part as you undoubtedly realize. Some time ago a suggestion was made that trains be run from the Frankford Elevated tracks on Front Street and then into the Market Street subway. This, however, was found to be impracticable by the Philadelphia Rapid Transit Company, operating the Market Street subway, on the ground that the subway was carrying a capacity load at the rush hours and could not be further taxed. On April 21st, 1924, Mr. William K. Myers, at that time president of the Philadelphia Rapid Transit Company, advised the Commission that no rail connection could be made with the Frankford Elevated line. This view was reiterated by the Company last week.

"The suggestion of a shuttle service across the bridge with its terminus at Sixth and Race Streets, Philadelphia, hardly seemed attractive as it meant dropping the riders at a point too far removed from the business and shopping district. No great speed can reasonably be expected of any trolley line on the bridge because the grade on both sides necessitates cautious operation. The proposed shuttle service was strongly opposed by the Mayor of Merchantville, N. J. representing a committee of heads of New Jersey municipalities, at a public hearing held by the Commission May 4th, 1928 and the request was made that the Bridge Commission take no action.

"In Camden the suggestions have ranged from the operation of trolley cars on the surface of the street to the construction of a subway and the building of an elevated road at a cost of \$16,000,000. Each has had its vigorous advocates and its no less vigorous opponents. The Delaware River Bridge Joint Commission, of course, has no authority to make plans for this part of the project but would hail as a most progressive step the solution by the South Jersey Transit Commission or the City Commissioners of Camden of the vexing details of the route in Camden and the method by which this is to be paid for. This, of course, comes within the province of your Commission and the Bridge Commission would not encroach upon your body in any way, either by way of suggestion or criticism.

"In Philadelphia the same questions must be met, I presume, by the City Council and the Director of City Transit. I am sure you will find every willingness to cooperate there. The connecting link by way of the bridge is ready for the

laying of tracks. It would, of course, be folly to lay tracks even were the money immediately available until the Bridge Commission knew the rail gauge that would be required. The Broad Street subway has the standard gauge of 4 feet, 8½ inches while the Market Street subway and the trolley lines in Philadelphia have a gauge of 5 feet, 2¼ inches and the trolley lines in Camden a gauge of 5 feet, 0 inches. It is idle to talk of laying rails until the character of service is determined which would establish the gauge.

"Under the laws of both New Jersey and Pennsylvania it is mandatory that tolls be collected upon the bridge but I assure you that any plan that will bring about the utilization of all facilities of the bridge will be received by the Commission with sympathetic consideration."

Some solution for the problem of rail transit may be found in 1930.

#### Fifth Street Grade Crossing Goes

Before the summer rush of travel was fairly under way in 1929 it was seen that the grade intersection of Fifth Street, Philadelphia, and the bridge was causing considerable delay and inconvenience. The Commission directed that plans be prepared and then awarded a contract for the construction of a pedestrian underpass at Fifth Street which was put into operation November 21, 1929. This underpass has proved most popular.

A greater problem, however, was afforded by the intersection of the lines of travel on the bridge and on Fifth Street. It became necessary on Sunday nights to procure the aid of the Philadelphia police in diverting all travel except trolley cars from Fifth Street. It was not possible to detour the trolley cars but the necessity for stopping travel upon the bridge at rush hours was considerably minimized. It became evident, however, that this was a make-shift arrangement which could not go on indefinitely. After examining the situation in detail the Commission directed the preparation of plans for an underpass extending from Race to Vine Streets at the Philadelphia Plaza which would take care of both trolley and vehicular travel in Fifth Street.

Five years previously the Commission had studied a plan for a vehicular underpass running from Cherry Street to Callowhill Street along the line of Fifth Street. This was estimated to cost \$2,000,000 and funds were not available at the time. On November 15th, 1929, the Commission awarded to the Accchione Contracting Company of Philadelphia, a contract for the construction of a vehicular underpass at a price of \$172,388.55. Work was begun by the maintenance force of the bridge a month before the contract was awarded so that all preliminaries were completed including the detouring of trolley tracks while the Commission was still advertising for bids for the underpass. Immediately after the award the contractor was thereby enabled to begin work so that no time was lost. At the close of the year work had progressed at such a rate as to make reasonably sure that the contract would be completed upon schedule time and the underpass opened to travel by Memorial Day, 1930.

Removal of the interruption of traffic at Fifth Street will enable the bridge to pass many more vehicles per hour. Actual counts during the rush hours of the summer of 1929 showed a maximum of 1,335 cars per hour on each lane. In 1930 this should reach 1,600 vehicles per hour on each of the six lanes as the hold-up at Fifth Street will be gone. Great congestion at Sixth and Vine Streets at the end of the Philadelphia Plaza must now be anticipated on Sunday nights, however, as the "Neck of the Bottle" has been removed one block westward.

## RESUME OF OPERATION—DELAWARE RIVER BRIDGE

The Commission reports with considerable regret that the Fifth Street underpass was the only improvement to the bridge approaches inaugurated in Philadelphia during the year. The streets around the Philadelphia Plaza are becoming more and more congested. It is expected that a start upon the problem of bettering the approaches will be made in 1930 as the City of Philadelphia now has the sum of \$1,000,000 for this purpose which was made available through the bond issue submitted to the voters last fall. It is generally recognized that only a start may be made with this sum but even this would afford some relief during the coming summer.

The Commission on October 18th, 1929, agreed to pay the cost of repaving Race and Vine Streets between Sixth Street and Franklin Street if the present roadway width of 26 feet were improved by the inclusion of 18 feet of the wide sidewalks around Franklin Square. The money for this improvement is available and the Commission is hopeful that this work will get under way in the immediate future.

#### Bridge Forces Take "Stitch in Time"

The customary attention was given during the year to the details of keeping the structure in good condition. The maintenance forces were busily engaged on the removal of rust from the steel and the making of many minor repairs and adjustments. Portions of the steel towers and columns were repainted. Particular attention was given to the floor beams and box columns near the expansion joints through which water from the bridge ran down. Removal of two of the four islands on the Sixth Street side of the Philadelphia Plaza greatly improved traffic conditions. A further improvement would be the removal of the remaining two. Many expansion castings along the Philadelphia and Camden approaches were torn out and reset. The traffic tower at Fifth Street was raised and moved back to make room for the underpass.

Painted lines which mark traffic lanes upon the bridge were renewed six times. To prevent accidents during winter 350 cubic yards of cinders were spread, thereby insuring the safety of motorists.

Addition of a motor pick-up sweeper to the bridge equipment helped materially to maintain the appearance of the roadway and eliminated the necessity of sweeping by hand in the heavy traffic.

At the end of the year a careful inspection made of the bridge showed that the structure was in excellent condition.

The bridge police made 154 arrests during the year and reported 142 accidents which included the death of one man who stepped into the path of a bus. Twenty-five fires in vehicles on the bridge were extinguished. The bridge tow car removed 689 disabled cars, including 65 buses. One man committed suicide by jumping from the bridge and three were restrained by the police.

For the guidance of motorists the Commission has had manufactured 100 direction signs to be erected in Pennsylvania and New Jersey on roads leading to the bridge.

The signs are 36 inches long and 15 inches wide and made of heavy enameled iron. A rather striking design was adopted to insure a maximum of usefulness. Application will be made to the highway officers of Pennsylvania and New Jersey for permission to place the signs on state roads.

A change of very great importance was made in the Joint Commission July 1st, 1929, when the Act of the Legislature of New Jersey reorganizing the New Jersey Commission went into effect. Mr. Theodore Boettger, Chairman, Mr. John F. Boyle, Mr. Weller H. Noyes and Mr. Robert S. Sinclair, members from Northern New Jersey, during the construction and first three years of operation of the bridge retired from the Joint Commission. Mr. Isaac Ferris, Jr., had resigned as a member in 1928 and his place was not filled up to the time the reorganization went into effect. The places of the retiring members were taken by Dr. I. Norwood Griscom, Mr. Lucius E. Hires, Mr. Arthur C. King, Mr. Henry H. Ottens and Mr. Barton F. Sharp. At the organization meeting former Judge John B. Kates was elected Chairman of the New Jersey Interstate Bridge Commission. In November, 1929, Mr. Henry H. Ottens tendered his resignation to the Governor as a member of the New Jersey

Interstate Bridge Commission. Mr. Alfred Cooper was appointed as his successor.

The Joint Commission desires to extend a most cordial invitation to the members of the Legislatures of Pennsylvania and New Jersey and the Council of the City of Philadelphia to inspect the bridge at any time.

Respectfully submitted,

Pennsylvania Commission      New Jersey Interstate Bridge Commission

## COMMISSION OF PENNSYLVANIA AND NEW JERSEY

To the Honorable, the Legislatures of the Commonwealth of Pennsylvania and of the State of New Jersey and the Council of the City of Philadelphia.

The Delaware River Bridge between Philadelphia, Pa., and Camden, N. J., in 1930, its fourth calendar year of operation, was crossed by 12,285,359 vehicles and after payment of all operating expenses \$3,017,133.11 was returned to the States of New Jersey and Pennsylvania and the City of Philadelphia.

The following comparison illustrates the growing use that has been made of this structure:

Year	Vehicles	Receipts	Daily Average Vehicles	Daily Average Receipts
1930	12,285,359	\$3,517,730.64	33,658	\$9,637.62
1929	11,615,609	3,331,781.26	31,824	9,128.16
1928	9,725,470	2,827,786.83	26,572	7,726.19
1927	8,593,201	2,435,784.40	23,543	6,673.33

Of the year's receipts New Jersey received \$1,508,566.57 and Pennsylvania and Philadelphia each \$754,263.27. This return

was considerably in excess of the interest and sinking fund charges upon the bonds issued by New Jersey and Philadelphia. Inasmuch as Pennsylvania issued no bonds but made its contribution toward the building of the bridge out of current revenues, the State's share of the year's return went into its general fund. Philadelphia, a year ago, by court action was permitted to remove from its bonded debt limitation the sum invested in the bridge and the Court decreed that the annual interest and sinking fund charges amounted to \$562,084.04. The City's share for the year provided a surplus of \$192,199.23 over the amount required. The suggestion has been made that this surplus might be capitalized by the City to yield approximately \$3,000,000 and thus meet its share of any contemplated bridge improvements without affecting its debt limit.

#### Week-Day Traffic Shows Increase

The increase of 669,750 vehicles in 1930 over the preceding year was registered upon weekdays. The Sunday traffic did not equal that of 1929 and the high mark of the year on August 3rd of 63,299 vehicles fell short of the previous record of 64,667 made on July 28th of the year before. Economic conditions of the country generally probably caused this curtailment of pleasure riding but the loss was more than made up by the increase in the weekday travel of necessity.

The greatest gain was registered in the passenger car division which in 1930 rose to 10,578,206. The number of buses crossing the bridge climbed from 1,313,737 in 1929 to 1,484,443 in 1930. The heavy truck business also improved. The total of horse drawn vehicles continued to diminish, reaching the bottom figure of 115 for the year as compared with 391 in 1929 and 1369 in 1927. Reduction of the slow-moving horse-drawn traffic has been beneficial to the millions of motorists using the bridge.

In the preliminary estimates made prior to the opening of the bridge it was anticipated that the net revenue would not exceed \$3,000,000 before 1936. It is gratifying to note that this mark was reached six years earlier than expected. Operation of the bridge since the opening including monthly figures of traffic and receipts and distribution of net returns are shown in the charts included in this report.

More money was spent upon the bridge in 1930 than in preceding years. The expenses increased from \$398,523.00 in 1929 to \$500,597.53 in 1930. The rise, however, was due in a large measure to the construction of a much needed pedestrian underpass at the Camden Plaza, the cost of which was met out of bridge receipts. In addition a large part of the bridge was repainted for the first time since 1926.

Increasing traffic had made the crossing by pedestrians of the Camden mouth of the bridge a very hazardous undertaking and on September 19, 1930, the Joint Commission directed that an underpass be built on the east line of Sixth Street to afford relief. The work was begun on September 22 and the underpass was opened on December 24th. The underpass is approximately 300 feet long, 12 feet wide and has a clearance of 8 feet. The structure is of reinforced concrete design and the walls are of white enameled brick and the ceiling rubbed concrete painted white. The steps of reinforced concrete with a rubbed finish were covered with safety treads of approved design.

The underpass was built at a cost of \$34,158.23 by the engineering and maintenance departments of the bridge. Additional labor was engaged as required. In connection with the improvement it was decided to enlarge the Camden Plaza by setting back the sidewalk on the north side by 8 feet and the opening at Broadway was greatly enlarged to facilitate the handling of traffic. The traffic tower which heretofore bisected and to some extent interfered with the movement of vehicles at Sixth Street was removed to one side and an improved system of traffic lights upon the five corners at the junction of Sixth Street and the Bridge was substituted. The improvements in the plaza and the paving of Linden Street cost \$14,673.21 and were paid for out of toll receipts.

On the Philadelphia side the Fifth Street Vehicular underpass was completed on June 7th, 1930. The contract for this improvement was awarded on November 21, 1929, to the Acchione Contracting Company. The underpass was opened to trolley traffic on May 21st, and to all vehicular traffic on May 25th. Construction of the underpass removed the dangerous

intersection with bridge traffic which had been a handicap for nearly four years. Need of relief at this point was acute and the usefulness of the structure was endangered practically forcing the Commission to build an underpass which meets present demands, but which will be greatly extended and enlarged whenever rail transit is installed upon the span.

The subject of improving the Philadelphia approaches to the bridge was debated at great length during the year and the Philadelphia City Council appropriated \$1,000,000 for the first step. This was to take the form of the construction of a wide street leading directly from the bridge plaza to Spring Garden Street. The new street would have been carried over the railroad tracks at Willow Street thereby removing a dangerous grade crossing. However, no definite steps were taken in 1930 to carry out this plan.

#### To Improve Philadelphia Approaches

On November 12th the City Planning Commission appointed by the Honorable Harry A. Mackey, Mayor of the City of Philadelphia, published the results of an eight months' study of the present and future needs of the municipality and among the recommendations advised the improving and development of Delaware River Bridge approaches. The Committee's recommendations were as follows:

"A rotary intersection at Franklin Square, on the axis of the proposed Randolph viaduct north. This would feed west on Vine Street, east on Race Street, and north and south on Randolph viaduct.

"An underpass in Sixth Street, with connections to and from the bridge by way of Race and Vine Streets.

"Relocation of Fifth Street underpass to provide for future high-speed transit connections between Eighth Street-Ridge Avenue Locust Street subway and New Jersey by way of the Delaware River Bridge.

"Street widening at bridgehead to provide adequate turning for vehicles approaching from and moving toward Third and Fourth Streets.

"Widening of Race and Vine Streets from the proposed rotary intersection west to Ridge Avenue.

"The widening of Vine Street on the south side for two-way traffic, from Ridge Avenue westward to Logan Square.

"Franklin Square and the Delaware River Bridge approaches are problems that have been given most serious consideration by a former commission, and by various civic and business groups. More than a score of different solutions have been presented, many with considerable merit. Official agencies have been intensively studying this problem for the past year. Their findings have been of substantial aid in the solution presented by the Commission upon the recommendations of its Technical Committee and M. Greber, Commission consultant.

"Construction of the rotary intersection would fit in with existing physical improvements at the bridgehead. This method of distributing and expediting traffic flow is employed elsewhere with substantial success.

"The rotary itself would be at higher level than Race and Vine Streets, and would connect with those highways by an arrangement of ramps. It would connect with Randolph viaduct at grade, thus overpassing Vine Street.

"The ramps to Race and Vine Streets would not mar the appearance of Franklin Square, and would not affect present use or area to any appreciable extent. A slight cut-off at the northeast and southeast corner of the square would be the only alteration required.

"The Commission believes the Randolph Boulevard, which actually would be a viaduct, would prove of great value and relief of traffic to the north and northeast. It also would provide ready access to Spring Garden Street, which is the first broad east and west Street north of Franklin Square, and bridge traffic bound west and northwest would thus have increased accommodation.

"Randolph viaduct would adequately serve as a connection for the proposed extension of Aramingo Avenue leading to the northeast. This Avenue has long been on the city plan and has been in large part constructed. The land where the Avenue has not yet been opened is virtually all acquired or about to be paid for by the City. The urgency of utilizing to the full a highway on which vast sums have been expended is generally conceded.

"The underpassing of Sixth Street as well as Fifth Street to serve heavy north and south city through traffic is essential. Connections at the bridgehead to and from Sixth Street by way of Vine and Race Streets could readily be provided.

"In order to make the proper connections with the Ridge Avenue Eighth Street subway for the high-speed transit line proposed across the bridge into New Jersey, it would be necessary to extend the north and south extremities of the present Fifth Street underpass. This would have to be done to allow the proposed transit extension to clear the Fifth Street underpass.

"Slight widening of streets immediately north and south of the bridge would make possible right-hand, 180 degree turns, to and from the bridge, leading particularly to Fourth Street for southbound traffic. Third Street for northbound traffic, and Delaware Avenue for two-way commercial traffic.

The Commission is convinced that the congestion at the bridgehead would thus be materially remedied at a distinct minimum of cost.

"The advantage of diverting part of the bridge traffic to and from the east is that Fourth Street, and streets east of that highway underpass the bridge. This operation would tend to relieve traffic to or from the bridge, headed either north or south."

The plans of the Commission are most comprehensive and if carried out undoubtedly would be immediately reflected in bridge traffic and earnings. It is to be regretted that no improvement has been made in the approaches on the Philadelphia side since the opening of the bridge. This is one of the most serious problems constantly confronting the efficient operation of the structure.

#### Rail Transit Needs Studied

During the year the maintenance forces of the bridge were employed consistently in keeping the plant in condition. On March 26th the work of painting a considerable portion of the span was begun. Thirty additional men were employed until weather conditions brought the painting to a close on November 7th, 1930. The total amount expended for repainting was \$42,093.32. Care was taken to see that all rust was removed by wire brushes and 3,543 gallons of paint were applied.

During the year the painted traffic lines on the bridge were renewed ten times. To prevent skidding and accidents during sleet storms in the opening months of the year 475 cubic yards of cinders were spread upon the roadway and a large self-loading cinder hopper was installed under the bridge in Camden in order that trucks might be filled more swiftly. Many minor repairs were made to the roadway and a careful inspection was maintained at all times. The bridge at the end of the year was in excellent condition.

The question of utilizing the vacant track spaces upon the bridge was debated at great length by citizens and the newspapers during the final months of the year. This resulted in the Honorable Morgan F. Larson, Governor of New Jersey, calling a General Conference of representatives of the States of New Jersey and Pennsylvania, the Cities of Philadelphia and Camden, the Delaware River Bridge Joint Commission, the South Jersey Transit Commission and the transportation companies in the Administration Building of the Joint Commission. A sub-committee headed by United States Senator David Baird, Jr., went carefully into the subject and offered the following recommendations:

"1—That the powers of the Delaware River Bridge Joint Commission be extended by the Legislatures of Pennsylvania and New Jersey to cover the construction and operation of a high speed transit line beginning approximately at Haddon Avenue and Carman Street, Camden, crossing the Delaware River Bridge on the outer track sections and joining the subway system of the City of Philadelphia at Eighth and Race Streets.

"2—That the Joint Commission be empowered to make an engineering study at once of a tunnel linking the railroad systems of Pennsylvania and New Jersey.

"3—That authority be given to the Joint Commission for the construction of additional bridges across the Delaware River or tunnels beneath the River.

"4—Joint operation of the Pennsylvania and Reading Railroads by construction of a physical connection and a Union Station in Camden."

The general conference approved the report on December 18th, 1930. At the present time only the six lanes for vehicular traffic in the roadway are in use. The bridge was designed with a view to carrying trolley cars and high speed electric trains. Four lanes were provided for this purpose. Because of the importance of the subject to the citizens of Philadelphia and Camden particularly, the report of the Committee appears in the appendix.

#### Regulations for Bridge Buses

Complaints of dangerous driving on the part of operators of buses crossing the bridge increased during 1930 until the Joint Commission at the meeting of September 19th, 1930, formulated rules which have since been strictly enforced. The rules which became effective October 1st were as follows:

"1—No bus shall be operated at a faster rate of speed than twenty-five (25) miles per hour; provided, however, that when the bridge structure is wet the maximum rate of speed shall be eighteen (18) miles per hour, and provided further, that during periods of snow or sleet the maximum rate of speed shall be ten (10) miles per hour.

"2—No bus shall pass any other vehicle proceeding in the same direction, except under the authority and direction of a member of the bridge police force; provided, however, this is not to apply in any case where a vehicle has come to a stop upon the bridge structure; in which event the standing vehicle may be passed, but only after the operator of said moving bus has ascertained that it is safe to do so.

"3—Other than in an emergency, operators of buses shall not stop their vehicles upon the bridge structure, except upon order of a member of the bridge police force.

"4—No bus shall be permitted upon the bridge structure if any of the passengers are standing, or are seated in the aisles of said bus, or are seated in such manner as to obstruct easy exit.

"5—All buses shall be lighted upon the inside thereof when passing along the toll lanes and such lights shall be of sufficient brilliancy to permit inspection from the outside."

The number of accidents has been materially reduced since the regulations went into effect.

Commutation of the present rate of toll upon the bridge was discussed several times at meetings of the Joint Commission. At the meeting of October 17th, a resolution providing for the sale of a commutation ticket for private passenger automobiles at the rate of \$7.50 for sixty trips was offered. The Commission was advised by David J. Smyth, Special Deputy Attorney General of Pennsylvania and Counsel for the Commission, that the present toll rates could not be lowered while the agreement of 1926 between the Pennsylvania Commission and the New Jersey Interstate Bridge and Tunnel Commission providing for the collection of tolls was in effect. Mr. Smyth held:

"The Act itself authorizes the Commission to enter 'A contract.' This has been done and to modify the agreement enabling passenger vehicles to travel the bridge at less than the present toll rate can only be by legislation authorizing the scrapping of the present agreement and the execution of a new one."

Upon a roll call the resolution failed of passage.

The bridge police made 207 arrests in 1930 and extinguished 30 fires in automobiles. A new towing car capable of raising the heaviest bus on the bridge was placed into service and 120 disabled automobiles were lifted and removed and 542 cars were towed from the bridge. Ninety-five accidents occurred and one most unfortunately resulted in the death of three persons. The driver of the car responsible for this accident was arrested and is now undergoing imprisonment. Lieutenant Clarence J. Borden of the Toll Bureau of the Delaware River Bridge, while on duty on April 13th, 1930, at the toll houses was run down and killed.

At the close of the year the usual independent audit was made of the accounts of the bridge, covering all details of receipts and disbursements. The auditors found all financial details in order.

In conclusion the Joint Commission most cordially invites the members of the Legislatures of Pennsylvania and New Jersey and the Council of the City of Philadelphia to inspect the bridge at any time and to inquire into any detail of operation.

Respectfully submitted,

Pennsylvania Commission      New Jersey Interstate Bridge  
Commission

## APPENDIX "E"

## Report of Sub-Committee Upon Interstate Rail Transit

Administration Building,  
Bridge Plaza, Camden, N. J.  
December 18, 1930.

To His Excellency Governor Morgan F. Larson  
and Members of General Conference Committee.

Gentlemen:

In accordance with instructions received from the General Conference called by Governor Larson on November 12, 1930, your Committee has carefully studied the problem of providing high speed rail transit between Pennsylvania and New Jersey in the vicinity of Philadelphia and Camden.

Meetings were held by the Committee on November 17th, November 24th, December 2nd and December 9th. Reports analyzing all suggested routes in Philadelphia were submitted by Director Clarence E. Myers, of the Department of City Transit of Philadelphia and in Camden by Mr. Alexander H. Nelson, Engineer of the South Jersey Transit Commission. An analysis of the difficulties attending the operation of railroad trains across the Delaware River Bridge was made for the Committee by Mr. T. J. Skillman, Chief Engineer of the Pennsylvania Railroad, and Mr. George I. Wright, Engineer of Electric Traction of the Reading Railroad.

## Recommendations

1—That the powers of the Delaware River Bridge Joint Commission be extended by the Legislatures of Pennsylvania and New Jersey to cover the construction and operation of a high speed rail transit line beginning approximately at Haddon Avenue and Carman Street, Camden, crossing the Delaware River Bridge on the outer track sections and joining the subway system of the City of Philadelphia at Eighth and Race Streets.

2—That the Joint Commission be empowered to make an engineering study at once of a tunnel linking the railroad systems of Pennsylvania and New Jersey.

3—That authority be given to the Joint Commission for the construction of additional bridges across the Delaware River or tunnels beneath the river.

4—Joint operation of the Pennsylvania and Reading Railroads by construction of a physical connection and a Union Station in Camden.

The Committee is of the opinion that the recommended extension of the Philadelphia subway system into Camden is of immediate importance and offers quickest relief from present conditions. For further serious consideration are recommended the possibilities of a subway in Arch Street, Philadelphia, and an extension of the proposed bridge high-speed line from Fifth and Federal Streets to the Reading Railroad Station in South Camden.

Preliminary estimates indicate that a two track connection from Eighth and Race Streets, Philadelphia, to Haddon Avenue and Carman Street, Camden, can be built at a cost not to exceed \$10,000,000.

Trains would be operated over the outer track sections of the Delaware River Bridge which originally were designed for high speed service and which have not been utilized to date. There would still remain the two inner track sections which adjoin the present vehicular roadway and which might be paved and incorporated in the bridge highway whenever the demands of increasing traffic warrant.

The Committee recommends that the present terminus of the line be located at Haddon Avenue, paralleling the Broadway station of the Pennsylvania Railroad. The transfer of railroad passengers to the subway would be at least as easy and comfortable as that occurring at the 69th Street Station of the Market Street subway around which centers a most remarkable development. Another station would be provided in the plaza around the Camden City Hall where it is proposed to build a bus terminal.

Provision would be made for at least one station in Philadelphia. At Eighth and Race Streets the tracks would connect with the subway now nearing completion. Bridge trains would run south under Eighth Street to Locust and west in Locust Street to the future terminus of the Locust Street line in south-west Philadelphia and return over the same route.

The contract to build the Locust Street subway as far as Eighteenth Street has already been awarded by the Department of City Transit of Philadelphia.

It is conservatively estimated that the proposed line would be patronized by 25,000,000 passengers annually. There is no doubt that there now exists sufficient demand to warrant immediate construction.

The Committee has kept in mind the problem of financing the improvement and believes that this can best be done through extension of the powers and duties of the Joint Commission. In this connection the Committee has been told that on the Pennsylvania side of the river the City of Philadelphia had appropriated \$10,784,662 for the construction of the bridge through a series of bond issues and the Commonwealth of Pennsylvania had appropriated a similar amount of general receipts. The State of New Jersey provided \$15,895,418.57 for the bridge through two bond issues aggregating \$36,000,000 which were used for the construction of the bridge and the Holland Tunnel between New York and Jersey City. Pennsylvania and Philadelphia each has an unexpended balance of \$187,932 and New Jersey \$19,920.40.

The City of Philadelphia went into Common Pleas Court No. 5 on June 24, 1929, with a petition to have the amount invested in the bridge deducted from the City's borrowing capacity and the Court approved the petition when evidence was presented that the City's share of the net revenue from bridge tolls was in excess of the interest and sinking fund charges upon the \$10,784,662.

These charges the Court found amount to \$562,084.04 annually. During the fiscal year ending June 30, 1930, the return to Philadelphia from operation of the bridge was \$766,992.59 or a surplus of \$204,908.55 over Sinking Fund charges.

It was suggested that the City might be able to capitalize this excess by issuing bonds without endangering the borrowing capacity in accordance with the provision of the amendment to the Constitution of Pennsylvania adopted November 2, 1920, which reads as follows:

"In ascertaining the borrowing capacity of the City of Philadelphia, at any time, there shall be deducted from such debt so much of the debt of said city as shall have been incurred, or is about to be incurred, and the proceeds thereof expended, or about to be expended, upon any public improvement, or in the construction, purchase, or condemnation of any public utility, or part thereof, or facility therefor, if such public improvement or public utility, or part thereof, whether separately or in connection with any other public improvement or public utility, or part thereof, may reasonably be expected to yield revenue in excess of operating expenses sufficient to pay the interest and sinking fund charges thereon."

By this means possibly \$3,000,000 could be provided by the City and probably a like appropriation might be had from Pennsylvania. These sums would be added to the cost of the bridge to be repaid from tolls. Several plans were considered in regard to New Jersey's share of the cost.

Beyond indicating possible methods of meeting the cost of the improvement your Committee does not go, believing this to be a matter for further consideration by those charged with the responsibilities of State and Municipal financing.

It is respectfully pointed out however, that the Legislatures of both New Jersey and Pennsylvania will be in session next month and the requested legislation should be prepared without delay.

Of great importance to the travelling public and the progress of the states would be a physical connection between the Penn-

sylvania and Reading Railroads as recommended by this Committee. This has been stamped as feasible by the representatives of the railroads on this Committee and the cost is placed at \$5,000,000.

The Committee reports that the recommendations in this report are approved by all the members with the exception of Mr. George I. Wright, representing the Reading Company. Mr. Wright was compelled to record his dissent formally stating "The Reading feels that Recommendation No. 1 does not provide for the needs of its patrons and that the possibility of realizing Recommendation No. 4 at this time is very doubtful."

Respectfully submitted,

DAVID J. BAIRD, JR., Chairman  
CLARENCE E. MYERS  
WINFIELD S. PRICE  
THOMAS J. DALEY

Secretary.

## APPENDIX TO THE

THE BUDGET OF THE COMMONWEALTH OF PENNSYLVANIA FOR THE FISCAL BIENNIUM 1931-1933

Submitted to the

GENERAL ASSEMBLY

By GIFFORD PINCHOT, Governor

February 3, 1931

## TABLE OF CONTENTS

## SECTION I

Summary of the Budget by Funds—Showing the Estimated Funds Available; the Amounts Estimated to be Expended under continuing Appropriations; and Total Appropriations Recommended by the Governor.

## SECTION II

Appropriations Recommended by the Governor for the Biennium 1931-1933; Deficiency Appropriations for the Biennium ending May 31, 1931.

## SECTION III

Revenues and Receipts to the Operating Funds—Showing Actual Amounts for the Bienniums 1925-1927 and 1927-1929, Actual and Estimated Amounts for the Biennium 1929-1931 and Estimated Amounts for the Biennium 1931-1933.

## SECTION IV

Appropriation Liabilities—June 1, 1929, and December 31, 1930.

## SECTION V

Statistics of the Free Service Rendered by the State-Aided Medical and Surgical Hospitals and the State-Aided Homes.

## SECTION VI

The Custodial Funds including the Sinking Fund; the Public Debt as of December 31, 1930.

## NOTE

The Estimates in the Budget are Based upon the Latest Available Information.

Statements of the Actual Classified Operating Expenditures of the State Government by Departments and Appropriations from June 1, 1925, to May 31, 1930, and Estimated Classified Operating Expenditures for the Year June 1, 1930, to May 31, 1931, based on Budgets submitted as of October 1, 1930, are presented in a supplement to the Budget under separate cover.

## SECTION I

## SUMMARY OF THE BUDGET BY FUNDS

SHOWING THE ESTIMATED FUNDS AVAILABLE; THE AMOUNTS ESTIMATED TO BE EXPENDED UNDER CONTINUING APPROPRIATIONS; AND TOTAL APPROPRIATIONS RECOMMENDED BY THE GOVERNOR.

## SUMMARY OF THE BUDGET FOR THE BIENNIUM 1931-1933.

## FUNDS AVAILABLE FOR OPERATING THE STATE GOVERNMENT DURING THE BIENNIUM 1931-1933

General Fund (see page 4) .....	\$ 188,097,829.81
Motor License Fund (see page 5) .....	154,110,009.83
Fish Fund (see page 6) .....	1,290,163.30
Game Fund (see page 6) .....	2,705,566.21
Banking Department Fund (see page 7) .....	1,509,159.05
Securities Commission Fund (see page 7) .....	467,226.93
State Farm Products Show Fund (see page 8) .....	110,200.51
Federal Allotment Forest Protection Fund (see page 8) .....	115,744.89
Federal Forest Nursery Fund (see page 8) .....	4,582.31

## TOTAL FUNDS AVAILABLE FOR OPERATING THE STATE GOVERNMENT DURING THE BIENNIUM 1931-1933 .....

\$ 348,410,482.84

Less: Funds Available in Special Funds Estimated to be Unexpended, May 31, 1933 (See Cash Balances May 31, 1933, pages 6 to 8)....

\$ 985,231.20

## TOTAL FUNDS AVAILABLE DURING THE BIENNIUM 1931-1933 ESTIMATED TO BE USED .....

\$347,425,251.64

## APPROPRIATIONS FOR 1931-1933 RECOMMENDED BY THE GOVERNOR

General Fund (see page 4, 11) .....	\$ 188,097,829.81
Motor License Fund	
Specific Appropriations (see pages 5, 41) .....	\$ 17,046,719.55
Continuing Appropriations by Act of 1929, P. L. 1046 (see pages 5, 41)	59,119,464.00
Amount Estimated to be Available for New Construction, Reconstruction, and the Rural Roads .....	77,943,826.28
Total Motor License Fund .....	\$ 154,110,009.83
Fish Fund (Appropriated by Act of 1929, P. L. 451) (see page 6) ..	\$ 1,034,365.00
Game Fund (Appropriated by Act of 1929, P. L. 444) (see page 6)	2,238,350.00
Banking Department Fund (Appropriated by Act of 1923, P. L. 809 and Amendments) (see page 7) .....	1,499,861.00
Securities Commission Fund (Appropriated by Act of 1927, P. L. 273 and Amendments) (see page 7) .....	236,031.00
State Farm Products Show Fund (Appropriated by Act of 1929, P. L. 823) (see page 8) .....	102,800.00
Federal Allotment Forest Protection Fund (Agreement with Federal Government) (see page 8) .....	102,000.00
Federal Forest Nursery Fund (Agreement with Federal Government) (see page 8) .....	4,005.00

## TOTAL BUDGET OF THE COMMONWEALTH FOR THE BIENNIUM 1931-1933 .....

\$347,425,251.64

## GENERAL FUND

## 1929-1931 BIENNIUM

Balance in State Treasury, June 1, 1929 .....	\$ 39,801,815.54
Actual and Estimated Revenue for Biennium 1929-1931 (see page 45)	192,504,529.40
Actual and Estimated Receipts Appropriated for Special Purposes for Biennium 1929-1931 (see page 45) .....	999,852.19

## 1931-1933 BIENNIUM

Estimated Cash Balance, May 31, 1931 .....			\$(3) 7,470,589.83
Less: Estimated Liabilities May 31, 1931, on account of Specific Appropriations (see page 88) .....			1,750,000.00
Estimated Cash Balance May 31, 1931, and Liabilities on Account of Specific Appropriations .....			\$5,720,589.83
Estimated Revenue Available for Appropriation, Biennium 1931-1933 (see page 53) .....			148,389,420.00
<b>TOTAL AVAILABLE FUNDS 1931-1933 .....</b>			<b>\$154,110,009.83</b>
Appropriations in Specific Amounts Recommended by the Governor for the Biennium 1931-1933 (see page 41 for details)			
Department of Highways .....	\$3,034,000.00		
Board of Finance and Revenue .....	13,562,719.55		
Department of Property and Supplies .....	200,000.00		
Public Service Commission .....	250,000.00	\$17,046,719.55	
Estimated Expenditures from Continuing Appropriations during the Biennium 1931-1933 (see page 41 for details)			
Department of Highways (see page 42) .....	\$51,910,589.00(1)		
Department of Revenue .....	7,088,875.00		
Board of Finance and Revenue .....	120,000.00	59,119,464.00	
Amount Estimated to be available for the Biennium 1931-1933 for new road construction, reconstruction and rural roads .....		(2) 77,943,826.28	
<b>TOTAL .....</b>			<b>\$154,110,009.83</b>

- (1) Includes funds to finance all liabilities of the Department of Highways as of May 31, 1931, except \$1,750,000.00, which is provided for in the Estimated Cash Balance of \$7,470,589.83.
- (2) All Available for a system of rural roads, new construction and replacements on the State Highway System unless operator's licenses and registration fees are reduced as recommended which will reduce this amount by approximately \$20,000,000.00 during the biennium.
- (3) It is estimated that all funds available during the 1929-1931 biennium will be encumbered on or before May 31, 1931, so the cash balance may be increased or decreased due to weather conditions which affect the progress of the work. Regardless of what the cash balance may be as of May 31, 1931, it will not change the amount of \$77,943,826.28 shown as "Amount estimated to be available for the biennium 1931-1933 for which no recommendations are made."

## FISH FUND

	Actual		Actual and Estimated 1929-1931	Estimated 1931-1933
	1925-1927	1927-1929		
CASH BALANCE, JUNE 1 .....	\$ 252,255.09	\$ 253,463.24	\$ 427,581.96	\$ 347,966.30
RECEIPTS				
Licenses and Fees .....	\$ 576,561.50	\$ 789,661.44	\$ 857,793.05	\$ 872,447.00
Fines and Penalties .....	34,449.70	38,558.60	40,356.50	36,250.00
Miscellaneous Revenue .....	14,225.36	23,423.28	35,385.65	33,500.00
TOTAL RECEIPTS .....	\$ 625,236.56	\$ 851,643.52	\$ 933,535.20	\$ 942,197.00
TOTAL AVAILABLE FUNDS .....	\$ 877,491.65	\$ 1,105,106.76	\$ 1,361,117.16	\$ 1,290,163.30
EXPENDITURES				
Board of Fish Commissioners				
Salaries and General Expenses .....	\$ 624,028.41	\$ 677,524.80	\$ 984,184.95	\$(2)1,001,965.00

TOTAL EXPENDITURES .....	\$ 624,028.41	\$ 677,524.80	\$ 1,013,150.86	\$ 1,034,365.00
CASH BALANCE, MAY 31 .....	\$ 253,463.24	\$ 427,581.96	\$ 347,966.30	\$ 255,798.30

- (1) Cost of collecting Fishing License Fees and Fines was paid from appropriation to the Board of Fish Commissioners these periods.  
 (2) Under the provisions of the Act of 1929, P. L. 451, there has been appropriated from the Fish Fund to the Department of Revenue such amount as is necessary to defray the cost of printing and distributing license forms and license tags and collecting resident and non-resident fishing license fees, and fines. The balance has been appropriated to the Board of Fish Commissioners for propagating and distributing fish and enforcing the Fish Law.

## GAME FUND

## SUMMARY OF APPROPRIATIONS, DEPARTMENT OF HIGHWAYS

Appropriation in Specific Amounts .....	\$ 8,302,940.89	\$ 8,725,000.00	\$ 35,060,000.00	\$ 3,034,000.00
Continuing Appropriations (Act of 1929, P. L. 1046) .....	33,640,487.73	67,806,519.82	107,653,688.00	51,910,589.00
Amount Estimated to be available during 1931-1933 for New Road Construction, Reconstruction and Rural Roads .....				77,943,826.28
Total .....	\$ 41,943,428.62	\$ 76,531,519.82	\$ 142,713,688.00	\$ 132,888,415.28

(1) Refund of Motor License Fund moneys and the cost of collecting Motor License Fees and Fines were paid by the Department of Highways these periods. Under the provisions of the Act of 1929, P. L. 1046, the Board of Finance and Revenue was authorized to refund Motor License Fund moneys and the Department of Revenue was provided with sufficient funds to defray the cost of collecting Motor License Fees and Fines and operate the State Highway Patrol.

## DEPARTMENT OF HIGHWAYS

## MOTOR LICENSE FUND APPROPRIATIONS (Continued)

Expenditures by Main Functions from the Continuing Appropriations to the Department of Highways for Maintenance, Repairs and Construction of Roads, Salaries and General Expenses (Act of 1929, P. L. 1046)

Functions	ESTIMATED EXPENDITURES	
	Biennium 1929-1931	Biennium 1931-1933
<b>MISCELLANEOUS IMPROVEMENTS</b>		
Construction of Retaining Walls .....	\$ 118,149	\$ 100,000
Construction of Guard Rail .....	1,694,610	1,500,000
Grade Crossing Elimination .....	2,917,828	3,000,000
Miscellaneous Work Under Agreement .....	326,228	300,000
<b>MAINTENANCE—STATE AND STATE-AID HIGHWAYS</b>		
General Maintenance .....	12,092,251	12,000,000
Resurfacing .....	3,897,265	4,000,000
Surface Treatment .....	3,615,918	3,000,000
Oiling .....	588,545	500,000
Snow Removal .....	2,572,675	2,500,000
<b>OVERHEAD AND ENGINEERING</b>		
General Administration—Field .....	2,587,458	2,500,000
General Administration—Central Office .....	1,474,841	1,400,000
Research .....	25,000	50,000
County Map and Route Survey .....	35,875	50,000
Advertising, Engineering and Inspection .....	7,837,539	7,000,000
<b>PLANT AND EQUIPMENT</b>		
Purchase of Road Tools, Equipment and Land .....	1,785,259	1,830,000
Construction of Buildings .....	766,886	100,000
Credit for Distributed Depreciation .....	2,261,466*	1,800,000*
Credit for Distributed Inventory Reduction .....	13,314*	
<b>MISCELLANEOUS</b>		
Construction of North Office Building .....	703,140	
Legislative Obligations .....	250,000	300,000
Miscellaneous Payments, Insurance, Etc. ....	338,394	300,000
Detours .....	1,427,768	1,250,000
Forestry Roads .....	197,490	200,000
Restoration of Pavements .....	60,650	60,000
Work for Other Departments .....	149,467	50,000
Equipment Costs—Special Appropriations .....	99,998

Replacements of Roads and Bridges .....	1,938,253	
New Construction of Flexible Types .....	4,434,511	11,720,589 (1)
New Construction of Rigid Types .....	36,848,774	
Grading and Drainage .....	1,126,668	
<b>TOTAL ESTIMATED EXPENDITURES</b>	<b>\$ 107,653,688</b>	<b>\$51,910,589 (1)</b>

\*Deduction.

(1) The estimate for 1931-1933 is based upon financing the obligations as of May 31, 1931, except the liabilities on account of unexpended balances of specific appropriations, and maintaining the present State Highway System, allowing \$6,000,000 for the replacement of county bridges recently taken over by the Commonwealth. It does not include any amounts necessary to finance the proposed Rural Road System and no provision has been made for additional new construction or replacement on the present State Highway System except just sufficient funds to pay for construction and replacement projects that are started prior to June 1, 1931, but remain uncompleted and unpaid for as of that date. Funds for new road construction, reconstruction and rural roads are included in the \$77,943,826.28 shown on pages 5 and 41 as "Amount estimated to be available for the biennium 1931-1933 for new road construction, reconstruction, and rural roads."
